## New Hampshire Care Management Technical Proposal and Addenda RFP # 12-DHHS-CM-01

# GRANITE CARE
# MERIDIAN HEALTH PLAN

Transmittal Cover Letter

December 16, 2011

Walter Faasen
Director of Contracts & Procurement
Department of Health and Human Services
Brown Building
129 Pleasant Street
Concord, NH 03301

**Re: Transmittal Letter**
**Request for Proposals # 12-DHHS-CM-01**

Dear Mr. Faasen:

Enclosed please find Granite Care - Meridian Health Plan of New Hampshire, Inc.'s ("Meridian") response to the Department of Health and Human Services Medicaid Care Management Services RFP submitted this 16th day of December, 2011. We are pleased to have had the opportunity to respond and are excited about the possibility of partnering with the State of New Hampshire to provide the high quality and cost-effective services it seeks.

The person authorized to contractually obligate Meridian is:

David B. Cotton, M.D.
President and CEO
777 Woodward Avenue, Suite 600
Detroit, MI 48226
phone: (313) 324-3701
email: dcotton@mhplan.com

Meridian's fiscal agent is:

Janice Torosian
CFO
777 Woodward Avenue, Suite 600
Detroit, MI 48226
phone: (313) 324-3704
email: jtorosian@mhplan.com

Meridian's representative for all matters relating to this RFP is:

Raymond Pitera
VP of Business Development
777 Woodward Avenue, Suite 600
Detroit, MI 48226
phone: (313) 324-3726
email: rpitera@mhplan.com

Meridian acknowledges that it has read this RFP, understands it, and agrees to be bound by all of its requirements. Meridian accepts all terms, conditions, and general instructions stated in Parts 8 and 9 – Mandatory Business Specifications, Contract Terms and Conditions without exception. Appendix B – Exceptions to Terms and Conditions is included in this proposal and indicates that Meridian does not take exception with any of the minimum requirements set forth therein.

Meridian expressly states and guarantees that its submitted Proposal is valid for a minimum of two hundred forty (240) days from the Closing Date for receipt of proposals and, as required by Section 5.7 of this RFP, that the prices, terms and conditions, and services quoted have been established without collusion with other bidders and without effort to preclude DHHS from obtaining the best possible competitive proposal.

Once again, we look forward to the prospect of collaborating with the State of New Hampshire to successfully implement this important program.

Very truly yours,

David B. Cotton, M.D.
President and CEO
Granite Care – Meridian Health Plan of New Hampshire, Inc.

2.5 OWNERSHIP AND CONTROL STATEMENT ..... 22
*Written Assurance* ..... *25*
3.1 COVERED POPULATIONS AND SERVICES ..... 26
3.2 TRANSITIONING TO THE CARE MANAGEMENT PROGRAM ..... 27
*Q1. Describe your experience with initiating similar programs for such a broad array of populations and service in an expedited manner.* ..... *27*
*Q2. Describe your proposed implementation approach for Step One* ..... *27*
*Q3. Describe your experience in managing care for dually eligible populations. What are the greatest challenges to meeting the needs of these groups?* ..... *29*
*Q4. Describe your experience in managing the full range of long-term services and supports, including in-home supports, residential care and nursing home services.* ..... *30*
*Q5. In 2014, if PPACA is still in place, a great number of consumers will routinely move between Medicaid and subsidized coverage available on a health benefits exchange. DHHS is interested in minimizing the impact of these transitions on consumers. Please describe your current interest in potentially offering a product on the*

*Health Benefits Exchange to allow members to maintain continuity of access to services as they transition from one program to another.* ..... 31
3.3 PHARMACY MANAGEMENT ..... 33
*Q6. Recognizing DHHS' PDL/Formulary approach, describe your general approach to pharmacy management. Provide specific details in the following areas:* ..... 33
Describe your Medication Adherence programs and how they are coordinated with your care management programs. .33
Describe your specialty pharmacy program and how it is coordinated with your care management programs. .....33
Describe your approach to pharmacy utilization management.....33
Describe your approach to pharmacy lock in programs. .....35
*Q7. Describe your academic detailing program or other programs that support evidenced-based physician prescribing.* ..... 36
*Q8. Describe your strategy to create a robust network of pharmacies across the State.* ..... 36
*Q9. Describe what role, if any, the pharmacies play in your disease and care management programs.* ..... 37
*Q10. Describe your strategies to promote the use of e-prescribing.* ..... 37
*Q11. Describe strategies you employ to make your formulary and prior authorization accessible to your provider network.* ..... 37
*Q12. In regards to pharmacy claims adjudication:* ..... 37
Who adjudicates your pharmacy claims?.....37
Describe how you ensure adequate oversight and monitoring of the pharmacy claims processor. .....37
If pharmacy claims are paid through a different claims platform than medical claims, describe how third-party liability information is coordinated and shared. .....38
If pharmacy claims are paid through a different claims platform than medical claims, describe how encounter data are aggregated.....38
If pharmacy claims are paid through a different claims platform than medical claims, describe how pharmacy utilization data are used in your disease and care management programs. Describe how pharmacy data are linked with Medical claims data at the member level in these programs. .....38
3.4 MEMBER ENROLLMENT ..... 39
*Q13. Describe your strategy and experiences with assisting members in retaining their Medicaid eligibility* . 39
*Q14. Describe the support and strategies you will employ to assist members who transition in and out of your plan, due to loss of Medicaid eligibility.* ..... 39
*Q15. Describe your experience collaborating with a State's enrollment assistance function and your strategies and processes to assist members in plan choice and enrollment.* ..... 40
*Q16. Describe your policies toward enrolling a newborn* ..... 40
3.5 MEMBER SERVICES ..... 41
*Q17. Describe how you will accommodate non-English speaking members in member services.* ..... 41
*Q18. Describe how you will accommodate members with special needs, including those who are deaf, visually impaired, persons with mental illness, or persons with cognitive impairments in need of additional assistance to understand information, in member services.* ..... 42
*Q19. Provide an organizational chart of the Member Services Department, showing the placement of Member Services within the MCO's organization and showing the key staff within the Member Services Department.* 43
*Q20. Describe the curriculum for training to be provided to Member Services representatives, including when the training is conducted and how the training addresses:* ..... 43
Our representatives also practice single call resolution, making every effort to resolve issues with the initial phone call. In cases where follow up is needed, it is initiated by the representative rather than the member or provider. .....44
Covered Services, including Behavioral Health Services and Community-based Long Term Services and Supports .....44
MCO Program requirements.....44
Special Populations, including those who are deaf, visually impaired, persons with mental illness, or persons with cognitive impairments.....44

Cultural Competency ..... 45
Providing assistance to Members with limited English proficiency ..... 45
*Q21. Describe how you would coordinate the current New Hampshire call center operations with your call center. Describe your proposed transfer protocols.* ..... 45
*Q22. Describe your experience operating member call centers. Provide details with regards to the following metrics from your other operations:* ..... 45
Average call answer time ..... 46
Call abandonment rate ..... 46
Representative to member ratio ..... 46
Average call length ..... 46
Interpretation services you are currently providing ..... 46
*Q23. Describe your anticipated call center operation for the New Hampshire plan, including: location of operations (if out of state, describe how it will accommodate services for New Hampshire)* ..... 46
*Q24. Describe the process in place to ensure that member calls pertaining to immediate medical needs are properly handled.* ..... 46
*Q25. Describe your plan for in-person member services availability, if any* ..... 47
Location(s) ..... 47
Services provided ..... 47
Accommodations for special needs populations ..... 47
*Q26. Describe how you will develop, engage, and utilize a consumer advisory board.* ..... 47
*Q27. Describe your approach for ongoing member communication and outreach.* ..... 48
*Q28. Describe your strategy for use of internet member services and other social media programs.* ..... 49
3.6 CULTURAL CONSIDERATIONS ..... 51
*Q29. Describe how you will assure cultural competency throughout your network. What training programs and support do you offer staff and providers regarding cultural competency?* ..... 51
*Q30. Describe how you will ensure that your provider network is ethnically diverse and similar to the demographic profile of your members.* ..... 51
3.7 ACCESS ..... 52
*Q31. Describe your approach to building a viable network of services in the rural areas of New Hampshire and how you will ensure access to primary and specialty care in these areas.* ..... 53
*Q32. Describe your strategies for provider recruitment for providers who currently do not accept Medicaid.* 53
*Q33. Submit a list of all providers, by provider type/specialty, in New Hampshire in your network, or who are expected to be in your network. Include an indication of the level of agreement that has been reached at the time of the RFP response. (Refer to the GIS Instructions - Appendix A).* ..... 54
*Q34. Identify the projected ratio of primary care and specialty providers to members by county and the rationale you have used to determine that the network is sufficient.* ..... 54
*Q35. Describe how you will ensure that members have access to providers who are knowledgeable about genetic or chromosomal condition(s) and related health risks, and understand the issues of health disparities for individuals with intellectual/developmental disabilities and the prevention and management of secondary disabilities.* ..... 55
3.8 PROVIDER NETWORK MANAGEMENT AND REQUIREMENTS ..... 56
*Q36. Describe your strategy for ongoing provider communication and outreach. Include a description of the mechanisms you currently use and will use to communicate with providers and the content you anticipate including in communications.* ..... 59
*Q37. Describe how you will develop, engage, and utilize a provider advisory board. Describe the approach you currently take and will take to assess provider satisfaction, including tools you plan to use, frequency of assessment, and responsible parties.* ..... 60

*Q38. Describe your experience with conducting provider surveys and your provider survey methodology. Also summarize the results of the provider surveys for other state's managed care programs you administered..... 60*
*Q39. Describe your process for using input derived from the advisory board and surveys to inform possible changes in program design and/or administration. ..... 62*
*Q40. Describe your experience in other state's managed care programs you administer – the percentage of providers who you have credentialed compared with the provider population and how many providers were added or terminated during the first 3 years of the programs' implementation date..... 62*
3.9. PAYMENT REFORM ..... 63
3.10 BEHAVIORAL HEALTH SERVICES ..... 64
*Q41. Describe your plan for implementing delivery system and payment reform. Describe your approach to creating partnerships with providers to support health care reform. ..... 65*
*Q42. Describe your experience with creating value-based payment arrangements, episodes of care payments, sub-capitation arrangements, and Incentive programs and their impact on improved quality and reduced cost. ..... 67*
*Q43. Describe your approach to Behavioral Health delivery system and payment reform in other states. ..... 69*
*Q44. Describe your direct experience in developing partnerships with Community Mental Health Centers. Separately describe your past and present subcontracting arrangements for individuals experiencing serious mental illness or serious emotional disturbance. ..... 69*
*Q45. Describe your direct experience in service delivery and payment for services for persons with serious mental illness and serious emotional disturbance requiring long-term care services and supports. ..... 71*
3.11 CARE MANAGEMENT OVERALL APPROACH ..... 73
*Q46. Describe your overall approach to care management and how you integrate wellness, prevention, and chronic care management into one seamless program. ..... 75*
*Q47. Describe how your member education program supports your overall wellness and chronic care management programs. ..... 77*
*Q48. Describe your approach to wellness and prevention services. What strategies are you proposing to encourage member use of wellness and prevention services? Describe your experience with these approaches and document the outcomes of those strategies. ..... 79*
*Q49. Describe your proposed smoking cessation program, particularly smoking cessation for pregnant women. Provide information on the outcomes of similar programs you have deployed. ..... 82*
*Q50. Describe your strategy to reduce childhood obesity. Provide information on the outcomes of similar programs you have deployed. ..... 83*
*Q51. Describe what web based and/or telephonic tools you provide to assist members with their health care choices. ..... 83*
*Q52. Describe how you identify new and existing members who have the greatest need for care coordination and how you provide this coordination. ..... 85*
*Q53. Describe how you will assist members in identifying and gaining access to community resources that may provide services that the managed care program does not cover, but which support the member's overall healthcare needs and goals. ..... 87*
*Q54. Members who require care management are more often transient, difficult to locate, homeless, and difficult to engage. Describe the strategies that you will utilize to address these barriers to care management. ..... 88*
*Q55. Describe how members are engaged with the development of their care plan and how they are encouraged to follow that plan. ..... 89*
*Q56. Describe your process for communicating with members about their primary care provider assignment, ensuring/encouraging members to use their assigned provider, and ensuring/encouraging members to keep their scheduled appointments. ..... 89*

*Q57. Describe your programs and time needed to support practices to attain NCQA patient centered medical home certification.* ..... *90*
*Q58. Describe your experience, approach, and time needed to supporting Health Homes as defined by SAMSHA.* ..... *91*
*Q59. Describe your process and procedures for coordinating and facilitating nonemergency transportation for your members.* ..... *92*
*Q60. Describe your direct experience in managing substance abuse benefits provided through Medicaid programs, including Screening, Brief Intervention and Referral to Treatment (SBIRT).* ..... *92*
*Q61. Describe your organizational approach to the following: data sharing and integration to promote care coordination for members with special needs, such as mental illness, substance use disorders, and Human Immunodeficiency Virus (HIV).* ..... *93*
*Q62. Describe your experience managing the listed disease states. Include empirical evidence of health outcomes your members have experienced through your chronic care management programs.* ..... *94*
*Q63. Describe how you provide care management to children and youth involved in the child protection and/or juvenile justice systems as well as children in foster home/group home/residential placements.* ..... *94*
*Q64. Describe your proposed chronic care management program, including:* ..... *95*
Any additional diseases you will target. ..... 96
Your risk stratification methodology. ..... 96
Your outreach strategies to members requiring disease management services. ..... 97
The interventions you will implement for members of each risk level. ..... 97
Your approach to telephonic interventions and face-to-face interventions. ..... 98
How you engage the member's primary care physician and other providers in developing and implementing a care plan. ..... 99
Your approach for managing members with multiple co-morbidities. ..... 99
How you will integrate your disease management programs with the member's primary care provider's care management responsibilities. ..... 100
Your approach to coordinating community resources for members in the disease management program. ..... 101
Describe your proposed approach to transitioning members who were receiving care management support from DHHS prior to enrollment in the MCO. ..... 101
Describe your approach for handling high-cost/high-risk individuals. ..... 101
Describe your organizational approach to the following: Aligning systems and management practices, including provider contracts, credentialing, training, and reimbursement policies; practice protocols; services authorization policies; benefit and non-MCO service coordination policies and protocols; and your quality assurance mechanisms, to promote care coordination of members with special needs, such as substance abuse disorders and HIV. ..... 103
Children and youth in foster home/group home/residential placements ..... 104
*Q65. Describe your organization's experience with managing the care of children in the child protection systems and/or juvenile justice system (e.g., foster care).* ..... *104*
*Q66. Describe your approach to providing care management to children and youth involved in the child protection and/or juvenile justice systems as well as children in foster home/group home/residential placement.* ..... *105*
Identify children in the child welfare and child protection system. ..... 105
Initiate services and conduct a comprehensive health assessment. ..... 105
Develop and monitor a care management plan in consultation with the child's primary DHHS case manager based on the health assessment and including all disease management or behavioral health needs. ..... 105
Assure continuation of care when the child/family leaves the child welfare/child protection system. ..... 105
*Q67. Describe your approach to assuring the coordination with supporting community resources for children and families in child welfare and child protection system.* ..... *105*
3.12 QUALITY MANAGEMENT ..... 106
*Q68. Describe your proposed Quality Management Program for your New Hampshire offering.* ..... *108*

*Q69. While DHHS will be choosing measures, describe how you would select measures to include in the QIP and offer recommendations of measures to include.* ..... *109*
*Q70. Describe how you recommend DHHS establish improvement goals.* ..... *110*
*Q71. Please provide your strategy for improving the following measures in the first year of the contract and over the longer term. Four of the below measures will be chosen by DHHS prior to contract finalization as part of the quality incentive payment program for year 1. It is the intent of the Department to require member Satisfaction to be one of the four.* ..... *111*
Member Satisfaction (overall plan, call abandonment/timeliness) from CAHPS ..... 111
Smoking Cessation among Pregnant Women ..... 111
Coordination of Care for Children with Chronic Conditions Composite from CAHPS ..... 113
Shared Decision Making Composite from CAHPS ..... 114
Adolescent Well Care Visits ..... 114
Follow up after Hospitalization for mental illness (7 days and 30 days) ..... 115
Cholesterol Management for Patients with Cardiovascular Conditions ..... 115
Reduction in child & adult BMI ..... 116
3.13 EARLY PERIODIC SCREENING, DIAGNOSIS AND TREATMENT ..... 117
*Q72. Describe your plan to meet the EPSDT requirements of this RFP.* ..... *117*
3.14 UTILIZATION MANAGEMENT ..... 120
*Q73. Describe your approach to utilization management, including:* ..... *120*
Lines of accountability for utilization policies and procedures and for individual medical necessity determinations; ..... 120
Data sources and processes used to determine which services require prior authorization and how often these requirements will be reevaluated; ..... 121
Process and resources to develop utilization review criteria, as well as specifically address how you use clinical evidence and comparative effectiveness research in the management of utilization and your approach when such evidence or research is insufficient or absent in the medical literature; ..... 122
Prior authorization processes for members requiring services from nonparticipating providers; ..... 123
Prior authorization processes for members who require expedited prior authorization review and determination due to conditions that threaten the member's life or health; and ..... 123
Processes to ensure consistent application of criteria by individual clinical reviewers ..... 123
*Q74. Describe how you identify provider utilization patterns to improve care and reduce costs.* ..... *124*
*Q75. Describe how under-utilization, over-utilization, and inappropriate utilization of services are detected and monitored, as well as processes to address opportunities for improvement.* ..... *124*
*Q76. Describe the type of personnel responsible for each level of utilization management, including prior authorization and decision-making. Provide a narrative description of your prior authorization processes.* *125*
*Q77. Describe your process for emergency department utilization review and identification of members with high utilization. What strategies to reduce high emergency department utilization will you implement?* ..... *129*
*Q78. Describe your methods of assuring the appropriateness of inpatient care. Such methodologies shall be based on individualized determinations of medical necessity in accordance with utilization management policies and procedures.* ..... *132*
*Q79. Describe your management techniques, policies, procedures or initiatives you have in place to effectively and appropriately control avoidable hospitalization and hospital readmissions. Describe your strategy moving forward to improve performance in this area.* ..... *132*
3.15 DATA REPORTING REQUIREMENTS ..... 134
*Q80. Provide relevant reports from at least two other states describing accuracy and timely submission of encounters.* ..... *134*
3.16 GRIEVANCE AND APPEALS ..... 135
*Q81. Describe your complaint and grievance process specifically addressing:* ..... *135*
Compliance with State requirements ..... 135

Levels of review and timing ....135
Process for expedited review ....136
How complaints and grievances are tracked and trended and how you use the data to make changes to procedures and processes ....136
3.17 FRAUD AND ABUSE .... 138
*Q82. Describe any front-end claims editing/auditing functionality that you are proposing.... 142*
*Q83. Describe how you propose communicating suspected incidents of fraud to DHHS.... 143*
*Q84. Describe, in detail, the fraud and abuse program that you will implement including:.... 145*
Fraud detection methods that will be used ....145
Plan for compliance with the Exclusion Program of the United States Department of Health and Human Services Office of the Inspector General or any provider restrictions imposed by the State ....147
*Q85. Describe your experience with fraud recovery collection. Provide any empirical evidence of your collection success rate when fraud is identified.... 148*
*Q86. Describe your experience administering provider and pharmacy lock-in programs. Include any empirical evidence on their effectiveness.... 149*
*Q87. Besides lock-in programs, describe other fraud and abuse prevention programs that you would propose to operate across the FFS program and the MMI.... 150*
*Q88. Describe any internal training programs that your MCO uses to train employees to recognize and report patterns of fraud and abuse.... 151*
*Q89. Describe how you engage members in preventing fraud and abuse.... 152*
3.18 THIRD-PARTY LIABILITY .... 154
*Q90. Describe your TPL recovery experience. Provide empirical evidence of your collection percentage against TPL identification.... 154*
*Q91. Describe how you will maximize the identification and recovery of TPL.... 155*
*Q92. Describe your method and process for capturing third-party resource and payment information from your claims system.... 156*
*Q93. Describe the process you use for retrospective post-payment recoveries of health-related insurance, as well as your process for adjudicating a claim involving an auto accident.... 156*
*Q94. Describe your collection rate of TPL when a third-party payer is identified.... 156*
*Q95. Describe your process for sharing TPL information with DHHS.... 156*
3.19 ADMINISTRATIVE QUALITY ASSURANCE STANDARDS .... 158
*Q96. Describe your internal claims quality review program, including staffing, type and frequency of reviews, sampling methodologies, definitions of errors, performance measure calculations, and performance standards.... 158*
*Q97. Provide the results of your internal claims quality review program for the past 12 months.... 159*
*Q98. Describe any failures to meet claims accuracy standards for any of your contracts over the last two years that resulted in not meeting your service level agreements with your customers. Describe the steps you took to correct these situations.... 159*
*Q99. Describe any other administrative quality assurance monitoring conducted by your organization.... 159*
*Q100. Describe your processes and procedures to monitor claims payment timeliness, including operational monitoring reports and business practices employed to monitor and address aging claims.... 160*
*Q101. Describe the current claims payment timeliness standards used within your organization.... 160*
*Q102. Provide your organization's actual performance for the last 12 months in relation to your claims payment timeliness standard.... 160*
*Q103. Describe the system you use to process claims.... 162*
3.20 DELEGATION AND SUBCONTRACTORS .... 163

*Q104. Describe your subcontracting plan, in detail, if you intend to subcontract with other entities to perform portions of the Scope of Work.* ..... 163
*Q105. List the names and addresses of the Subcontractors to be used, as well as their location(s).* ..... 163
*Q106. Describe the services that the Subcontractor will provide and provide evidence of their experience providing those services.* ..... 164
*Q107. Describe how you will monitor the performance of your subcontractors to ensure all RFP and Sample Contract requirements are met. Provide sample reports showing any actions taken to improve performance and ensure positive results.* ..... 166
*Q108. Describe data you will transfer with your subcontractor(s) and how that data will be transferred.* ..... 166
*Q109. Describe how subcontractors are integrated with your care management programs.* ..... 167
*Q110. Describe how subcontractors are integrated with your TPL and fraud and abuse programs.* ..... 168
*Q111. Describe any sanctions or penalties that apply if the subcontractor fails to perform up to the expectations of your organization. Attach sample performance monitoring reports.* ..... 169
3.21 PRIVACY AND SECURITY OF MEMBER INFORMATION ..... 170

# GRANITE CARE
# MERIDIAN HEALTH PLAN

Executive Summary

## Executive Summary

New Hampshire is a leader in developing a Medicaid program that consistently outperforms national HEDIS averages while incorporating cost containment strategies atypical of the fee-for-service world. The state's implementation of utilization management and quality improvement practices, its focus on preventive care, its belief in measuring and monitoring outcomes and its openness in communications and information have helped to build and foster a system that consistently delivers high quality care to its members. Granite Care - Meridian Health Plan of New Hampshire, Inc. ("Meridian") shares these goals.

Meridian is a patient-centered managed care organization offering a commitment to improve the value, quality and efficiency of care of the New Hampshire Medicaid program and a track record of successfully delivering results in those areas. We provide a personalized approach to delivering managed care, preferring to partner with the state to deliver services to the specific needs of the population while focusing on local details to meet the state's objectives.

Our mission is to continuously improve the quality of care in a low-resource environment. As a physician-owned and member-focused organization, we blend innovative proprietary technology with a commitment to premier service. We embody the "Triple Aim" concept so important to our industry:

1. Improve the health of the population
2. Enhance the patient experience of care (including quality, access and reliability)
3. Reduce the per capita cost of care

Successful partnerships begin with shared values. Meridian delivers outstanding quality of care while streamlining the value of care delivery. Our focus on innovative, coordinated programs allows us to tear down traditional healthcare silos, instead emphasizing the patient-focused delivery of services while maximizing the potential for savings. The following list highlights the values shared between Meridian and New Hampshire.

**Increasing the quality of care**

*Meridian ensures member's access to health services and facilitates the provision of the highest quality health care necessary in improving beneficiary health outcomes.*

- From members to providers, from claims to compliance, quality is Meridian's top priority, permeating all facets of our organization. Achieving high quality of care requires available access to the necessary services, well-credentialed in-network providers, and member outreach ensuring health literacy. As a physician-owned and member-focused organization, Meridian's mission is to continuously improve the quality of care in a low-resource environment. We take that pledge seriously and offer these measurables to demonstrate our commitment:

*Meridian's expertise in managing populations with complex physical, behavioral and social needs*

- Our clinical infrastructure identifies high-risk members necessary in coordinating the specific care needed, as well as facilitating a preventive and proactive delivery of education and treatment. Meridian's development of award-winning software enables predictive analysis with the goal of personalizing member management. The aforementioned software technology assists in identifying the right care at the right time for the right member. It amounts to evidence-based, patient-centered care being delivered in the most efficient manner possible.

**Decreasing the cost of care**

*Meridian delivers value and efficiency of care while providing cost savings and predictability to state budgets*

- Our cost proposal exceeds New Hampshire's $16 million savings expectation. Meridian's care coordination model has yielded large-scale savings, which compound favorably over time as we continue to implement new initiatives. Managed care has demonstrated significant savings over fee for service programs; in Michigan, where Meridian operates the state's largest Medicaid health plan, managed care has saved $4.5 billion over the last 10 years.
- Meridian drives value throughout managed Medicaid programs. Our focus on quality leads to long-term and sustainable savings. The use of integrative technology streams efficiencies throughout the state. Most importantly, instead of releasing those savings to shareholders in the form of dividends, Meridian invests back into the system, continuously improving the environment and ultimately, member health outcomes.
- Meridian's Formulary Management services enhance member health outcomes while monitoring the value of care. Our average prescription drug savings of 25% translates to a yearly savings of $23 million in New Hampshire (calculated from the $92,036,010 total prescription drug expenditure reflected in the New Hampshire Medicaid Annual Report: State Fiscal Year 2010).

*Meridian operationalizes innovative utilization management programs that focus on member quality of care while streamlining the cost of service*

- Meridian's chronic obstructive pulmonary disease (COPD) Home Program successfully decreased the average rate of admission and emergency room (ER) visits per member from over 3.3 to approximately 0.2 admits per member. Members in this program also received intensive smoking cessation education and support. Of the members who completed the program, 66% successfully quit smoking.

| MEMBERS COMPLETED | ADMISSIONS | ADMIT/MEMBER |
|---|---|---|
| Admissions/Observations 2 Months Prior to Program | | |
| 82 | 277 | 3.37804878 |
| Admissions/Observations After Program Enrollment to 2 Months | | |
| 82 | 19 | 0.231707317 |

- Our Post-Acute Support System (PASS) program has successfully reduced inpatient and ER cost, while also showing an upward trend in primary care provider (PCP) visits, for member's post-acute care services.

**Integrating innovative programs and methods throughout the system**

*Meridian creates innovative programs that support transformational change within the health care system*

- Meridian offers more than the traditional managed care organization. With a belief in integrative care models, we partner with providers to streamline the delivery of care while ensuring that appropriate care is delivered at the appropriate time.
- Meridian's innovative programs are supported by Managed Care System (MCS), our award winning proprietary software platform. Meridian is unique in that our system is an integrated enterprise-wide solution that encompasses all aspects of our operations. Backed by an in-house team of technologists, we are able to customize applications specific to the state's needs, integrating those applications with state systems to enhance collaboration and shared decision-making, and creating a single source of data regarding member care.

  A three-time winner of *CIO Magazine's* CIO 100 Award, Meridian has also been recognized by the Michigan Association of Health Plans for using technology to improve member outreach.
- We partner with facilities to administer the Better Outcomes for Older Adults Through Safe Transitions (BOOST) Program, a national project used to improve the hospital discharge process and reduce 30-day readmission rates. BOOST is led by a national advisory board with recognized leaders in care transitions.

**Understanding local needs and objectives**

*Meridian offers programs tailored to New Hampshire's unique needs*

- Meridian has the resources to provide major functions in-house, offering New Hampshire a level of flexibility and responsiveness that other plans cannot match. At the same time, we are small enough to be a highly involved and responsive local organization. For example, every New Hampshire primary care provider (PCP), OB/GYN, and high volume specialist will receive a monthly face-to-face visit from

our provider relations staff to review outstanding member HEDIS services, answer questions, address concerns, and discuss community partnership opportunities.

- Meridian stands apart from the competition by providing the highest levels of customer service to our members, providers and state partners. Our Granite Customer Care Factor includes:
  - Single Call Resolutions with every phone call answered by a live employee
  - Support for all languages spoken in New Hampshire as indicated by the 2010 Census
  - Call Answer Timeliness (CAT) and Call Abandonment (CAB) rates that score in the top 5% of call centers nation-wide

| Call Answer Timely and Abandonment Rate | | | | |
|---|---|---|---|---|
| | Meridian CAB | National CAB | Meridian CAT | National CAT |
| | | 90th | | 90th |
| 2009 | 0.69% | 1.09% | 98.34% | 92.79% |
| 2010 | 0.64% | 0.86% | 98.81% | 93.63% |
| 2011 | 0.63% | 0.93% | 98.94% | 94.69% |

- Meridian's experience serving rural areas benefits New Hampshire. Our model provides extensive informational and technological support to all providers, regardless of location. Access challenges could, ironically, become more pronounced under health reform as the Medicaid expansion and Exchange populations substantially increase the number of rural residents with health coverage. The Affordable Care Act's provisions do not increase the size of the provider delivery system in rural areas and, in many ways, incentivize providers to join larger practice groups typically not present in rural geographical locations. As a result, Meridian's broad array of access-enhancing techniques will prove critical in addressing the likely influx of individuals receiving Medicaid and the subsequent increased demand for services resulting from health reform.
- Local people know their communities, and as a result, Meridian is committed to hiring locally in New Hampshire. Our recognition as a Top 100 Workplace by the *Detroit Free Press* for our work in Michigan shows the value we place on our workforce. We are an attractive organization to work for, to do business with and to receive health care services from as a member. Meridian enjoys low turnover rates with our employees, our provider network and our Medicaid membership.

*Meridian understands New Hampshire's three-step plan to transition to the Care Management Program including its fit with the Patient Protection and Affordable Care Act (PPACA)*

- Meridian is positioned to meet an operational effective date of July 1, 2012 and is prepared for the scheduled implementation of Step Two one year later with Step Three commencing on January 1, 2014. We immediately offer a comprehensive network of high quality physicians, hospitals and pharmacies.

- Meridian will provide the initial two years of funding for the creation of a Medicaid Managed Care Advisory Group comprised of key New Hampshire stakeholders including representatives from each Medicaid MCO, various providers, DHHS-OMBP, beneficiaries and advocates. We believe the Advisory Group will be valuable to New Hampshire, serving as a venue to share and expand best practices for managed care, identify problem areas and develop solutions to address them, thus supporting the successful transformation of New Hampshire's Medicaid program. By forming this Advisory Group, we will help create a culture of collaboration whereby all stakeholders continually work together to achieve better health outcomes and to maximize the cost savings of the program in clinically beneficial ways. While the current procurement environment creates a highly competitive situation among the MCOs, New Hampshire is best served in creating a collaborative environment focused on quality and cost containment.

Proposal Narrative Project Approach
And Technical Response

# Proposal Narrative, Project Approach, and Technical Response

## 2.4 Managed Care Information System

Meridian's custom developed Managed Care System (MCS), is an integrated enterprise-wide solution that encompasses all aspects of our operations. The end result is an integrated member/provider profile that delivers high quality of care with streamlined efficiency while being highly available. Our integrated system is used to:

1. Manage member and provider data
2. Submit, approve, deny and appeal authorizations
3. Pay and deny claims
4. Process, track and report on member grievances and provider appeals
5. Initiate, investigate and route fraud, waste and abuse cases
6. Manage members in Case Management and Disease Management programs
7. Process authorizations
8. Process claims
9. Submit employee time sheets

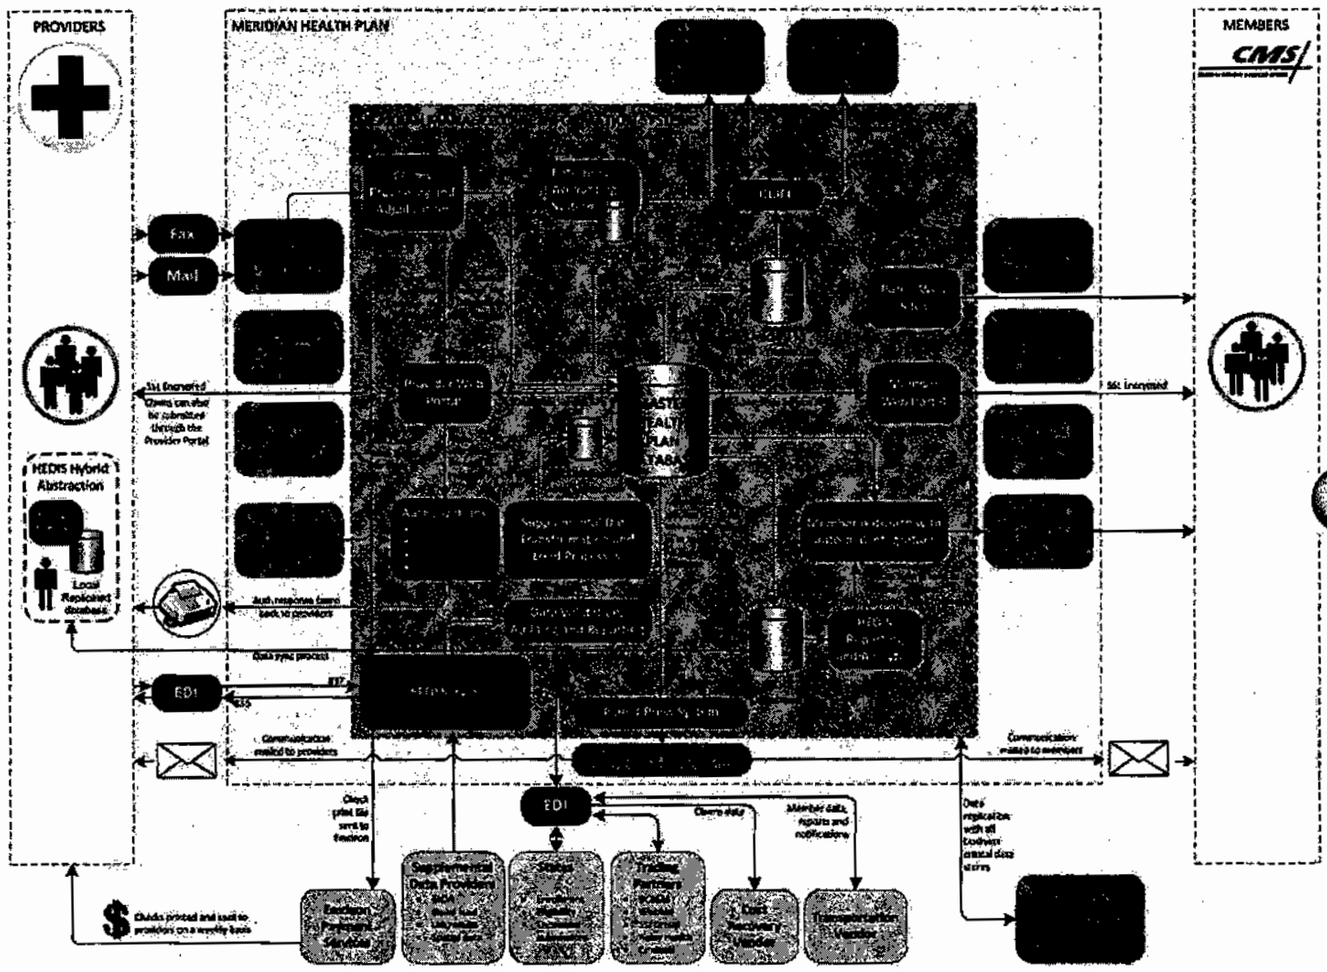
Additionally, MCS allows many employees to manage their daily workflow through online work list screens, providing a single point to initiate, assign, and automatically route work to the appropriate destination. Consequently, MCS is an integral part of all Meridian functions. Its flexibility and ease of customization are significant factors in the continued success of Meridian as a whole.

Meridian's information technologies offer the following advantages:

- **Quality Workflow and Efficiency** - Meridian's vision is to be the #1 Medicaid Health Plan in New Hampshire based on quality, innovative technology and service to our members. Our commitment to using the latest technology to deliver high quality and efficiency of care drives our enterprise optimization approach when designing our systems and applications. MCS automatically routes processes ensuring consistent quality and rapid turnaround times. Our attention to member, provider and end-user needs assures continuous improvement, while also providing the adaptability to meet the needs of unique state requirements. Our ability to customize MCS to meet unique or changing demands provides a notable advantage in the marketplace. Finally, our systematic focus on HEDIS preventive care allows us to set the bar for what excellence in our industry entails.
- **Integration** – Meridian's streamlined information flows through open connections to partner platforms providing a tremendous advantage when sharing information. We set the standard for linking applications between health plan, state and outside vendors. As evidence, the State of Michigan uses Meridian as a test site when implementing new requirements, regulations, procedures and systems. The use of common data formats, definitions and types allows Meridian to act as a responsible data steward when working with state agencies.
- **Reliability and Security** - Meridian's provides highly available services ensuring that the advantages of these systems and applications are always accessible. Our secure content delivery means that members and providers can rest assured that their data is safely used to better the quality of their care.

- **Analytics and Business Intelligence** – Meridian's analytics intelligence allows us to identify member and provider trends. Improved decision-making improves our high quality service and delivers cost saving efficiencies. Information must be analyzed and dissected with extreme efficiency to truly improve health outcomes and manage costs. Meridian's expertise in data warehousing and mining provides the most accurate, cutting edge and up to date metrics available in the healthcare industry.

Below is a high-level overview of Meridian's MCS:



Meridian's developed a business strategy allowing it to break away from the traditional health maintenance organization (HMO) business model. Shifting from a traditional "managed care" model to a "care management" model meant improving health care outcomes and customer service indicators, rather than denying care and negotiating fee discounts from providers and vendors. Meridian's executive leadership made the transition from adapting to changes in the healthcare environment to creating change in healthcare by improving the manner in which healthcare services are delivered. To support this strategy MCS was designed and developed internally instead of purchasing an off-the-shelf software package.
As an example, MCS's personalized information campaigns target increased health fluency and awareness of preventive health measures. The integration of Meridian's internal print shop with MCS allows standard print jobs to automatically print and mail at specified intervals. The integration of care related data enables the use of variable data to create mailings personalized to member needs. The streamlining of print requests creates operational efficiencies and increased productivity among staff. The connection of MCS to the mailing system ensures the security and accuracy of member information and provides the ability to exert strict control over members protected health information. By printing in-house, Meridian retains full control over this highly sensitive information.

MCS Capabilities

***Member Services***

Meridian will receive monthly 834 formatted enrollment files from New Hampshire. This file will be loaded into MCS to update member eligibility. The in-bound data process will also populate fields such as member name, date of birth, gender and case number, third party liability data fields, and member eligibility and PCP history. In addition to the monthly enrollment file, Meridian can also receive daily and weekly enrollment files and pending member update files.

MCS contains multiple screens for active and inactive members MCS displays the necessary information to verify identity in accordance with HIPAA guidelines thus keeping member data secure at all times. These screens include:

- Demographic information
- Authorizations
- Outstanding HEDIS measures
- Eligibility and PCP history
- Data from medical and pharmacy claims
- Coordination of benefits
- A record of all communication between the member and the health plan
- Any HEDIS exclusions a member may have

MCS uses alerts and a notification system to proactively notify staff and off-site providers regarding members meeting certain criteria like being due for HEDIS measures, having third party insurance, needing a welcome call, or having case management needs. These alerts appear in red letters in the Member and Authorization screens in MCS, although full descriptions are used in certain instances. When users see an alert, they know based on real-time information, if a member needs certain services or is in a specific program so they know what to focus on and cover with the member before getting off the phone.

MCS displays the necessary information to verify identity in accordance with HIPAA guidelines.

MCS also includes a notification system allowing notices to be sent to internal workgroups like Member Services, Case Management, Disease Management and Behavioral Health from employee, members, and providers

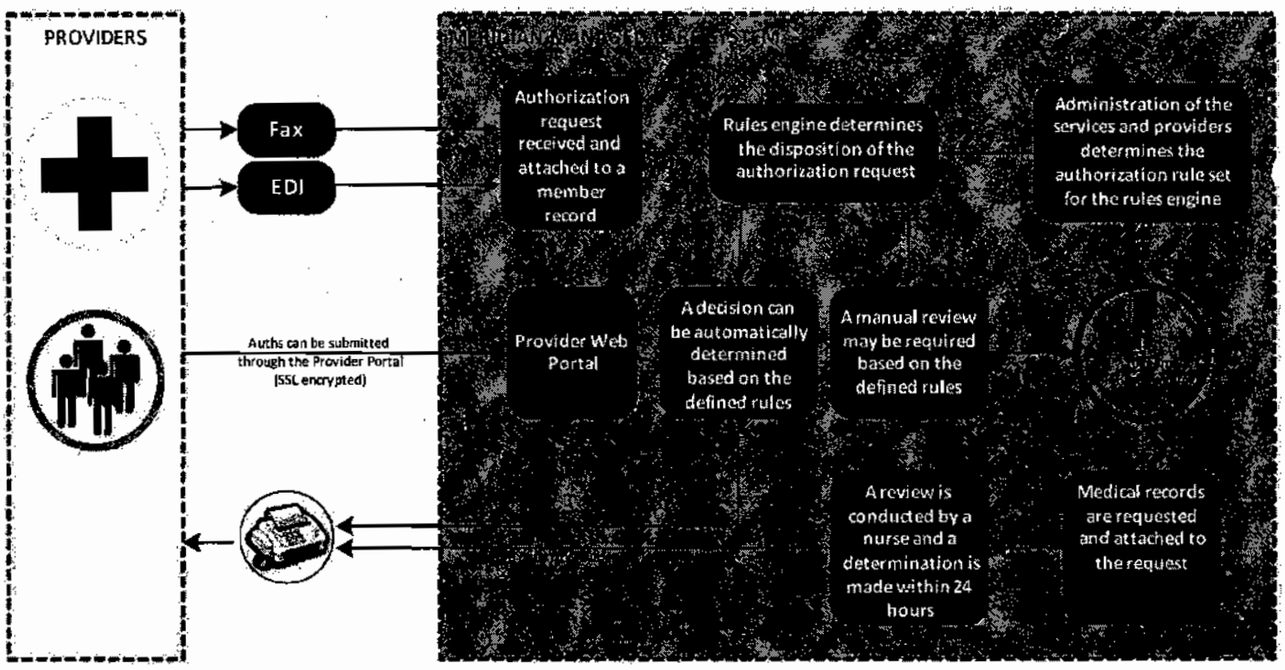
The benefits accomplished with these alerts and notifications are:

- All employees are informed of specific member information and needs that are current, accurate and available in real-time
- All member data changes and notifications are tracked efficiently in one, integrated system
- It ensures that the correct department is updating information and following up on member needs

MCS alerts and notifications guarantee effective communication between the different departments of Meridian and off-site providers working with members.

***Quality and Utilization Management***

Meridian has a robust and efficient process for receiving, analyzing and determining the disposition of authorization requests. This process uses MCS to be as streamlined and automated as possible. Below is a process flow to visually depict the authorization process.



Providers can submit authorizations by faxing the information directly to MCS or by entering an authorization request in the Provider Web Portal. When an authorization request is first received, it is attached to the member record and routed to a rules engine. The rules engine uses a configurable rule set to determine the disposition of the request. The disposition can be automatically determined or it may be flagged for a manual review. If it is automatic, the system will generate an automated fax response back to the provider. If a manual review is required,

medical records will be requested and associated to the member's request. A nurse will review the records and make a determination within a 24 hour time frame. Once the determination is made, the nurse will initiate an automated fax response to be sent back to the provider.

*Claims Processing*

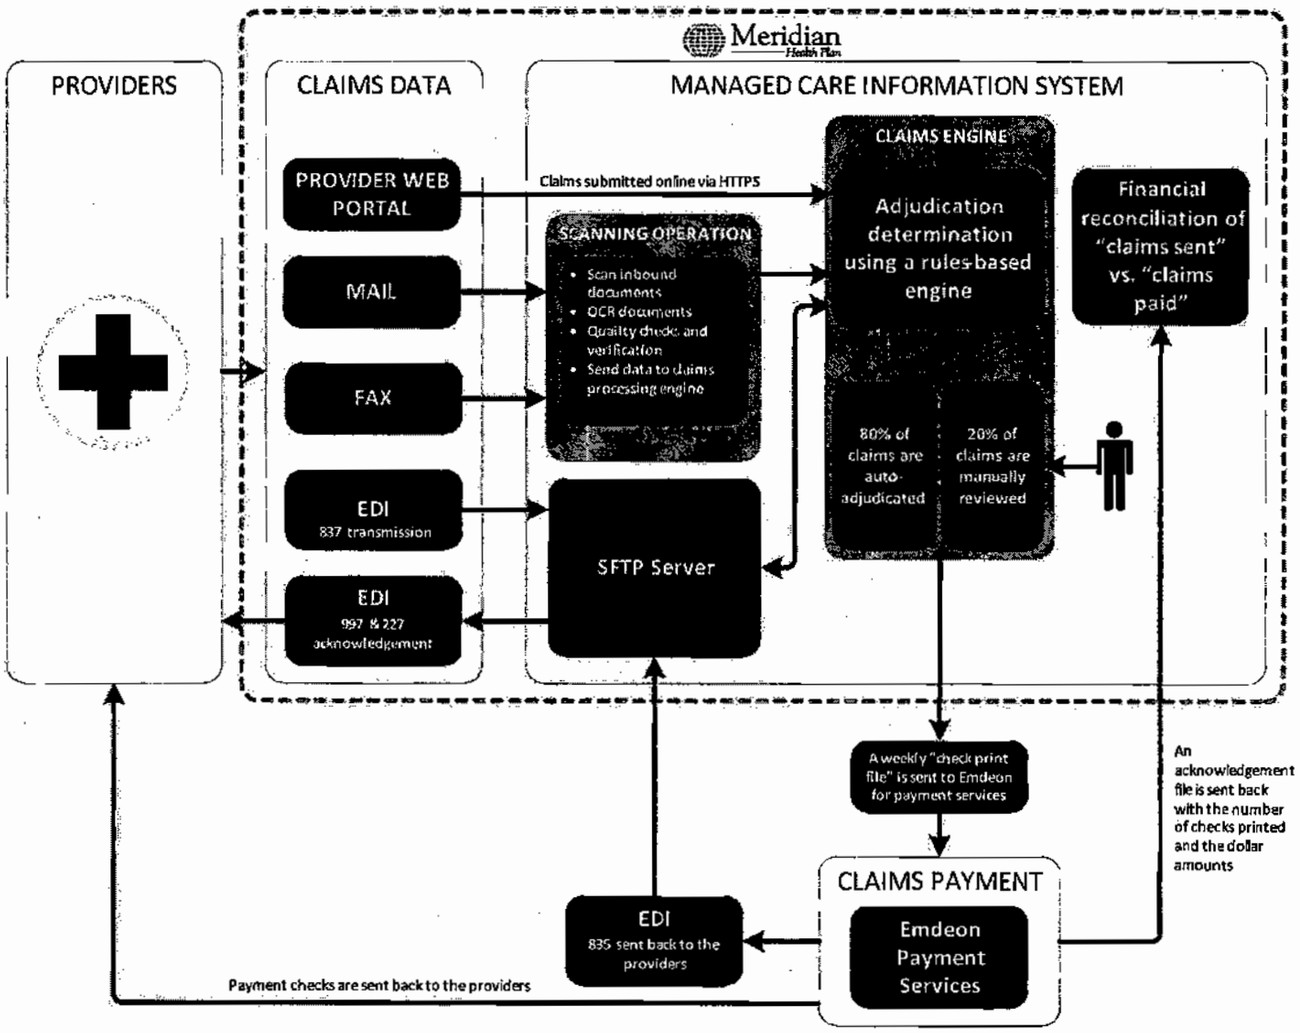
Meridian will accept claims via mail, fax, EDI or through the Provider Web Portal. For scanned claims, the Scanner Operator sorts the claims received via mail (based on claim type and single vs. multipage) and separates them into batches. After items are scanned into the SunGard Workflow system, the Scanner Operator observes the system count to ensure the correct number was scanned into SunGard.

Providers submitting via EDI may place 837 transmissions on Meridian's SFTP site, or Meridian may pull transmissions from the Provider's site. Meridian's SFTP site is configured as a secure FTP site and a user ID and password, or server key authentication are required.

An automated job is used to pull 837 files from the Provider FTP sites and the Meridian FTP site into an input directory. The MCS claims application uses another automated job to view the input directory on one minute intervals, convert the available files into a MCS-readable format and import them into the MCS application for processing. An automated job sends a 997 acknowledgement and a 277 acknowledgement for each claim (i.e., 837) received by Meridian.

(The remainder of this page intentionally left blank)

Below is a visual diagram of the Meridian's claims processing process.



Once claims are scanned into SunGard, certain claim types are automatically sent through the OCR process. All other claims require manual data entry by Claims data entry personnel called Vertexers. The system assigns Vertexers the oldest batch first. The OCR process is set to ensure 100% accuracy on key fields to ensure they are read correctly. If a key field cannot be read, it is highlighted and left blank for Vertexer review.

Most fields required for data entry (such as procedure code, diagnosis code, etc.) are compared against a table of values. If a correct value cannot be found, an error occurs. The Vertexer must enter a default value. All claims with default values in required fields are placed in an automated "To Do" queue and are reviewed during the claims examination process. Line detail charges on each claim must equal the total charge or the claim cannot be "closed" for import into MCS.

Once claims have gone through Vertexer and QC review (where applicable), they are exported from SunGard into MCS for adjudication. For claims that do not auto-adjudicate, it is due to a system defined claim edit. All edits are populated in the "To Do" workflow screen in MCS for Claims Examiner review.

Duplicate claims cannot be adjudicated automatically; an edit is created. Claims cannot be edited after they have been adjudicated. If modifications are made, an edit is created and the claim is moved into the "To Do" workflow screen. The Director of Claims/VP monitors claims to ensure they are paid within ten business days of receipt. The timeliness standards are reviewed daily and are presented during the Directors' meeting on a weekly basis.

***Member and Provider Web Portals***

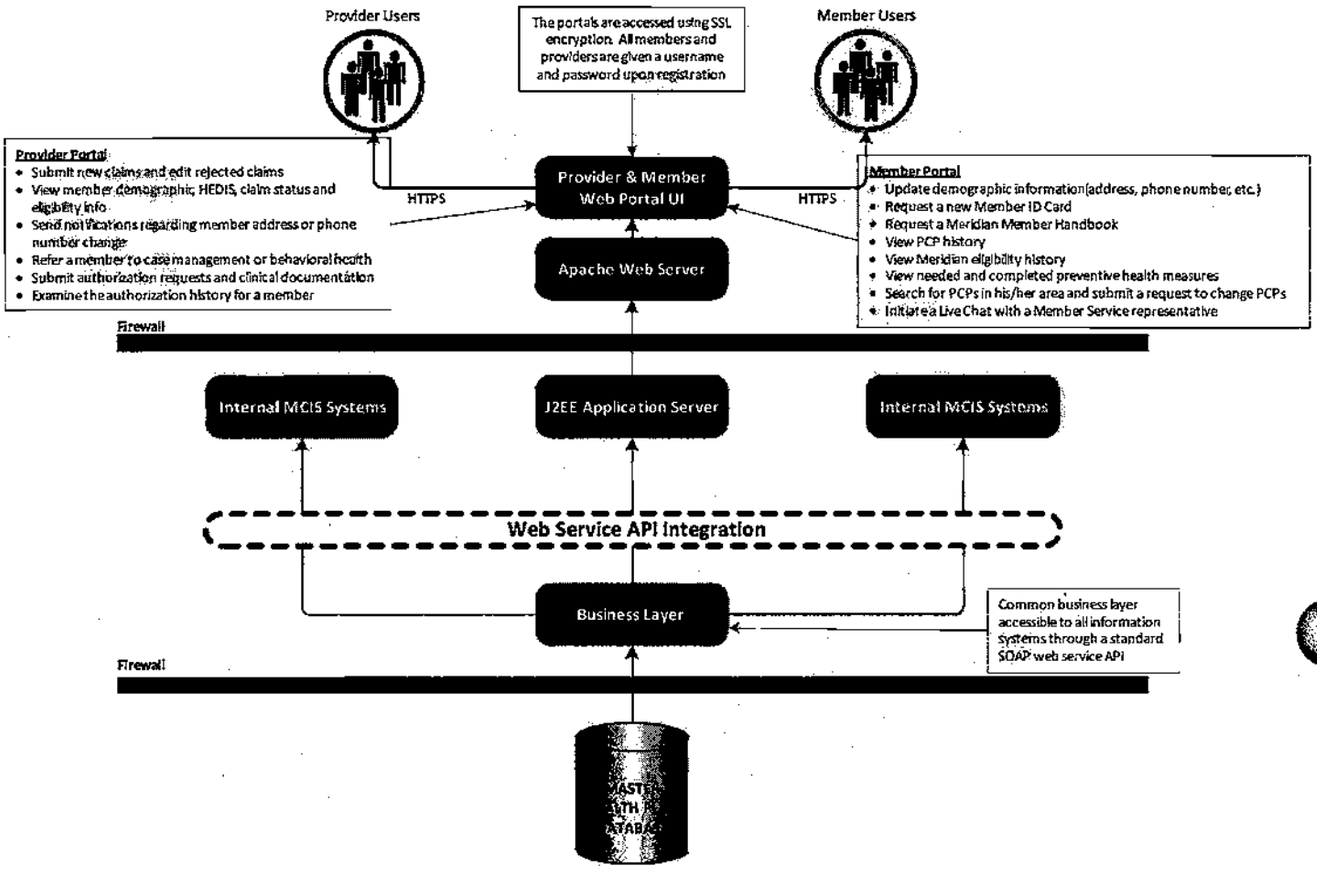
The Member and Provider Web Portals allow members and contracted providers to access MCS. Developed internally, the portals are written in Java using GWT toolkit, use web services for data connectivity and VeriSign for secured layers certification. This allows users to access MCS through a secure, web-based connection.

The accessibility of MCS enables providers to spend less time on paperwork and more time treating patients. The MCS Web Portal allows providers to do the following tasks:

- View member demographic, HEDIS, claim status and eligibility information
- Update HEDIS data and create HEDIS exclusions, when necessary
- Send notifications to Meridian regarding a member's change in address or phone number or to refer a member to case management or behavioral health
- Submit authorization requests and necessary clinical documentation
- Examine the authorization history for a member
- Analyze monthly enrollment and create reports containing monthly membership and outstanding HEDIS measures (PCPs only)
- View HEDIS bonus data (PCPs only)
- Submit new claims and edit rejected claims

(The remainder of this page intentionally left blank)

Below is a diagram conveying a high-level view of the member and provider portal architecture:



*Provider Services*

Meridian takes provider credentialing seriously. Like other processes, MCS provides full capability to enter, track, monitor and act on provider credentials. The Credentialing Log screen in the Provider module displays the credentialing information for providers contracted with Meridian. This includes those providers credentialed by Meridian and those credentialed by delegated entities. Another feature is an integrated provider directory that allows members to access a list of in-network providers via the website or the member portal. The system allows for easy search functionality so that members can identify providers that best meet their personal needs.

Ensuring accuracy and validity of contracted provider information is a necessary component of the contracting process. The Credentialing module in MCS maintains all records associated with the credentialing process:

- Licenses

- Degree
- Regulatory requirements
- Liability insurance
- Work history
- School history

Information available through reporting options in MCS include:

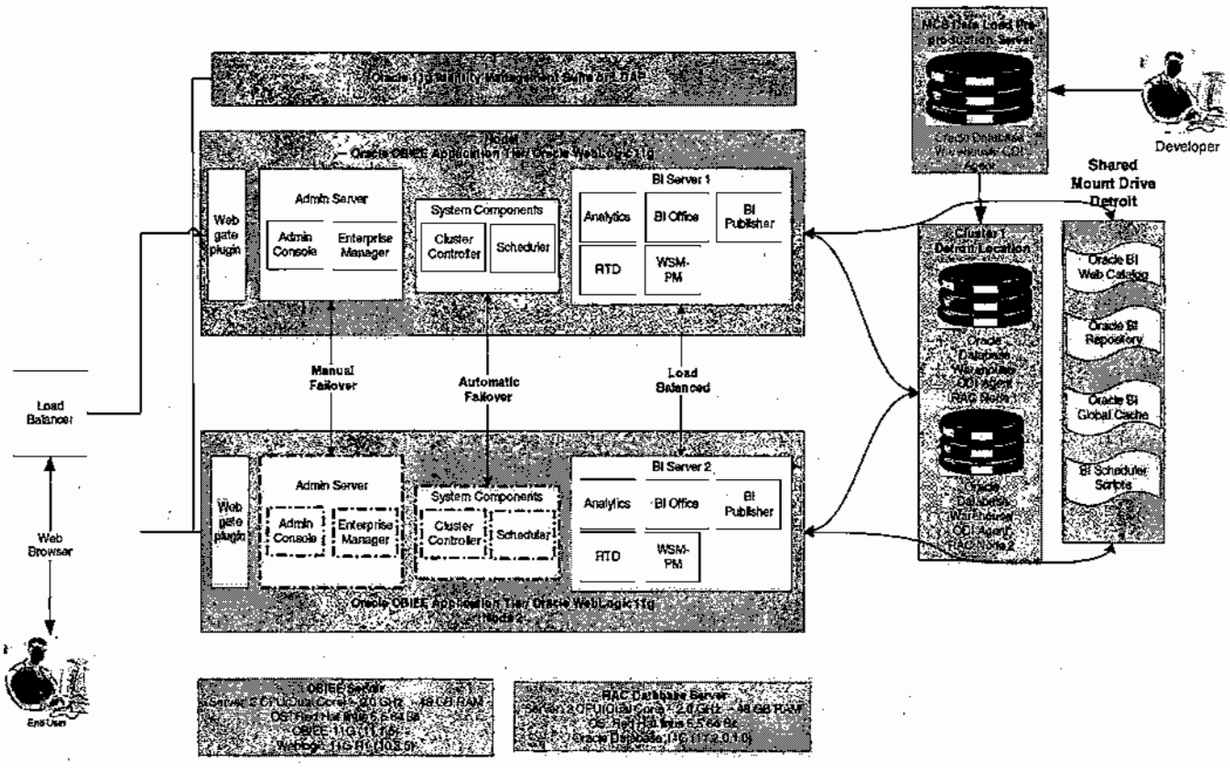
- Expiration dates of physician licenses, insurance and certifications
- Date to re-credential providers contracted with Meridian

***Reporting and Data Analytics***

Oracle Business Intelligence Enterprise Edition 11g (OBIEE) is a comprehensive business intelligence platform that delivers a full range of analytic and reporting capabilities. Designed for scalability, reliability and performance, Oracle Business Intelligence Enterprise Edition 11g delivers contextual, relevant and actionable insight to everyone in an organization, resulting in improved decision-making, better-informed actions and more efficient business processes. Oracle also provides the industry's only multi-sourced BI applications, as well as market-leading performance management applications that are powered by this BI platform.

1. Comprehensive BI functionality built on a unified infrastructure—Reduce cost and increase productivity with a common infrastructure for producing and delivering enterprise reports, scorecards, dashboards, ad hoc analysis and OLAP analysis
2. Powerful user experience—Increase user adoption with a powerful, task oriented navigation framework. Features such as rich visualization, interactive dashboards, a vast range of animated charting options, OLAP style interactions and innovative search and actionable collaboration capabilities deliver an unrivaled end-user experience
3. Unified business model—Ensure that all metrics, calculations and definitions are uniformly consistent to provide better alignment and visibility across the organization
4. Hot-Pluggable—Integrate with all popular extraction, transformation and load tools, databases, business applications, application servers, security tools, enterprise portals and desktop tools
5. Best-in-class scalability, reliability and performance—Optimize performance while simplifying systems configuration and lifecycle management. An integrated systems management console provides superior scalability, high availability and security benefits, while making upgrades and systems management effortless.

Below is a view of our production infrastructure architecture for the 11g installation:



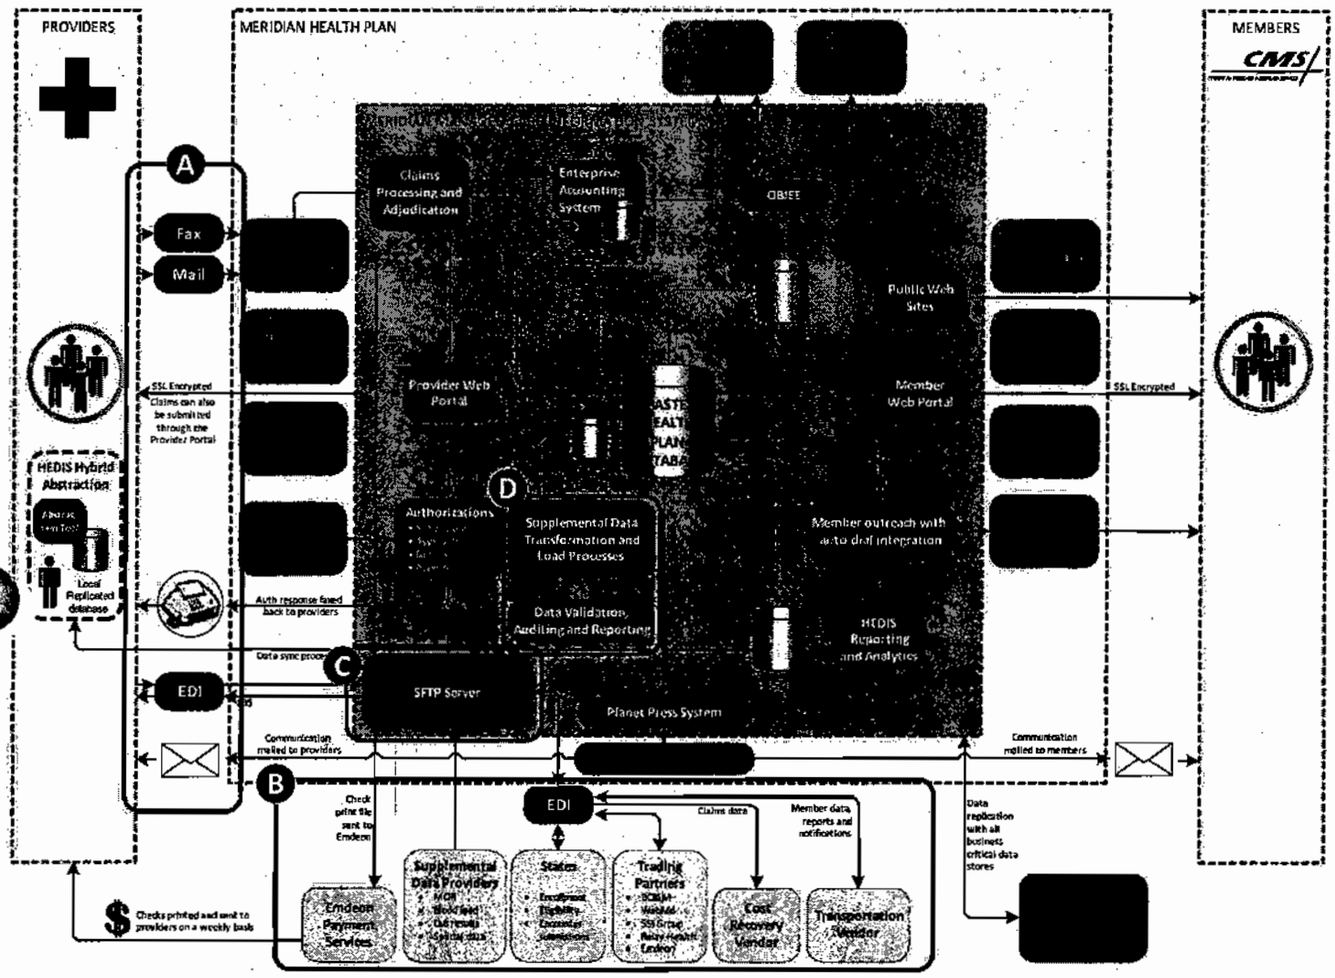
*Compliance*

At Meridian, we understand the importance and effectiveness that good compliance practices can enable. In our IS organization, we staff an IS Compliance Specialist who oversees the auditing of SSAE 16 as well as the technology components related to audits for OFIR, Model Audit Rule and data validation. In addition, this specialist performs the following functions:

- Ensuring that the department remains in compliance with standards set by SSAE 16, OFIR, CMS and other governing bodies
- Maintaining the disaster recovery plan and coordinating the annual disaster recovery test
- Ensuring user permissions to company systems are appropriate according to job responsibilities
- Maintaining existing department policies and creating new policies as needed

## Data Processing Capabilities

Meridian has extensive data management and processing experience. The following diagram highlights the data processing areas represented in the initial overview diagram. Meridian's implementation and practices with data processing is described below the diagram.



### *Provider Data*

Provider data can enter MCS through multiple channels. First, providers are able to fax directly to the system. We run a fax appliance in our data center called FaxPress. This appliance is responsible for sending and receiving all fax communication. It is also completely integrated into MCS for automated processing of claims and authorizations. Second, providers are able to send traditional mail through the US Postal Service. Meridian employs its own scanning operation utilizing SunGard's scanning solution which is integrated with MCS. Meridian is capable of processing paper-based claims and automating the integration and verification processing. Other in-bound paper data from providers includes credentialing documents. Third, Meridian has developed a comprehensive, easy-to-use web portal accessed extensively by providers.

Contracted providers are able to take advantage of the considerable features present in the portal to execute many of the common requests and inquiries required for efficient operation.

***Foundational and Supporting Data***

Meridian understands data. We know how to manage process and leverage data across the platform to its fullest extent. We maintain data relationships with partners large and small and the volume of data we process is immense. We have employed processes, tools and technology to standardize the way that data is brought in to the platform. This allows us to manage data in an efficient, cost-effective manner as well as respond to data anomalies with urgency, agility and security.

**SFTP Server**

Our secure FTP server uses encryption and X.509 certificate technology. The X.509 certificate is comprised of multiple attributes including public keys used for asymmetric public key cryptography. Using public key cryptography enables a secure key exchange to be made so that the symmetric keys used to encrypt and decrypt the data are not compromised keeping all PHI data safe and secure.

**Data Validation and Processing**

Inbound data is routed to a set of processes that perform rigorous validation checks to ensure that only high quality data is loaded into MCS. When data is found to be outside the bounds of the quality checks, an exception process is executed. Exception data will raise a flag for the operations team to investigate and evaluate the nature of exception. For example, receipt of enrollment data from the state can, and occasionally does, contain errors. Our process immediately flags the error, which the operations teams investigates and then contacts the state to notify them of the anomaly.

**Data Quality**

Since 2000, Meridian has worked with the State of Michigan through the Data Quality Improvement Program (DQIP) to enhance provider and health plan collaboration to obtain encounter data. Through this collaborative effort among the State of Michigan, the DQIP and the providers, Meridian has achieved a 99.8% acceptance rate of received encounter data. Due to our consistently high rate of collaborative data management success, the State of Michigan routinely requests Meridian's assistance for beta testing of new systems as well as any State or federally required changes or updates to existing electronic claims submission systems. As a result of previous experience and ongoing initiatives with the State of Michigan, Meridian continues to develop encounter edits to further enhance data quality.

***Reference File Updates***

MCS maintains a complete set of reference data including codes for ICD-9, CPT and HCPCS, and NDC. There is also a fee screen module in MCS with the following capabilities:

1. Procedure codes and their effective and termination dates
2. Price schedules to indicate how the claims for the procedure code are paid
3. The amount that a facility charges for a procedure and the amount a non-facility charges
4. The maximum number of units for a procedure and the number of anesthesia units for a procedure

The fee screen module also has the capability to include modifiers to a procedure code and age specific pricing for procedure codes. MCS accepts and stores all ICD-9, CPT, HCPCS and Revenue Codes.

***Encounter Data***

Meridian will assure complete encounter data is submitted through use of the following mechanisms:

1. Enforcement of contractual obligations
2. Data sharing agreements
3. Performance based incentive programs for providers

The following methods are used to assure timely submission of encounter data:

1. The use of fee-for-service reimbursement contracts requiring the submission of bill prior to payment for the service being rendered
2. The use of capitated reimbursement contracts obligating timely monthly, quarterly and annual encounter data submission within 30 days of the close of the applicable month, quarter or year with substantial per claim penalties assessed for lateness and missing information
3. The use of state approved additional incentive bonus monies to reward providers for the timely delivery of HEDIS preventive and maintenance health services
4. The withholding of monies to capitated providers for not achieving specific quality measures

Network providers will have the ability to submit claims via hard copy, electronically through an 837 file, using a secure FTP web-site or directly to Meridian utilizing the provider portal. Out-of-network providers will have the ability to submit claims via hard copy or electronically through the submission of an 837 file through one of the national healthcare clearing houses operating in New Hampshire. All encounter data will be entered into MCS whether the data is submitted via claims, encounter data reports or cornerstone data extractions.

Each month, the Provider Services department is responsible for monitoring the receipt of encounter data through collaboration with the Claims department. In the event the required encounter data is incomplete or missing, the Network Development Specialist assigned to the specific physician group, PHO or other clinic-type organization will follow up with the provider to ascertain why the encounter data was not submitted.

Meridian will make every attempt to facilitate and assist all of its providers with the timely submission of encounter data. However, in the event, the provider does not submit the contractually required encounter data, Meridian will impose financial penalties upon the provider in accordance with the terms set forth in their contract. These financial penalties are assessed on a per claim line basis for the missing period whether it be a monthly or quarterly submission period.

**Security**

Meridian's MCS has been built using the time tested and most popular tools on the market and consistent with the industry best practice of three As (Authorization, Authentication and Access Control) mechanisms to ensure privacy and security of its customer data. In addition, Meridian administers role based access control mechanisms for added safety.

MCS has also implemented these security concepts in to the design and implementation of the holistic solution:

- As separation of responsibilities, complex functions are built to (e.g. changing a contractual price) require additional levels of security to ensure errors are minimized.
- SFTP servers are introduced and VPN tunnels are consistently enforced during data transmission.
- Firewall security has been put in place to protect the entire system.
- System reliability audit is undertaken monthly to evaluate fault tolerance capabilities, single point of failure and vulnerability against intrusion and hacking to facilitate continuous improvement of its overall system reliability.
- Meridian has a backup and replication system using the latest state of the art industry tools and technologies that leverages online backups to a virtual tape library which then replicates to its offsite counterpart to minimize downtime. Daily incremental as well as weekly full backups are instituted to ensure full data protection.

***Application Security***

With all critical business functions maintained in one integrated system, security in MCS is a critical concern. MCS is accessible to all Meridian employees. However, access to each area is controlled through menu permissions and specific user permissions for certain areas. For example, employees in the Member Services department have the permission to view and update the different fields pertaining to a member's demographics, eligibility and the ability to change a member's PCP. Employees in other departments do not have permission to update member records. Likewise, employees in the Provider Services department can update provider records, but cannot update member records. Claims personnel can process and adjudicate claims, but they cannot initiate the process to pay claims. The Finance department can pay claims, but they cannot process or adjudicate them. User access to MCS is based on an employee's job responsibilities and is reviewed on an annual basis by the IS department with input from the Meridian Privacy Officer.

***Employee Security***

Employees use a two-factor authentication to access to desktop computers. On-site employees use their employee badge and a four-digit PIN to access their computers. Employee badges have a profile based on his/her job functions. The profile that the badge is based on determines which areas of the offices the employee can access. Employee badges are maintained through the S2 Netbox system. The S2 system offers reliability in that it is embedded directly on the network while allowing for remote management and data backup. S2 also provides reports for each card reader location, and which cards accessed or attempted to access those areas. Off-site employees must be in the VPN security group, and use and ID token and a password for access. Only authorized and licensed software may be installed on desktops or laptops, and all installation must be performed by an IS staff member. Personal memory sticks or other devices that can connect to the Meridian network are not to be used without authorization from the IS department.

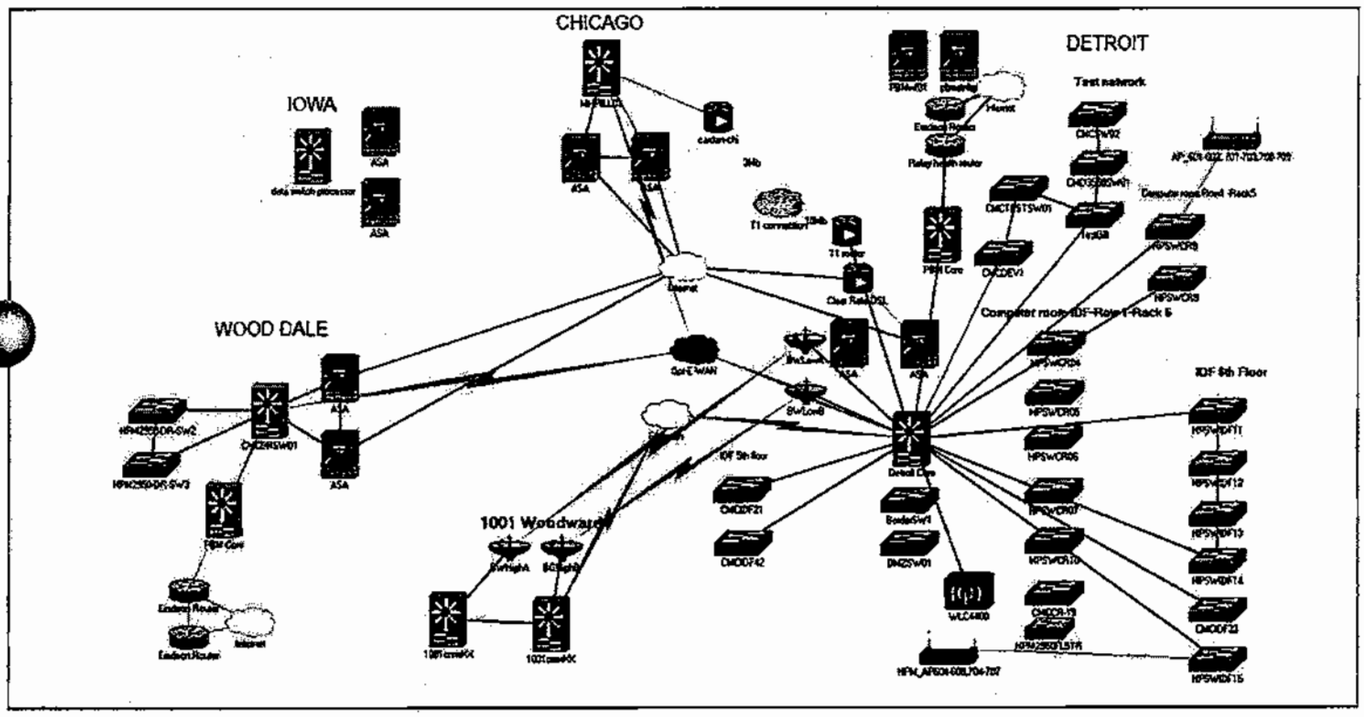
Workstation configurations and application access may only be changed through an access change request in MCS that is approved by a department director, the COO and the IS Director or Executive VP/CIO, and implemented by the appropriate IS staff member. All workstation configurations, network data and applications are backed up nightly. A Privacy and Security

Committee meets quarterly to review new or revised policies and procedures, and to discuss other privacy and security related issues. The IS Steering Committee also meets quarterly to review and approve Privacy and Security Committee policies and procedures, as well as other IS issues.

**Network and Data Center Overview**

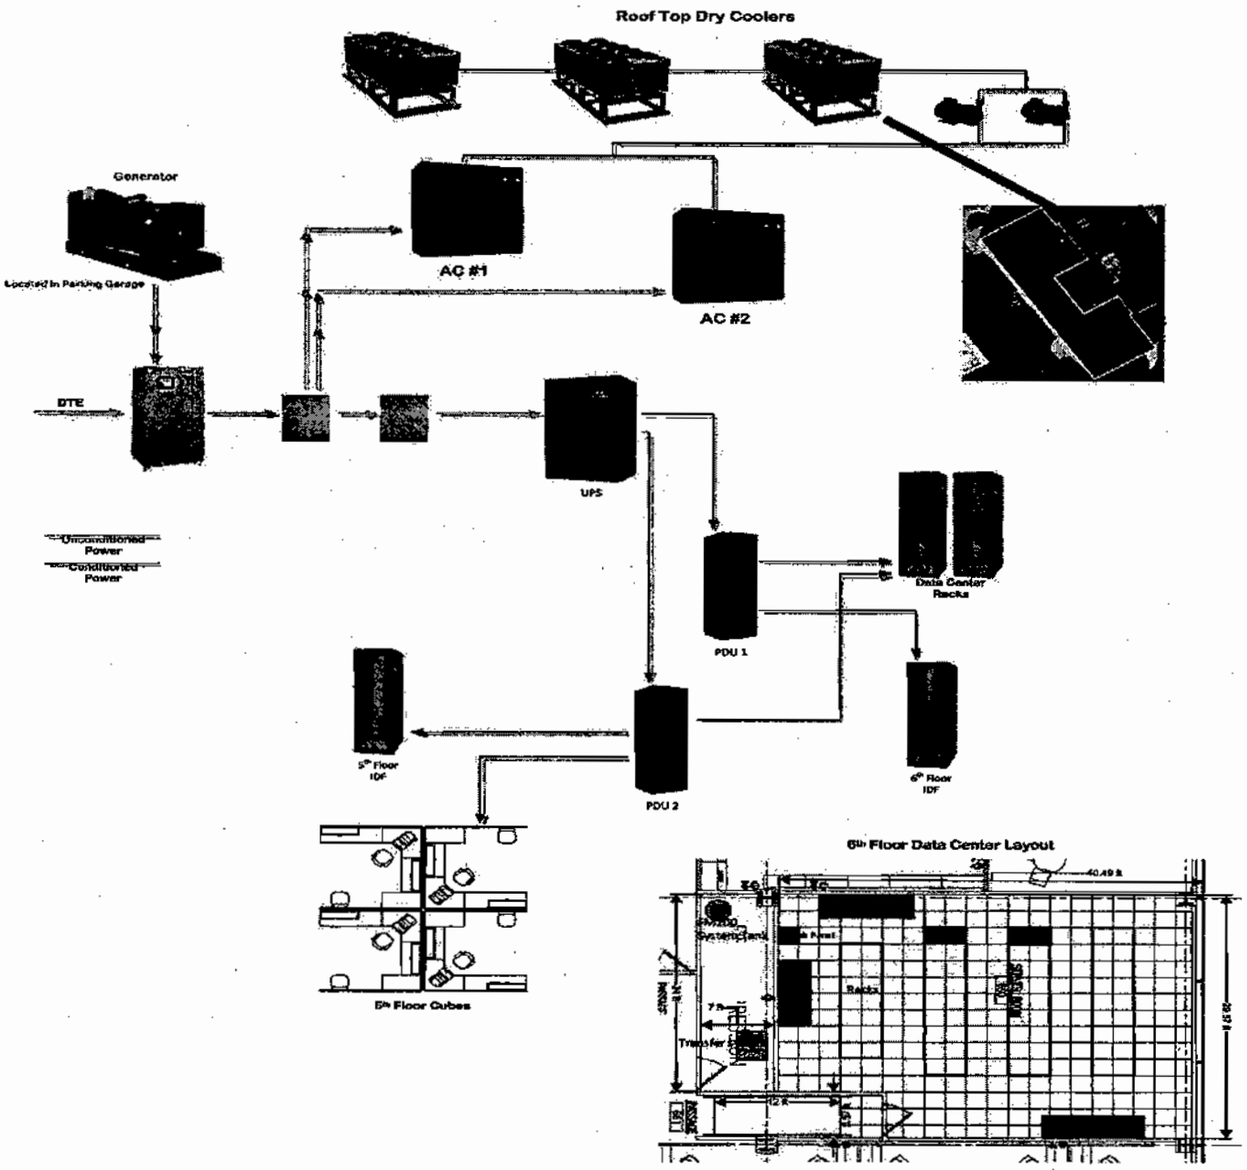
*Network Overview*

Network infrastructure has been designed to eliminate single sources of failure. This includes redundant carrier access, firewalls, and WAN Connections for critical services. Telecommunications services are built to accommodate multiple carriers with number portability. Alternate Enhanced Redirect Solution (AERS) from AT&T is used to re-route calls to a disaster recovery site in the event of an emergency.



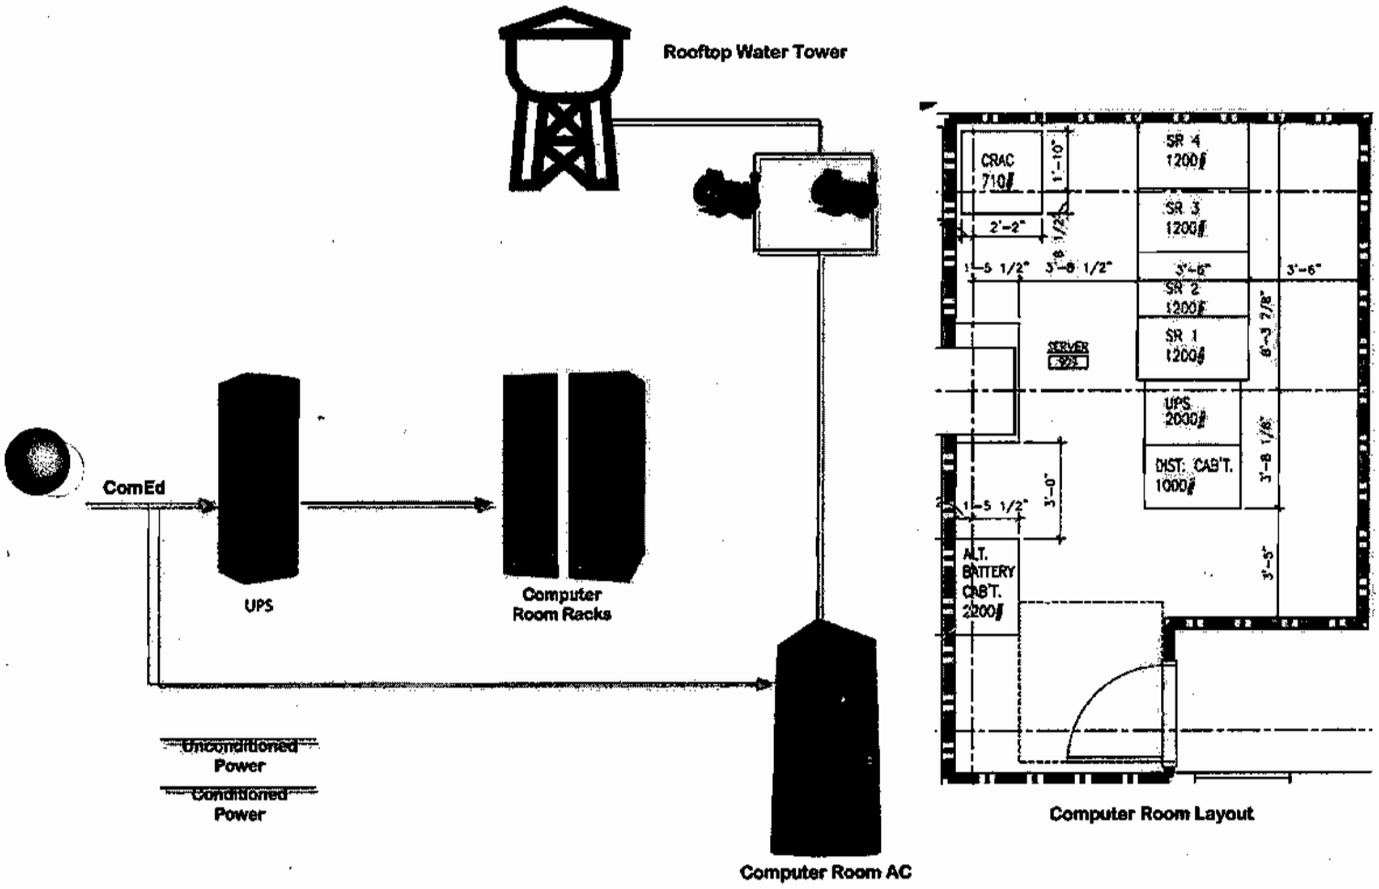
*Data Center Overview*

Meridian's primary data center is located in Detroit, MI and is represented in the diagram below. This data center uses coolers located on the top of the building in which it is housed. These are connected to air conditioning units fed from conditioned power by DTE. From there, the power distribution units feed the rack-mounted servers in the data center.



*Typical Remote Office Data Center*

Meridian has remote office data centers currently located in Chicago and Wood Dale, IL. We also have plans to open a new data center in Des Moines, IA. The Chicago and Des Moines data centers can give us the ability to replicate data and ensure offsite backups are safe and available. We are currently planning on bringing up another production data center in 2012 that will work in tandem with our existing production data center in Detroit. The Wood Dale data center is for Disaster Recovery. Please see the Disaster Recovery addendum for more information on our business continuity plan.



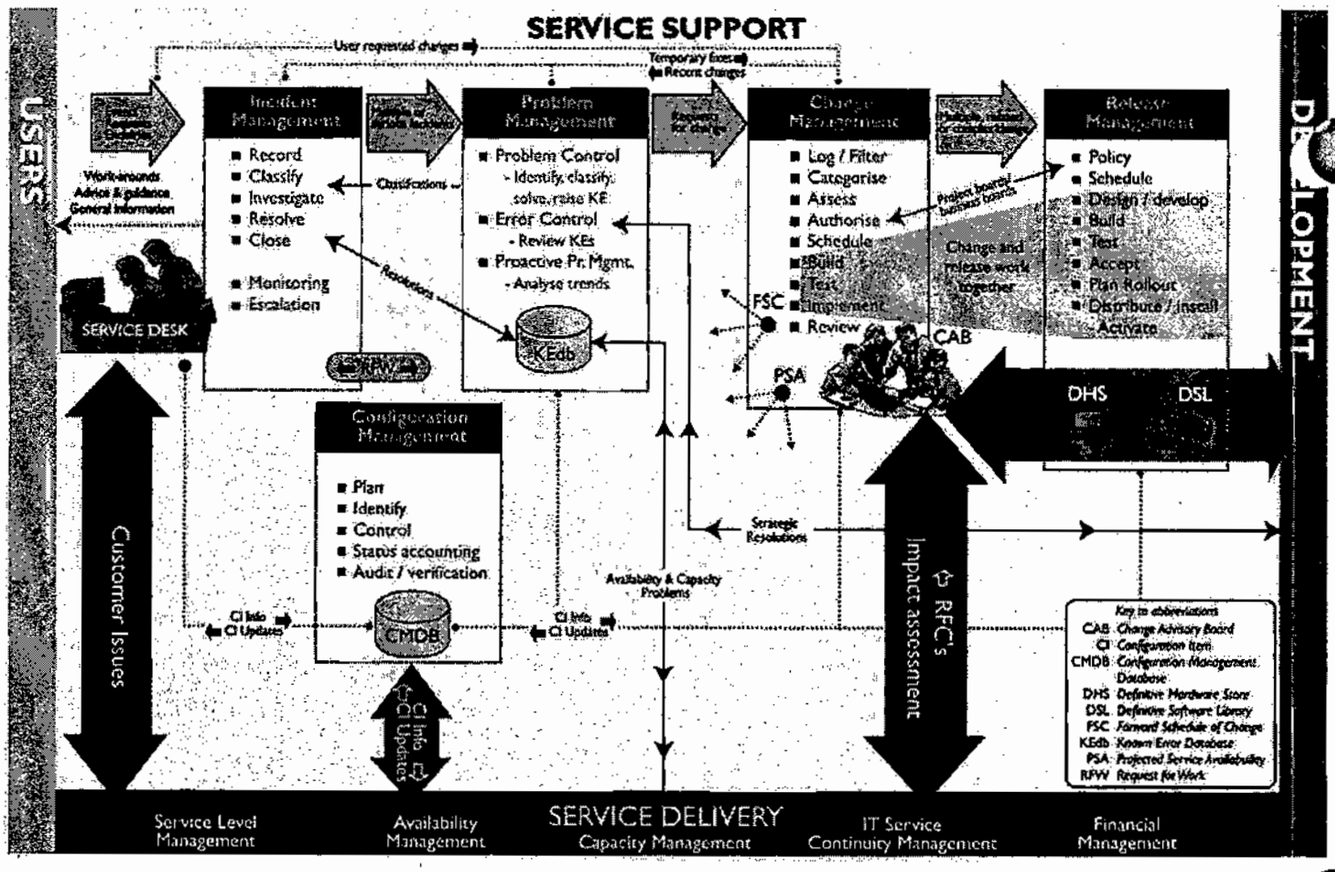
**Operations and Support**

***Availability***

MCS is a robust, fault tolerant system accommodating the market demands of 24/7 availability. Current recorded uptimes are consistent with the industry expectations of 99.999%. Meridian maintains 24/7 availability of its claim processing system by designing and implementing a unique multiple transaction database server solution. Several instances of transaction databases are maintained in a synchronized manner that provides the option to designate anyone of them as primary. Business operations are routed to the newly designated primary database in real-time, while system changes and upgrades are applied to the backup servers. Once deployment is complete, the system is restored to normal operations mode and all databases are synchronized seamlessly in an automated manner.

***ITIL Best Practices***

Meridian strives to implement industry best practices. ITIL is renowned for helping organizations align IT services with the needs of the business. It allows our IT organization to establish a baseline from which it can plan, implement, and demonstrate compliance and measure improvement over time. Below is an overview of ITIL processes:



Incident Management Overview

Incident Management is the Service Desk's daily "fire-fighting" activities. An Incident is defined as any event which is not part of the standard operation of services that could cause a reduction in the quality of service. The objective is to restore normal operation as quickly as possible with the least possible impact on the business.

**Inputs**

- End user communication to the Help Desk
- Alerts from Monitoring Tools and Systems

**Outputs**

- Requests for Changes
- Resolved and Closed Incidents (Tickets)
- Management Information
- Communication to the Customer

**Key Activities**

- Incident detection and recording
- Classification and initial support
- Prioritize Incidents based on impact and/or urgency
- Investigation and diagnosis
- Resolution and Recovery in accordance with SLAs
- Incident Closure
- Incident ownership, monitoring, tracking, and communication
- Incident Escalation
- Hand off to Problem Management team for further investigation

**Key Benefits**

- Efficient handling of service affecting Incidents
- Standardized escalation process to ensure the incident is resolved quickly
- Measurable outcomes and response times
- Organized process for escalation to Problem Management team

Problem Management Overview

A Problem is identified as the unknown cause of one or more incidents often as a result of multiple similar incidents. A 'Known Error' is an identified cause of a problem. The goal of problem management is to detect and provide solutions to problems and prevents them from happening again as well as minimizing the impact of problems on the business.

**Inputs**

- Incident records and details about incidents
- Known Errors
- Information from Configuration Items in the Configuration Management Database (CMDB)
- Information from other processes such as Release Management etc...

**Outputs**

- Requests for Change (RFCs)
- Wiki pages defining Known Errors and their solutions or work-arounds
- Management Information
- Updated problem records (Solved Problem only if the Known Error has been resolved)

**Key Activities**

- Provide problem control
- Provide error control
- Proactively manage problems
- Conduct major problem reviews
- Provide management information about Problem Management quality and operations.

**Key Benefits**

- Prevention of incidents due to known errors in the IT Infrastructure
- Standardized Root Cause analysis and reporting
- Measurable outcomes and response times
- Organized process for documentation, reporting, and incident resolution

Change Management Overview

The goal of change management is to ensure that standardized methods and procedures are used for efficient and prompt handling of all changes to Meridian systems. It is also used to minimize the impact of change related to incidents on service quality and to improve on the day-to-day operations of the organization.

**Inputs**

- Request for Changes (RFC)
- Forward Schedule of Changes (FSC)

**Key Activities**

- Accept Changes
- Prioritize and Classify Changes
- Coordinate change impact assessment
- Coordinate approval of changes (CAB)
- Coordinate scheduling of changes
- Conduct post implementation reviews
- Provide management information about Change Management quality and operations

**Key Benefits**

- Better alignment of IT service to business requirements
- Increased visibility and communication on changes to both business and support staff
- Improved Risk Assessment
- Reduce adverse impact of changes on quality of service and Service Level Agreements (SLA)
- Improved problem and availability management through the use of historical change management information
- Fewer changes backed out.

Configuration Management Overview

The goal of configuration management is to provide information about the IT infrastructure to all other processes as well as to IT management. This enables the organization control of the infrastructure by monitoring and maintaining information pertaining to all resources needed to deliver IT services to the business.

**Key Activities**

- Plan for Configuration Management databases and activities
- Identify Configuration Items
- Control Configuration Item information
- Perform Status Accounting

- Perform verification and audit of Configuration Management Databases
- Provide Management information about Configuration Management quality and operations

**Key Benefits**

- Provides accurate information and documentation on Configuration Items (CI).
- Controls valuable Configuration Items (CI)
- Facilitates adherence to legal obligations
- Helps with financial and expenditure planning
- Makes software changes visible
- Contributes to contingency planning
- Supports and improves Release Management
- Allows Meridian to perform impact analysis and schedule changes safely and efficiently.

***Support***

Internal and external customers report incidents to Level I support personnel assigned to the Help Desk via Phone Call, Email, or Service Desk Ticket.

1. Level I Support (Incident Management) staff have access to our internal knowledge base of known issues and their resolutions as well as System Run Books for critical applications. If no resolution is currently defined Level I support staff work towards a resolution or workaround. Failure to resolve the issue results in escalation to Level II support engineers.
2. Level II Support (Problem Management) staff research incidents, perform root cause analysis, and document a resolution. All escalated support tickets are owned by this group until resolution.
3. Level III Support staff are available to assist with root cause analysis efforts and are also responsible to make changes in accordance with the Change Management Process. System run book are published during system implementation to provide all support personnel critical system information.

***Disaster Recovery and Business Continuity Plan***

Please see the "Corporate Business Continuity & Disaster Recovery Plan" addendum.

## 3.1 Covered Populations and Services

Meridian has the capacity and experience to deliver all covered services to all covered populations as described within section 3.1. In addition to providing care for typical populations (Temporary Aid to Needy Families/TANF and Children's Health Insurance Program/CHIP), our affiliated companies have delivered coordination of care services to more demanding populations, such as Old Age Assistance (OAA), Aid to the Needy Blind (ANB), Aid to the Permanently and Totally Disabled (APTB), Medicare Dual Eligible and Foster Care.

Meridian currently manages a total population of approximately 300,000 members. We are committed to continuously improving the quality of care in a low resource environment, and our quality scores accurately reflect that commitment.

Meridian has maintained excellent quality scores during periods of rapid growth. Between 2000 and 2010 Meridian experienced an average membership growth of 28.7% per year with a diverse population of Medicaid members. Our growth was based on member and provider choice, with no mergers or acquisitions. During that time, we were ranked among the top 20 Medicaid plans in the country by NCQA (2006-2010). In 2011 we received Full Health Plan Accreditation with Health Utilization Management from URAC.

(The remainder of this page intentionally left blank)

## 3.2 Transitioning to the Care Management Program

**Q1. Describe your experience with initiating similar programs for such a broad array of populations and service in an expedited manner.**

Meridian has demonstrated the ability to enroll and transition care for large populations in a number of states and across a broad spectrum of service areas. This has been achieved by working collaboratively with state and community agencies, as well as expanding our provider network to ensure continuity of care for members during the enrollment transition. Meridian has experience enrolling all covered populations into existing membership with no decrease in quality.

In early 2008, the state of Illinois approached Meridian specifically for assistance increasing quality outcomes in its Medicaid Program. Selected as the first new Medicaid health plan in Illinois in over a decade, Meridian began providing care to members in December 2008. By July 2011, our HEDIS scores exceeded the 90th national percentile for all scores measured.

In 2008 Michigan began mandatory enrollment of pregnant Medicaid recipients into managed care. Meridian saw a ten-fold enrollment increase of pregnant women from 1,187 in 2008 to 13,557 in 2010, facilitating the delivery of more than one-third of all Medicaid newborns in the state. In order to accommodate this additional enrollment, Meridian successfully expanded our provider network, made systems changes, and engaged providers, hospitals, community organizations and local Maternal Infant Health Programs (MIHPs) to ensure timely, adequate access to care for members.

Michigan expanded enrollment of foster care children into Medicaid managed care plans in 2010. In order to ensure a smooth transition for these children, Meridian updated MCS, creating a module that provides alerts to identify foster children and displays a contact grid to ensure that staff would know at a glance the appropriate person with whom to communicate (i.e., parent, foster parent, case worker) and the appropriate information to provide to that contact. Meridian's process for enrolling foster care children received a 2011 Pinnacle Award, in recognition of our innovative change and measurable quality improvement, by the Michigan Association of Health Plans (MAHP).

Throughout these expansions and program implementations, Meridian has successfully transitioned enrollment while maintaining excellence in customer service and performance metrics. This experience has strengthened our capacity for continued growth. At the same time, we have chosen a selective approach to expansion, carefully evaluating state managed care programs to identify the states which share our commitment to quality and preventive care.

**Q2. Describe your proposed implementation approach for Step One**

Meridian is poised to meet an operational effective date of July 1, 2012 and is prepared for the scheduled implementation of Step Two one year later with Step Three commencing on January 1, 2014.

To ensure a seamless transition to managed care, Meridian believes in open collaboration with the state during the implementation period. Aside from site visits, the plan will provide all of the necessary components for a successful partnership prior to go-live, including:

- Project Management Team responsible for the overall implementation, managing to a detailed timeline and specific contractual obligations.

- IT Team tasked with integrating data and files with the state while also ensuring the necessary hardware/software development is performed to specification.
- Clinical Team charged with the implementation and execution of all care management programs in line with New Hampshire's needs; and a
- Client Support Team to assist with any questions/needs the state may have.

Meridian's implementation for Step One will focus on the following critical areas:

Systems Implementation

Meridian has a turnkey information management system with its proprietary Managed Care System (MCS), an integrated, enterprise-wide care management system. All Meridian functions are found within this single platform for healthcare optimization. Consistent with our belief in partnership, our talented team of technologists will identify and implement any custom changes needed for New Hampshire. Additional details about our award winning system can be found in our response to 2.4 on page 1.

Provider Network Education

Meridian has a full provider network ready to meet the needs of New Hampshire's Medicaid Program. Our network currently includes 2,010 primary care providers, 3,338 specialists, 616 behavioral health organizations and 25 hospitals. Please see Appendix B for a full list of our provider network.

Prior to July 1, 2012, we will provide orientation and training for our providers to ensure a seamless transition upon go-live.

Member Outreach Campaigns

Meridian is poised to execute an effective member outreach strategy that builds personal relationships and connects members with providers. Using all available communication mediums, we take pride in working with members at their levels, in their communities, to best meet their individual health needs. Our outreach strategy is discussed in our response to section 3.5 on page 41.

Member and Provider Education

Meridian's materials are developed in-house, customized to meet New Hampshire's expectations and ready for state approval. Full details on our educational materials can be found in section 3.5 on page 41 and section 3.8 on page 56.

Disease Management and Case Management Program Implementation

Meridian's disease and case management programs are fully integrated enterprise-wide. From the initial time of enrollment, MCS stratifies members into appropriate care programs based on objective and subjective data. Effective and ongoing communication with our members is all part of our focus on quality. These programs deliver results as evidenced by our HEDIS scores. Specifics on our programs can be found in our response to section 3.11 on page 73.

Proposed timetable

- January
  - Anticipated selection of successful bidders (1/15/12)
  - Preliminary meetings with DHHS

- March
  - Contract execution (3/8/12)
  - Drafts developed for member and provider materials
  - Current educational materials personalized for New Hampshire
  - Begin orientations for provider network
- April
  - Completed educational materials submitted to New Hampshire for review & approval
  - Development of member handbook
  - Begin MCS customization, including New Hampshire portal
- May
  - Member handbook submitted to New Hampshire for review & approval
    - Handbook production once approval is received
  - Office build
  - Production of education materials
  - Begin hiring/training local employees
- June
  - Preliminary distribution of member and provider materials
- July
  - Anticipated start of contract (7/1/12)

**Q3. Describe your experience in managing care for dually eligible populations. What are the greatest challenges to meeting the needs of these groups?**

Meridian is poised to partner with the state to meet the needs of the dual eligible population. Meridian operates a Medicare Advantage Special Needs Plan (SNP) and has received two-year approval for its Model of Care from CMS.

We understand the challenges associated with this complex population. The greatest challenge of the dual eligible population is coordination of the physical and behavioral health needs. Other challenges include the coordination of Medicare and Medicaid covered benefits and the implementation of the integrated care model.

Our programs combine a member-centered approach to care with technology, bridging the gaps that can occur in transitions of care. Our focus on individual member needs starts at enrollment. Within 30 days of joining our dual eligible plan, members receive a Health Risk Assessment (HRA); based on the HRA results, MCS uses objective data and member interaction to stratify members into the appropriate risk categories. Based on member stratification an appropriate interdisciplinary care team (IDCT) is assigned to coordinate the member's care. Encompassing medical, behavioral/developmental, long-term services and supports, this proactive approach allows the IDCT to quickly identify and implement care coordination activities, resulting in improved member health outcomes. These coordination activities are especially important for dual eligible members with multiple chronic medical conditions, often exacerbated by underlying behavioral health issues.

A key feature of the IDCT is member involvement. Members are invited to participate in the team meetings, either by phone or in person. With their caregivers also invited to attend, members are encouraged to learn about their medical conditions and strategies for self-

management; this member education not only supports improved health outcomes, but it also empowers members to take an active role in their own health care.

Meridian's experience in managing care for dual eligibles relates to the plan's targeted purpose of improving access to medical, mental and social services, the improvement of access to affordable care, coordination of care, seamless transitions across healthcare settings, and access to preventive health services. Other objectives include appropriate utilization of services, improvement of reducing hospitalizations and nursing facility placements, as well as improved health outcomes.

MCS fully supports dual eligible populations by allowing Care Managers, members, medical and behavioral health providers real-time access to health information about member care.

**Q4. Describe your experience in managing the full range of long-term services and supports, including in-home supports, residential care and nursing home services.**

Meridian is actively involved in the care model for persons requiring long-term care services and supports at the State level and Meridian would welcome the opportunity to bring our expertise to New Hampshire. The dual eligible population has a high prevalence of behavioral health conditions as well as developmental disabilities. In recognition of the complex and unique needs of the dual eligible population, Meridian maintains ongoing quality improvement initiatives aimed towards innovative partnerships, beneficiary sensitivity, and effective relationships with providers to ensure the quality and safety of health care services received by its high-risk population.

Meridian is actively implementing provider contracts and processes to manage members with long term care needs in Michigan effective November 2012.

Our goal for individuals with long-term needs is to provide more home and community-based services options for these members as well as nursing home alternatives. Meridian understands the importance of partnering with the State's Bureau of Elderly and Adult Services (BEAS) to collect accurate, unbiased information on all aspects of life related to aging and/or living with a disability. Contacts are underway with this agency.

Meridian utilizes several functional and behavioral health screening tools to determine the appropriate level of care/living for members. The screening tools provide an "inventory of needs" or list of activities that agencies and caregivers need to perform, or have performed for them, in the course of everyday life. The screening tools collect and report information about whether a person needs help, and how much help they need, in performing everyday activities.

Care categories include the member requiring information referral services only, homemaker services, intermittent personal care services (in the home), home care services, residential care and institutional nursing home services. The screening logic is weighted heavily on the on Activities of Daily Living (ADL) and Instrumental ADL but also measures cognitive functioning.

Meridian staff will make the first telephonic assessment attempt, however if unable to reach, or the member is unable to provide responses to the HRA then our social worker or nurse completes the HRA in the member's home within 30 days of enrollment. The results are collated with historical claims data provided by the State along with the most critical data point; i.e., the member's/caregiver's desired outcomes. Together with the member/caregiver, Meridian

provides the services, supports and coordination to help each member manage his or her health and achieve his or her outcomes.

Meridian's network in New Hampshire will include acute and long term support service providers who are able to offer the continuum of care required to meet our member's medical needs. Long-term services and supports providers will deliver a continuum of care and assistance ranging from in-home and community based services for elderly people and persons with disabilities who need assistance in maintaining their independence, to institutional care for those who require that level of support, seeking to maintain independence for individuals while providing the support required. Meridian's long-term services and support programs include adult day care, adult foster care, home delivered meals, home health services, home modifications, home therapy, personal attendant services, residential care and respite care services.

National statistics demonstrate that this population often requires personal care services to assist with their activities of daily living. Personal Care Services will also be available as assistance to members including assistance with the performance of the activities of daily living and household chores necessary to maintain the home in a clean, sanitary, and safe environment. The level of assistance provided is determined by the member's needs for assistance and the plans of care. These services include assistance with activities related to the care of the member's physical health such as bathing, dressing, preparing meals, and feeding, as well as home management (i.e. house cleaning, changing bed linens, shopping, etc.).

**Q5. In 2014, if PPACA is still in place, a great number of consumers will routinely move between Medicaid and subsidized coverage available on a health benefits exchange. DHHS is interested in minimizing the impact of these transitions on consumers. Please describe your current interest in potentially offering a product on the Health Benefits Exchange to allow members to maintain continuity of access to services as they transition from one program to another.**

Meridian intends to position itself in all the states it serves to offer a product on the Health Benefits Exchange. We will seek appropriate insurance licenses and implement any required systems changes needed to offer a product on the Health Benefits Exchange. Meridian intends to provide seamless coverage to members who move between Medicaid and subsidized coverage.

Additionally, Meridian proposes that the State of New Hampshire offer a Basic Health Program (BHP) as a way to reduce churning between the Medicaid managed care program and the Health Benefits Exchange. Under PPACA, states have two options to deliver coverage to adults with low incomes not eligible for Medicaid. Adults and dependents with incomes between 133% and 200% of the Federal Poverty Line are eligible for either: (1) subsidized commercial insurance via the Health Benefits Exchange, or (2) enrollment in the BHP. A BHP will operate at no cost to New Hampshire as it is 100% funded by the federal government. Establishing a BHP will result in a higher participation rate as the higher premium costs and high out of pocket costs in a Health Benefits Exchange will deter many low income individuals from purchasing health insurance. Additionally, it is estimated that 35% of all low income adults will need to change coverage between Medicaid and the Health Benefits Exchange every 6 months. Studies show that provider continuity is clinically significant. A BHP will provide stability of coverage to families and continuity in terms of their provider network. In a BHP, individuals with lower incomes will seamlessly transition between their Medicaid health plan and their health plan in a

BHP. Meridian is interested in providing more information to New Hampshire regarding the significant benefits that a BHP has to offer.

(The remainder of this page intentionally left blank)

## 3.3 Pharmacy Management

Meridian fully utilizes the experience of its affiliate, MeridianRx, for its pharmacy management needs (RFP, 3.3, paragraph 2). Consistent with our focus on integration, Meridian operates as an interdisciplinary team that draws on our knowledge and expertise covering the care spectrum while relying on integrative technology that ensures comprehensive care for our members by our providers and pharmacies. We offer an unparalleled client-focused service model, with seamless implementation processes and excellence in day-to-day service.

Our implementation plan includes a seamless transition for new members, honoring prior authorizations for 90 days (RFP, 3.3, paragraph 2), and the necessary support for New Hampshire, submitting encounter data to support its rebate billing process (RFP, 3.3, paragraph 3). Our point of service system allows for quick and effective adjudication of pharmacy claims (RFP, 3.3, paragraph 2).

**Q6. Recognizing DHHS' PDL/Formulary approach, describe your general approach to pharmacy management. Provide specific details in the following areas:**

***Describe your Medication Adherence programs and how they are coordinated with your care management programs.***

Meridian offers a Medication Adherence Program fully coordinated with care management. Meridian utilizes an integrated formula that identifies members who are non-adherent to their medication therapy. These members are auto-referred to Meridian's Pharmacy Case Management Program, where they receive personalized outreach and intervention suitable to their situation. This also allows related problems to quickly be identified using an overall view of the member's health needs, coordinating medication adherence issues (both clinical and non-clinical) into the scope of case management objectives. Our integrated program coordinates quick response and action to these individual needs. Capitalizing on the efficiencies of an integrated system helps the plan to offer higher quality of care to the most at-risk members, while streamlining the time and cost necessary to support these activities.

***Describe your specialty pharmacy program and how it is coordinated with your care management programs.***

Meridian's specialty pharmacy program is fully integrated with our Care Management Programs, including the dedicated use of Case Managers who focus on specific specialty medication related problems and patient literacy of medications. Our Pharmacy Case Managers identify and track members that require specialty medications using pharmacy data. The program includes pharmacist outreach to ensure that these members are receiving the most appropriate care. Additionally, the Case Managers work directly with members to ensure they are compliant with their medications and understand the importance of medication adherence.

***Describe your approach to pharmacy utilization management.***

Meridian's approach to pharmacy utilization management is consistent with New Hampshire's current strategies as outlined in the RFP (Table 1: New Hampshire Medicaid Covered Services). Our approach includes:

- Partnership with the State's Drug Utilization Board (DUR) and its review of the Preferred Drug List (PDL)
- The use of prior authorizations (using criteria approved by DHHS)

- Dose consolidation
- Implementation of a Pharmacy Lock Program consistent with the state's existing requirements
- Quantity limits
- Refill edits
- New drugs to market restrictions
- Meridian's Clinical Pharmacists and Medical Director visit with providers regarding medication utilization

Meridian believes in prospective, concurrent and retrospective utilization review. Our prospective review encourages appropriate prescribing in accordance with the State of New Hampshire's guidelines. The use of prior authorizations, step therapy and medical criteria, all as established by New Hampshire's DUR Board, help ensure that our members consistently receive the appropriate medications.

**Utilization Management Leading to Cost Savings**

Meridian utilizes drug prescribing data to focus on specific patterns and trends of prescribing behavior. We also conduct extensive analyses of specific medications that we believe are over-prescribed. For example, in 2010 we determined that Plavix was commonly being overprescribed per society guidelines. Working with prescribers, pharmacies and the members involved allowed us to decrease the usage and costs for Plavix despite considerable enrollment growth during this timeframe.

| Pharmacy | | | | | | |
|---|---|---|---|---|---|---|
| Year | Drug Name | Members | Scripts | Pill Quantity | Day Supply | Amount Paid |
| 1st qtr 2010 | Plavix 75 MG Tablet | 1,089 | 2,567 | 77,112 | 76,448 | $400,288 |
| 1st qtr 2011 | Plavix 75 MG Tablet | 454 | 1,053 | 31,207 | 31,207 | $188,856 |

Our concurrent review program promotes appropriate dispensing and use of drugs consistent with established pharmaceutical guidelines and the state's direction. Prescriptions filled at pharmacies are automatically screened against the member's available drug history (RFP, 3.3, paragraph 3). Examples of these edits include:

- Refill too soon
- Step-Therapy
- Min/Max dosing
- Formulary drug
- Underutilization
- Duplicate therapy
- Drug-Drug
- Drug-Gender
- Drug-Age
- Drug-Disease
- Drug-Pregnancy/lactation
- Drug-Allergy

Meridian's retrospective utilization review is designed to monitor patient safety and appropriate drug utilization. Member trends are communicated to primary care providers and pharmacies to identify and fill gaps in care.

**Enhanced Member Health Outcomes While Monitoring the Value of Care**

Meridian's trend management reports showed that the prescription pain medication, OxyContin, was being over-utilized by members. In some case pain medications do not address root problems of pain, only act to hide symptoms, and should not be used for ongoing care. As members were taking OxyContin, many required a higher dosage and frequency to mask their symptoms, and in some cases became dependent. In response to this challenge, Meridian developed a policy that required members taking OxyContin to visit a pain management specialist to assess their condition and set an appropriate care plan. This policy reduced the member's dependency on OxyContin (Since 2009, the number of members filling prescriptions for OxyContin has decreased by 76%) and decreased cost while improving the member's care.

***Describe your approach to pharmacy lock in programs.***

Meridian offers a pharmacy lock in program consistent with that currently implemented in New Hampshire (Official Response to Bidders' Questions, Addendum 1, and Appendix D). The plan shares the same sense of purpose with New Hampshire to "identify and manage recipients with abusive patterns of obtaining prescription medications, by restricting or locking them into one primary pharmacy to obtain all prescription medications." In fact, Meridian would consider its pharmacy lock efforts to be part of a joint effort with DHHS and SURS to assist monitoring and identifying overutilization or inappropriate use of prescription drugs.

Our lock in program is synchronized with MCS ensuring timely process flow within the system, real-time alerts visible to Meridian staff, auto-generated notifications delivered to members, and seamless reporting capabilities.

**Extending Lock in to Prescribers**

Meridian can enhance its lock in program to include locking high-risk members to a principal pharmacy *and* prescriber. Doing so helps coordinate the member's care at one centralized location and promotes the use of a Patient Centered Medical Home. Often, these locked members are identified as high-risk for medication abuse, misuse or high Emergency Department utilization. Making their benefit only available when using the designated prescriber or pharmacy allows for greater coordination of care. This is crucial for the member to receive the safest care by ensuring all claims/prescribing history is available at the time of fill/prescribing, assuring the member gets the highest quality of care possible while reducing potential abuse.

***Describe your approach to making pharmacy services information, such as claims history, drug information, etc.) accessible to members.***

Meridian believes member understanding of pharmacy services is critical to member health. The plan creates open communication lines with members via telephone, web, and print media.

Our in-house call center provides full support for all members, accommodating those with special needs (Question 18, page 42), and will include Certified Pharmacy Technicians who can help with pharmacy related member questions. We also have Clinical Pharmacists available 24/7.

Meridian's website offers a convenient platform to publish materials that members can review on demand. Members can also interact with our Pharmacy Technicians using a live online chat

available on the website. This feature provides targeted answers to member questions as they review materials online. Additionally, a secure Member Portal is available to all members via the website. The portal allows members to view information regarding claims history, drug information and benefits. Members can access this information in real-time at their leisure.

Member communication is fully integrated with our Case and Disease Management teams to ensure patient understanding of medication related information. Meridian supplies a quick reference guide, readily available on its website. Quarterly newsletters are mailed to members and also made available via the web. Additionally, we provide printed explanation of benefits and claims history information to members upon request.

**Mobile Applications**

Smartphones, tablet computers and their associated apps are changing how members and providers interact with healthcare related information. Members can download our free mobile applications to access their ID cards, search for in-network pharmacies, view their PCP, access claims history, receive preventive health reminders, contact Meridian and much more.

**Q7. Describe your academic detailing program or other programs that support evidenced-based physician prescribing.**

Meridian's Academic Detailing Program has a multi-level approach to ensure our members receive the most clinically appropriate, yet cost effective care. Our PBM services are much more than just claims processing. Utilizing Clinical Pharmacists and Physicians for one-on-one meetings, our Academic Detailing Program includes:

- Non-formulary or non-preferred medications are selected based on utilization data and marketplace trends. Meridian notifies members regarding the targeted medications through letters and phone calls. These letters/communications explain the program and the availability of alternative medications.
- Meridian reaches the prescribing physician's office via fax or phone calls requesting changes to the member's medication and advising appropriate formulary alternative medications founded on evidence-based documentation.
- Meetings are set up at the provider's office with a Clinical Pharmacist and/or Medical Director to discuss prescribing trends and formulary alternative medication built on evidence-based medical literature. An open direct line to the Clinical Pharmacist/Medical Director is left with the provider for further assistance and clarification.

**Q8. Describe your strategy to create a robust network of pharmacies across the State.**

Meridian offers a nation-wide network of approximately 55,000 pharmacies including CVS, Walgreens, Rite Aid, Wal-Mart and Target. Prior to the release of this RFP, our network included the majority of all pharmacies in New Hampshire. Incorporating New Hampshire data with our GeoAccess reports, we have identified in-state pharmacies that are not currently in network to contract based on access needs. Additionally, claims that are submitted from out-of-network pharmacies trigger alerts to our Network Development team to start building the relationships needed to best serve our members.

Our point-of-sale system can be customized to accommodate pharmacies whether they are a large national chain or a single site independent business. Our focus on customizing to meet local

needs emphasizes the belief that our members should have choice when making health care decisions.

**Q9. Describe what role, if any, the pharmacies play in your disease and care management programs.**

Meridian provides pharmacies with direct access to member HEDIS needs through our online point-of-sale system. We provide information on needed services and encourage pharmacists to remind our members of upcoming health requirements including asthma, diabetes, and COPD.

To ensure that pharmacies are involved and notified of any potential drug concerns, our point-of-sale system identifies the edits listed in our response to question 6 on page 33.

**Q10. Describe your strategies to promote the use of e-prescribing.**

Meridian shares a commitment to the use of e-prescribing with New Hampshire and the New Hampshire Citizens Health Initiative. Similar to the state, we promote SureScripts and RxHub and offer providers a free e-prescribing solution to ensure that our entire provider network has the capability to conduct e-prescribing transactions.

Medical Management, in coordination with Provider Services, works with providers to obtain computers, laptops, smartphones, tablets and internet access for e-prescribing. We offer training to make sure that all providers fully understand e-prescribing functionality.

**Q11. Describe strategies you employ to make your formulary and prior authorization accessible to your provider network.**

Meridian provides a seamless formulary update process that upon the push of a button simultaneously updates:

- The live web with the most recent formulary
- Electronic copy to ePocrates to ensure the most recent formulary is available to prescribers at all times
- Provides an NDC based formulary to the client/call center staff for reference and investigation purposes
- SureScripts/RxHub for up-to-date e-prescribing needs

We communicate our prior authorization process and forms to providers in a variety of ways:

- Through the websites of MeridianRx and Meridian
- From the Provider Portal
- Via the call center where staff can mail or fax per provider needs
- Through computers, laptops, smartphones, tablets and internet access donated to providers by Meridian

**Q12. In regards to pharmacy claims adjudication:**

***Who adjudicates your pharmacy claims?***

MeridianRx is the Pharmacy Benefit Manager for Meridian.

***Describe how you ensure adequate oversight and monitoring of the pharmacy claims processor.***

One of our key motivating factors in creating MeridianRx was to ensure that we could develop unique features that better fit the needs of our members, physicians, pharmacies, and Medicaid

agency partners than what we were able to obtain through contracting with an external PBM entity.

As affiliates, Meridian and MeridianRx offer a shared commitment and culture to improving the quality of care.

Prior to contracting with MeridianRx, Meridian contracted with a national PBM to help administer the pharmacy benefit to Meridian's members. Contracting with a large national PBM is the approach used by the vast majority of Medicaid MCOs throughout the United States. However, as we analyzed our quality and cost outcomes, it became evident that the national PBM was not meeting the needs of our members and producing the safe, yet meaningful cost savings we expected. A lack of transparency and oversight prevented the plan from offering the desired level of service to our providers and members. As a result, Meridian's CEO, Dr. David B. Cotton, envisioned that Meridian could build and operate a different kind of pharmacy benefit manager. This led to the formation of MeridianRx. Meridian oversees MeridianRx's performance through daily interaction, the use of interdisciplinary care teams and cross-functional programs. We review daily, weekly, monthly, quarterly and annual performance reports through integrated data platforms and access to the latest pharmacy encounter data in all of our decision support systems and dashboards.

***If pharmacy claims are paid through a different claims platform than medical claims, describe how third-party liability information is coordinated and shared.***

Meridian shares daily enrollment files, including third party liability information, with MeridianRx. At point of sale, third party liability is identified to make sure that claims are properly adjudicated. If the pharmacy identifies any third party liability information it is submitted to MeridianRx who reports this information to Meridian.

***If pharmacy claims are paid through a different claims platform than medical claims, describe how encounter data are aggregated.***

Meridian's integrated technologies and data platforms allow for the seamless integration of information including aggregation of medical and pharmacy claims into a data warehouse, which in turn populates our dashboard reporting suite. This integration is achieved by using a single member ID in both platforms to link medical and pharmacy claims.

***If pharmacy claims are paid through a different claims platform than medical claims, describe how pharmacy utilization data are used in your disease and care management programs. Describe how pharmacy data are linked with Medical claims data at the member level in these programs.***

Pharmacy and medical claims are collected in our data warehouse using a single member ID. Data mining is used to identify and stratify members for our disease and case management programs. In addition, the information is then aggregated to create the member profile integrating both pharmacy and medical claims. This allows the Interdisciplinary Care Team to see the whole member and make clinical decisions taking both pharmacy and medical into consideration. This enables the case and disease managers to review and monitor members across all spectrums of care.

## 3.4 Member Enrollment

Meridian will partner with New Hampshire to best meet the needs of the state's Medicaid population. As the basis for partnership, we offer an acknowledgement of New Hampshire's authority in determining Medicaid eligibility, as well as the state's related processes (RFP, 3.4.1); collaboration with the state to facilitate member choice of enrollment, including providing information to the public and/or potential members (RFP, 3.4.2); and a commitment to transparency and openness in supporting member enrollment.

**Q13. Describe your strategy and experiences with assisting members in retaining their Medicaid eligibility**

Meridian understands the importance of assisting members in retaining their Medicaid eligibility in order to minimize coverage gaps and maintain continuity of care. Members may forget to submit paperwork in a timely manner, or do not realize that action is needed to maintain Medicaid eligibility. When this occurs, members must scramble to regain their eligibility, and may lack coverage for an extended period because of administrative issues.

To assist members in maintaining eligibility, Meridian uses the redetermination date provided on state enrollment files to target members for outreach 60 days prior to redetermination. Our redetermination outreach campaign is run weekly, reminding members to submit the required paperwork to DHHS. We populate the redetermination date within MCS member demographics screens, so it is visible to all staff that comes in contact with the member. This effort helps to ensure continuity of care and that there are no gaps in coverage due to losing Medicaid eligibility for administrative reasons.

New Hampshire offers an array of access points for potential and current members to determine eligibility and to apply for benefits. Meridian will fully support the state's District Offices, as well as the NH EASY website. If permitted, we will integrate our systems with the state's to foster real-time information sharing.

We support members by providing a single call resolution experience. When a member has questions about eligibility, our staff provides an answer or connects the member with someone who can assist. Our call center is trained to respond to eligibility questions, and can directly warm transfer or conference call with the appropriate state contact to ensure that the member's needs are met. For more information about our warm transfer process and integration with the New Hampshire call center, please see our response to question 21 on page 45.

Meridian also has a program to assist non-compliant members whose behavior can jeopardize their Medicaid eligibility. These members are referred to the Compliance Program for targeted education and outreach. The Compliance Program works with members and their providers to establish health care goals, identify and eliminate barriers to care, and facilitate care coordination. At the end of this program, members transition from non-compliant, high-cost members into knowledgeable participants in their own health care.

**Q14. Describe the support and strategies you will employ to assist members who transition in and out of your plan, due to loss of Medicaid eligibility.**

Meridian is committed to building long-term relationships with our members. We support those who transition in and out of the plan due to the loss of Medicaid eligibility by maintaining a historical record in our database and systems. Members are not erased from our systems when

no longer eligible. To the contrary, we believe having a member's eligibility history on file assists in delivering managed care services and coordinating the necessary care for a potentially at-risk population. In other states, Meridian has facilitated a data transfer process with the state Medicaid department to ensure access to member historical data and eligibility. This data allows us to conduct member stratification for programs, such as Disease and Case Management, develop targeted and individualized care coordination plans for members, and create a historical record to better assist members transitioning in and out of the Medicaid program.

As members enroll in our plan, their contact information is routed to member outreach personnel to perform a welcome call. This initial contact is aimed at creating a relationship with the member. During this call, we welcome the member to Meridian, perform a Health Risk Assessment (HRA), assist the member in choosing a PCP, make an appointment with the PCP if needed, and answer any member questions. We also inform the new member that a welcome packet has been mailed to them, with information about covered services, the member handbook, PCP assignment and contact information, and member identification card.

**Q15. Describe your experience collaborating with a State's enrollment assistance function and your strategies and processes to assist members in plan choice and enrollment.**

Meridian recognizes that member understanding of the plan's requirements and provided benefits are critical to our success. This includes awareness of our organization and operations, available services for members, member rights and responsibilities, health education opportunities, and the benefits of prevention, wellness and appropriate utilization.

Data transfer between organizations is at the heart of coordinated care. We will integrate with the state's eligibility system to offer seamless, real-time information sharing to support member inquiries. We will provide DHHS with the following information (RFP, 3.4.2):

- Plan benefit description
- Accurate provider network information
- Member handbook
- Plan HEDIS scores

In addition to data exchanges with the state, we also make the above information available on our website, ensuring that prospective members have the information needed when deciding upon a plan.

With MCS, Meridian has the ability to send and receive daily, weekly and monthly files in any necessary format. We are committed to working closely with New Hampshire to provide any desired enrollment support.

**Q16. Describe your policies toward enrolling a newborn**

Meridian follows state regulations for the enrollment of newborns. Upon notification of a birth, we coordinate with the state to ensure that the child is appropriately enrolled into our services before referring the newborn and mother to our Women and Children's Services (WCS) program. The WCS staff make health outreach calls to pregnant women and new moms. These calls ensure access to timely care for pregnant women and continued care following delivery, in addition to ensuring that newborns get needed well-care and immunizations.

## 3.5 Member Services

Meridian is a member-focused managed care organization providing individualized member services. Blending proprietary technology and highly trained and skilled staff, our Member Services department is the first point of contact for members, and provides timely, knowledgeable assistance and support (RFP, 3.5, paragraph 1).

Upon enrollment, Meridian members will receive a welcome call, an ID card and a member handbook that comply with the stated requirements (RFP, 3.5.1). All member information is developed in alignment with New Hampshire's Cultural Considerations (RFP, 3.5.2 and 3.5.4) to accommodate members with special needs. Meridian provides outstanding service to all members, regardless of background or language.

Our member call center operates as a "Best in Class" center of excellence, with performance metrics that routinely place it among the top 5% of call centers nationwide. We provide live coverage of all phone calls 24/7. Meridian's personal touch allows us to triage and support member needs, including integrating with New Hampshire's DHHS call center (RFP, 3.5.5).

We believe that in a mandatory enrollment program design setting, Medicaid dollars should be utilized to enhance the quality of member health care. Meridian does not conduct door-to-door, telephonic or other cold call marketing. Instead, Meridian prefers to host and/or participate in on health and wellness fairs, providing information on healthy living to all members of the community who attend. We partner with state agencies for review and approval of all marketing material, and ensure that it also complies with applicable federal requirements (RFP, 3.5.6).

Meridian's goal is to improve the health of the Medicaid population. To do so, we must facilitate member and provider engagement to enhance the effectiveness and value of our programs. Our member advisory board, regional meetings and surveys provide feedback that drive continual improvement (RFP, 3.5.7)

**Q17. Describe how you will accommodate non-English speaking members in member services.**

Meridian is committed to serving all members, communicating in the language of their choice and building literacy bridges with members without a delay in services, benefits or treatment. The MCS Member Relationship Module tracks member language preference for future calls and communications, ensuring that our employees are able to collaborate with our members according to their individualized needs. MCS captures the member's primary language which can trigger automated mailings to be created in languages other than English. This feature also allows Member Services to more efficiently search for PCPs and other providers who speak the same language.

Meridian offers these services to accommodate non-English speaking members:

- A Member Services Help Line offering telephone-accessible services in over 170 languages, with full support for all languages spoken in New Hampshire as indicated by the 2010 Census
- In-house staff with fluency in the language of large non-English speaking member groups
- A training program that builds cultural awareness and language fluency for our employees
- A commitment to staffing diversity, especially those in daily member contact, reflecting the composition of membership

- Website content in English, Spanish and any other languages as determined by DHHS (RFP, 3.5.4)

**Q18. Describe how you will accommodate members with special needs, including those who are deaf, visually impaired, persons with mental illness, or persons with cognitive impairments in need of additional assistance to understand information, in member services.**

Meridian is committed to providing the same outstanding service to every member, including those needing extra assistance.

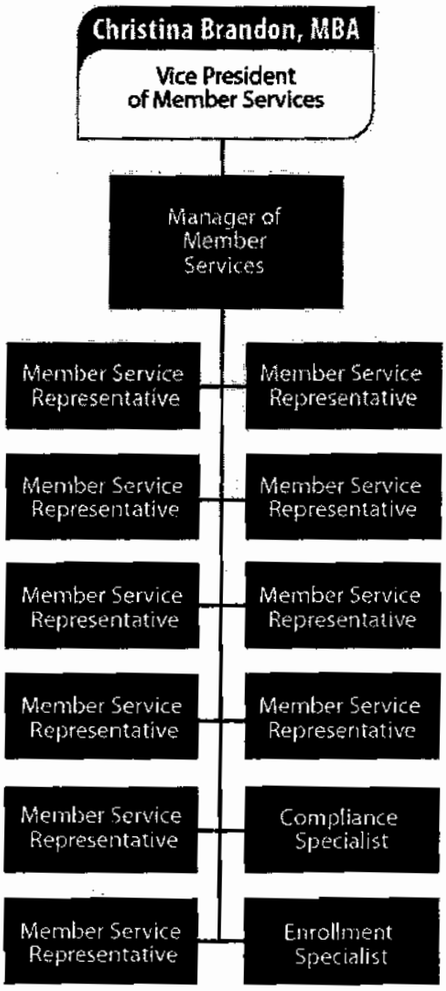
MCS tracks member needs and preferences to ensure that members receive all needed support, including:

- A toll-free Teletypewriter (TTY) and Telecommunications Device for the Deaf (TTD) services for members with hearing or speech impairment, as well as online Live Chat service which allows members and providers to instant message with Meridian employees
- Production of materials in alternative formats (large print, Braille, audio) to assist member understanding
- Individual assistance and personalized programs for members with cognitive impairments
- A training program for Member Services staff to evaluate special accommodations on a case-by-case basis, with consideration for the level at which the member is able to verbalize information, the length of time the member is able to speak, and how much of the member's speech can be comprehended by others (RFP, 3.5.2)

Our Member Services staff is trained to recognize and refer members with special needs to Case Management and/or Behavioral Health, as appropriate. These referrals are made in real-time through MCS. Full details of Meridian's Case Management and Behavioral Health programs are available in section 3.11 on page 73.

(The remainder of this page intentionally left blank)

**Q19. Provide an organizational chart of the Member Services Department, showing the placement of Member Services within the MCO's organization and showing the key staff within the Member Services Department.**



A complete organization chart for Meridian can be found in Appendix C.

**Q20. Describe the curriculum for training to be provided to Member Services representatives, including when the training is conducted and how the training addresses:**

Meridian provides a robust training program for all Member Services staff to ensure high quality customer service to all members and providers. Upon hire and annually, our Member Services staff receives in-depth training, including plan policies and procedures; plan benefits, including description of all covered services; behavioral health services; long-term services and supports; identification of members with special needs and appropriate referral processes; cultural competency; and assisting members with Limited English Proficiency (LEP). A complete training checklist, profiling the training offered to Member Services Representatives, is provided in Appendix D.

This initial training is complimented with routine staff meetings and corporate trainings throughout the year to ensure Member Services representatives maintain professional competency. Trained in the Granite Customer Care Factor, our employees are able to assist both members and providers with questions relating to all areas of the Medicaid system, and can assist members and providers with questions relating to:

- Eligibility
- Authorizations
- Behavioral Health
- Claims
- Disease Management
- Pharmacy
- Provider Services
- Women's & Children's Services
- Utilization Management

Our representatives also practice single call resolution, making every effort to resolve issues with the initial phone call. In cases where follow up is needed, it is initiated by the representative rather than the member or provider.

Employee quality evaluations are performed on a weekly basis to ensure adherence to customer service and quality standards. A total of five quality evaluations are conducted per Member Services Representative, per week. Each quality evaluation is discussed with the Member Services Representative who processed the call, to acknowledge strengths and accomplishments, discover opportunities for improvement, and establish goals to improve member satisfaction.

Member Services Representatives who do not meet these quality guidelines receive coaching and additional training from the Member Services Team Lead.

***Covered Services, including Behavioral Health Services and Community-based Long Term Services and Supports***

All Member Services staff are educated on Meridian's covered services including the appropriate language to use when communicating with members regarding Meridian covered services versus state carve-outs. Meridian staff are trained to identify members and coordinate their care with community-based long term services, community mental health services, and school-based services.

***MCO Program requirements***

Our staff incorporate the Granite Customer Care Factor into meeting all organizational requirements. Employees receive a corporate orientation where MCO program requirements such as policies and procedures, reporting structures, grievances, appeals and denials are reviewed. To ensure that employees can provide cross-department knowledge, training includes overviews of each functional area emphasizing areas of specific interest for members and providers.

***Special Populations, including those who are deaf, visually impaired, persons with mental illness, or persons with cognitive impairments***

Member Services Representatives are trained to identify members with special needs and assist them by providing them appropriate resources. These resources can include written materials in

braille or large print format, TTY services, Live Chat, and care management programs. Staff are specifically instructed on entering member needs and communications preferences into MCS for use in future contacts.

*Cultural Competency*

Our Representatives are trained to operate with cultural awareness. Meridian staff are able to assist members by identifying providers who meet member cultural needs, such as language, using the online Provider Search Directory.

***Providing assistance to Members with limited English proficiency.***

Meridian utilizes a vendor to provide language interpretation services to our members. Member Services Representatives are trained to use this service, and our phone system is configured to allow the Member Services Representative to stay on the line with the member and the interpreter, and ensure that all member concerns are addressed before ending the call.

**Q21. Describe how you would coordinate the current New Hampshire call center operations with your call center. Describe your proposed transfer protocols.**

Meridian supports New Hampshire's Medicaid processes, including call center operations. Providing a personal touch to every phone call is our forte: every incoming phone call will be answered by a live employee. Staff are trained to identify members needing assistance (RFP, 3.5.5).

If assistance from the New Hampshire call center is needed, our call center staff will provide a warm transfer, instead of an automated answering system (RFP, 3.5.5). If possible, Meridian will send Member Services representatives to the New Hampshire call center to provide an overview of our call center protocols and discuss ways to collaborate effectively.

**Warm Transfers**

Meridian's policy is to always use "warm transfers" to forward a phone call. Instead of blindly transferring a call, then hanging up with no concern for the proper resolution, our warm transfer process includes:

- Transferring the phone call and staying on the line until someone answers on the other end
- Announcing the caller's name, ID number and reason for calling

For members needing to speak with a representative at the New Hampshire call center, our staff would assist with the connection and coordinate with the state's employee to ensure that all member needs are met.

**Q22. Describe your experience operating member call centers. Provide details with regards to the following metrics from your other operations:**

Meridian's call center follows industry best practices to offer an unparalleled level of service. Our call center metrics consistently outperform national averages and routinely place in the top 5% of call centers nationwide. Meridian successfully answers more than 8,000 phone calls every week, each answered by a live Member Services Representative.

| Call Answer Timely and Abandonment Rate | | | | |
|---|---|---|---|---|
| | Meridian CAB | National CAB | Meridian CAT | National CAT |
| | | 90th | | 90th |
| 2009 | 0.69% | 1.09% | 98.34% | 92.79% |
| 2010 | 0.64% | 0.86% | 98.81% | 93.63% |
| 2011 | 0.63% | 0.93% | 98.94% | 94.69% |

***Average call answer time***

5 seconds

***Call abandonment rate***

0.63%

***Representative to member ratio***

1:10,000

***Average call length***

3 minutes 4 seconds

***Interpretation services you are currently providing***

Meridian offers support for 170 different languages, including all languages currently spoken in New Hampshire as indicated by the 2010 census. Additionally, Meridian has implemented a training program for employees to learn a new language to engage non-English speaking members.

**Personalized Service**

Meridian stands apart from other plans by answering all incoming phone calls with live employees, instead of machines. Our Member Services Representatives are trained to handle every call using our *Single Call Resolution* promise.

Combining this personal touch with our proprietary technology, Member Services Representatives can provide members with proactive alerts for healthcare needs and preventive services, delivering an unparalleled level of service.

**Q23. Describe your anticipated call center operation for the New Hampshire plan, including: location of operations (if out of state, describe how it will accommodate services for New Hampshire)**

Meridian call center will be located in New Hampshire. Members and providers will have toll-free 24/7 access to Member Services Representatives. All calls are answered by a live employee who is trained to provide cross-functional assistance.

**Q24. Describe the process in place to ensure that member calls pertaining to immediate medical needs are properly handled.**

Meridian staff are trained to identify and respond to all types of member calls, including medically emergent calls. When a member calls Meridian with immediate health care needs, we refer the member to his/her PCP. If necessary, we will assist the member in reaching the PCP.

If the situation requires, the representative keeps the member on the line until the member is connected with appropriate services. First, the representative determines whether the member is alone. If someone else is with the member, the representative asks to speak to that person and directs them to contact the local community emergency response system. If the member is alone, or will not allow the representative to speak with anyone else, the representative signals another staff member to call the community emergency response system> Meridian provides all call staff with a directory of direct emergency numbers by location, so the representative can contact the 911 service where the member is located. If no one else is available to place the 911 call, the representative personally places the call on another phone line, always keeping the member on the line. This process is available 24/7.

After the member is connected with the appropriate immediate medical services, a summary of the situation is documented in the MCS contact log, including reasons the situation appeared to be life-threatening, and the outcome of the emergency notification intervention. Following documentation in MCS, the incident is promptly reported to the Privacy and Security Office. A referral is sent through MCS to the appropriate department for follow up contact with the member.

**Q25. Describe your plan for in-person member services availability, if any.**

*Location(s)*

Meridian believes in making services available to our members, wherever they are. We work with members in their homes, at local community centers, in the hospital and emergency room, and during community events and health education workshops.

*Services provided*

Our Member Services staff provides education materials and preventive screenings, as well as answering member questions about the plan or their eligibility.

Programs to meet member's in-person include:

- Monthly "open houses" at different locations throughout our coverage area where Meridian provides the above listed services.
- Availability to meet a representative in our Concord office.

*Accommodations for special needs populations*

Meridian provides the same commitment and level of service to all of our members. All locations are selected based on ease of access to the facility and proximity to public transportation. All locations are ADA-compliant.

**Q26. Describe how you will develop, engage, and utilize a consumer advisory board.**

Meridian believes that one of the best ways to determine if our programs are meeting member needs is to facilitate an active member advisory board. Composed of members who are representative of the covered population, the board will meet in-person each quarter and regional forums will be convened twice a year during Step One, as required (RFP, 3.5.7). We will also promote regional meetings with members and conduct an annual member survey in accordance with NCQA CAHPS requirements. This advisory board will be used to improve member communication, gain feedback on new written materials and member incentives, and understand member concerns in the community.

Meridian holds focus groups throughout the state to better understand member needs. Information obtained from these focus groups is reported throughout the company driving changes in policies and procedures to better respond to member needs (RFP, 3.5.7).

**Q27. Describe your approach for ongoing member communication and outreach.**

Meridian knows that effective health care services must extend beyond the doors of a provider's office. We focus on care management and intensive preventive health outreach; as part of this focus, member outreach and education efforts play a critical role in our operations. Our Member Services Department is trained to turn every instance of member contact into a preventive health education opportunity. We provide a range of ongoing member outreach activities, including:

- Mailings (monthly, seasonal, condition-specific, or as needed based on member contact; samples can be found in Appendix E, Member Communication and Outreach)
- Telephonic outreach (Touchstar automated dialing system used for ; using our automatic dial system, Touchstar, we conduct new member welcome calls, call members identified as needing to complete a HEDIS measure(s), our system also tracks current members and conducts outreach to those who had not had a claim within the last six months
- Live Chat (online access to a Member Services Representative)
- Member web portal (secure access for members to update demographic information, request handbooks or member ID cards, and more)
- Community events and activities (described below)

In addition to providing members with health education and outreach at home, Meridian extends the health care conversation into the broader public sphere. By reaching out to members in their communities, including family resource centers, school-based health centers, youth service centers and other community organizations, we can offer needed health education and screening services in a familiar, non-threatening setting. We partner with local organizations to reinforce and support existing community health care services, and identify opportunities for strengthening health care resources.

Members with special needs receive educational pieces that provide information on chronic disease management, preventive care, and various medical topics to provide a better understanding of medical coverage, as well as the need for ongoing care.

Meridian is committed to actively participating in and supporting the communities we serve. We see this as our fiduciary responsibility, not only as a state partner but as an organization dedicated to improving the quality of care for our members. Through our Charitable Activities Committee, Meridian has made donations to over sixty different community partners in the past year. These donations range from small, local organizations like Alcona Citizens for Health (a county organization) to large local chapters of partners like the American Cancer Society. Our Provider Services Representatives work with our providers in the community to identify opportunities for the Committee.

We actively promote health and wellness. Our Provider Services Representatives, Outreach Specialists and our President and CEO attended numerous community events, such as health fairs, health screening events, community baby showers and similar programs to distribute health education materials and answer questions. At other events, we provide health care services such as well-child exams, lead screenings and immunizations.

Meridian promotional items provided at these events share this practical, health-focused approach: instead of the usual novelty giveaways, we offer toddler cups, band-aid packs, tote bags, dosing spoons, diapers, baby wipes, and other useful items.

All Meridian marketing activities and materials will comply with the rules and requirements of the contract with New Hampshire. We will develop a marketing plan and submit it to DHHS for approval prior to engaging in any marketing activities. Each individual marketing item produced by Meridian will be submitted for written approval prior to dissemination. We recognize that as a Medicaid managed care organization, we are not permitted to engage in any marketing activities without prior approval of the Department (RFP, 3.5.6).

**Innovation and Local Partnerships**

Meridian has been an active partner in the statewide Asthma Initiative of Michigan (AIM), an organization supporting and expanding in-home asthma education and environmental assessments in high-risk counties. In 2007, Meridian was one of the first Medicaid health plans to contract with a regional AIM group, the Asthma Network of West Michigan (ANWM). ANWM is a nationally-recognized program providing home-based case management services to over 80,000 children and adults with asthma.

ANWM's success is due to its multidisciplinary approach, with teams of Respiratory therapists (RT), nurses, and social workers addressing both clinical and social factors that can affect asthma control and outcomes. When Meridian began collaborating with ANWM, we set up a fax referral process that included not only our highest-risk asthma members, but also all members in the region with ER visits for asthma. We were able to demonstrate a 20 percent reduction in ER visits overall, with 40 percent of our members completing six or more asthma education sessions.

The following year, Meridian transitioned to an automatic referral program for our members in the region. Based on these outcomes, we expanded the model into other counties. The state of Michigan asked Meridian to present these outcomes at another regional Asthma Network (GCAN) kick-off meeting to encourage other Michigan health plans to develop this program.

**Q28. Describe your strategy for use of internet member services and other social media programs.**

Meridian is committed to providing members with information and outreach in multiple formats, from phone calls and mailings to online resources, chat and social media. Social media allows us to reach our members in new ways, providing additional opportunities to educate. By increasing access to health information, we empower our members to optimize their individual healthcare outcomes.

Our website offers electronic versions of the member handbook and newsletters, links to trusted preventive health websites and information about preventive care services and disease management programs. The site's Live Chat feature allows members to communicate with Member Services Representatives in an online forum in real time. Members can use the Provider Directory search for providers; the database is searchable by location, specialty, language and other criteria. Meridian members have free access to our secure Member Portal, where they can view needed preventive care services, request a PCP change, and order replacement handbooks and member ID cards. Website content is available in English and Spanish, as well as the languages of any other major population groups in the service area. Content is culturally appropriate and written at or below a 6th grade reading level. Please see our response to questions

17 and 18 beginning on page 41 for additional information about the language and format of our member information.

Meridian sends a monthly email to members that provides educational information and preventive health reminders. We also exchange helpful information and answers via text message for members who opt-in to our texting program.

Meridian recognizes the value of social media to connect with our members. Using Facebook, Twitter, and other social media platforms, we provide preventive care information and encourage a healthy lifestyle.

Smartphones, tablet computers and their associated apps are changing how members and providers interact with healthcare related information. Members can download our free mobile applications to access their ID cards, search for in-network pharmacies, view their PCPs, access claims history, receive preventive health reminders, contact Meridian and much more.

(The remainder of this page intentionally left blank)

## 3.6 Cultural Considerations

Meridian delivers services in a culturally competent manner to all members and providers. We accommodate members' needs, including those whose first language is not English, who are visually impaired, who are hearing impaired, who have physical disabilities, and/or who have cognitive disabilities. We understand that our members will be a diverse population with different literacy levels, learning styles, and capabilities, and we will respect members whose lifestyles or customs differ from the majority of the population (RFP, 3.6, paragraph 1). All Meridian Member Services staff are trained to recognize and respond to the needs of culturally diverse members.

Meridian creates materials in the formats and languages needed by our members, including Braille materials for the visually-impaired and American Sign Language (ASL) interpreters for the hearing-impaired. The Meridian Member Handbook and our website include information on obtaining these interpretation services (RFP, 3.6 paragraph 2). We also communicate using audio-visual and other formats that can effectively convey member information (RFP, 3.6 paragraph 3). All National Standards on Cultural and Linguistically Appropriate Services (CLAS) will be implemented (RFP, 3.6, paragraph 4).

**Q29. Describe how you will assure cultural competency throughout your network. What training programs and support do you offer staff and providers regarding cultural competency?**

Provider Services hires locally, so employees have a solid understanding of the community's needs and concerns. Provider Services Representatives make monthly in-person visits to provider offices, establishing a personal relationship with every office in our network. The representatives educate providers on our language assistance program resources. In addition, we offer providers online access to cultural competency training information, with links to the most recent HRSA materials on culture, language and health literacy.

Meridian employees receive cultural training on an annual basis. This training incorporates role-playing, allowing employees to better understand alternative perspectives, reflect on their own biases and beliefs, and consider their personal experiences with discrimination and prejudice. Our training promotes awareness and helps facilitate attitude change.

**Q30. Describe how you will ensure that your provider network is ethnically diverse and similar to the demographic profile of your members.**

Building a network that reflects the population we serve not only makes our plan more attractive to potential members but also reduces barriers to seeking the right care in the right place at the right time. Ensuring an ethnically diverse provider community is essential in not only building relationships with our members but maintaining them as well.

Meridian evaluates member needs on an ongoing basis through member demographics reports, member feedback and census reports. This information is shared with our Provider Services Representatives to assist them in building and maintaining an ethnically diverse network similar to the demographic profile of our members.

### 3.7 Access

Meridian is a leader in developing Medicaid provider networks in both urban and rural areas. We create exceptionally strong and lasting relationships with our providers which results in the continuous elimination of barriers to access for our members. We build personal relationships through monthly face-to-face visits and also equip our providers with a vast array of technology to help them improve their administrative efficiency allowing them to focus on what they do best; delivering high-quality care.

Our contracted provider network has the capacity to provide PCP access for all members. We monitor this network on an ongoing basis to ensure that all covered services delivered by network providers within the scope of this RFP are accessible to members and shall be in compliance as described in Section 3.5 and for covered services delivered by PCPs described in Section 3.1 (RFP, 3.7, paragraph 1).

Meridian's complete and comprehensive provider network includes PCPs, specialists, hospitals, mental health providers, and pharmacies within the geographic distance standards for all members (RFP, 3.7.1 paragraph 1). Full details of our contracted network access can be found in Appendix B. Our providers are available within the hours of operation offered to commercial insurance and fee-for-service members including evening and weekend appointments (RFP, 3.7.2 paragraph 1). Our network has the capacity to ensure that the waiting times for appointments will not exceed 14 calendar days for routine care, 24 hours for pediatric or adult sick care, 30 calendar days for Specialist appointments, 30 calendar days for elective hospitalizations, 14 calendar days for mental health providers, and immediately for any Emergent Care Providers and will not require prior authorization for emergent care (RFP, 3.7.2 paragraph 2). Meridian does work with out-of-network providers for Medically Necessary Covered Services that our existing network is unable to provide (RFP, 3.7.4)

Meridian ensures that members will have contact with community mental health centers within 48 hours of any hospital psychiatric discharge. We also coordinate a follow up appointment to ensure that our members see their behavioral health provider within 7 days of their hospital psychiatric discharge (RFP, 3.7.2 paragraph 3). Meridian has experience, listed in Q79 on page 132, with performing discharge follow up for medical hospital admissions and will tailor our current program to meet the needs of this RFP.

Meridian has extensive experience contracting in rural areas. Our proposal to provide access to maternity services in Coos County is outlined in Q34 on page 54 (RFP, 3.7.2 paragraph 4). In all other counties, we will ensure that female members have access with an in-network women's health specialist to provide not only routine and preventive care, but all necessary covered care. This is in addition to the services rendered by female members' PCP (RFP, 3.7.3 paragraph 1).

All network providers have contractually agreed that members cannot bill for any remaining unpaid amount by Meridian (RFP, 3.7.4 paragraph 1). We ensure that all payment arrangements are coordinated and agreed upon with out-of-network providers for services rendered (RFP, 3.7.4 paragraph 2). We also provide the option for members to receive a second opinion by a qualified healthcare professional at no cost to the member (RFP, 3.7.5). All provider related processes are readily available to members through the Member Handbook (3.7.5 paragraph 1).

**Q31. Describe your approach to building a viable network of services in the rural areas of New Hampshire and how you will ensure access to primary and specialty care in these areas.**

Building and maintaining a comprehensive provider network is critical to reducing health care costs, because it eliminates treatment barriers related to access and makes it easier for members to obtain preventive care. Meridian has extensive experience in ensuring access and is especially focused on making sure New Hampshire's rural populations are properly served. Meridian has developed a robust provider network consisting of primary care practitioners, specialist physicians, ancillary providers, and hospitals spanning all 10 of New Hampshire's counties. Meridian operates an open network, allowing all providers the opportunity to participate if they so choose provided they meet the credentialing standards established by NCQA, URAC and CMS.

Meridian can demonstrate a long-standing commitment to working with the "safety-net" providers serving the Medicaid population. Federally Qualified Health Centers (FQHCs), rural health care centers, public health departments and community mental health centers are the bedrock for the Development of a comprehensive primary care network. For example, in Michigan Meridian is contracted with 26 of the 27 FQHCs and all of the public health departments in our service area, which encompasses 66 of the State's 68 Counties in the Lower Peninsula. We will bring this same partnership mentality to New Hampshire and solicit network participation from all FQHCs and community mental health centers in our awarded service area, as well as public providers and other safety net providers. Meridian will also look to partner with the public health departments and coordinate outreach programs improving the overall quality of health care provided to our members.

Meridian knows how to ensure access to services for New Hampshire's rural population through our experience in other states. Meridian has the largest number of members living in rural areas of any of the 13 other Medicaid HMOs operating in Michigan. Similar to New Hampshire, many of Michigan's counties are sparsely populated. Yet every member within Michigan, including those in rural areas, have a choice of 5 primary care providers within an average of 3.4 minutes of their homes; 95% of Michigan's entire membership is located within 30 minutes of a high-volume specialist such as OB/GYN, Ear, Nose & Throat, and Orthopedics. Michigan's network consists of the largest number of hospitals of any Medicaid health plan in Michigan, with 20 more hospitals than its nearest competitor. Overall, Meridian is considered Michigan's rural Medicaid health plan, and will provide this same level of access to New Hampshire's rural population.

In Illinois, Meridian created the state's largest service territory, in mostly rural areas, in just under three years. Nineteen of the twenty counties Meridian operates in have had no Medicaid managed care previously and the two other MCOs operating there have been unable to contract with providers in these areas in their 14 years of operations. Much of this success is attributed to Meridian's administrative ease and robust provider pay-for-performance program.

**Q32. Describe your strategies for provider recruitment for providers who currently do not accept Medicaid.**

Meridian will identify these providers and assist them with the process of enrolling in the New Hampshire Medicaid program through the DHHS. This identification process will be the result of member request, hospital affiliation and network adequacy and expansion. Provider Services

Representatives will identify these providers and work with them to enroll in the New Hampshire Medicaid program.

We work diligently to develop a deeper understanding of our provider's wants and needs. This positive working relationship allows Meridian employees to not only assist our providers in navigating Meridian and its processes, but also educate the offices on industry changes at the state and local level.

Meridian has been successful in recruiting Medicaid resistant providers in Michigan and Illinois by offering them services and bonuses that are out of the ordinary. Meridian's physician incentive program that rewards PCPs and OBs for rendering preventive services along with the PCMH bonus program, has allowed us to bring in physicians who had previously declined Medicaid participation. We paid out over $10 million in bonuses in Michigan alone and are on track to pay over $12 million in bonuses by the end of the year.

Another avenue we have taken to recruit physicians into the Medicaid plan is our administratively friendly focus. Our locally positioned Provider Services Representatives visit every PCP office on a monthly basis and high volume specialists regularly to ensure that they have every need met and every concern addressed. We offer a wide array of avenues through which our providers can share information with us and obtain information from us. Our Provider Portal is user friendly and allows transparent interaction between the provider and health plan. Providers are able to easily enter data, authorizations and check the status of claims and eligibility.

We have been able to build and maintain robust provider networks in Michigan and Illinois by maintaining a very high level of service to our provider partners. This level of service and ease of use is how we successfully recruit new providers into the network. Many of these providers, who have not participated in Medicaid in the past, have been willing to join because of our reputation and urging from our current provider partners. Our delivery system in Michigan is the largest of the State's fourteen (14) Medicaid MCOs. This network growth is due in large part to the recruitment efforts of the Provider Services Representatives as well as our statewide reputation for being provider friendly, offering generous bonus programs and being administratively easy to work with. We are confident that we can successfully recruit providers who are not currently enrolled in the New Hampshire Medicaid program.

**Q33. Submit a list of all providers, by provider type/specialty, in New Hampshire in your network, or who are expected to be in your network. Include an indication of the level of agreement that has been reached at the time of the RFP response. (Refer to the GIS Instructions - Appendix A).**

Meridian's list of contracted providers can be found in Appendix B.

**Q34. Identify the projected ratio of primary care and specialty providers to members by county and the rationale you have used to determine that the network is sufficient.**

Meridian follows NCQA, URAC and CMS guidelines in accessing access to primary care and high volume specialists for our members. It is our policy to have at least one adult and pediatric primary care provider for every 2000 members or two of each per county whichever is greater and a driving time of 30 minutes or less. For high volume specialists this ratio is one per 3000. High volume specialties include, Behavioral Health, Chiropractor, ENT, General Pediatrics, General Surgery, Internal Medicine, Neurology, OB/GYN, and Ophthalmology. On an annual basis Meridian assesses this standard by tallying numbers of members and practitioners and by

use of GEO-Access software to make sure these standards are maintained. Identified opportunities for improvement shall be reported to our Quality Improvement Committee with a plan to rectify any deficiencies.

We have secured a full and comprehensive network to service the Medicaid population in New Hampshire as demonstrated in the GEO-Access report in Appendix B. Meridian has ensured every Medicaid recipient in New Hampshire has access to 5 primary care providers within 3.2 miles within all rural areas and average distance of 0.7 miles to five primary care providers in the urban centers. We have also detailed this access by county.

Our maternity health provider network within Coos County includes two individual Obstetrics and Gynecology physicians at three locations. Additionally, Meridian will engage with Weeks Medical Center in a program similar to New Hampshire's to provide enhanced reimbursements for maternity care access. We will also utilize hospitals in neighboring counties, when available, to ensure increased access to maternity services.

**Q35. Describe how you will ensure that members have access to providers who are knowledgeable about genetic or chromosomal condition(s) and related health risks, and understand the issues of health disparities for individuals with intellectual/developmental disabilities and the prevention and management of secondary disabilities.**

Meridian recognizes the importance of providing access to providers that are knowledgeable about genetic or chromosomal conditions and their related health risks along with those providers that truly understand the health disparities for members with intellectual/developmental disabilities. To address this, Meridian has identified all board certified Medical Geneticists, Pediatricians, OB/GYNs, Maternal Fetal Medicine, Neurologists and Neonatal/Perinatal specialists within our New Hampshire provider network. Recognizing these provider types as the best to provide care for genetic or chromosomal conditions, it is paramount that we maintain accessibility without any undue restrictions for our members needing their services.

We have focused on delivering a complete and comprehensive network of CMHC, Child & Adolescent Psychiatry, Neurology, Neuromuscular Medicine, Occupational Medicine, Pediatric Rehabilitation Medicine and Physical Medicine & Rehabilitation providers to ensure our members with intellectual and developmental disabilities access.

Besides providers within the State of New Hampshire we intend to identify and contract with these specific practitioner types in the contiguous States of Massachusetts, Maine and Vermont to provide additional access for our members when necessary.

## 3.8 Provider Network Management and Requirements

Meridian offers a fully developed statewide provider network for Medicaid members, covering all physical, behavioral, and pharmaceutical needs. Our focus on quality and partnership is evident in this network and ensures that our members have access to the high quality of care synonymous with our performance in other states. While developing this network, we considered (RFP, 3.8, paragraph 1):

- Current and anticipated New Hampshire Medicaid enrollment
- The expected utilization of services, taking into consideration the characteristics and health care needs of the covered New Hampshire population
- The number and type (in terms of training and experience and specialization) of providers required to furnish the contracted services
- The number of network providers not accepting New Hampshire Medicaid patients
- The geographic location of providers and members, considering distance, travel time, and the means of transportation ordinarily used by New Hampshire members
- Accessibility of provider practices for members with disabilities
- Required access standards identified in Sections 3.7.1 and 3.7.2

Meridian has not and will not discriminate against providers who serve high risk populations or specialize in conditions that require costly treatment. We instead control costs through coordination, with any and all providers, to identify high risk and high cost members and education to reduce unnecessary costs. Our network has outstanding credentials and we verify that all included are eligible to participate in federal health care programs (RFP, 3.8, paragraph 2).

We monitor the adequacy, accessibility, and availability of our provider network to all members, including those with special needs and cultural considerations. We notify DHHS in the event that a provider contract is terminated for any reason and MCS identifies members affected so that we can coordinate proper alternatives within 72 hours (RFP, 3.8, paragraphs 3 and 21). DHHS will be notified within 2 days as defined by:

- A decrease in the total number of PCPs by more than five percent (5%)
- A loss of all providers in a specific specialty where another provider specialty is not available within thirty (30) minutes or thirty (30) miles
- A loss of hospital within an area where another contracted hospital of equal service ability is not available within thirty (30) minutes or thirty (30) miles.
- Other adverse changes to the composition of the network, which impair or deny members' adequate access to in-network providers.

In the unlikely event that Meridian decides to not include an individual or group of providers, we shall provide a written notice to affected providers of our decision(s) (RFP, 3.8.2, paragraph 4).

Our web-based provider directory is a live reflection of our network. Meridian's network can be searched and sorted by all categories listed including by name, type, specialty, hospital affiliation county, city, zip code, gender and language. These fields are dynamic to provide members, staff, and providers with functionality to broaden or restrict search criteria. Every search result yields the provider location, phone number, fax number, hours of operation, hospital and provider group affiliation, languages spoken, board certification, and whether or not they are accepting new members; including the age group that they are accepting (RFP, 3.8, paragraph 4).

Meridian fully credentials all networked providers to verify that each holds the proper licenses, certifications and are enrolled as a New Hampshire Medicaid provider (RFP, 3.8.1 paragraph 1). As a partner with New Hampshire we ensure that our network meets all current and future state and federal eligibility criteria, reporting requirements, and any other applicable rules or contractual regulations (RFP, 3.8.1, paragraph 2). All providers will have a National Provider Identifier (NPI) in accordance with the timelines established in 45 CFR Part 162 Subpart D (RFP, 3.8.1, paragraph 3). All of our credentialing is performed in house by our credentialing specialists as we believe that our expertise in this area surpasses others (RFP, 3.8.2 paragraph 1). Within the first year of the Care Management Program, Meridian shall deem all current Medicaid Eligible providers as enrolled and credentialed (RFP, 3.8.2 paragraph 2).

Our credentialing and re-credentialing standards are aligned with industry standards and follow state and federal requirements, as well as notices sent to providers. We currently comply with 42 CFR 438.12 and 42 CFR 734.214(b). Initial credentialing will occur prior to the effective date of the provider contract and will be re-credentialed at least every three (3) years (RFP, 3.8.2 paragraph 3). Meridian does not, and will not, discriminate against any provider for participation, reimbursement, or indemnification who is acting within the scope of designation, license or certification under applicable State law, solely on the basis of that designation, license or certification (RFP, 3.8.2 paragraph 4). Our current re-credentialing process does consider provider performance data which includes, but is not limited to, member complaints and appeals, quality of care, and utilization management (RFP, 3.8.2 paragraph 5).

Meridian shall ensure that greater than ninety-eight (98) percent of our network providers retain a board certification. This information, as it relates to all network providers, will be provided to DHHS upon request (RFP, 3.8.2 paragraph 6)

As our Provider Services Representatives visit potential network providers, we encourage their participation with the New Hampshire Medicaid Program as a whole. Meridian believes that more physician participation makes it easier to raise awareness of important healthcare issues and to ultimately provide better service and access to members. To this end, we help providers enroll with the Medicaid Program (RFP, 3.8.1, paragraph 4) by using our face-to-face relationships to assist with information, forms and submission of documents. Our local presence ensures that we understand the immediate needs of New Hampshire members and providers.

Provider Services Representatives maintain effective relationships with the states we currently operate and will do the same in New Hampshire (RFP, 3.8.1, paragraph 12). Meridian has a longstanding commitment to working constructively with the provider community in the markets we serve to achieve superior quality of care, cost savings and access to care outcomes. As a physician-owned and operated plan, we know our success is based on the relationship we have with our providers. This engagement strategy includes the development of a Physician Advisory Committee (PAC) composed of network providers with a broad range of specialties (RFP, 3.8.3, paragraph 1). The PAC will meet at least quarterly in person to address concerns and provide the opportunity for our network physicians to influence our operations. Not only will we address concerns of the PAC, but also offer a provider survey to all network providers to receive feedback to continuously improve our quality of service (RFP, 3.8.3, paragraph 2). Results of this survey can be seen in Q38 on page 60.

All members will have access to New Hampshire designated level 1 and level 2 trauma centers, as well as hemophilia centers. In the event that in-network centers are not located within

reasonable proximity to members, we will make arrangements with out-of-network providers to make these services available to our members. Hemophilia centers will be supported by the Centers for Disease Control and Prevention (CDC) (RFP, 3.8.1, paragraph 6).

Meridian will maintain a network of providers who have admitting privileges at hospitals that participate within the Medicaid Program. This will ensure that our members will be admitted at their physician's discretion for medically necessary treatments (RFP, 3.8.1 paragraph 7).

Every provider who chooses to contract with Meridian is provided with a contract outlining our business arrangements. We do not and will not require providers or provider groups to enter exclusive arrangements for network participation (RFP, 3.8.1, paragraph 8). Our provider contracts, approved by DHHS, are in compliance with all applicable federal, state, and contractual requirements and any changes will be subject to DHHS approval (RFP, 3.8.1, paragraph 9 and 10). All rates negotiated will comply with DHHS requirements including FQHCs and RHCs, which are paid by DHHS, and hospice services, which are reimbursed at Medicare rates (RFP, 3.8.1 paragraph 11). Please see Appendix I for FQHCs under agreement.

Contracted providers will have full access to our policies through the provider manual and provider orientation services. The manual will be distributed within five days of network inclusion and contain sections that describe our special programs and enrolled populations (RFP, 3.8.1, paragraph 13). DHHS will receive all manual updates and changes will be clearly specified for approval (RFP, 3.8.1, paragraph 14). New providers are also given an in office presentation orienting them to our plan within 30 days of network inclusion. The date of and attendance at the orientation is captured and reported through MCS (RFP, 3.8.1, paragraph 15). All materials will comply with state and federal laws and DHHS requirements and will be provided to DHHS upon request (RFP, 3.8.1 paragraph 17)

MCS also retains the ability to track, monitor, and report all specific reasons for claim adjustments and denials as they pertain to error types or providers. If we identify incorrect billing trends, MCS has the ability to write specific claim edits, used to route claims that would normally auto-adjudicate and to identify any specific information that we wish to investigate further. Our claim examiners will then identify root causes of the incorrect billing trends to identify areas of improvement and provide additional education to provider offices as needed. Notice of the results of these investigations is provided to the state (RFP, 3.8.1, paragraph 16).

Meridian's customer service driven representatives are available to answer provider questions 24 hours a day, 365 days a year (RFP, 3.8.1, paragraphs 18 and 19, 3.8.3, paragraph 2). Providers can also use LiveChat to discuss concerns and questions over the web with a live representative.

Meridian also shall comply with the following requirements as listed in the RFP:

a) Meridian shall make payments only to providers enrolled in the New Hampshire Title XIX program.
b) DHHS shall retain the authority to enroll providers in the New Hampshire Title XIX Program and shall notify Meridian of any provider enrollment status changes. The MCO shall notify DHHS of any provider enrollment status changes.
c) If an enrolled provider is excluded from participation by Meridian, DHHS will be notified of such exclusion and provided with an explanation as to why the provider is being excluded from participation.

d) When DHHS receives exclusion notification of a currently enrolled provider, OII – SURS shall notify Meridian accordingly.

**Q36. Describe your strategy for ongoing provider communication and outreach. Include a description of the mechanisms you currently use and will use to communicate with providers and the content you anticipate including in communications.**

Meridian meets the needs of our provider community with a blend of personal interaction and high-tech communication, including in-person office visits, bulletins, newsletters, monthly education sheets, fax blasts, email, website, provider portal and live web chats.

Our locally-hired Provider Service Representatives visit our contracted primary care and high volume specialty care offices on a monthly basis. At each visit, our representatives educate PCPs, Specialists and their staff about the latest policies and procedures, including wellness standards, HEDIS, medical home guidelines, evidence-based practice guidelines, monthly education sheets, and provider portal education and instruction. The representatives also provide a customized report of assigned members still needing necessary preventive health services, and the potential bonuses that can be earned for completing these services. Samples of these communications are presented in Appendix F.

Meridian believes that communications should begin even before a provider joins our network. When a Provider Service Representative visits the office to introduce Meridian, the provider and office staff are offered an Overview booklet that gives a high-level view of Meridian and its programs. Providers and staff are also able to review the Orientation booklet that is offered to new in-network providers. The Orientation gives detailed information about prior authorization guidelines, billing, HEDIS bonus programs and other policies.

Once a provider joins our network, Meridian's Provider Service Representative will visit the office again, bringing the Provider Manual (on CD and also available online) and offering a more comprehensive review of the Orientation booklet.

Each month, the Provider Services Representative will distribute an assortment of educational outreach material. Developed jointly by our Provider Services and Quality Management departments, the education sheets address a different topic each month and include evidence-based medicine and practice guidelines, as well as billing and coding information. Our Representatives are equipped with iPads, so that they have instant access to detailed information in a secure, safe and HIPAA-compliant environment when responding to provider questions.

The Provider Services Representatives are supported by our highly trained Provider Services Department, which offers additional personal attention. Providers may call Meridian directly to ask questions, offer suggestions, register complaints/concerns, etc. Our toll-free provider hotline is directly staffed by Meridian personnel from 8:00 a.m. to 6:00 p.m. Monday through Friday, with additional phone coverage available seven days a week through our after-hours call center. The Provider Services staff receives extensive training to provide efficient, effective service, allowing providers to devote more time to serving our members.

The Meridian website includes a downloadable version of the Provider Manual, bulletins, forms, educational materials, our formulary, a searchable provider directory, Provider Portal and online LiveChat. These materials are presented in an organized and easily searchable format for our providers and allows for 24/7 access at the click of a mouse

The MCS Provider Portal is a secure, proprietary software program that offers unmatched flexibility and efficiency for our network providers. Free of charge to all participating Meridian providers, our Provider Portal allows providers to verify eligibility, view and submit claims, enter prior authorizations, detailed member data and reports, enrollment lists, HEDIS® bonus information, self-reporting and much more.

The Meridian live chat offers providers and their staff secure, HIPAA-compliant direct access to provider services staff members during normal business hours (8:00 a.m. to 6:00 p.m.) to exchange information and resolve any concerns they may have. In 2010, we averaged over 200 online communications a month through our online chat service. After hours, providers may send a secure email, with prompt follow-up the next business day by our internal provider service representatives.

**Q37. Describe how you will develop, engage, and utilize a provider advisory board. Describe the approach you currently take and will take to assess provider satisfaction, including tools you plan to use, frequency of assessment, and responsible parties.**

Meridian values its relationships with our provider community and actively seeks their input through our Physician Advisory Committee (PAC) and Annual Physician Survey. The input received assists us in identifying areas of opportunity for improvement and better development of our programs for both providers and members.

The PAC works to promote quality health care through compliance with standards set forth by Meridian, DHHS and other regulatory organizations. The Committee is comprised of permanent and ad hoc members, who are physicians within the network and/or of varying specialties, including behavioral health. The function of the PAC is to review, approve, and make recommendations on issues of clinical importance specifically related to clinical practice guidelines, preventive healthcare guidelines, criteria used in UM decision-making, peer review activities, quality of care issues, complaints and appeals relative to individual providers and audit results relative to clinical issues.

The PAC is composed of a Medical Director of Quality Management, Medical Director of Utilization Management, Associate Medical Director, and seven network practitioners from varying specialties, practice sizes and geographic locations across our contracted service area. This committee meets quarterly to discuss clinical practice guidelines, preventive healthcare guidelines, criteria used in UM decision-making, peer review activities, quality of care issues, complaints and appeals relative to individual providers and audit results relative to clinical issues. Recommendations from this committee are presented to our Quality Improvement Committee. See our response to Q39, page 62 for additional details on our Quality Improvement Committee.

**Q38. Describe your experience with conducting provider surveys and your provider survey methodology. Also summarize the results of the provider surveys for other state's managed care programs you administered.**

Meridian conducts an annual Provider Satisfaction Survey to monitor our provider service levels. The survey is offered to all primary care providers and high volume specialists and focuses on their overall satisfaction with Meridian and its programs (Provider Services, Utilization Management, Pharmacy Benefits, Quality Improvement, Disease Management, Case Management and our proprietary provider web portal). Rankings are based on five categories of

satisfaction ranging from strongly agree to strongly disagree. Favorable responses include only strongly agree and agree responses. Responses that receive less than an 80% favorable response rate are evaluated to create a corrective action plan annually with a re-evaluation at six months to determine any positive or negative impact in provider satisfaction. Individual unfavorable responses are followed up directly by their Provider Services Representative for resolution.

The table below conveys the results of our most recent provider survey summarized across all states.

**Provider Satisfaction Survey Results, Meridian 2010**

| Questions | Favorable Response Rate (0% – 100%) |
|---|---|
| My office understands HEDIS requirements and has a copy of the HEDIS measures. | 94% |
| My office is satisfied with our Provider Services Representative. | 92% |
| My office is satisfied with the Provider Services Department. | 91% |
| My office understands the Authorization/referral process. | 90% |
| My office is satisfied with the HEDIS bonus notifications. | 89% |
| My office received a provider manual (paper, online or CD version). | 88% |
| My office has received a Provider Newsletter. | 88% |
| My office is satisfied with the claims payment turnaround time | 88% |
| My office is satisfied with the HEDIS bonus incentive program. | 88% |
| My office is satisfied with Meridian Health Plan compared to other Medicaid HMOs. | 86% |
| My office is satisfied with the Claims Department. | 86% |
| My office is satisfied with the plan's Provider Network. | 85% |
| My office is satisfied with our monthly eligibility list. | 85% |
| My office recommends Meridian to our eligible patients. | 85% |
| The utilization management staff is courteous and helpful on the phone. | 85% |
| I am aware of my right to talk to a Medical Director about a denial. | 83% |
| My office is satisfied with the response time for authorization. | 82% |
| My office is satisfied with the provider manual. | 81% |
| My office is satisfied with the plan's authorization process. | 80% |
| I am aware of my right to request the criteria the plan used in making a decision. | 79% |
| My office is aware that the plan coordinates outpatient behavioral health services for its members. | 78% |
| My office finds the plan's website easy to use. | 78% |
| My office is satisfied with the plan's website. | 76% |

**Q39. Describe your process for using input derived from the advisory board and surveys to inform possible changes in program design and/or administration.**

Suggestions for improvement and/or the development of new programs as a result of input from the Physician Advisory Committee (PAC) are evaluated by the Quality Improvement Committee. If changes are agreed upon and approved, policies and procedures are developed and notifications are made to the physicians and provider network. Meridian utilizes a variety of methods to notify the provider network of changes. Meridian posts bulletins on the website, sends notifications via facsimile (if no fax is available at the provider office, hardcopy will be provided). The local Provider Services Representatives also hand delivers hard copies of updates and educational materials to all PCP offices each month. Meridian publishes a quarterly Provider Newsletter that outlines any updates and changes that have been implemented. In addition, the website is home to real time updates via the provider manual, the Provider Portal and LiveChat with the Provider Services Department.

Results from the annual provider survey are addressed with physicians who responded with a less than 80% favorable response rate. These surveys are evaluated and if necessary a corrective action plan is implemented. Our Representatives contact these physicians to discuss what Meridian can do better to improve their results. Follow up is conducted with a re-evaluation at six months to determine any positive or negative impact in provider satisfaction.

**Q40. Describe your experience in other state's managed care programs you administer – the percentage of providers who you have credentialed compared with the provider population and how many providers were added or terminated during the first 3 years of the programs' implementation date.**

Through its affiliated entities, Meridian has credentialed over 9,500 providers over the past three years, with no provider exceeding a 30-day turnaround for initial credentialing. This is exceptionally fast compared to the 3 to 6 month timeframe Meridian has seen its competitors take to credential the same providers in the states it operates. In total, with credentialing and recredentialing combined, Meridian has processed over 13,000 files in full compliance with CMS, URAC and NCQA as well as local state requirements.

Illinois - Since beginning to provide health services to Medicaid members of the State of Illinois in December 2008, Meridian has credentialed 2,155 individual providers and processed only 141 terminations. All terminations were due to providers moving out of the service area, discontinuing their employment with a contracted provider group or retirement. None of the terminations were due to quality issues or provider dissatisfaction with Meridian. Our current provider network penetration in our initial service area is approximately 58% of all providers.

Michigan – Our Michigan program was established in 1997 and while we began in one rural county with a relatively small network of physicians we have grown organically to provide the largest Medicaid provider network in the State including over 3,200 PCPs, over 10,000 SPCs and 104 Hospitals in 66 of the 83 Michigan Counties. This represents approximately 55% of all licensed physicians and 72% of all Hospitals within the entire state. Due to the length of time we have been operating in Michigan we are unable to provide the first 3 years from implementation data.

## 3.9. Payment Reform

Meridian shares DHHS' goal of transforming New Hampshire's Medicaid Program into a system that rewards improved health outcomes and reduces costs for episodes of care. We believe that together New Hampshire and Meridian can develop a partnership that targets inefficiencies within the current model, while identifying advantages within the current New Hampshire Program and Federal initiatives, to create new approaches, provider partnerships, innovative cost saving programs, and a product that can create a high quality cost effective system which results in increased measurable goals and outcomes (RFP, 3.9, paragraphs 1 & 2). We will work with DHHS to negotiate our incentive program to reward our performance against the approved incentive program (RFP, 3.9, paragraph 2). This system will also create initiatives that reward its providers for improved outcomes through shared savings and create a patient centered medical home (RFP, 3.9, paragraph 3). Please refer to our answers to Q41 and Q42 beginning on page 65 for a detailed explanation of our payment reform efforts.

(The remainder of this page intentionally left blank)

## 3.10 Behavioral Health Services

Meridian is committed to providing quality behavioral health care for our members. Evidence based practices are implemented across our entire service delivery system. (RFP, 3.10.2) We understand that care coordination between primary care providers and community mental health programs is a crucial component of patient-centered care, and Meridian has developed policies governing coordination of care (RFP, 3.10.11).

### Networks and CMHCs

Meridian will actively encourage Community Mental Health Centers (CMHCs) in our service region to join our provider network. If the CMHC declines to participate with Meridian or fails to meet participation requirements, Meridian will promptly notify the New Hampshire Bureau of Behavioral Health (BBH). Meridian may offer network participation to other qualified providers in cases where a CMHC declines participation in the service area, or when needed to meet network requirements (RFP, 3.10.1).

### Services

Meridian will provide all services detailed in State Administrative Rule He-M 426 to eligible children and adults, as determined by State Administrative Rule He-M 401. These services are oriented toward recovery and resiliency, and delivered in the least restrictive community-based environment. We place a priority on services to individuals who are homeless or at risk for homelessness (RFP, 3.10.2).

We will also ensure that the community mental health services system complies with all Americans with Disabilities Act (ADA) regulations as well as the provisions of the Olmstead Act (RFP, 3.10.5). Meridian will develop and implement a local planning process to ensure that our services and programs meet the unique needs of each New Hampshire community. This planning process will take place annually and include the BBH (RFP, 3.10.7).

Meridian supports services for the deaf population, including those available from the Deaf Services Team at the Greater Nashua Mental Health Center, and we will ensure continued availability (RFP, 3.10.15).

Meridian's provider network for community mental health services will meet all applicable federal and state requirements (RFP, 3.10.4). We will comply with state and federal reporting requirements, including collection and submission of data to BBH for monitoring access and outcomes, as well as meeting National Outcomes Measures as specified by SAMHSA. Meridian's proprietary MCS software allows us to respond quickly to all BBH requests for data and information, including utilization, quality and enrollment reports for adults and children served by the community mental health provider network (RFP, 3.10.9).

To measure statewide client level outcomes, Meridian will use the New Hampshire approved Child and Adolescent Needs and Strengths Assessment (CANSA) and the Adult Needs and Strengths Assessment (ANSA). These tools are also used to determine eligibility for community mental health services (RFP, 3.10.3).

### Collaboration and Support

Meridian will allocate resources to support New Hampshire's community mental health service system in hiring and retention of well-trained staff. We will also provide consultation and

training opportunities to promote provider competence and opportunities to enhance professional skills (RFP, 3.10.8). In addition, Meridian will also facilitate the exchange of information among community mental health programs to develop a best practices model for reduction of polypharmacy for antipsychotic medications and reduce the incidence of adverse drug reactions (RFP, 3.10.16).

Meridian will support the continued implementation of New Hampshire's ten-year Olmstead Plan through reinvestment of savings into the ten-year plan (RFP, 3.10.6).

Meridian will also enter into a collaborative agreement with New Hampshire Hospital, subject to the approval of BBH. This collaboration will address all aspects of federal Olmstead law, and detail information sharing between New Hampshire Hospital and Meridian (RFP, 3.10.13). A designated Meridian liaison will coordinate discharge planning for children and adults admitted to New Hampshire Hospital and actively participate in treatment team meetings and discharge planning meetings to ensure compliance with Olmstead and all other applicable regulations (RFP, 3.10.14).

In regions where New Hampshire has established mental health courts that are supported by CMHC, Meridian will continue to provide that support (RFP, 3.10.12).

**Individuals in Crisis**

Meridian will ensure individuals in crisis have access to regionally-based crisis lines 24/7. Crisis lines are staffed by clinicians trained in managing crisis intervention calls. These crisis line clinicians will also have access to clinicians who can evaluate clients in the community on a face-to-face basis, address the crisis and evaluate the need for hospitalization (RFP, 3.10.10).

**Q41. Describe your plan for implementing delivery system and payment reform. Describe your approach to creating partnerships with providers to support health care reform.**

Meridian has been a leader in creating partnerships with providers and supporting health care and payment reform. These partnerships, delivery systems and payment reform include supporting and promoting these models of health care delivery:

- Patient Centered Medical Home (PCMH)
- Accountable Care Organization partnerships
- Integrated Care models of care
- Integration of Behavioral and Medical Health Care

Patient Centered Medical Home

Meridian has participated in a number of initial grant and CMS demonstration projects. Reducing Disparities at the Practice Site (RDPS) was a three year, multi-state grant project supported by the Centers for Health Care Strategy with funding from the Robert Wood Johnson foundation. This project, which included participation from plans, practices and State Medicaid agencies from Michigan, Pennsylvania, Oklahoma, and North Carolina, helped Meridian learn and share best practices in supporting practices as they transition to the PCMH model of care. Meridian has implemented a comprehensive PCMH program that provides financial support and resources to practices that commit and then achieve medical home recognition. The key support mechanisms include:

- Funding for practice transformation activities. Meridian recognizes that practices need up-front financial resources in order to implement technology, evaluate and change work

flows, and move from an episodic care model to one that provides care management and coordination at the point of service. Meridian provides a PMPM payment to eligible practices that make a commitment to achieving medical home recognition.

- Practice facilitation resources. Meridian has partnered with the Practice Transformation Institute (PTI) to provide education, practice evaluation, and support to help practices achieve the changes needed to achieve PCMH recognition. PTI is also a URAC certified PCMH review organization that can conduct the URAC PCMH onsite review.
- Care coordination support. Meridian has experience in care coordination, disease management and case management with members. To help practices become a medical home Meridian can provide education, training and materials to help them take on care coordination for members at the point of care.
- Ongoing additional financial payment. Meridian provides enhanced payments to PCMH recognized practices through the payment of new billing codes (such as after-hours care), bonus payments based on HEDIS scores, and a tiered payment structure that provides payment at 110%, 120% or 130% of Medicaid rates for practices that achieve PCMH recognition or certification from a national accrediting organization such as NCQA, URAC, JCAHO or AAAHC.

Accountable Care Organization (ACO)

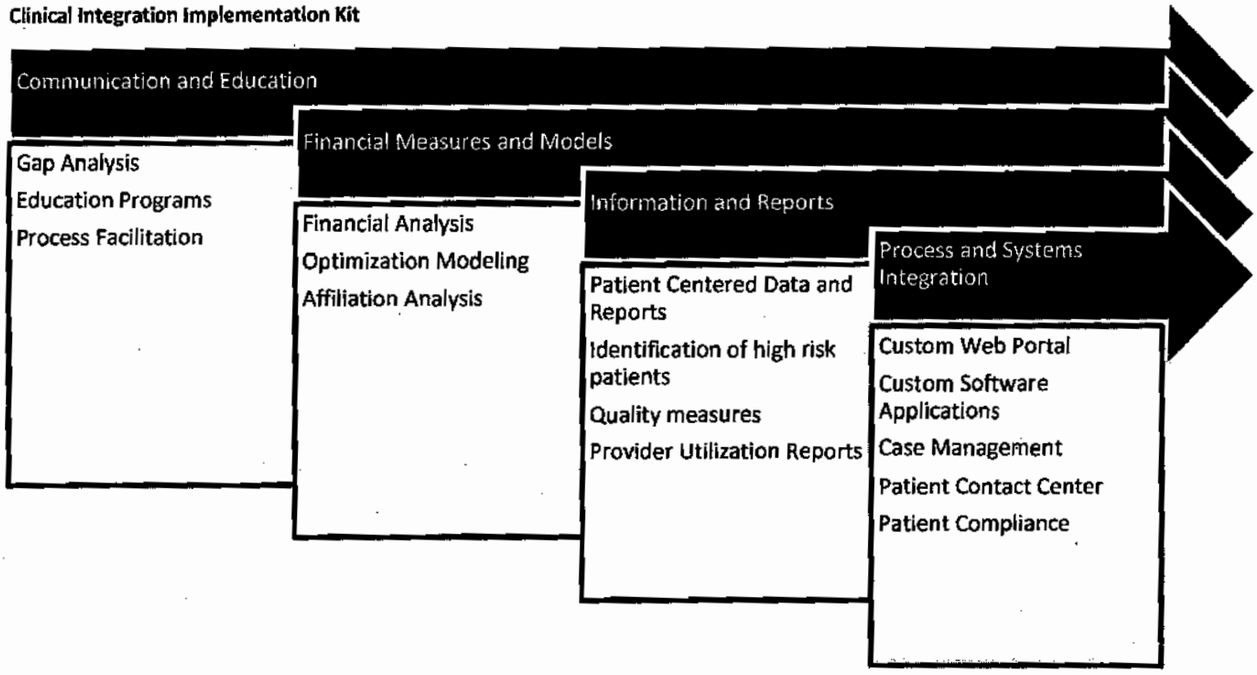
Meridian is exploring ways to integrate with new forming Accountable Care Organizations. To encourage the delivery of high-quality, cost-effective care, broad consensus has developed on the need for providers to work together and become "accountable" for the delivery of coordinated, comprehensive care with a focus on prevention, screening, and ongoing management of chronic disease rather than focusing on care at the point of service. To create accountability, financial incentives must encourage the provision of such care rather than discourage it, as they do today. Accountable Care Organization, or ACO, has become the accepted name used to refer to the provider component of this transformation. Patient Centered Medical Home and integration of care are at the foundation of formation of ACOs. Meridian is working with health systems to discuss possible future contracting arrangements that would include a shift of accountability and risk sharing to an ACO model of care.

Integrated Care Model

Clinical integration facilitates the coordination of patient care across providers, conditions, settings and time resulting in effective, efficient and patient-focused treatment. Streamlined processes, optimized outcomes and collaborative data networks break down the traditional silos of care and focus on evidence-based quality and the total value of care.

Meridian offers the following Clinical Integration Implementation Kit solution to assist integration efforts and help providers create the necessary infrastructure required to coordinate care. The toolkit represents best practices to help identify risks and provide guidance on overcoming the challenges of implementing the integrated care model. Measures to improve communication and education, financial measures and models, information and reports, as well as process and systems integration are available. The kit eases the burden of managing the overall integration project, as well as the many corresponding changes and development related tasks needed for success.

**Clinical Integration Implementation Kit**



Meridian's Clinical Integration Implementation Toolkit offers an end-to-end framework for organizations. The comprehensive gap analysis identifies organizational readiness to build an integrated model of care. After reviewing areas of opportunities, the organization may choose to select from an array of products and programs. Meridian's clinical and technical expertise can be leveraged to facilitate process redesign, capital improvement and collaborative infrastructure projects. The end result is a patient-centered care system streamlined to maximize total value.

**Q42. Describe your experience with creating value-based payment arrangements, episodes of care payments, sub-capitation arrangements, and Incentive programs and their impact on improved quality and reduced cost.**

Meridian's incentive programs include bonus payments for clinical performance and are available to all networked primary care physicians. These programs include:

- Basic- providing HEDIS bonus payments to primary care physicians who serve fewer than 100 Meridian members and are not currently accepting new members
- Enhanced- paying 110% of the current Medicaid fee schedule and HEDIS bonus payments to PCPs accepting new members
- Patient Centered Medical Home (PCMH) Bronze/Silver/Gold- rewarding quality performance with 3 innovative programs supporting PCMH implementation

**Patient Centered Medical Homes**

The PCMH is a comprehensive, coordinated approach to primary care, utilizing Electronic Medical Records (EMR), patient registries for preventive services (immunizations, well-child visits) and chronic medical conditions (diabetes, asthma), and quality-based care to reduce unnecessary utilization. Meridian is working with both state and national programs to encourage the development of PCMH.

Meridian provides monetary incentives based on progress regarding milestones related to accreditation. The practices are encouraged to employ electronic tools (including registries), incorporate evidence-based guidelines for targeted chronic conditions, and incorporate team-based care into their operations. Practices receive technical assistance and funding to support project implementation. Meridian also provides assistance to PCPs in the meaningful use process, and to providers in obtaining national PCMH certification through URAC, NCQA, AAAHC and JCAHO. Meridian provides enhanced payments to PCMH recognized practices through the payment of new billing codes (such as after-hours care), bonus payments based on HEDIS scores, and a tiered payment structure that provides payment at 110%, 120% or 130% of Medicaid rates for practices that achieve PCMH recognition or certification. Our data shows that providers with PCMH recognition have a 17% reduction in the PMPM, along with higher HEDIS scores compared to those not PCMH designated.

Meridian has created financial incentives for its primary care providers to promote patient centered medical homes for members based on the coordination and completion of specific preventive health care services. These services require a physician-directed medical practice that encompasses whole person orientation, care coordination, quality and access. The outcome measurement is related specifically to the Health Effectiveness Data and Information Set (HEDIS) and is paid to the assigned primary care provider regardless of the provider that performed the service. Data for the incentive program is collected from claim submissions, faxed medical records, electronic medical records and patient registry integration.

In an effort to reduce unnecessary emergency room utilization and increase preventive health care services, Meridian has created a program that coordinates with hospital case managers at our high volume contracted hospitals. This program involves sharing the cost of the onsite case managers with the hospital. Meridian has been successful in coordinating appropriate care at the correct setting for these specific patient populations.

| Program Level | Qualifications | Reimbursement |
|---|---|---|
| Bronze | • Contracted – fee for service<br>• Open to and accepting new Meridian members<br>• Meridian membership of 100+<br>• HEDIS aggregate score < 75% | • 110% Current Medicaid Fee Schedule<br>• $2.00 PMPM<br>• Meridian HEDIS Bonus Program |
| Silver | • Contracted – fee for service<br>• Open to and accepting new Meridian members<br>• Meridian membership of 100+<br>• PCMH recognition from URAC, NCQA, AAAHC or JCAHO<br>• HEDIS aggregate score ≥ 75% | • 120% Current Medicaid Fee Schedule<br>• $2.00 PMPM<br>• Meridian HEDIS Bonus Program |

**Q43. Describe your approach to Behavioral Health delivery system and payment reform in other states.**

Meridian's highly integrated Behavioral Health program provides members with high quality, coordinated care that is based on individual needs. The success of the program is attributable to the coordination of the Meridian Behavioral Health Services Staff, a high quality network of behavioral health providers, the State's community mental health programs, and substance abuse coordinating agencies. Meridian ensures coordination among medical and behavioral health services that are available to members while simultaneously addressing the multiple issues that may adversely impact their functional status, risk of relapse, ability to obtain housing, and ability to resume employment or other meaningful daily activities. The Behavioral Health and Case Management programs interface to provide members with the most appropriate care coordination for their needs. The approach of both of these programs is early identification of members and ensuring the member is routed to the proper department to ensure their needs are addressed in the most appropriate and effective manner. In some instances, this involves referring a member in Case Management to the Behavioral Health department for a referral to behavioral health providers or referring a member with medical needs to Case Management. Behavioral Health staff follows up with members by providing them with referrals to behavioral health providers, assessments, interventions, and connection with available community resources. The bi-directional coordination of behavioral and medical care is made possible by MCS, which reduces the fragmentation of the health care system for members in ways that are not feasible through less integrated programs. MCS provides comprehensive information and assessments about physical and behavioral health needs and care. This integrated system provides a real-time holistic view of each member's care, and allow staff and providers to determine the impact of both types of care on outcomes.

Meridian's approach to payment reform includes partnership and encouragement of providers to develop PCMH, partnerships with Accountable Care Organizations, the development of integrated care models, and the integration of behavioral and medical health care. Please see Q41 on page 65 for detailed information on how Meridian partners with providers for implementation of payment reform.

**Q44. Describe your direct experience in developing partnerships with Community Mental Health Centers. Separately describe your past and present subcontracting arrangements for individuals experiencing serious mental illness or serious emotional disturbance.**

Meridian has direct experience in developing partnerships with Community Mental Health Centers (CMHCs). We have letters of commitment with eight New Hampshire behavioral health organizations, listed in Appendix G.

Meridian has executed coordination agreements with all of Michigan's Community Mental Health Service Programs for behavioral health within its servicing areas. Since Meridian manages the physical needs of this population, the partnership with CMHCs for the coordination of members with co-existing conditions is a critical component of its care coordination program. Meridian's Behavioral Health Department is composed of a Behavioral Health Medical Director, social workers, and nurses who meet regularly with the CMHCs to discuss communication opportunities and care planning. The relationships built between the CMHC and Meridian's clinical staff promotes telephonic care planning between the two entities. Also, Meridian's behavioral health staff participates in coordinating committees with those agencies.

In Illinois, Meridian manages the full behavioral health benefit of its Medicaid membership, including those with serious mental health illness. Meridian has executed coordination agreements with all of Illinois' Community Mental Health Service Programs for behavioral health within its servicing areas. Meridian ensures the early identification of members who require behavioral health services via several mechanisms. Meridian's HRA has several indicators that will trigger a referral to the Behavioral Health staff. Based upon newly enrolled member responses to the HRA, additional screening tools are performed by Meridian's social workers to assess the member's behavioral health needs. Additionally, the State of Illinois provides historical claims data that is present on newly enrolled members. Based upon an algorithm, members are identified who are currently accessing behavioral health or substance abuse services and/or require additional screening.

In Illinois, Meridian's Provider Services staff has contracted with the SASS (Screening Assessment and Support Services) providers, dedicated to serving children experiencing a mental health crisis. The SASS initiative is a cooperative partnership between the Department of Children and Family Services (DCFS), the Department of Healthcare and Family Services (HFS) and the Department of Human Services (DHS).

**Meridian Behavioral Health Case Management Services**

The Medical and Behavioral Case Management staff has established a process to ensure effective communication among medical and behavioral health clinical teams and providers to maximize a member's ability to actively engage in health care plans of treatment. In 2010, the primary referral reason for case management services was medical admissions related to suicide attempts, and substance and/or alcohol abuse accounting for 30% of the case management referrals received. At a recent external quality review audit conducted by the Health Service Advisory Group (HSAG) on behalf of the State of Illinois, the lead auditor reported that Meridian's behavioral health case management files demonstrated a "best practice" for clinical documentation of the extensive follow up and coordination of care activities conducted between the PCP and BH provider.

Meridian's behavioral health case management program is dedicated to coordinating the member's medical and behavioral health care needs. The case managers utilize MCS to document the contents of the member's plan of care, short and long term goals, progress towards the goals, communication with the member's medical and behavioral health provider, barriers to achieving goals and updates to the plan of care.

Meridian contracts with CMHCs and other Providers for substance abuse treatment services appropriate for the range of needs of our members, including co-occurring behavioral health disorders. These services will:

- Support member's recovery through ongoing monitoring, feedback and re-engagement into treatment based on changing needs over time
- Include the member's family in the treatment process
- Assess for co-occurring behavioral or physical health conditions or disabilities
- Focus on returning the individual to the workforce or meaningful daily activity
- Provide physician oversight of medical issues such as methadone or other medications and detoxification to ensure that services are directed to long-term recovery management
- Coordinate with and support community-based services such as Alcoholics Anonymous and Narcotics Anonymous

- Ensure coordination and continuity with the Health Home, behavioral health providers, other specialty Providers, and natural supports.

Meridian supports coordination of care with CMHCs via the secure provider portal. This allows a CMHC and other Providers to view real time data, care management activities and plans to further engage the member. Meridian also participates on the CMHC regional boards and advisory committees for the counties that they serve. Meridian has established a dialogue with all ten of the CMHCs in New Hampshire and is completing a readiness assessment to determine how to allow local preferences to develop and flourish through a partnership with Meridian.

**Payment Reform**

The need for an integrated delivery system design coupled with innovative payment reform has reached a compelling and critical level across the US. The Faces of Medicaid III Report released by the Center of Health Care Strategies updates indicate that half of Medicaid beneficiaries with disabilities have behavioral health co-morbidity. The addition of mental illness and substance abuse disorders to the chronic medical population is associated with 3-4x increase in costs.

Key elements that are crucial for success of an integrated model include:

- Aligned financial incentives
- Information exchange
- Multidisciplinary care teams with accountability for coordinating the full range of services
- Competent provider networks
- Mechanisms for assessing and rewarding high quality care

Meridian's plan for an integrated delivery system incorporates these elements through contracting, credentialing, MCS, and a pay for performance strategy based on the PCMH model.

The behavioral health program will incorporate and support the use of:

- Integrated delivery teams (Medical home with a behavioral health team integrated into the Provider Medical home)
  - Co-located provider
  - "Visiting" mental health provider
- Established referral patterns
- Contractor Risk agreements that include requirements for reporting and reimbursement

**Q45. Describe your direct experience in service delivery and payment for services for persons with serious mental illness and serious emotional disturbance requiring long-term care services and supports.**

Meridian is actively involved in the care model for persons requiring long-term care services and supports at the State level. In recognition of the complex and unique needs of this population, Meridian maintains ongoing quality improvement initiatives aimed towards innovative partnerships, beneficiary sensitivity, and effective relationships with providers to ensure the quality and safety of health care services received by this high-risk population. At the heart of our model is partnering with CMHCs, FQHCs and other regional behavioral health centers to coordinate and integrate behavioral health care with the PCP. Meridian also partners with group home advocacy agencies and behavioral health long-term care facilities to assist in the development of integrating the behavioral health component with medical management through

the PCP. Our Case Managers ensure that these services are given and assist with the coordination of behavioral, medically acute and long-term needs.

We will collaborate with the DHHS Bureau of Behavioral Health to determine the current provision of services (e.g. case management, homemaker and chore assistance, home modifications, respite care, assistive technology, adult day services, home health, habilitation and rehabilitation, and supported employment) to this population. Specific programs offered would include:

- Programs for assertive community treatment and other intensive services that are available on a 24-hour, 7-day-a-week basis.
- Integrated treatment programs for individuals with co-occurring severe mental illnesses and addictive disorders.
- Comprehensive crisis services including mobile crisis response teams to respond to persons in urgent need of help.
- Meaningful consumer and family participation in monitoring the performance of managed care systems.
- Separate and distinct criteria for the treatment of children and adolescents with mental illnesses (if they are covered in the managed care system).
- Adequate and accessible provider networks.
- Direct access to mental illness specialists (without requiring members to go through a gatekeeper).
- Accountability measures available to consumers, family members, and other advocates.

(The remainder of this page intentionally left blank)

## 3.11 Care Management Overall Approach

Meridian shares New Hampshire's vision for providing coordination of healthcare services as reflected in our mission statement: "To continuously improve the quality of care in a low resource environment." Our disease and case management programs focus on the assessment of members to proactively identify their medical, behavioral, and cultural needs. These programs will maintain member health; improve member long-term health status; and effectively manage acute health care events through coordination of services (RFP, 3.11, paragraph 1). We not only focus on those whose condition require disease and case management intervention, but also provide regular preventive services for members to identify any potential health care conditions as early as possible. It also means that we must have a local approach to building our provider network in order to reflect the needs of the population in New Hampshire. Provider network partnerships are built on shared commitments to evidence based medicine, robust communication and teamwork. These collaborative partnerships allow for streamlined and integrated care coordination for our members.

Our comprehensive care management program will include the following as specified by DHHS (RFP, 3.11, paragraph 2):

- Care Coordination
- Support of patient centered medical homes and health homes
- Non-emergency medical transportation
- Wellness and prevention programs
- The management of chronic diseases
- High-cost/high-risk member management programs
- Special needs programs
- Social services support coordination

Meridian supports care coordination at the point of service through its Patient Centered Medical Home program. In the medical home model, a PCP office coordinates inpatient and outpatient medical care for patients and tracks referrals to laboratories, pharmacies and imaging centers. The medical home model also promotes the use of electronic health records and registries, e-prescribing, and the use of evidence based clinical tools and templates, often built directly into EHR systems. Meridian encourages our members to build a strong relationship with their PCP and assures that each member has access to an ongoing primary care provider to support their needs (RFP, 3.11.2, paragraph 1). Meridian has a system and process to provide information to PCPs to promote the coordination of services furnished by Meridian to the member outside of the member's PCP office (RFP, 3.11.2, paragraph 2). Meridian will also support the creation of health homes for medically complex members (RFP, 3.11.2, paragraph 3).

Meridian will maintain a written plan for providing continuity of care in the event of contract termination with the State or any of our contracted providers, or in the event that a PCP closes one or more of their office locations. Our MCS system immediately identifies any members impacted by provider contract termination or office closings. Through real-time notification, the system alerts staff to contact affected members and assist with primary care choices and questions. Providers are also contacted to inform them of new member enrollment with their practice to ensure continuity of care for our members (RFP, 3.11.1, paragraph 2). During this process, we ensure our members' privacy is kept confidential according to all contractual, state, and federal requirements.

Meridian supports care coordination at the point of service through its Patient Centered Medical Home (PCMH) program. Meridian facilitates the relationship between our members and their PCP assuring that each member has access to the support that their individual care needs (RFP, 3.11.2, paragraph 1). As an extension of this process we will actively pursue the creation of health homes to include medically complex members (RFP, 3.11.2 paragraph 3). Meridian also provides support for PCPs by providing guidance and incentives to attain PCMH status. Our processes and systems have the ability to provide information to PCP to promote the coordination of services outside of their offices (RFP, 3.11.2 paragraph 2). Our provider representatives visit PCP offices each month to address any concerns or questions that they may have. Meridian is a leader in promoting medical homes by participating in national and state medical home projects; supporting primary care practices with technical and financial support to move towards the medical home model; and promoting electronic health records and e-prescribing.

Meridian commitment to provide education to our members about their healthcare choices is essential to improve overall member health. Meridian welcomes the opportunity to partner with DHHS to implement programs to address obesity in adults and children, smoking cessation, and others to coordinate with New Hampshire's Wellness Incentive Program (RFP, 3.11.4, paragraphs 1, 2, & 4). We provide educational materials at member enrollment, and throughout the member's eligibility period, to educate them about services we provide to make informed healthcare decisions (RFP, 3.11.4, paragraph 3). Also at the time of enrollment a welcome call is made to welcome them to our health plan, address any immediate concerns, and to identify healthcare needs and chronic conditions that require additional intervention. Once a member's needs are identified, additional educational materials will be sent to members to encourage a healthy lifestyle that pertains to their specific health conditions. We make every attempt to work with members to raise awareness about our wellness, prevention, and care management programs. Our goal is to not only improve member health where we can, but maintain a member's health or effectively manage chronic conditions to prevent further health digression (RFP, 3.11.5, paragraph 1). We have programs that identify best contact information for members that are homeless, frequent changes is living situations, or have cultural considerations that make them difficult to engage (RFP, 3.11.5, paragraph 2). Please see our responses to questions 17 (page 41), 18 (page 42) and 26 (page 47) for full details on our member outreach strategy.

Meridian offers Disease Management programs that target chronic diseases (RFP, 3.11.6, paragraph 1). We also understand that the whole person approach to coordinating services will highlight the importance of coordinating services for all members physical, behavioral, and social needs, including members with multiple co-morbidities (RFP, 3.11.6, paragraph 2). Disease Management programs offer coordination services for (RFP, 3.11.6, paragraph 4):

- Diabetes
- Congestive Heart Failure (CHF)
- Chronic Obstructive Pulmonary Disease (COPD)
- Asthma
- Coronary Artery Disease

Our disease and care management programs focus on supporting provider and member communication and relationships to remove any barriers to accessing care. We engage members and providers in person when feasible (RFP, 3.11.6, paragraph 3). Specific examples include

working with members in person at their homes, local community centers, in the hospital and emergency room, during community events, and health education workshops. Programs such as complex case management and compliance programs are in place to focus on high risk and high cost members to effectively manage any medical, behavioral, or social conditions (RFP, 3.11.6, paragraph 4).

Special needs programs focus on members whose complex needs include physical, developmental, emotional, and/or behavioral conditions. This structure ensures that these members receive access to physicians that are skilled and trained to provide needed care, information about accessing specialists, and information about access to all covered services as related to the member's condition or circumstance (RFP, 3.11.7, paragraph 1). These programs will be built collaboratively between Meridian and DHHS to develop a statewide health home model to serve members with special needs (RFP, 3.11.7, paragraph 2).

Meridian develops relationships with state, local, and community programs that provide related health and social services to members including (RFP, 3.11.8):

- Juvenile and Justice and adult Community Corrections
- Locally administered programs including Women, Infants and Children, Head Start Programs, Community Action Programs, local income and nutrition assistance programs, housing, etc.
- Family organizations, youth organizations, consumer organizations, and faith based organizations
- Other state programs
- The court system, specific to services related to children and youth involved with the child protection agency and juvenile justice systems
- Schools
- Children and youth in foster home/group home/residential placement

**Q46. Describe your overall approach to care management and how you integrate wellness, prevention, and chronic care management into one seamless program.**

Meridian care management is based on a member-centered care coordination continuum model, focused on providing the right service to the right member at the right time.

## Meridian Care Coordination Continuum

**Level 1 Preventive Care Outreach**

*Healthy, well members who require occasional assistance, episodic management*

These members receive regularly scheduled outreach calls and written reminders of available preventive health services.

Level 1 care coordination also involves collaboration with the member's primary care provider (PCP). PCPs work in conjunction with Meridian staff to share results of scheduled appointments, medication updates, lab results, and arrange needed services. Communication between the PCP and Meridian is coordinated through multiple media, including the secure web-based provider portal, telephone and fax. Meridian Health Plan works closely with our network providers to identify specific, individual needs for highly specialized care at Centers of Excellence and nationally-recognized research facilities.

**Level 2 Disease Management Program**

*Members with a chronic illness who are able to self-manage and would benefit from education about their chronic illness*

These members receive educational packets and condition-specific preventive service outreach reminders.

*Members with uncomplicated pregnancies*

Pregnant members are referred to Meridian Women & Children's Services, as well as to local maternal infant health programs.

**Level 3 Primary Case Management**

*Members with high-risk pregnancies; members with chronic diseases, as well as behavioral conditions with some complications that require the support of a Nurse Case Manager*

Includes Medical, ER, Behavioral Health and Substance Abuse Case Management programs.

**Level 4 Complex Case Management**

*Members with Special Health Care Needs who have (or are at high risk for) chronic physical, developmental, behavioral, neurological or emotional conditions that may have an increased need for healthcare or related services due to their conditions*

This care continuum model includes healthy lifestyle promotion, disease prevention, early disease recognition, and management of disease conditions. The continuum of care design allows Meridian to proactively identify high-risk members, and move members along the continuum as their conditions warrant. Healthy members receive regularly scheduled outreach calls and written reminders of available preventive health services. Members with chronic conditions who are ready and able to self-manage receive educational packets and condition-

specific preventive service outreach reminders. High-risk members who have unmanaged or poorly managed conditions (co-morbidities) are assigned to higher levels of case management (Primary Case Management or Complex Case Management).

The care continuum model begins with the Health Risk Assessment (HRA). Administered to all members within 30 days of enrollment, the HRA identifies member health needs and allows Meridian to proactively plan care for individual members. The HRA is updated throughout the member's enrollment. Claims and other historic data are used to provide a complete picture of member needs.

Meridian's health assessments are built into its Managed Care System (MCS) and include SOAP components: **S**ubjective information from the patient including history, complaints, lifestyle or home situation, response to treatment; **O**bjective information and measurements; **A**ssessment including problems, short and long term goals; and **P**lan for treatment, referrals and patient education. HRA and SOAP assessment information combined with claims and historical data are analyzed within MCS to stratify members into various levels of care coordination.

MCS also assigns a number of "alerts" within MCS that are visible to all Meridian staff that is in contact with members. The alerts help to flag members who are due for preventive services, are pregnant, are enrolled one of Meridian's Disease Management programs, are enrolled in case management, or require special handling such as Foster Care children. Members will have multiple alerts within MCS to ensure that care coordination occurs across all areas of services from preventive health reminders to complex case management or special needs.

**Q47. Describe how your member education program supports your overall wellness and chronic care management programs.**

Meridian has an extensive member education program to target wellness, preventive healthcare and chronic care management. This program is an integral component to ensure members are informed, healthy and engaged in shared decision making and self-management skills. Our member education materials meet New Hampshire's needs. Please see the response to questions 17 (page 41) and 18 (page 42) for a complete list of our accommodations made for members with special needs and limited proficiency in English. Meridian has integrated our print/mail programs with MCS to ensure that we have a complete and comprehensive record of our member engagement system. Materials can be sent at a click of the mouse and tracked in real-time.

**Written educational materials**

Member education begins with the welcome packet. This includes a member handbook that describes coverage and benefits and how to access them, as well as how to contact Meridian. Member handbooks are updated and distributed to all enrolled members annually.

The welcome packet also contains an FAQ list and a preferred method of contact form, along with a self-addressed stamped envelope. This contact form allows members to choose how Meridian will contact them (mail, phone, cell, text, email). Information from this form is included in the member record and displayed on the member demographic screen in MCS for all staff to view and use appropriately.

Call to Action tri-folds and bi-folds are sent after telephonic member outreach. These thank the member for speaking with our outreach staff, and remind them of the needed service discussed during the call. Call to Action bi-folds and tri-folds are age and gender specific and are

personalized to include the member's PCP name and the phone number for ease of scheduling needed services. Topics included in the Call to Action materials are:

- Well-Child Visits (0-15 months, ages 3-6, 7-17)
- Well Care Visits (18-21, adults)
- Preventive health screenings (breast cancer, cervical cancer, chlamydia, lead)
- Chronic care (complete diabetes care)

The bi-folds are simple postcard reminders. The tri-folds, a component of the member incentive program, include a self-addressed stamped postcard. The member returns the card to Meridian, where the card is scanned into MCS. When the claim is received for the obtained service, the system automatically mails out the member incentive. Incentives range from $10 gift cards to a year's worth of diapers. All of these interactions are tracked within MCS and their status can be viewed in the member contact record.

Member educational flyers are a series of educational pieces sent throughout the calendar year, targeting entire populations. These provide generic preventive and chronic care reminders but are useful for generating member call-backs to the plan. Topics include child and adolescent immunizations, individual/targeted immunizations (flu, HPV, etc.), Well-Child Visits for ages 0-15 months, smoking cessation, and targeted EPSDT flyers (ages 0-9 months and 9-15 months) that discuss key developmental milestones. Members also receive flyers to promote awareness of upcoming community events, such as health screenings or educational sessions. Meridian staff attend all community events that our members are encouraged to attend.

Member newsletters are the next layer of written educational tools for Meridian members. Sent twice a year, the member newsletter covers a wide variety of topics, such as Meridian's Utilization Management and Quality Improvement programs, safety, nutrition tips, and preventive health information. Disease Management newsletters are sent three times per year and cover the core disease management topics of asthma, diabetes, cardiovascular disease, and obesity (nutrition and exercise component).

The Chronic Disease education program is fully supported and integrated within our Disease Management (DM) and Case Management (CM) program activities. In addition to complete Health Risk Assessments (HRA) these members also receive a comprehensive, condition-specific assessment. Based on member responses and education needs, the disease management and case management staff generate letters from MCS to reinforce the telephonic outreach call. These letters are individualized for the member, identifying the goals discussed in the call and supporting the member's progress toward goal. Meridian staff are able to order specific educational pieces to reinforce these goals via MCS. All interactions (phone and mail) are recorded in the member contact log to ensure message consistency.

**Telephonic program**

The key feature of our outbound member engagement program, the Touchstar automated dialing system, allows us to build custom campaigns based on specific needs.

Daily Touchstar campaigns focus on member preventive care needs. The core Touchstar campaigns are Welcome Calls, Children's Health, Prenatal and Postpartum, Women's Health, and Disenrollment. Disease Management calls for Asthma, Diabetes and Cardiovascular Disease (sub-divided into severity levels) are also part of the regular Touchstar campaigns. Touchstar is staffed by fully-trained Meridian employees who are proficient at member engagement.

Additional clinical staff, including nurses, have the ability to dial into the Touchstar campaigns to assist with Disease Management calls. The bi-fold and tri-fold mailings discussed previously are driven by member responses to the Touchstar campaigns. Touchstar calls are audited weekly to ensure the quality of the message and interaction with our members.

Touchstar is fully integrated into MCS, ensuring that calls are efficient and effective. As soon as a call is connected, the member's information screen in opened in MCS and Meridian staff members are instantly able to assist and education members. The Meridian agent can verify the caller's identity and view the specific reminder alerts for the member as well as other family members in the household. At the time of this call all members within the household are identified and reminded of their needed services. This results in a single call to the household to deliver all preventive service reminders.

This system improved our ability to reach our members from only 800 per week to over 4,000 successful contacts per week. Since implementation of the Touchstar program, preventive care services occurred in 37% of members after a Touchstar call. Touchstar is also an efficient tool to complete HRA assessment on our members within 30 days of coming on the plan. In 2011, Meridian's affiliate in Michigan was recognized by the Michigan Association of Health Plans with a Pinnacle Award for Innovations for using Touchstar to deliver preventive health reminders.

**Interactive programs**

Meridian utilizes email, the Member Portal, LiveChat and texting to round out our member education program. These electronic interactions meet the mandatory health literacy and privacy standards. A monthly member email contains seasonal health information, such as healthy eating tips during the holidays, cold weather and its impact on asthma, and flu shot reminders. The emails also contain links to trusted health sites like American Academy of Pediatrics and the American Lung Association. The secure member portal provides members with a quick and easy way to get replacement handbooks or ID cards, find local Meridian providers, view PCP history and request PCP changes, and check eligibility history. The portal is offered to members free of charge and each member is given a unique, secure log-in. The Live Chat feature provides the member the ability to seek plan assistance immediately and receive a real-time response during business hours. This is a helpful feature for members who have questions about the website, or who have hearing or speech impairments. The texting reminder program is utilized with members who have been provided with free phones to ensure that our members do not incur texting or messaging fees to their cell phone plans. Texting is only used for members who identify it as their preferred method of contact.

**Q48. Describe your approach to wellness and prevention services. What strategies are you proposing to encourage member use of wellness and prevention services? Describe your experience with these approaches and document the outcomes of those strategies.**

Meridian's outreach approach encourages wellness and prevention by urging members to complete preventive services and screenings on time. Our members receive reminders for well-child visits, immunizations, routine screenings for adolescents and adults, all according to NCQA HEDIS measures. Meridian's successful Disease Management program encourages self-management in the pre-Diabetic, Diabetic, Asthmatic and COPD populations. Members with Cardiovascular disease, Congestive Heart Failure, Pregnancies (including High-Risk),

Postpartum members and members who are working to quit smoking are targeted in specific campaigns to ensure they are receiving proper care.

One strategy used to encourage these populations to complete wellness and preventive services includes arranging transportation and appointments for the member. This increases the probability of the member making their appointment to receive proper care. Meridian has developed a contact coding system within MCS to accurately track the types of preventive education contacts made. These codes can be broken down by the specific campaign topic or by member demographic (such as age) to provide specific counts for EPSDT services. The number of outreach attempts and successful contacts are monitored by the Quality Management department on a weekly basis, and Touchstar (telephonic campaign) is continuously updated to select specific members to target for outreach campaigns. This ensures that Meridian is targeting members in New Hampshire that need specific care.

Meridian will also use MCS to produce reports of all educational mailings sent to members. These counts are currently monitored by Meridian on a monthly basis and reported to the management team. There are several methods to track member response outreach efforts to encourage member use of wellness and prevention services. After a member is reached via phone, Meridian mails a postcard reminder offering an incentive to get the services completed. The member returns the tear-off portion of the card with the date of service for the appointment. The incentive will then be mailed to the member as soon as a claim comes in to confirm that they received the services. MCS automates this entire process through a barcode scanning system that links up the specific mailing to the claim. Meridian tracks all of these responses currently in a database to determine what percent of our members respond to these postcards.

In addition, Meridian has developed a process to track the number of EPSDT services that are received after an outreach phone call. Meridian looks for a preventive health service claim with a date of service after the outbound call was made. This data is reported to the management team on a periodic basis. Telephonic outreach with pre-approval from DHHS concerning other incentives such as entering members into raffles to win immediate prizes and yearlong supplies after fulfillment of preventive services will also be included in Meridian's program. Providers are encouraged to schedule appointments with members through Provider Educational Pieces that explain the current HEDIS measures that offer financial bonuses through Meridian. Primary care providers receive monthly reports keeping them up to date on their patients' needed HEDIS visits and quarterly report cards to demonstrate performance and potential quality bonuses.

Our current approaches and HEDIS Scores provide documentation of the outcomes of the strategies previously discussed:

**Q49. Describe your proposed smoking cessation program, particularly smoking cessation for pregnant women. Provide information on the outcomes of similar programs you have deployed.**

Meridian will implement its existing tobacco cessation program in New Hampshire including the program specific for pregnant women described in the QI section under Question #71, "Smoking Cessation among Pregnant Women".

Meridian identifies members that would benefit from the smoking cessation program through the following data capture:

- Health Risk Assessment (HRA) completed during the welcome call and/or Disease Management outreach
- Prenatal high risk screening assessment
- Case and Disease Management assessments and outreach
- Claims for non-dependent and dependent tobacco use
- Provider referrals
- Member self-referrals

All members identified as smokers receive information during the call for the tobacco quit line information, the formulary benefit and are encouraged to begin smoking cessation efforts today. If the member agrees, there is a warm transfer to the tobacco quit line. This starts the process of enrolling the member in the telephone-based coaching program. Members who are not ready to quit are mailed education materials on how to prepare for successful cessation, benefits of quitting, and tips for success. An educational flyer on the smoking cessation program is included in all welcome packets that every member receives upon enrollment with Meridian.

The initial call to the tobacco quit line includes an intake assessment. Participants are mailed a welcome letter and self-help workbook within five days of enrolling. All participants that complete their first coaching call receive Nicotine Replacement Therapy (NRT). A series of three telephonic coaching sessions occur over the next 6-8 weeks. The role of the coach is to help the tobacco user identify difficult situations and strategies to cope or avoid these situations. Participants can call the quit-line anytime for support. Participants that complete all four coaching sessions receive a certificate.

Meridian refers pregnant women to the quit line for a pregnancy and postpartum protocol that offers a targeted program and financial incentives to participants after completing calls. Pregnant women are identified from a variety of sources, including new member enrollment files from the State, HRAs, and global authorizations. Educational flyers are mailed to pregnant women and information about the program is also faxed to OB providers.

Meridian tracks claims for all quit line and NRT therapy members and mails a smoking cessation survey to assess member satisfaction with the program and to determine success of the intervention. Current quit rates for Meridian members indicate the interventions are successful. 27% of members were tobacco free for 3-6 months and 24% indicated they were tobacco free for 6 months or longer. Members who only participated in the NRT therapy without counseling were less successful. Thirty-three percent were tobacco free for 3 months and only 5% were tobacco free for 6 months or longer. Meridian will utilize the phone base coaching quit line coupled with the NRT to ensure success among the New Hampshire members. In addition, Disease Management will complete targeted outreach calls within 6 months of quitting preventing relapse.

**Q50. Describe your strategy to reduce childhood obesity. Provide information on the outcomes of similar programs you have deployed.**

Meridian utilizes several different hospital based programs as well as community-based pediatric weight loss programs. These programs concentrate on children who have a BMI greater than the 85th percentile and who are between the ages of 8-17 years old. Each program has a structured support system which emphasizes daily physical activity and the importance of eating a healthy diet. These programs give parents/children the tools they need to develop and maintain a healthy lifestyle, therefore reducing their chance of obesity and obesity related diseases later in life. Meridian hopes to implement similar hospital-based pediatric weight management programs in New Hampshire.

In addition, we currently support and participate in local events for youth, such as *Metro Detroit Youth Day*. These events foster a positive environment that brings together youth, volunteers, and the community for a free day of food, fun and education. We will continue to support the New Hampshire communities in local events where we can provide our youth with educational information and support.

Our recommended strategies for New Hampshire include programs that increase physical activity and healthy eating in children as well as families. Examples of these will include the *Lets Move* campaign which is a program to help children create healthy habits during their early, developmental years. It gives parents information to support healthy choices and make sure every family has access to nutritious food. In addition, *Fuel up to Play 60*, is a program helping youth make changes in school by helping kids eat better and get at least 60 minutes of activity every day. By supporting programs that promote healthy eating and activity but also communities, we could reduce the likelihood of childhood obesity.

In addition, Meridian provides member incentives related to preventive care include lifestyle changes. We have encouraged parents/children to obtain needed care such as well care visits, EPSDT, and immunizations by providing gift cards for food/groceries, a bike raffle (when age appropriate) and a Wii Fit/Sports bundle.

**Q51. Describe what web based and/or telephonic tools you provide to assist members with their health care choices.**

Meridian's outreach program fully supports and integrates web based, telephonic and social media tools to assist members with their health care choices. This program is a key feature in the empowering members with shared decision making resources.

Our multi-faceted health education program has evolved over time through the fifteen years of experience in managing health and support services for low income populations. Our members expect health education be available in multiple formats (such as print, online, phone and in-person), using various delivery strategies (mail, phone calls, and community events) and incorporated as an ongoing and consistent message. Our programs reinforce a variety of consistent approaches and messages, instead of a one-time or annual effort. They are individualized and based on the member's needs and response. We offer these tools in multiple formats:

- Telephonic outreach tools:
    - The Touchstar auto-dialer system that provides efficiency and accuracy with member outreach

- Eliminates manual dialing by the staff and is synched with MCS so that the member demographic information appears when the phone is answered This also
- Provides a person-to-person interactive call for the response instead of a series of prompts or directions
- Touchstar voicemail reminders to ensure member call back
- Scripts, alerts and reminders are built into the MCS system so our staff addresses all preventive health needs in one call
- MCS allows us to view other family members within one screen
- Partnered with a major phone carrier to provide free cell phones for the pregnant and adolescent population who are often challenging to reach
- Ability to text generic preventive health reminders to the members with free cell phones
- Engage members with chronic conditions that would benefit from telemonitoring (diabetes, CHF, etc.)

- Web-based tools:
  - Monthly email member newsletters that provide generic preventive health reminders as well as community event tips to support health care choices
  - Live Chat connects members to our expertly trained member and provider services staff
  - Encourage and promote the "Text4Baby" program that support timely reminders for services during the pregnancy
  - Member portal offered with secure sign-on with ability to:
    - Request to change their PCP
    - Request a member handbook
    - Request replacement ID cards
    - Request assistance with scheduling appointments by offering dates/times they are available
    - Schedule conference with the Interdisciplinary Care Team if appropriate
    - Request hard copies of our policies/procedures, medical policies, clinical practice guidelines and QI Program outcomes
    - Offer suggestions to improve the services that the health plan provides
    - Update their demographic information
- Written materials with a schedule calendar include:
  - Quarterly member, provider and disease management newsletters
  - Prenatal and postpartum booklets to assist members during and after their pregnancy
  - Emergency Department (ED) Newsletters to assist members who are inappropriately utilizing the ED for health care services
  - Seventeen different preventive health postcards that are based on age, gender, and whether the member was a successful contact or unable to reach
  - Trifold, bi-fold, and post card reminders based on preventive health information discussed in the Touchstar outreach calls
  - Monthly and quarterly flyers that support preventive services and also identify community events that members may benefit by attending
  - Brochures and pamphlets that are distributed at WIC offices and Health departments to support preventive services.

- TTY and Braille services for member with visual and auditory disabilities

Meridian recognizes that many Medicaid members struggle with electronic capacity due to their income limitations. Meridian provides and supports the use of a computer or laptop in high volume FQHCs or provider offices (upon mutual agreement), local libraries, and community offices so that members may access their secure member portal if desired.

**Q52. Describe how you identify new and existing members who have the greatest need for care coordination and how you provide this coordination.**

Meridian has a process to identify new and existing members who have the greatest need for care coordination that includes the evaluation and analysis of the following data and referrals sources:

- Health Risk Assessment (HRA)
- Predictive modeling
- Claims data
- Pharmacy data
- Authorization data, including data collected through hospital discharge planning, inpatient review, and pre-service review process
- Physician referrals
- Member referrals

Meridian uses the John Hopkins Adjusted Clinical Groups® (ACG) System for predictive modeling. This program takes into account pharmacy expenses, diagnoses and demographics to predict future health costs. This involves a two-step process which sorts patients into clusters based upon age, sex, and diagnoses. The clusters are then assigned a cost score based upon previously evaluated patients. The next step involves applying statistical methods to create a risk score while looking at chronic conditions, pharmacy costs, hospital dominant conditions as well as substance use and mental health disorders. This model distinguishes between patients with chronic needs versus those that are only transitory. This type of model categorizes people, rather than events or specific episodes of diseases.

Members with the greatest need receive care coordination services through Meridian's Primary Case Management and Complex Case Management programs. The program takes a comprehensive approach beginning with early identification and a detailed needs assessment including the member's functional status, barriers to care, transportation needs and health goals. This information is used to create and implement an individualized care plan, and focuses member and caregiver education. Meridian's Case Management team takes an active role in coordinating member care with providers, support services and community resources. Outcomes are monitored throughout the program and care plans can be revised to reflect changing goals. This 360 degree view of a member's medical and behavioral health care, as well as functional, social and other needs ensures optimal health outcomes for participating members. Meridian targeted case management programs include medical, ER, high risk pregnancy, behavioral health, and substance abuse, and complex case management.

***Case Management Process***

Case Management processes includes Initial Screening and Assessment; Individualized Care Plan Development; an Interdisciplinary Care Team; Targeted Intervention and Education; Member Engagement; and Care Plan Monitoring. Meridian also supports Care Management

activities at the point of service through its patient centered medical home program and by partnering with a number of hospitals to place care managers at emergency rooms.

***Initial Screening and Assessment***
Prior to contacting the member, the Case Manager collects clinical background information by reviewing member specific data stored in MCS, including authorization data, claims, clinical updates from acute care facilities, pharmacy, medical records from physicians/providers, disease management records, contact log, and/or health risk assessment responses.

Case Management assessment tools enable Case Managers to obtain a well-rounded picture of the health status of managed members. These assessment tools were developed in house using evidence-based and external clinical guidelines. The assessment tools are incorporated into MCS Case Management module and generate automatic health reminders, goals and referrals upon completion. Case management nurses complete a variety of assessments on the member's health status, including condition specific issues; document the clinical history, including medications; assess activities of daily living; assess the member's mental health status, including cognitive functions; evaluate cultural and linguistic needs, preferences or limitations; evaluate caregiver resources; evaluate available benefits; and assess life planning activities.

Based upon assessment results, members are stratified into low, moderate, high or intensive risk. Case Managers utilize stratification to prioritize case loads and determine the degree of intervention needed based upon the member's level of acuity. The intensity, type and frequency of member interventions (direct or indirect) are determined by their combined needs and resulting case risk stratification. Motivational interviewing is one of the mechanisms employed by the Case Manager to determine which goal(s) the member appears ready to work on.

***Individualized Care Plan Development***
Upon completion of the assessment, MCS automatically identifies appropriate short term and long term goals based on member responses. The Case Manager reviews these goals with the member, and adds any additional goals identified during discussions with the member and/or medical home. The Case Manager and member work together to rank each short term goal in order of importance, as well as to establish member confidence in ability to achieve these goals. The Case Manager identifies barriers associated with each goal and documents them in MCS. The Case Manager then generates a written description of the plan of care via MCS which is sent to the member, the medical home, PCP and specialist (if applicable).

***Targeted Intervention and Education***
The MCS Case Management module facilitates targeted intervention by providing Meridian Case Managers with a dynamic work list, enabling them to assign specific goals and dates for follow up and dates for each member they are managing. In accordance with the plan of care, Case Managers conduct numerous interventions and make multiple contacts in addition to member telephonic contact. These include contacting providers for lab results, requesting copies of medical records/plans of care from specialists, contacting discharge planners in hospital, etc. These interventions and contacts are recorded in MCS relative to the specific goals they are addressing.

***Member Engagement***
The Case Manager develops self-management plans and communicates them to members. Self-management is a critical component of the member plan of care; it is designed to empower the

member/caregiver to provide appropriate levels of self-care. These self-management activities are provided to members in oral and written form. They can also be provided to the member by any member of the care team, such as Disease Management or Pharmacy staff, a discharge planner, a diabetic educator, or a dietician. The self-management plan includes, but is not limited to, member monitoring of symptoms, activity, weight, blood pressure, and blood glucose levels; and scheduling and attending medical appointments and medication adherence.

A follow up letter is sent to the member after each contact to communicate the self-management activities and goals the member has agreed to work on. Additional educational information is sent along with this letter as needed. MCS documentation includes the specific educational materials sent to the member, as well as any verbal self-management instructions and coaching given by the Case Manager. Additionally, the member and PCP are sent a plan of care letter in which the short and long term goals that the member has agreed to work on and the interventions that will be done to accomplish the goals. The Case Manager also creates a medication list which is mailed to the member; the member is expected to follow the medication list and bring it to every provider appointment. A copy of the medication log is also mailed or faxed to the primary care provider for purposes of medication reconciliation.

***Care Plan Monitoring***

The Case Manager assesses progress relative to case management plans and goals, modifying them as needed. The Case Manager updates progress towards the goal(s) after every member contact and documents any identified barriers to meeting the goals and compliance.

***Care Management at the Point of Service***

Meridian supports Care Management at the point of service in a number of ways. Care management is a key component of the Patient Centered Medical Home (PCMH) Model of Care. By providing technical and financial support to providers that are working towards and/or have achieved PCMH recognition, Meridian is also supporting care management activities within medical practices. Meridian also supports care management activities at hospitals by funding care management positions at hospital emergency rooms to help coordinate care and support members seeking care at the ER. Meridian realizes embedding care managers within practices, hospitals and emergency rooms helps to improve service and outcomes for members and will continue to expand its support for care management at the point of service.

**Q53. Describe how you will assist members in identifying and gaining access to community resources that may provide services that the managed care program does not cover, but which support the member's overall healthcare needs and goals.**

When members complete the telephonic Health Risk Assessment, the Plan can better assess the member's health needs as well as any community resources that may prove to be beneficial. Meridian's social workers link members to a number of community resources, including food assistance programs, the Women, Infant, and Children Program (WIC), domestic violence support groups, breastfeeding support groups, after school programs for children, and shelters for members who are homeless. Condition specific resources include those centered on disabilities, diabetes, heart health, lung disease, neurological disorders, deafness, and blindness. Meridian also realizes the importance of resources for the elderly, and directs elder members to elderly congregate meal sites and independent living resources. Meridian supports these programs through direct referrals for members by telephonic outreach, mailings, the Meridian website, volunteering of staff time, and charitable donations.

**Q54. Members who require care management are more often transient, difficult to locate, homeless, and difficult to engage. Describe the strategies that you will utilize to address these barriers to care management.**

Meridian understands that homeless people are a special needs population that requires additional consideration when designing managed care and outreach systems for Medicaid beneficiaries. A few of the barriers that homeless members have in accessing care are due to a lack of stability, poor communication dynamics and a high prevalence of complex, interrelated health conditions.

Meridian will collaborate with the State of New Hampshire's Bureau of Homeless and Housing Services (BHHS) to identify members who are enrolled with Meridian and are accessing services from the Bureau (shelters, soup kitchens, food pantries and drop-in centers). Meridian's Outreach Specialists, who live in the community, will regularly meet with the staff from shelters and housing units to identify members. Access to transportation and cell phone services are also provided to the member.

Upon identification the Outreach Specialist will provide the member with welcome information regarding their benefits. An HRA will also be conducted either telephonically or in person. The Outreach Specialist serves as the member's coordinator in accessing the services needed. One of the navigator's responsibilities is to assist the member in selecting a PCP within 3 days of enrollment and arranging a visit within 30 days of enrollment.

Based upon the member's responses, referrals will be made to case management for behavioral health assistance, prenatal management and/or disease or case management services. In these instances, an individual plan of care will be developed with the member's input that promotes contact with their PCP and/or other providers of care, maintaining linkages with other community organizations and ensuring members received the care needed, including services delivered in shelters.

Meridian considers its initial member outreach and contact critical to ensuring member access to the care they need. If a phone number is identified as being invalid at the time the initial member welcome call and HRA are conducted, the member service staff forwards the member record via MCS to the Unable to Reach work queue. Assigned staff manages the queue daily to identify alternate telephone numbers. If the plan is unable to reach the member on the initial attempt, the member service staff member attempts two more contacts at different times of the day within a 7-day period. If the member contact is not completed, the member record is forwarded to the "Unable to Reach" queue via MCS.

The member services staff who manage the Unable to Reach queue researches various sources for new member contact information. These sources include review of State delivered historical claims to identify previous service providers, contact PCP offices, access the White Pages, review pharmacy history, contact pharmacy providers, research professional and institutional claims, and search the member's referral history for information that has been faxed to the plan for authorization review purposes.

If review of all sources are not successful then the member outreach specialists are provided the name of the member and they attempt to locate the member via their outreach network and/or go to the member's home to conduct the necessary outreach. When a valid phone number and address is confirmed, the member service staff or the member outreach specialist updates the

member demographic screen with the correct information and the record is returned to the member outreach campaign from which it originated for follow up. Follow up outreach activities are conducted monthly at a minimum.

All member outreach staff, including but not limited to Case Managers, Disease Management Specialist, and Women and Children's Specialists follow the process described above when efforts to reach a member are unsuccessful.

**Q55. Describe how members are engaged with the development of their care plan and how they are encouraged to follow that plan.**

Members are also encouraged and given the opportunity to participate in managing their own health through participation in the Interdisciplinary Care Team (IDCT). The IDCT is comprised of the member's care coordinator, member/caregiver, primary care provider, and Meridian staff. The member may participate in the IDCT either via telephone or in person. Meridian provides transportation if the member chooses to participate in person. The IDCT reviews the results of each HRA and develops an individualized care plan based upon the results with accompanying short and long term goals. Scheduled follow-up, reassessment and communication of the plan of care are based upon the member's dynamic risk status. The IDCT is to ensure the member understands their care plan and their involvement in changes to the plan, which empowers the member to manage their own care. Members and/or their caregiver are offered to participate directly with the IDCT to develop a plan of care either in person or via telephone in their plan of care.

Members are engaged continuously through their individualized care plan at the point of care and contacted through calls by the Case Manager and/or Disease Management Nurse throughout their enrollment in Meridian. A reassessment and communication of the member's plan of care is conveyed through documentation in MCS that collects and records member information and creates electronic reminders for communication among IDCTs. MCS alerts the Disease Management Nurses and Case Managers to correspond with each member concerning the outcomes and needed interventions through written and verbal notification. Primary care providers and specialists are asked to update their care plan in accordance with Meridian changes and updates as needed per the case manager of each member. The member then receives a written initial plan of care detailing their agreed upon short term and long term goals, as well as updates to their care plan throughout their enrollment.

**Q56. Describe your process for communicating with members about their primary care provider assignment, ensuring/encouraging members to use their assigned provider, and ensuring/encouraging members to keep their scheduled appointments.**

Meridian has a process to ensure members know their assigned PCP and uses multiple methods to encourage members to schedule and keep appointments. New members receive a welcome packet that includes their Meridian ID card and member handbook. The member handbook contains information about how to identify or choose a PCP; how to get care and what to expect from their PCP; and how to change a PCP. Meridian encourages members to have a PCP office visit to establish a relationship with their doctor. New members that have an office visit within 30 days of enrollment are entered into a raffle for gift card.

Meridian also uses its auto-dialer telephone system, Touchstar, to conduct new member welcome calls each month. During the welcome calls, Meridian outreach staff makes sure new members

have selected a PCP; encourage members to schedule an appointment to establish a relationship with their PCP; and answer questions the member may have regarding accessing services. A red "W" alert also appears on the member demographic screen in MCS for all new members, indicating the need for a welcome call. If these members who have not been reached call into Member Services, the welcome call will be completed.

Meridian employs both printed and telephonic approaches to encourage all members to use their PCP for services. Printed reminder cards and bi-folds are custom printed with the member's assigned PCP and contact information so the member can use the cards to take action and call to schedule an appointment without having to look up or search for the office telephone number. On every phone call Meridian's staff verifies their PCP is and offer assistance by making a three way call to schedule the appointment. Disease Management and Case Management staff encourage members to seek care from their PCP and assist in scheduling appointments and transportation as needed.

**Q57. Describe your programs and time needed to support practices to attain NCQA patient centered medical home certification.**

Meridian has established a program to support practices wishing to attain PCMH recognition. The program encourages providers to become PCMH by providing financial assistance during the practice certification phase. It also rewards providers who have already received PCMH designation. Meridian recognizes that in order to become a medical home, practices require assistance with information technology, work flow analysis and redesign, care management and care coordination, performance reporting, and quality improvement activities. The process can take up to 18 months to achieve and requires financial and technical support. To qualify for the program, the practice must be a contracted PCP with a fee for service contract and have at least 100 members. The practice must also be open to and accepting new members. It is our expectation to begin the program at the time of contract execution with a goal of 50% of primary care practices recognized as medical homes by 2014.

| Program Level | Qualifications | Reimbursement |
|---|---|---|
| Bronze | • Contracted – fee for service<br>• Open to and accepting new MHP members<br>• MHP membership of 100+<br>• PCMH recognition from URAC, NCQA, AAAHC or JCAHO<br>• HEDIS aggregate score ≥ 25% | • 100% Current Medicaid Fee Schedule<br>• $2.00 PMPM<br>• MHP HEDIS Bonus Program |
| Silver | • Contracted – fee for service<br>• Open to and accepting new MHP members<br>• MHP membership of 100+<br>• PCMH recognition from URAC, NCQA, AAAHC or JCAHO<br>• HEDIS aggregate score ≥ 25% | • 120% Current Medicaid Fee Schedule<br>• $2.00 PMPM<br>• MHP HEDIS Bonus Program |
| Gold | • Contracted – fee for service<br>• Open to and accepting new MHP members<br>• MHP membership of 100+<br>• PCMH recognition from URAC, NCQA, AAAHC or JCAHO<br>• HEDIS aggregate score ≥ 90% | • 130% Current Medicaid Fee Schedule<br>• $2.00 PMPM<br>• MHP HEDIS Bonus Program |

In addition to the funding structure, Meridian has partnered with the Practice Transformation Institute (PTI) to provide education, practice evaluation, and help practices achieve the changes needed to achieve PCMH recognition. PTI is also a URAC certified PCMH review organization that can conduct the URAC PCMH onsite review and provide practice assistance in gaining NCQA PCMH acknowledgement. Meridian also provides practices with information technology technical support and care management resources.

**Q58. Describe your experience, approach, and time needed to supporting Health Homes as defined by SAMSHA.**

Meridian is committed to support Health Homes as defined by Substance Abuse and Mental Health Services Administration. We will work with its contracted behavioral health providers and community agencies to promote an integration of mental and medical health through the health home Model of Care, prior to the implementation of the contract on July 1, 2012.

Meridian has been involved with the Centers for Health Care Strategy and the Reducing Disparities at the Practice Site (RDPS) medical home grant project. We participate in multi-state conversations and programs exploring SAMSHA Health Homes. We are exploring the AIMS (Advancing Integrated Mental Health Solutions) Center model developed by the University of Washington to integrate behavioral and medical health. This approach calls for a collaborative team approach for patient centered integrated behavioral health care, which differs from co-habitation of medical and behavioral health at the practice. The integrated approach includes principles such as:

- Patient centered care that is team-based and includes collaboration between PCPs and behavioral health providers
- Population based care that tracks patients in a registry to include systematic follow up and outcomes tracking
- Measurement based treatment to target with measureable treatment goals and defined and tracked outcomes for each patient
- Evidence based care is the basis for clinical decisions
- Pay for performance whereby the delivery system is accountable and reimbursed for quality of care outcomes and patient satisfaction, not just the volume of care provided.

(The remainder of this page intentionally left blank)

**Innovative Support for Medical Homes**

**Reducing Disparities at the Practice Site (RDPS)**
Meridian has participated in a 3-year multi-state medical home project, Reducing Disparities at the Practice Site (RDPS), funded by the Robert Wood Johnson Foundation and supported by the Center for Health Care Strategies. We partnered with the State of Michigan Department of Community Health, 5 other Medicaid health plans, and 6 practices in the Detroit area to promote PCMH. As part of RDPS, Meridian assigned a "quality practice buddy" to work with one of the practices to implement a patient registry, and implement operational changes to support team care, patient outreach, and care coordination.

**Health Information Technology**
Meridian provides a variety of IT support to promote the medical home model, including direct access to MCS through its secure Provider Portal. For practices that have not yet implemented an EHR or registry, integrated information is available to providers through direct access to MCS. Meridian has also partnered with registry vendors, including WellCentive and Cielo, to support practices and promote electronic interfaces needed to more fully integrate all patient data across providers and plans.

**Financial Incentives**
Meridian has a medical home incentive program that provides enhanced payment to practices that achieve PCMH recognition. The program also offers financial payments to support practice transformation activities needed to become a medical home.

**Q59. Describe your process and procedures for coordinating and facilitating nonemergency transportation for your members.**

Meridian contracts with a Non-Emergent Medical Transportation (NEMT) vendor to provide NEMT services to members. Meridian has been successful with vendor relationships in the past by defining guidelines with the vendor that meet state contractual obligations and monitoring the vendor's adherence to guidelines. Meridian closely monitors the NEMT vendor complaint volume and phone stats to make sure they meet contractual requirements and ensure Meridian members receive quality care. In addition, Meridian partners with the NEMT vendor on programs to increase member satisfaction. For example, Meridian monitors member utilization of NEMT to identify members who may need additional assistance with coordination of care due to long travel distances.

We provide education to members on obtaining NEMT services through our member handbook and website. Our Member Services Representatives work with members to directly coordinate their NEMT needs with the transportation vendor, as part of our single call resolution promise.

**Q60. Describe your direct experience in managing substance abuse benefits provided through Medicaid programs, including Screening, Brief Intervention and Referral to Treatment (SBIRT).**

Healthy People 2020 identifies that there are a range of personal, social, economic, and environmental factors that influence health status and are called determinants of health. Individual behaviors such as substance and alcohol abuse have been linked to poor outcomes for an individual's overall health determinant. Use, abuse, or dependence are linked to higher risk for physical health conditions, often occurs with mental illness[1], and creates challenges to care as

[1] National Institute on Drug Abuse. (2009). Research Report Series—Comorbidity: Addiction and Other Mental Illnesses. Retrieved April 19, 2010, from http://www.drugabuse.gov/PDF/RRComorbidity.pdf

it can exacerbate certain medical conditions, complicate treatment[2], and reduce compliance with treatment recommendations.

Meridian's Health Risk Assessment initiates screening, brief intervention and referral to treatment process for alcohol and substance abuse.

**Screening**

If the member responses indicate the member is at risk the member case is routed to the behavioral health case management staff for follow up assessment. The BH case manager contacts the member and administers either the Short Michigan Alcoholism Screening Test (SMAST) and/or the Drug Abuse Screening Test (DAST). Based upon the member responses the case manager discusses the alcohol and substances abuse covered benefits and community services available to the member. The Meridian case manager assists the member in development of their plan of care and coordinates the services the member has agreed to access. The case manager sends the PCP a copy of the member's written plan of care as well as progress towards their goals.

**Brief Intervention**

With early interventions of members who are at risk for substance abuse issues and active case management for members who have had substance abuse issues, Meridian gives members the tools they need to actively manage their health. This early intervention and management subsequently leads to a greater quality of care for members as well as continual cost-effectiveness.

**Referral to Treatment**

The substance and alcohol abuse program is a component of our behavioral health approach that is described above. The use of MCS allows for incorporation of all available databases and referral intake systems to refer members who may have substance and alcohol abuse issues to the appropriate provider.

**Q61. Describe your organizational approach to the following: data sharing and integration to promote care coordination for members with special needs, such as mental illness, substance use disorders, and Human Immunodeficiency Virus (HIV).**

MCS allows Meridian to provide coordinated, comprehensive, collaborative, and continuous care to members. The ability to access all aspects of a member's care under one software system allows information to be integrated and shared with other parties involved in managing a member's needs. Members with mental illness, substance use disorders, and HIV require care from a large number of settings. Meridian staff utilizes MCS as well as interfaces with provider systems to acquire the full picture of a member's medical needs and use of services to coordinate of high quality care across settings.

Meridian partners with four hospitals in sharing Electronic Medical Record (EMR) access. This bidirectional sharing of information between MCS and the hospitals' EMRs leads to greater efficiency in the coordination of health care services. Meridian's Chief Medical Officer is involved in many initiatives aimed at the improvement of information sharing in the managed

[2] Brucker, D. (2007). Estimating the Prevalence of Substance Use, Abuse, and Dependence Among Social Security Disability Benefit Recipients. Journal of Disability Policy Studies. Vol. 18, No. 3, 148-159.

care setting. Our CMO, in collaboration with our CIO, participates in the Health Information Exchange (HIE), Regional Extension Centers (RECs), and the Regional Health Information Organization (RHIO) to identify best practices for health information sharing.

**Q62. Describe your experience managing the listed disease states. Include empirical evidence of health outcomes your members have experienced through your chronic care management programs.**

Meridian has experience managing the care for members with diabetes, congestive heart failure (CHF), chronic obstructive pulmonary disease (COPD), asthma and coronary artery disease (CAD). We have developed Disease Management programs for each of these conditions that promote patient education on self-management, have a number of innovative approaches to care coordination, and include the use of care coordinators at participating hospitals and promoting the patient-centered medical home model of care.

Meridian monitors a number of health outcome measures to evaluate the effectiveness of its chronic care management programs. In 2010, Meridian performed above the NCQA 75th percentile for a number of diabetic and cardiovascular measures as indicated below:

- Diabetes-HbA1c test – 92.1% (>NCQA 90th percentile)
- Diabetes-HbA1c control (<8%) – 60.1% (>NCQA 90th percentile)
- Cholesterol Management-LDL-C screening – 87.0%
- Pharmacotherapy Management of COPD Exacerbation: Systemic Corticosteroid – 73.2%

Detailed information about Meridian's Disease Management program is provided in Question 64 (page 95).

**Q63. Describe how you provide care management to children and youth involved in the child protection and/or juvenile justice systems as well as children in foster home/group home/residential placements.**

Meridian recognizes that children in juvenile child protection systems, juvenile justice systems, foster homes, group homes, and residential placement settings are in serious need of care coordination. An estimated one out of every five children in the juvenile justice system has serious mental health problems.[3] Additionally at the end of fiscal year 2009, approximately 424,000 children were in foster care settings.[4] Meridian strongly believes that children in these settings have the same rights to care as children in more typical settings.

As an example, in 2010 the State of Michigan began the transition of foster care children into Medicaid Health Plans. An important component of the statute mandating this transition was to ensure that medical exams for foster children occurred within 30 days of enrollment into foster care, as well as ongoing EPSDT and preventive health services. As a result Meridian initiated a comprehensive foster care children initiative to ensure smooth enrollment transition. MCS alerts staff and displays contact information ensuring appropriate communication and coordination occurs between the plan, provider, parent/guardian, foster care parents and child's case worker.

---

[3] Office of Juvenile Justice and Delinquency Prevention. April 2000. Juvenile Justice: Youth With Mental Health Disorders: Issues and Emerging Responses. *Journal of the Office of Juvenile Justice and Delinquency Prevention, 7* (1). Retrieved from https://www.ncjrs.gov/pdffiles1/ojjdp/178256.pdf.
[4] Child Trends. May 2011. Foster Care Data Snapshot. *Child Trends Data Snapshot, 2011* (19). Retrieved from http://www.childtrends.org/Files/Child_Trends_2011_05_31_DS_FosterCare.pdf.

Meridian's use of technology has resulted in a smooth enrollment transition, improved care coordination, and promoted medical assessment/preventive care. After just 7 months, approximately 35% of newly enrolled foster care members received an office visit within 30 days of joining the plan. 71.1% of foster care children continuously enrolled with the plan had an office visit during that period. As recognition of our successful implementation, we received a Pinnacle Award from the Michigan Association of Health Plans (MAHP).

Meridian's foster care programs can be easily adapted to serve children and youth involved in the child protection and/or juvenile justice systems. We recognize the importance of key players in the children's lives emphasizing the engagement of families/guardians. Meridian also focuses on needs-based service planning, delivery, and education. Children have individualized service plans based on their needs and the settings. Meridian focuses on setting goals and strategies for reaching those goals to achieve better health outcomes for children in special settings. When appropriate, Meridian nursing services are provided at the child's residence.

**Q64. Describe your proposed chronic care management program, including:**

Meridian's Disease Management (DM) program is an integral part of our focus on chronic care management. A comprehensive mix of member outreach, prevention and education, supported by the features in MCS, allow Meridian to provide quality unmatched by other plans. Meridian offers disease management services for the following disease states:

- Diabetes
- Cardiovascular Disease (CVD), including Congestive Heart Failure (CHF) and Coronary Artery Disease (CAD)
- Chronic Obstructive Pulmonary Disease (COPD)
- Asthma
- Pregnancy Management
- Coordination of behavioral health services
- Weight Management
- Tobacco Cessation

As applicable, tobacco cessation is a component of all Meridian Disease Management programs, as is weight management and maternal-infant health. Meridian tobacco cessation programs focus on identifying members who smoke, assessing their readiness to quit and connecting them with both counseling and medications to support their efforts.

**Disease Management Program Overview**

Meridian's Disease Management programs engage members with chronic diseases or conditions such as pregnancy. Meridian's Disease Management programs are multidisciplinary and continuum-based systems, developed to identify populations with chronic diseases and improve member health outcomes. Each Disease Management program uses cost-effective evidence-based practice guidelines. Our programs are designed to support the provider-patient relationship by complementing the medical care members receive from their providers. These programs also support the plan of care by assisting members with coordination of care. Patient self-management strategies are encouraged, with an emphasis on preventing exacerbation and complications.

Program content and activities are developed based on the most current clinical practice guidelines, literature review and benchmarked best practices. Each program includes treatment plans, monitoring of the condition, identification of risk factors associated with other conditions and strategies to improve lifestyle issues.

***Any additional diseases you will target.***

In addition to the diabetes, CHF, COPD, asthma, and CAD programs, Meridian will offer Disease Management programs for obesity, depression, cancer, HIV/AIDS, and the coordination of behavioral health services.

***Your risk stratification methodology.***

Meridian has a structured process to identify members for Disease Management programs that integrates information from claims, authorizations, pharmacy, Health Risk Assessments (HRAs), and provider referrals. Members have the right to opt-out of the program if they choose to do so. Members who opt out are removed from Disease Management mailing and call lists, but their progress will continue to be monitored and all appropriate assistance provided (e.g., case management and missing service reminders to providers)

The structured contact process begins with a HRA as described earlier in this section. Certain HRA responses trigger automated educational mailings to members based on identified needs. HRA responses also trigger referrals to Case Management when coordination of care or resource concerns are involved as well as aid in risk stratification.

Other types of data are also used to identify members who might benefit from the Disease Management program. These additional data sources include:

- **Claims** – Specific diagnoses or procedures (outpatient, inpatient or ER)
- **Pharmacy** – Specific medications (e.g., insulin/oral hypoglycemic - diabetes)
- **Member-reported** – Welcome/HRA calls; data from state enrollment files
- **External Referrals** – Providers can refer members to Disease Management programs and members can request to be included in Disease Management programs
- **Internal Referrals** – Utilization Management (UM) and Case Management (CM) utilize a "trigger list" to determine appropriate referrals to Disease Management programs

**Risk Stratification:** In cases where assignment to a Disease Management program is appropriate, members are stratified based on all available data. The stratification process is built into Meridian's Managed Care System (MCS) and uses all available data sources. Stratification occurs on a monthly basis, and members can move between levels as their condition changes. Structured Disease Management activities and communications are developed and implemented for each level. Members with higher levels are contacted more frequently.

- **Strat One** Disease management stratification indicates mild disease. A member is identified as having the disease, but does not meet the criteria for assignment to Level Two or Three.
- **Strat Two** Disease management stratification indicates moderate disease. There are indications that the disease may not be well-controlled, based on lab data, claims data, lifestyle issues such as obesity or tobacco use. The member may also be at risk for other co-morbid conditions. Referrals from a provider or the Utilization Management/Case

Management process will automatically trigger the system to identify the member at least at this level.

- **Strat Three** Disease Management stratification indicates severe disease. This may be identified by frequent emergency department visits or inpatient admissions, multiple prescriptions for the same diseases, lab data that does not demonstrate control rates, and/or multiple co-morbid conditions.

The below figure indicates the stratification levels during 2010 of members in three of Meridian's Disease Management programs.

| Stratification Levels in DM Programs | | | |
|---|---|---|---|
| Stratification Levels | Asthma | Cardiovascular Disease | Diabetes |
| 1 | 4,871 | 933 | 77 |
| 2 | 4,378 | 3,580 | 4,073 |
| 3 | 1,816 | 1,823 | 61% |

***Your outreach strategies to members requiring disease management services.***

Meridian employs a number of strategies to engage members requiring disease management services, including mail and telephonic outreach efforts. Within MCS a red disease management alert is populated on the member demographic screen so that any Meridian staff can see at a glance that the member is enrolled in disease management and can hover over the red alert to know the specific disease state(s) of the member. A Disease Management Touchstar campaign is run on a weekly basis that includes any new disease management members or continuing disease management members who have not had a disease-specific assessment completed within the last 6 months. Using Touchstar, Meridian's integrated auto-dialer telephone system, outbound calls are made to disease management members and assessments are completed. Members with clinical questions are transferred to Disease Management Nurses for assistance. Disease Management Nurses conduct telephonic outreach to level 2 and level 3 members.

All members identified for a Disease Management program are mailed a New Disease Management Member Packet regardless of their stratification level. This packet contains a welcome letter explaining how they were selected for their specific Disease Management program, how the program works, and how to opt out of the program if they choose to do so. The packet also includes a list of benefits related to the treatment and management of their condition, information about risk factors that could lead to other diseases, information about a healthy lifestyle, and encouragement to make an appointment with a Primary Care Provider (PCP).

***The interventions you will implement for members of each risk level.***

Disease Management program interventions are directed at improving health outcomes for members with chronic conditions. Members at all risk levels are sent written educational materials that address condition monitoring, treatment plans, lifestyle and co-existing health

conditions. Members also all receive telephonic outreach; however, the frequency and content of the conversation varies depending on the risk level of the member.

***Strat One***

Members receive a disease management newsletter three times a year. The newsletters contain general information about the importance of periodic assessments needed to monitor their condition, and risk factors to avoid, such as smoking or obesity. The newsletter also encourages members to take medications as prescribed and to get their flu shots which are part of treatment plans as outlined in clinical practice guidelines for each condition. Strat One mailings also include two targeted mailings with disease specific educational flyers. Telephonic outreach for Strat One members uses Touchstar campaigns. Using an auto-dialer system, outreach staff contact disease management members every six month in order to provide any needed service reminders (i.e., labs and office visits) and to complete or update a health risk assessment to determine if there are any changes that might impact the stratification level of the member. During the calls if a member has a clinical concern the call is transferred to one of Meridian's Disease Management Nurses.

***Strat Two***

In addition to the interventions for Strat One, these members receive two additional targeted mailings with disease specific information related to condition monitoring, adherence to treatment plans, consideration of other conditions and lifestyle changes. Telephonic outreach is made through the use of Touchstar campaigns.

***Strat Three***

Strat Three includes members stratified into the highest risk category. These members have evidence of uncontrolled conditions and have been to the hospital or ER. Members in this level receive a total of 6 disease-specific targeted mailings during the year in addition to the outreach provided in Strat One and Strat Two. Meridian Disease Management Nurses also make outreach calls to these members and utilize the Care Management module within MCS to establish a schedule for contact and follow up.

Meridian also has a number of disease specific interventions that are taken for all risk levels. One example is mailing a home testing kit during the fourth quarter of the year is to all members who have not completed an HbA1c and/or LDL-C in the measurement year. These are members in any stratification level. The home testing kit allows the member to complete the test in the convenience and comfort of their home. The testing kit includes a postage paid envelope addressed to the lab. The lab completes analysis and provides the results to Meridian; the plan then shares the results with the PCP.

***Your approach to telephonic interventions and face-to-face interventions.***

Meridian has an aggressive telephonic outreach approach for all disease management levels that combines use of its auto-dialer system, Touchstar, and telephonic follow up by Disease Management Nurses based on individual needs of the member. Level 2 and 3 members are contacted by a Disease Management Specialist or coordinator via the telephone at least twice during the year. During the conversation an assessment of the member's needs, and knowledge of and adherence to their current treatment plan is completed. The Disease Management Specialist or Coordinator utilizes an online Health Risk Assessment (HRA) tool to guide the

conversation and assessment and also to capture the information obtained during the assessment. The information is maintained within MCS and is made available to the member's PCP and also other Meridian staff who may be involved in coordinating care. Lifestyle issues are also addressed, such as smoking cessation and weight management. Diabetes education classes are also offered to each member and encouraged, especially if the member has never attended classes or does not appear to comprehend the self-care instructions given. Following the conversation, the member may be sent specific educational materials that address specific topics of interest related to their health and condition.

Face-to-face interventions occur through care managers embedded within Meridian's contracted hospitals and emergency rooms. Meridian helps to fund care managers at our large hospitals to help coordinate care and direct members back to their medical home as needed.

***How you engage the member's primary care physician and other providers in developing and implementing a care plan.***

Meridian Disease Management Nurses work closely with members' primary care physicians and other providers in developing and implementing a care plan for members stratified into risk level 3. Using the care management module within MCS, Disease Management Nurses complete a number of assessments and collect information from the member and provider as necessary. Communication with physicians includes direct telephonic as well as mailing and faxing care plans, referrals, and other information. Meridian also holds a weekly inter-disciplinary care team meeting to discuss complex cases and has formal reporting mechanisms to promote communication and care coordination.

Provider education and communication to support care management occurs at many levels. All Disease Management programs are designed around clinical practice guidelines which are promoted across the provider network. At the member level, Disease Management Nurses and outreach staff often contact providers to assist in scheduling appointments or to coordinate care. Meridian also faxes lists of members who may be missing labs or may need to have medications evaluated (e.g., long acting asthma medications).

***Your approach for managing members with multiple co-morbidities.***

Meridian has a Complex Case Management program that serves members with conditions and/or medical fragility that is persistent and substantially disabling or life threatening that requires treatments and services across a variety of domains of care to ensure the best possible outcomes for each unique member. The criteria are based upon the severity of illness, degree of impairment or disability, multiple providers of care and level of need for comprehensive care management.

***Population***

- ≥ 4 chronic co-morbidities (CAD, HTN, CKD, COPD, Asthma, SCD, Stroke, severe persistent BH disorder)
- Medically unstable, case management not expected to return member to full medical stability (require frequent admits)
- Severe, persistent developmental disability/special needs
- Require coordination of services among multiple providers
- □≥ 4 admission in 3 months

- Lack of adherence with plan of care in several areas, medication, follow up visits, lab, pharmacy
- Requires high level of case management intervention
- Transplants
- Brain injury
- Severe trauma
- Spinal cord injury

An integral component of the case management program is assessing the member's ability to manage their care and identifying potential barriers to accessing needed care. The case manager assists to address the member's financial, social, psychosocial, transportation, environmental, and/or caregiver needs.

***How you will integrate your disease management programs with the member's primary care provider's care management responsibilities.***

Meridian integrates its disease and case management programs with care management activities at the practice both from a systems perspective through MCS and through direct communication between Meridian staff and provider office staff. This integration is supported across all Meridian departments with the use of alerts and automated referrals within MCS. Examples of integration include:

- Providers have access to member information in MCS through a secure web-based provider portal.
- Meridian works closely with hospital groups and large physician groups to share electronic health information.
- Meridian has a data sharing agreement with MyVitalData.com which provides alerts to the Plan when a member visits the emergency room and also provides information to hospitals and other users of MyVitalData of needed services.

MCS facilitates integration of information across Meridian departments. When a member is diagnosed with diabetes, for example, through the UM process, the DM department is automatically notified. DM and UM staff can identify members who are currently active in case management. Case Managers are automatically notified when any UM or DM contact occurs with a case-managed member. MCS also allows other departments, such as Member Services, to identify members who are currently active in case management or participating in a DM program.

MCS is programmed with a series of alerts which appear on member contact screens to notify staff of a member's status and/or need of a service. There are over 20 alerts, some of which include:

- Welcome Call required for a new member
- Health Risk Assessment (HRA) needs to be conducted
- HEDIS measure(s) need to be completed
- Member is in Pharmacy Lock program, active Case Management and/or in our Compliance program

Alerts are automatically populated in MCS based a variety of triggers:

- Claims data
- MCS contact code entered from previous member contact

- HRA results
- Member stratification
- Case management or disease management activity

***Your approach to coordinating community resources for members in the disease management program.***

Meridian Case and Disease Management Nurses and Outreach Specialists refer and coordinate community resources for members. Working closely with provider services representatives who reside within the geographic regions they serve, care management staff identify and refer members to a wide variety of community services to help meet housing, nutrition, and social support needs. Coordinated services are recorded within MCS in the Care Management module to support follow up and ensure member needs are being met. Meridian has also built capability within MCS to send automated faxes to selected resources. In Michigan all newly enrolled pregnant women are referred to a local Maternal Infant Health Program (MIHP) through a monthly auto-fax process that ensures all women are referred for assessment and possible enrollment in a local MIHP program.

***Describe your proposed approach to transitioning members who were receiving care management support from DHHS prior to enrollment in the MCO.***

Meridian will utilize both telephonic and mail outreach to transition members receiving care management support from DHHS prior to enrollment in the MCO. Meridian will send written communication to members informing them of the upcoming change and will include program information and contact information. A Touchstar campaign will also be built to outreach to all members receiving care management from DHHS, to complete a health risk assessment, and collect information needed to ensure transition to the appropriate level of care (risk stratification). Members with complex case management needs will be assigned a case management nurse who will contact the member and ensure a care plan is recorded in MCS. To the extent that DHHS can provide detailed information for members receiving care management support prior to enrollment, Meridian will pre-load information into MCS to help smooth the transition.

***Describe your approach for handling high-cost/high-risk individuals.***

The purpose of Meridian's case management program is to identify and manage high-risk and/or high-cost members. The program is designed to optimize wellness for individual members by reinforcing their primary care physician's plan of care, identifying the health habits they seek to change, set attainable goals to motivate and direct their efforts, facilitate coordination of care (medical and behavioral), use direct feedback of progress to the physician and member to promote health and sustain the effort needed to maximize member outcomes.

***Primary Case Management***

This condition specific case management program focus' on the individual health care needs of high-risk members, often with multiple chronic conditions who may be treated by multiple physicians, have difficulty adhering with the physician's treatment recommendations, and/or have competing psychosocial concerns. Each condition case management assessment tool is based upon Meridian's well-established, evidence-based treatment guidelines.

***Population***

- Members admitted inpatient with at least one of Meridian's disease management conditions; diabetes, diabetes related conditions, asthma, and cardiovascular disease.
- Members admitted inpatient with COPD, sickle cell disease and CHF.
- Members admitted medically for substance abuse/alcohol related conditions
- ≥ 3 unscheduled admissions in 3 months
- Inpatient discharges that require intensive discharge planning activities, i.e., wound
- Care, SNF placement

**The case manager's primary activities are:**

1. Confirm member's medical home and ensure needed care is available to member and accessed appropriately.
2. Promote medication adherence through self-management education and coordination of services.
3. Promote member understanding of chronic disease process in accordance with evidence based practice guidelines leading to self-management.
4. Coordination of services, particularly among members with complex co-morbid conditions including behavioral health and non-medical support services.
5. Measure progress towards goals and assessment of utilization
6. Monitor pattern of compliance/non-compliance

The case manager performs an initial assessment of the members' health status, clinical history (including medications), their activities of daily living, mental health status, life planning activities, evaluation of caregiver resources and cultural and linguistic needs. The case manager involves the member in the definition of problems, goals of treatment and customizes the plan to the individual preferences and needs of the member to promote lasting health behavior change over time. The personalized plan is adjusted as needed to best address the changing needs of the member and to encourage better self-management of their chronic condition.

The healthcare team provides member self-management support by identifying the barriers, providing effective self-management interventions and ongoing collaborative goal setting and problem solving. Based upon the results of each assessment, the members in each program are stratified into low, moderate, high or intensive risk. The intensity, type and frequency of member interventions (direct or indirect) are determined by their combined needs and resulting case risk stratification. Motivational interviewing is one of the mechanisms employed by the case manager to help determine which goal(s) the member appears "ready" to work on.

Throughout the case management process, the case manager assists in problem solving, implements an action plan, arranges interventions and establishes linkages between the primary care and specialty physicians that facilitate the member's care. The case managers reference the educational materials distributed by Meridian's Disease Management and Health Promotion staff. The case manager reviews self-management tools for each condition with members.

A schedule for follow-up and communication with the member is developed based upon the member's level of acuity, following the guidelines below:

A. Intensive – Activities that require same day/urgent intervention (> 14 interventions/week).
   i. Activities conducted prior to post discharge follow-up completion.

ii. Unexpected admission of open CM case.
iii. Change of condition.
iv. Coordination of urgently needed services.

B. High – Activities performed prior to completion of condition-specific assessment tool (8 to 13 interventions/week).
   i. Investigating frequent ER referral.
   ii. New problem/goals added to plan.
   iii. Member lack of compliance.

C. Moderate – condition-specific assessment tool completed and plan of care is developed (2 – 8 interventions/month).
   i. Executing and updating plan of care.

D. Low – Intermittent monitoring (2 – 4 interventions/month).
   i. 75% of goals completed.

***Describe your organizational approach to the following: Aligning systems and management practices, including provider contracts, credentialing, training, and reimbursement policies; practice protocols; services authorization policies; benefit and non-MCO service coordination policies and protocols; and your quality assurance mechanisms, to promote care coordination of members with special needs, such as substance abuse disorders and HIV.***

*Aligning systems and management practices that include provider contracts, credentialing, training, reimbursement policies and practice protocols.*

Meridian is structured organizationally and from an integrated information system (MCS) to provide and promote care coordination for all members but especially those with special needs that include behavioral and medical conditions that may co-exist. The Quality Improvement, Care Management and Disease Management teams are integrated both from the trainings, operations, and systems components to support and mentor providers in care coordination.

The integrated care coordination process begins with provider contracting and credentialing. Provider contracts contain language that includes our expectations for on-going care coordination. The provider training manuals stress the importance of a holistic approach to care coordination. Our provider incentives reward providers that support this coordination through electronic transfer of information and care coordinators within their office. This care coordination is especially evident in the tiered Patient Centered Medical Home bonus incentives. Meridian recognizes that not all providers have the resources to seek PCMH recognition. Meridian also supports and rewards providers for care coordination achieved through existing systems (including paper), and ensures the provider documentation supports these outcomes. Meridian utilizes a pre-assessment tool to assist offices in developing and establishing care coordination efforts based on the NCQA PCMH standards for recognition. We also utilize a cultural assessment tool that assists office in identifying how change occurs within their office setting. These tools help offices identify both strengths and weakness and drivers of cultural change within the office. We have experience in successfully using these tools and supporting offices with both their PCMH recognition and care coordination efforts. We also have demonstrated the ability to support trainers to provide spread into other offices, counties and regions that desire to improve care coordination with and without PCMH recognition.

*Service Authorization Policies, benefit and non-MCO service coordination P/Ps*

The MCS system is set up to allow sharing of services authorized to both the primary care provider and/or the specialist that are involved. This system allows faxing of approvals and denials to both parties.

The MCS system also allows Care, Utilization and Disease Management to easily identify members with coordination of benefits. The Meridian training and education department provides training and job aides to assist staff in identifying coordination of benefit and assisting the member to ensure no gaps in care occur. These departments work with the Provider services staff to ensure care coordination and to identify potential new providers to contract. Training includes identifying who is the core treatment team for these members, ensuring contact information within the MCS system, and developing a plan that has input from all parties and is shared and updated by the Meridian team. The process has also resulted in care team calls with all involved parties participating to ensure care coordination on an ongoing basis.

*Quality Assurance Mechanisms*

Care coordination activities are reported by Care, Utilization and Disease Management to the Quality Improvement Committee on a quarterly basis. Reports include both unique numbers of members involved and outcomes per 1,000. Relevant HEDIS proxies are also tracked and reported among this population as further health outcomes. Individual care coordination activities are reviewed and discussed weekly and bi-weekly via case management meetings with medical management. Individual treatment plans are reviewed and discussed with peers to ensure they are on target with progress to goals. This ensures consistent application of the care coordination policies and procedures.

Meridian has a program to follow and coordinate care for children with special health care need. Meridian also works closely with its Pharmacy Benefit Manager, MeridianRx, to coordinate care for members with substance abuse disorders as well as a number of other special needs populations.

***Children and youth in foster home/group home/residential placements***

Each member who resides in one of the above settings has support from an interdisciplinary team that consists of, at a minimum, a social worker/care manager and a Registered Nurse. Other professionals, as appropriate, also participate as members of the interdisciplinary team. The interdisciplinary team conducts a comprehensive assessment of the member's needs, abilities, preferences and values with the consumer and his or her representative, if any. The assessment looks at areas such as: activities of daily living, physical health, nutrition, autonomy and self-determination, communication, and mental health and cognition. The goal is to ensure the child's access to and follow-up with care. Children and youth who are identified with clinically significant emotional or behavioral problems are referred for intensive case management services.

**Q65. Describe your organization's experience with managing the care of children in the child protection systems and/or juvenile justice system (e.g., foster care).**

Please see question 63 (page 94).

**Q66. Describe your approach to providing care management to children and youth involved in the child protection and/or juvenile justice systems as well as children in foster home/group home/residential placement.**

***Identify children in the child welfare and child protection system.***

Meridian provides care management to children and youth in special settings through identifying children in the child welfare and child protection system through use of an alert in MCS.

***Initiate services and conduct a comprehensive health assessment.***

Services are initiated by children in special settings through first completing a comprehensive assessment of the child's health care status.

***Develop and monitor a care management plan in consultation with the child's primary DHHS case manager based on the health assessment and including all disease management or behavioral health needs.***

Following an assessment, a care plan is developed in conjunction with the child's primary DHHS case manager based on the results of the health assessment. Plan-of-care meetings are then conducted with the child, the child's DHHS case manager, the child's Meridian case manager, and their family/guardianship team. These meetings are designed to determine the needs of the child as well as to discuss available resources. The care plan is then implemented and monitored on a consistent basis.

***Assure continuation of care when the child/family leaves the child welfare/child protection system.***

Following the carrying out of the plan of care, appropriate follow-up is completed by the Meridian case manager. All encounters with the member are inserted into MCS in order to provide a seamless care history. Meridian shares this history with the receiving setting when the child/family leaves the child welfare/child protection system in order to ensure a seamless transition. Meridian also ensures that the child and family/guardian(s) are aware of the multitude of community resources.

**Q67. Describe your approach to assuring the coordination with supporting community resources for children and families in child welfare and child protection system.**

Meridian has a family centric approach to assuring the coordination with supporting community resources for children and families in child welfare and child protection system. Meridian emphasizes that each family is a unique unit with different cultural influences and dynamics. Meridian's social workers provide members with direct access and education on a variety of resources through its initiative to provide an interface for families with their communities. Meridian social workers will contact community resources on behalf of the member as identified. These resources include food assistance programs such as the supplemental nutrition assistance program; the Women, Infant and Children program (WIC); meals on wheels; farmer's markets programs that encourage the consumption of fresh fruits and vegetables; and the child and adult care program which includes head start and afterschool care programs. Meridian supports these programs through direct referrals for members through phone outreach, mailings, the Meridian website, volunteering of staff time, and charitable donations.

## 3.12 Quality Management

Meridian's primary focus is improving member health status, maintaining a member's condition when not amenable to improvement, and preventing further deterioration of member health. We actively engage our providers to improve the quality of care, consistent with Quality Improvement Goals and contract requirements. We also engage members to provide feedback to improve our processes as well (RFP, 3.12, paragraph 1).

Meridian supports and will comply with New Hampshire's DHHS Strategic Plan. Meridian feels that our corporate mission statement, "to continuously improve the quality of care in a low resource environment aligns with New Hampshire's commitment to quality. Our experience in other states has demonstrated that our quality strategic plan will improve the quality of service rendered to New Hampshire Medicaid members, and also follow 42 CFR 431.300 et seq., 42 CFR 4383.200 et seq., and 45 CFR 164 (RFP, 3.12, paragraph 2). Meridian maintains and operates a Quality Assessment and Performance Improvement (QAPI) Program overseen by our Quality Improvement Committee (QIC), consistent with state contract requirements and also compliant with 42 CFR 438.240 (RFP, 3.12, paragraph 4). The QAPI Program will be submitted for DHHS approval, and contains an outline of how we will achieve all RFP requirements. The QAPI will be submitted to DHHS on an annual basis in any format that is indicated by DHHS or its designee. All in-network providers will be notified of our QAPI, as well as any other programs that tie into the QAPI. All provider contracts will contain a clause that secures coordination and cooperation with our DHHS approved QAPI (RFP, 3.12, paragraph 5).

All relevant clinical and non-clinical aspects of quality improvement are centered on the principles of Continuous Quality Improvement (CQI), Total Quality Management (TQM), and shall (RFP, 3.12, paragraph 6):

- Evaluate performance using objective quality indicators
- Promote data-driven decision making
- Recognize that opportunities for improvement are unlimited
- Solicit member and provider input on performance and QAPI activities
- Support continuous ongoing measurement of clinical and non-clinical processes based on findings from ongoing measurements
- Support re-measurement of effectiveness and member satisfaction, and continued development and implementation of improvement interventions as appropriate

Meridian's QAPI takes a data-driven approach to improving all clinical and non-clinical processes and outcomes. Overseen by a senior Medical Director, the QAPI Program structure is organization-wide, with clear lines of accountability. It includes: (RFP, 3.12, paragraph 7)

- A set of functions, roles, and responsibilities for the oversight of QAPI activities that are clearly defined and assigned to appropriate individuals, including physicians, other clinicians, and non-clinicians
- Annual objectives and/or goals for planned projects or activities including clinical and non-clinical programs or initiatives and measurement activities
- An evaluation of clinical and non-clinical initiative effectiveness

All clinical and non-clinical processes are evaluated by the QAPI, including those pertaining to behavioral health. Data and recommendations to improve behavioral health care are presented to our QIC to determine the best course of action to integrate behavioral health conditions into overall care (RFP, 3.12, paragraph 9).

Any function or requirement that Meridian delegates to another entity will maintain comprehensive files that document all work performed. The delegated entity will be as transparent as Meridian and disclose any relevant information to DHHS or its designee upon request (RFP, 3.12, paragraph 8).

Meridian uses clinical guidelines based on current medical literature from nationally- recognized sources. This information is reviewed concurrently by our in-house physicians and Physician Advisory Committee; clinical guidelines are updated periodically to ensure accuracy (RFP, 3.12.1, paragraph 1). These clinical guidelines form the basis for decisions in utilization management, member education, coverage of services, and other areas, and they are made available to providers, members, and potential members upon request (RFP, 3.12.1, paragraph 2 & 3). Clinical guidelines are also available on our website.

To ensure our operations remain consistent with DHHS requirements for quality outcomes, timeliness of, and access to covered services, Meridian will coordinate to conduct annual, external, and independent reviews with any External Quality Review Organization (EQRO) that DHHS deems necessary. All data will be provided to an EQRO as indicated. As a part of this collaboration, we will analyze our business processes and activities, and identify possible areas of improvement to better serve our members, providers, and the State of New Hampshire (RFP, 3.12.2, paragraph 1).

As we hope to create a partnership with the State of New Hampshire, we would like our processes to be as transparent as possible. Meridian has the capacity to provide a written summary of: completed and ongoing QIP activities, including all delegated functions; trending of measures to assess performance in quality of care and quality of service; an analysis of any demonstrated improvements in the quality of care or service; an evaluation of the overall effectiveness of the QIP, including an analysis of barriers to improvement; and recommendations for new quality improvement activities. Our Quality Improvement Committee will compile this document for DHHS' review (RFP, 3.12.3, paragraph 1). All requirements defined within our contract will be included within this document. Meridian currently communicates all activities of our QIP to our governing bodies, practitioners, members, and other appropriate staff, and ensures that this takes place on a periodic basis (RFP, 3.12.3, paragraph 2).

Meridian's commitment to quality is reflected in our accreditations and awards:

- "Excellent" NCQA accreditation status from 2006-2011 (original NCQA accreditation received in 2002). Included in the Top 20 Medicaid Health Plans in the United States, based on NCQA rankings, 2007 – 2010
- URAC Full Health Plan Accreditation with Health Utilization Management accreditation status obtained in March 2011
- Meridian has been ranked as a top Michigan Medicaid health plan for quality performance year after year
- Three-time winner of the CIO 100 Award from the editors of *CIO Magazine* for innovations in our use of technology to integrate data to improve member and provider outreach (2007, 2008 and 2010)
- Invited by NCQA to represent the Central Region presentation at "America's Best Health Plans"
- Appointed to the Governor's Health Information Technology Commission (Michigan) 2007 – present; appointed to the Health Information Exchange Advisory (Illinois) in 2011

- Pinnacle Awards for Innovations in Health Care Technology in 2009, 2010 and 2011 by the Michigan Association of Health Plans

**Q68. Describe your proposed Quality Management Program for your New Hampshire offering.**

The Meridian Quality Improvement Program (QIP) is designed to ensure our members receive high quality, medically appropriate and cost effective health care. We objectively and systematically monitor and evaluate the quality, appropriateness and outcome of care and services and the processes by which they are delivered, and we provide the framework to pursue opportunities for improvement and problem resolution. Annually, the QIP Description is approved by the Quality Improvement Committee and Board of Directors.

**Scope**

The purpose of the QIP is to provide the infrastructure for the continuous monitoring, evaluation and improvement in care, safety and service. Within the scope of its QIP, Meridian monitors and evaluates clinical outcomes, member service, and patient safety focusing on the following aspects of care:

| | |
|---|---|
| Access to Care and Services | Accessibility and Availability of Standards |
| Availability of Practitioners | Utilization Trends |
| Member Satisfaction | Continuity and Coordination of Care |
| Member Complaints/Grievances/Appeals | Disease Management |
| Member Safety | Case Management |
| Health Outcomes | Clinical Practice Guidelines |
| HEDIS® and CAHPS® Results | State Quality Improvement Activities |
| Provider Satisfaction | Accreditation Standards |

Meridian monitors performance against evidence-based goals and objectives that align with state and national benchmarks for quality care. The Quality Improvement Work Plan tracks all quality activities. The Work Plan is used to assess the progress and aid in the planning of quality interventions and activities. Updated continuously and monitored monthly, the Work Plan is presented quarterly to the QIC for approval.

Sustained quality improvement is a corporate objective and is included in goals for each individual department. As a result, quality improvement is built into each job description within the organization producing a company-wide sense of accountability. All department directors complete an annual analysis of quality improvement programs; each analysis is submitted to the Director of Quality Improvement for review and inclusion in the annual QIP Evaluation.

The QIP Evaluation includes all components of evaluation; specifically, identification of barriers to quality improvement, interventions recommended to sustain or improve outcomes, and a summary of the efficacy of the QIP.

**Methodology**

Meridian uses specific criteria to analyze and assess quality measures and the effectiveness of interventions in the areas of clinical care, member and practitioner satisfaction, and access. The QIP Evaluation follows these steps:

1. Establish goals and objectives for quality improvement activities and performance measures.

2. Collect data using data abstraction tools designed to obtain valid results and with appropriate samples, if sampling is used.
3. Analyze data using qualitative and quantitative methodologies.
4. Identify barriers to improvement.
5. Develop appropriate interventions to address barriers.
6. Present to the QIC and/or appropriate sub-committee for continued monitoring and evaluation.
7. Measure effectiveness of interventions.

**Program Goals and Objectives**

The goal of Meridian's QIP is to ensure members receive high quality, medically appropriate and cost effective health care. The objectives of the QIP are to:

- Ensure member access to care
- Provide accessibility and availability of quality medical and behavioral healthcare
- Develop programs to increase and improve preventive healthcare
- Monitor and expand Disease Management Programs for prevalent disease states
- Coordinate care for members with acute and chronic care needs
- Improve coordination and transition of care across healthcare settings
- Monitor adherence to evidence based and established Clinical Practice Guidelines
- Improve member and provider satisfaction
- Design member and provider health education materials that include a call to action
- Improve HEDIS® and CAHPS® performance
- Develop and maintain collaborative relationships with providers and State agencies.
- Develop programs for serving a culturally and linguistically diverse membership through analysis of significant healthcare disparities in clinical areas.
- Identifying specific healthcare disparities to reduce and implementing targeted activities to address barriers and improve health outcomes.

This program defines the methods incorporated by Meridian to identify, research and review problems, take appropriate actions to improve quality of care and services, and provide follow-up evaluation.

The Meridian Board of Directors provides oversight of the QIP and ensures adequate resources are available to meet the goals of the program.

**Q69. While DHHS will be choosing measures, describe how you would select measures to include in the QIP and offer recommendations of measures to include.**

Meridian understands both the national and New Hampshire Medicaid enrollment and expenditure trends that underlie this RFP. We selected key trends from the 2010 SFY New Hampshire Medicaid Annual Report to create a list of suggested measures; we also recommend measures not included in the RFP, but that the state may want to consider due to prevalence and expenditures.

- Females accounted for over half of the Medicaid enrollees, and 84% of these enrollments were due to pregnancy.
- The largest age population represented was ages 0-18.

- The largest category of New Hampshire Medicaid spending was in long-term care services, including services provided at home and in institutions. Behavioral health services and prescription drugs were the second and third next largest spend category.

Based on these trends, Meridian recommends measures that focus on Access/Availability of Care and Utilization for the prevalent populations as key components in measure selection. These performance monitoring measures are tracked and monitored through QIP activities and reported annually to the state through NCQA HEDIS submission. Meridian will track, monitor and evaluate performance and outcomes on these measures in the Annual Evaluation. Recommended measures include:

*Measures related to prenatal/postpartum care and maintaining inter-conception health*

- Frequency of ongoing prenatal care
- Timeliness of Prenatal Care
- Postpartum Care
- Chlamydia Screening

*Measures related to Children ages 0-18 years*

- Children and Adolescents' Access to primary care practitioners
- Well-Child Visits in the first 15 months of life
- Well-Child Visits ages 3-6 years
- Adolescent Well Care Visits
- Child Immunization status
- HPV vaccine for female adolescents
- Adolescent Immunization
- Follow-up for children prescribed ADHD medication

*Measures related to behavioral health services*

- Follow up after hospitalization for mental illness (7 and 30 days)
- Mental Health Utilization
- Antidepressant medication management

*Measures related to chronic conditions*

- Appropriate use of asthma medications
- Comprehensive diabetes care

*Measures related to utilization of services*

- Medication adherence
- Hospital readmissions
- ER utilization

**Q70. Describe how you recommend DHHS establish improvement goals.**

DHHS has already implemented key steps to improve the quality of care in New Hampshire by reporting a specific set of metrics and comparing results to national NCQA Medicaid averages via the New Hampshire Comprehensive Health Care Information System (NH CHIS). Establishing improvement goals with comparison to national benchmarks, coupled with public reporting, is an essential strategy for health care transparency and accountability.

Meridian recommends DHHS first identify baseline measurements for each improvement metric based on current New Hampshire performance. A comparison to national benchmarks will then determine where to set the improvement goal. Depending on the baseline measurement, Meridian recommends setting the improvement goal for each identified measure at the next percentile threshold (the 50th, 75th, or 90th percentile). In this manner, DHHS can continue to raise the bar for performance across the State of New Hampshire.

**Q71. Please provide your strategy for improving the following measures in the first year of the contract and over the longer term. Four of the below measures will be chosen by DHHS prior to contract finalization as part of the quality incentive payment program for year 1. It is the intent of the Department to require member Satisfaction to be one of the four.**

***Member Satisfaction (overall plan, call abandonment/timeliness) from CAHPS***

Meridian considers member satisfaction a core component of our relationship with members. Our goal is to be the premier service organization in healthcare, and to achieve this we conduct annual customer service training across the organization. We contract annually with an external vendor for the Child and Adult CAHPS surveys for comparison to national benchmarks. Using these key metrics, we monitor real-time member satisfaction throughout the year:

- Weekly reporting and monitoring of telephone answering service rates for all phone queues. The goal is 100%.
- Member complaints or grievances with monthly review by the Grievance Committee
- Member appeals trending
- Recording of all calls to provide training and feedback to staff and for immediate follow up with members if indicated
- Case management interactions and surveys conducted when cases are closed
- Disease management interactions and annual surveys related to the Disease Management programs
- Quality of Care reviews and adverse events monitoring
- Feedback from member focus groups to develop new programs or expand existing ones
- Outbound calls to members that disenroll from the plan to identify opportunities to improve our service
- Outbound calls to members who changed their PCP within the last 60 days to ensure satisfaction with the new PCP assignment
- Member input via Member Advisory Committee
- Member input via the Live Chat program
- Member website surveys

Member Service monitoring metrics are reported and reviewed at the QIC quarterly.

***Smoking Cessation among Pregnant Women***

Meridian complies with Section 4107 of the Patient Protection and Affordable Care Act (Affordable Care Act), P.L. 111-148, which amended Title XIX (Medicaid) of the Social Security Act (the Act) to provide for Medicaid coverage of comprehensive tobacco cessation services for pregnant women, including both counseling and pharmacotherapy, without cost sharing. The 2011 New Hampshire State Health Profile report indicates that maternal smoking accounts for 20-30% of low birth weight babies, up to 14% of preterm deliveries, and roughly 10 % of all infant deaths. The estimated cost for care for these babies born too early or too small

attributed to smoking in New Hampshire is $2.3 million. Although the proportion of smokers among pregnant women in New Hampshire has been stable at 15%, the proportion of smokers among women covered by Medicaid is higher at 39% and at 36% for teen mothers. A successful smoking cessation program would represent a significant health improvement and cost savings opportunity for New Hampshire.

Meridian has a comprehensive outreach and engagement program for pregnant members. We will implement our full pregnancy outreach program during the initial year and continuing through the contract. This program supports our ability to have consistently high performance with regard to the HEDIS prenatal, postpartum and frequency of pregnancy in all states.

Meridian identifies pregnant members through the enrollment file and through internal programs that scan authorizations and claims for antenatal care codes. Internal referrals (Member Services, Care Management, and Utilization Management) and external referrals (members and providers) also help identify pregnant women.

The initial outreach call includes a health risk assessment that determines:

- Medical history risk factors
- Psychosocial risk factors (this section include smoking history)
- Obstetrical/gynecological history risk factors
- Current pregnancy issues

There is an algorithm behind the scoring of the prenatal assessment tool that generates "To Do" actions items for the Women and Children's staff based on the risk score (1= low risk; 2=moderate risk; 3=high risk). All members identified as smokers during the initial call are given tobacco quit line information and the formulary benefit, and are encouraged to begin smoking cessation efforts that day. If the member agrees, there is a warm transfer to the tobacco quit line during this call to enroll in the program. Members are also encouraged to discuss other smoking cessation strategies with their OB providers. The pregnancy welcome packet includes information on pregnancy and smoking, and risks associated with second hand smoke.

This program includes:

- Assignment to a designated pregnancy coach after a brief medical screening, assessment for types of tobacco use, and caller characteristics
- A welcome packet is mailed to the participant
- Ability to receive text messages if member agrees
- Reminder text messages are sent prior to each phone call
- Nicotine Replacement Therapy (NRT),once physician consent is obtained
- Coaching through pregnancy, resuming two weeks postpartum
- Two weeks prior to the due date, the coach will call or text the member to determine if the member is still using tobacco. Members who continue to use may be eligible for additional NRT with physician consent.

Meridian tracks claims for all Quit Line and NRT therapy members. A follow-up survey assesses member satisfaction with the program and determines the success of the intervention. Our tobacco quit line reports a 63% smoking cessation rate with the pregnancy and postpartum program.

*Coordination of Care for Children with Chronic Conditions Composite from CAHPS*

Meridian provides coordination of care for children with chronic care conditions through a comprehensive program that ensures accurate identification, assessment and communication with family and providers.

Meridian follows the New Hampshire criteria based on the US DHSS Maternal and Child Health Bureau guidelines. These guidelines include children under the age of 21 who have or are at increased risk for chronic physical, developmental, behavioral, or emotional conditions which require health and related services beyond the type that children generally require.

Accurate identification of at-risk children is achieved by collecting data from these sources:

- Health Risk Assessments (HRA) conducted on all newly-enrolled members
- Utilization management referrals based on prior authorization requests
- Provider/Facility referrals
- Parent/guardian/member referrals
- Claims

The Meridian HRA contains an algorithm that triggers Case Management referrals based on affirmative responses to six key questions. The Case Manager is automatically alerted, investigates the information and establishes contact with the parent/guardian/member. The Child and Adolescent Health Measurement Initiative (CAHMI) screening tool for Children with Special Healthcare Needs (CSHCN) is completed during the Case Management intake call. Results of this screening tool form the basis for an individualized care plan, which identifies needed specialists, services, and resources. Both the member and the PCP are provided with written notification of the care plan, which includes:

- Patient perception/understanding of treatment plan
- Possible effect of socioeconomic status and other issues that impact patient's disease process, such as: are both parents in the home, how many other children are at home, etc.
- General health questions that pertain to the specific disease process (e.g., the patient with wounds; questions about diabetes, or respiratory disease.)
- Complete HEDIS preventive care requirements
- Development of a treatment plan individualized to the member's needs
- Ongoing scheduled appointment dates and times

The care plan provides the member and family/guardian with information about the chronic care condition and related self-management needs. Case managers coordinate treatment and services related to medications, physical therapy, occupational and/or speech therapy, early intervention services, WIC services, durable medical equipment and wound supplies. The plan of care is a dynamic document that includes input by the family/member, providers and specialists to ensure needs are addressed and met on an on-going basis.

Children with Special Health Care Needs have direct access to in-network specialists and facilities, providing continuity of care. Meridian Case Managers will also coordinate with the New Hampshire Title V program Special Medical Services (SMS) to provide resources for eligible members, including Neuromotor Clinic Services, Nutrition/Feeding/Swallowing Services, Psychology Services and Family Support Systems. The SMS educational publications will be shared and distributed with Meridian members, along with Meridian member educational materials and programs previously described. Meridian will support the Council for Children &

Adolescents with Chronic Health Conditions and NH Family Voices. Meridian will encourage members/families to actively participate with these support and advocacy groups.

***Shared Decision Making Composite from CAHPS***

Meridian views shared decision making as a core tenet of patient-centered medical care. Our goal is to support our members in shared decision making techniques that promote self-management skills. This program will begin at the implementation of Step One and will remain throughout the contract, with additions and modifications as indicated by the membership needs.

Member education in shared decision making techniques begins with the member welcome call, which includes:

- Confirmation of receipt of member handbook and ID card
- Health Risk Assessments
- PCP selection
- Referral for smoking cessation if appropriate
- Referral to Women and Children's department if pregnant

The welcome packet is mailed directly to member homes and encourages members to establish a medical home with their PCP within 30 days of enrollment. The welcome packet includes a tip sheet on how to prepare for a PCP visit, and information about Meridian's standards for access and office wait times. Members who complete their initial PCP visit within 30 days are eligible for a gift card raffle.

Meridian members also have free access to the secure Member Portal. The HIPAA-compliant Portal allows members to view needed preventive care services, search for providers and request a PCP change, among other features. Members can access this information at any time. The Member Portal promotes shared decision making by providing members with direct access to their health information, without barriers of time or cost. Shared decision making techniques are incorporated in both the Case Management program (care planning and goal setting) and the Disease Management program (goal setting). Member progress toward goals is tracked, and the member continues to receive status update letters until the case is closed.

Meridian involves providers in shared decision making by including it as part of routine provider education, and also through our Patient Centered Medical Home initiatives. Twice a year, providers are offered a member engagement and satisfaction piece. Related to CAHPS, the piece offers information about the CAHPS survey, and offers providers strategies to improve communications and interpersonal skills.

Shared decision making is also addressed during relevant member grievances. Members who express dissatisfaction with their participation in treatment plans receive complaint acknowledgement and resolution. Member complaints related to attitude and service are addressed both with the office manager and the provider(s) to ensure appropriate resolution.

***Adolescent Well Care Visits***

As a key preventive strategy, Meridian ensures access to care and completion of adolescent well-care visits. Adolescent members ages 12-21 are at a critical point for providers to reinforce positive health habits and provide anticipatory guidance.

Meridian has developed a full member engagement program, which includes preventive service reminders (phone calls, flyers and bifold postcards), member incentives and raffles to support

healthy behaviors, and information about using the Member Portal to support member engagement and shared decision making. The full member engagement program will be utilized during Step One and continue throughout the contract. In addition, Meridian supports and encourages members to utilize school-based programs that provide adolescent well-care. In Michigan, Meridian partners with a major health system to offer a mobile pediatric van that participates with six Wayne county schools. We would seek out and support a similar initiative in New Hampshire if available. We have also provided free telephones to Medicaid members (including adolescents) to provide texting reminders and access to scheduling visits. Meridian will support a similar plan in New Hampshire based on the membership needs. Please refer to page 82 for our HEDIS performance on these measures.

***Follow up after Hospitalization for mental illness (7 days and 30 days)***

Meridian manages the full behavioral health component for the Medicaid population. Care coordination and transitions to care are essential for members who have had an inpatient psychiatric admission. A member with an inpatient psychiatric admission is placed in our intensive Behavioral Health Case Management program staffed by clinical social workers.

Care coordination begins on the initial notification from the inpatient behavioral provider. A discharge plan is established at the initial contact; prompt notification of discharge is a key factor to ensure stabilization in the new treatment setting. The Meridian behavioral health team will establish a relationship with New Hampshire Hospital, the only freestanding psychiatric facility in the state that provides hospital-based psychiatric care for children, teens 14 and older, and adults. We share New Hampshire's goal of reintegration into the community.

Meridian Case Managers coordinate services and establish contact with the member to ensure medication adherence, identify family supports and resources, and assist with scheduling appointments within 7 and 30 days. They work with SASS providers, Assertive Community Treatment (ACT) teams, and community mental health services. In Illinois, Meridian HEDIS rates for 2010 were 62.5% for 7 day follow up and 100% for 30 day follow up. This correlates with NCQA 50th percentile and 90th percentile performance, respectively.

***Cholesterol Management for Patients with Cardiovascular Conditions***

Heart disease is the leading cause of death in the US (25% of all deaths), and the second leading cause of death in New Hampshire (24%) per the 2011 New Hampshire State Health Profile. Major risk factors for cardiovascular disease are diabetes, hypertension, and elevated cholesterol. Meridian's Disease and Care Management programs aggressively work with members in the cardiovascular program to mitigate or eliminate these risk factors. Member engagement activities include:

- Early identification of members for the Disease and Case Management programs related to cholesterol management
- Telephonic engagement of member by clinical staff to manage to goal (LDL <100)
- Engagement with providers to manage to goal via portal alerts, monthly HEDIS list distribution, HEDIS alerts, and educational reminders
- Monitoring adherence to clinical practice guidelines for Cholesterol Management for reporting to the QIC
- Pharmacy alerts for members with gaps in medication fills or refills. Pharmacy works with the provider to ensure appropriate prescribing

- Home LDL testing kits mailed to the home for members that will not follow up with the lab
- Outbound regular phone call reminders (Touchstar system) to members to obtain preventive blood testing. This includes both members needing the initial screen or still indicating a value exceeding the control goal
- Postcard reminders to obtain needed blood tests
- Working with home lab professionals for home draws for members whose physical or behavioral health issues create barriers to obtaining needed preventive testing
- Member and Provider incentives for obtaining the test and achieving control

These engagement activities will begin in Step One of the contract and continue with enhancements.

***Reduction in child & adult BMI***

Meridian has an established program for identification, assessment, and engagement of adults and children who would benefit from BMI reduction. The process begins with collecting BMIs through HRAs, claims, prior authorizations, and review of medical records for HEDIS, EPSDT visits and well-care exams. Run by Meridian's Disease Management department, the program includes a registered dietitian and three nutritional outreach specialists. The Disease Management and Nutrition staff contact members to ensure readiness to change and interest in the weight management program. Goal setting and active participation are core components required to continue in the program. Members are encouraged to contact their PCP, confirm that they are able to participate in the program, and have the full support of their PCP. Meridian will support and utilize existing New Hampshire programs, including the Healthy Eating, Active Living Initiative (HEAL), the Bike-Walk Alliance of New Hampshire (BWA-NH), and other school and community based programs.

Meridian's Weight Management program is tracked in MCS, recording targeted contacts with members tracking participation in multiple weight management programs. MCS also tracks compliance with attendance, nutrition, exercise and weight loss goals. Meridian currently contracts with Weight Watchers International, and would offer this program to our eligible New Hampshire adult members at no cost to them. We also support community and health system programs that support weight management by encouraging healthy nutrition and exercise behaviors. Our webpages, Member Portal and educational materials provide links and alerts to community-based events and programs such as 5-10K Walks/Run, Farmers' Markets, and educational forums. Member incentives for reaching weight management goals include pedometers, bikes, and Wii Fitness bundles. Meridian is the only Medicaid health plan that serves on the Healthy Kids, Healthy Michigan action team, and is driving both policy and action steps to improve childhood obesity in Michigan. Meridian will use our expertise from this committee to identify and support weight management resources for New Hampshire.

## 3.13 Early Periodic Screening, Diagnosis and Treatment

Meridian provides Early Periodic Screening, Diagnosis, and Treatment (EPSDT) services to Medicaid children less than twenty-one years of age (RFP, 3.13, paragraph 1). Our current program to provide these services is compliant with sections 1902(a)(43), 1905(a)(4)(B) and 1905(r) of the Social Security Act and federal regulations at 42 CFR 441.50 (RFP, 3.13, paragraph 2).

Meridian has written policies and procedures to conduct member outreach, track services rendered, provide diagnostic and treatment services, provide annual dental examinations and visits, and follow up to ensure our members are receiving necessary services as specified by periodicity schedules. This plan will be submitted to DHHS for review and approval prior to implementation. We utilize a telephonic outbound dialer, TouchStar, to encourage members to obtain EPSDT services; as well as written materials such as reminder postcards, newsletters, the Member Handbook, and educational materials on our website to effectively communicate the need for these services to our members. As New Hampshire's population includes unique characteristics such as multi-lingual and multi-cultural people, we will provide materials to best meet their needs. Our plan emphasizes coordinating visits for these members, including providing transportation to and from their appointments, to avoid our members missing appointments. We have the ability to target members who have missed appointments providing additional follow up to ensure these services are received (RFP, 3.13, paragraph 3).

Provider outreach materials educate providers to ensure that a complete EPSDT visit (including documenting a comprehensive history, unclothed physical examination, appropriate immunizations, lead screening and testing per CMS requirements, and health education /anticipatory guidance) occurs as set forth by the periodicity schedule that is approved by CMS. Meridian will utilizes MCS to track the necessary components of this visit to ensure compliance with DHHS requirements. If necessary, our provider reps will provide additional in person education to providers that are not providing full EPSDT services to our members (RFP, 3.13, paragraph 4).

**Q72. Describe your plan to meet the EPSDT requirements of this RFP.**

Meridian's strategy towards EPSDT is reflected in our strong commitment to facilitating preventive care and blending together state-of-the art information technology with extensive staff support. We use a variety of methods to facilitate and monitor access to scheduled EPSDT services, including:

- Outreach and education to members
- Member incentives
- Outreach and education to providers
- Provider incentives
- Sophisticated data tracking to support targeted interactions with members and PCPs

Meridian is well-versed in the required screenings and the periodicity schedule creating our ability to effectively plan to meet the requirements for New Hampshire's eligible Medicaid population. These services are automated in MCS so that we can readily track each member's status and compliance.

**Outreach and education to members:** Meridian utilizes a telephonic outbound dialer system, TouchStar, to encourage members to obtain EPSDT services. Meridian has successfully

developed and implemented outreach campaigns for well-child visits, immunizations, lead testing and other preventive health services. Reminders are also provided during welcome calls made to members within the first 3 days of joining the plan. Member Services and Quality Management staff will make these outbound calls on a daily basis with evening and weekend calls made periodically throughout the year.

After successful outreach calls are made, Meridian follows up with a reminder postcard encouraging members to call their providers for an EPSDT appointment. Member mailings are also distributed to educate members on services and screenings needed. If Meridian is unable to reach a member by phone, we initiate a member mailing campaign asking the member to call the plan and provide updated phone numbers. This mailing will also notify the member of possible incentives if the outreach was about needed preventive healthcare. If members experience any difficulty scheduling visits or getting to visits, outreach staff provides assistance by coordinating with the member's PCP to schedule appointments and provide transportation information. Along with outbound telephone calls, EPSDT reminders are provided in the Member Handbook, member newsletters and on our website. Meridian also implements targeted educational campaigns throughout the year for special initiatives.

**Member Incentives:** A full member profile, within Meridian's proprietary MCS system, tracks all incoming and outgoing calls along with member incentives for outreach campaigns. MCS contains a series of screens available to review when any Meridian staff are talking with a member and members who are in need of EPSDT services. These members are flagged in MCS that alerts staff to remind the member and to follow up with them. All staff are instructed to turn every member contact into a preventive educational opportunity.

Meridian also uses an array of gift card awards to promote EPSDT compliance. Our incentive programs include:

- $10 grocery store gift cards offered for preventive services through a tri-fold postcard program.
- Targeted incentives are offered for a chance at a raffle for a $100 gift card. This is in addition to the $10 gift card for each member.
- A total $60 gift card incentive for Well-Child Visits 0-15 months of age. The final $50 gift card is sent following the receipt of a claim for the 6th Well-Child Visit. (First visit receives a $10 gift card).

**Outreach and Provider Education:** To ensure EPSDT services are provided to members during office visits, Meridian educates providers and monitors provider compliance with EPSDT guidelines. Our provider representatives visit all PCP offices every month to touch base. During these visits we share data for members who are overdue for specific EPSDT screenings. Meridian has successfully adopted preventive services guidelines, including Routine Preventive Services for Infants and Children. Providers are educated about our Clinical and Preventive Service Guidelines during Provider Orientation sessions; they are notified in the Provider Handbook and reminded annually that the guidelines are available on the Meridian website and in print. Meridian highlights information regarding EPSDT services in quarterly Provider Newsletters and also publishes and distributes educational flyers regarding well-child visits, immunizations, lead and other EPSDT screenings.

**Provider Incentives:** Meridian offers bonus payments to providers, over and above our standard fee schedule to perform EPSDT services both during well-child visits and during sick visits, as

appropriate. These performance bonus payments are available for a number of EPSDT services, including well-child visits, immunizations, and lead screening. Meridian also pays a bonus for developmental screenings performed. The Plan monitors the rate of developmental screenings performed by age category as part of a quality initiative to improve EPSDT developmental screenings. The bonuses are intended to encourage providers to avoid missed opportunities for screenings and shots during any pediatric visit. Meridian also provides a number of tools to help offices identify children due for EPSDT services, including monthly overdue reports (which as noted earlier are hand-deliver each month to each PCP's office). MCS access for an online view of which members and specific services are due is also included.

**Sophisticated data tracking to support targeted interactions with members and providers:** Meridian has developed a contact coding system within MCS to accurately track the types of preventive education contacts made for EPSDT. The codes can be broken down by the specific campaign topic or by member demographic (such as age) to provide specific counts for EPSDT services. The number of outreach attempts and successful contacts are monitored by the Quality Management department on a weekly basis; summary reports are presented to the Quality Improvement Committee on a quarterly basis. Our telephonic campaign of Touchstar is continually updated with members' current EPSDT screenings and overdue services. There are several methods to track member response to EPSDT outreach. After a member is reached via phone, Meridian mails a postcard reminder offering an incentive to get the services completed. The member returns the tear-off portion of the card with the date of service for the appointment. The incentive is mailed to the member as soon as a claim comes in to confirm that they received the services. Meridian tracks all of these responses in a database to determine what percent of our members respond to these postcards.

In addition, Meridian has developed a process to track the number of EPSDT services that are received after an outreach phone call. Meridian looks for a preventive health service claim with a date of service after the outbound call was made. This data is reported to the management team on a periodic basis. Meridian also uses MCS to produce reports of all educational mailings sent to members. These counts are monitored on a monthly basis and reported to the management team.

(The remainder of this page intentionally left blank)

## 3.14 Utilization Management

The Meridian Utilization Management (UM) program is designed to monitor, evaluate and ensure the delivery of high quality, cost-effective health care services to our members at the right time, in the right setting. UM decisions are based on evidence-based clinical decision support criteria, consideration of member needs and the local delivery system. Meridian believes that clinical criteria help UM staff determine whether services and settings are appropriate, and meet or exceed established standards of care. Clinical criteria are not intended to serve as a substitute for clinical judgment. All utilization management policies, procedures, and criteria will be submitted for approval by DHHS prior to implementation (RFP, 3.14, paragraph 1).

The UM program is closely linked with quality initiatives to ensure that our members receive appropriate utilization, continuity of care and care management. The program encourages members to make responsible health decisions; member under- or over-utilizing services are identified and referred to Case Management. We also identify care processes that do not meet member needs and implements QI initiatives to improve those processes. For providers, the UM program identifies aberrant practice patterns and offers education, outreach and corrective actions to those providers. Finally, UM program staff participates in the coordination of safe care transitions. We understand that in some cases authorizations will be in place as a member transitions from FFS to Meridian. In those instances we will honor that authorization for a 90 day grace period as we evaluate that authorization and incorporate it into our Utilization Management Program (RFP, 3.14, paragraph 2).

**Q73. Describe your approach to utilization management, including:**

***Lines of accountability for utilization policies and procedures and for individual medical necessity determinations;***

Meridian strives to facilitate the delivery of appropriate care. The main goal is to identify and avoid unnecessary medical services before services are rendered and identify alternatives, thus fostering appropriate medical practice patterns, improved quality of care and cost containment.

Meridian identifies the major areas where utilization management is needed and develops performance goals as appropriate. The Utilization Management (UM) department maintains processes to ensure (a) equitable access to care across the network; (b) the most appropriate use of medical services in accordance with benefit coverage; and (c) the member is provided the many options available in the health care delivery system.

Meridian employs current, objective, clinical and evidence-based medicine sources as a basis for their written UM criteria/guidelines. Meridian utilizes nationally accepted UM guidelines (i.e. McKesson InterQual) as well as internally developed guidelines.

Meridian medical criteria/guidelines are:

- Developed with input from Meridian in-network practicing physicians
- Developed in accordance with the standards adopted by national accreditation organizations and regulatory agencies
- Reviewed on an annual basis and updated as new treatments, applications and technologies are adopted as generally accepted professional medical practice
- Applied in a manner that considers the individual health care needs of the member

***Data sources and processes used to determine which services require prior authorization and how often these requirements will be reevaluated;***

Prior authorization (PA) is a key component in coordination and quality of care. By providing an opportunity to review member responses to treatment and promote appropriate levels of care and treatment setting, PA results in improved member health outcomes. Meridian is committed to authorizing care at the least restrictive and most medically appropriate levels. This commitment results in high quality of care and improved member autonomy, provider satisfaction, and effectively controlling costs. The PA process ensures that members receive services consistent with their plans of care, covered services, medically necessary, appropriate, timely and cost-efficient. In addition, PA supports patient safety and cost control by minimizing or eliminating the occurrence of medication errors, duplication of services, and inappropriate service delivery.

PA also provides the opportunity for provider education, by promoting the use of evidence-based guidelines in developing care and treatment plans that meet Meridian standards for quality and access.

Meridian identifies services and procedures requiring PA through an annual and ongoing analysis of utilization data. These are generally high-volume, high-cost services where review of medical necessity and/or benefits would be helpful. These services and procedures include non-emergent inpatient admissions; certain outpatient procedures; speech, occupational, and physical therapies; durable medical equipment; and specialty medications listed on the Meridian PA Grid. Meridian also utilizes the PA process to identify members who might benefit from Case Management or Disease Management services.

UM staff assist PCPs in finding and accessing network specialists and utilize appropriate out-of-network specialists if an in-network specialist is not available. Meridian does not require PCPs to obtain an authorization for specialist care. PCPs are requested to provide notification to Meridian to coordinate services among all providers involved and facilitate referrals to Case Management and Disease Management programs.

MCS actively promotes access to member information for all parties involved in care management. With a robust notification component, MCS automatically routes updated information from UM staff and providers to Case Management, Disease Management, Member Services and other relevant departments.

MCS provides a centralized database for all health plan function information. Business rules are built into MCS that provides users (health care providers and Meridian staff) with concise direction on whether a service requires prior authorization along with the information needed to render a decision. The functionality of the system results in improved operational efficiencies and real-time access to a comprehensive source of member data. This information is also available online to Meridian network providers through the secure Provider Portal, bridging the communication gap that often exists between providers and health plans.

Use of MCS is crucial to the success of many UM activities, most notably through the Authorization and Case Management modules.

**Authorization Module**

MCS functionality provides Meridian with a nearly paperless authorization process. Upon receipt of an authorization request, the referral is entered directly into MCS. Associated clinical

information is attached to the authorization record and the referral is forwarded to the appropriate UM staff for processing. All clinical review and final determinations are documented on the authorization record in MCS. Authorization determination notifications are generated and faxed electronically using MCS. This nearly paperless authorization process reduces time spent on faxes and phone calls between provider offices and Meridian. As a result, members avoid unnecessary delays in receiving needed care.

***Process and resources to develop utilization review criteria, as well as specifically address how you use clinical evidence and comparative effectiveness research in the management of utilization and your approach when such evidence or research is insufficient or absent in the medical literature;***

Meridian develops medical review criteria when utilization practice identifies opportunities that promote the development of new criteria or revision/addition to existing criteria. Meridian employs current, objective, clinical, and evidence-based medicine sources as a basis for development of internal medical review criteria.

Meridian's Medical Policy Committee meets to compose criteria and make revisions/additions to existing criteria. This committee meets biweekly to review opportunities for new medical policies and to identify the need for updating existing medical policies. Meridian's Health Policy Research Assistant compiles updated literature searches on references utilized in current medical policies as well as new medical review policies being considered. Physician specialty societies are referenced when publically available. The Medical Policy Committee, composed of Meridian's UM and Quality Management (QM) medical Directors, UM Director and Associate Medical Directors review and discuss the references.

Once developed, policies are presented to the Physician Advisory Committee (PAC) for review and approval. Upon approval by the PAC, the Medical Review policies are then presented to the Utilization Management Committee (UMC) and Quality Improvement Committee (QIC) for approval. If internal medical review criteria are not present for a requested service, we reference nationally recognized specialty specific guidelines, Medicare, national and local coverage determinations and InterQual Guidelines.

The UM Medical Director and Manager of Clinical Services meet with the UM clinical staff that render medically necessary clinical decisions to discuss the updated and/or new medical policies. The discussion includes the application of the medical necessity criteria and documentation requirements.

In instances when a request is received for a service where Meridian does not have a specific clinical medical policy to outline specific coverage, or the evidence is not present or research is insufficient or absent in the medical literature, Meridian would process the request in accordance with its Medical Necessity policy and procedure. Medically necessary services are defined as those services required for the prevention, diagnosis, cure, or treatment of a health related condition including those necessary to prevent a detrimental change in a member's medical or mental health status. Medically necessary services must be provided in the most cost effective and appropriate setting, and shall not be provided solely for the convenience of the member or service provider.

Experimental and/or investigational services are those that have not been recognized as proven effective in clinical medicine. Meridian has a formal mechanism to evaluate and review published scientific evidence detailing the clinical use, safety, efficacy and unexpected health

outcomes of new technology and new application of existing technology. In certain instances Meridian would forward the clinical documentation and request to an external, certified, independent review organization for review by an appropriate physician.

***Prior authorization processes for members requiring services from nonparticipating providers;***

It is the policy of Meridian to provide members with medically necessary services delivered by contracted providers. Meridian evaluates the medical necessity of requests for services from nonparticipating providers and the availability of the services within the participating provider network. Requests for non-emergent services from non-participating providers are considered if it is determined the services are (a) not available within the network;(b) the member is temporarily outside of the service area and the service cannot be delayed;(c) the member is engaged in ongoing treatment for an acute medical condition or active treatment for a chronic condition at the time the member's physician terminates their contract with Meridian;(d) Follow up care from ER services with a specialist who treated them in the ER; or (e) continuity of care for specific conditions.

***Prior authorization processes for members who require expedited prior authorization review and determination due to conditions that threaten the member's life or health; and***

In instances when Meridian is notified prior to an admission for post-stabilization purposes or at direction of a physician, a decision will be rendered in one hour of the request providing all necessary information is received. In instances when a request for admission/services is received while the member is receiving inpatient services, Meridian will provide a temporary decision within one hour. If additional clinical information is necessary, a decision will be made within 24 hours of the request being received.

Meridian has a defined process for emergency department utilization review. Meridian bases medical necessity review determinations solely on the medical information obtained at the time of the review documentation. A registered nurse, licensed in the proper state, performs the first level of review for medical necessity. If the first level reviewer approves the request based on documentation of medical necessity, the provider is notified of the approved number of days and is documented within the Authorization Module in MCS. When a first level reviewer is unable to approve the request, the request is referred to a physician reviewer. The physician reviewer may discuss the case with the referring or attending physician as part of the decision making process. In some cases, the clinical judgment needed is sufficiently specialized that the physician reviewer will choose to consult a board certified outside expert, usually through a contracted Independent Review Organization (IRO). All review decisions are rendered and communicated to providers in accordance with the timeframes and processes outline in Meridian's Timeliness of Review policy and procedure.

If the decision is to deny the service or to reduce the service, Meridian will issue a denial letter to the provider informing him/her of the reason for denial and the right to appeal. The member is never held responsible for payment. All corporate authorization decisions are documented in MCS. Meridian does not reverse a certification decision unless it receives new information that is relevant to the certification and was not available at the time of the original certification.

***Processes to ensure consistent application of criteria by individual clinical reviewers.***

All Meridian employees, including UM staff, receive initial training about Meridian, the Medicaid program, community resources, department functions/requirements, confidentiality,

and professional standards. UM staff are trained rigorously on UM requirements, guidelines and policies and procedures. Training is provided on a regular basis, as policies and procedures change and guidelines are updated.

Meridian uses Inter-Rater Reliability (IRR) Assessments to determine the objectivity and consistency of clinical UM staff when applying UM guidelines to authorization decisions. IRR assessments are administered on a regular basis, no less than monthly, to ensure uniform application of Meridian medical review criteria and InterQual. The clinical staff is expected to score at least 90 percent. Any staff member scoring less receives additional education and retesting. When group results indicate inconsistencies or inaccuracies in specific case types or key topics, UM leadership implements appropriate interventions, such as one-to-one education and or company-wide/departmental in-service training. Meridian's IRR Assessment scores and any additional education provided are reported bi-annually to the UMC and QIC.

**Q74. Describe how you identify provider utilization patterns to improve care and reduce costs.**

Meridian completes physician profiling on a weekly basis. The Finance department provides this report, which renders detail of utilization patterns by all Meridian providers. Analysis of the report is completed on a monthly basis by the Chief Medical Officer. This analysis includes investigation of outliers for under and over-utilization; specialty specific comparison; and pharmacy utilization patterns in a specialty specific manner by cost and type of medicine prescribed. There is also a drill down on utilization of inpatient hospitalizations; outpatient, emergency room, urgent care, and pharmacy services; type and number of referrals; and top DRGs.

Meridian also examines PCP and ER access issues when a member is over-utilizing ER services and not seeing their PCP enough. Once the issue is confirmed, Meridian initiates outreach and education to the member and the provider if the issue relates to access and availability. Provider profiling also allows for identification of high cost individuals for care coordination by Meridian.

Upon identification of over or under-utilization, Meridian follows up with providers to develop and implement strategies for more appropriate utilization patterns. This ensures that members are receiving the highest quality of care. The Medical Director visits the provider office and discusses the reasons for abnormal utilization patterns occurring and then defines whether a Corrective Action Plan is needed. If a Corrective Action Plan is implemented, the Credentialing and Quality departments are notified. Cases are presented to the Physician Advisory Committee (PAC) as necessary.

**Q75. Describe how under-utilization, over-utilization, and inappropriate utilization of services are detected and monitored, as well as processes to address opportunities for improvement.**

Meridian has processes in place to ensure appropriate service and coverage to members as well as to address opportunities for improvement. Meridian continuously monitors data to detect potential under- and over-utilization and takes steps to correct the variance. Meridian receives data from a variety of sources including MCS, HEDIS data, member complaints and grievances, external quality review data, pharmacy data, and financial utilization data. This data is reported and analyzed on a consistent basis. Reports are provided by the Finance department and contracted hospitals on a weekly basis, which are analyzed and reported to the Utilization Management Committee (UMC) and Quality Improvement Committee (QIC). Other reports that are evaluated at the PAC and QIC include the following:

- Inpatient Acute Care Days
- Inpatient Acute Care Discharges
- Outpatient Visits
- Emergency Room Visits/Rates/Readmissions
- Inpatient Readmissions – unplanned and <15 days from prior admission
- Selected Surgical Procedures
- Meridian HEDIS Data

Analysis of utilization data includes the identification of patterns that may indicate inappropriate utilization (either under- or over-utilization) and/or fraud and abuse among population groups, individual practitioners, practitioner groups, and facilities. The UMC/QIC compares Meridian data with that of other State Medicaid health plans and with national and regional data. Comparisons are used to establish acceptable ranges of utilization performance. If plan wide monitoring results fall outside the established thresholds a focused review will be conducted. This may include practitioner or facility specific information separated by risk, delegate, specialty type, or other significant categories as identified. If areas of deficiency are identified, the UMC/QIC will conduct an analysis of identifiable barriers or specific circumstances to make recommendations for correction of the variance.

Meridian has a number of processes for the identification and addressing of areas of needed improvement. These include office visits by Medical Directors, reviewing in office data, and providing corrective action plans which are subsequently reported to the PAC. Meridian is careful to design corrective action plans to be of sufficient strength and specificity, knowing that there is a likelihood that action will contribute to a measurable improvement when performance is re-measured. Each evaluation of effectiveness must be in measurable terms in order to make comparisons to previous findings.

**Q76. Describe the type of personnel responsible for each level of utilization management, including prior authorization and decision-making. Provide a narrative description of your prior authorization processes.**

Meridian utilizes qualified licensed health professionals to assess clinical information and render UM decisions. Appropriate licensed professionals supervise all medical necessity decisions.

The Chief Medical Officer is the senior physician, who is Board Certified and has a current license without restriction, who reports directly to the CEO/President. Responsibilities for this executive position include the development, implementation, and supervision of the Utilization Management (UM) Program, setting policies, reviewing cases, and participating in the UMC meetings. The program's effectiveness is enhanced under the governance of the Chief Medical Officer.

The Utilization Management Medical Director, who is Board Certified and has a current license without restriction, reports directly to the Chief Medical Officer. This designated senior position is responsible for the operational execution of the UM program under the direction of the Chief Medical Officer. The UM Medical Director also ensures consistent medical necessity decision making and reviews requests that cannot be approved by the nursing or pharmacy staff. The Medical Director may render denial decisions.

Meridian's Utilization Management Program is overseen by the Director of Utilization Management, a registered nurse, who has the administrative responsibility for execution of the

Utilization Program under the direction of the UM Medical Director. The Director of Utilization Management is responsible for strategic planning, evaluation, and continuous improvement of the UM Program including the allocation of resources and interdepartmental coordination of activities. The Director also oversees the coordination of activities needed for the Utilization Management Committee (UMC).

The Deputy Director of Utilization Management, a registered nurse, has responsibility for implementation of the Utilization Program and supervision of day-to-day operations, including medical necessity decisions and program evaluation. This position oversees all utilization and case management activities, and develops policies and procedures needed for implementation of activities.

The Nurse Managers have current licenses without restriction. They report to the Director of Utilization Management. The Managers supervise staff and serve as a resource for all UM staff while maintaining administrative responsibility for all inpatient admission requests. The Manager of Clinical Services is responsible for monitoring the timeliness of decision making, conducting IRR, ensuring the appropriate handling of denials and appeals, and implementing policies and procedures.

The Manager of Case Management is responsible for monitoring the timeliness of decision making, conducting IRR, and implementing policies and procedures for Case Management.

Utilization Management Inpatient Review Nurses have current nursing licenses without restriction. The UM Inpatient Review Nurses perform initial clinical review for pre-service urgent and concurrent inpatient admission review, discharge planning activities, identify cases for case management, and ensure the delivery of high quality, cost-effective medical care to members. Inpatient Nurse Reviewers may authorize services, but not deny them.

- Inpatient Review Nurses receive urgent emergent inpatient admission authorization requests and supporting clinical information from Meridian's automated care system, telephonically or through internal referral from Utilization Management Specialists. Supporting clinical data is reviewed against InterQual guidelines and Meridian internal medical review criteria.
- The Inpatient Review Nurses consult with the Medical Director for all requests requiring physician approval or for requests not meeting the guidelines and criteria for approval.
- Inpatient Review Nurses have access to licensed health professionals in the same licensure category as the ordering provider or a health professional with the same clinical education as the ordering provider in clinical specialties where licensure is not issued through consultation with any Meridian Medical Director.

The Transitional Case Managers are licensed practical nurses and/or registered nurses with current licenses without restriction. This position is responsible for the safe and effective transition of care for members from an acute care setting to another as the member's health status changes. Responsibilities include but are not limited to ensuring that authorization requests for skilled nursing facility placement and inpatient acute rehabilitation placements are processed.

The Utilization Management Pre-Service Review Nurse team is comprised of licensed practical nurses and registered nurses with current licenses without restriction. The pre-service review nurses perform initial clinical review of prospective requests for certain outpatient procedures; inpatient admissions; durable medical equipment; out of state requests; physical, speech, and

occupational therapy at the request of providers; and members to determine coverage determinations. Pre-Service Review Nurses may authorize services but not deny.

- Pre-Service Review Nurses receive elective inpatient and outpatient authorization requests and supporting clinical information from Meridian's automated care system, telephonically or through internal referral from Utilization Management Specialists. Supporting clinical data is reviewed against InterQual guidelines and Meridian internal medical review criteria.
- The Pre-Service Review Nurses consult with the Medical Director for all requests requiring physician approval or for requests not meeting the guidelines and criteria for approval.
- Pre-Service Review Nurses have access to licensed health professionals in the same licensure category as the ordering provider or a health professional with the same clinical education as the ordering provider in clinical specialties where licensure is not issued through consultation with any Medical Director.

Case Managers are registered nurses and clinical behavioral health professionals with current licenses without restriction. Case Managers work collaboratively with the Utilization Management and Disease Management departments as well as the primary care physician to coordinate the care and services provided to medical complex and/or high cost members. The Case Management program is integrated with Disease Management programs, providing member specific assessment and interventions based upon evidence-based clinical guidelines.

Behavioral Health Intake Specialists are Clinical behavioral health staff with current licenses without restriction. The BH Intake Specialists are responsible for providing information to help members select a behavioral health provider.

Case Management Specialists are non-clinical staff responsible for coordinating member continuity of care services directed by the clinical staff. The Case Management Specialists are also responsible for conducting health risk assessments and maintaining accurate and timely tracking and reporting of case management activities.

Utilization Management Specialists are non-clinical staff responsible for referral initiation and initial screening of prospective requests received via fax, telephone, and MCS. This clinical information is then forwarded to the appropriate licensed review nurses.

The Utilization Management Data Analyst is a non-clinical position that supports the data collection and analysis requirements for the utilization program.

The Supervisor of Appeals and Denials is a registered nurse responsible for appeal and denial oversight.

The Appeal/Grievance Specialist is a non-clinical position responsible for assisting members with the appeal process. This includes providing written notification of receipt of the appeal request, collection of all pertinent information from the member and provider(s), and ensuring timely determinations.

***Prior Authorization Processes***

Meridian corporate prior authorization processes are consistent and ensure timely decision making and notification to providers and members. The individual needs of the member and the

availability of services in the member's area are considered when making decisions on prior authorization requests. Corporate prior authorizations are required for elective inpatient hospital, inpatient rehab and skilled nursing facility admissions, selected outpatient surgeries, prosthetics and orthotics over $1,000.00 (for in network providers), hospice, selected IV infusion medications, and physical, speech, and occupational therapy for children 21 years of age and under.

Meridian staff track utilization of services through the MCS. Claims data is synchronized with a continuously updated "Member Service Counts" module. This module includes visit tracking of chiropractic, vision, and behavioral health services, as well as physical/occupational therapy, inpatient days, and skilled nursing facility days. Meridian staff keep members and providers updated on the amounts remaining of those services that are limited.

Corporate authorization requests are entered into the MCS by the PCP office, the specialist office, or the facility and sent to Meridian electronically; or faxed/mailed to Meridian on a standard referral form which is then entered into MCS by a UM Specialist. The request should be accompanied by documentation of medical necessity. Services requiring Corporate Prior Authorization are evaluated on the basis of medical necessity.

Meridian staff may attempt to redirect the PCP to an alternative provider, such as an in-network provider. Should a PCP not wish to redirect the member, the case is then presented to the Medical Director for guidance. The Medical Director may decide to redirect the member, in which case the member may be directed to consider some or all of the following factors (this list is not all-inclusive):

- The ability of the hospital/specialist to provide all recommended services within the estimated length of stay
- Network status of the provider(s)
- Member location
- Member's progress in current treatment
- Psychosocial issues

Should the Medical Director wish to redirect the member and the PCP does not concur with the redirect, formal denial will be issued and the physician will be notified via telephone and written correspondence. The member is notified of the denial via written correspondence. If the PCP concurs with the redirect, the authorization request is updated to the alternate provider. The objective is always to provide member care in the most appropriate setting available. Clinical information needed for medical necessity review consists of the following:

a) Demographic information
b) Diagnosis
c) Procedure requested (if applicable)
d) History and physical
e) Signs and symptoms
f) Pertinent laboratory tests and imaging studies
g) Treatment plan

If clinical information received with an initial request only includes items a, b, and c listed above, Meridian will request additional clinical information not provided with the initial request. Meridian will request additional clinical information from the requesting provider in accordance with the urgency of the request.

a) Urgent prior authorization requests: Meridian will contact the requesting provider to collect the necessary clinical information immediately upon receipt of the request.
b) Non-urgent prior authorization requests: Meridian will contact the requesting provider to collect the necessary clinical information no more than three days from receipt of the request.

Requests for additional information are documented in the case notes in MCS. Meridian's request for additional clinical information contains specific examples of clinical information necessary to conduct medical necessity review. If Meridian does not receive any of the clinical information requested, Meridian will deny the request administratively within the timeframe appropriate to the type of review requested. Meridian will provide written notification of the administrative denial to the provider that contains rationale for the administrative denial, a list of missing clinical information, and the process for appealing the denial. If Meridian receives only part of the requested information, the request will be forwarded for medical necessity review.

Meridian bases medical necessity review determinations solely on the medical information obtained at the time of the review determination. A registered nurse, licensed in the State, performs the first level of review for medical necessity. The nurse reviewer utilizes established criteria, including medical policies, InterQual Criteria, and MSA guidelines. If the first level reviewer approves the request, based on documentation of medical necessity, a Corporate Authorization number is issued to the PCP within one working day of the decision. If additional information is needed to make a decision, the practitioners involved will be contacted. When a first level reviewer is unable to approve the request, the request will be referred to a medical director for review. The physician reviewer may discuss the case with the referring or attending physician as part of the decision making process. Where the clinical judgment needed is sufficiently specialized that the physician reviewer is unable to make a decision, the information is forwarded to a contracted Independent Review Organization for review by a board certified specialist or to one or more local board certified specialists. All review decisions are rendered and communicated to members and providers in accordance with the timeframes and processes outlined in Meridian's timeliness policy. All corporate authorization decisions are documented in MCS.

Meridian does not reverse a certification decision unless it receives new information that is relevant to the certification and was not available at the time of the original certification.

**Q77. Describe your process for emergency department utilization review and identification of members with high utilization. What strategies to reduce high emergency department utilization will you implement?**

Meridian recognizes that some members regularly seek routine, non-emergent care in an emergency room (ER) setting. This behavior is detrimental to continuity of care, and undermines the Medical Home concept. It is also inefficient and very expensive. In response to this problem, Meridian has developed a multi-faceted approach to reduce unnecessary ER visits and educate members about the importance of creating and maintaining a relationship with their Medical Home.

Meridian's process for managing emergency room utilization is directed at the management of members who incur visits for PCP treatable conditions. Claims for members who incur ER visits

for chronic or ambulatory sensitive conditions are included in Meridian's predictive model program and are forwarded to one of Meridian's care coordination programs for management.

Meridian uses the NYU ED algorithm (developed by the NYU Center for Health and Public Service Research) to identify members who have visited the ER for a PCP treatable or non-emergent condition. We send these members an educational letter regarding appropriate use of ER services after the first ER visit. After the second visit, Meridian's Compliance staff follows up with the member to conduct a post ER assessment. The assessment identifies whether the reason for the member's ER utilization was an education issue or a PCP access issue. During the assessment the Compliance Analyst informs the member of their transportation benefit, assists the member in selecting another PCP if indicated and informs them of their HEDIS needs. Based upon the member's responses, the Compliance Analyst may refer the member for behavioral health case management or to medical case management.

Members incurring additional ER visits for PCP treatable, non-emergent conditions continue to be monitored and contacted by the Compliance Analyst staff. Members identified as potential drug seekers are referred to the pharmacy lock program.

ER utilization is reviewed quarterly by the Utilization Management Committee (UMC). Drill down analysis is conducted by facility, PCP, member and diagnoses. Physician profiling data for ER utilization is also reviewed by the UMC to identify physicians with ER overutilization when compared with their peers. The provider service staff and medical management administration conduct face to face discussion with the providers regarding improvement opportunities.

Two specific examples demonstrate our effectiveness in managing emergency department utilization.

**Collaboration Initiative**

Meridian has collaborated with several high volume facilities and Physician Hospital Organizations (PHO) in an effort to reduce unnecessary ER utilization. Below is an example of a successful collaboration intervention.

Review of ER utilization at a collaborative high volume facility revealed that a large percentage of the members were assigned to a specific large-volume provider. Upon investigation it was identified that the office saw members on a walk-in basis opposed to scheduled appointments. The reason stated by the office was that they had to resort to this type of process due to a large number of appointment "no-shows."

Meridian Provider Service and Utilization Management staff together with the staff from the ER facility met with the physician staff and the PHO. Together they developed a plan where the office staff agreed to work more closely with the members who were high ER utilizers by providing more education, development of an ER letter which they could send directly to the members with high ER utilization and agreement to schedule appointments with members within 7 days of the ER visit. The facility ER case manager scheduled the appointment for member and reinforced the importance of attending the appointment. Transportation was also arranged.

**Outcomes of the Collaborative Initiative**

- PCP visits within 7 days of the ER visit increased from 39% in 2009 to 50% in 2010.
- Consequently, the amount of no PCP visits following an ER visit decreased from 38% in 2009 to 24% in 2010.

Another large network PHO has developed an education program for members identified as high-ER utilizers to teach them about health plan resources, their responsibilities, the PCMH concept, and emergent situations versus non-emergent situations, and how to handle those situations. Also, Meridian follows up with members with no-show appointments at their PCP offices and educates them on the importance of the PCP visit as well as identifies barriers to them getting to the doctor. Provider access issues are identified through receipt of monthly reports that highlight providers with higher than normal utilization in the ER. Meridian also meets with PCPs who do not have appointments readily available and discusses strategies for improving access.

**Sickle Cell Pilot**

In another instance, Meridian collaborated with a large PHO to design a model suggested by the Institute for Health Care Improvement and focuses on identifying a population that would be targeted and utilizing an approach combining both the hospital resources and community resources to develop a strategy to work with that population to decrease avoidable ER visits.

Since pain management due to sickle cell crisis was the primary driver of "preventable admissions" at the PHO's facility and one of the chief reasons for ER visits, this population was targeted.

Analysis of claims data showed that although these members were being seen by a hematologist, there was not a consistent plan of care offered by either the hematologist or the ER physicians to control the member's pain and prevent a sudden onset of sickle cell crisis.

Actions and interventions were as follows:

- Meridian UM staff and facility ER Case Manager met with hospital employed hematology group (who worked closely with the ambulatory infusion center) to discuss whether they would be willing to see the Meridian members who had sickle cell anemia (25 members) and resided in the same county.
- ER Case Manager attended each member's first appointment with the hematology group.
- Members were initially seen weekly by the hematologist and then were moved to monthly appointments.
- Each member was required to sign a sickle cell treatment pain management contract with the hematologists.
- Members were required to keep a pain diary and bring to each appointment.
- Members were required to bring medications to each appointment to ensure compliance.
- Members were required to call the hematology group prior to going to the ER even if after hours.
- Members were triaged on the phone by the hematologists.
- ER care plan was developed on each member and stored in facility's EMR, providing access to all providers
- If a member called a hematologist they were seen that day and if necessary treated in the ambulatory infusion center. Members who came to the ER were assessed and hematologists called to discuss next steps.
- Meridian enlisted the support of the Sickle Cell Disease Association's social worker to make home visits on each member and to work with each member.

**Outcomes of Sickle Cell Pilot**

In comparison to baseline data, there were 8 fewer inpatient admissions, 18 fewer observation stays, and 26 fewer ER visits for this population. Primary care was shifted to the hematologist office for outpatient care and treatment, if needed, was provided in the ambulatory infusion center instead of the ER.

**Q78. Describe your methods of assuring the appropriateness of inpatient care. Such methodologies shall be based on individualized determinations of medical necessity in accordance with utilization management policies and procedures.**

To ensure appropriateness of care, Meridian uses nationally recognized, evidence-based clinical guidelines in conjunction with policies and procedures on individualized determination processes. When making a determination of coverage based on medical necessity, Meridian seeks to obtain relevant clinical information from any reasonably reliable source. Only information necessary to certify the request will be requested and reviewed. Meridian does not request copies of all medical records on all members reviewed, nor require facilities and/or providers to numerically code diagnoses and procedures to be considered for certification, but codes may be requested, if necessary. Meridian utilizes all information relevant to an individual member's care when rendering Utilization Management decisions, including but not limited to, consults with the treating physician, specialist, or other provider, clinical exam, history of the presenting problem, treatment plans and progress notes, office and hospital records, psychosocial history, photographs, operative and pathological reports, rehabilitation evaluations, imaging findings and diagnostic tests, clinical notes, and evaluations from other health care providers.

All clinical and demographic information is kept within MCS, which enables various clinical and administrative departments to share needed information, avoiding duplicate requests for information from members or providers. Member and provider confidentiality is protected at all times when obtaining or sharing medical information.

**Q79. Describe your management techniques, policies, procedures or initiatives you have in place to effectively and appropriately control avoidable hospitalization and hospital readmissions. Describe your strategy moving forward to improve performance in this area.**

Meridian has implemented multiple programs that aim to control avoidable hospitalization and hospital readmissions as well as educate members on how to better manage their health care. Meridian has employed these programs with the goal of increasing quality of care for members as well as increasing cost-effectiveness. A shared goal of all of the programs described below is to ensure follow-up appointments with PCPs and specialists. These programs also assist members in establishing a medical home and assist with ensuring that medication reconciliation is completed. Meridian has the following initiatives for reducing hospital readmissions:

**Post-Discharge Follow-Up Call Program**

The goal of this program is to reach the member within seven days of discharge to ensure that members' needs have been met and a follow-up appointment with their physician has been scheduled. This program also ensures that members understand their discharge instructions as well as medication reconciliation. Assistance is provided for transportation arrangements and reminder calls are placed to members to remind them of their appointments. Members are referred to case management as indicated.

**Post-Acute Support System Program**

Our Post-Acute Support System (PASS) program has successfully reduced ER cost, while increasing primary care provider (PCP) visits.

The PASS program focuses on the care transition between the institutional setting and the home setting. The main components of the PASS program are: medication reconciliation and self-management, nutrition management, personal health record, PCP & Specialist follow up, red flags/signs and symptoms and home and community based services. These components are managed by the PASS clinical coaches and the Care Support team. The PASS program manages the patient for up to 30 days post-discharge and includes a minimum of one hospital visit, one home visit and multiple follow up phone calls, as well as providing three nutritious meals a day for ten days.

The PASS staff work closely with Meridian's case managers to assist members with transition activities and discharge planning orders. Select triggers have been identified for member's who have completed the PASS program yet still require case management assistance. Outcomes measurements for the PASS program include pre and post PASS intervention readmission and outpatient PCP/specialist visit rates.

## 3.15 Data Reporting Requirements

Meridian tracks and reports encounter data as specified by DHHS. MCS accurately identifies encounter data and effectively communicates this information in reporting formats and required timelines to meet contractual specifications. We are prepared to partner with DHHS to identify the best possible, most efficient methods of submission as required. Each provider encounter, in or out-of-network, will be assigned a unique provider number identifier to ensure appropriate tracking of information. DHHS will have the ability to assess our system per their specifications (RFP, 3.15, paragraphs 1 and 2). For a more detailed description of encounter data please see Section 2.4 Managed Care Information System, Encounter Data on page 13.

**Q80. Provide relevant reports from at least two other states describing accuracy and timely submission of encounters.**

Meridian partners with states to submit encounter data both accurately and timely. Please see Appendix H for our encounter submission reports.

(The remainder of this page intentionally left blank)

## 3.16 Grievance and Appeals

Meridian focuses on continuously improving member satisfaction by tracking and analyzing all member complaints, grievances, and appeals (RFP, 3.16, paragraph 1). By examining this information on a continual basis, we are able to make recommendations, reviewed by the Quality Improvement Committee (QIC) and Utilization Management Committee (UMC) that lead to Corrective Action Plans (CAP) focusing on increasing the quality of service to members and providers.

The Grievance Module within MCS tracks the details of every grievance including, but not limited to, date of the incident, date the grievance or complaint was initiated, resolution, disposition, person(s) related, and notes that document all relevant follow up (RFP, 3.16, paragraph 1). All grievances and complaints filed concerning providers are included in their credentialing file and reviewed when making a determination to renew a contract.

Our appeal process follows all state, regulatory, and accreditory requirements and timeframes (RFP, 3.16 Member, Appeal b). All denial and appeal determination notices are sent to both providers and members; which includes a description of the reason for denial as well as a clear explanation of the process by which to initiate an appeal and the right to request an administrative hearing or arbitration (RFP, 3.16a, b, c; Member Appeal a, d). Appeal reviews are conducted by a physician who did not render the initial decision, and are board certified in the same or similar specialty from the requesting physician (RFP, 3.16b). In the event that a member is not satisfied with the final determination notice rendered by Meridian and requests an administrative hearing, through which we exercise complete transparency and provide all pertinent information to the Administrative Appeals Unit. Our physician reviewers personally attend these hearings to attest documented information and determinations (RFP, 3.16c). Any incurred costs associated with these actions are assumed by Meridian (RFP, 3.16d).

**Q81. Describe your complaint and grievance process specifically addressing:**

*Compliance with State requirements*

Meridian's MCS Grievance Module includes functionality for tracking, resolving, and reporting member grievances and appeals. Meridian abides by State, Federal, and accreditation requirements throughout all grievance and appeal processes. Grievances are filed at any time a member expresses dissatisfaction with the health plan and providers. Appeals are filed as a result of member disagreement with an adverse determination.

**Quality of Care Indicator**

Throughout 2010, the Michigan Department of Community Health (MDCH) monitored and reported complaint rates among all Michigan Medicaid HMOs. The State's complaint standard is less than 0.250 complaints per 1,000 member months, and Meridian has consistently maintained a complaint level at less than 0.03 complaints per 1,000 member months.

*Levels of review and timing*

Meridian utilizes two levels of internal review for grievances and appeals. For standard review, both levels are resolved within 30 calendar days of the grievance/appeal request. Meridian has policies and procedures defining the criteria for expedited review of grievances and appeals,

which also utilize two levels of internal review. For expedited review, a determination is made within 72 hours of grievance/appeal request.

***Process for expedited review***

Meridian has policies and procedures defining the criteria for expedited review of grievances and appeals that follows accreditation guidelines. An internal expedited review begins when a member, the member's representative, or a practitioner acting on behalf of the member requests an expedited grievance/appeal. If the request for expedited review is submitted by a member, it must be followed by documentation from a physician, either verbally or in writing, that the grievance/appeal meets the requirements for the expedited process. The Grievance/Appeals Coordinator reviews the request and obtains input from the Chief Medical Officer or designee to determine whether the request meets the requirements for an expedited grievance/appeal.

If the request for expedited review is denied, the grievance/appeal is transferred to the timeframe for standard resolution. Meridian makes reasonable efforts to give the member and/or the member's representative and the provider a prompt verbal notice of the denial to treat the grievance/appeal as expedited and to follow up with a written notice in plain English within two calendar days.

If the internal expedited grievance/appeal is determined to be of medical necessity, the substance of the grievance/appeal is investigated, including any aspects of clinical care involved. A Meridian physician other than the physician involved in the review of the initial adverse determination and who is not the subordinate of such physician will be appointed to review the expedited grievance/appeal. Grievances/appeals regarding medical necessity will be reviewed by a practitioner in the same or similar specialty that typically treats the medical condition and/or performs the procedure that is the subject of the grievance/appeal.

Expedited appeals are completed as expeditiously as the medical condition requires, but no later than 72 hours after the request. Once a decision is made, Meridian provides initial verbal notification of the determination to the member and provider no later than 72 hours after receipt of the request. Written notification of the decision to the member and provider will be sent within two calendar days after the initial verbal notification. This notice is provided in plain English. The notification includes the following:

- An explanation of Meridian's final decision and/or resolution of the grievance/appeal.
- Reference to the benefit provision, guideline, protocol, or other similar criterion on which the grievance/appeal decision was made.
- A list of the title and qualifications of each individual participating in the grievance/appeal review, including the provider's specialty.
- A description of the member's further appeal rights for an expedited External Review no later than 10 days after the date of receipt of an adverse determination.

***How complaints and grievances are tracked and trended and how you use the data to make changes to procedures and processes***

Meridian's Grievance Program is fully automated within MCS. All staff are trained and have access to document a member grievance. The grievance is automatically routed to the Grievance Coordinator for appropriate investigation and follow-up consistent with our policies and procedures. Appeal and Denial clinical staff are responsible for appropriately documenting appeals and ensuring appropriate follow-up consistent with policies and procedures.

MCS allows for accurate and up-to-date tracking and trending of grievances and appeals. All appeals, either initiated by provider or member, are documented within the request for authorization or claim that it pertains to. Grievances are reported quarterly to the Quality Improvement Committee. Appeals are reported quarterly to the Utilization Management Committee. We value member feedback and both grievances and appeals influence the revision and development of policies and procedures to ensure ongoing member and provider satisfaction.

(The remainder of this page intentionally left blank)

## 3.17 Fraud and Abuse

Meridian is dedicated to maintaining a robust integrity program that meets and exceeds the activities required by the Department of Health and Human Services (DHHS). Meridian's Program Integrity division was developed in accordance with 42 CFR § 438, 42 CFR § 455, 42 CFR § 456, the Affordable Care Act, and State and Federal statutes surrounding health care fraud and compliance (RFP, 3.17, paragraph 1). Meridian's Program Integrity plan incorporates all elements of an effective compliance program including: written policies and procedures and standards of conduct that dictate Meridian's commitment to comply with State and Federal law, rules and regulations (RFP, 3.17, *Communication* (a)); the designation of a Compliance Officer and Compliance Committee that reports to Meridian's Board of Directors (RFP, 3.17, *Communication* (b)); effective training and education programs; effective lines of communication between the Compliance Officer and employees; well-publicized disciplinary guidelines; an effective internal monitoring and auditing program and identification of risk; prompt response to non-compliance and reporting to appropriate State and Federal agencies; a strong Fraud, Waste and Abuse (FWA) program; and a process to report to the appropriate State agency physical, sexual, and emotional abuse of beneficiaries while under the care of their providers (RFP, 3.17, *Communication* (c)).

Meridian's Program Integrity division is structured after State and Federal guidelines and objectives and is committed to transparency in program administration. Meridian believes that this approach produces consistent, dependable relationships with regulatory bodies, streamlines health care, and most importantly delivers high-quality, reliable health benefits to beneficiaries in a low resource environment.

**Reporting Success:**

Meridian's Program Integrity division identified an internal medicine provider's utilization of cardiac stress testing and numerous other diagnostic testing increase dramatically. Meridian's preliminary investigation showed that the provider had recently purchased diagnostic testing equipment. The drill down claims analysis showed that the provider was a significant outlier compared to his peers with respect to the diagnostic testing procedures and narcotic prescribing. Meridian conducted member surveys and did a massive chart review that revealed the tests were not medically indicated and that the narcotic prescriptions were medically unnecessary.

Meridian referred the case to the OIG and coordinated in providing all investigative materials, reports, member surveys, and chart review results. Meridian requested take-backs on overpayments for medically unnecessary services and pursued legal action resulting in recovery of overpayments of $201,266.17. Meridian terminated the provider from the network to deny future claims and restricted prescribing so that no pharmacy claims would be paid under his DEA number. Recently, the provider's office was raided and he was indicted for health care fraud and over prescribing narcotics that were not medically indicated. Not only did Meridian recover overpayments, but by terminating the provider and restricting pharmacy claims, Meridian prevented future payments for medically unnecessary services and prescriptions from being paid for Medicaid beneficiaries.

### Organization

Meridian's Compliance Officer oversees the Program Integrity division and is responsible for administration of the program and ensuring compliance with State and Federal laws, rules and regulations. Meridian believes that the appointment of a Compliance Officer and Compliance Committee that is accountable to senior management (RFP, 3.17, *Communication* (b)) and the

implementation of compliance policies and procedures provide corporate transparency, company structure, and staff accountability. The Compliance Officer has selected a highly experienced staff of individuals with backgrounds in FWA investigation, medicine, pharmacy, nursing, data analysis, auditing and monitoring, and health care benefits administration. Meridian believes that a broad body of experience and backgrounds produces comprehensive, superior results in the administration of a Program Integrity division.

***Policies and Procedures***

Meridian maintains Compliance and FWA internal controls, policies and procedures as required in 42 CFR § 438, 42 CFR § 455, 42 CFR § 456, the Affordable Care Act, and State and Federal statutes (RFP, 3.17, *Communication* (a), RFP, 3.17, *Fraud, Waste & Abuse* (a)). Meridian strongly believes that diligent policy and procedure maintenance yields consistency and continuous corporate improvement. Meridian's Compliance Officer ensures that all Compliance and FWA policies and procedures are reviewed and any necessary revisions made at least annually and as often as necessary for compliance with applicable State and Federal laws, applicable accreditation standards, and with all DHHS standards of program integrity.

Under the oversight of the Compliance Officer, Meridian's Program Integrity division constantly monitors State and Federal laws and regulations in an effort to track changes that may impact policies and procedures. Program Integrity staff also track any contract changes or guidance provided by DHHS and Federal government that may affect policies and procedures. If there are changes to laws, regulations, or contracts that affect FWA or Compliance policies and procedures, the Compliance Officer immediately implements any changes. New or updated policies and procedures take effect immediately and impacted staff receives prompt education regarding any change to their job function. New or updated policies and procedures are presented at the next quarterly Compliance Committee meeting for review and approval. The Compliance Officer ensures that all current policies and procedures are available to DHHS upon request. Meridian also believes in an open, coordinated relationship with governing bodies and DHHS. Meridian constantly evaluates feedback from these governing bodies and incorporates necessary changes into policies and procedures to ensure administration of the Program Integrity division are up to DHHS's standards.

Meridian's comprehensive FWA policies and procedures outline methods of prevention, detection, investigation and reporting of FWA in compliance with State and Federal laws, regulations, and guidelines. Meridian's FWA policies and procedures emphasize the importance of reporting FWA to the Compliance Officer, advise employees that they may report anonymously, and outline Meridian's compliance with the protection of whistleblowers. It is Meridian's policy that new employees receive copies of all Meridian's FWA policies and procedures on their first day of employment and have the opportunity to ask the Compliance Officer questions.

Company standards of conduct are defined in Meridian's Compliance Program policies and procedures, Compliance Program Statement, Compliance Charter, and mandatory Code of Business Conduct and Ethics ("Code of Conduct"). Employees are required to sign the Code of Conduct upon hire and annually thereafter. The Code of Conduct describes ethical business conduct, addresses conflicts of interest, and requires reporting of non-compliance. Compliance policies and procedures include all elements of an effective Compliance Program as outlined in

42 CFR § 438.608. The Compliance Officer is responsible for providing all Compliance Program documents to DHHS upon request.

***Committee Structure and Internal Reporting***

Meridian's Compliance Officer oversees all Compliance and FWA activity and makes quarterly reports to the FWA Committee and Compliance Committee, which reports directly to the Board of Directors (RFP, 3.17, *Communication* (b)). The FWA Committee is comprised of senior officials including the Compliance Officer, General Counsel, Chief Operating Officer, and Chief Medical Officer. Other committee members include Special Investigation Unit (SIU) staff and managers and employees from each operating department. The FWA Committee is responsible for reviewing and investigating cases of member, provider, pharmacy and employee FWA, identifying areas of risk, and advising organizational and procedural changes. Under the direction of the Compliance Officer, the Compliance Committee reviews FWA Committee activity and submissions, implements organizational and procedural revisions in compliance with State and Federal law and DHHS guidelines and reports to senior officials through the Board of Directors.

**Investigation**

The Compliance Officer serves as the designated contact for all DHHS, OIG, and any other State and Federal coordination efforts related to FWA. Upon receipt of a detected offense, the Compliance Officer directs an internal, preliminary investigation using claims data and historical provider/member contacts. If the outcome of the preliminary investigation results in a reasonable belief that FWA may have occurred, the Compliance Officer makes a referral to DHHS within 15 days of detection that includes the original complaint, all reports and documents and any SIU staff notes (RFP, 3.17, *Fraud, Waste & Abuse* (b)). Meridian's policy is to cooperate and comply in the role of State contractor with any and all investigations with DHHS.

At the direction of the Compliance Officer, SIU staff investigates all referrals of suspected FWA. The FWA Module within MCS maintains a Referral Management application that tracks all cases from start to completion. The Referral Management application allows for filtering of cases by: who referred the case (internal employee or external entity); open and closed cases; provider, pharmacy, or member referred for investigation; and unique referral ID and date of referral. SIU staff are also able to: update cases and coordinate with other departments by assigning tasks to work queues for SIU staff in Member Services, Medical Management, Claims and Pharmacy.

Any investigation actions and case developments are tracked in the FWA Module's Case Update application. This application allows SIU staff to: track reporting to any local, State, Federal, or other agency; make case notes and document any findings; and attach any gathered evidence or supporting documentation.

At the direction of the Compliance Officer, SIU staff takes action including, but not limited to: reviewing historical medical and pharmaceutical claims reports; running peer-to-peer data to analyze outlier status; requesting and reviewing medical records; requesting and reviewing pharmacy documentation; analyzing provider to member to pharmacy distance ratios; conducting surveys with members; and interviewing provider staff. All case notes and actions are documented with date, time, and SIU staff electronic signature within the 'Notes' section of the Case Update application. Supporting documentation includes medical records, prescription

copies, claims reports, provider/member correspondence and any other supporting documentation or attachments to the case that are logged, labeled, and electronically saved under the 'Attach' section of the Case Update application.

If at any point in the investigation process Meridian believes there may be a criminal violation of the False Claims Act or any other fraud statutes, the Compliance Officer makes a referral to DHHS that includes the original complaint, all reports and documents gathered in the investigation process, any SIU staff notes, and a summary of significant findings. Meridian will follow all direction from the DHHS regarding how to proceed. Meridian documents all direction from and case coordination with State and Federal agencies in the Case Update application of the FWA Module. The Compliance Officer ensures that Meridian abides by any direction received from State and Federal agencies with regard to investigative procedures.

**Investigation Success:**

In the course of running routine reports, Meridian identified a family practice provider who was possibly upcoding office visits. Upon a drill down claims analysis, Meridian recognized that the provider was an extreme outlier with regard to trigger point injections, prescribing of narcotic medications and providing frequent (and possibly unnecessary) medical care. Upon medical record review, Meridian found that the provider was grossly over-coding medical claims, providing medically unnecessary narcotic prescriptions, administering and billing for medically unnecessary trigger point injections and requiring members to come back every month for medically unnecessary reasons.

Meridian's Medical Director made a site visit to the provider and provided peer reviewed documentation regarding over-coding, narcotic prescribing, medically indicated trigger point injections and providing medical care only when necessary. Meridian denied all high-level office visits and required medical director review to pay claims. The provider's behavior did not improve and Meridian requested to terminate the provider with cause from the network. The provider appealed and Meridian executed a fair hearing which resulted in restricting the provider's practice and constant monitoring of claims.

**Corrective Action**

Meridian firmly believes that most non-compliant behavior can be corrected, however also recognizes that there will be incidents and states of non-compliance that cannot be modified and require attention. The Compliance Officer is responsible for addressing any instances of non-compliance relative to program integrity and fraud, waste and abuse. The Compliance Officer responds promptly to detected offenses and issues Corrective Action Plans (CAPs) when necessary. Offending parties are closely monitored and provisions of the CAP are audited to ensure compliance. Corrective Action Plans include but are not limited to required education, pharmacy locks, denial of claims pending medical record review, collection of overpayments, and termination from the network.

***Required Education***

Non-compliant members and providers are required to undergo education regarding their behavior. Meridian uses a CAP as a method for establishing intent to commit health care fraud, waste or abuse. Although Meridian educates providers and members through handbooks, manuals, and newsletters; Meridian is prepared to provide targeted education regarding all types of non-compliance exhibited by members and providers. Education includes but is not limited to verbal communication, written communication, site visits by Meridian's Medical Directors, and delivery of peer reviewed literature. Providers and members are specifically educated on deficiencies and made aware of non-compliance so that, in the event their behavior continues,

there is documented evidence of their knowledge of what is considered non-compliant behavior, how to adjust their behavior, and subsequent consequences for continued non-compliance.

**Q82. Describe any front-end claims editing/auditing functionality that you are proposing.**

From time to time, a member or provider's performance may not improve from Meridian's attempt to correct non-compliant behaviors. In the event that providers fail to improve with education as to the inappropriate nature of billing, be it upcoding, inappropriate utilization of modifiers, unbundling, or any other method of incorrect claims submission, Meridian is prepared to deny provider claims pending submission of medical records. Meridian's Chief Medical Officer (CMO) is responsible for review of all medical claims denied for this reason. The CMO's review includes a decision to pay the claim if the record substantiates the service, or to deny the claim and inform the provider of the denial.

In close collaboration with the IT department and Meridian's Pharmacy Benefits Manager (PBM), the Compliance Officer has developed point-of-sale (POS) edits for both medical and pharmaceutical claims (RFP, 3.17, *MCO Responsibility* (a)(1)). POS edits allow Meridian to proactively deny the payment of fraudulent claims and monitor for fraudulent trends and activity.

Meridian's in-house PBM allows SIU staff direct access to all real time and retrospective claims. SIU staff have the ability to directly run reports based on provider, member and pharmacy activity. These reports can be as simple as pharmaceutical claims and as complex as allowing SIU to determine relationships between providers, members and pharmacies. This access and direct collaboration with the PBM increases investigational proficiency, efficiency, and ultimately allows the Compliance Officer and SIU staff a full picture of provider and member activity. SIU staff can quickly and easily implement edits on a particular DEA number, NPI number, member ID, or pharmacy that is suspected of potential fraud, waste and abuse.

Meridian's proprietary MCS system has the capability to run real-time, customized reports on medical utilization, prior authorization, and paid claims review (RFP, 3.17, *MCO Responsibility* (a)(2-5). Meridian's Compliance Officer and SIU staff work closely with the Finance and Claims departments to create dashboards and customized reporting on a quarterly, annual and ad-hoc basis. Meridian is dedicated to assisting State and Federal law enforcement by creating customized reporting as needed to assist in determining allegations of fraud, waste and abuse.

In addition to these prospective analyses on both the medical and pharmaceutical fronts, Meridian is equipped to respond to discoveries of potential fraud, waste and abuse that may arise through referrals from members, providers, employees, DHHS, or our anonymous fraud, waste and abuse hotline. These rapid responses include point of sale (POS) edits on both medical and pharmaceutical claims, pharmaceutical locks and enrollment into the Member Compliance program.

Medical POS edits include, but are not limited to: the denial of CPT codes that can be bundled into another CPT code; denial of claims for services inconsistent with a member's age and/or gender: and denial for double billing not only by the same provider, but also by other providers billing for the same service on the same day (RFP, 3.17, *MCO Responsibility* (a)(1)). This approach allows Meridian to educate providers and their staff regarding sound billing practices in a preemptive defense against the payment of fraudulent claims. Meridian's claims staff is specially trained to monitor patterns in billing and refer any suspicions of FWA based on POS edits and trends.

Pharmaceutical POS edits include, but are not limited to: pharmacy locks; denial of claims for quantity limits above company and FDA recommendations (e.g. acetaminophen levels above 4,000mg/day); claims for drugs inconsistent with a member's age and/or gender; and for attempts to refill too soon(RFP, 3.17, *MCO Responsibility* (a)(1)). Pharmacy locks can be placed on both members and providers. Members identified as narcotic seeking are immediately placed into a narcotic lock and assigned a Compliance Specialist to monitor their utilization (see question 86 on page 149). Providers investigated for FWA and found at fault may be placed into a pharmacy lock, which means any prescription fill attempts under their DEA number are denied. Meridian uses these denied claims to track pharmacies who may fraudulently submit a prescription using the DEA of another provider, and also to track members who may end up paying cash for narcotics. Meridian strictly monitors prior authorization requests for quantity limit exceptions, especially in the case of strong narcotics such as OxyContin, Dilaudid, Oxycodone, Morphine, and Methadone. Research is conducted and POS edits are evaluated on an ongoing basis to determine additional preventative edits and prospective changes to existing edits as necessary.

**Q83. Describe how you propose communicating suspected incidents of fraud to DHHS.**

Meridian is dedicated to collaboration and coordination with State, Federal and other agencies in the fight against health care fraud. Meridian recognizes that fraud schemes are becoming increasingly intricate and fraudsters are constantly looking for new areas of weakness in health care administration. Information sharing, providing access to all real-time data and medical records, and providing the State the ability to download and run their own ad hoc reports as needed allows Meridian to supply State and Federal agencies with necessary tools to prevent, detect, and correct health care fraud, waste and abuse ((RFP, 3.17, *Encounter/Claims* (a), RFP, 3.17, *Data and Information the MCO Shall Supply to DHHS* (d), RFP, 3.17, *Fraud, Waste & Abuse* (e)). All data and medical records will be made available to the State through a reporting system that is compatible with the State's system (RFP, 3.17, *Encounter/Claims* (b)). Meridian prioritizes developing meaningful, cooperative relationships with regulating bodies in an effort to fight health care fraud, waste and abuse.

***Required Reporting***

Meridian strongly believes in an open, cooperative approach to FWA investigations and will make available any and all documents related to FWA cases in a timely manner. Narrative reports are provided to DHHS outlining all FWA activities and processes for each investigative case within 15 days of case referral. Meridian also provides written reports to DHHS including all pertinent investigation information in a format outlined by DHHS on a quarterly basis to ensure compliance with contract requirements and in an effort to develop open lines of communication with DHHS (RFP, 3.17, *Data and Information the MCO Shall Supply to DHHS* (b)). The format in which reports are submitted will comply with any all requirements mutually agreed upon by Meridian and DHHS. At a minimum, each report will contain information including summaries and documentation of communication; number of claims targeted for recovery and the number of cases in which over/underpayment is identified; number of records reviewed; number of appeals, hearings, determinations and monetary reconciliations; number of providers audited with identified results; reports including ICD-9 and CPT codes billed in order of amount billed; and any recovered monies as a result of audits (RFP, 3.17, *Data and Information the MCO Shall Supply to DHHS* (c), RFP, 3.17, *Fraud, Waste & Abuse* (c)). The Compliance Officer will provide to DHHS in aggregate numbers on an annual basis the results of

all audits conducted over the previous year. This report will also include recommendations, changes in investigation procedure, and any other audit findings (RFP, 3.17, *Data and Information the MCO Shall Supply to DHHS* (e)).The Compliance Officer is accountable for all reporting and requests regarding program integrity, compliance and fraud, waste and abuse. The Compliance Officer provides all required reports and responds to any other requests by DHHS in a timely, structured manner.

***Onsite Visits***

Meridian welcomes DHHS and regulating bodies for site visits annually and as often as necessary to maintain compliance with contracts and expectations. Onsite visits are viewed by Meridian as opportunities to demonstrate corporate compliance and to collaborate with DHHS to improve company processes to comply with regulatory guidelines. This opportunity allows Meridian to further understand any new initiatives regarding fraud, waste and abuse at DHHS and to adjust annual work plans, policies and procedures and internal documents as necessary to comply and satisfy necessary DHHS initiatives. Meridian believes that well-organized documentation and prompt responses to requests for documentation aid in establishing internal proficiencies and results in effective, transparent onsite visits. All documentation maintained by Meridian is available to DHHS at onsite visits and upon request (RFP, 3.17, *DHHS Responsibility* (a).

***Information Sharing and DHHS Access***

Meridian's policies and procedures, program documents, disclosure records, case investigations, and all data are available to DHHS in quarterly reports, any ad hoc requests, and at any onsite visits (RFP, 3.17, *DHHS Responsibility* (a)). Meridian and all subcontractors will comply with any requests, investigations, and actions taken by state and federal agencies (RFP, 3.17, *Encounter/Claims* (c)). In addition, DHHS shall have access to all of Meridian's real-time claims data (RFP, 3.17, *Encounter/Claims* (b)). Meridian will comply with any requests by DHHS to meet and share information. These meetings will take place as often as necessary, but at least monthly and will consist of discussion of past, current and future investigations and the improvement of fraud oversight activities (RFP, 3.17, *DHHS Responsibility* (c)). Meridian's proprietary FWA Module, organized case tracking, innovative report running capabilities, and compliance with reporting regulations meet and exceed the guidelines and expectations of regulating bodies and provide for fast, thorough responses to report and information sharing requests. Meridian has developed successful, collaborative relationships with regulatory agencies such as: the Medicaid Integrity Program Section of the Michigan Department of Community Health (MDCH); the Office of Inspector General (OIG); the Attorney General (AG); the Federal Bureau of Investigation (FBI); and local law enforcement such as police departments and detectives. Meridian constantly shares reports, data, and investigative findings with these regulatory and law enforcement agencies in an effort to prevent, detect and fully investigate health care fraud in- and outside State boundaries. Meridian has been instrumental in establishing a Michigan Information Sharing Group (MISG). This workgroup meets quarterly and is comprised of MDCH, OIG, AG and various other health plans, both commercial and public. The focus of the workgroup is to share current case information in an effort to streamline investigation efforts and increase collaboration in the detection and investigation of health care fraud, waste and abuse. Meridian's work plan for the State of New Hampshire includes goals of establishing similar meaningful, collaborative relationships with State and local law enforcement and governing agencies in the fight against fraud, waste and abuse.

As a State of New Hampshire contractor, Meridian shares and implements the guidance, goals and objectives of the State and Federal government with respect to program integrity, compliance, and fraud, waste and abuse. For this reason, Meridian not only provides full access to all documents, cases, and data maintained, but provides this information to DHHS in a candid, well-organized manner that maximizes transparency and reduces administrative burden. Meridian's dedication to program integrity and compliance guarantee complete cooperation and a desire to fully collaborate with DHHS in an effort to constantly improve the quality of health care in a low resource environment.

**Q84. Describe, in detail, the fraud and abuse program that you will implement including:**

***Fraud detection methods that will be used***

Meridian's FWA detection methods include innovative report running capabilities, a comprehensive Explanation of Medical Benefits (EOB) program, grievance and appeal data, analysis of pharmaceutical desk and onsite audit data, credentialing and recredentialing, and referrals from trained employees, members, providers and other community members.

***Algorithms and Reporting Capabilities***

The Compliance Officer manages the development of identifier reports established through research regarding DHHS specifications and propensities in current FWA trends. The Compliance Officer works closely with the Manager of Data Analysis to develop new algorithms and reports to target FWA (RFP, 3.17, *Encounter/Claims* (e)). These reports are run to identify areas of risk including but not limited to medical/pharmaceutical outlier trends, sudden spikes in utilization, peer-to-peer and specialty-to-specialty comparison, upcoding analysis, referral trends, authorization denials, narcotic prescribing outliers and associated members, and diagnostic testing analysis. Reports are analyzed by SIU staff to identify true outliers and potentially fraudulent trends and claims for necessary investigation. Any providers identified as potentially fraudulent are immediately referred for preliminary investigation to the Compliance Officer.

Meridian's advanced claims data warehouse and algorithm capabilities capture both medical and pharmaceutical data allowing SIU staff to identify and track patterns between members, providers and pharmacies. The ability to track these patterns and relationships enables SIU staff to see a fuller picture of potentially fraudulent activity and facilitates the identification of increasingly complex fraud schemes. The reports generated also provide SIU staff and DHHS with solid evidence of trends, outlier activity, and coding analysis that become crucial in the event of demand for overpayment or potential criminal prosecution.

***Explanation of Medical Benefits***

In compliance with 42 CFR § 455.20 Explanation of Medical Benefits letters are mailed to beneficiaries in order to verify services billed to Meridian (RFP, 3.17, *Encounter/Claims* (d)). EOBs are sent for at least 5% of eligible paid claims from the previous month. In 2010, Meridian mailed a total of 40,879 EOBs, or 5% of eligible paid claims, to Medicaid beneficiaries. Meridian has specially trained staff to answer phone calls and returned letters in response to EOB mailings. EOB Representatives receive training focused on EOB composition; common discrepancies; identifying fraud, waste and abuse; using specialized tracking codes to code EOB contacts; requesting medical records in the event of discrepancies; and reporting fraud, waste and abuse in the event it is suspected.

In the event that Meridian receives a referral that a provider is billing for services not rendered, Meridian has the capability to send targeted EOBs. Meridian's EDI program can adjust algorithms to target a provider, a provider group, a particular CPT code, a particular diagnosis code, a DME company, and any combination of factors to assist in verifying services provided.

***Grievance and Appeal Data Analysis***

The Compliance Officer has appointed SIU staff to sit on both the Grievance Committee and the Appeals Committee to represent the Program Integrity division. Both Committees meet quarterly and SIU staff review all grievances and all appeals in an attempt to detect potentially fraudulent activity. As members of both Committees, SIU staff can request additional information or actions from any departments involved in the grievance and appeal process. SIU staff analyze the grievance and appeal data on a quarterly and rolling 12 month basis to detect trends. If trends are detected and fraudulent activity is suspected, SIU staff immediately notify the Compliance Officer and initiate a preliminary investigation.

Any complaints of physical or sexual abuse by a network provider are immediately reported to DHHS in accordance with contractual requirements. Meridian will collaborate with State and Federal officials regarding cases of patient abuse and neglect.

***Pharmacy Program***

Meridian requires desk and onsite audit data from MeridianRx in an effort to identify and investigate potential fraud, waste and abuse. The Compliance Officer dictates an annual auditing schedule based on research of current FWA trends, DHHS guidelines, and risk analysis.

Every pharmacy claim that runs through Meridian's pharmacy program is subject to a desk audit. Outlier claims that fail strict criteria specifications are identified and hard copy prescriptions, signature logs and pharmacy documentation are requested from the pharmacy. Meridian uses this as an opportunity to educate pharmacies and detect fraudulent activity. Meridian tracks all offending pharmacies and investigates if there is a suspicion of fraud, waste or abuse. Any overpayments are collected and reported to the Compliance Officer, FWA Committee, Compliance Committee and to DHHS on a quarterly basis.

Onsite audits involve a physical visit to the pharmacy by the Pharmacy Program. Auditors review documentation, inventory, site conditions, and pharmacy compliance with State and Federal laws. MeridianRx develops a report card for each pharmacy audited and reports all findings to Meridian's Compliance Officer and FWA Committee on a quarterly basis. If the Compliance Officer and FWA Committee review the information and have any suspicion of FWA, a preliminary investigation will be initiated. MeridianRx also reports any overpayments to the Compliance Officer who reports these findings to the FWA and Compliance Committees and to DHHS on a quarterly basis.

***Affiliations***

Meridian will provide to DHHS a full and complete report regarding the identity of each person, subcontractor, or corporation with an ownership or controlling interest of 5% or more (RFP, 3.17, *Affiliations* (a)). Meridian regularly monitors upon hire and annually thereafter for individuals who have been debarred or suspended from, or otherwise excluded from participating in federal healthcare activities (RFP, 3.17, *Affiliations* (b)). Each individual, including owners, partners, directors and managers with a 5% or more controlling interest in Meridian, is screened,

prior to employment through EPLS and State excluded affiliations databases to ensure compliance with State contractual obligations (RFP, 3.17, *Affiliations* (c)).

***Internal and External Referrals***

Meridian maintains several methods to accept referrals of detected FWA including Compliance Officer mailings, FWA hotline routed directly to the Compliance Officer, and FWA emails routed to the Compliance Officer. These methods of reporting detected FWA offenses are disseminated to members, providers and employees through training, newsletters, handbooks, manuals, and notifications.

Meridian employees are also advised to refer through Meridian's proprietary FWA Module. The FWA Module is housed in MCS, which is protected with strict administrative and technical safeguards and whose data is backed up in a comprehensive disaster recovery system. Employees are educated through new employee, annual, and department specific training regarding the FWA Module and the required reporting of detected offenses. Employees can: make a referral on behalf of themselves (internal referral) or someone else (external referral); report members, providers, pharmacies, or anyone else; explain the nature of the FWA; classify the FWA into common categories including but not limited to upcoding, ID card sharing, kickbacks, etc.; and attach any documents that support the allegation of fraud. Any cases referred through the FWA Module are assigned a unique case identification number for tracking purposes and sent directly to SIU staff and the Compliance Officer for investigation.

**Detection Success:**

Meridian mailed an EOB to the mother of a juvenile member. One of the services listed was a CPT 81001 – Urinalysis w/ scope. The member's mother called Meridian and explained that her child was scheduled to have a urinalysis, but was unable to complete the test at the office.

The Meridian EOB Representative immediately requested medical records from the provider office and noted that the chart contained a nurse note that substantiated the child had been scheduled, but was unable to complete the urinalysis. The EOB Representative referred the suspected FWA to the Compliance Officer. The Compliance Officer initiated a take-back on the overpayment for services not rendered and educated the provider office biller and manager that even billing mistakes are considered violations of the False Claims Act.

***Plan for compliance with the Exclusion Program of the United States Department of Health and Human Services Office of the Inspector General or any provider restrictions imposed by the State***

Meridian's credentialing process includes required provider disclosures and reporting of those disclosures in compliance with 42 CFR § 455.106, provider background checks, authentication of provider credentials, and Excluded Parties List System (EPLS) and List of Excluded Individuals/Entities (LEIE) verification. Recredentialing is required every three years for all contracted providers and providers undergo the same rigorous assessment as in initial credentialing (RFP, 3.17, *MCO Responsibility* (a)(5)). Initial credentialing or recredentialing denials, for any reason, are reported to the FWA Committee on a quarterly basis and to DHHS within five business days of the denial. Meridian maintains an archive of denied enrollments for company and DHHS reference and reports are available upon request.

Quarterly assessments of sanctioned provider lists against Meridian's provider network are conducted and reported to the FWA Committee. The Chief Medical Officer is responsible for researching each sanctioned provider, sanctioned offenses, any claims history, and referring any

cases of FWA that may impact Meridian to the Compliance Officer. Meridian will provide a report to DHHS within 30 days of the termination of a provider contract due to suspected fraud, waste and abuse. The format of the report shall be developed and mutually agreed upon by DHSS and Meridian, but will include at a minimum any recommendations for changes to internal controls to minimize inappropriate payments and a statement of any monies recovered to date (RFP, 3.17, *Data and Information the MCO Shall Supply to DHHS* (f)).

**Q85. Describe your experience with fraud recovery collection. Provide any empirical evidence of your collection success rate when fraud is identified.**

Meridian has processes in place to recover and report overpayments due to fraud, waste and abuse. The Compliance Officer is responsible for overseeing the FWA Overpayments Account and reporting all cases and subsequent overpayments and activities to DHHS and OIG on a monthly and quarterly basis. In the event Meridian discovers that a claim was paid due to FWA, the Compliance Officer is notified and take backs are pursued. The Provider or member responsible for the submission of the fraudulent claim is notified in writing of the claim and amount owed. Meridian will pursue legal action in the event that overpayments are not submitted in a timely fashion.

Overpayments may also be collected using extrapolation. If a provider or member has committed large scale fraud against the health plan, Meridian will select a sample of claims and use a third party reviewer to evaluate the medical records alongside the claims. Meridian will use the results of the review to extrapolate on the provider's claims and demand overpayment for fraudulently paid claims. Meridian will withhold payments from non-compliant providers and track all monies through the FWA Overpayments Account. All tracked payments are submitted to DHHS in a manner specified by the State on a monthly and quarterly basis (RFP, 3.17, *Data and Information the MCO Shall Supply to DHHS* (a)).

Since 2009, Meridian has recovered approximately $4 million in claims related to fraud, waste and abuse through billing, procedures and DRG coding of medical professional and institutional claims. In addition, upon discovery of fraud, waste and abuse, Meridian may decide to deny pharmacy claims from a particular provider to prevent members from filling prescriptions and encourage them to seek care through their PCP. To date in 2011, Meridian has prevented approximately $120,870 in pharmaceutical claims from providers suspected of fraud, waste and abuse.

**Prevention Success:**

Meridian identified a member as doctor shopping and narcotic seeking. The member was locked into filling narcotic prescriptions written only by his PCP. However, the member attempted to fill a prescription for Vicodin ES written by a doctor other than his PCP. Meridian's POS edit denied and flagged the claim, and account activity was immediately monitored in real-time and Meridian detected that the pharmacy immediately attempted to run the prescription under another physician, again denied by the pharmacy lock POS edit. Subsequently, the pharmacy was referred for fraudulently billing for a controlled substance.

Within 10 business days, Meridian reviewed claims reports, hard copy prescriptions and signature logs and contacted the provider office and pharmacy. The pharmacy had billed under another physician in the same office and failed to document appropriate permission from the provider office to do so. The pharmacy received education on compliance with laws and guidelines surrounding proper documentation. Thanks to Meridian's pharmacy lock POS edit, the narcotic seeking member was denied a controlled substance and suspected fraud was addressed before the claim was paid.

**Q86. Describe your experience administering provider and pharmacy lock-in programs. Include any empirical evidence on their effectiveness.**

Non-compliant providers and members are both subject to pharmacy locks in accordance with criteria established and approved by DHHS and the New Hampshire DUR Board (RFP, 3.17, *Lock-in Programs* (a)). Members who meet narcotic seeking criteria through a minimum of 6 months of paid claims review are sent to DHHS for lock-in determination (RFP, 3.17, *Lock-in Programs* (b-c)). Upon DHHS written approval, members will be informed of the decision in writing, placed into a narcotic lock with their PCP and only permitted to fill narcotic prescriptions at one pharmacy. Meridian's MCS system has the capability to customize locks to meet the needs of the member. Meridian can lock the member to multiple physicians and pharmacies if necessary to coordinate the member's health care. Locks can also be changed on an as needed basis depending on the needs of the member – Meridian does not have a waiting period to change a lock if a member is at a pharmacy and in need of medication. All locks can be changed immediately and pharmacy claims adjudicated as necessary. To date for 2011, Meridian has placed 368 members into a pharmacy lock program. Many of these members received customized case management, substance abuse, and member compliance intervention services to assist the member in coordinating care and modifying narcotic seeking behavior. In 2011 to date, 165 members have met Meridian's standards for compliance, a success rate of 45% overall. Pharmacy lock-in information and any change to the status of a member's pharmacy lock are reported to DHHS in a monthly report (RFP, 3.17, *Lock-in Programs* (g-h)).

Providers who exhibit fraudulent behavior, inappropriate prescribing patterns, over prescribing narcotics, or providing prescriptions that are not medically indicated are also subject to pharmacy restriction. Meridian will restrict their DEA number and any attempt to fill a prescription using their DEA number will be denied. To date for 2011, this method has allowed Meridian to prevent payments of $120,870 for prescriptions from providers meeting these criteria. Both members and providers are informed of this type of corrective action plan prior to pharmacy lock placement so that they can make any modifications needed to comply.

**Q87. Besides lock-in programs, describe other fraud and abuse prevention programs that you would propose to operate across the FFS program and the MMI.**

1. Meridian proposes to spearhead the development of and provide initial funding for a fraud, waste and abuse information-sharing workgroup or committee made up of appropriate staff of the other MCOs who have been awarded a contract following this RFP as well as designated state representatives such as DHHS and MCFU staff. The group would meet on a quarterly basis and discuss recent trends, innovative detection methodologies, and exchange of information designed to prevent fraud, waste and abuse across the entire system.

2. Meridian has successfully implemented Member Compliance Programs in other states and proposes to do the same in New Hampshire. We proactively investigate all cases of suspected narcotics abuse and excessive Emergency Room (ER) utilization, as such behavior is indicative of members who do not understand the most effective manner in which to utilize their healthcare benefits. Information received from Meridian Providers, Prescribers, and other contracted entities, as well as from Meridian staff, is forwarded to the Manager of Member Services to initiate the process for the member's referral to the Member Compliance Program. The Member Compliance Program works, through the investigation of referred cases, to educate members displaying non-compliant behavior while providing the tools and resources necessary for members to effectively manage their healthcare.

   The Member Compliance Program provides members with the opportunity to work one-on-one with a Compliance Analyst who is assigned to their case. By assigning each member a specific Compliance Analyst, Meridian ensures the member's access to the Meridian staff member who is most knowledgeable of their medical conditions and healthcare history. The Compliance Analyst engages the member's PCP as well as other specialty providers which the member has seen. The Compliance Analyst also works hand-in-hand with appropriate staff from Meridian's Utilization Management department, whenever the clinical advice of such staff is necessary for coordinating the member's healthcare.

   The Compliance Analyst works with the member to schedule PCP appointments, as well as specialty provider appointments, as recommended by the member's PCP and/or specialty provider. Transportation and gas reimbursement arrangements are also scheduled by the member's Compliance Analyst in an effort to decrease barriers prohibiting the member's compliance with managing their healthcare. In addition to scheduling provider appointments and transportation, the Compliance Analyst provides reminder notices prior to and conducts follow-up after all member interaction with the entities responsible for managing the member's healthcare needs. Additional follow-up may include the distribution of informational packets specific to the member's condition(s) (coping with stress, substance abuse, pain management, etc.), as well as personalized letters to the member reinforcing issues that were discussed telephonically.

   While one function of the Compliance Program involves educating members as to the healthcare benefits and services available to them through Meridian, Compliance Analysts take initiative to inform members of additional benefits and services available to them through the State Medicaid Program. For example, substance abuse services are often not a covered benefit under Medicaid managed care program. In these types of cases, Compliance Analysts work with members to coordinate such services through the State Medicaid Program.

The Compliance Program has shown quantifiable success in decreasing abusive ER utilization by Meridian members, while increasing member utilization of PCP/Medical Home services. In addition, Meridian has discovered (through the successful implementation of its Compliance Program) that members, when provided the education and resources necessary, are receptive to the idea of working with a Compliance Analyst to most effectively manage their healthcare. Through the analysis of member claims data, former members of the Meridian Compliance Program have shown both measurable (and positive) changes in behavior as it relates to utilizing the appropriate channels when receiving healthcare services.

3. In order to prevent systemic fraud, waste and abuse across the FFS and MMI, Meridian proposes to provide state agencies with direct, real-time access to its live claims data (RFP, 3.17, *Encounter/Claims* (a)). This will allow state agencies to obtain and aggregate current and historical information once suspicions arise and to quickly analyze data to confirm trends. If awarded a contract, Meridian proposes facilitating this access initially through a secure VPN connection and, later, through a web-based government-partner portal with secure, 24/7 accessibility.

**Q88. Describe any internal training programs that your MCO uses to train employees to recognize and report patterns of fraud and abuse.**

Meridian firmly believes that the best prevention for FWA and non-compliance comes in the form of training and education, constant auditing and monitoring, establishing candid, open lines of communication, strong point of sale prevention measures, and correcting non-compliant behavior in members. The Compliance Officer is responsible for attending any training given by DHHS and administering training and education, developing comprehensive internal and external auditing measures, promoting interdepartmental communication about compliance, and analyzing new areas of risk in an effort to develop innovative medical and pharmaceutical point of sale edits to prevent the payment of fraudulent claims.

***Training and Education***

The Compliance Officer oversees FWA and Compliance training for all employees. Employees receive copies of all FWA policies and procedures and undergo training within the first three days of employment regarding 42 CFR § 455.2 definitions, examples of FWA, FWA's severe societal implications, applicable State and Federal laws, prevention and detection methods, and required reporting. Employees also undergo a mandatory refresher course in FWA and Compliance on an annual basis. The Compliance Officer disseminates employee handbooks, newsletters, and notifications to educate employees regarding FWA and Compliance and to provide ongoing education, establish open lines of communication, encourage reporting, and convey well-publicized disciplinary guidelines. Meridian's Compliance Officer makes appearances at department meetings when the opportunity for continued education arises and upon request.

Meridian's members and providers receive information regarding FWA through handbooks, manuals, and semi-annual newsletters cultivating network knowledge and awareness of FWA and encouraging prompt reporting of instances of suspected non-compliance with State, Federal and DHHS guidelines. Information in the form of provider notices, updates, policy changes, provider resources, and contact information will be posted on Meridian's website (RFP, 3.17, *MCO Responsibility* (b)). Any additional, targeted training provided to Meridian's provider network will be reported in an annual report to DHHS (RFP, 3.17, *MCO Responsibility* (c)). The

Compliance Officer bases continuing education on current trends in healthcare FWA, such as upcoding and identifying narcotic seeking behavior for providers and the fraudulent nature of ID card and Medicaid number sharing for members.

***Auditing and Monitoring***

Meridian develops an annual auditing and monitoring plan based on training from DHHS and other anti-fraud and compliance entities such as the National Health Care Anti-Fraud Association (NHCAA) and Health Care Compliance Association (HCCA), research on current FWA trends, and extensive risk analysis. The Compliance Officer monitors maintenance and the implementation of changes in company policies and procedures, works with the Information Technology department in building new system edits, and enforces disciplinary guidelines in the event of non-compliance with established standards of conduct. Meridian audits and monitors internally as well as externally in an effort to maintain company and network compliance. Meridian supplies DHHS with the auditing and monitoring work plan, the results and a summary of findings on a quarterly basis.

***Open Lines of Communication***

The Compliance Officer establishes open lines of communication with all employees through new employee and annual training, quarterly newsletters, handbooks, attendance at department meetings and periodic notifications. Through these resources, employees are constantly reminded who the Compliance Officer is and how to report non-compliance. The Compliance Officer and Program Integrity division have created an "open door policy" culture throughout Meridian. By incorporating staff from each department on the FWA Committee and within the Program Integrity division, Meridian employees have a strong sense of inclusion and participation in the mission of companywide compliance and integrity. The Compliance Officer and Program Integrity division consistently remind Meridian employees that questions and clarifying discussions regarding compliance and FWA are welcome and valued.

**Q89. Describe how you engage members in preventing fraud and abuse.**

Meridian understands that our members play a significant role in preventing health care fraud, waste and abuse. Members can provide Meridian with first-hand accounts of provider and pharmacy office sites, interactions with providers and other important information Meridian can use in detecting and preventing fraud, waste and abuse. Due to the important role members can play in identifying and reporting suspicious behavior, Meridian has made it a priority to engage members in the detection, reporting and prevention of health care fraud, waste and abuse. Meridian understands that to reach a large network of members, it is important to provide information through a variety of methods. Meridian provides members with information regarding fraud, waste and abuse through semi-annual member newsletters, on our easy-to-navigate website, and in our member handbook, which is provided to members upon enrollment and annually thereafter. Meridian also understands that the low-income population requires information to be presented in a way that is easy to understand. Members are provided with definitions and examples of fraud, waste and abuse; they are reminded that reports to Meridian and to DHHS are encouraged and can be made anonymously; and they are provided with toll-free fraud hotlines, email addresses, and physical mailing addresses of both Meridian and DHHS to encourage members to report fraud, waste and abuse when they see it. We also send members

Explanations of Benefits (EOB). These EOBs are a way for members to alert Meridian about potential discrepancies in claim billing or prescribing.

Meridian administers a Member Compliance Program that proactively identifies members that may have narcotic seeking tendencies, or excessive emergency room (ER) utilization and assists them in effectively utilizing their healthcare benefits. The Compliance Officer has specified narcotic seeking identification reports that identify diagnoses such as opiate abuse, poisoning by amphetamine or opiates, drug abuse, drug overdose, and issue of repeat prescriptions. Compliance Specialists research each member identified and assess the need for Compliance Program intervention. Members work one-on-one with a Compliance Specialist who locks the member's ability to fill narcotic prescriptions to their PCP, helps the member establish a relationship with that PCP, coordinates with specialists, and provides information on resources for substance abuse and other community programs.

Members reported for ID card sharing are enrolled into the Member Compliance Program. The Member Compliance Specialist locks the member to receiving narcotic prescriptions from only their PCP at only one pharmacy to prevent possible payment of fraudulent pharmacy claims. The Compliance Specialist provides targeted, verbal and written education to the member regarding ID card sharing and explains the possibility of being responsible for the payment of any services fraudulently obtained and the loss of healthcare benefits. The Compliance Specialist alerts the member's PCP to the situation and monitors each claim paid for the member. If fraudulent activity is suspected, medical records are requested and a preliminary investigation is initiated. Evidence is gathered from provider offices and pharmacies and the OIG is notified.

Meridian recognizes that members requiring Compliance Program intervention may be more likely to commit FWA. Compliance Specialists are specially trained to detect FWA in these members and coordinate closely with SIU staff in promptly reporting and responding to cases of member FWA. To date in 2011, 83% of member FWA cases in which the member was found at fault came from referrals from Meridian's Member Compliance Program.

(The remainder of this page intentionally left blank)

## 3.18 Third-Party Liability

Meridian understands its responsibility for identifying and collecting third-party liability (TPL) information. In accordance with Title XIX of the Social Security Act and Federal Regulation 42 CFR 433.138-433.139, Meridian is the payer of last resort and shall be used as a source of payment for covered services only after all other sources of payment have been exhausted. Third parties include commercial health insurance, automobile insurance, general liability policies, homeowners/renter insurance, workers' compensation insurance, medical malpractice insurance, product liability insurance and other types of casualty insurance. We make every effort to determine the legal liability of third parties to pay for services rendered to members (RFP, 3.18).

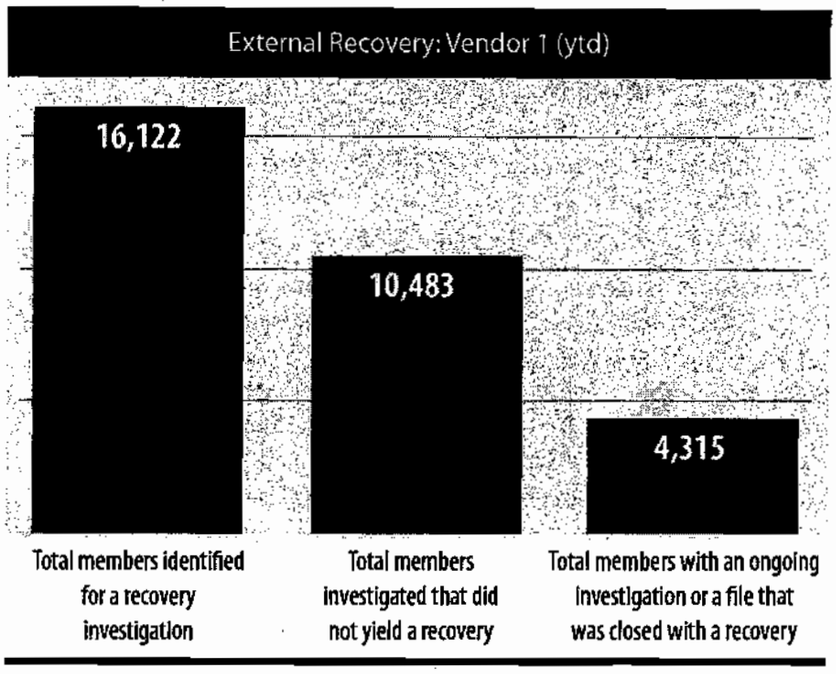
Our custom technology allows for the data and records storage and the flexibility of handling file transfers as suitable to New Hampshire's Medicaid MMIS and exceeds all requirements listed (RFP, 3.18e, 3.18h, 3.18i, 3.18m, 3.18n). We are prepared to electronically exchange detail claim history on a request basis (RFP, 3.18f, 3.18j, 3.18l) and provide a monthly file of COB collection efforts (RFP, 3.18k).

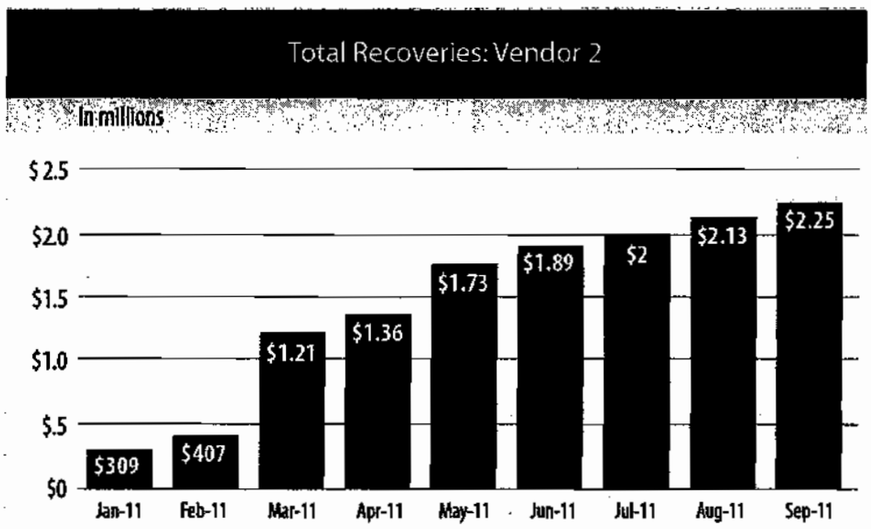
Effective pursuit of all third-party resources provides an opportunity to increase cost savings, and Meridian takes its responsibility to pursue erroneous payments seriously. Over the years, we have developed a significant level of experience and expertise in handling TPL claims and we will bring this extensive experience to the State of New Hampshire.

**Q90. Describe your TPL recovery experience. Provide empirical evidence of your collection percentage against TPL identification.**

Meridian pursues all TPL information to identify the appropriate party responsible for the claim. We use a number of systems and processes to help us with this task including:

- MCS prevents claims from being paid where information indicates that other insurance may be available;
- The Utilization Management Department evaluates the potential for other responsible parties due to diagnoses and history that may indicate homeowner's, auto or worker's compensation coverage; and
- In some cases Meridian uses contracted vendors, HMS, Inc. (Vendor 1) and First Recovery Group (Vendor 2) to perform some duties such as:
    - Recovery of money from automobile insurance companies, general liability policies, liability policies, homeowners/renter insurance policies, workers' compensation insurance policies, medical malpractice insurance companies, product liability insurance policies and other types of casualty insurance policies.
    - Recovery auditing services to health care payers who utilize the Diagnosis Related Group (DRG) methodology for acute inpatient claims payment.
    - Services provided to help government-funded programs and commercial programs uncover healthcare benefits available to their beneficiaries so that these programs can coordinate benefits properly and recover claims that were paid erroneously.





**Q91. Describe how you will maximize the identification and recovery of TPL.**

Meridian's coordination of care services vendor has developed a National Eligibility Database of health plan eligibility data from over 1,000 insurance carriers nationwide. Our vendor also accesses coverage information from other government healthcare programs, such as Medicare and TRICARE. By matching a program's eligibility files to its database, the vendor can identify instances where program beneficiaries receive health coverage benefits from other sources, and investigate claims that have been paid erroneously for these individuals. Recovery is initiated either by billing the liable carrier directly or by providing the correct coverage information to the provider of service.

**Q92. Describe your method and process for capturing third-party resource and payment information from your claims system.**

MCS records and tracks all TPL insurance through eligibility and claims processes. As a condition of eligibility for Medicaid, beneficiaries must identify all third-party resources unless they have "good cause" for not cooperating. This information can be captured from staff interaction with members, data files from the State, providers or querying of the National Eligibility Database discussed in the previous question.

**Q93. Describe the process you use for retrospective post-payment recoveries of health-related insurance, as well as your process for adjudicating a claim involving an auto accident.**

Automobile accident claims are identified by diagnosis codes (E810 to E819.99) and/or box 10B on the CMS 1500 claim form. If a claim is related to an automobile accident, it must be submitted to the automobile carrier first. The claim will be denied by Meridian with instructions to file with the automobile carrier. After the claim has been filed with the automobile carrier, the claim can be submitted to Meridian with the other carrier EOB for review of payment, if applicable. Once TPL is discovered, MCS automatically notifies staff and triggers take backs covering similar timeframes and related procedures.

**Q94. Describe your collection rate of TPL when a third-party payer is identified.**

When other insurance information is obtained and verified it is added into MCS's Third Party Liability (TPL) section. The coverage date range is included in this system information. When any new TPL information is added to the system and there is a claim that falls within the appropriate date range, MCS sends a notification of possible take back. If it's determined that this should have been paid by other insurance, the money will be taken back from any future payments made to this provider until all funds have been recovered.

**Q95. Describe your process for sharing TPL information with DHHS.**

Meridian is fully prepared to accommodate New Hampshire's requirements for sharing TPL information. Data access will be shared through monthly and as needed transfers of data in delimited text format. Meridian's team of in-house data specialists allows us to satisfy state requirements as they change during the course of the contract.

Meridian's claim history includes all data elements specified (RFP, 3.18j). Our delimited text files include Medicaid member name, Medicaid member ID, dates of service, claim unique identifier, national diagnosis code, diagnosis code description, national drug code, drug code description, amount billed by the provider, amount paid by Meridian, amount of other insurance recovery, date claim paid and performing provider.

Each month, we will transfer a delimited text file of COB collection effort and results including Medicaid member name, Medicaid member ID, insurance carrier/PBM/benefit administrator ID, insurance carrier/PBM/benefit administrator name, date of service, claim unique identifier, date billed to the insurance carrier/PBM/benefit administrator, amount billed, amount recovered, denial reason code, denial reason description and performing provider (RFP, 3.18k).

Meridian will also transfer a monthly file of detail claims data per the specifications listed (RFP, 3.18l). The delimited text file will include Medicaid member name, Medicaid member ID, Medicaid member date of birth, Medicaid member address, referring provider name, referring provider NPI, rendering provider name, rendering provider NPI, rendering provider address,

dates of service, place of service code, type of bill code, revenue code, admission date and time, occurrence codes, occurrence date, admission national diagnosis code, source of admission code, discharge hour, patient discharge statues code, national procedure code, procedure code description, national diagnosis code, diagnosis code description, amount provider charged and amount Medicaid paid.

We maintain record systems for services to members and shall provide data file access to DHHS staff (RFP, 3.18n).

Meridian retains records in accordance with 42 CFR 74, 42 CFR 434.6, 45 CFR 74.53 and $% CFR 92.36 (RFP, 3.18m).

(The remainder of this page intentionally left blank)

## 3.19 Administrative Quality Assurance Standards

Meridian processes and pays all clean claims received from network and non-network participating providers in the most timely and efficient manner, according to state and federal guidelines (RFP, 3.19.1, paragraph 1).

Meridian monitors, on an ongoing basis, practitioner and provider claims submissions to assure appropriateness of billing practices and service delivery (RFP, 3.19, paragraph 1). Any indication of false or fraudulent billings, or failure to return monies paid for claims retrospectively determined to be fraudulent, is immediately reported to the appropriate Program Investigation Section. Meridian conducts an independent investigation simultaneously coordinating and cooperating with the Program Investigation Section investigation. Meridian also fully cooperates with the Program Investigation Section in any subsequent legal action that may result from either or both investigations.

Examples of fraudulent claims submission include billing for services not rendered, billing without reporting other resources such as private insurance companies, billing for brand name drug not dispensed, billing for pharmacy prescriptions not picked up or delivered to members, billing for unnecessary services, billing a date of service other than the actual date the service was rendered, and filing fraudulent cost reports.

The Finance Department assists the Claims Department in these efforts by sending out periodic Explanation of Benefits letters (EOBs) to members. Members are asked to compare the EOBs with statements received from their providers, and to contact Meridian in the event of any discrepancies or questions.

**Q96. Describe your internal claims quality review program, including staffing, type and frequency of reviews, sampling methodologies, definitions of errors, performance measure calculations, and performance standards.**

Meridian's commitment to quality extends to its internal claims processing operation. The expectation of processing claims correctly the first time ensures prompt turnaround while minimizing costs. Meridian accurately processes claims, with a company-wide quality average for all claims of 99.57%, surpassing New Hampshire's stated goal of processing 95% of all claims correctly (RFP, 3.19.1, paragraph 1). Meridian will pay 99% of dollars accurately and 97% of claims accurately (RFP, 3.19.3 and 3.19.4).

Highlights of Meridian's internal claims quality review program include:

- Meridian's Claims Examiners, responsible for processing claims and Vertexers, in charge of scanning paper claims, participate in daily quality reviews.
- A minimum of 5% of the institutional and professional claims processed by each Examiner and scanned by each Vertexer are reviewed at random.
- Our review process includes manual oversight from Managers and Directors, as well as electronic review, which automatically corrects errors at the time of audit.
- Every claim audited is checked against a defined list of errors, including incorrect/missing information and dates, incorrect codes, and referral/authorization needed.
- Meridian's accuracy ratio is calculated by taking the sum of all error weights divided by the total number of claims reviewed during the audit period. This calculation is consistent with the formula used by New Hampshire (RFP, 3.19.5).

**Q97. Provide the results of your internal claims quality review program for the past 12 months.**
Meridian employee performance on quality review audits for the past 12 months demonstrate our outstanding track record of scanning and processing claims. Both groups of employees exceed New Hampshire's stated quality goal of 95%.

| Claim Department Quality Report | | | | | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| Claim Examiners | Nov-10 | Dec-10 | Jan-11 | Feb-11 | Mar-11 | Apr-11 | May-11 | Jun-11 | Jul-11 | Aug-11 | Sep-11 | Oct-11 | Average |

**Q98. Describe any failures to meet claims accuracy standards for any of your contracts over the last two years that resulted in not meeting your service level agreements with your customers. Describe the steps you took to correct these situations.**
Meridian has never failed to meet claims accuracy standards for a contract.

**Q99. Describe any other administrative quality assurance monitoring conducted by your organization.**
Meridian prides itself in partnering with the states we serve to create the utmost confidence in our quality assurance program. We undergo site and process audits from state external quality review organizations like Health Services Advisory Group (HSAG). Our processes comply with URAC and NCQA accreditation requirements.

Our claims process is SAS 70/SSAE 16 compliant. The result of the most recent audit can be found in Appendix J.

**Q100. Describe your processes and procedures to monitor claims payment timeliness, including operational monitoring reports and business practices employed to monitor and address aging claims.**

Meridian monitors its claims payment timeliness using a MCS report, run three times each day. This report shows the claim received date, the number of claims for each date and the total of outstanding claims.

Each Monday, a report showing outstanding claims by date received allows us to prioritize claims processing for the week on a first in, first out basis. As claims timeliness is a corporate objective, status is also reported to the Executive team at weekly meetings. We will report to DHHS on a monthly basis (RFP, 3.19.2, paragraph 1) and implement corrective action plans for any errors encountered (RFP, 3.19.2, paragraph 3).

**Q101. Describe the current claims payment timeliness standards used within your organization.**

Meridian guarantees that every clean claim submitted will be paid in 10 working days or less. In fact, Meridian's average turnaround time is only 2.5 working days. We exceed New Hampshire's requirement to pay all claims within 60 days of receipt. Interest will be paid on any clean claims not paid within 30 days (RFP, 3.19.1, paragraphs 1-3).

**Q102. Provide your organization's actual performance for the last 12 months in relation to your claims payment timeliness standard.**

Meridian gauges its performance on the claims payment timeliness standard through weekly reports. The below example demonstrates our performance for the last 12 months.

Reading the report, the date a batch of claims was processed is listed in the header with corresponding dates of work listed below. For example, a batch of 4,500 claims was processed on 1/3/2011. Those claims were sorted, scanned and vertexed 2 working days prior to processing, showing the carryover from Monday to Friday.

**Q103. Describe the system you use to process claims.**

The development of our Managed Care System (MCS) is one of the most noteworthy operational accomplishments of Meridian. MCS integrates all functions and related data into one system, creating a comprehensive source of information about individual members, as well as the population as a whole. By offering access to the same information for provider offices, Meridian bridges the communication gap that often exists between providers and health insurance companies. It is this ability to integrate all of the organization's data into one easily accessible and flexible system that has enabled us to efficiently process clean claims at an average of 2.5 days and to guarantee that all clean claims will be processed within 10 days.

Meridian's MCS Claims module is designed to meet the needs of efficient and timely claims processing. Used successfully since 2005, the Claims module offers broad functionality and enables Claims staff to quickly and accurately run reports, edit claims, and process appeals. A recent HSAG audit recognized MCS as being among the best claims processing systems in the country.

Meridian notifies requesting providers of any decision to deny a claim or to authorize a service in an amount, duration, or scope that is less than requested. Meridian providers have access to MCS through the Provider Portal to facilitate the flow of information between Meridian and network providers. By offering access to MCS in provider offices, Meridian makes the communication process with providers extremely efficient. Providers with MCS access can:

- View their current or historical member eligibility
- View the payment status of claims submitted to Meridian
- Download detail files of enrollment, eligibility, authorizations and claims payment data for loading into their billing and practice management systems
- Access member and family profiles and view reminders of preventive service needs.
- Self-report on HEDIS measures for their members
- Enter new claims directly into MCS and edit any rejected claims
- Enter authorizations and referrals

MCS accessibility in provider offices reduces the number of phone calls and faxes transmitted between the providers and Meridian. Furthermore, MCS also enables providers to spend less time on paperwork and more time treating patients. In-network and out-of-network providers benefit from the efficiencies built into MCS. Claims can be received via mail, fax, or EDI; currently 88% of all claims are submitted electronically.

MCS also handles the special claim needs of other providers, such as FQHCs, RHCs and teaching hospitals. Because MCS was developed in-house, upgrading existing claims functions or creating new functions based on emerging needs is easily accomplished. This flexibility ensures that Meridian claims processing software is optimally responsive and reflects the special claim adjudication needs of the range of providers serving New Hampshire's Medicaid members.

MCS automatically adjudicates electronically-loaded claims, with a current auto-adjudication rate of 80%. This rate refers to claims processed by the system using criteria based on Medicaid guidelines and pricing files, without requiring staff intervention.

## 3.20 Delegation and Subcontractors

Meridian will work with subcontractors where greater expertise is needed to deliver the highest level of service in accordance with our contractual obligations to the state. Meridian assumes all responsibility and accountability for the activities and performance of each subcontractor, and will evaluate subcontractor performance in order to achieve the performance level expected. All activities and reporting requirements, including sanctions and penalties for inadequate performance, shall be documented in a written agreement between Meridian and the subcontractor. In the event that Meridian identifies inadequate performance, we shall take corrective action (RFP, 3.20, paragraph 4). Subcontractors will be held to all contractual and RFP requirements as Meridian is responsible to ensure subcontractor compliance with the requirements (RFP, 3.20, paragraph 1). All subcontractors will be reviewed and approved by DHHS (RFP, 3.20, paragraph 3).

Meridian will ensure the following when functions are delegated to an external organization (RFP, 3.20, paragraph 2):

- Evaluate the prospective subcontractor's ability to perform the activities, before delegating the function
- Have a written agreement with the delegate that specifies activities and reporting responsibilities and how sanctions/revocation will be managed if the delegate's performance is not adequate
- Monitor the delegates' performance on an ongoing basis
- Provide to DHHS an annual schedule identifying subcontractors, delegated functions and responsibilities, and when the subcontractor's performance will be reviewed
- Audit their systems annually

**Q104. Describe your subcontracting plan, in detail, if you intend to subcontract with other entities to perform portions of the Scope of Work.**

Wherever possible, Meridian attempts to perform all elements set forth in the Statement of Work internally by Meridian staff. We have found that, in most cases, handling critical functions in-house provides increased control over the quality of service provided and results in greater value for taxpayer dollars. For instance, two years ago our organization internalized management of the behavioral health benefit across all lines of business in every state where we operate. This has resulted in a complaint and grievance rate of zero related to behavioral health across all lines of business. However, there are certain areas where Meridian will utilize subcontractors with specific expertise in order to provide the best, most cost-effective service possible.

**Q105. List the names and addresses of the Subcontractors to be used, as well as their location(s).**

- CMC is headquartered at 777 Woodward Avenue, Suite 600, Detroit, Michigan 48226.
- MeridianRx is headquartered at 1001 Woodward Avenue, Suite 700, Detroit, Michigan 48226.
- TMS is located at 13825 ICOT Boulevard, Suite 613, Clearwater, Florida 33760.
- MultiPlan is located at 115 Fifth Avenue, New York, NY 10003.
- PALS is located at 900 Wilshire Drive, Suite 105, Troy, Michigan 48084.
- FRG is headquartered at 26899 Northwestern Highway, Suite 250, Southfield, MI 48033.
- HMS is headquartered at 401 Park Avenue South, New York, NY 10016.
- Med-Connection is headquartered at 309 Grand River Avenue, Port Huron, MI 48060.

**Q106. Describe the services that the Subcontractor will provide and provide evidence of their experience providing those services.**

*Administrative Services*

Meridian will engage Caidan Management Company, LLC (CMC) to perform an array of administrative services which will allow Meridian to provide the services described in the Statement of Work. CMC shares the same parent organization as Meridian and, thus enjoys the efficiencies through integration described above. Pursuant to an Administrative Services contract, CMC will perform the following services:

1. Claims processing and adjudication
2. Member enrollment and eligibility verification
3. Medical management
4. Behavioral health
5. Quality improvement activities
6. Authorizations, denials, and appeals
7. Complaints and grievances
8. Provider recruitment and education
9. Support staff for credentialing activities
10. Member services / call center operations
11. Member compliance program
12. Risk management
13. Administrative, technical, and day-to-day operational duties
14. Information technology and management services
15. Banking, accounting, and financial matters
16. Support staff for compliance and fraud, waste and abuse activities

CMC has been providing the described services for over 15 years to Medicaid and Medicare plans in Michigan, Illinois and Iowa. CMC hires locally-based personnel in each of the states in which it operates and the same will be the case in New Hampshire.

*Pharmacy Benefit Management*

Meridian will engage MeridianRx, LLC (MeridianRx), a full-service PBM, to perform pharmacy benefit management services for its membership. Similar to Caidan Management Company, MeridianRx shares the same parent organization as Meridian, which results in superior access to information and a greater overall level of service. MeridianRx maintains a comprehensive national network that covers all 50 States, the District of Columbia, the United States Virgin Islands, American Samoa, the Northern Mariana Islands, Puerto Rico and Guam. The breadth of the MeridianRx network ensures convenient access to prescriptions at deeply discounted rates.

MeridianRx uses a variety of tools such as drug utilization review and disease management to encourage the best clinical outcomes for patients. They also provide patient information in multiple formats, including a user-friendly web portal, mailings, newsletters and our award-winning call center. MeridianRx utilizes panels of highly-qualified, independent physicians, pharmacists and other clinical experts to develop lists of drugs approved for reimbursement in order to encourage clinically appropriate and cost-effective prescribing. MeridianRx offers access to highly efficient mail-service pharmacies that safely and accurately supply home-delivered prescriptions at a substantial savings. MeridianRx utilizes cutting-edge e-prescribing technology, which provides physicians with clinical and cost information on prescription options

allowing them to better counsel patients on the safest and most affordable medication choices. MeridianRx offers a 24/7 toll-free hotline with access to pharmacy service representatives, provider service representatives and pharmacists to address any client or patient related issues.

*Non-Emergency Medical Transportation*

Meridian will subcontract non-emergency medical transportation services to TMS Group, Inc. (TMS).

TMS is an experienced transportation management / brokerage firm specializing in managing Non-Emergency Medical Transportation (NEMT) services. TMS, through their Principals, have provided coordinated transportation services since 1991, and during this time, TMS's principals perceived the need for a provider–friendly broker model for transportation. As a result, TMS has fielded a formidable team of "hands–on" transportation professionals who have spent their careers steeped in the Medicaid, Medicare, ADA, and transportation disadvantaged culture. All project operations and networks are constructed with the guiding principle of their business model in mind: Agency Efficient, Client Sensitive, and Provider Friendly.

TMS's existing client base features numerous prominent public sector agencies and private, managed care organizations. TMS prides itself on delivering outstanding NEMT to all clients.

*Provider Network*

Meridian will subcontract with MultiPlan, Inc. (MultiPlan) to supplement its own provider network to create the most comprehensive Medicaid provider network available in New Hampshire. MultiPlan has participated in the Texas Medicaid market since 2004 and is currently developing Medicaid networks in Ohio and Kansas, with a number of other states under consideration.

*Translation and Interpretation Services*

Meridian will subcontract with PALS International (PALS) to provide foreign language translation services. PALS is a woman-owned business that has been operating since 1983.

PALS provides written translation services in 170 languages, including Spanish, French, German, English, Arabic, Chinese, Japanese, Korean, Italian, Polish, Russian, Portuguese, and Hmong. Using state-of-the-art computer phone technology with high-quality, professional linguists, PALS is capable of producing unique oral interpretation services of extraordinary speed and reliability. PALS provides immediate 24/7 access to over 150 languages supported by over 1,000 professional, certified linguists within an average connect time of 30 seconds.

*Coordination of Benefits and Third-Party Liability*

Meridian intends to subcontract with HMS, Inc. (HMS) for assistance with coordination of benefits and third-party recoveries. HMS has 25 years of practical experience and a host of services available to help government-funded healthcare payor programs, such as Medicaid, uncover healthcare benefits available to their beneficiaries so that these programs can coordinate healthcare benefits properly and recover claims that were paid erroneously.

HMS's COB-related services include the following:

- Other coverage identification and recovery
- Cost avoidance
- Case management and systems

- Child support
- Military services

HMS applies proven data mining techniques to locate valid other coverage available to healthcare program beneficiaries, and can pursue recoveries for healthcare overpayments or claims that were paid inappropriately.

*Claims Recovery*

Meridian will subcontract with First Recovery Group (FRG) for claims recovery services. FRG is the largest independent healthcare cost management company focused solely on subrogation claims recovery. FRG represents HMOs, TPAs, insurance companies, self-insured corporations, PHOs, IPAs, and MSOs that cover over six million lives nationwide. FRG receives a data feed of all paid claims from a healthcare payor and, using its exclusive SubroMAX® system, analyzes ICD-9 codes, CPT codes and episodes of care, to identify cases with recovery potential. They are also able to search court records, insurance databases, and workers compensation records.

*After-Hours Call Center*

Meridian intends to contract with Med-Connection to provide after-hours call center services. Med-Connection was founded in 2001 and provides high-quality, customizable call center services to healthcare organizations. Med-Connection maintains stringent hiring guidelines and employs a robust and continuous training program based on health plan needs and requirements. Med-Connection dedicates staff to a single account in order to provide the maximum level of attention to callers. Their focus is on resolving issues in a single call and to the satisfaction of the caller 100% of the time.

**Q107. Describe how you will monitor the performance of your subcontractors to ensure all RFP and Sample Contract requirements are met. Provide sample reports showing any actions taken to improve performance and ensure positive results.**

Because Meridian is ultimately accountable for the performance of its subcontractors, we take seriously our monitoring and oversight obligations. At a minimum, Meridian requires all of its subcontractors to meet and exceed URAC performance standards and has checks in place to ensure this occurs.

These include regular subcontractor performance statistics reporting, periodic site visits, annual audits of policies and procedures, full and complete investigation of all complaints or grievances related to a subcontractor, and a contractual requirement that each subcontractor comply with all provisions of Meridian's contract with DHHS, including all provisions of this RFP. Meridian will not utilize the services of any subcontractor without obtaining prior approval of DHHS.

**Q108. Describe data you will transfer with your subcontractor(s) and how that data will be transferred.**

To effectively integrate and utilize the expertise of subcontractors, sharing of information is necessary. All subcontractors are required to execute a Business Associate Agreement. All Meridian affiliated subcontractors utilize the same secure network servers as Meridian, allowing the safe and secure exchange of information in real time. All data (often consisting of utilization and claims data) is transferred to non-affiliated subcontractors through a HIPAA-compliant method such as secure File Transfer Protocol (FTP) or secure email.

Many of our key subcontractors are affiliated with Meridian as subsidiaries of our parent organization, Caidan Enterprises, Inc. Meridian's systems, such as MCS, are fully integrated with the systems of its affiliated contractors. This provides Meridian with unequaled access to member information in real time, which allows us to provide the highest level of care coordination and overall service to our members, providers, and DHHS. For instance, claims information maintained by MeridianRx, Meridian's affiliated pharmacy benefit management company, will be fed directly into Meridian's proprietary Managed Care System (MCS) platform, providing case managers, member services personnel, and other staff who have direct contact with members and their providers, with a comprehensive snapshot of a member's medical profile at their fingertips. This real time, electronic collaboration of all of a member's health information is unheard of in the industry today. The integration of systems and processes among our affiliated subcontractors streamlines and strengthens our ability to effectively conduct monitoring and oversight of subcontractor activities. It also maximizes effective communications, increasing Meridian's ability to implement changes to improve performance quickly and efficiently.

**Q109. Describe how subcontractors are integrated with your care management programs.**
Whether affiliated or not, Meridian takes all measures necessary to extract the best performance possible from its subcontractors. This includes working closely with subcontractors to implement processes aimed at achieving the greatest level of integration.

For instance, no care management plan can be effective if the member does not have a way to get to the doctor's office or the pharmacy. Staff at Meridian's NEMT subcontractor are trained that a three-way call or warm transfer will take place when Meridian is assisting with the scheduling of a doctor's appointment to ensure that transportation is set before the member ends the call.

Our care management program is integral to our success as a health plan. In order to effectively communicate with members who speak different languages, we utilize a certified translation and interpretation service to provide language support for members.

Our third party liability subcontractors identify members with alternative health insurance coverage. This assists our staff members in developing an appropriate care management program for our members. Meridian utilizes this information to arrange for the most appropriate providers and levels of care for such members.

Meridian's PBM is fully integrated with our care management programs. Our Pharmacy Case Managers identify and track members that require specialty medications. Our program includes pharmacist outreach to ensure that these providers are imperative to our care management programs and we will utilize efforts to coordinate care with them.

Meridian's subcontract with MultiPlan is designed to supplement our own provider network in order to create the most comprehensive Medicaid provider network in New Hampshire.

Meridian provides training and educational materials to its after-hours subcontractor so that the subcontractor's staff can effectively respond to the needs of Meridian's after-hours callers. Meridian ensures that its after-hours subcontractor documents all contacts with members and notifies Meridian staff of any follow up issues that may be needed. Meridian staff reviews the daily reports which include detailed call information to assist with its care coordination program.

The above examples are just some of the many ways that demonstrate Meridian's commitment to work with and integrate the services of its subcontractors in order to break down member barriers to access and provide them with the most meaningful service possible. Additionally, the Case Managers work directly with members to ensure they are compliant with their medications and understand the importance of medication adherence.

**Q110. Describe how subcontractors are integrated with your TPL and fraud and abuse programs.**
All subcontractors are expected to comply with all state and federal laws regarding program integrity and fraud, waste and abuse. Meridian requires all subcontractors to complete fraud, waste and abuse training on an annual basis and mandates that subcontractors report suspected fraud, waste and abuse of any kind to Meridian's Compliance Officer immediately. Meridian works with its subcontractors to implement processes to identify and prevent fraud, waste and abuse. Meridian also works with its subcontractors to identify Third Party Liability (TPL). Meridian will engage two subcontractors, HMS and First Recovery Group, to assist with the identification of TPL and the recovery of funds related to TPL. Other subcontractors have been informed of their obligation to notify Meridian upon receipt of information that indicates a member's claims may be subject to TPL. Meridian's TPL subcontractors assist Meridian in claims scrubbing and other various recovery activities to assist in the detection and prevention of fraud, waste and abuse.

Meridian's translation service, PALS, allows Meridian to better communicate with members where there might otherwise be a communication barrier in reporting potential fraud, waste and abuse. This population of non-native English speakers can sometimes be taken advantage of and become the target of schemes. It is particularly important that all members have the ability to report suspected fraud, waste and abuse. Members are not only informed that they can report fraud, waste and abuse, but they are also informed that PALS provides translation services in 81 different languages so that the communication of this crucial information is virtually seamless. Information regarding TPL in translated phone conversations is followed up for investigation by the appropriate party.

Meridian's subcontract with MultiPlan is designed to supplement our own provider network in order to create the most comprehensive Medicaid provider network in New Hampshire. Meridian has a comprehensive fraud, waste and abuse program that identifies areas of potential concern for provider fraud, waste and abuse.

Members of Meridian are provided with transportation via Meridian's NEMT subcontractor. Meridian's contract with its NEMT subcontractor outlines specific trips covered by Meridian and requires reporting of members attempting to take non-covered trips and submit for gas reimbursement for trips not listed as covered. TMS communicates with Meridian regularly regarding requests for non-covered services and suspicious activity by members and provider offices.

Meridian's after-hours service center submits periodic reports to Meridian that outline call volumes, answering time, member dissatisfaction, and any suspicious activity on behalf of Meridian members or providers. The answering service uses contact codes and Meridian is able to extract data from these codes to ensure that all incidents concerning potential fraud, waste and abuse are reported in a timely fashion. Meridian will follow-up upon notification of TPL by its after-hours subcontractor.

Meridian's PBM has the capability of implementing customizable Point of Sale claims edits upon request. This allows Meridian to take immediate action by preventing payment for drugs prescribed by a physician or dispensed by a pharmacy involved in fraud. Meridian's contract with the PBM also allows Meridian to customize desktop and onsite audit workplans. Meridian has the ability to determine areas of risk that have a high potential for fraud, waste and abuse and a high potential for return. Our PBM is built on the same platform as our health plan and the eligibility file is sent to our PBM nightly. Upon identification of any TPL issues, our PBM promptly notifies our health plan.

The examples given above are just some of the ways in which Meridian integrates its subcontractors into its TPL and fraud, waste and abuse programs.

**Q111. Describe any sanctions or penalties that apply if the subcontractor fails to perform up to the expectations of your organization. Attach sample performance monitoring reports.**

In instances where a subcontractor is failing to meet Meridian's stringent expectations, we take swift and decisive corrective action. The degree of corrective action depends on the severity of the deficiency, and ranges from additional education and training to immediate contract termination. Often, Meridian will address deficiencies through a corrective action plan which can span anywhere from 30 to 90 days. During this period, Meridian increases its monitoring activities through frequent meetings or phone calls with the subcontractor and requiring reporting on a more frequent basis in an effort to ensure that the deficiencies do not re-occur. If at the end of the corrective action plan timeframe the subcontractor at issue has failed to meet the measures required, Meridian proceeds to contract termination. Also, if at any time during the pendency of the corrective action plan it becomes clear that the subcontractor at issue cannot achieve necessary performance standards, Meridian will similarly terminate the contract.

To avoid situations where subcontractor termination becomes necessary due to insufficient performance, Meridian will proactively conduct rigorous pre-delegation reviews of all non-affiliated subcontractors prior to presenting to DHHS for approval and entering into a contract. This may include reference checks, review of the List of Excluded Individuals and Entities (LEIE), verification of licensure, if applicable, review of accreditation status, and pre-contract site visits.

## 3.21 Privacy and Security of Member Information

Meridian acknowledges that DHHS shall be the owner of all data and will approve access to any of this data. We will be in compliance with all privacy policies established by governmental agencies or by state or federal law. Meridian has made an organization-wide commitment to the privacy and security of member information and has written policies and procedures that will be provided to the State, who may amend them at their discretion. We will provide adequate security measures for any data that is transmitted between Meridian and the State, or data within our network, storage, or cache. (RFP, 3.21, paragraph 1).

As a covered entity under HIPAA, Meridian is keenly aware of its responsibilities regarding the protection of member information and has implemented policies and procedures designed to safeguard such information. Meridian educates its employees and requires them to be cognizant of the requirements of HIPAA and implementing regulations (i.e. the Privacy Rule and the Security Rule) at all times in the performance of their job functions. Meridian fosters an environment of open communication in order to learn of privacy or security incidents and respond to them quickly and appropriately.

Meridian has designated a Privacy Officer, a Security Officer and a Privacy and Security Committee that meets quarterly and as often as necessary to develop, implement, maintain, and modify as necessary Privacy and Security policies and procedures that are compliant with Federal, State, and government agency laws, regulations and guidelines. Meridian will regularly check and maintain compliance with all privacy policy changes posted to the State portal. The Privacy Officer and Security Officer are readily available to Meridian staff. Their contact information is circulated on a regular basis through various communication tools including training, handbooks and newsletters so as to eliminate employee confusion or hesitation in the event they have questions related to their responsibilities or need to report a privacy incident as required by Meridian policy. All Meridian employees are trained upon hire and then annually thereafter regarding HIPAA, HITECH, and all relevant privacy regulations and guidelines.

Meridian has implemented administrative and technical safeguards in compliance with Federal and State regulations including the following:

- All documents containing protected health information (PHI) are shredded prior to disposal
- All doors to areas that house records containing PHI (or to file cabinets housing such records) remain locked at all times when not actively supervised by authorized personnel
- A key, pass-code or swipe card is required to gain entry into all areas that house records containing Meridian, or to file cabinets housing such records
- Personnel with access to areas that house records containing PHI, or to file cabinets housing such records, is limited to only those who need such access to effectively carry out Meridian operations
- User access to systems containing PHI is determined by the department managers and directors, in consultation with the Privacy Officer
- Personal computers require two-tier access of an employee badge and Personal Identification Number (PIN)
- Personal faxes are paperless and arrive via email only accessible by two-tier access on personal computers

- Departmental faxes are also paperless, arriving in a queue only visible authorized personnel
- Any email sent outside of Meridian is automatically flagged and the employee is prompted to send the information in an encrypted, secure format
- The Security Officer reviews and approves each employee's access to physical and electronic information upon hire, annually thereafter, and immediately upon changes in employment
- After-hours faxes received by Meridian are maintained in a queue until authorized personnel access them using their swipe card and private PIN
- The Privacy Officer reviews and signs off on each request for disclosure of PHI for purposes other than treatment, payment or healthcare operations
- Randomized, unannounced audits of employee workstations to ensure proper security of PHI and other sensitive information

Violations to Meridian's policies and procedures are immediately reported to Meridian's Privacy and/or Security Officer, as appropriate. These violations are investigated by the Privacy and/or Security Officer, thoroughly documented, corrective action taken as appropriate, and reported to the Privacy and Security Committee. In compliance with Federal and State laws, any incidents that constitute a breach are reported by the Privacy Officer to the Secretary of the United States Department of Health and Human Services (HHS).

Section 5.11

Public Disclosure

## Section 5.11 Public Disclosure

Granite Care – Meridian Health Plan of New Hampshire, Inc. ("Meridian") seeks to maintain the confidentiality of the following information submitted as part of its Response to Request for Proposals # 12-DHHS-CM-01:

- All documents and information submitted by Meridian in response to Section 6.8 of Request for Proposals # 12-DHHS-CM-01, including the consolidated financial statements of Caidan Enterprises, Inc. and its subsidiaries for 2007, 2008, 2009, and 2010.

- All resumes and staff information submitted by Meridian in response to Section 3.10, of Request for Proposals # 12-DHHS-CM-01.

While we certainly understand and acknowledge that a review of detailed financial information by the Department of Health and Human Services is necessary as part of the RFP process in order to verify the financial stability of a bidder, we believe that such information is not appropriate for release into the public domain considering the fact that Caidan Enterprises, Inc. (Meridian's ultimate parent) is a privately-held organization.

6.6 Description of Organization

## 6.6 Description of Organization

### General Company Overview

Granite Care - Meridian Health Plan of New Hampshire, Inc.'s ("Meridian") mission is to continuously improve the quality of care in a low-resource environment. As a physician-owned and member-focused organization, Meridian and its affiliates blend innovative proprietary technologies with a commitment to premier customer service in support of this mission. We embody the "Triple Aim" concept:

1. Improve the health of the population;
2. Enhance the patient experience of care (including quality, access, and reliability); and
3. Reduce the per capita cost of care.

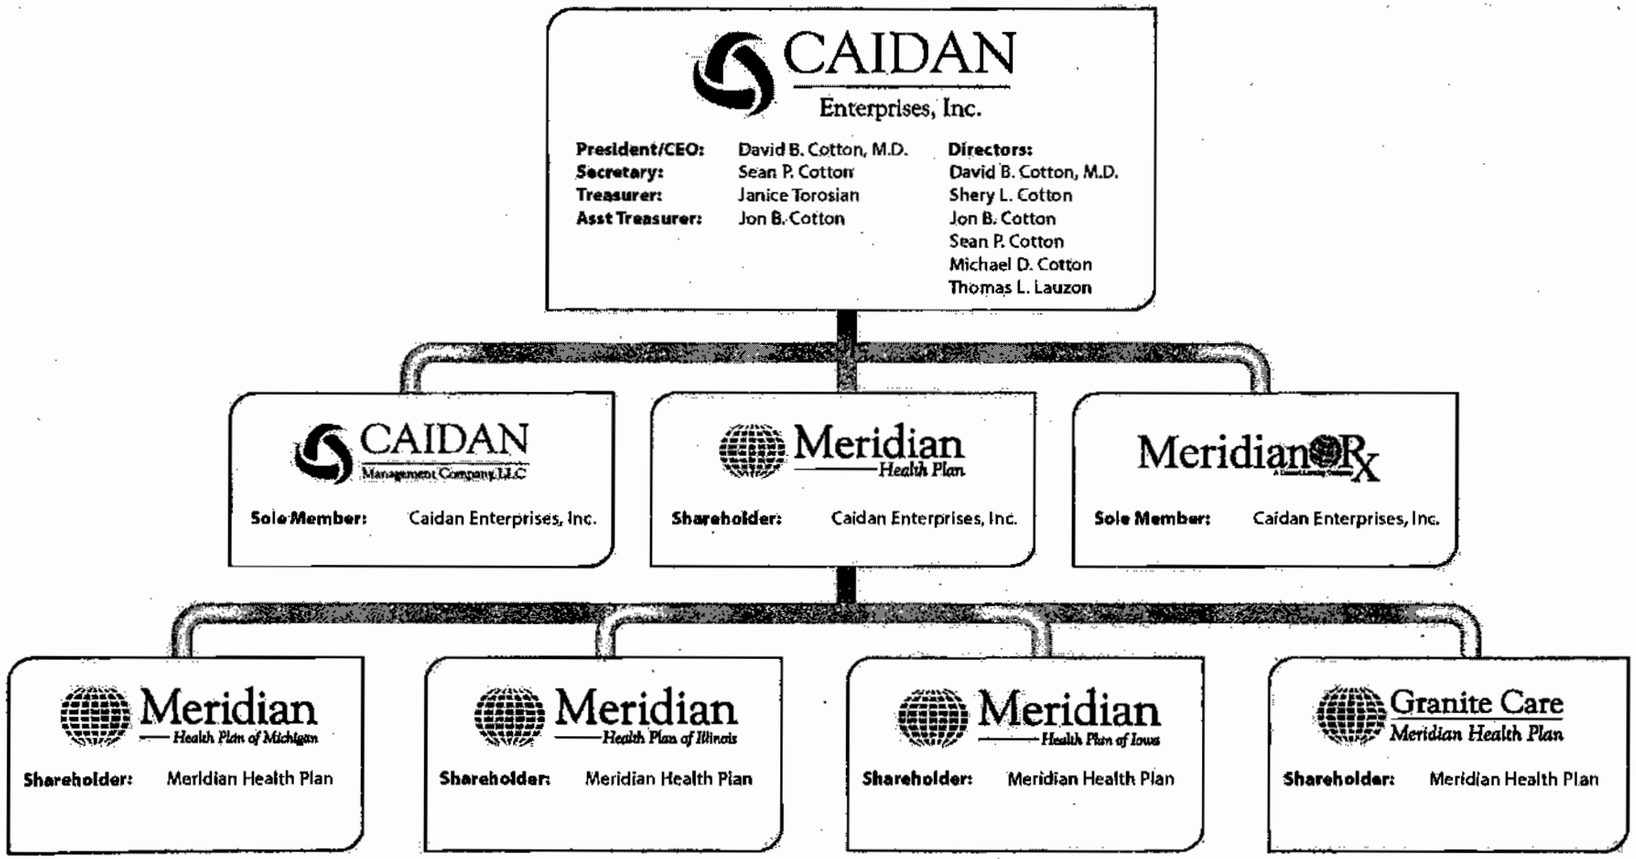
Our experience has shown us that the goal of better health outcomes drives quality and helps control costs.

The State of New Hampshire faces the important decision of selecting MCO partners most capable of assisting in the transformation of its Medicaid program. The record demonstrates that Meridian is among the best in the country at improving health outcomes of low-income populations while simultaneously reducing the overall cost of care. Meridian is excited about partnering with the State of New Hampshire and implementing its tried and tested processes to achieve the same great results it has in other states.

In 1997, Dr. David Cotton and his wife, Shery, founded Meridian, which remains a family-owned and operated organization today. Over the years, Meridian has grown from a 1,200 member clinic plan authorized to operate in one Michigan county to a multi-line, national integrated health care company known for its cutting edge innovations in the field of care management and coordination. The Meridian family of companies includes three Medicaid health plans, including the largest Medicaid HMO in Michigan, a dual-eligible special needs Medicare plan, a full-service pharmacy benefit manager, and the most efficient healthcare administrative services company found anywhere in the industry.

# CAIDAN ENTERPRISES, INC.

## CORPORATE STRUCTURE



0000043

**Primary Lines of Business**

**Michigan – Headquarters Detroit, Michigan**

| | |
|---|---|
| Name | Meridian Health Plan of Michigan, Inc. |
| Location | 777 Woodward Avenue Suite 600 Detroit, MI 48226 |
| Sq. Footage | 69,328 |
| # of Doctor's | 3,400 PCP's, 10,100 Specialists |
| # of Hospitals | 104 |
| # of Counties | 66 |
| Membership | Approximately 295,000 |
| # of Employees | 294 |

For the last 15 years, Meridian has operated what has become the largest Medicaid HMO in Michigan, growing from fewer than 1,200 members to its current enrollment of 295,000 -- nearly 60,000 more members than any of the other 13 Medicaid HMOs operating in Michigan today. This growth has occurred exclusively through member and provider choice, rather than through acquisition of other health plans or aggressive marketing campaigns. We believe that in a mandatory enrollment program design setting, Medicaid dollars should be utilized to enhance the quality of member health care and to conduct other care coordination activities.

Meridian's Michigan Medicaid HMO currently serves members in the following eligibility categories:

- 33,130 Aged, Blind and Disabled (ABAD) members;
- 28,070 Aid for Families with Dependent Children (AFDC) members; and
- 228,862 Temporary Assistance for Needy Families (TANF) members.

Within these eligibility categories are foster children, children with special healthcare needs (CSHCS), and a significant dual-eligible population. Overall, Meridian serves Medicaid recipients in 66 of Michigan's 68 Lower Peninsula counties.

A staff of 294 highly trained and experienced professionals and paraprofessionals serve our Michigan populations. We have an extensive Disease Management program in Michigan, currently servicing:

- 16,304 members with Asthma;
- 4,963 members with COPD;
- 7,012 members with Cardiovascular disease; and
- 8,388 members with diabetes.

Additionally, Meridian's commitment to the care of mothers and children is unequaled in that each one of its plans maintains a department specifically dedicated to coordinating the care of this population. In Michigan, Meridian's Women and Children's Services Department currently serves 6,687 pregnant members and provided access to care for 12,937 deliveries in 2010. We also provide access to care on an on-going basis for 143,111 members who are twelve (12) years of age and below and for 52,721 members who are three (3) years and below. Further, we have extensive experience servicing both rural members and members that live in census designated urban areas. In Michigan, we have 77,032 members in rural areas and 213,383 members in urban regions.

Meridian has received multiple recognitions and awards for its work in Michigan, including:

- Ranked the #1 Medicaid health plan in Michigan for quality performance for the past three years;
- Ranked among the top 10 Medicaid Health Plans in the United States according to U.S. News and World Report's —America's Best Health Plan Listing in 2009;
- Ranked among the top 15 Medicaid Health Plans in the United States according to U.S. News and World Report 's —America's Best Health Plan Listing in 2007 and 2008;
- Representative for the Central Region presentation at —America's Best Health Plans by invitational request of NCQA;
- Pinnacle Award for Innovations in Health Care Technology in 2009 by the Michigan Association of Health Plans.

In January 2011, Meridian successfully implemented a Special Needs Medicare Plan ("Meridian Advantage Plan") and a Medicare Advantage Prescription Drug Plan (MAPD) to integrate Medicare and Medicaid coverage for dual eligible beneficiaries in Michigan. By targeting enrollment exclusively to dual eligibles, Meridian Advantage Plan of Michigan has succeeded in developing a unique benefit structure and system of health care delivery that is population-specific. Through the offering of a single benefit package and network of health care providers, Meridian Advantage Plan (HMO SNP) has proven successful in offering Medicare and Medicaid services to dual eligible beneficiaries with minimal confusion and expedited access to necessary services.

In recognition of the complex and unique needs of the dual eligible population, Meridian Advantage Plan maintains ongoing quality improvement initiatives aimed towards innovative partnerships, beneficiary sensitivity, and effective relationships with providers to ensure the quality and safety of health care services received by its high-risk population. In addition, Meridian Advantage Plan implements strategies outlined in its NCQA approved Model of Care to effectively improve the health outcomes of its membership. Meridian Advantage Plan utilizes Chronic Care Improvement Programs and Quality Improvement Projects to systematically evaluate, and improve upon, the quality and safety of health care services it provides.

To ensure optimum therapeutic outcomes and reducing the risk of adverse medication events, Meridian Advantage Plan oversees the Medication Therapy Management (MTM) Program administered by its Pharmacy Benefit Management Company MeridianRx. The CMS approved MTM Program available to plan members promotes collaboration amongst providers, members,

and Meridian Advantage Plan. In addition, Meridian Advantage Plan members receive individualized medication counseling and support from clinical pharmacists and nurse case managers.

In 2013, Meridian Advantage Plan seeks to coordinate health care benefits for a larger dual eligible population through expansion of its current service area. Meridian Advantage Plan will implement its successful model of health care delivery over a larger geographic area. Through expansion, Meridian Advantage Plan will continue to coordinate Medicare and Medicaid services for beneficiaries while providing superior quality health care services to a larger dual eligible population.

**Illinois**

| | |
|---|---|
| Name | Meridian Health Plan of Illinois, Inc. |
| Location | 222 N. LaSalle Suite 930 Chicago, IL 60601 |
| Sq. Footage | 6,500 |
| # of Doctor's | 500 PCP's, 1,800 Specialists |
| # of Hospitals | 40 |
| # of Counties | 20 |
| Membership | Approximately 7,000 members |
| # of Employees | 18 |

Meridian also operates a Medicaid HMO in the State of Illinois. In 2008, the Illinois Department of Health Care and Family Services (IDHFS) specifically sought out and requested Meridian's participation in the Illinois Medicaid program for the specific purpose of increasing quality outcomes. Later that year, Meridian began administering coordination and care management services eligible recipients in the Illinois AllKids, Family Care, and Moms and Babies programs. Meridian has delivered the significant increases in quality that Illinois was seeking, with over 90% of Meridian's total enrollment having received all HEDIS preventive services in a timely manner.

Meridian maintains a full and comprehensive provider network that resulted in expansion approvals into 20 counties establishing the largest service area of any MCO in Illinois. Meridian's provider network currently consists of 40 hospitals, 500 PCPs and 1,800 specialists to service an enrollment of approximately 7,000 members. Meridian's PCP network has the capacity to provide Medicaid covered benefits to 1,000,000 members with a member to PCP ratio of 2,000:1 as required by state contract. Despite its already expansive breadth, Meridian anticipates increasing the size of its Illinois network to 100 hospitals, 2,500 PCPs and 5,000 specialists in the next 5 years. As healthcare reform is embraced in Illinois and a mandatory program is enacted, Meridian is positioning itself to continue expansion into over 50 service counties with an expected membership of 300,000 or more.

**MeridianRx – Headquarters Detroit, Michigan**

| | |
|---|---|
| Name | MeridianRx |
| Location | 1001 Woodward Avenue Suite 700 Detroit, MI 48226 |
| Sq. Footage | 10,939 |
| Membership | Approximately 295,150 |
| # of Pharmacies | Approximately 55,000 |
| Generic Dispensing Rate | 87% |
| # of Pharmacies contracted in NH | 184 in-network out of 322 (approximately 58%) |
| # of Employees | 33 |

MeridianRx offers an innovative pharmacy benefit management model that is solely focused on providing cost effective care and improving health outcomes of the members we serve. Our clients and members receive outstanding customer service, cost effective formulary design and innovative pharmacy case management programs. These benefits give our clients the most personalized attention in the industry.

Our team has over ten years of experience in Medicaid pharmacy services which gives us the background required to manage the unique needs of this population. MeridianRx uses an interdisciplinary care approach to manage drug coverage based on the latest evidence based medicine and to create formularies that meet the client's specifications. The creation of a quality based formulary in combination with our multi-level authorization review system allows for the identification of members that require further Meridian Case Management. These programs enable a collaborative approach to helping our members be healthy and stay healthy.

**Iowa – Headquarters Des Moines, Iowa**

| | |
|---|---|
| Name | Meridian Health Plan of Iowa, Inc. |
| Location | 666 Grand Avenue 14th Floor Des Moines, IA 50309 |
| Sq. Footage | 13,128 |
| # of Doctor's | 258 PCPs, 542 Specialists |
| # of Hospitals | 4 |
| # of Counties | 3 proposed |
| Projected Membership | 25,000 as of February 1, 2012 |
| # of Employees | 31 positions to be filled in 1st Quarter 2012 |

Meridian is in the process of establishing a new Medicaid HMO in Iowa scheduled to begin coordinating Medicaid benefits for approximately 25,000 members on February 1, 2012. The approval of this new venture to serve the TANF and ABAD populations within eastern Iowa was due to the success Meridian showed in Illinois and Michigan to lower the overall cost of care while increasing quality outcomes. Meridian's Iowa HMO is the only full-risk managed care entity under contract with the Iowa Medicaid Enterprise and the first since 2009. Meridian will operate in conjunction and effectively compete with the Primary Care Case Management (PCCM) system currently in place in Iowa and provide beneficiaries another choice of how their care is administered. Meridian is projected to expand our service area and increase membership by 150% over the next two years.

**Programs and Activities of the Organization**

Meridian strives to deliver maximum value to its state partners. This concept drives all programmatic innovations and implementations that Meridian engages in. If it does not increase the value received by the state, Meridian does not do it. Over the years, Meridian has been extremely successful fulfilling this ideal by developing programs that result in measurable increases in access to care, quality outcomes, and reductions in state Medicaid expenditures. Below is a sampling of Meridian's accomplishments that will be an asset to the New Hampshire program.

**Quality**

Quality is Meridian's top priority and is the foundation upon which the entire organization is based. Meridian has consistently been ranked in the nation's Top 20 Medicaid Health Plans by U.S. News & World Report, demonstrating that with the right model in place, size and quality can go hand-in-hand. Year after year, we are consistently ranked first or second among Michigan's 14 MCOs in overall quality performance statistics. Meridian's Michigan operation maintained NCQA "Excellent" accreditation status continuously from 2005 until 2011. We currently hold full URAC Health Plan Accreditation with Health Utilization Management. Meridian's major quality initiatives include the following:

1. *Health Outreach*

   Meridian conducts health outreach activities that focuses on preventive health, women and children's services and disease management; and includes both mail and telephonic outreach. A wide range of reminder bi-folds and flyers are mailed weekly to members overdue for a variety of preventive health and disease-specific services. For telephonic outreach, Meridian utilizes an auto-dialer phone system called Touchstar that is integrated with the Managed Care System (MCS). Meridian has 10 full time Touchstar staff and a supervisor that are dedicated to making outbound preventive health outreach calls. Touchstar staff report to the Manager of Quality Improvement. In 2011 the average monthly volume of successful Touchstar calls was 3,595. Meridian's Women and Children's Services (WCS) staff also make health outreach calls to pregnant women and new moms. Six WCS specialists help to ensure pregnant women get timely prenatal care and make follow up calls to ensure new Moms get continued care following delivery and that their babies get needed well care and immunizations. In Michigan, approximately 1,000 new pregnant women are enrolled monthly. WCS

outreach staff reach approximately 870 members per month. For members with chronic conditions, such as diabetes, asthma, and cardiovascular disease, Meridian has a staff of three nurses and four outreach specialists to assist and coordinate care.

2. *HEDIS Reporting*

Meridian has a strong infrastructure to support HEDIS reporting that includes the information technology and staffing needed to support administrative measures, and the annual medical record review project for hybrid measures. Meridian's Managed Care System (MCS) has a HEDIS reporting module that is reviewed and approved annually by an independent NCQA certified HEDIS auditor. Meridian also has a HEDIS hybrid reporting tool that is loaded onto laptop computers for use in the field during the annual medical record review. HEDIS staffing reports to the Manager of Quality Improvement and includes a HEDIS Coordinator, Medical Record Team Lead, and three Medical Record Abstractors. The HEDIS reporting team focuses efforts year round on educating providers and staff, supplemental data collection, and data auditing to ensure complete and accurate HEDIS reporting. The HEDIS program also supports provider self-reporting of HEDIS data through the secure provider portal. The team works closely with the HEDIS auditor to ensure appropriate inter-rater reliability testing and over reads of chart audits are completed.

3. *Nutrition Education*

Meridian has a weight management and nutrition education program that provides individualized nutrition education to help members improve their eating habits. Meridian partners with weight loss vendors, community partners, and offers telephonic nutrition education. The Nutrition Team works under the direction of the Manager of Disease Management and includes a Registered Dietician and two Nutrition Specialists. Members that are referred for weight management or nutrition education are first assessed to determine the appropriate program and are either referred to a vendor, community partner, or are referred to Meridian's Registered Dietician depending on their BMI, medical conditions, and nutritional needs,. A registered Dietician provides telephonic education, develops meal plans, and establishes a plan for contacting the member. The nutrition program incorporates cultural diversity and preferences as appropriate. Meridian also distributes nutrition education materials to members and providers to encourage healthy lifestyles within our member population.

4. *Tobacco Cessation*

Meridian has partnered with State vendors for the national Quit Line in Michigan and Illinois to provide tobacco cessation services to members who smoke. Meridian members that call the national Quit Line number are referred directly to the State's vendor for assistance. The advantage of this approach is that efforts are leveraged with State and national campaigns to promote smoking cessation. In the State of Michigan, Quit Line advertising has a consistent message and telephone number. Members that call the Quit Line are assessed for readiness to

quit and are enrolled and scheduled for telephonic contacts from trained coaches. Meridian has separate tobacco cessation programs that address the importance of quitting in relationship to pregnancy or chronic conditions such as asthma, cardiovascular disease or diabetes and also conducts surveys to determine the success of these programs. Meridian works closely with MeridianRx to support members with tobacco cessation medications.

**Utilization Management**

Meridian's Utilization Management Program is designed to monitor, evaluate, and influence the delivery of high quality, cost effective health care services for our members. This is accomplished through the cooperation of various functions in an effort to ensure appropriate utilization, continuity of care, and management of high risk members. The Utilization Management model is member-centric and empowers members with knowledge that allows them to become more active participants in health care decisions. The Utilization Management Program involves pre-service, concurrent, urgent, or retrospective review of the utilization services provided to members. The Utilization Management Program also has specialized initiatives that focus on members' specific needs. Case Management services are provided to members with specific conditions and those with complex needs who require extensive coordination of care services. Behavioral Health services involve referral processing, member outreach, and case management services. Furthermore, Behavioral Health services are interfaced with medical services to provide members with the most appropriate care coordination for their individual needs. All Utilization Management staff members are assigned responsibilities within the program that correspond with their level of training and licensure. Utilization Management decisions are based on appropriate clinical criteria and the Utilization Management Program is reviewed and evaluated on an annual basis.

**Children with Special Health Care Needs**

Meridian has extensive experience in managing the Children with Special Health Care Needs (CSHCN) program both in Michigan and Illinois plans. We have developed a module in MCS to track all phases of care to assist in the coordination of care for these children with special needs. Our comprehensive program ensures processes that provide accurate identification, assessment, and coordination of care with the family, providers, specialists and community resources. In Michigan, the Children's Special Health Care Services (CSHCS) is an opt-in program. Our focus proactively identifies qualifying diagnoses to facilitate member enrollment into the CSHCS program, with the member then dis-enrolling from Meridian and returning to the fee-for-service Medicaid program. In Michigan, this program is being converted. It is planned that in November of 2012 all of these members will remain enrolled with a managed care organization once approved for CSHSC. With this conversion, we will continue to address the special needs for the qualifying CSHSC component of the member as well as all other aspects of the member's needs, assuring that necessary primary care services are being obtained, redundancies of care avoided and most importantly, continuity of care is maintained in all aspects of the member's care. Modifications to the existing system will support the New Hampshire program to ensure that children with special health care needs have direct access to in-network specialists and facilities and to support the coordination and case management activities for this population.

## Technology

Innovative proprietary technologies result in significant efficiencies and improved health outcomes, in which Meridian is consistently best-in-class. Our award-winning Managed Care System (MCS) software allows us to do more – and better – with less. Because of the proprietary nature of its systems, Meridian can quickly customize technology in-house, allowing us to respond effectively to preventive care challenges. A three-time winner of CIO Magazine's CIO 100 Award (2007, 2008, 2010), Meridian was also recognized by the Michigan Association of Health Plans for using technology to improve member outreach (2009, 2010 and 2011). We are large enough to make the major investments necessary to stay ahead of the curve, such as modifying MCS to create care coordination efficiencies and establishing an in-house pharmacy benefits manager (PBM) to improve our services and lower costs. We also tailor our systems and processes to meet the specific and varying needs of every state we serve.

### Member Services

Meridian knows how to ensure access to services for all of New Hampshire's population. Meridian's Michigan operation has the largest number of members living in rural areas of any of the 14 Medicaid MCOs operating in the state. All Meridian members, including those in rural areas, have a choice of 5 primary care providers within 3.4 minutes of their home and 95% of Meridian's entire membership is located within 30 minutes of a high-volume specialist such as OB/GYN, Otolaryngologists, and Orthopedics. Meridian's Michigan network consists of the largest number of hospitals of any Medicaid health plan operating in the state. In fact, Meridian has 20 more network hospitals than its nearest competitor. We are considered Michigan's dominant rural Medicaid health plan and will provide this same level of access to New Hampshire's rural population.

### Provider Services

We have proven ourselves to be the leaders in the development of Medicaid provider networks in both urban and rural areas in the states that we operate. Our achievement of exceptionally strong and lasting relationships with our providers has resulted in the continuous elimination of barriers to access for our members. The strength of these relationships is demonstrated by our Michigan provider network which is the largest in the state. With over 3,400 PCPs, 10,100 specialists and 104 hospitals we can adequately provide access to both primary care providers and specialists for our members. Meridian and its affiliates have demonstrated their ability to quickly enter and effectively serve new geographic areas through our steady expansion into 66 of Michigan's counties, as well as through our successful market entry into Illinois and Iowa. Every PCP site in our network is visited, in-person, by one of our provider representatives every month. Additionally, we equip our providers with a vast array of technology, helping them to improve their administrative efficiency so they can focus on what they do best…delivering high-quality care. As an example, we have donated dozens of computers and other office equipment to our rural providers and "safety net" physicians.

### Claims

Meridian provides timely and efficient payment of all claims. The average claim processing time is 2.5 working days, with an accuracy rate of 99.53%. The Claims Department handles an average of 1,200 Provider phone calls per week. All calls are answered by a live person within

30 seconds or less, with a call abandonment rate of less than 1%. On average, Meridian receives 75,000 claims per week and 88% of these are received EDI. Since 2004, claims have been processed on a company built software program which has been customized to allow maximum efficiency for claims processing. Since this time, we have been able to raise our rate for auto adjudicated claims to almost 80% of all claims.

| | |
|---|---|
| Average # of claims received per week | 75,000 |
| Average percent of clams received EDI | 88% |
| Average claims processing time-all claims (working days) | 2.5 days |
| Accuracy Rate for claims processing | 99.5% |
| Average rate of auto adjudicated claims | 80% |
| Average # of Provider phone calls per week | 1,200 |
| Average call answer rate | 30 seconds or less |
| Average call abandonment rate | Less than 1% |

**Current Project Commitments:**

Meridian currently has several project commitments above and beyond providing high-quality service and exceptional value to its current government partners. Meridian is currently implementing a comprehensive care management program in Iowa under a full-risk, capitated arrangement with that state. Operations will commence on February 1, 2012. Meridian has also notified the Centers for Medicare and Medicaid Services of its intention to expand its Medicare product offerings in 2013, adding three new stand-alone Part D Plans in Michigan, Illinois and Iowa, as well as two new Medicare Advantage Dual-Eligible Special Needs plans in Illinois and Iowa, and a Service Area Expansion on its existing Medicare Advantage Plan in Michigan. These project commitments notwithstanding, Meridian has the capacity and resources to take on a Medicaid care management program implementation in New Hampshire in 2012.

**Major Government and Private Sector Clients**

Meridian is a care management organization that focuses exclusively on government programs. Meridian's major government clients are Michigan, Illinois and Iowa with whom it holds contracts to provide services to their comprehensive Medicaid populations. Meridian also holds a contract with the Centers for Medicare and Medicaid Services (CMS) as a Medicare Advantage organization serving the dual-eligible special needs population in Michigan.

**Tailoring Our Programs to New Hampshire's Needs and Dynamics**

The essence of our proposal is to recreate in New Hampshire what we have successfully built in Michigan and Illinois. We are the largest and most effective Medicaid MCO across those two states. Our growth has been a result of our members, our providers and our state partners collaborating to improve care. However, New Hampshire's dynamic creates a new set of strengths we must take advantage of and challenges we must address. Most of the features of our models and systems that have favorably set us apart in our multi-state operations can and will be replicated in New Hampshire, providing excellent value to the State. At the same time, we

understand that approaches which work effectively in some New Hampshire communities will not work well in others. Meridian is not only prepared, but capable of using its past experiences and successes and adapting them to meet the unique needs of the New Hampshire Medicaid program, its beneficiaries, providers and other stakeholders.

We are committed to being the most effective long-term partner that the State can select. Some concrete examples of our commitment to partnering with the State include:

- Meridian will provide the initial two years of funding for the creation of a Medicaid Managed Care Advisory Group. This Advisory Group would be comprised of key New Hampshire stakeholders, including representatives from each Medicaid MCO, various providers, the Medicaid agency, beneficiaries and advocates. We believe this type of objective body will be valuable to New Hampshire serving as a venue for sharing and expanding best practices for managed care; identifying problem areas and developing solutions to address them; and supporting the successful transformation of New Hampshire's Medicaid program. By forming this Advisory Group and through all our actions in New Hampshire, we will create a culture of collaboration whereby all stakeholders continually work together to achieve better beneficiary health outcomes and maximize the cost savings of the program in clinically beneficial ways. While the current procurement environment creates a highly competitive situation among the MCOs, once the health plans are selected the State is best served by a much more collaborative environment (albeit with the MCOs remaining motivated to compete on quality and cost containment performance).
- We will build a HIPAA-compliant internet-based portal through which only the Department of Health and Human Services can access real-time claims and utilization data maintained by Meridian. We believe 24/7 access to vital programmatic information provides New Hampshire an advantage in performing its obligations to Medicaid recipients and the taxpayers of New Hampshire at large.

*Flexibility*

Meridian has the depth of resources to take on major functions in-house, offering the State a level of flexibility and responsiveness that other plans cannot match. For example, when it became evident that our relationship with a national chain PBM organization was not providing an acceptable level of savings or service, we created our own PBM, MeridianRx. Structured to operate with complete transparency, MeridianRx has demonstrated immediate cost savings as well as improved member access. This proposal outlines in detail the programmatic strengths of MeridianRx relative to what occurs in the typical Medicaid MCO setting (where the pharmacy benefit is managed by an external national chain PBM). At the same time, we are focused enough to be a highly involved and responsive local organization. For example, every New Hampshire Primary Care Provider (PCP) will receive a monthly face-to-face visit from our provider relations staff. Among other information shared at these visits, our network providers also receive a report on all the preventive services each member is due for in the near future, as well as updated performance bonus opportunities.

*Local connectivity*

Local people know their communities. Meridian supplies on-site expertise in training, provider network development and other support for turnkey operations. We are committed to hiring locally in New Hampshire for every function where direct interaction with members and providers occurs (e.g., member services, member outreach, provider contracting and provider relations). At least one provider services representative will reside in and work in each region of the State where Meridian is awarded a contract. Our Michigan headquarters will provide centralized support for administrative functions, claims processing, accounting, and improving multi-state efficiencies. Meridian's combination of national expertise and local presence and understanding enables us to provide high-quality, accessible and culturally-sensitive health care to our members.

*Cost Savings*

Meridian's care coordination model has yielded large-scale savings and these savings continue to compound favorably over time as we actively implement new initiatives. Meridian's unique philosophy has resulted in significant cost savings to the states with which it partners. Meridian's commitment to member outreach, strong relationships with providers to coordinate care, and the overall emphasis on preventive care for the entire member population keeps Meridian members out of emergency rooms and inpatient facilities; the two main cost drivers for state Medicaid programs.

Meridian is eager to deliver the same meaningful increases in quality of care and significant cost savings to New Hampshire and stands ready to support New Hampshire's successful transition to Medicaid managed care. Our multi-state experience in improving health outcomes for low-income populations and enhancing the patient care experience will benefit New Hampshire's Medicaid recipients. The proven effectiveness of our innovative proprietary technologies and care coordination model will increase quality and control costs, benefitting New Hampshire's taxpayers.

BILL SCHUETTE
ATTORNEY GENERAL
STATE OF MICHIGAN

December 13, 2011

To Whom It May Concern:

I am writing this letter of reference on behalf of Granite Care – Meridian Health Plan of New Hampshire. It is my understanding that Granite Care – Meridian Health Plan of New Hampshire is seeking a contract as a managed care HMO to serve the Medicaid population for the State of New Hampshire.

I am very familiar with the executive leadership of Meridian through its contract with the State of Michigan as Meridian Health Plan of Michigan. I also know Meridian Health Plan to be a good corporate citizen of the State of Michigan. There is every reason to believe its performance and standards in Michigan will be replicated in New Hampshire.

As the Attorney General of Michigan, it is my duty to combat health care fraud. I know that is an important issue for New Hampshire as well, even more so during these challenging budgetary times.

For that reason, it is helpful to contract with a firm that has experience in this field, and that has a track record of performance. I recommend Meridian for participation in New Hampshire's Medicaid managed care program.

Please do not hesitate to contact me should you have any questions. My assistant, Lori Gay, may be reached at (517) 373-1113. Thank you.

Sincerely,

Bill Schuette
Attorney General

525 W. Ottawa Street • P.O. Box 30212 • Lansing, Michigan 48909

December 9, 2011

To Whom It May Concern:

I am writing to express my strong recommendation that Granite Care – Meridian Health Plan of New Hampshire, Inc. be awarded a contract as a managed care HMO serving New Hampshire's Medicaid population. As manager of the Managed Care Division, Bureau of Managed Care, Illinois Department of Healthcare and Family Services, I have had the pleasure with working with Meridian Health Plan of Illinois for over 3 years and can unequivocally say that Meridian is our state's best voluntary Medicaid managed care organization (MCO). Their consistent focus on quality healthcare, optimal health outcomes and preventive care programs demonstrates their commitment to continuously improving the quality of care in a low resource environment.

Meridian has succeeded in greatly improving quality outcomes for its members and continues to implement new ideas to bolster its quality scores even further. Meridian has shown that it is able to provide a very high level of attention and service to its members, and has continuously reduced barriers to access for both its urban and rural populations. Providers are eager to work with Meridian due to their incredibly quick reimbursement cycles and incentive programs that increase members' access to care. Meridian also consistently responds to our state's direction in a timely and cooperative manner and has been compliant in all areas of MCO administration. These are just a few of the reasons that I have no hesitation in recommending Meridian as a high quality organization to the State of New Hampshire. I have no doubt they will provide the same excellent service to your Medicaid population as they do to ours.

Please do not hesitate to contact me should you have any questions.

Sincerely,

Laura Ray

RICK SNYDER
GOVERNOR

ANDY DILLON
STATE TREASURER

December 12, 2011

To Whom It May Concern:

I am writing to recommend Granite Care – Meridian Health Plan (Meridian) as a strong choice as a Medicaid managed care plan for the State of New Hampshire. Between FY 2000 and FY 2010, Medicaid managed care has saved the State of Michigan nearly $400 million each year. As Michigan's largest Medicaid managed care organization, a considerable amount of these savings can be attributed to the innovative and effective cost-saving measures implemented by Meridian.

Further, I have had the pleasure of working over the years with Meridian's CEO, Dr. David B. Cotton. Dr. Cotton's knowledge and insight on the topic of Medicaid is unsurpassed and would certainly be a valuable asset to Medicaid program administrators in New Hampshire. I view Meridian as a true partner with the State of Michigan and look forward to a continued relationship with the organization. I am certain the State of New Hampshire will share my sentiments if it makes the wise choice of selecting Meridian as a participant in its Medicaid managed care program.

Please feel free to call me should you wish to discuss Meridian's qualifications in greater detail. I can be reached at (517) 373-3223.

Sincerely,

Andy Dillon

MICHIGAN HOUSE OF REPRESENTATIVES

**JAMES "JASE" BOLGER**

SPEAKER OF THE HOUSE

December 13, 2011

To Whom It May Concern:

I am writing to express my strong recommendation for Granite Care - Meridian Health Plan, Inc. in their bid for an agreement with the New Hampshire Department of Health and Human Services as a managed care HMO serving New Hampshire's Medicaid population.

As Speaker of the House for the State of Michigan, I have had the pleasure of working with their sister organization, Health Plan of Michigan, and Dr. David Cotton, CEO for the past several years.

Dr. Cotton and his team built Michigan's largest high quality Medicaid managed care/HMO provider precisely because they innovated quickly and served clients and taxpayers effectively. Meridian Health Plan of Michigan has maintained a reputation among legislators as a model for uniformly successful, cost effective, patient friendly, and relentless in its focus on quality control. These qualities have been maintained as our state has confronted a particularly struggling economy and, therefore, an expanding Medicaid population.

These are just a few of the reasons that I am eager to provide a positive recommendation for Granite Care – Meridian Health Plan as a high quality organization worthy of a contract with the New Hampshire Department of Health and Human Services. Based on our experience in Michigan, I am confident they will provide excellent service to your Medicaid population and your state's taxpayers.

Please do not hesitate to contact me should you have any questions.

Sincerely,

Jase Bolger
Speaker of the House
State of Michigan

ROGER KAHN, M.D.
STATE SENATOR

COMMITTEES:
CHAIR — APPROPRIATIONS
CHAIR — SENATE FISCAL AGENCY BOARD OF GOVERNORS

December 9, 2011

To Whom It May Concern:

I am honored to recommend Granite Care – Meridian Health Plan, Inc. as a Medicaid managed care plan for the New Hampshire Department of Health and Human Services. As chair of the Senate Appropriation Committee, I am intimately familiar with Michigan's Medicaid managed care program. The implementation of the Medicaid managed care program has saved the State of Michigan almost $4 billion over the past ten years. A considerable amount of these savings can be attributed to Health Plan of Michigan (a Meridian Health Plan affiliate). Meridian's commitment to providing quality care in a low-resource environment has contributed to its success.

My background as a cardiac surgeon gives me a unique perspective on government medical insurance programs. I can honestly say that it is refreshing to see a physician owned and operated health plan such as Meridian. Too often health plans focus on aspects of the business that promote profits at the expense of quality care. I know that Meridian is not one of these plans. I am personally acquainted with Dr. David Cotton, CEO of Meridian and I commend his vision and dedication to providing quality care and improving the overall health of low income individuals. It has been a pleasure working with Dr. Cotton and his organization over the last several years.

I highly recommend Granite Care – Meridian Health Plan, Inc. as a managed care organization for the New Hampshire Department of Health and Human Services. Please feel free to call me should you wish to discuss Meridian's qualifications in greater detail.

Sincerely,

Roger Kahn

# LETTER OF COMMITMENT

This Letter of Commitment is entered into this 12 day of Dec, 2011 between Granite Care-Meridian Health Plan of New Hampshire, Inc., ("Contractor") and PALS INTERNATIONAL ("Subcontractor").

## RECITALS

**A.** The State of New Hampshire Department of Health and Human Services (the "Department") has issued a Request for Proposal, # 12-DHHS-CM-01 for Medicaid Care Management Services (hereinafter the "Request for Proposal").

**B.** Contractor is submitting a responsive bid for the Request for Proposal.

**C.** Pursuant to the Request for Proposal, Contractor is required to secure signed letters of commitment from all subcontractors.

**D.** All subcontractors are required to commit to the entire contract period.

**E.** It is the intention of the Department to award and issue contracts effective July 1, 2012 for an initial term of twenty-four (24) months.

**F.** The State of New Hampshire expressly reserves the right to approve or reject subcontractors for the project.

**G.** Subcontractor desires to commit to providing services for the entire contract period if Contractor is awarded a contract and subcontractor is approved by the State.

**NOW THEREFORE,** in consideration of the aforementioned premises, and the promises and provisions contained herein, and intending to be legally bound hereby, the parties agree as follows:

**1. Subcontractor's Obligations.** Subcontractor agrees to be bound by the terms and conditions set forth in a contract to be negotiated by the parties, contingent upon award of a contract by the Department and subject to approval of Subcontractor by the State of New Hampshire. Subcontractor agrees to be bound by such contract for the entire contract period of the contract between Contractor and the Department.

**2. Services.** Subject to the award of a contract by the Department to Contractor and approval of Subcontractor by the State of New Hampshire, Subcontractor agrees to provide the following services to Contractor: Translation Services

Such "Services" shall be further defined through negotiations and as provided in a written contract by the parties.

3. **Payment.** Subject to the award of a contract to Contractor by the Department and approval of Subcontractor by the State of New Hampshire, Contractor will pay Subcontractor as follows for the provision of the Services listed in Section 2 of this Letter of Commitment: To be negotiated upon award of a bid.

4. **General Provisions.**

A. **Choice of Law.** This Agreement shall be governed by the laws of the State of Michigan.

B. **Disputes.** Any dispute arising out of this Agreement shall be settled through binding arbitration administered by the American Arbitration Association under its Commercial Arbitration Rules. Any such arbitration hearing shall be conducted in the State of Michigan.

C. **Recitals.** The recitals are hereby incorporated into and made a part of this Agreement.

D. **No Oral Modifications.** This Agreement may not be amended or modified except by a written instrument signed by the parties.

**IN WITNESS WHEREOF**, the parties have executed this Letter of Commitment on the day first written above.

**D.** All subcontractors are required to commit to the entire contract period.

**E.** It is the intention of the Department to award and issue contracts effective July 1, 2012 for an initial term of twenty-four (24) months.

**F.** The State of New Hampshire expressly reserves the right to approve or reject subcontractors for the project.

**G.** Subcontractor desires to commit to providing services for the entire contract period if Contractor is awarded a contract and subcontractor is approved by the State.

**NOW THEREFORE**, in consideration of the aforementioned premises, and the promises and provisions contained herein, and intending to be legally bound hereby, the parties agree as follows:

**1. Subcontractor's Obligations.** Subcontractor agrees to be bound by the terms and conditions set forth in a contract to be negotiated by the parties, contingent upon award of a contract by the Department and subject to approval of Subcontractor by the State of New Hampshire. Subcontractor agrees to be bound by such contract for the entire contract period of the contract between Contractor and the Department.

**2. Services.** Subject to the award of a contract by the Department to Contractor and approval of Subcontractor by the State of New Hampshire, Subcontractor agrees to provide the following services to Contractor: Administrative and technical services, including but not limited to billing, claims processing and claims adjudication, medical management, prior authorizations, denials and appeals, provider recruitment and education, member services, risk management, financial and accounting services, and information technology services. Such "Services" shall be further defined through negotiations and as provided in a written contract by the parties.

3. **Payment.** Subject to the award of a contract to Contractor by the Department and approval of Subcontractor by the State of New Hampshire, Contractor will pay Subcontractor as follows for the provision of the Services listed in Section 2 of this Letter of Commitment: 8% of net capitation revenue. Payment as provided in this Letter of Commitment is not binding on the parties and shall be further negotiated by the parties upon the issuance of a contract by the Department to Contractor. Such payment will be finalized in a written agreement between the parties.

4. **General Provisions.**

A. **Choice of Law.** This Agreement shall be governed by the laws of the State of Michigan.

B. **Disputes.** Any dispute arising out of this Agreement shall be settled through binding arbitration administered by the American Arbitration Association under its Commercial Arbitration Rules. Any such arbitration hearing shall be conducted in the State of Michigan.

C. **Recitals.** The recitals are hereby incorporated into and made a part of this Agreement.

D. **No Oral Modifications.** This Agreement may not be amended or modified except by a written instrument signed by the parties.

**IN WITNESS WHEREOF,** the parties have executed this Letter of Commitment on the day first written above.

Granite Care-Meridian Health Plan of New Hampshire, Inc

Subcontractor Letter of Commitment

State of New Hampshire
Department of Health and Human Services
Request for Proposal (RFP) # 12-DHHS-CM-01
Medicaid Care Management Services

December 1, 2011

We the undersigned agree that Health Management Systems, Inc. will be ready to begin performance of the services and responsibilities described in the above-referenced RFP, explicitly subcontracted by Granite Care-Meridian Health Plan of New Hampshire, Inc to us by the date listed in Section 5.5 of the RFP. The referenced services and responsibilities will be provided by Health Management Systems, Inc for Granite Care-Meridian Health Plan of New Hampshire, Inc under an existing agreement between the parties.

Health Management Systems, Inc commits that its responsibilities will be performed for the entire contract period unless a change is approved by the State of New Hampshire.

Health Management Systems, Inc understands that the State of New Hampshire reserves the right to approve or reject subcontractors for this project and that Granite Care-Meridian Health Plan of New Hampshire, Inc is required to replace subcontractors found by the State to be unacceptable.

Health Management Systems, Inc will hold any applicable licenses or registrations necessary to provide the services being subcontracted by Granite Care-Meridian Health Plan of New Hampshire, Inc in connection with the RFP.

Bidder: Granite Care- Meridian Health Plan of New Hampshire, Inc

# LETTER OF COMMITMENT

This Letter of Commitment is entered into this 12th day of December, 2011 (the "Effective Date") between Granite Care-Meridian Health Plan of New Hampshire, Inc., ("Contractor") and MultiPlan, Inc. ("Subcontractor").

## RECITALS

**A.** The State of New Hampshire Department of Health and Human Services (the "Department") has issued a Request for Proposal, # 12-DHHS-CM-01 for Medicaid Care Management Services (hereinafter the "Request for Proposal").

**B.** Contractor is submitting a responsive bid for the Request for Proposal.

**C.** Pursuant to the Request for Proposal, Contractor is required to secure signed letters of commitment from all subcontractors.

**D.** All subcontractors are required to commit to the entire contract period.

**E.** It is the intention of the Department to award and issue contracts effective July 1, 2012 for an initial term of twenty-four (24) months.

**F.** The State of New Hampshire expressly reserves the right to approve or reject subcontractors for the project.

**G.** Subcontractor desires to commit to providing services for the entire contract period if Contractor is awarded a contract and subcontractor is approved by the State.

**NOW THEREFORE**, in consideration of the aforementioned premises, and the promises and provisions contained herein, and intending to be legally bound hereby, the parties agree as follows:

1. **Subcontractor's Obligations.** Contingent upon the award of a contract by the Department to Contractor, approval of Subcontractor by the State of New Hampshire and execution of a Definitive Agreement (as defined below) by both parties, Subcontractor agrees to be bound by the Definitive Contract for the entire contract period of the contract between Contractor and the Department.

2. **Services.** Contingent upon the award of a contract by the Department to Contractor, approval of Subcontractor by the State of New Hampshire and execution of a Definitive Agreement by both parties, Subcontractor agrees to provide the following services to Contractor: recruitment of network providers, and ensuring the availability of network participants, maintenance of a network provider credentialing and credentialing program and the development, maintenance and delivery of demographic extract files on a periodic basis with respect to network provider data containing data elements and in a file format mutually agreed

upon by the parties. Such "Services" shall be further defined through good faith negotiations and as provided in a written contract by the parties.

3. **Payment.** Contingent upon the award of a contract to Contractor by the Department, approval of Subcontractor by the State of New Hampshire and the execution of a Definitive Agreement by both parties, Contractor will pay Subcontractor as follows for the provision of the Services listed in Section 2 of this Letter of Commitment: To be determined in subsequent good faith negotiations. Payment as provided in this Letter of Commitment is not binding on the parties and shall be further negotiated by the parties upon the issuance of a contract by Contractor. Such payment will be finalized in a written agreement between the parties.

4. **Term and Termination.** This Letter of Commitment shall remain in effect from the Effective Date for a term of ninety (90) days unless: (1) sooner replaced by a Definitive Agreement (defined below) executed by the parties; or (2) sooner withdrawn by either party. This Letter of Commitment may be withdrawn by either party at any time and in the sole and exclusive discretion of the withdrawing party by providing five (5) days written notice to the other party.

5. **Definitive Agreement.** While this Letter of Commitment is intended to be non-binding, the parties shall work in good faith to duly and validly execute and deliver a final agreement between Subcontractor and Contractor, the terms of this Letter of Commitment, any additional terms and conditions mutually agreed upon by both parties and all other applicable requirements of Contractors contract with the Department and Applicable Law (the "Definitive Agreement"); provided, however, that failure to execute or deliver a Definitive Agreement shall impose no liability on Contractor, and Contractor is in no way obligated by this Letter of Commitment to delegate any function to Subcontractor. Each of the parties hereto agrees to cooperate in obtaining the necessary approvals of the Definitive Agreement, if any, from all applicable governmental authorities.

6. **General Provisions.**

A. **Choice of Law.** This Agreement shall be governed by the laws of the State of Michigan.

B. **Recitals.** The recitals are hereby incorporated into and made a part of this Agreement.

C. **No Oral Modifications.** This Agreement may not be amended or modified except by a written instrument signed by the parties.

**[Signature Page Follows]**

**IN WITNESS WHEREOF**, the parties have executed this Letter of Commitment.

## Appendix A – Disaster Recovery Plan

# Corporate Business Continuity & Disaster Recovery Plan 2011

# Introduction

The senior leadership of Caidan Enterprises instituted this business continuity and disaster recovery plan to ensure that the organization is prepared to respond efficiently and effectively in the event of a disaster. This Disaster Recovery Plan addresses the needs of all subsidiaries of Caidan Enterprises, including Caidan Management Company, LLC (CMC), Health Plan of Michigan (HPM), Meridian Health Plan (MHP), Health Plan of Michigan Gold Plan (HMO SNP) and MeridianRx.

Caidan Management Company provides administrative services, staffing and information technology support for their sister companies, Health Plan of Michigan, Meridian Health Plan, Health Plan of Michigan Gold Plan (HMO SNP) and MeridianRx. As such, the Disaster Plan is written from the perspective of Caidan Management Company. If there are specific processes that apply only to one company, they are identified. Otherwise, the processes are applied universally throughout the organization.

# Corporate Information

The corporate address for Caidan Management Company, Health Plan of Michigan, and Health Plan of Michigan Gold Plan (HMO SNP) is as follows:

777 Woodward Avenue, Suite 600
Detroit, MI 48226
Phone: (313) 324-3700
Fax: (313) 202-0006

The corporate address for MeridianRx is:

777 Woodward Avenue, Suite 700
Detroit, MI 48226
Phone: 1-866-984-6462
Fax: 1-877-355-8070

In addition, Meridian Health Plan operates a Chicago office located at the following address:

Meridian Health Plan
222 North LaSalle Street, Suite 930
Chicago, IL 60601
Phone: (312) 705-2900
Fax: (312) 980-0404

The primary data center for all customers of Caidan Management Company, LLC is located at the corporate offices in Detroit, Michigan.

# Purpose

The purpose of this business continuity and disaster recovery plan is to provide procedures and guidelines to ensure restoration of information systems and business operations in a timely manner.

The main objectives of CMC in a disaster situation are:

- Take immediate action to ensure the safety of CMC employees and the protection of CMC property and assets.
- Ensure the security of protected health information – both electronic and paper – that is in the possession of CMC at the time of the incident.
- Minimize the impact of any interruptions in computer systems, telephone service or other technology applications.
- Ensure that priority business operations are restored as quickly as possible.
- Communicate effectively with employees, customers and vendors to ensure a

smooth and orderly recovery process.

- Mitigate any short or long-term negative consequences of the disaster situation.
- In order to achieve these objectives, CMC has designated a Disaster Recovery Team responsible for making critical decisions in a disaster situation. Information about this team is provided in Section D of this plan.

# Disaster Levels

CMC developed the following levels to classify a disaster situation. The action plan and operational activities vary based on the severity of the disaster. The severity levels are on a scale of 1 through 5, with a Level 5 being the most severe.

| Level | Definition | Examples | Bldg. Access | Computer System Access | Phone Access | Estimated Duration |
|---|---|---|---|---|---|---|
| 1 | There is no access to the building, but there is no damage to the building, computer and telephone systems. | There is a civil disorder and police are not allowing entry into the section of the city where CMC offices are located. | None | Full | Full | 1-2 Days |
| 2 | There has been a loss of critical information systems and/or telephone service. The office space has not been damaged. The situation is expected to last less than 2 days. | Failure of computer systems due to virus, hackers or other event. Temporary or intermittent power outage. | Full | None or Limited | None or Limited | 1-2 Days |
| 3 | There is partial access to the building and CMC offices; however some areas may be damaged and/or temporarily unavailable. There may also be a temporary loss of computer and/or telephone systems. | There is a minor fire or flood that only affects a limited area of the CMC offices. Other areas of the CMC offices are accessible. | Limited | None or Limited | None or Limited | 1-2 Weeks |
| 4 | There is no access to the building. There may be damage to some CMC assets in certain areas based upon the degree of the incident. Computer and/or telephone systems are temporarily unavailable and may or may not have been damaged. Situation may last one to two weeks. | Power outage or water main break that affects entire building. No tenants are allowed to access the premises until the situation is repaired. | None | None | None | 1-2 Weeks |
| 5 | There is significant damage to the building, including | Significant fire, tornado or other | None | None | None | Over 2 Weeks |

| Level | Definition | Examples | Bldg. Access | Computer System Access | Phone Access | Estimated Duration |
|---|---|---|---|---|---|---|
| | CMC offices. No tenants are allowed to access the building. Computer systems, telephones, furniture and other assets may be significantly damaged or destroyed. Situation may last weeks or even months. | natural disaster. Bomb or explosion in the building and/or vicinity. | | | | |

# Information Technology Back Up/Recovery Infrastructure

This section describes the existing technology infrastructure to reduce the risk of system failures and provide timely and complete recovery of technology applications in the event that a disaster situation should occur.

# Protection of Computer Data

CMC has an extensive network of servers to store its electronic data, including protected health information. These servers are stored in clusters. CMC has multiple clusters of servers. These include the following:

- The Chicago office has one cluster.
- The Detroit office has three clusters:
  - a production cluster with four servers
  - a workstation cluster of four servers
  - a test environment of two servers
  - a pharmacy benefit management (PBM) cluster of three servers *(This is dedicated solely to MeridianRx.)*

The DR/BC site in Wood Dale, Illinois has three clusters. This includes the following:

- a production cluster of three servers
- a workstation cluster of four servers
- a PBM cluster of 3 servers

The benefit of these clusters is that if one server in a cluster server fails, the other servers in the cluster automatically pick up the load. This prevents any disruption in operations. When any server fails, an email is sent to an IS staff member. The IS department repairs or replaces the damaged server and then places it back in the cluster.

CMC uses two products to monitor the critical servers and network devices (nodes): Nagios and Orion SolarWinds (Network Performance Monitor (NPM), Application Performance Monitor (APM), Syslog). NPM gathers status and performance statistics on each of the monitored nodes. APM gathers application statistics on each monitored service. Syslog gathers logging information from each monitored system that has alerts triggered from it. The Nagios product is used in conjunction with SolarWinds. Nagios and SolarWinds run intermittent checks on hosts and services and notifies the designated IS staff member if a problem is encountered. Nagios and SolarWinds store

current status information, historical logs and reports that are all accessible via a web browser.

# MeridianRx Data

MeridianRx is the pharmacy benefit manager for Health Plan of Michigan and Health Plan of Michigan Gold Plan (HMO SNP). CMC has four servers dedicated to MeridianRx. Two servers are located at the main data center in Detroit and two servers are located at the disaster site in Wood Dale, Illinois. When changes are made to the first server, they are replicated to the second server in Detroit and to the backup servers in Wood Dale, IL.

All traffic from MeridianRx clients is directed to the data center in Detroit. A load balancer is in place at the data center and the disaster site. The load balancer is a device that determines which server (one or two) to send the information. If there is a problem with the first server, the load balancer directs the data to the second server.

If the main data center in Detroit was to go away in a disaster, a different IP address is provided to clients. This would direct their data to the disaster site in Wood Dale, IL where the backup servers would receive data.

# Data Back Up Plan

CMC currently maintains back up servers for critical applications at SunGard, which functions as CMC's emergency operations center. The following back up servers are maintained at SunGard:

- Web Site and Application Server
- VMWare ESX Servers
- Windows Domain Controller
- File Server Disaster System
- MCS Production Disaster System
- MCS Development Disaster System
- Management Disaster System
- Microsoft Exchange
- Accounting (EAS, EFS, EPS)
- SunGard Workflow Solutions (Entrendex)
- Microsoft SQL
- Backup Server
- Blackberry Enterprise Server
- Oracle (Data Warehouse)
- Pharmacy Benefit Management System (PBM)
- Changepoint* *(Changepoint is backed up according the same schedule as the other servers; however users will not be able to access it from the emergency operations center).*

CMC utilizes the EMC Clarion CX4-240 for data storage. The unit is divided into logical unit number (LUNS) and Clone LUNS. The Clone LUNS are used to back up the Production LUNs. CMC uses the following daily back-up schedule:

# Linux Servers:

- At 12:00 PM each day, clones are created of the MCS production system and the Meridian Rx production system. The cloned are then backed up to the Data Domain.

- At 8:00 PM, ET each day, a backup process starts. This process synchronizes each LUN to its respective clone.
- Once the synchronization process is complete, the clones are mounted to the central backup server (BS4) and the data is sent to the off-site back-up servers.
- At 12:00 AM each day, the clones are backed up to the Data Domain.

## Windows Servers:

CMC's Windows servers are virtualized using VMWare. This software provides for "High Availability" and consolidation of hardware resources.

Backup Express creates snapshots and stores them on a proxy server. This is done with Virtual Consolidated Backup (VCB). Those snapshots are sent to the Data Domain. This process starts at 4 am, ET.

The File and SQL servers are replicated to the DR/BC site in "real time" with the use of a product called Neverfail. The accounting system is replicated to the DR/BC site with a product called vReplicator. Neverfail also provides the ability to fail over to the DR/BC site in Wood Dale, Illinois.

The Workflow server, used for scanning claims, is replicated to the Chicago office. In the event of a disaster, the Chicago office becomes the production site for claims scanning. The Workflow server is replicated to the Chicago office using Neverfail.

CMC uses Microsoft Exchange 2010 for email. Email for the Detroit and Chicago offices are replicated to the DR/BC site in Wood Dale, Illinois using Exchange's Database Availability Group (DAG) replication.

## Network Servers:

CMC backs up their network servers at the following intervals:

- Full back up each weekend
- Differential backups during the week

Each back up file is verified daily to ensure it has replicated. If any errors are identified, they are corrected and the backup file is re-run. All back up files are stored according to the following schedule:

| Back up | Retention |
|---|---|
| Daily Files | 6 Days |
| Weekly Files | 5 Weeks |
| Monthly Files | 1 Year |
| Year-End Files | 7 Years |

Back up files are identified with a file name and are stored on-site in the Detroit data center and replicated to the Disaster Recovery site in Wood Dale, IL. In the event of a disaster situation, data would be recovered through CMC's back up servers located at SunGard. Recovery from back up files would only be implemented as a last resort if the backup servers should fail.

## User Access Controls

In the course of normal business operations, CMC requires a two factor authentication. Internal employees use their employee badge and a 4-digit pin number. Off-site employees must use a company issued id token and a password. In the event of a

disaster, all employees reporting to the emergency operations center will be given a password to log on to the CMC network. Each employee at the disaster center will use their unique user name and the password supplied by the IS staff at the emergency operations center.

The IS staff is able to facilitate the prompt creation of new virtual workstations for employees to work from at the DR center using VMWare View. Altiris software maintains a current inventory of all computer hardware and software on the CMC network.

## Virus Prevention

In order to protect all computer equipment from viruses, CMC has purchased the eTrust Antivirus Software from CA Security Management. This software provides the capability to detect and eliminate virus infections within the network.

CMC uses IronPort C160 to scan e-mail for viruses and spam. IronPort scans incoming email for spam and viruses and is also used for email encryption. In addition, administrators use the management tools provided by IronPort for reporting, configuring policies, and searching for and releasing select quarantined messages.

CMC has also purchased a product called Cisco "Clean Access" to protect against viruses or unauthorized access through any external device that is plugged into the network. This product uses the network infrastructure to enforce security policy compliance on all devices seeking to access network computing resources. It allows the network administrator to authenticate, authorize, evaluate and remediate wired, wireless and remote users and their machines prior to network access.

The Cisco Clean Access product provides the following benefits to CMC:

- Recognizes users, their devices and their roles within the network.
- Evaluates whether machines are compliant with CMC minimum system requirements, including the most recent version of virus protection software, Windows Defender, Cisco Security Agent and Imprivata.
- Enforces these requirements by isolating non-compliant machines or devices until they are repaired.

## E-Mail System Back Up

CMC uses the Microsoft Exchange 2010 for their electronic mail (e-mail) systems. E-mail is a critical business operations tool and is a high priority for recovery after a disaster situation.

Email is replicated to the DR/BC site using Exchange's Database Availability Group (DAG) replication. A DAG is a set of up to 16 Microsoft Exchange Server 2010 Mailbox servers that provide automatic, database-level recovery from a database, server or network failure. DAGs use continuous replication and a subset of Windows failover clustering technologies to provide high availability and site resilience. Mailbox servers in a DAG monitor each other for failures. When a Mailbox server is added to a DAG, it works with the other servers in the DAG to provide automatic, database-level recovery from database failures. CMC has a DAG containing six Exchange servers, with two in Detroit, two in Chicago and two in Wood Dale, IL.

## Telephone System Back Up

CMC purchases its private branch exchange (PBX) telephone system from BSB Communications. The telephone system equipment is mirrored and located in the secured computer room. CMC does a daily backup up on the current database. BSB also maintains a monthly back up of the CMC phone system configuration. In the event that the PBX system needs to be restored, BSB will assist with recovery based upon the backup configuration. CMC maintains a log of changes that take place between the monthly backups performed by BSB. These changes can quickly be re-created by CMC once the system is restored by BSB.

Telephone service is provided through T1 lines purchased from AT&T. The phone system operates off of Bundled T1 lines. In the event that any T1 line goes down, the system is not affected since all of the T1 Lines are mirrored with the same features. In the event that all T1 lines are down, the phone lines are transferred to a set of POTS lines at the CMC offices under the AT&T ICR (Incoming Call Re-Direct) plan. We also monitor line usage every month to make sure we are not peaking out with usage.

# Protection of Computer Room

All servers for CMC companies are located in a secured room at the corporate office in Detroit. The room is equipped with a badge access entry system that requires the individual to swipe their identification badge across a card reader pad to obtain access.

The access to the computer room is limited to individuals within the Information Systems department whose role requires access. A computerized log is maintained of all individuals who access the computer room. This log is reviewed on a weekly basis to ensure that only authorized personnel have accessed the room.

# Fire Prevention

The Detroit offices are equipped with a fire extinguisher on each floor and the building is equipped with a 100% water sprinkler system in the stairwells. In order to protect the assets in the computer room, CMC has purchased a FM 200 waterless fire suppression system. The system deploys quickly and cleanly and does not leave behind any oily residue, particulate or water. The system can be safely used where people are present. There are no sprinkler systems in the in the computer room.

# Flood Prevention

The computer room is located in the Detroit offices on the 6th floor of the building. The servers are housed in cases that are raised off of the ground approximately four inches to prevent water damage. In addition, the air conditioning units have the ability to detect water and automatically notify the IS staff so that equipment can be shut down. CMC has also purchased heavy-weight tarps that can be used to cover the equipment in the event of flooding from the ceiling.

# Temperature and Environmental Controls

The computer room in the Detroit offices is equipped with two 15-ton down flow Liebert air conditioning units. The Liebert provides complete environmental control including temperature, humidity, heating and air filtration. These units are solely dedicated to maintaining the environment in the computer room 24 hours per day, 7 days per week. During its initial assessment of the computer room, CMC determined that one unit providing 15 tons of air conditioning would be

sufficient to meet the requirements. However, CMC has added a second unit as a backup.

The two units are networked together for performance issues. The units maintain a temperature of 60 to 65 degrees Fahrenheit. If one unit fails, the second unit will pick up the load and continue to maintain an acceptable environment. The air conditioning units are serviced once each quarter.

The solution also provides for on-site and remote monitoring of the Liebert equipment. The system also tracks and reports any incidents or events. In addition to the web-based monitoring, the system is also equipped with alarms that will notify a member of the IS staff if the air conditioning unit fails. A water detection system is in place to monitor any A/C leaks or other water that has entered the computer room floor.

## Power Interruption or Power Outage

The computer room in the Detroit office has a Cumming's 500KW generator with a remote operations panel and a 660 gallon fuel tank. There is also a Liebert 130KW uninterruptible power supply with battery backup that will keep the equipment running for up to two hours in the event of a generator outage. This will allow time for the Information Systems staff to shut down all of the equipment until full power can be restored. The generator performs a 30 minute self-test on a weekly basis and maintains a log of the results that is available to the Information Systems staff for monitoring.

## Building Security

CMC uses an access card system to control entry into its office suite and specific rooms within the office suite. The S2 Netbox system is used for monitoring access throughout the CMC office suites. Each employee is provided with an access card that is programmed based upon his or her job responsibilities. There are multiple profiles set up within the S2 Netbox system, each with varying levels of access. Each new employee is assigned to one of these profiles, based upon authorization from their director or manager.

The access cards are tracked using the S2 Netbox software product. The system can provide reports of each card reader location within the building and which cards accessed or attempted to access the area. These reports are monitored by IS staff on a regular basis to ensure that there are no physical security breaches.

In addition to the access cards for the corporate suites, each office building also has a secured access system as described below.

## DETROIT OFFICE

(HPM, HPMG, MeridianRx)

The following is the schedule for building access for the Detroit offices, located at 777 Woodward Avenue in Detroit, Michigan:

## Monday through Friday Access:

The building hours are from 6:00 AM to 6:00 PM. After 6:00 PM an access card must be swiped on the outside door for entrance into the building. There is security on staff at the main desk 24/7.

## Saturday and Sunday Access:

The building is open on Saturdays from 6:00 AM to 2:00 PM. After 2:00 PM an access card must be swiped on the outside door for entrance into the building. The building is locked down on Sunday. If an employee must report to work, his or her access card must be swiped on the outside door for entrance into the building. There is security on staff at the main desk 24/7.

The building has an on-site leasing and building management office with assigned staff that monitor the safety and security of the building.

# CHICAGO OFFICE

(Meridian Health Plan)

The following is the schedule for building access for the Meridian Health Plan offices located at 222 North LaSalle Street in Chicago, Illinois:

## Monday through Friday Access:

The property's public areas, namely the lobby, will be guarded but kept open to the public during the hours of 6:00 AM to 6:00 PM. It is open to tenants and their guests at any time; however, employees must have the appropriate access rights on his/her access card to enter the building. Access to the elevators during normal business hours is controlled by turnstiles stationed at the entrances to the banks and for after-hours access, employees must have the appropriate after-hours access rights for the elevator, otherwise the elevator will not operate.

## Saturday and Sunday Access:

The building is closed on Saturday and Sunday to the public. It is open to tenants and their guests at any time; however, employees must have the appropriate access rights on his/her access card to enter the building. For after hours, employees must have the appropriate after-hours access rights for the elevators otherwise the elevator will not operate.

The building has an on-site leasing and building management office with assigned staff that monitor the safety and security of the building. Security personnel are on duty 24 hours a day, every day of the year including holidays.

## Asset Management and Inventory

CMC has purchased two products Altiris and Wise Track to assist in the tracking and management of hardware, software and other corporate assets. These products track hardware and software inventory in a database and can produce reports of all software and hardware assets owned by the organization.

## Location of Critical Business Information

All critical business information is stored on the CMC Windows network. Each employee has their own network drive and each department has their own folder on the Departments drive. In addition, there is a Public drive on that stores files used by all departments. Each of these drives is on HPFS01.

## Disaster Recovery Team

The Disaster Recovery Team is made up of key leadership of Caidan Management Company. This team has the authority to declare a disaster situation and invoke all or part of this plan. The team will make decisions regarding what actions are to be taken in the event of a disaster and will retain primary accountability for all contingency operations. The team leader or alternate will have primary responsibility for determining if and when to initiate operations at the emergency operations center.

# Membership

The following are the members of the Corporate Disaster Recovery Team:

| Team Leader | |
|---|---|
| Name: Thomas Lauzon | Office Phone: (313) 324-3700, x1002 |
| Title: Executive Vice President and CIO | Home Phone: (586) 677-6902 |
| Home Address:<br>2632 Hawthorne Drive South<br>Shelby Township, MI 48316 | Cell Phone: (248) 763-3256 |
| **Alternate Team Leader** | |
| Name: Shery Cotton | Office Phone: (313) 324-3700, x1003 |
| Title: Chief Operating Officer | Home Phone: (313) 884-5508 |
| Home Address:<br>15324 Windmill Pointe<br>Grosse Pointe Park, MI 48230-1744 | Cell Phone: (248) 763-3245 |
| **Team Member** | |
| Name: David Cotton, MD | Office Phone: (313) 324-3700, x1001 |
| Title: President and CEO | Home Phone: (313) 884-5508 |
| Home Address:<br>15324 Windmill Pointe<br>Grosse Pointe Park, MI 48230-1744 | Cell Phone: (248) 763-3244 |
| **Team Member** | |
| Name: Janice Torosian | Office Phone: (313) 324-3700, x1004 |
| Title: Chief Financial Officer | Home Phone: (810) 355-1029 |
| Home Address:<br>6228 Windemere Pointe<br>Brighton MI 48116 | Cell Phone: (248) 763-3246 |

**DR TEAM – Illinois**

| MHP Team Lead | |
|---|---|
| Name: Mike Cotton | Office Phone: (312) 705-2900, x1006 |
| Title: VP of Operations | Home Phone: |
| Home Address:<br>2020 N. Lincoln Avenue, Unit C<br>Chicago, IL 60614 | Cell Phone: (313) 407-4660 |
| **MHP Alternate Team Lead** | |
| Name: Dave Bilbrey | Office Phone: (312) 705-2900, x2110 |
| Title: Office Manager – IL Regional Office | Home Phone: |
| Home Address:<br>1730 N. Clark Street, Apt. 604<br>Chicago, IL 60614 | Cell Phone: (312) 533-0309 |

## Roles and Responsibilities

The primary responsibilities of the Disaster Recovery Team are as follows:

- Receive initial notification of a disaster situation
- Assess the damage to the corporate office and the potential impact on business operations
- Declare a disaster situation and execute the Disaster Recovery Plan
- Determine whether business operations can continue at the corporate office or if the emergency operations center should be activated
- Develop a notification strategy and coordinate communication with employees
- Notify key customers and vendors, as appropriate
- Prioritize the order in which technology applications are to be restored
- Oversee and monitor the activities of the Business Unit Recovery Teams
- Determine the long-term recovery strategy, in the event that the corporate offices are out of service for an extended period of time

In addition, the team is responsible for the ongoing maintenance, testing and updating of the Disaster Recovery Plan. These activities are outlined Section I of this document.

## Organizational Structure

The Disaster Recovery Team includes key members of executive management within Caidan Management Company. Critical issues related to Disaster Recovery will be discussed during the executive team meetings. In addition, the Disaster Recovery Team will coordinate its activities with the IS Steering Committee and the Privacy and Security Committee, where appropriate. The Disaster Recovery Team Leader is also the designated Security Officer for the organization. He will be responsible for ensuring compliance with all HIPAA security standards.

## Business Unit Recovery Teams

In order to facilitate effective recovery of business operations, recovery teams have been established for each business unit. Depending upon the nature and extent of the disaster, any or all of these teams can be activated so the recovery process can scale according to the needs of the company.

## Membership

The following are the Business Unit Recovery Teams established by CMC:

| Team | Departments | Team Leader | Alternate |
|---|---|---|---|
| Team 1 | Finance | CFO | VP/Director of Finance |
| Team 2 | Information Systems | Manager of IS Operations | Manager of Systems Engineering |
| Team 3 | Member Services | Director of Member Services | Deputy Director of Member Services |
| Team 4 | Claims | VP/Director of Claims | Deputy Director of Claims |
| Team 5 | Quality Management | Director of Quality | Deputy Director of Quality |

| Team | Departments | Team Leader | Alternate |
|---|---|---|---|
| | | Improvement | Improvement |
| Team 6 | Utilization Management / Medical Management | Director of Utilization Management | Deputy Director of Utilization Management |
| Team 7 | Provider Services / Credentialing | Director of Provider Services | Provider Services Office Manager |
| Team 8 | Network Development | Director of Network Development | Manager of Provider Relations |
| Team 9 | Administration (*Includes HR, Legal, Compliance, Education & Communications)* | Associate General Counsel / Privacy Officer / Compliance Officer | Manager of Human Resources |
| Team 10 | MeridianRx (Pharmacy) | COO, MeridianRx | Manager of Pharmacy |
| Team 11 | Meridian Health Plan | Vice President, Operations | Office Manager – Illinois Regional Office |

The full list of team members and contact information is included in Attachment A.

# Roles and Responsibilities

Each Business Unit Recovery Team shall create its own documentation binder with the critical information needed to resume and maintain operations. The following are some of the general responsibilities of each team:

- Coordinate the department's immediate response in the event of a building evacuation and ensure that all employees are accounted for.
- Ensure initial notification of employees and maintain ongoing communication with employees throughout the disaster situation.
- Facilitate the resumption of business unit operations, as directed by the Disaster Recovery Team and in accordance with the Business Unit Recovery Plan.
- Institute manual business operations if necessary, and ensure availability of the necessary forms and supplies for employees.
- Facilitate the transfer of staff and supplies to the emergency operations location.
- Provide updates and instructions to key customers and/or vendors regarding any changes in procedures as a result of the disaster situation.

This information above is provided with the understanding that each team will have specific duties and responsibilities, dependent upon the functions of the business unit and the nature of the disaster. The Business Unit Recovery Plan outlines the activities for each department.

# Immediate Response for Disaster Situations

Depending upon the nature of the disaster, there may be various consequences that affect business operations. The response of the organization and the Disaster Recovery Team will depend upon the nature of the disaster and the consequences. A brief assessment of the types of disasters and the possible consequences is included in the following table:

| Type of Disaster | Likelihood of Occurrence | Potential Consequences |
|---|---|---|
| Fire | High | Prohibited Access, Disrupted Power/Power Outage, Water Damage, Mildew or Mold Damage, Smoke Damage, Structural Damage |
| Flood | High | Prohibited Access, Disrupted Power/Power Outage, Water Damage, Mildew or Mold Damage, Structural Damage |
| Severe Winter Storm | High | Travel Restrictions, Disrupted Power/Power Outage, Communication Loss |
| Power Outage | High | Prohibited Access, Disrupted Power/Power Outage, Communication Loss |
| Computer System Failure | High | Communication Loss, Manual Operations Mode |
| Computer Hackers/Virus | High | Communication Loss, Manual Operations Mode |
| Civil Disorder / Terrorist Attack | Medium | Prohibited Access, Disrupted Power/Power Outage, Ruptured Gas Mains, Smoke Damage, Structural Damage, Communication Loss |
| Gas Main Break | Medium | Prohibited Access, Disrupted Power/Power Outage, Ruptured Gas Mains, Communication Loss |
| Hazardous Materials Incident | Medium | Prohibited Access, Chemical Damage |
| Tornado | Medium | Prohibited Access, Disrupted Power/Power Outage, Structural Damage, Communication Loss |
| Earthquake | Low | Prohibited Access, Disrupted Power/Power Outage, Ruptured Gas Mains, Structural Damage, Communication Loss |
| Bomb Threat/Explosion | Low | Prohibited Access, Disrupted Power/Power Outage, Ruptured Gas Mains, Smoke Damage, Structural Damage, Communication Loss |

Likelihood of occurrence is based upon the following scale:

| | |
|---|---|
| High: | This incident has happened in the past 12 months or is possible based upon the current environmental, social or political conditions. |
| Medium: | This incident, while not an immediate threat, is possible given certain environmental, social or political conditions that may emerge. |
| Low: | This incident is not likely to occur given the current environmental, social and political factors. |
| None: | This incident will not occur given the current environmental, social and political factors. |

This Disaster Recovery Plan outlines the general steps for immediate organizational responses to each of the potential disasters indicated above. Depending upon the nature and severity of the situation, detailed recovery and emergency operations plans may also be activated. A copy of the REDICO Building Management Guidelines for Emergency Response is included in Attachment H. This pertains to the Detroit office. The Tishman Fire Safety guide in Attachment H should be used for the Chicago office.

The Building Management at the Detroit office uses a web-enabled auto-dialer called the REDICO Rapid Communications System to inform tenants of building closures. The Disaster Recovery Team Leader and the Alternate Team Leader are subscribed to receive these updates, which will then initiate the Disaster Recovery Procedures.

The Chicago office uses a public address system to inform tenants of any problems in the building. The Chicago Disaster Recovery Team leader is informed by building management of any issues arising after-hours.

# Fire Evacuation

# Immediate Response in Case of Fire

If an individual discovers a major fire, see smoke or hears the fire alarm:

- Notify a manager or supervisor immediately. The manager or supervisor will notify the Disaster Recovery Team Leader and initiate evacuation procedures.
- Leave the building immediately via the nearest stairwell.
    - Stairwell A is on the north side of the building, near IS on 6th floor and Quality Improvement on the 7th floor. Stairwell A exits in the first floor lobby.
    - Stairwell B is on the south side of the building near Member Services on the 5th floor, Provider Services on the 6th floor and Utilization Management on the 7th floor. Employees using stairwell B will exit the stairwell through the door marked South Mezz and then proceed down another set of stairs to the exit. This is all clearly marked. When exiting, employees will be in the back of the building on Griswold Street next to the entrance for the parking garage.
- Do not use the elevators.
- As you leave, close all doors including those that are propped open.
- If you pass a fire alarm pull station and the alarm is not already ringing, then pull the handle to activate the alarm.
- Once outside of the building, move as far from the building as possible and report to the designated meeting location.
    - **Detroit Office**: Exit building and go east on Fort Street or Michigan Avenue to Woodward. Using security and assigned staff, proceed across Woodward and through Campus Martius Park to south side of side walk at Cadillac Square between Woodward and Bates. Move towards the far end of the square, near the stone monument.

      Each department has a colored flag to help guide their employees to the designated meeting area so the necessary head count can be performed. The color designations for each department are as follows:

| Department | Color |
|---|---|
| Administration | Magenta |
| Claims | Orange |
| Finance | Dark Green |
| Information Systems | Navy Blue |
| Medical Management | Burgundy |

| Department | Color |
|---|---|
| Member Services | Neon Green |
| Pharmacy | Yellow |
| Provider Services | Black |
| Quality Improvement | Purple |
| Utilization Management | Royal Blue |

  - **Chicago Office**: Head east across the street and south one block to the Thompson Center. Meet in front of the building.
- Each Business Unit Recovery Team Leader should account for all employees and notify the Disaster Recovery Team Leader if anyone is missing. Report all missing person(s) immediately to a fire fighter on scene.
- Remain outside the building until the all-clear signal is given and you are notified by your manager that you can return to the building.

If there is a person with a disability that cannot use the stairs, the following procedure should be followed:

## Detroit Employees:

- The person should wait in the stairwell for Fire personnel to come and rescue them. The stairwells are fire rated and pressurized for up to 2 hours.
- The Floor Warden for that floor should notify the REDICO Building Management or the Fire Department that there is a person with a disability located in Stairwell A or B, what floor they are on and the name of the person that is waiting there.
- Remain calm and wait for help to arrive.

## Chicago Employees:

- The person should wait in the stairwell for an "Aide to the Physically Challenged" to arrive. The stairwells are burn resistant with a two hour rating.
- The aide will move any physically challenged individual to a designated area of safe refuge, inform the fire warden of their location and remain with the physically challenged person until fire crews arrive to assist.
- Remain calm and wait for help to arrive.

In the event that you are trapped in the building without access to an exit or window:

- Close all doors and other possible barriers between you and the fire. Attempt to seal the gap at the bottom of the door with a wet towel or other low-flammability material.
- If a phone is available, call 911 and notify them that you are trapped in the building. Also call the cell phone for the Disaster Recovery Team Leader.
- Remain calm and wait for help to arrive.

If an individual discovers a minor fire, they may attempt to extinguish it using the nearest fire extinguisher as follows:

- Pull the pin on the fire extinguisher and discharge it by aiming at the base of the fire using a side-to-side sweeping motion.
- If the fire continues to spread, follow the evaluation procedures listed above.

- Even if the fire is extinguished, call 911 to notify the authorities for a full inspection.

# Flooding

## Immediate Response in Case of Flood

- Notify a manager or supervisor immediately. The manager or supervisor will notify the Disaster Recovery Team Leader. The Disaster Recovery Team Leader or designee will notify the building management of the situation.
- If flooding is such that there is no immediate risk of electric shock, shut off power to all equipment and overhead lights in the affected area.
- Do all that is possible to protect computer and other electrical equipment. If flooding is coming from above, drape equipment with a tarp or other heavy plastic. If possible, move computer equipment to another location in the building.
- Move all employees from the affected area to a non-flooded area of the building.
- All employees should shut down computers and any other electrical equipment before leaving for the day. This includes any unaffected areas as a precaution.
- If building evacuation is necessary, follow the evacuation procedures for a fire, as described above.

# Severe Winter Storm

## Immediate Response in Case of Severe Winter Storm

- Disaster Recovery Team gathers to determine the extent of the storm and review travel conditions.
- If snowfall is expected to severely limit travel to or from work and jeopardize the safety of CMC employees, the team will determine whether to close for the day.
- If a decision to close early is made during normal business hours, employees will be notified via e-mail or telephone paging system.
- If a decision is made after hours to close on the following business day, a message will be placed on the Disaster Hotline at (313) 324-3699. The Business Unit Recovery Team Leaders will also be responsible for notifying employees via telephone.

# Power Outage

## Immediate Response in Case of Power Outage

In the event that the power outage takes place during normal business hours:

- Employees are to remain in their designated work area until further notice. CMC has provided each employee with a flashlight and batteries in the event of a power outage.
- Disaster Recovery Team Leader and other members gather to determine the extent of the power outage and the likelihood that power will be restored. In the event that phone power is out, cell phones will be used to communicate within the building.
- The Disaster Recovery Team Leader will contact Building Management to determine if evacuation is required.

- If evacuation is necessary, employees will be notified by their Business Unit Recovery Team Leader to leave for the day.
- Employees should follow the fire evacuation procedure.
- The IS staff will ensure that doors are closed and computer equipment is turned off to prevent power surges.
- The Disaster Recovery Team will remain in the building until all employees have vacated the premises.

In the event that the power outage takes place outside of normal business hours or lasts beyond one business day:

- The Disaster Recovery Team Leader is notified of the power outage. The team leader will contact other team members and assess the impact.
- If power is not expected to be restored by the next business day, then the Disaster Recovery Team will decide if business operations can continue.
- Disaster Recovery Team Leader will contact Building Management to determine whether the building is accessible.
- The Disaster Recovery Team Leader will leave a message for employees on the Disaster Hotline at (313) 324-3699 to tell them whether or not to report for work.
- The Business Unit Recovery Team Leaders will contact each employee by phone to notify them of the situation and whether they should report to work.
- If the power outage is expected to continue for longer than two business days, the Disaster Recovery Team may decide to activate the emergency operations center if that location is not affected by the power outage.

## Computer System Failure or Computer Virus

Caidan Management Company has instituted a variety of administrative, physical and technical safeguards to prevent loss of data in the event of a computer failure. All of these protections are outlined in Section C of this plan.

## Immediate Response in Case of Computer Failure or Virus

- The Executive VP/Chief Information Officer (EVP/CIO) is immediately notified of the situation. The EVP/CIO will work with the Information Systems staff to assess the situation.
- All desktop computers will be shut down immediately if there is a threat that the virus will continue to spread.
- If the failure occurs during normal business hours, then the departments will be notified to institute manual processes.
- If the failure occurs after business hours, then the information technology staff will work with the EVP/CIO to develop a plan to bring the system back up as soon as possible.
- If the failure is expected to last longer than 1 or 2 business days, then the Disaster Recovery Team will determine whether to restore operations at one of the emergency operations locations.

Detailed procedures for restoring computer and phone systems are included in the Information Systems Business Unit Recovery Plan.

# Hazardous Materials Incident or Gas Main Break

Immediate Response in Case of Hazardous Materials Incident or Gas Main Break

- Disaster Recovery Team Leader and other members contact local authorities and building management to determine the extent of the situation.
- If building evacuation is required during normal business hours, employees will be notified via e-mail or telephone paging system. Follow the procedures for evacuation in a fire, as described above.
- If a decision is made after hours to close on the following business day, a message will be placed on the Disaster Hotline at (313) 324-3699. The Business Unit Recovery Team Leaders will also be responsible for notifying employees via telephone.
- If the situation is expected to continue for longer than two business days, the Disaster Recovery Team may decide to activate the emergency operations center if that location is not affected by the incident.

# Tornado

# Immediate Response in Case of Tornado

- Disaster Recovery Team Leader and other members contact local authorities and building management to determine the extent of the situation.
- Disaster Recovery Team monitors the situation to determine if and when employees should take shelter.
    - Tornado WATCH means weather conditions are right for severe weather to develop.
    - Tornado WARNING means a tornado has been sighted and you should take cover immediately.
        - Under most circumstances, you will be notified by one or more of the following, in the event of a "Tornado Warning."
            1. City of Detroit Air Raid Sirens
            2. City of Chicago All Hazards Sirens
            3. Local Radio Broadcasts
            4. Other
- Make sure the radio is turned to a local station for weather information. (Refrain from using the telephones. Circuit lines must remain open for emergency purposes.)
- If it is determined that employees need to take shelter, an announcement will be made via e-mail and the telephone paging system.
- Employees are to leave all exterior rooms and close the door. Move away from any area exposed to exterior glass. (If you are trapped in an outside room, take cover under a desk or table.)
- Proceed to the center corridor hallway or stairwell and protect yourself from flying debris by putting your head as close to you lap as possible. If stairwell is crowded, move down to a lower level.
    - Do not use the elevators.
    - Do not go to the first floor lobby.

- Do not go to the basement.
- Do not go outside of the building.

- Each Business Unit Recovery Team Leader will be responsible for performing a walk-through of his/her area to ensure that employees have evacuated their area.

## Response after the Tornado

- After the tornado has passed, employees should remain in the shelter area until notified by a member of the Disaster Recovery Team or Building Management that it is safe to return to their designated work space.
- If there are individuals that have suffered injury as a result of the tornado, offer assistance using the nearest first aid kit until emergency personnel arrives. Do not attempt to move an injured person, unless they are at immediate risk of further injury.
- If anyone detects the odor of natural gas, they should contact the nearest member of the Disaster Recovery Team as soon as possible and avoid use of electrical appliances, flashlights or cell phones.
- The Disaster Recovery Team Leader will communicate with building authorities to determine the nature and extent of any damage.
- If there is no significant damage to the building, employees will be notified to return to their work areas and complete the work day.
- If the building has sustained significant damage or there is a fear that the structure may be unstable, then employees will be notified to leave for the remainder of the day.
- If the situation is expected to last for an extended period of time, the Disaster Recovery Team may decide to activate the emergency operations center if that location is not affected by the incident.
- The Disaster Recovery Team Leader will ensure that a message is placed on the Disaster Hotline at (313) 324-3699 to notify employees if the office is open or if operations are moved to an alternate location. The Business Unit Recovery Team Leaders will also be responsible for notifying employees via telephone.

## Earthquake

## Immediate Response in Case of Earthquake

- As soon as shaking begins, employees should drop to the floor and take cover under a desk or other sturdy piece of furniture. Try to hold onto the furniture while covering head with arms.
- Stay away from bookcases or other objects that might fall over as a result of shaking.
- Expect that fire alarms and sprinklers may go off in the building during an earthquake.
- Remain on the ground in covered place until the shaking has subsided.

## Response after the Earthquake

- After the shaking has subsided, the Disaster Recovery Team will contact building management to determine the extent of any damage.

- If there are individuals that have suffered injury as a result of the earthquake, offer assistance using the nearest first aid kit until emergency personnel arrives. Do not attempt to move an injured person, unless they are at immediate risk of further injury.
- If anyone detects the odor of natural gas, they should contact the nearest member of the Disaster Recovery Team as soon as possible and avoid use of electrical appliances, flashlights or cell phones.
- Be aware of small fires that may have ignited as a result of the earthquake. Use fire extinguisher if possible, or follow the procedures for fire evacuation, if necessary.
- If there is no significant damage to the building, employees will be notified to return to their work areas and complete the work day.
- If the building has sustained significant damage or there is a fear that the structure may be unstable, then employees will be notified to leave for the remainder of the day.
- If the situation is expected to last for an extended period of time, the Disaster Recovery Team may decide to activate the emergency operations center if that location is not affected by the incident.
- The Disaster Recovery Team Leader will ensure that a message is placed on the Disaster Hotline at (313) 324-3699 to notify employees if the office is open or if operations are moved to an alternate location. The Business Unit Recovery Team Leaders will also be responsible for notifying employees via telephone.

# Civil Disorder / Terrorist Attack

Immediate Response in Case of Civil Disorder or Terrorist Attack

- Employees are to notify a director or manager immediately of any information received, factual or rumored, of an attack, demonstration or other form of civil disorder that is planned or in progress in the vicinity of the building.
- The director or manager will contact the Disaster Recovery Team Leader who will assess the situation and inform the proper authorities.
- If a civil disturbance breaks out during the work day at or near the building, employees should remain calm and await instructions from the Disaster Recovery Team and Building Management.
- All personnel should assist with protecting company assets, if doing so will not cause imminent harm. This includes securing computer equipment and ensuring that all protected health information is in a locked cabinet or otherwise secured.
- Stay indoors and away from windows unless directed to evacuate the building. If necessary, employees should take cover under their desk or other large furniture.
- If the Disaster Recovery Team determines that an evacuation is appropriate, follow the procedure for a fire evacuation.
- If released from work early, employees should follow instructions of the Disaster Recovery Team, Building Management and the local authorities. Employees should not remain in the vicinity of the disturbance to observe the situation.
- If the situation is expected to last for an extended period of time or the building has been significantly damaged, the Disaster Recovery Team may decide to

activate the emergency operations center if that location is not affected by the incident.

- The Disaster Recovery Team Leader will ensure that a message is placed on the Disaster Hotline at (313) 324-3699 to notify employees if the office is open or if operations are moved to an alternate location. The Business Unit Recovery Team Leaders will also be responsible for notifying employees via telephone.

# Bomb Threat/Explosion

# Immediate Response if a Bomb Threat Call is Received

- The person receiving the call should remain calm and attempt to obtain as much of the following information as possible:
    - When is the bomb going to explode?
    - Where is the bomb located?
    - What does the bomb look like?
    - What will cause the bomb to explode?
    - Did you place the bomb in the building?
    - Why did you place the bomb in the building?
- The person receiving the call should also attempt to capture as much information about the caller as possible, including:
    - The sex of the caller
    - Approximate age of the caller
    - A description of the callers voice
    - Any background noise that may help to identify the caller's location
- While you are on the phone, send an e-mail to the **"Emergency Alert"** group in Outlook with a brief description of the situation. Someone will come to help you.
- If it is not feasible to send an e-mail alert, then as soon as the caller hangs up, the receiver of the call should immediately notify their director or manager of the threat. Do not discuss the call with any other employees.
- The director or manager will immediately contact the Disaster Recovery Team Leader or other member of the Disaster Recovery Team.
- The Disaster Recovery Team Leader or alternate will notify the building manager/assigned staff. If they are unavailable, call 911 to report the bomb threat in the following manner:
    - Call 911 and state the following "We have received a bomb threat."
    - Provide your name and title
    - Provide the organization's name and address
    - Provide a summary of the bomb threat call
    - State that someone from the company will meet the emergency personnel at the main entrance to the building.
- All staff is to evacuate the building. The Disaster Recovery Team will ensure that all staff have left the offices and will meet in the designated area outside of the building. Follow the same process for evacuation in case of a fire.
- Report any missing persons immediately to the Disaster Recovery Team Leader who will notify emergency personnel.
- Once the emergency personnel have determined that it is safe to return to the building, the Disaster Recovery Team will notify managers, supervisors and staff.

- If evacuation is not indicated, then the Disaster Recovery Team Leader will remain in touch with the emergency personnel until the situation is resolved.

# Immediate Response in the Event of an Explosion

- Remain calm and take cover under a secure table or desk. Be prepared for possible further explosions.
- Stay away from windows, mirrors, overhead fixtures, filing cabinets, bookcases and other objects that are not secured to the walls.
- Follow the instructions of the Disaster Recovery Team and/or Building Management.
- If instructed to evacuate, follow the fire evacuation procedure. Do not use elevators. Open doors carefully and watch for falling objects while evacuating.
- All staff should move to the designated meeting place outside of the building and check in with their Business Unit Recovery Team Leader.
- If there are individuals that have suffered injuries in the explosion, offer assistance using the nearest first aid kit until emergency personnel arrive. Do not attempt to move an injured person, unless they are at immediate risk of further injury.
- The Disaster Recovery Team Leader will call 911 to notify them that there has been an explosion. Provide the following information:
    - Call 911 and state the following "There has been an explosion in our building."
    - Provide your name and title
    - Provide the organization's name and address
    - Provide details of any significant injuries needing immediate medical attention
    - Inform the emergency personnel of the best way to access the building site and/or the location of the injured individuals
    - Take any additional instructions from the emergency personnel
- The Disaster Recovery Team Leader will communicate with building authorities to determine the nature and extent of any damage.
- If the building has sustained significant damage or there is a fear that the structure may be unstable, then employees will be notified to leave for the remainder of the day.
- If the situation is expected to last for an extended period of time, the Disaster Recovery Team may decide to activate the emergency operations center if that location is not affected by the incident.
- The Disaster Recovery Team Leader will ensure that a message is placed on the Disaster Hotline at (313) 324-3699 to notify employees if the office is open or if operations are moved to an alternate location. The Business Unit Recovery Team Leaders will be responsible for notifying employees via telephone.

# Disaster Recovery Team Crisis Response Plan

This section outlines some of the general steps that will be taken by the Disaster Recovery Team in response to a potential disaster situation. The detailed action steps will depend upon the nature of the situation and the extent of the damage to CMC facilities, equipment and assets.

## Disasters at the Detroit Office

Upon initial notification of a potential disaster, the Disaster Recovery Team will enter "crisis response" mode. During this time, it will assess the situation and determine whether they need to activate the Emergency Operations Center. Also, since the data center for Meridian Health Plan is located at the Detroit office as well, the team will determine if the disaster affects the Meridian office. The Disaster Recovery Team will use the procedure outlined in Attachment I to place SunGard on alert regarding the potential disaster situation. Once the situation has been assessed, the Disaster Recovery Team will contact SunGard to either "Declare a Disaster" or "Cancel the Disaster Alert." The Disaster Recovery Team will remain in constant contact with the Meridian Disaster Team Leader.

If the Detroit offices are available, the Crisis Management Center will be located in Thurber Board Room on the 6th floor. In the event that the building is not accessible, the Disaster Recovery Team may use one of the following back up locations:

## Cotton Residence

15324 Windmill Pointe
Grosse Pointe Park, MI 48230-1744

## Lauzon Residence

2632 Hawthorne Drive South
Shelby Township, MI

These locations are equipped to operate as communications centers in the event of a disaster situation. Both locations have backup generators in the event of a power failure. They also have phones that can receive calls from CMC's toll-free phone lines. Computers are available that can be networked into CMC's corporate systems. These locations would not be equipped to handle full operations, but could serve as a meeting site for the disaster recovery team or as a temporary operations center for a small core group of staff.

## Disasters at the Chicago Office

If there is a disaster at the Meridian office during working hours, (e.g., fire, flood, severe storm, civil disorder, etc.) all staff should follow the instructions of the MHP Disaster Recovery Team, law enforcement or emergency personnel. If a disaster occurs after working hours, all Meridian personnel will be notified by the VP of Operations or the Regional Office Manager on whether they should report to work.

## Procedure for Disasters Occurring During Working Hours

| Task | Timing/Contingencies | Assigned To: |
|---|---|---|
| Disaster Recovery Team Leader is notified of the situation and gathers as much information as possible. Coordinate activities with building management, if appropriate. | Immediately | Disaster Recovery Team Leader |
| Disaster Recovery Team gathers for a briefing on the situation. (In an urgent situation, this could be a brief notification via telephone.) | As soon as critical information has been gathered | Disaster Recovery Team |

| Task | Timing/Contingencies | Assigned To: |
|---|---|---|
| Disaster Recovery Team Leader contacts SunGard Support Services at 1-866-722-1313 and places them on alert status. See Attachment I for instructions. | As soon as critical information has been gathered | Disaster Recovery Team Leader |
| If there is immediate threat to the health or safety of employees, ensure that the building is evacuated.<br>(Follow the disaster-specific procedures outlined in Section F of this plan.) | Immediately | Disaster Recovery Team |
| If there is no threat to the health or safety of employees, the Disaster Recovery Team will assess the situation and determine the potential impact, including:<br>• Phone System<br>• Computer Systems<br>• Access to CMC Offices<br>• Damage to CMC Assets or Equipment<br>• Potential length of situation<br>Use the Disaster Assessment Forms and the Decision Tree Matrix located in Attachment D to determine the course of action. | Within 1 Hour | Disaster Recovery Team |
| If there is an immediate risk to CMC assets or property, identify a team to take immediate action to protect or recover the assets. | Immediately | Disaster Recovery Team |
| Notify Department Directors of the situation and the action plan for responding to the disaster. | As soon as information is available | Disaster Recovery Team |
| Department Directors execute plans of the Disaster Recovery Team, including implementation of manual processes if necessary. | Immediately upon notification | Department Directors/ Business Unit Recovery Team Leaders |
| Determine whether any staff should be released for the day if they are unable to work (i.e. MCS or the PBM system is down for the remainder of the day.) | Within 1 Hour | Department Directors/ Business Unit Recovery Team Leaders |
| If appropriate, provide all employees with a brief update and status of the situation. | As soon as information is available | Disaster Recovery Team Leader |
| If the situation is not resolved by the end of the working day, continue to monitor the situation and follow the applicable procedures for disaster recovery during non-working hours below. | Ongoing until the situation is resolved | Disaster Recovery Team |
| Provide an update to employees if the situation has changed or if there is the potential that employees may not have to report to work the following day.<br>• Instruct employees to call the Disaster Hotline at (313) 324-3699 for a status update before reporting to work in the morning. | By the end of the working day, if appropriate | Disaster Recovery Team |

| Task | Timing/Contingencies | Assigned To: |
|---|---|---|
| Determine whether it is appropriate to notify key customers of the disaster situation. | Within 24 Hours | Disaster Recovery Team |
| Contact SunGard Support Services at 1-866-722-1313 to either "Declare a Disaster" (i.e. activate emergency operations center) or "Cancel the Disaster Alert." See Attachment I for instructions. | As soon as a final decision is made | Disaster Recovery Team Leader |

The following is a list of the supplies that may be needed during a disaster situation.

- Fire Extinguishers
- Battery Operated AM/FM Radio
- Flashlights
- Batteries
- Automated External Defibrillator (AED Machines)
  - *AED machines are used to administer an electric shock to a person who is having a cardiac arrest. AEDs are designed to allow non-medical personnel to save lives.*
- First Aid Kits / Medical Emergency Supplies
- Walkie Talkies

# Locations for First Aid Kits, Medical Supplies & Fire Extinguishers

Detroit Office

| Floor | Item | Location |
|---|---|---|
| 5th | First Aid Kits | Member Services Copy Room |
| 5th | Fire extinguishers | In the hallway on the wall outside of the stairwells |
| 6th | First Aid Kits | Finance Copy Room<br>IS department<br>Lisa Hing's office |
| 6th | Medical Emergency Equipment Bag | Next to the Claims printer in the bottom right cabinet |
| 6th | AED's(Automated External Defibrillator) | Claims area on the wall next to printer under TV |
| 6th | Fire extinguishers | In the hallway on the wall outside of the stairwells |
| 7th | First Aid Kits | QM Copy Room<br>UM/Medical Management Copy Room<br>7th floor kitchen<br>7th floor mailroom located next to the kitchen |
| 7th | Medical Emergency Equipment Bag | Behind the mail reception desk, the first drawer on the right |
| 7th | AED's(Automated External Defibrillator) | On the wall across from the mail reception desk |
| 7th | Fire extinguishers | In the hallway on the wall outside of the stairwells |

Chicago Office:

- There is a **First Aid kit** located in the break room.
- **Fire extinguishers** are located in all stairwells, mechanical rooms, electric

closets and the parking garage.

Toolkits have been created with a battery-operated radio, two-way radio, flashlights and spare batteries. These toolkits are stored in the office of each member of the Disaster Recovery Team. Each member of the Disaster Recovery Team has a cellular phone that can be used for emergency communications within and outside of the CMC offices. Each employee also has a flashlight and batteries to be kept at his or her desk.

# Procedure for Disasters Occurring During Non-Working Hours

| Task | Timing/Contingencies | Assigned To: |
|---|---|---|
| Disaster Recovery Team Leader is notified of the situation and gathers as much information as possible. Coordinate activities with building management, if appropriate. | Immediately | Disaster Recovery Team Leader |
| Contact members of Disaster Recovery Team to inform them of the situation. Set up 1-800 conference call line, if needed to discuss the situation. | As soon as critical information has been gathered | Disaster Recovery Team Leader |
| Disaster Recovery Team Leader contacts SunGard Support Services at 1-866-722-1313 and places them on alert status. See Attachment I for instructions. | As soon as critical information has been gathered | Disaster Recovery Team Leader |
| Assign a team to assess the situation at the CMC offices. If the building is not accessible then this assessment cannot be completed. Proceed to conference call with members of the Disaster Recovery Team below. | As soon as the building is accessible | Disaster Recovery Team |
| Contact members of the assessment team and instruct them to meet the Disaster Recovery Team leader at the CMC offices. | As soon as team is identified | Disaster Recovery Team Leader<br>Team 2 |
| Assessment team reviews the situation at the CMC offices and takes any immediate action necessary to protect CMC property and computer equipment. | Upon arrival at the building | Disaster Recovery Team Leader<br>Team 2 |
| Report findings and recommendations to the Disaster Recovery Team. | Upon completion of assessment | Disaster Recovery Team Leader |
| Conference call with members of Disaster Recovery Team to determine impact based on the following:<br>• Phone System<br>• Computer Systems<br>• Access to CMC Offices<br>• Damage to CMC Assets or Equipment<br>• Potential length of situation | As soon as all members are available | Disaster Recovery Team |
| Use the Disaster Assessment Forms and the Decision Tree Matrix located in Attachment D to determine the course of action. Contact Department Directors as needed to gather input. | Preferably within 1 hour of receipt of all information | Disaster Recovery Team |
| Determine which business units are expected to report to | Preferably within 1 hour of | Disaster Recovery Team |

| Task | Timing/Contingencies | Assigned To: |
|---|---|---|
| work on the following business day and at what location. | receipt of all information | |
| Notify Department Directors of the situation and the action plan for responding to the disaster. | As soon as action plan is determined | Disaster Recovery Team |
| Department Directors contact employees to notify them of the situation and the plans for the next business day. Use the employee phone list in Attachment B and the Telephone Notification procedure in Attachment C. | Immediately upon notification | Department Directors |
| Update message on the employee Disaster Hotline at (313) 324-3699 to notify employees of the plan for the next business day. | At least 8 hours prior to the start of the work day | Disaster Recovery Team Leader |
| Determine whether it is appropriate to notify key customers of the disaster situation. Refer to list of key Customers in Attachment G. | Within 24 Hours | Disaster Recovery Team |
| Contact SunGard Support Services at 1-866-722-1313 to either "Declare a Disaster" (i.e. activate emergency operations center) or "Cancel the Disaster Alert." See Attachment I for instructions. | As soon as a final decision is made | Disaster Recovery Team Leader |

# Procedure for Restoring Operations at CMC Offices

Assuming that operations can be restored at the CMC offices within a reasonable time frame and without significant negative impact on the organization, the Disaster Recovery Team will conduct the following activities.

| Task | Timing/Contingencies | Assigned To: |
|---|---|---|
| Determine what issues may impact operations for the following business day. | As soon as decision is made to return to CMC | Disaster Recovery Team |
| Prioritize issues based upon which would have the most significant impact on operations. Refer to the Critical Business Process Assessment in Attachment E and the Priority Systems Restoration List in Attachment F. | As soon as issues are identified | Disaster Recovery Team |
| Assign a team to resolve priority system and facility issues prior to the next business day. | As soon as all issues are identified | Disaster Recovery Team |
| Follow system recovery procedures for telephones and computers. | Immediately and until issues are resolved | Business Unit Recovery Team 2 |
| Work with building management to resolve any facility issues prior to the next business day. | Until issues are resolved | Disaster Recovery Team Leader |
| Notify any key vendors of the situation and enlist their assistance to resolve any open issues. See list of key vendors in Attachment G. | As needed | Disaster Recovery Team |
| Obtain status on all open issues and determine if operations can be restored on the following business day. | At least 8 hours prior to the start of the business day or as soon as possible | Disaster Recovery Team Leader |

| Task | Timing/Contingencies | Assigned To: |
|---|---|---|
| Make final decision regarding opening for business the following day and determine which staff are to report to work and which staff are to stay home, if any. | At least 8 hours prior to the start of the business day or as soon as possible | Disaster Recovery Team |
| Notify the Department Directors of the final decision regarding restoration of business operations and who should report to work. | As soon as a final decision is made | Disaster Recovery Team |
| Contact all employees and inform them of the situation and whether or not they are expected to report to work. Use the employee phone list in Attachment B and the Telephone Notification procedure in Attachment C. | As soon as possible and no later than 6:00 AM on the day they are expected to report | Department Directors |
| Update message on the employee Disaster Hotline at (313) 324-3699 to notify employees of the plan for the next business day. | As soon as a final decision is made | Disaster Recovery Team Leader |

# Day 1 Operations at CMC Offices

Upon returning to the CMC offices to resume operations, the Disaster Recovery Team will conduct the following activities:

- Hold an update meeting with department directors first thing in the morning to provide status and direction for the day's activities.
- Institute manual operations if needed, until all systems are brought back on line.
- Cancel any non-critical meetings so that department directors and managers can focus on operational issues.
- Maintain high visibility throughout the day to respond to any new issues that may arise or provide assistance in trouble-shooting existing issues.
- Hold update meetings as needed throughout the day to notify department directors of the status of recovery efforts.
- Send communication to employees via e-mail or pager system to thank them for their patience during the disaster situation.

The Disaster Recovery Team will continue to monitor all open issues until they are resolved. After full operations have been restored, the Disaster Recovery Team should hold a de-briefing to assess the strengths and weaknesses of the organization's response and develop a plan for improvement in the future.

# Emergency Operations at Off-Site Location

Regardless of the nature of the disaster situation, there may be times when it is not feasible to resume operations at the corporate office. This may be due to hazardous conditions at or around the building, or major damage or destruction of the building itself. This section of the disaster recovery plan outlines CMC's alternative locations for emergency operations and the process for activating those locations.

Caidan Management Company has negotiated an arrangement with SunGard to serve as a back-up location for CMC operations in the event of a disaster situation. A copy of the SunGard agreement is included in the Information Systems Business Unit Recovery Plan. SunGard will provide office space with up to 50 workstations, computers and telephone services at its recovery center located in Farmington Hills, Michigan. The

following is the address for the facility:

## SunGard Availability Services

37890 Interchange Drive
Farmington Hills, MI 48335

If the disaster affects the Farmington Hills location, CMC has two locations in Illinois to serve as a back-up location. Each location will provide space for up to 50 workstations. The following are the addresses of the facilities available for use:

## SunGard Availability Services

341-361 Haynes Drive
Wood Dale, IL 60191

## SunGard Availability Services

3100 Arnold Lane
Northbrook, IL 60062

The Disaster Recovery Team will make the final determination regarding activation of the emergency operations site, based upon the decision tree located in Attachment D. The Disaster Recovery Team will communicate this decision to the Business Unit Recovery Teams and will oversee operations at the emergency location.

This section outlines general procedures and provides a framework for conducting operations at the emergency operations center. The detailed action steps will depend upon the nature of the disaster and the priorities of the Disaster Recovery Team. Operations will continue at the emergency operations center until a plan is made to transition the computers, phones and staff back to the CMC offices.

## Procedure to Set Up the Emergency Operations Center

This procedure assumes that the CMC offices are not available and that all operations should be re-directed to the emergency operations center. If partial operations are still in place at the CMC Offices, then the disaster recovery team will divide their time between the corporate site and the emergency operations center.

| Task | Timing/Contingencies | Assigned To: |
|---|---|---|
| Contact SunGard Support Services at 1-866-722-1313 to "Declare a Disaster" and activate the emergency operations center. See Attachment I for instructions. | As soon as a final decision is made | Disaster Recovery Team Leader |
| If the location is other than the Farmington Hills site, determine transportation and travel plans. | Immediately | Disaster Recovery Team |
| Contact Information Systems Recovery Team (Team 2) and initiate recovery procedures. | As soon as location is confirmed | Disaster Recovery Team Leader |
| Determine if other key staff members are needed immediately at the emergency operations center. Refer to the Critical Business Process Assessment in Attachment E and the Priority Systems Restoration List in Attachment | As soon as location is confirmed | Disaster Recovery Team |

| Task | Timing/Contingencies | Assigned To: |
|---|---|---|
| F. | | |
| Disaster Recovery Team and other key staff report to the emergency operations center. | As soon as location is confirmed | Disaster Recovery Team<br>Key Staff |
| Determine immediate plan for 1-800 phone lines. If necessary, change the message on the 1-800 phone lines to instruct callers how to reach the health plan. Coordinate with after-hours phone vendor. | Upon arrival at the EOC | Disaster Recovery Team 2 |
| Determine where each department will sit within the emergency operations center.<br>• Set up staff from each department in close proximity and put up signs on each employee's chair so they know where to sit<br>• Consider phone, fax and computer needs as well as access to shared paper documentation<br>• Ensure that Team 2 is alerted to the seating plan when they are setting up operations<br>• Develop a preliminary phone list for internal use, including the staff seating location and SunGard phone extension | Prior to any staff arriving at the EOC | Disaster Recovery Team 2 |
| Test all workstations and work spaces to ensure computers, faxes and phones are working. | Prior to employees arriving at the EOC | Disaster Recovery Team 2 |

# Procedure for Resuming Operations

This procedure highlights the key operations activities that will take place at the emergency operations center.

| Task | Timing/Contingencies | Assigned To: |
|---|---|---|
| Orient employees arriving at the EOC to the manual processes. | At least one hour prior to initiating operations | Business Unit Recovery Team Leader |
| Initiate manual operations at EOC to respond to phone calls until computers are restored. | As soon as phone lines are up and running | Team 3 and Team 6 |
| Cease manual processes and initiate regular call center operations at the emergency operations center. | As soon as MCS is restored | Team 3 and Team 6 |
| Enter all manual transactions into MCS. | As soon as MCS is restored | Team 3 and Team 6 |
| Execute Business Unit Recovery Plans as teams arrive at the emergency operations center to resume operations. | As instructed by the Disaster Recovery Team | Business Unit Recovery Team Leaders |

# Communication Procedures

This procedure outlines the communication activities that need to take place to support and constantly update the situation at the emergency operations center.

| Task | Timing/Contingencies | Assigned To: |
|---|---|---|

| Task | Timing/Contingencies | Assigned To: |
|---|---|---|
| Develop communication message and contact key customers related to the disaster situation. | Within 24 hours of the disaster | Chief Operating Officer |
| Contact Business Unit Recovery Team Leaders that are needed to report to the emergency operations center. | At least two hours prior to when they are needed at the site | Disaster Recovery Team |
| Contact members of Business Unit Recovery Team who are needed to report to the emergency operations center.<br>• Provide IS with a list of staff who will be reporting so that computer workstations and phone lines can be assigned as soon as possible. | The night before or at least two hours prior to when they are needed at the site | Business Unit Recovery Team Leader |
| Disaster Recovery Team holds status meetings to discuss key issues and respond to resource requests. | At least twice daily or as needed to maintain operations | Disaster Recovery Team<br>Business Unit Recovery Team Leaders, if needed |
| Make status calls to all Business Unit Recovery Team Leaders who are not at the EOC. | By the close of business each day | Disaster Recovery Team |
| Update the message on the employee Disaster Hotline at (313) 324-3699 for the following day. | By the close of business each day | Disaster Recovery Team |
| Contact all staff in each department to notify them of the plan for the following day. Use the employee phone list in Attachment B and the Telephone Notification procedure in Attachment C. | By the close of business each day | Business Unit Recovery Team Leaders |

# Planning and Management Activities

This section outlines some of the planning and oversight activities that need to be conducted by the Disaster Recovery Team in order to effectively manage the emergency operations center.

| Task | Timing/Contingencies | Assigned To: |
|---|---|---|
| Assess any immediate issues that need to be addressed based upon the disaster (i.e. Upcoming meetings, audits, site visits or other events that will be affected.) | Immediately | Disaster Recovery Team |
| Review calendars and cancel any non-critical outside meetings or events. | As soon as e-mail and calendars are up and running | Disaster Recovery Team<br>Business Unit Recovery Team Leaders |
| Assess which functions are up and running at the EOC.<br>• Monitor schedules for day and evening shifts. | At least daily | Disaster Recovery Team |
| Determine if additional staff is needed to support any functions at the EOC. | At least daily | Disaster Recovery Team<br>Business Unit Team Leaders at the EOC |
| Determine if any additional functions need to come on line at the EOC the next business day. | At least daily | Disaster Recovery Team |
| Assess the location and status of each CMC employee | At least daily | Business Unit Recovery |

| Task | Timing/Contingencies | Assigned To: |
|---|---|---|
| based on the following possible situations:<br>• Working at EOC<br>• Working at CMC Offices (If Accessible)<br>• Working at Home<br>• Not Working - Assigned to Stay Home<br>• Not Available (Vacation, PTO, Other) | | Team Leaders |

# Administrative Support Procedures

This section outlines some of the basic administrative duties that need to be completed to support the emergency operations center.

| Task | Timing/Contingencies | Assigned To: |
|---|---|---|
| Ensure that office supplies and other necessary supplies are available. Refer to list of key vendors included in Attachment G. | Upon arrival at the EOC | Administrative Support |
| Provide credit card, petty cash or checks to facilitate emergency purchases. | As needed | Chief Financial Officer |
| Respond to phone calls from CMC employees that are coming into the EOC. | Upon arrival at the EOC | Administrative Support |
| Contact the post office to have mail held for pick up. | Within 24 hours | Administrative Support |
| Develop mail sorting and distribution area within the EOC. | Within 24 hours | Claims Department |
| Make arrangements to pick up mail at the post office. | At least once each day | Administrative Support |
| Sort and distribute mail to those working at the EOC. Hold mail for those not working at the EOC. | At least once each day | Claims Department<br>Administrative Support |

The following is a list of the supplies and equipment that may be needed to resume operations at the emergency operations center. Many of these items are incorporated into CMC's agreement with SunGard. The administrative support person will coordinate with staff from Finance, Information Systems and other departments as needed to ensure that these items are available:

# Communications

- Telephones*
- Cellular Phones
- AM/FM Radio
- Television
- Walkie Talkies

# Office Supplies

- Message Slips
- Pens/Pencils
- Lined Writing Tablets
- Copy Paper
- Dry Erase Boards
- Colored Markers for Dry Erase Boards

- Easel with Large White Paper Pads
- Masking Tape
- File Folders
- Storage Boxes
- Paper Clips and Binder Clips
- Staplers and Extra Staples
- Rubber Bands
- Scissors

## Office Equipment

- PCs*
- Printers*
- Copy Machines*
- Fax Machine*
- Locked File Cabinets

## Documents

- Disaster Recovery Plan
- Business Unit Recovery Plans
- Local Map/Street Guide
- Local Telephone Directories

Items that are part of the SunGard agreement are indicated with an asterisk (*). The remainder of the items will be obtained from one of CMC's key vendors. A list of the vendors and key contact information is included in Attachment G.

## Migration Plan Back to CMC Offices

This section describes the general process for managing the transition from the emergency operations center back to the CMC offices. In the event that the building is severely damaged or destroyed, CMC leadership will initiate plans to move the CMC offices to another permanent location. The business will continue to use the emergency operations location until a new space is located and prepared for occupancy.

| Task | Timing/Contingencies | Assigned To: |
|---|---|---|
| Visit CMC offices to assess any damages and make a list of any supplies, equipment or repairs that may be needed prior to occupancy. | As soon as building is accessible | Disaster Recovery Team Leader |
| Assign a team to work with the building management and key vendors to ensure that office space has the necessary supplies and equipment for re-occupancy. | As soon as initial assessment is completed | Disaster Recovery Team |
| Maintain contact with the building authorities to determine when the building can be occupied. | Daily or as needed | Disaster Recovery Team Leader |
| Determine the exact date that CMC will move back into the corporate offices.<br>• Schedule transition over a weekend if possible, to allow for the information systems migration back over to the CMC offices. | As soon as building is ready for occupancy | Disaster Recovery Team |
| Notify SunGard of the date that the emergency operations | As soon as date is | Disaster Recovery Team |

| Task | Timing/Contingencies | Assigned To: |
|---|---|---|
| center will be shut down. | confirmed | Leader |
| Institute recovery procedure to move operations back over to the CMC offices. | As soon as date is confirmed | Team 2 |
| Notify post office that mail can be delivered to the CMC offices beginning on the first business day. | As soon as date is confirmed | Administrative Support |
| Notify Business Unit Recovery Team Leaders of tentative date for restoration at corporate offices. | As soon as date is confirmed | Disaster Recovery Team |
| Notify employees of tentative date for restoration at corporate offices. Remind employees that date may change and to check the Disaster Hotline at (313) 324-3699 before returning to work. | As soon as date is confirmed | Business Unit Recovery Teams |
| Test all systems to ensure that they are working properly and determine if there are any significant issues. | At least 12-18 hours prior to occupancy | Team 2 |
| Make a final decision whether operations can be restored on the agreed up on date or whether more time is needed to complete the restoration. If more time is needed, consider the following:<br>• Can partial operations be restored at the corporate offices?<br>• Which employees should and should not report to the corporate offices?<br>• Should certain employees report to the EOC for manual operations?<br>• Should the phones and/or computers be reverted back to the EOC?<br>• Should we focus on restoring the corporate offices or on returning back to the EOC, depending upon the nature of the problem? | At least 12-18 hours prior to occupancy | Disaster Recovery Team |
| Update the message on the employee Disaster Hotline at (313) 324-3699 for the following day. | At least 8 hours prior to occupancy | Disaster Recovery Team |
| Notify Business Unit Recovery Team Leaders of the final decision related to occupancy. | As soon as date is confirmed | Disaster Recovery Team |
| Contact all staff in each department to notify them of the final decision regarding use of the CMC offices. Use the employee phone list in Attachment B and the Telephone Notification procedure in Attachment C. | As soon as possible and no later than 6:00 AM on the day they are expected to report | Business Unit Recovery Team Leaders |

# Maintenance and Testing of Disaster Recovery Plan

The Disaster Recovery Team is responsible for maintaining the Business Continuity and Disaster Recovery Plan. The team will ensure that the plan is tested and updated on an annual basis. The team will also ensure that the organization is trained and prepared to handle a disaster situation.

All CMC employees will be reminded about the disaster recovery plan on an annual

basis. In addition, each Business Unit Recovery Team Leader will ensure that employees are trained on the specific departmental plans. CMC also has created an employee disaster guide to assist employees in responding to a disaster situation. This guide is provided to all employees at the start of their employment with CMC.

In order to ensure that the disaster recovery process operates according to the requirements outlined in this plan, CMC will periodically test various components of the Disaster Recovery Plan, including the following:

- Building Evacuation Procedures
- Department's Manual Processes
- Restoring Phone Services to the CMC Offices
- Restoring Computer Services to the CMC Offices
- Setting up the Emergency Operations Center
- Closing Down the Emergency Operations Center

The Disaster Recovery Team Leader will develop a schedule for testing of the various components of the Disaster Recovery Plan on an annual basis. The Disaster Recovery Team Leader will ensure that results of the testing are reviewed for potential areas of improvement. Test results and incident response plans are maintained in the Information Systems department.

In addition to testing, it is also important to maintain and update the Disaster Recovery Plan to reflect any changes in administrative structure or operations at CMC. The following is the schedule for ongoing maintenance of the Disaster Recovery Plan:

| Task | Person Responsible | Time Frame |
|---|---|---|
| Read the entire plan and update any areas that have changed significantly | Disaster Recovery Team | Quarterly |
| Review each Business Unit Recovery Plan and update any areas that have changed significantly | Business Unit Recovery Team Leaders | Annually |
| Update Employee Contact List to add, change or delete contact information for employees | HR Manager | Whenever a change is made |
| Review the list of key vendors and make any changes based on new or terminated vendor relationships | Disaster Recovery Team Executive IS Assistant | Annually |
| Review and update the agreement with the emergency operations center to meet the needs of CMC. Validate the Disaster Declaration Authorization (DDA). | Disaster Recovery Team Leader | Annually |

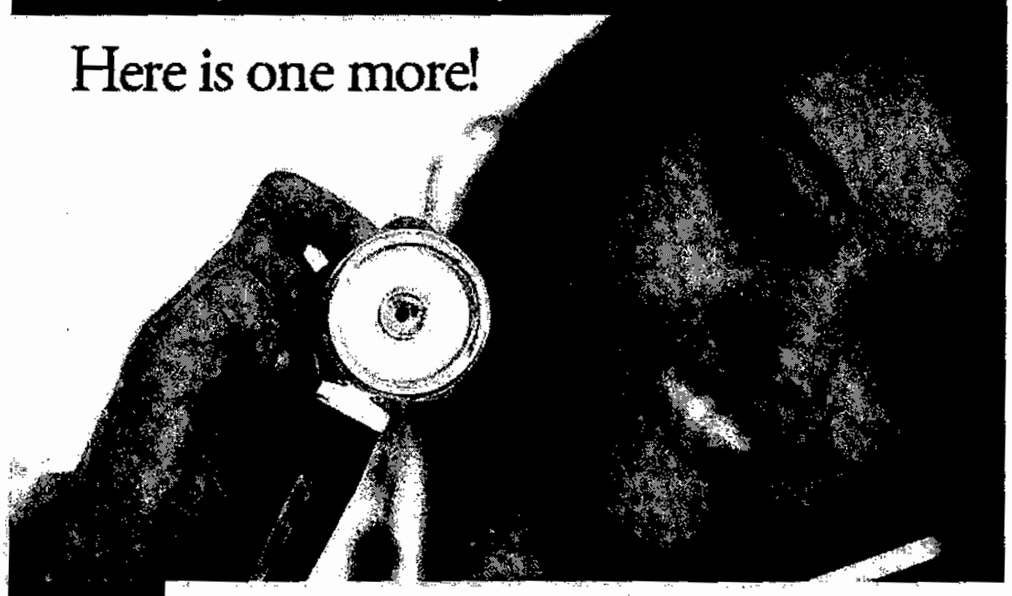
# Appendix E – Member Communication and Outreach

## Visit Your PCP

There are many reasons to get to know your Primary Care Provider...

Here is one more!



Your Primary Care Provider (PCP) is your main health care provider.

If you see your PCP within 30 days of enrollment, you will be entered in a raffle for a **Free $100 Gift Card**

It is very important to see your PCP at least once a year. This gives you the opportunity to stay healthy.

If you have any questions, please contact Member Services at 866-606-3700, Monday - Friday, between 8 a.m. and 5 p.m.

0000133 MI-P

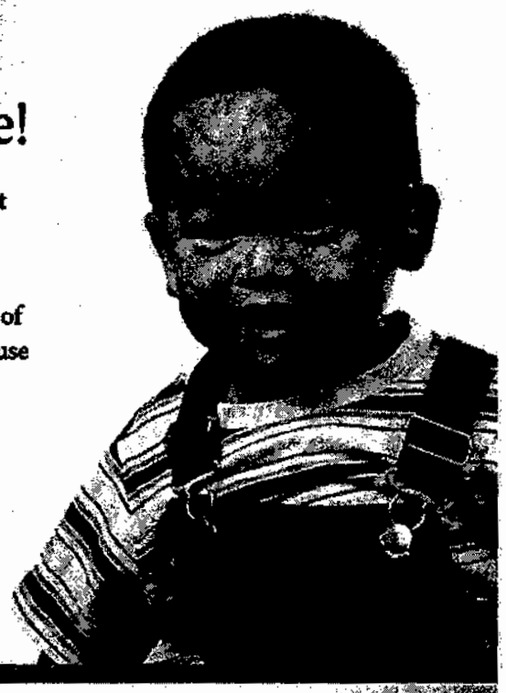
Meridian Health Plan Inc.

## Child Hib Vaccine

# It's time for your child's Hib vaccine!

The Hib vaccine is a shot that can protect your child from serious diseases:

- Meningitis
  - This is an infection of the covering of the brain and spinal cord. It can cause brain damage and deafness.
- Pneumonia (lung infection)
- Epiglottitis (serious throat swelling)
- Infections of the blood, joints, bones and covering of the heart



Meridian
Health Plan Inc.

**Your child should get a Hib vaccine at:**

- ✔ 2 months of age
- ✔ 4 months of age
- ✔ 6 months of age
- ✔ 12-15 months of age

**Do you need help making an appointment?**

**Please call MHP's Member Services department at 866-606-3700.**

Do you need free transportation to your appointment or health department? Please call 866-[illegible] at least 2 days before your scheduled office visit.

# ADD UP YOUR PRETEEN'S HEALTH

Preteens grow fast – keep them growing strong with the right immunizations (shots). These shots can protect your child from serious illness.

**Tetanus, Diphtheria, Pertussis (Tdap)**

- Tetanus is caused by a bacteria found in the soil. It enters the body through a cut or tear in the skin. Tetanus can cause problems with breathing or swallowing.
- Diphtheria is a very contagious disease that affects the lungs.
- Pertussis (whooping cough) can cause severe coughing and choking, making it hard to breathe or eat.
- One Tdap shot is needed between the 10th and 13th birthdays

**Meningitis**

- Meningitis is an infection of the brain and spinal cord. It can cause brain damage and deafness.
- One meningitis shot is needed between the 11th and 13th birthdays

**Influenza (flu)**

- Flu is very contagious, and spreads easily in school settings.
- All children and teens, ages 6 months to 18 years, need a flu shot every year.

**Human Papilloma Virus (HPV)**

- HPV is the major cause of cervical cancer in women, and of genital warts in women and men.
- Three shots are needed for girls at 9-13 years of age.
- Boys can get this shot, too.

Call your child's Primary Care Provider (PCP) today. Ask if your preteen is up to date on these and other shots, such as:

- Hepatitis A & B
- Measles, Mumps, Rubella (MMR)
- Polio
- Varicella (Chicken Pox)

If you have questions, please call Member Services at 866-606-3700. Member Services can also help you make an appointment, or find a PCP.

## Cervical Cancer Screening Reminder (bi-fold)

666 Grand Avenue, 10th floor
Des Moines, IA 50309

## We have been trying to reach you!

Meridian Health Plan wants to remind you about important preventive services that you need to stay healthy.

Please review the information below and call your Primary Care Provider (PCP) today to make an appointment.

Please call Member Services at 877-204-9132 as soon as possible to update your contact information. We can also help you find a PCP or schedule an appointment.

According to our records your PCP is:

PCP Name:

PCP Address:

PCP Phone Number:

Have you signed up for My MHP? It's a secure, member-only web portal that gives you access to your health information. Visit www.mhplan.com/ia/MyMHP to learn more.

**Our records show that you need the following service:**

### Cervical Cancer Screening

All women age 21 and older should have a pelvic exam and a Pap test every year. This test checks for changes in the cells of your cervix. The Pap test can tell if you have an infection, abnormal cervical cells, or cervical cancer.

## Chlamydia Screening Reminder (bi-fold Spanish)

# UNA BUENA SALUD COMIENZA CON EXÁMENES DE DETECCIÓN REGULARES. ¿ESTÁ USTED AL DÍA?

### Examen de detección del cáncer de cuello de útero:

Todas las mujeres de 21 años en adelante se deben hacer un examen pélvico y una prueba de papanicolau cada año. La prueba de papanicolau permite detectar cambios en las células del cuello del útero. Con ella se puede saber si hay una infección, células anormales o cáncer de cuello de útero.

### Examen de detección de la clamidia:

Las mujeres de entre 16 y 24 años que sean sexualmente activas deben realizarse una prueba de clamidia al menos una vez por año. Esta prueba también es importante para las mujeres de más de 25 años que tengan varias parejas sexuales. La clamidia es una infección de transmisión sexual (STI) que puede no presentar síntomas, de modo que usted o su pareja podrían tenerla y no saberlo.

### Examen de detección de cáncer de mama:

Todas las mujeres de 40 años en adelante deben hacerse una mamografía anual. La mamografíaes una radiografía de las mamas. Permite descubrir nódulos que son demasiado pequeños y que no se detectan en los controles de tacto que hacen usted o su médico. También es importante que se realice un autoexamen de las mamas todos los meses a partir de los 20 años de edad. Si percibe algún cambio, asegúrese de informárselo a su proveedor de atención médica.

Llame a su proveedor de atención primaria hoy mismo para programar estos importantes exámenes de detección.

Si tiene alguna pregunta o necesita ayuda para concertar una cita, llame a Servicios al Miembro al 866-606-3700.

## Access to Care Flyer

# Access to Care

**How Often Should Patients Have Preventive Care Visits?**

- Children under age three should have preventive visits at frequent intervals:
  - Infants should be seen bi-weekly for the first month, again at 2 months, 4 months and 6 months;
  - Approximately one visit every 3 months between 6 and 18 months;
  - One visit every 6 months between 18 months and 3 years.
- Patients aged 3 to 19 years should have one or more visits with a PCP during the measurement year.
- Adults should also have one or more PCP visits per year. These visits should be either preventive/health maintenance or addressing a specific concern.

**How is Access to Care Reported?**

- The following codes can be used when billing for these visits:

**Adults:**

| | | | |
|---|---|---|---|
| Office or other outpatient services | 99201-99205, 99211-99215, 99241-99245 | | |
| Home services | 99341-99345, 99347-99350 | | |
| Nursing facility care | 99304-99310, 99315, 99316, 99318 | | |
| Domiciliary, rest home or custodial care services | 99324-99328, 99334-99337 | | |
| Preventive medicine | 99385-99387, 99395-99397, 99401-99404, 99411, 99412, 99420, 99429 | G0344, G0402, G0438, G0439 | |
| General medical examination | | | V70.0, V70.3, V70.5, V70.6, V70.8, V70.9 |

**Children and Adolescents:**

| | | | |
|---|---|---|---|
| Office or other outpatient services | 99201-99205, 99211-99215, 99241-99245 | | |
| Home services | 99341-99345, 99347-99350 | | |
| Preventive medicine | 99381-99385, 99391-99395, 99401-99404, 99411-99412, 99420, 99429 | G0438, G0439 | |
| General medical examination | | | V20.2, V70.0, V70.3, V70.5, V70.6, V70.8, V70.9 |

**Did You Know?**

Sick visits may be billed in conjunction with well-child visits using the **Modifier-25** if the medical record contains **all** of the following criteria required at a well child exam:

- A health and developmental history (physical and mental)
- A physical exam
- Health education/anticipatory guidance

Remember to visit MHP's online provider portal to enter relevant HEDIS information:
**www.mhplan.com/ia/mcs**

Medical records may be faxed to:
**xxx.xxx.xxxx**

If you have any questions, please call MHP Quality Management Department at:
**877-204-9132**

# Pediatric Preventive Health Care Guidelines*

These guidelines represent a consensus by the Committee on Practice and Ambulatory Medicine in consultation with national committees and sections of the American Academy of Pediatrics. The Committee emphasizes the great importance of continuity of care in comprehensive health supervision and the need to avoid fragmentation of care.

The recommendations in this publication do not indicate an exclusive course of treatment or serve as a standard of medical care. Variations, taking into account individual circumstances, may be appropriate.

*For the benefit-covered frequency of physical exams and screenings, refer to the "Specific Plan Details" document available at http://www.meridianhealthplan.com.

**To give your child's body the best chance to remain healthy and disease-free, get the right kinds of preventive health services—screenings, counseling, and preventive medicines—at the right times.**

**What does it mean to be "at risk"?**

An "at risk" child is one who, with currently healthy, may be at increased risk of developing learning, emotional, behavioral, or physical problems in childhood. Risk may be based on your family history, lifestyle and environmental factors, such as lack of physical activity or nutritional factors, such as obesity or diabetes. Risk are "at risk" or are not sure if your child is "at risk" talk to yourself. The doctor will develop a personal schedule for the frequency of these medical tests or screenings based on your risk factors.

1. All infants discharged within 72 hours of birth need a professional evaluation within 2 days of discharge. Weight check, breastfeeding support, and evaluation jaundice before recommended visits at ages 3 wk, 5 wk.
2. Developmental/Behavioral Assessment including Developmental Screening, Autism Screening, Developmental Surveillance, Psychosocial/Behavioral Assessment, and Alcohol and Drug Use Assessment per AAP Council on Children with Disabilities, AAP Section on Developmental Behavioral Pediatrics, AAP Bright Futures Steering Committee, AAP Medical Home Initiatives for Children with Special Health Care Needs Project Advisory Committee. Identify infants and young children with developmental disorders in biomedical terms, recognition for developmental surveillance and screening. Pediatrics. 2006;118:405-420. URL: http://www.aap.org/policy/re0506.html (accessed 3/9/07).
3. All sexually active patients should be screened for sexually transmitted infections (STIs).
4. All sexually active girls should have screening for cervical dysplasia as part of a pelvic examination beginning within 3 years of onset of sexual activity or age 21 (whichever comes sooner).

These distinctions results from evidence and consensus reviewed by the Committee on Practice and Ambulatory Care and Bright Futures Project Advisory Committee. For additional materials, see www.aap.org.

# Prescribing for Asthma

**Asthma Reminders**

- Assess for signs and symptoms of asthma at each visit
- Educate patients about their asthma action plans
- Ask patients to use peak flow meters and ask them to demonstrate their use
- Review medications and monitor for side effects
- Educate on proper inhaler techniques
- Consider prescribing a spacer to increase the effectiveness of the metered-dose inhaler (MDI)
- Educate patients about triggers that may cause their symptoms to flare up

**Did You Know?**

- MHP will reimburse for asthma education classes when provided by a certified asthma educator
- Counsel and support patients with asthma and encourage them to stop smoking or reduce exposure to second-hand smoke.

**Any member with a diagnosis of asthma (ICD-9-CM: 493.0, 493.1, 493.8, 493.9) should be prescribed at least one preferred therapy drug during the year. Please see below for preferred therapy guidelines.**

| Description | Prescriptions | | |
|---|---|---|---|
| Antiasthmatic combinations | • Dyphylline-guaifenesin | • Guaifenesin-theophylline | • Potassium iodide-theophylline |
| Antibody inhibitor | • Omalizumab | | |
| Inhaled steroid combinations | • Budesonide-formoterol | • Fluticasone-salmeterol | • Mometasone-formoterol |
| Inhaled corticosteroids | • Beclomethasone<br>• Budesonide<br>• Ciclesonide | • Flunisolide<br>• Fluticasone CFC free<br>• Mometasone | • Triamcinolone |
| Leukotriene modifiers | • Montelukast | • Zafirlukast | • Zileuton |
| Mast cell stabilizers | • Cromolyn | • Nedocromil | |
| Methylxanthines | • Aminophylline<br>• Dyphylline | • Oxtriphylline<br>• Theophylline | |

Long acting beta agonists (LABA) such as Formoterol and Salmeterol are for long-term prevention of symptoms when added to ICS. They are not to be used to treat acute symptoms of exacerbations. Short acting beta agonists (SABA) such as Albuterol and Metaproterenol are for relief of acute symptoms.

If you have any questions, please call MHP's Quality Management Department at **877-204-9132**

Remember to visit MHP's online provider portal to enter other relevant HEDIS information **www.mhplan.com/ia/mcs**

If a patient is misdiagnosed as asthmatic, please send a signed attestation to MHP to inform the plan that the member is not an asthmatic. Please fax attestations to **XXX.XXX.XXXX**

# Sample patient self-assessment sheet for follow up visits

Name: _____ Date: _____

## Your Asthma Control

How many days in the past week have you had chest tightness, cough, shortness of breath, or wheezing (whistling in your chest)? ____0 ____1 ____2 ____3 ____4 ____5 ____6 ____7

How many nights in the past week have you had chest tightness, cough, shortness of breath, or wheezing (whistling in your chest)? ____0 ____1 ____2 ____3 ____4 ____5 ____6 ____7

Do you perform peak flow readings at home? _____Yes _____No

If yes, did you bring your peak flow chart? _____Yes _____No

How many days in the past week has asthma restricted your physical activity? ____0 ____1 ____2 ____3 ____4 ____5 ____6 ____7

Have you had any asthma attacks since your last visit? _____Yes _____No

Have you had any unscheduled visits to a doctor, including to the emergency department, since your last visit? _____Yes _____No

How well controlled is your asthma, in your opinion?

____very well controlled ____ somewhat controlled ____ not well controlled _____ Average number of puffs per day

## Taking your medicine

- What problems have you had taking your medicine or following your asthma action plan?
- Please ask the doctor or nurse to review how you take your medicine.

## Your questions

- What questions or concerns would you like to discuss with the doctor?
- How satisfied are you with your asthma care? ____very satisfied ____somewhat satisfied ____not satisfied

These questions are examples and do not represent a standardized assessment instrument.
Other examples of asthma control questions: Asthma Control Questionnaire (Juniper); Asthma Therapy Assessment Questionnaire (Volmer); Asthma Control Test (Nathan); Asthma Control Score (Boulet)

Cancer Screening Flyer

# Breast and Cervical Cancer Screening

**The best way to detect breast or cervical cancer in its early stages is through regular screening.**

### When Should I Provide Breast and Cervical Cancer Screening?

**Breast Cancer Screening**
Every female patient age 40-69 should have one screening per calendar year.

**Cervical Cancer Screening**
Every female patient age 21-64 should have one screening per calendar year.

### When Should These Screenings be Scheduled?

To make obtaining preventive care easy for our members and providers, MHP does not require any authorizations or wait times for these screenings. These screenings may be conducted at any point throughout the year. Please remember that preventive health services should be provided whenever a patient is in your office.

### MHP Offers a Provider Bonus for Screening!

All MHP contracted physicians providing these screenings are eligible for one bonus for each screening per member per year.

## Breast Cancer

| | |
|---|---|
| [redacted] | [redacted] |
| 77055-77057 | $50 |
| [redacted] | |
| G0202, G0204, G0206 | |

# The American College of Radiology BI-RADS ATLAS and MQSA

## WHAT IS THE BREAST IMAGING REPORTING AND DATABASE SYSTEM (BI-RADS)?

BI-RADS® is a quality assurance guide designed to standardize breast imaging reporting and facilitate outcome monitoring. BI-RADS® serves as a comprehensive guide providing standardized breast imaging terminology, report organization and assessment structure, as well as a classification system for mammography, ultrasound, and magnetic resonance imaging (MRI) of the breast. The BI-RADS® Atlas also includes the fourth edition of the mammography lexicon and audit system. It provides radiologists with guidance on BI-RADS® through the use of illustrated cases, sample reports, statistical definitions, and explanations for performing mammography audits. It is a systematic method for radiologists to report mammogram findings using 7 standardized categories, or levels. Each BI-RADS® category has a follow-up recommendation associated with it to help radiologists and other physicians appropriately manage a patient's care.

| Breast Imaging Reporting and Database System (BI-RADS®) | | |
|---|---|---|
| **Category** | **Assessment** | **Follow-up Recommendations** |
| **a. Assessment Is Incomplete** | | |
| 0 | Need Additional Imaging Evaluation and/or Prior Mammograms for Comparison | Need Additional Imaging Evaluation and/or Prior Mammograms for Comparison |
| **b. Assessment Is Complete – Final Categories** | | |
| 1 | Negative | Routine annual screening mammography (for women over age 40) |
| 2 | Benign Finding(s) | Routine annual screening mammography (for women over age 40) |
| 3 | Probably Benign Finding- Initial Short-Interval Follow-up Suggested | Initial short-term follow up (usually 6-month) examination |
| 4 | Suspicious Abnormality – Biopsy Should be Considered<br>Optional subdivisions:*<br>4A: Finding needing intervention with a low suspicion for malignancy<br>4B: Lesions with an intermediate suspicion of malignancy<br>4C: Findings of moderate concern, but not classic for malignancy | Usually requires biopsy |
| 5 | Highly Suggestive of Malignancy – Appropriate Action should be taken | Requires biopsy or surgical treatment |
| 6 | Known Biopsy-Proven Malignancy – Appropriate Action should be taken | Category reserved for lesions identified on imaging study with biopsy proof of malignancy prior to definitive therapy |

* A subdivision may be used in addition to the Category 4 final assessment; MQSA does not allow a subdivision to replace a Category 4 final assessment. Use of subdivision is at the discretion of the facility; it is not required by the FDA.

# BMI Measurement and Counseling for Nutrition and Physical Activity

**When should I provide a Body Mass Index (BMI) assessment?**

Providers should complete a BMI assessment for every patient between the ages of 2 and 74 at any outpatient visit.

**How do BMI assessments differ for children and adults?**

- Adult BMI calculation is a straight BMI, based solely on height and weight.
- Children 2-17 years of age should have their BMI Percentile documented or plotted on an age-growth chart. The BMI percentile and proper counseling should be completed during the well-child visit, but may be completed at any outpatient visit.
- **The medical record for patients 2-17 years of age should also include:**
  - An indication of a discussion regarding proper nutrition and diet
  - Documentation of counseling regarding age-appropriate physical activity

**How do I report BMI assessment and counseling for Nutrition and Physical Activity for children and adolescents?**

| Description | CPT Code | ICD-9 Code | HCPCS |
|---|---|---|---|
| BMI Percentile | | V85.5 | |
| Counseling for nutrition | **97802-97804 | V65.3 | S9470, S9452, S9449, G0270, G0271 |
| Counseling for physical activity | | V65.41 | S9451 |

**97802-97804 are not covered under the Medicaid benefit but MHP reimburses for them in an effort to reduce childhood obesity rates. (CPT Code Limits: 97802– 1 per 365, 97803– 1 per 90, 97804– 1 per 90)

**How is Adult BMI Reported?**

| Description | ICD-9 Code |
|---|---|
| BMI less than 19- Adult | V85.0 |
| BMI 19-24- Adult | V85.1 |
| BMI 25-29- Adult | V85.2 |
| BMI 30-39- Adult | V85.3 |
| BMI 40 and over- Adult | V85.4 |

Remember to visit MHP's online provider portal to enter relevant HEDIS information:
**www.mhplan/ia/mcs**

Medical records may be faxed to:
**XXX.XXX.XXXX**

If you have any questions, please call MHP Quality Management Department at:
**877-204-9132**

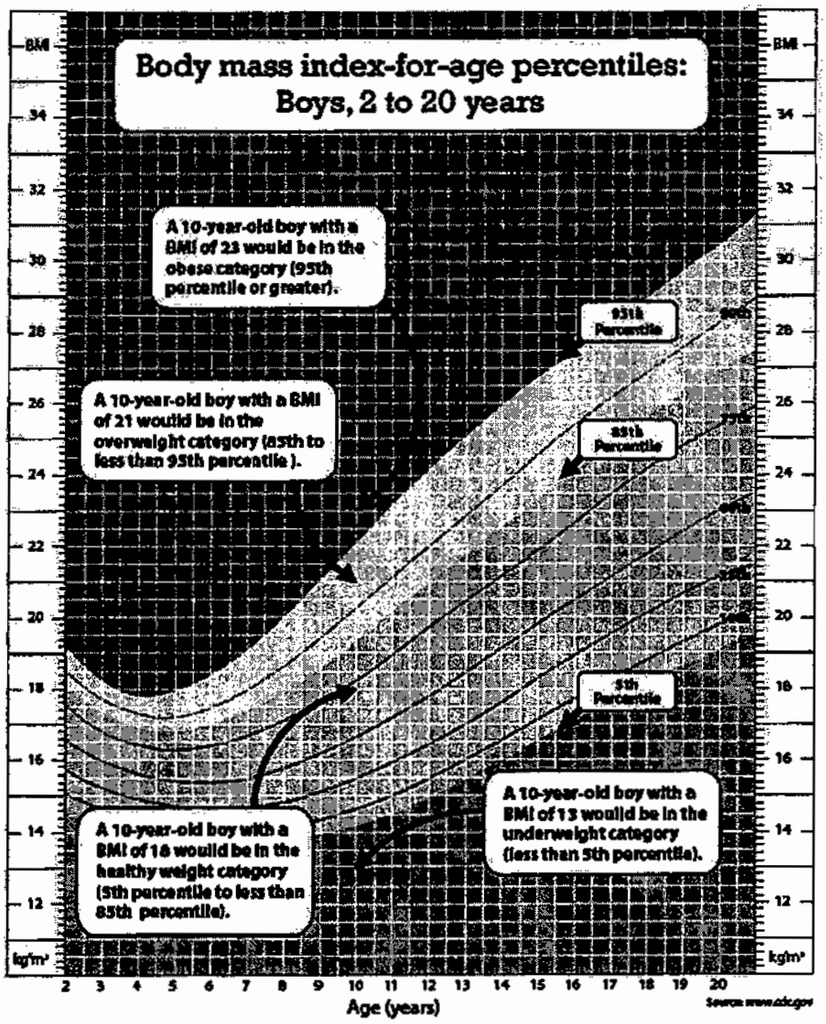
0000289 MHP IA

Meridian Health Plan
www.mhplan.com

# How is BMI used with children and teens?

Meridian Health Plan
www.mhplan.com

BMI is used as a screening tool to identify possible weight problems for children. CDC and the American Academy of Pediatrics (AAP) recommend the use of BMI to screen for overweight and obesity in children beginning at 2 years old. For children, BMI is used to screen for obesity, overweight, healthy weight, or underweight. However, BMI is not a diagnostic tool. For example, a child may have a high BMI for age and sex, but to determine if excess fat is a problem, a health care provider would need to perform further assessments. These assessments might include skinfold thickness measurements, evaluations of diet, physical activity, family history, and other appropriate health screenings. See the following example of how some sample BMI numbers would be interpreted for a 10-year-old boy.



0000289 MHP1A

# Comprehensive Diabetes Care

**Members 18-75 years of age with diabetes (Type I & Type II) should have the following tests annually:**

- **An HbA1c test** should be performed at least once a year for diabetic members.
  **Earn $25 in additional bonuses**

HbA1c Test Billing Information

| [redacted] | [redacted] |
|---|---|
| 83036, 83037 | 3044F, 3045F, 3046F |

- **An LDL-C test** should be performed every year for diabetic members.
  **Earn $25 in additional bonuses**

LDL-C Test Billing Information

| [redacted] | [redacted] |
|---|---|
| 80061, 83700, 83701, 83704, 83721 | 3048F, 3049F, 3050F |

- **An Eye Screening for Diabetic Retinal Disease** should be performed annually.
  **Earn $25 in additional bonuses (needs to be completed by an Optometrist or Ophthalmologist)**

Eye Exams Billing Information

| [redacted] | [redacted] |
|---|---|
| 67028, 67030, 67031, 67036, 67039-67043, 67101, 67105, 67107, 67108, 67110, 67112, 67113, 67121, 67141, 67145, 67208, 67210, 67218, 67220, 67221, 67227, 67228, 92002, 92004, 92012, 92014, 92018, 92019, 92134, 92225-92228, 92230, 92235, 92240, 92250, 92260, 99203-99205, 99213-99215, 99242-99245 | 2022F, 2024F, 2026F, 3072F |

- **Microalbumin Testing** for Nephropathy should be performed every year for diabetic members.
  **Earn $25 in additional bonuses**

Microalbumin Testing Billing Information

| [redacted] | [redacted] |
|---|---|
| 82042, 82043, 82044, 84156 | 3060F, 3061F |

- **Blood Pressure Testing** should be performed every year for diabetic members.

Blood Pressure Testing Billing Information

| [redacted] | [redacted] | |
|---|---|---|
| Normotensive compliant (BP < 140/90 mm Hg) | 3074F, 3075F | 3078F |
| Hypertensive compliant (BP < 140/90 mm Hg) | | 3078F, 3079F |
| Not normotensive compliant (BP ≥ 140/90 mm Hg) | 3077F | 3079F, 3080F |

Control levels for HbAlc and LDL-C are indicated with CPT Category II codes.
Please refer to the following table for appropriate coding information to indicate control levels.

| [redacted] | [redacted] |
|---|---|
| 3044F | 3048F |

**MHP provides additional bonuses per member per calendar year for:**
- **HbA1c Good Control Testing (<7%): $100**
- **LDL-Control Testing (<100mg/dL): $100**

**If an assigned diabetic member receives a qualifying HbA1c Screen, Lipid Profile, Fundoscopic Eye Exam and the Microalbuminuria during 2011, within HEDIS Guidelines, you can earn an additional $200.**

To refer a member to the Disease Management program, click the "Notify MHP" button in the Provider Portal, choose Disease Management, and select the reason for the referral. Complete the requestor information fields and indicate the reason for the referral. You can also call the MHP Disease Management program at 877-204-9132.

MHP covers Diabetes education classes through an approved provider for all diabetics. Please call the Disease Management Program at 877-204-9132 for more information.

If you have any questions, please call MHP Quality Management Department at:
**877.204.9132**

Medical records may be faxed to:
**XXX.XXX.XXXX**

Remember to visit MHP's online Provider Portal to enter relevant HEDIS information:
**www.mhplan.com/ia/mcs**

Meridian Health Plan

# Management of Diabetes Mellitus

**The following guideline applies to patients with Type 1 and Type 2 diabetes mellitus. It recommends specific interventions for periodic medical assessment, laboratory tests and education to guide effective patient self-management.**

| [illegible] | [illegible] | [illegible] | [illegible] |
|---|---|---|---|
| Patients 18-75 years of age with type 1 or type 2 diabetes mellitus | Periodic assessment | Assessment should include:<br>• Height, weight, BMI, blood pressure [A] (adult target of 130-140/80-85mmHg)<br>• Assess cardiovascular risks (smoking, hypertension, dyslipidemia, sedentary lifestyle, obesity, stress, family history, age > 40)<br>• Comprehensive foot exam (visual, monofilament, and pulses) [B]<br>• Screen for depression [D]<br>• Dilated eye exam by ophthalmologist or optometrist [B], or digiscope [B] | • At least annually and more frequently as needed<br>• In the absence of retinopathy repeat in 2 years |
| | Laboratory tests | Tests should include:<br>• A1C [B]<br>• Urine microalbumin measurement<br>• Serum creatinine and calculated GFR [D]<br>• Fasting Lipid Profile [D]<br>• Consider TSH and LFTs [D] | A1C: 2-4 times annually based on individual therapeutic goal, other tests at least annually |
| | Education, counseling and risk factor modification | • Comprehensive diabetes self-management education (DSME) from a collaborative team or diabetic educator if available<br>• Education should be individualized, based on the National Standards for DSME [B] and include:<br>• Importance of regular physical activity and a healthy diet [A], and working towards an appropriate BMI<br>• Assessment of patient knowledge, attitudes, self-management skills and health status; strategies for making health behavior changes and addressing psychosocial concerns [C]<br>• Description of diabetes disease process and treatment; safe and effective use of medications; prevention, detection and treatment of acute and chronic complications, including recognition of hypoglycemia<br>• Importance of nutrition management and regular physical activity [A]<br>• Role of self-monitoring of blood glucose in glycemic control [A]<br>• Cardiovascular risk reduction<br>• Smoking cessation intervention [B] and secondhand smoke avoidance [C]<br>• Self-care of feet [B]; preconception counseling [D]; encourage patients to receive dental care [D] | At diagnosis and as needed |
| | Medical recommendations | Care should focus on smoking, hypertension, lipids and glycemic control:<br>• Medications for tobacco dependence unless contraindicated<br>• Treatment of hypertension using up to 3-4 anti-hypertensive medications to achieve adult target of 130-140 systolic and 80-85 diastolic [A]<br>• Prescription of ACE inhibitor or angiotensin receptor blocker in patients with hypertension or albuminuria [A] 2<br>• Statin therapy for primary prevention against macrovascular complications in patients with diabetes who are > age 40 or who have an LDL-C > 100 mg/dl [A] 3<br>• Anti-platelet therapy [A]: low dose aspirin for adults with cardiovascular disease unless contraindicated.<br>• Individualize the A1C goal. Goal for most patients is 7-8%. Mortality increases when A1C is > 9% [B].<br>• Assurance of appropriate immunization status (Td or Tdap influenza, pneumococcal vaccine) [C] | At each visit until therapeutic goals are achieved |

[1] See http://care.diabetesjournals.org/content/vol1/Supplement_1/
[2] Consider referral of patients with serum creatinine value > 2.0 mg/dl (adult value) or persistent albuminuria to nephrologist for evaluation.
[3] Target LDL-C < 100 mg/dl [B], for patients with overt CVD, a lower LDL-C goal of < 70 mg/dl is a option [B].

Levels of Evidence for the most significant recommendations: A = randomized controlled trials; B = controlled trials, no-randomization; C = observational studies; D = opinion of expert panel

This guideline is a care management steps. It is based on several sources including the 2010 American Diabetes Association Clinical Practice Recommendations (www.diabetes.org). Individual patient considerations and advances in medical science may supersede or modify these recommendations.

# Childhood and Adolescent Immunizations

**Guidelines for Billing Childhood and Adolescent Immunizations:**

| | | | | |
|---|---|---|---|---|
| **Childhood Immunizations** | | | | |
| DTaP (4 doses) | 90698, 90700, 90721, 90723 | N/A | N/A | 99.39 |
| IPV (3 doses) | 90698, 90713, 90723 | N/A | N/A | 99.41 |
| MMR (1 dose) | 90707, 90710 | N/A | N/A | 99.48 |
| Measles | 90705 | N/A | 055 | 99.45 |
| Measles and Rubella | 90708 | N/A | N/A | N/A |
| Mumps | 90704 | N/A | 072 | 99.46 |
| Rubella | 90706 | N/A | 056 | 99.47 |
| Hib (3 doses) | 90645-90648, 90698, 90721, 90748 | N/A | N/A | N/A |
| Hepatitis B (3 doses) | 90723, 90740, 90744, 90747, 90748 | 60010 | 070.2, 070.3, V02.61 | N/A |
| VZV (1 dose) | 90710, 90716 | N/A | 052, 053 | N/A |
| Pneumococcal Conjugate (4 doses) | 90669, 90670 | 60009 | N/A | N/A |
| Hepatitis A (2 doses) | 90633 | N/A | 070.0, 070.1 | N/A |
| Rotavirus (2 dose schedule) | 90681 | N/A | N/A | N/A |
| Rotavirus (3 dose schedule) | 90680 | N/A | N/A | N/A |
| Influenza (2 doses) | 90655, 90657, 90661, 90662 | 60008 | N/A | 99.52 |
| **Immunizations for Adolescents** | | | | |
| Tdap | 90715 | N/A | N/A | 99.39 |
| Td | 90714, 90718 | N/A | N/A | N/A |
| Tetanus | 90703 | N/A | N/A | 99.38 |
| Diptheria | 90719 | N/A | N/A | 99.36 |
| Meningococcal | 90733, 90734 | N/A | N/A | N/A |

Immunization Tips:

- Try to complete immunizations at scheduled Well-Care exams to reduce the number of appointments.
- Educate patients on the diseases that are prevented with immunizations.
- Completion of childhood immunizations before a patient's second birthday may result in up to $150 in bonuses!

## Recommended Immunization Schedule for Persons Aged 0 Through 6 Years

For those who fall behind or start late, see the catch-up schedule

Range of recommended ages for all children | Range of recommended ages for certain high-risk groups

| | | | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|
| Hepatitis B | HepB | | | | | | | | | | |
| Rotavirus | | | RV | RV | RV | | | | | | |
| Diphtheria, Tetanus, Pertussis | | | DTaP | DTaP | DTaP | | | | | | |
| *Hemophilus influenzae* type b | | | Hib | Hib | Hib | | | | | | |
| Pneumococcal | | | PCV | PCV | PCV | | | | | PPSV | |
| Inactivated Poliovirus | | | IPV | IPV | | | | | | | |
| Influenza | | | | | | | | | | | |
| Measles, Mumps, Rubella | | | | | | | | | | | |
| Varicella | | | | | | | | | | | |
| Hepatitis A | | | | | | | | | | HepA (2 doses) | |
| Meningococcal | | | | | | | | | | MCV4 | |

For details of this schedule, please visit **http://www.cdc.gov/vaccines/recs/schedules/downloads/child/0-6yrs-schedule-pr.pdf**

This schedule includes recommendations in effect as of December 21, 2010. Any dose not administered at the recommended age should be administered at a subsequent visit, when indicated and feasible. The use of a combination vaccine generally is preferred over separate injections of its equivalent component vaccines. Considerations should include provider assessment, patient preference, and the potential for adverse events. Providers should consult the relevant Advisory Committee on Immunization Practices statement for detailed recommendations: http://www.cdc.gov/vaccines/pubs/acip-list.htm. Clinically significant adverse events that follow immunization should be reported to the Vaccine Adverse Event Reporting System (VAERS) at http://www.vaers.hhs.gov or by telephone, 800-822-7967. Use of trade names and commercial sources is for identification only and does not imply endorsement by the U.S. Department of Health and Human Services.

# Appendix G – Behavioral Health Letters of Intent

## Riverbend Community Mental Health

12/15/2011 11:27 6832267528 RIVERBEND PAGE 02/02

777 Woodward Avenue, Suite 650, Detroit, MI 48226
P: 888-773-2647 F: 313-202-5793

### Letter of Intent

This Letter of Intent, made and entered into by and between Meridian Health Plan ("MHP") and Riverbend Community Mental Health, Inc. ("Provider") is as follows:

Meridian Health Plan hereby expresses its intent to enter into a contract to obtain services performed by the above provider for all members enrolled in MHP. Provider hereby expresses its intent to enter into a contract with MHP to provide such services in the locations listed below. MHP and Provider acknowledge and agree that this letter is merely an expression of intent and not a binding contract or a binding agreement to enter into such a contract. Neither party shall have any obligation to contract with the other unless a MHP agreement has been executed by both parties.

The parties acknowledge that NH CBHA, in behalf of all of the CMHC's, and the NH DHHS have developed a statewide system of care to manage behavioral health care for NH's Medicaid consumers and have worked collaboratively to address payment related issues. The CMHC's, through the NH CBHA, intend to take advantage of the work already done and structure a relationship that provides the least harm to the sustainability of this important system of care. To do so, the Plan will work collaboratively with the NH CBHA (or its designee) to develop a program intending to achieve a shared savings model in the initial stages of contract development with the design to enable the NH CBHA to adjust toward other payment systems in future years.

Provider Name: Riverbend Community Mental Health, Inc.
Address: 3 North State Street
Concord NH 03301
County: Merrimack County
Telephone Number: (603-226-7505 x3219
Provider Type/Specialty: behavioral health

## Letter of Intent

This Letter of Intent, made and entered into by and between Meridian Health Plan ("MHP") and D/B/A Community Partners ("Provider") is as follows:

Meridian Health Plan hereby expresses its intent to enter into a contract to obtain services performed by the above provider for all members enrolled in MHP. Provider hereby expresses its intent to enter into a contract with MHP to provide such services in the locations listed below. MHP and Provider acknowledge and agree that this letter is merely an expression of intent and not a binding contract or a binding agreement to enter into such a contract. Neither party shall have any obligation to contract with the other unless a MHP agreement has been executed by both parties.

The parties acknowledge that NH CBHA, in behalf of all of the CMHC's, and the NH DHHS have developed a statewide system of care to manage behavioral health care for NH's Medicaid consumers and have worked collaboratively to address payment related issues. The CMHC's, through the NH CBHA, intend to take advantage of the work already done and structure a relationship that provides the least harm to the sustainability of this important system of care. To do so, the Plan will work collaboratively with the NH CBHA (or its designee) to develop a program intending to achieve a shared savings model in the initial stages of contract development with the design to enable the NH CBHA to adjust toward other payment systems in future years.

# Letter of Intent

This Letter of Intent, made and entered into by and between Meridian Health Plan ("MHP") and Lakes Region Mental Health Center Inc dba Genesis BH ("Provider") is as follows:

Meridian Health Plan hereby expresses its intent to enter into a contract to obtain services performed by the above provider for all members enrolled in MHP. Provider hereby expresses its intent to enter into a contract with MHP to provide such services in the locations listed below. MHP and Provider acknowledge and agree that this letter is merely an expression of intent and not a binding contract or a binding agreement to enter into such a contract. **Neither party shall have any obligation in contract with the other unless a MHP agreement has been executed by both parties.**

The parties acknowledge that NH CBHA, in behalf of all of the CMHC's, and the NH DHHS have developed a statewide system of care to manage behavioral health care for NH's Medicaid consumers and have worked collaboratively to address payment related issues. The CMHC's, through the NH CBHA, intend to take advantage of the work already done and structure a relationship that provides the least harm to the sustainability of this important system of care. To do so, the Plan will work collaboratively with the NH CBHA (or its designee) to develop a program intending to achieve a shared savings model in the initial stages of contract development with the design to enable the NH CBHA to adjust toward other payment systems in future years.

Meridian Health Plan

777 Woodward Avenue, Suite 600, Detroit, MI 48226
P: 888-773-2647 F: 313-202-0048

# Letter of Intent

This Letter of Intent, made and entered into by and between Meridian Health Plan ("MHP") and _____ ("Provider") is as follows:

Meridian Health Plan hereby expresses its intent to enter into a contract to obtain services performed by the above provider for all members enrolled in MHP. Provider hereby expresses its intent to enter into a contract with MHP to provide such services in the locations listed below. MHP and Provider acknowledge and agree that this letter is merely an expression of intent and not a binding contract or a binding agreement to enter into such a contract. Neither party shall have any obligation to contract with the other unless a MHP agreement has been executed by both parties.

The parties acknowledge that NH CBHA, in behalf of all of the CMHC's, and the NH DHHS have developed a statewide system of care to manage behavioral health care for NH's Medicaid consumers and have worked collaboratively to address payment related issues. The CMHC's, through the NH CBHA, intend to take advantage of the work already done and structure a relationship that provides the least harm to the sustainability of this important system of care. To do so, the Plan will work collaboratively with the NH CBHA (or its designee) to develop a program intending to achieve a shared savings model in the initial stages of contract development with the design to enable the NH CBHA to adjust toward other payment systems in future years.

**Provider Name:** The Mental Health Center of Greater Manchester

**Effective October 2007 Submissions**

*** Effective with October 2007 submissions of September 2007 paid/processed services, the FY 2006**

**PMPM average of 1.98 is utilized.**

* The plan wide per member per month (PMPM) average will be calculated annually in September for the previous fiscal year and implemented in October.
* Plans are required to send a minimum acceptable volume of records to be considered timely.
* The number of records submitted timely must include a minimum of both: institutional (I) and professional (P) records.
* Pharmacy records are not included
* MDCH will continue to monitor timely encounter submissions by the 15th of the month.
* The minimum volume is calculated by the PMPM average (1.98) x Plan's enrollment/1.5

**April 2007 Submissions**

*** Effective with October 2006 submissions of September 2006 paid/processed services, the FY 2005**

**PMPM average of 1.88 was utilized.**

* The minimum volume was calculated by the PMPM average (1.88) x Plan's enrollment x .50

## Letter of Intent

This Letter of Intent, made and entered into by and between Meridian Health Plan ("MHP") and Coos County Family Health Services ("Provider") is as follows:

Meridian Health Plan hereby expresses its intent to enter into a contract to obtain services performed by the above provider for all members enrolled in MHP. Provider hereby expresses its intent to enter into a contract with MHP to provide such services in the locations listed below. MHP and Provider acknowledge and agree that this letter is merely an expression of intent and not a binding contract or a binding agreement to enter into such a contract. Neither party shall have any obligation to contract with the other unless a MHP agreement has been executed by both parties.

# Section I: Independent Service Auditor's Report

To: Caidan Management Company, LLC
Detroit, Michigan

We have examined the accompanying description of controls related to the claims processing services of Caidan Management Company, LLC (Caidan). Our examination included procedures to obtain reasonable assurance about whether (1) the accompanying description presents fairly, in all material respects, the aspects of Caidan's controls that may be relevant to a client organization's internal control structure as it relates to an audit of financial statements, (2) the controls included in the description were suitably designed to achieve the control objectives specified in the description, if those controls were complied with satisfactorily and client organizations applied the controls contemplated in the design of Caidan's controls, and (3) such controls had been placed in operation as of June 30, 2009. The control objectives were specified by the management of Caidan. Our examination was performed in accordance with standards established by the American Institute of Certified Public Accountants and included those procedures we considered necessary in the circumstances to obtain a reasonable basis for rendering our opinion.

Caidan utilizes services from Emdeon/ABF for check and statement printing, CompCare for mental health claims processing, and RxAmerica for pharmacy claims processing. The accompanying description includes only those control objectives and related controls of Caidan, and does not include control objectives and related controls of Emdeon/ABF, CompCare, or RxAmerica. Our examination did not extend to controls of Emdeon/ABF, CompCare, or RxAmerica.

In our opinion, the accompanying description of the aforementioned systems presents fairly, in all material respects, the relevant aspects of Caidan's controls that were in operation as of June 30, 2009. Also, in our opinion, the controls, as described, are suitably designed to provide reasonable assurance that the specified control objectives would be achieved if the described controls were complied with satisfactorily and client organizations applied the controls contemplated in the design of Caidan's controls.

In addition to the procedures we considered necessary to render our opinion as expressed in the previous paragraph, we applied tests to specific controls to obtain evidence about their effectiveness in meeting the related control objectives during the period from January 1, 2009 to June 30, 2009. The specific controls, the related control objectives and the nature, timing, extent, and results of the tests are summarized in Section III of this report. This information has been provided to client organizations of Caidan and to their auditors to be taken into consideration, along with information about the internal control at client organizations, when making assessments of control risk for client organizations. In our opinion, the controls that were tested, as described in Section III, were operating with sufficient effectiveness to provide reasonable, but not absolute, assurance that the control objectives specified in Section III were achieved during the period from January 1, 2009 to June 30, 2009.

The relative effectiveness and significance of specific controls at Caidan and their effect on assessments of control risk at client organizations are dependent on their interaction with the controls and other factors present at individual client organizations. We have performed no procedures to evaluate the effectiveness of controls at individual client organizations.

The description of controls at Caidan is as of June 30, 2009, and information about tests of the operating effectiveness of specific controls covers the period from January 1, 2009 to June 30, 2009. Any projection of such information to the future is subject to the risk that, because of change, the description may no longer portray the controls in existence. The potential effectiveness of specific controls at Caidan is subject to inherent limitations and, accordingly, errors, fraud, or irregularities may occur and not be detected. Furthermore, the projection of any conclusions, based on our findings, to future periods is subject to the risk that (1) changes made to the system or controls, (2) changes in processing requirements, or (3) changes required because of the passage of time may alter the validity of such conclusions.

This report is intended solely for use by the management of Caidan, its clients, and the independent auditors of its clients.

Plante & Moran, PLLC

July 10, 2009

# Section II: Description of Controls

## A. Overview of Operations

### Organization Background

Caidan Management Company, LLC (Caidan) is a Michigan based, physician owned and operated company. Caidan manages Health Plan of Michigan and Meridian Health Plan.

Health Plan of Michigan (HPM) provides health care to over 202,000 Medicaid enrollees through a contract with the Michigan Department of Community Health (DCH). HPM's corporate headquarters are located in Detroit, Michigan and HPM currently operates in 48 counties. Health Plan of Michigan was formed from the merger of two clinic plans, Central Michigan Health Plan (CMHP) and American Preferred Provider Plan of Michigan (APPPM). CMHP was founded by physicians at the Jackson Northwest Clinic located in Jackson, Michigan in December 1996.

In August 1997, Dr. David B. Cotton acquired a majority position in CMHP and assumed fiscal and administrative responsibility for the plan, which had approximately 1,400 members. CMHP acquired APPPM in January 1999 and ultimately became operational as Health Plan of Michigan in May 1999. In January 2000, HPM acquired the Michigan membership of Family Health Plan of Ohio.

Health Plan of Michigan has operated as a full service HMO since January 2000. Health Plan of Michigan obtained NCQA accreditation in May 2002. HPM remains a physician owned and physician managed health plan.

Meridian Health Plan is a new Medicaid health plan operating in the State of Illinois that provides services to participants in the following counties: Adams, Brown, Henry, Mercer, Pike, Rock Island, and Scott. Meridian's regional office is located in Chicago, Illinois. Meridian Health Plan provides Medicaid covered benefits for its enrollees including preventive care, physician office visits, diagnostic tests, home health care, inpatient hospital care, and emergency room treatment. All services are provided based on the State of Illinois Medicaid benefit guidelines.

### Overview of Services Provided

Claims are received via mail, fax, or EDI to the Detroit, Michigan location. Claims are sorted based on claim type and are scanned (or imported for EDI claims) into the SunGard system for data entry. Data entry is performed in one of two ways: optical character recognition (OCR) or manual data entry. All fields entered via OCR are reviewed. Once claims have been entered and reviewed, they are imported into the MCS System (proprietary Caidan application). Most claims are auto-adjudicated once imported into MCS. All other claims are reviewed, resolved, and then manually adjudicated. Once adjudicated, claims are flagged for payment. Claims are paid based on the type of contract with the provider: either on fee for service or capitation basis. Out of network claims are paid at Medicaid rates. Fee for service claims are printed by a third party, Emdeon/ABF. Caidan prints capitation checks.

# B. Relevant Aspects of the Control Environment

## Organization and Administration

The following functional areas exist at Caidan: Administration, Medical Management, Care Management, Quality Management, Pharmacy, Finance, Member Services, Claims, Information Systems, and Provider Services. The Information Systems department is further segregated into Programming, Web Development, and Operations, which consists of Network Administration and Database Administration.

Information security policies exist to ensure employees are aware of Caidan practices. Employees must sign acknowledgements that they have read and will abide by these policies and procedures. Employees must also attend training regarding the information security policies.

## Physical & Environmental Security

Access to the Caidan facility is restricted via proximity badges. The computer room is also secured and limited to authorized personnel only. The following environmental controls exist for the computer room:

- Fire extinguisher
- Smoke detector
- FM-200 (serviced annually)
- Temperature sensor (sends alerts via email)
- Dedicated air conditioning unit (serviced quarterly)
- Equipment stored in equipment racks
- Equipment connected to UPS units (serviced semi-annually)
- Generator, capable of running critical office functions (serviced semi-annually)

## Logical Access

Procedures exist to ensure users are given the minimum amount of access necessary to complete job responsibilities. User access is also removed promptly upon the termination (voluntary or involuntary) of an employee. Additionally, administrative access on all systems is restricted to only those required for business purposes.

A multifactor authentication tool is utilized for user login to CMC systems. The multifactor authentication scheme requires a valid proximity badge to be scanned and entry of a PIN with a minimum of four digits before the user can login to their PC. If the user forgets their badge, they must supply answers to three security questions selected during the initial setup to gain access to their PC.

## Change Management & Systems Development

All development or change requests are documented within a change management system. Each change requires approval/authorization, and must undergo testing before being moved into the production environment. Documentation is created for each change such as specifications, test plans, and release notes. Separate environments exist for development, test, and production.

## Data Backup & Recovery

CMC currently maintains backup servers for critical applications at SunGard, which also functions as the emergency operations center. An EMC Clarion CX4-240 is used for data storage. The unit is divided into logical unit number (LUNS) and Clone LUNS. The Clone LUNS are used to back up the Production LUNs.

The MCS system is backed up to tape on a daily, weekly, monthly, and quarterly basis.

The Windows systems are virtualized using VMWare. These systems are backed up using EsxRanger, which creates a snapshot of the OS file system and stores that image in a central location that is backed up to tape each night.

The File, Exchange, SQL, and Workflow servers are replicated to the disaster recover site in "real time" with Neverfail. EAS, the accounting system, is replicated to the disaster recover site with VMWare.

Network Servers have a full backup each weekend and a differential backup during the week.

Each business day, Iron Mountain picks up tapes for off-site rotation. The most recent daily tapes are taken off site each night. Each tape is verified daily to ensure readability. If any errors are identified, they are corrected and the backup tape is re-run. Weekly backup tapes are retained off-site for three weeks. Monthly backups are retained off site for 11 months. Year-end backup tapes are retained for seven years. All backup media is uniquely identified with a bar code label. In the event of a disaster situation, data would be recovered through CMC's backup servers at SunGard. Recovery from backup tapes would only be implemented as a last resort if the backup servers should fail.

### Disaster Recovery

CMC has established a formal disaster recovery policy and plan to ensure the continuity of operations at CMC locations following an unanticipated interruption, hardware or software failures, or the destruction of facilities. An arrangement with SunGard has been negotiated to serve as a backup location for CMC operations in the event of a disaster situation. CMC can be fully functional within four hours of a disaster.

The disaster recovery plan defines the different levels of a disaster and describes the responsibilities and actions to be performed in event of a disaster. The plan includes defined teams, contacts, responsibilities, and detailed action plans.

The disaster recovery plan is reviewed, updated, and tested on an annual basis.

## Systems Maintenance

Systems are regularly monitored for security, availability, and capacity issues. Antivirus software is installed on all servers, workstations, and laptops and the system checks for new definition files several times a day.

### Privacy

All employees sign a confidentiality agreement that states they have read and will abide by the confidentiality policies. Furthermore, access to login passwords for claims systems are restricted via an encrypted database.

### Third Party Management

Caidan reviews documentation from critical third parties to ensure they are complying with Caidan confidentiality practices and security standards.

## C. Subservice Organization

Caidan utilizes services from Emdeon/ABF for check printing and statement printing. Caidan also utilizes services from CompCare for mental health claims processing and RxAmerica for pharmacy claims processing.

## D. Control Objectives and Related Controls

The organization's control objectives and related controls are included in Section III of this report to eliminate the redundancy that would result from listing them in this section and repeating them in Section III. Although the control objectives and related controls are presented in Section III, they are an integral part of Caidan's description of controls.

## E. Client Control Considerations

The organization's applications were designed with the assumption that certain controls would be implemented by client organizations. In certain situations, the application of specific controls at client organizations is necessary to achieve certain control objectives included in this report. Client auditors should consider whether the following controls have been placed in operation at the client organization:

- Providers are responsible for ensuring their FTP sites used for EDI transmissions are appropriately secured.
- Providers are responsible for reconciling 997s and 277s for each transmission sent.
- Providers are responsible for communicating and maintaining accurate organizational contact information to Caidan Management Company, including authorized individuals who can approve changes or add/update user access privileges, incident management, notification, etc.
- In order for HIPAA compliance to be maintained, providers are responsible for providing immediate written notification of changes to individuals authorized to access the MCS Web Portal (including, but not limited to, termination of employees with access to the MCS Web Portal), and at all times are responsible for the physical security of all devices residing at their operational facilities.
- Providers are responsible for ensuring claims are accurate and complete prior to submission to Caidan.
- Providers are responsible for ensuring erroneous claims data is corrected and resubmitted.

# Section III: Control Objectives and Related Controls

## A. Objectives of the Examination

This examination of internal controls placed in operation is intended to provide interested parties with information sufficient to understand the internal controls related to the claims processing services offered to clients of Caidan. This information, when combined with an understanding of internal controls in place at client organizations, is intended to permit an evaluation of the internal controls for clients using the services provided by Caidan. Note: Caidan utilizes services from Emdeon/ABF for statement and check printing, CompCare for mental health claims processing, and RxAmerica for pharmacy claims processing. This examination did not extend to controls of Emdeon/ABF, CompCare, or RxAmerica.

The Service Auditor's examination was restricted to selected services provided to clients of Caidan and, accordingly, did not extend to the internal controls in effect at client organizations. The examination was conducted in accordance with standards established by the American Institute of Certified Public Accountants. It is each interested party's responsibility to evaluate this information relative to internal controls in place at client organizations in order to assess the total internal control structure. The internal controls of the client organization and Caidan must be evaluated together. If effective client organization internal controls are not in place, the Caidan internal controls may not compensate for such weaknesses.

The description of the internal controls and control objectives is the responsibility of Caidan Management Company, LLC. The Service Auditor's responsibility is to express an opinion as to whether the internal controls were designed to meet the specified control objectives and were operating effectively during the period under review. Their examination included inquiry of appropriate management and staff, review and testing of documents and records, and observation of activities and operations at Caidan.

# B. Control Objectives and Corresponding Controls

## 1. Organization & Administration

Control Objective - Organizational policies and management procedures are in place to address adequate segregation of business functions for the purpose of effectively managing the information technology organization. Policies and procedures also provide for effective security management.

### Description of Controls

| Controls Specified by Caidan | Testing Performed by Service Auditors | Results of Tests |
|---|---|---|
| 1. CAIDAN Management Company (CMC) and the Information Systems (IS) department are segregated into separate and distinct functional areas to ensure adequate segregation of duties. CMC consists of the following departments: Administration, Medical Management, Finance, Member Services, Claims, Information Systems, and Provider Services.<br><br>The Information Systems department is further segregated into Programming, Web Development, and Operations, which consists of Network Administration and Database Administration. | A. Reviewed the organizational chart to verify Claims personnel, IS, etc. are segregated.<br><br>B. Reviewed the IS organizational chart to ensure segregation of functions exists. | A. No relevant exceptions noted.<br><br>B. No relevant exceptions noted. |
| 2. An Information Systems (IS) Steering Committee meets quarterly to discuss IS policies and procedures and future technology upgrades. Meeting minutes are retained. Members of the IS Steering Committee include: Directors (or a representative from each department), Chief Information Officer (CIO), and Operations Manager. | A. Selected a sample of (1) quarter and obtained the meeting minutes to ensure existence. | A. No relevant exceptions noted. |

| Controls Specified by Caidan | Testing Performed by Service Auditors | Results of Tests |
|---|---|---|
| 3. IS security policies are approved annually by the CIO and the IS Steering Committee and include:<br>• Security Policy<br>• Authority/Organization Responsibility<br>• General Security<br>• Virus and Spam Protection<br>• Physical Security<br>• Access Control<br>• Security Awareness<br>The IS Steering Committee meets quarterly and may meet more frequently if deemed necessary by the Chairperson. | A. Obtained the IS security policies to ensure they contained the items in the control description and to verify they were approved within the past year. | A. No relevant exceptions noted. |
| 4. Upon beginning employment and annually thereafter, employees are required to sign a confidentiality agreement which includes acknowledgements that they understand the IS Security policies. | A. Selected a sample of 15 employees and contract employees and obtained the confidentiality agreements to ensure existence. | A. No relevant exceptions noted. |
| 5. Quarterly HIPAA newsletters are sent to all employees to ensure they understand the current HIPAA regulations and trends. | A. Selected a sample of one quarter and obtained the newsletters to ensure existence. | A. No relevant exceptions noted. |
| 6. New employees are required to attend new hire training. The training is held quarterly and includes topics such as security awareness and HIPAA. Beginning in the third quarter of 2009, the security awareness training will be required for all existing employees as well. | A. Selected a sample of three employees and contract employees hired during the testing period and obtained sign-in sheets to ensure they attended the new hire training. | A. No relevant exceptions noted. |

## 2. Physical & Environmental Security

**Control Objective** - Controls should provide reasonable assurance that physical access to the computer equipment, storage media, negotiable instruments, and program documentation is limited to authorized personnel and adequately protected from the elements.

### Description of Controls

| Controls Specified by Caidan | Testing Performed by Service Auditors | Results of Tests |
|---|---|---|
| 1. Once a visitor arrives at the building where the CMC office suites are located, a security guard requires all visitors to sign a visitor log. Furthermore, the elevators (and stairs) require an active CMC proximity badge to reach the floors containing the CMC office suite. The CMC office suite also requires an acknowledgment of all visitors. The day before a scheduled visitor arrives, the receptionists are notified and allow entry for visitors upon their arrival.<br><br>The main and ancillary entrances to the CMC office suite are locked and only employees with active proximity badges can gain access. In addition, all interior doors within the office suite itself require badge access. | A. Attempted to open the CMC office entrances to ensure they were locked and to ensure a proximity badge was required for entry. | A. No relevant exceptions noted. |
| 2. The computer room is located in the interior of the CMC office suite and is locked at all times. Only IS Staff, Executive Management, and the cleaning crew (due to building requirements) have access.<br><br>The Executive Administrative Assistant is responsible for granting badge access to the computer room. The Documentation Specialist completes an annual review of computer room users to ensure appropriate access exists. | A. Attempted to open the computer room door to ensure it was locked and to ensure a proximity badge was required for entry.<br><br>B. Obtained a list of individuals with access to the computer room to ensure it was appropriately restricted.<br><br>C. Obtained documentation of the most recent review of users with access to the computer room to ensure it was performed. | A. No relevant exceptions noted.<br><br>B. No relevant exceptions noted.<br><br>C. No relevant exceptions noted. |

| Controls Specified by Caidan | Testing Performed by Service Auditors | Results of Tests |
|---|---|---|
| 3. The Documentation Specialist, who does not have the capability to grant badge access, reviews the computer room access log on a weekly basis. Documentation of the review is retained and includes: date of review, who performed the review, what was reviewed, exceptions noted, and action taken to correct exceptions. | A. Selected a sample of three weeks and obtained documentation to ensure the computer room access log was reviewed. | A. No relevant exceptions noted. |
| 4. The following environmental controls exist in the computer room:<br>• Fire extinguisher<br>• Smoke detector<br>• FM-200 (serviced annually)<br>• Temperature sensor (sends alerts via email)<br>• Dedicated air conditioning unit (serviced quarterly)<br>• Equipment stored in equipment racks<br>• Equipment connected to UPS units (serviced semi-annually)<br>• Generator (serviced semi-annually) | A. Observed the computer room twice during the testing period to ensure the environmental controls stated in the control description exist. | A. No relevant exceptions noted. |

### 3. Logical Access

**Control Objective** - Controls should provide reasonable assurance that logical access to applications and data is limited to authorized individuals.

## Description of Controls

| Controls Specified by Caidan | Testing Performed by Service Auditors | Results of Tests |
|---|---|---|
| 1. A system request form is used when new employees or contract employees begin work at CMC. The Supervisor indicates the access required and the COO, CIO, or CFO must approve. | A. Selected a sample of four employees and contract employees hired during the testing period and obtained the system request form to ensure access was approved. | A. No relevant exceptions noted. |
| 2. A system request form is also used when employees or contract employees are terminated.<br><br>When employees are terminated, the password on their account is immediately changed so they cannot log in. Their supervisor is the only individual with knowledge of the password. The supervisor has 30 days to access items associated with their account before it is disabled or deleted. | A. Selected a sample of two employees and contract employees terminated during the testing period and obtained the system request form to ensure access was noted as being removed timely.<br><br>B. Selected a sample of two employees and contract employees terminated during the testing period and observed the Network, MCS, and SunGard user lists to ensure access was removed. | A. No relevant exceptions noted.<br><br>B. No relevant exceptions noted. |
| 3. On an annual basis, the Directors review employee access on SunGard EAS, EXP, and MCS to ensure it is appropriate. | A. Obtained the most recent user access rights review for SunGard EAS, EXP, and MCS to ensure existence. | A. No relevant exceptions noted. |

| Controls Specified by Caidan | Testing Performed by Service Auditors | Results of Tests |
|---|---|---|
| 4. Administrative access to the network is limited to the IS employees that require it for job responsibilities such as: IS Operators/Help Desk, C/S Programmers, IS Staff Admin, and the CIO.<br><br>Also, administrative access to MCS is limited to the IS Staff, including the Director, Manager, IS Operators/Help Desk, C/S Programmers, IS Staff Admin, and the CIO.<br><br>SunGard EXP administrators are restricted to the Database Administrator, Director/Manager of Claims, Lead Scanner, and Quality Assurance Auditor. | A. Obtained a list of network system administrators to ensure they were restricted to the individuals noted in the control description.<br><br>B. Obtained a list of MCS and SunGard system administrators to ensure they were restricted to the individuals noted in the control description. | A. No relevant exceptions noted.<br><br>B. No relevant exceptions noted. |

| Controls Specified by Caidan | Testing Performed by Service Auditors | Results of Tests |
|---|---|---|
| 5. CMC utilizes a multifactor authentication scheme (Imprivata) for user login. The authentication requires a valid proximity badge to be scanned and entry of a PIN with a minimum of four digits before the user can login to their PC. If the user forgets their badge, they must supply answers to three security questions selected during initial setup to gain access to their PC. MCS and SunGard require user IDs and passwords; however, due to the strength of the multifactor authentication used, password minimum length or expiration are not enforced.<br><br>Multifactor authentication was in use for the Finance, Claims, and IS departments during the entire SAS 70 testing period. The product was rolled out during the testing period to the remainder of the departments. During implementation, the other departments were also required to comply with network authentication parameters. The network password minimum length required six characters, expiration of 30 days, three bad password attempts allowed before an account was locked, an administrator required to unlock accounts, and a password protected screen saver after 10 minutes of inactivity. | A. Obtained the Imprivata authentication settings to verify a proximity badge and four digit PIN are required.<br><br>B. Obtained network authentication settings to verify they were set according to the control description. | A. No relevant exceptions noted.<br><br>B. No relevant exceptions noted. |
| 6. Providers can be granted access to the MCS system; a user ID and password are required. An access request form is required prior to the granting of access. | A. Selected a sample of 12 providers added to the system during the testing period and obtained the access request form to ensure existence. | A. No relevant exceptions noted. |
| 7. Wireless access is available in the CMC office suite. The access is SSL, 128 bit encrypted, and requires a user ID and password. Internet access is the only thing available via wireless connection. | A. Attempted to connect to the CMC network via wireless connection to ensure a user ID and password are required, and that SSL, 128 bit encryption is used. | A. No relevant exceptions noted. |

## 4. Change Management & Systems Development

**Control Objective** - Controls should provide reasonable assurance that changes to or development of applications are authorized and approved, tested, properly implemented, and documented.

### Description of Controls

| Controls Specified by Caidan | Testing Performed by Service Auditors | Results of Tests |
|---|---|---|
| 1. Requests for all changes are initiated through the Help Desk system. Larger projects are added to the Work Order System. A Work Order and a Work Order Justification form are completed for each large project and must be approved by the Information Request Review Committee (IRRC) and then approved by the CIO/Executive VP.<br><br>Smaller projects are processed through the Help Desk ticket system only. A Supervisor must approve the smaller projects. | A. Selected a sample of 30 larger change requests implemented during the testing period and observed the WOJ sheet to ensure the change was approved by the IRRC and the CIO.<br><br>B. Selected a sample of 25 smaller change requests implemented during the testing period and observed Help Desk Ticket to ensure existence. | A. No relevant exceptions noted.<br><br>B. No relevant exceptions noted. |
| 2. Directors and the CIO prioritize all large changes. The Developers review prioritized requests and develop specifications. Every six weeks, there is a new release that includes all changes and fixes that have been approved since the previous release. | A. Selected a sample of 30 larger change requests implemented during the testing period and obtained the specifications to ensure existence. | A. No relevant exceptions noted. |
| 3. Each change is developed in the development environment, tested in the QA environment, and then moved into the production environment. The development, QA, and production environments are all separate environments. | A. Observed the development, QA, and production environments to ensure they are separate. | A. No relevant exceptions noted. |

| Controls Specified by Caidan | Testing Performed by Service Auditors | Results of Tests |
|---|---|---|
| 4. Seapine Surround change control software is used for development and movement of code to test and production environments. Once the Developer completes a change request, he/she checks it into the Seapine Surround system and identifies it by the corresponding help desk or work order number on the Friday before the QA period. The Director of Information Systems promotes the code to the QA environment and builds the testing database. Release notes are developed and distributed to the Directors and Managers the following Monday.<br><br>Each change request requires documentation of testing. Once all testing is approved, the release (i.e., group of changes) is ready to be promoted into production. | A. Selected a sample of 30 larger change requests implemented during the testing period and obtained the release notes to ensure existence.<br><br>B. Selected a sample of 30 larger change requests implemented during the testing period and observed the testing sign-offs to ensure testing was performed prior to release. | A. No relevant exceptions noted.<br><br>B. No relevant exceptions noted. |
| 5. The Director of Information Systems is the only individual who can authorize code to be moved into QA. A designated Programmer is the only individual who can promote code from QA into the production environment.<br><br>Due to the fact that a Programmer can promote code, a mitigating control is in place that requires all code activity to be logged in the Source Audit Report. The Executive Administrative Assistant or CIO/Executive VP reviews the Source Audit report when there is a QA release. She reviews to ensure that all code that was moved into QA was authorized and irregularities are identified. | A. Obtained a list of individuals with the ability to promote code to production to ensure it is restricted according to the control description.<br><br>B. Selected a sample of two releases within the testing period and obtained the review of the Source Audit Report to ensure it was performed. | A. No relevant exceptions noted.<br><br>B. No relevant exceptions noted. |
| 6. No one can directly access the production databases to make changes without going through the application. IS individuals have access to a read-only version. | A. Observed an IS employee attempt to make a change directly in the production database to ensure an error occurs. | A. No relevant exceptions noted. |

## 5. Data Backup & Recovery

**Control Objective** - Controls should provide reasonable assurance that back-up data is complete and available for recovery when needed.

### Description of Controls

| Controls Specified by Caidan | Testing Performed by Service Auditors | Results of Tests |
|---|---|---|
| 1. Data is stored on a data storage unit and is replicated to the Disaster Recovery site daily. Data is also backed up to tape daily. The tapes are sent offsite to a third party vendor on a daily basis. | A. Selected a sample of 15 days and observed the backup logs to ensure data was replicated to the Disaster Recovery site.<br>B. Selected a sample of five days to ensure backups were sent offsite. | A. No relevant exceptions noted.<br>B. No relevant exceptions noted. |
| 2. Usability of backup files is tested annually. | A. Observed the backup file test results to ensure the test was performed within the previous year. | A. No relevant exceptions noted. |
| 3. A Disaster Recovery Policy & Plan (DRP) exist; they are updated annually. The Disaster Recovery Policy & Plan (DRP) include information regarding Disaster Levels, Information Technology Backup/Recovery, Disaster Recovery and Business Unit Recovery Teams, Immediate Response for Disaster Situations, Disaster Recovery Crisis Response Plan, Emergency Operations at Off-Site Location, and Maintenance and Testing of Disaster Recovery Plan. | A. Obtained the DRP to ensure it was updated within the previous year. | A. No relevant exceptions noted. |

## 6. Security, Maintenance, & Capacity

**Control Objective** - Controls provide reasonable assurance that systems are monitored for performance, capacity and security issues, that system issues are promptly resolved, and that system software is kept at current release and patch levels.

### Description of Controls

| Controls Specified by Caidan | Testing Performed by Service Auditors | Results of Tests |
|---|---|---|
| 1. A CISCO ASA 5510 failover firewall is in place. Firewall logs are generated and reviewed on a weekly basis. | A. Observed the Network Diagram to ensure that a firewall is in place.<br>B. Selected a sample of five weeks and obtained the firewall log review to ensure existence. | A. No relevant exceptions noted.<br>B. No relevant exceptions noted. |
| 2. TriGeo Software is used to monitor network events. The following events are monitored:<br>• Account Lockout<br>• Agent Offline - Normal Shift<br>• Firewall Policy Change<br>• Critical Account Logon Failures<br>• Finance Critical Account Logon Failures<br>• Known Spyware Site Traffic<br>• TCP Traffic Audit with possible TCP PortScan Interference<br>• TCP Traffic Audit with possible unusual TCP Traffic Interference<br>• UDP Traffic Audit with UDP PortScan Interference<br>• Windows Disk Nearly Full<br>• Virus Attack - Bad State | A. Observed the network event log settings to ensure they are set according to the stated control. | A. No relevant exceptions noted. |
| 3. Antivirus software is used on all servers and workstations. The primary antivirus server checks the vendor website every two hours for updates. The other servers and workstations check the primary server every two hours and download updates as available. | A. Observed the primary antivirus server settings to ensure updates are occurring every two hours.<br>B. Selected a sample of 20 workstations and servers and observed the definition files to ensure they are current. | A. No relevant exceptions noted.<br>B. No relevant exceptions noted. |

| Controls Specified by Caidan | Testing Performed by Service Auditors | Results of Tests |
|---|---|---|
| 4. EMC Visual SRM storage management software is used to monitor disk capacity. IS Administration is notified by email when the disk usage threshold is at 95%. | A. Obtained the threshold and alert settings to ensure they are set according to the stated control. | A. No relevant exceptions noted. |
| 5. The conversion of files into the MCS format, the pull of EDI files into the import directory, and the pull of eligibility files from third parties are examples of "jobs" that are automatically run by a job scheduler. Access to modify the job schedule is restricted to the IS department. | A. Obtained a list of individuals with the ability to add/delete/modify scheduled jobs to ensure it is restricted according to the control description. | A. No relevant exceptions noted. |
| 6. IS is notified by email from Redhat when there are Linux updates available. The emails identify the systems that are affected. The updates are applied in a test environment first and then moved to production.<br><br>Once a month on "Patch Tuesday," IS is notified of Windows patches that are available. Patches are installed on a test system and then moved to production. | A. Observed the Redhat Console to ensure the Linux servers' patch levels are current, and if they are not current, that valid reasons for not applying updates exist.<br><br>B. Selected a sample of one Windows server and obtained the Microsoft Baseline Analyzer Report to ensure the patch levels are up to date. | A. No relevant exceptions noted.<br><br>B. No relevant exceptions noted. |

## 7. Data Privacy & Encryption

**Control Objective** - Controls should provide reasonable assurance that transmissions and data are encrypted and client data is kept confidential.

### Description of Controls

| Controls Specified by Caidan | Testing Performed by Service Auditors | Results of Tests |
|---|---|---|
| 1. MCS is the only proprietary application used by CMC. The password database is encrypted. | A. Observed the MCS password database to ensure passwords are not stored in clear-text. | A. No relevant exceptions noted. |
| 2. SSL transmission encryption is used when external users are viewing the MCS system online.<br><br>Note: CMC FTP site security is tested in Control Objective 9. | A. Observed the MCS system online and verified that SSL secured transmission encryption is used. | A. No relevant exceptions noted. |
| 3. Providers can only view claims associated with their Provider ID. They cannot view other Providers' claims. | A. Observed the system to ensure a provider cannot see another Provider's data. | A. No relevant exceptions noted. |
| 4. Providers cannot perform claims entry or modify existing claims. | A. Observed the system to verify Providers cannot modify existing claims. | A. No relevant exceptions noted. |

## 8. Third Party Management

**Control Objective** - Controls should provide reasonable assurance that third parties comply with confidentiality practices and Caidan Management security standards.

### Description of Controls

| Controls Specified by Caidan | Testing Performed by Service Auditors | Results of Tests |
|---|---|---|
| 1. CMC has documented all third parties with whom it shares protected data and has ensured that the third parties sign Business Associate Agreements. | A. Selected a sample of two third parties with access to protected data and obtained Business Associate Agreements to ensure existences. | A. No relevant exceptions noted. |
| 2. A SAS 70 Report is reviewed annually by the Documentation Specialist for each third party processor used by CMC. An independent review is performed if a SAS 70 Report is not available. | A. Selected a sample of two third party processors and obtained evidence of review of their SAS 70 report. | A. No relevant exceptions noted. |

## 9. Claims Receipt

**Control Objective** - Controls should provide reasonable assurance that claims data is transmitted and received in a secure manner, and claims are completely prepared for data entry.

### Description of Controls

| Controls Specified by Caidan | Testing Performed by Service Auditors | Results of Tests |
|---|---|---|
| 1. Claims are received via mail, fax, or EDI. The Post Office delivers mail either to the CMC office suite or to locked mail boxes in the building's general mail room. The keys to the mailboxes are located in a key box in the locked Administration supply room. | A. Observed the supply room to ensure the mailbox keys were stored inside.<br>B. Attempted to gain access to the supply room to ensure it was locked. | A. No relevant exceptions noted.<br>B. No relevant exceptions noted. |
| 2. The CMC Mailroom Clerk sorts the mail and pulls out the claims. The Mailroom Clerk delivers the claims to the scanning room to be stored until scanning is performed and claims are moved to storage. The scanning room is located within the locked CMC office suite and the room itself is secured via proximity badge access. Only the Administration department, IS department, Claims department, and Executives/Directors have access. | A. Attempted to gain access to the scanning room to ensure it is locked. | A. No relevant exceptions noted. |

| Controls Specified by Caidan | Testing Performed by Service Auditors | Results of Tests |
|---|---|---|
| 3. The Scanner Operator sorts the claims received via mail (based on claim type and single vs. multi-page) and separates them into batches. (Single page batches contain 25 claims or less and multi-page batches contain eight claims or less). Faxed claims are received in the claims area; once received, they are printed and sorted along with the claims received via mail. A patch sheet is placed with each batch that indicates the sorting criteria so the Scanner Operator can appropriately configure the scanning machine. The Scanner Operator also indicates the number of claims in each batch if it is less than the standard batch size. In addition, a separator page is placed in between each claim in a multi-page batch to ensure the scanning machine knows when to separate documents.<br><br>After items are scanned into the SunGard system (Macess module), the Scanner Operator observes the system count to ensure the correct number (according to the patch sheet) was scanned into SunGard. If the system count is different than the patch sheet, the Operator investigates the difference and makes a note on the patch sheet. If no notation exists on the patch sheet, it is an indication that the correct amount was scanned. | A. Interviewed the Scanner Operator to ensure the number scanned into the system is reconciled to the patch sheet.<br><br>B. Selected a sample of 27 batches scanned during the testing period to ensure a patch sheet exists. | A. No relevant exceptions noted.<br><br>B. No relevant exceptions noted. |
| 4. Providers submitting via EDI may place 837 transmissions on CMC's FTP site or CMC may pull transmissions from the Provider's site. CMC's FTP site is configured as a secure FTP site and either a user ID and password, or server key authentication are required.<br><br>CMC access to the FTP site is limited to individuals within the IS department. | A. Observed the FTP site settings to ensure (1) it is secure FTP and (2) a user ID and password or server key authentication are required for Providers.<br><br>B. Obtained a list of CMC users with access to the FTP site to ensure it is limited to the IS department. | A. No relevant exceptions noted.<br><br>B. No relevant exceptions noted. |

| Controls Specified by Caidan | Testing Performed by Service Auditors | Results of Tests |
|---|---|---|
| 5. An automated job is used to pull 837 files from the Provider FTP sites and the CMC FTP site into an "input" directory. The MCS claims application uses another automated job to view the "input" directory on one-minute intervals, convert the available files into a MCS-readable format, and import them into the MCS application for processing. An automated job sends a 997 acknowledgement and a 277 acknowledgement for each claim (i.e., 837) received by CMC.<br><br>Access to the "input" directory is limited to the IS department.<br><br>The Documentation Specialist reconciles (on a daily basis) the number of files received (via the Claim Balance report) to the number of files imported into MCS (via the Claim Balance report, and observation of Adjudication Report within MCS) to ensure files were completely loaded. | A. Obtained a list of users with access to the "input" directory to ensure it is limited to the IS department.<br><br>B. Selected a sample of 20 days during the testing period and obtained the Claim Balance Report and Adjudication Report Reconciliation. | A. No relevant exceptions noted.<br><br>B. No relevant exceptions noted. |

## 10. Data Entry

**Control Objective** - Controls should provide reasonable assurance that data is completely and accurately entered in the system in a timely manner.

### Description of Controls

| Controls Specified by Caidan | Testing Performed by Service Auditors | Results of Tests |
|---|---|---|
| 1. Once claims are scanned into SunGard, certain claim types are automatically sent through the OCR process. All other claims require manual data entry by Vertexers. The system assigns Vertexers the oldest batch first; they are not able to change the assignment order. | A. Observed the SunGard system with a Vertexer logged in to ensure they cannot change the order of assignments. | A. No relevant exceptions noted. |
| 2. The OCR process is set to ensure 100% accuracy on key fields to ensure they are read correctly. If a key field cannot be read, it is highlighted and left blank for Vertexer review.<br><br>Vertexers are required to enter all required fields before a claim can be "closed" (i.e., ready for upload into MCS for processing). Furthermore, once claims have been entered via OCR, Vertexers must verify that all required fields are completed and accurate (by review of the claim image). Examples of required fields include member ID, provider, procedure code, and diagnosis code. | A. Observed the SunGard system and attempted to "close" a manually entered claim without entering all required fields to ensure the software disallowed it.<br><br>B. Observed the SunGard system and attempted to "close" an OCR entered claim without verifying all required fields to ensure the software disallowed it. | A. No relevant exceptions noted.<br><br>B. No relevant exceptions noted. |
| 3. Most fields required for data entry (such as procedure code, diagnosis code, etc.) are compared against a table of values. If a correct value cannot be found, an error occurs. The Vertexer must enter a default value; all claims with default values in required fields are placed on a "to-do list" and are reviewed during the claims examination process (discussed in Objective 12). | A. Observed the SunGard system and entered an invalid procedure code to ensure an error message appeared.<br><br>B. Observed a Vertexer entering a default value in a required field to ensure the claim was populated on a "to-do list." | A. No relevant exceptions noted.<br><br>B. No relevant exceptions noted. |

| Controls Specified by Caidan | Testing Performed by Service Auditors | Results of Tests |
|---|---|---|
| 4. Line detail charges on each claim must equal the total charge or the claim cannot be "closed" for import into MCS. | A. Observed the SunGard system and attempted to close a claim where the line detail charges did not equal the total charge to ensure the claim could not be "closed." | A. No relevant exceptions noted. |
| 5. If a Vertexer identifies a poorly imaged claim, they must "reject" the image. Once rejected, the claim is sent to the Reject Document Report. All rejected items are scanned again.<br><br>The Claims Lead reviews a report daily showing documents that have been rejected. | A. Observed the Vertexer reject a poorly imaged claim to ensure it is sent to the Reject Document Report.<br><br>B. Interviewed the Lead Scanner Operator to ensure that the Reject Document Report is reviewed. | A. No relevant exceptions noted.<br><br>B. No relevant exceptions noted. |
| 6. Quality Control (QC) audits a certain percentage (see Note below) of each Vertexer's work on a daily basis by completely reentering the claims. If the fields do not match, an error occurs. A log is kept of each day's QC audits and audit results are reviewed bi-weekly by the Director of Claims/VP.<br><br>Note: If a Vertexer has a 98% or higher quality rating, then 5% of their claims are audited. If a Vertexer has less than a 98% quality rating, 10% of their claims are audited. | A. Selected a sample of 10 days and obtained the Vertexer QC audit log to ensure a QC review was performed. | A. No relevant exceptions noted. |

| Controls Specified by Caidan | Testing Performed by Service Auditors | Results of Tests |
|---|---|---|
| 7. The Lead Scanner Operator prepares a Scanning Operations Report on a daily basis that indicates the number of claims at each stage (i.e., sorting, scanning, vertexing) and the oldest date of each claim in the stage. The Director of Claims/VP reviews the report on a daily basis to ensure time from claims receipt to input into MCS is less than three days. Timeliness statistics are presented in the weekly Directors' meeting on a Claims department Weekly Service Report. | A. Selected a sample of 10 weeks and obtained the Weekly Service Report to ensure timeliness of receipt to input is monitored. | A. No relevant exceptions noted. |

## 11. Claims Adjudication

**Control Objective** - Controls should provide reasonable assurance that all claims data is accurately and completely processed by an authorized individual in a timely manner.

### Description of Controls

| Controls Specified by Caidan | Testing Performed by Service Auditors | Results of Tests |
|---|---|---|
| 1. Once claims have gone through Vertexing and QC review (where applicable), they are exported from SunGard into the MCS system for adjudication.<br><br>The Documentation Specialist performs a reconciliation daily to ensure all claims are completely exported from SunGard to MCS. | A. See Objective 9, step 5 for testing regarding the review of the Adjudication Report. | A. No relevant exceptions noted. |
| 2. About 70% of claims are auto-adjudicated. For claims that do not auto-adjudicate, it is due to a system defined claim edit. All edits are populated in "to-do lists" for Claims Examiner review. Only Claims Examiners, IS, and Executive Management (for backup purposes) can resolve the edit codes and adjudicate the claims. Note: Vertexers performing data entry cannot adjudicate claims.<br><br>There are different "to-do lists" for each type of edit. The Claims Examiners are responsible for reviewing the edits in "to-do lists" and promptly adjudicating claims. The Director of Claims reviews a report hourly showing all claims outstanding by date. The report is summarized and is presented weekly during the Directors' meeting. | A. Observed a system-generated list of users with access to complete edit codes and manually adjudicate claims to ensure it is restricted according to the control description and Vertexers do not have access.<br><br>B. Selected a sample of 10 weeks and obtained the Directors' meeting minutes to ensure the outstanding claims are addressed. | A. No relevant exceptions noted.<br><br>B. No relevant exceptions noted. |
| 3. Duplicate claims cannot be adjudicated automatically; an edit is created and the claim is moved into a "to-do list." | A. Attempted to adjudicate a duplicate claim to ensure the system disallows it. | A. No relevant exceptions noted. |
| 4. COB claims cannot be auto-adjudicated if the primary payer information is not entered. An edit is created and the claim is moved into a "to-do list." | A. Attempted to adjudicate a COB claim that was missing primary payer information to ensure the system disallows it. | A. No relevant exceptions noted. |

| Controls Specified by Caidan | Testing Performed by Service Auditors | Results of Tests |
|---|---|---|
| 5. Claims cannot be edited after they have been adjudicated. If modifications are made, an edit is created and the claim is moved into the "to-do list." | A. Attempted to modify data on a claim that has already been adjudicated to ensure the system disallows it. | A. No relevant exceptions noted. |
| 6. The QC department audits 5% of each Claims Examiner's work daily (including at least one professional and one institutional claim). An audit log is retained, indicating each day's audits and the error percentages. | A. Selected a sample of 16 days and obtained the Claims Examiner QC audit log to ensure a Claims Examiner QC review was performed. | A. No relevant exceptions noted. |

## 12. Authorization

**Control Objective** - Controls should provide reasonable assurance that authorizations are granted by the appropriate individuals.

### Description of Controls

| Controls Specified by Caidan | Testing Performed by Service Auditors | Results of Tests |
|---|---|---|
| 1. Authorization is required for certain services. The Care Management, Quality Management, and Medical Management departments and Providers are the only individuals that can grant authorizations.<br><br>Providers can only authorize certain services as identified by CMC Management. They cannot authorize any other services themselves. | A. Obtained a list of users with the ability to grant authorizations to ensure it is limited to the Care Management, Quality Management, and Medical Management departments.<br><br>B. Selected a sample of three services requiring CMC authorization to verify that Providers cannot authorize the services. | A. No relevant exceptions noted.<br><br>B. No relevant exceptions noted. |
| 2. All services requiring CMC authorization (i.e., not authorized by Providers) are automatically populated in the MCS "to-do list" and are reviewed by the Care Management department. | A. Selected a sample of one service requiring CMC authorization and observed the MCS settings to ensure they are automatically populated in the to-do box. | A. No relevant exceptions noted. |

## 13. Claims Payment

**Control Objective** - Controls should provide reasonable assurance that all claims are accurately paid in a timely manner by authorized individuals. Controls should also provide reasonable assurance that check printers and security paper are physically secured and limited to authorized individuals.

### Description of Controls

| Controls Specified by Caidan | Testing Performed by Service Auditors | Results of Tests |
|---|---|---|
| 1. The Director of Claims/VP monitors claims to ensure they are paid within 10 business days of claims receipt. The timeliness standards are reviewed daily and are presented during the Directors' meeting on a weekly basis. | A. Selected a sample of (10) weeks and obtained the Directors' meeting minutes to ensure claims payment timeliness is monitored. | A. No relevant exceptions noted. |
| 2. Claims are paid based on the type of contract with the provider: either on fee for service or capitation basis. Out-of-network providers are paid at Medicaid rates.<br><br>The Finance department pulls adjudicated claims that are ready for payment on a weekly basis. MCS generates a check data file based on adjudicated claims; the Finance department does not have access to modify the data file and is only able to view a PDF of the check register which indicates the checks that will be printed.<br><br>Access to the check data file is limited to the IS department. Modifications can only occur immediately when the file is being processed. IS is not notified when Finance runs the file. | A. Obtained a user list of individuals with access to the claims data files to ensure it is restricted according to the control description. | A. No relevant exceptions noted. |
| 3. CMC utilizes a third party for fee for service check printing (Emdeon/ABF). Only authorized individuals within the Finance and IS departments (prior to May 1st, 2009) and Senior Management can start the job to pull claims for payment and send the check print file to Emdeon/ABF. Note: Vertexers and Claims Examiners do not have access to pull the check print file. | A. Obtained a user list to ensure the individuals with access to create the check print file is restricted according to the control description. | A. No relevant exceptions noted. |

| Controls Specified by Caidan | Testing Performed by Service Auditors | Results of Tests |
|---|---|---|
| 4. Once the fee for service check print file has been sent, Emdeon/ABF sends an acknowledgement back to the IS department indicating the number of checks that need to be printed and the dollar amounts. The IS department sends the file to the Finance department for reconciliation to ensure it balances with what was sent. The Finance department sends a confirmation email to IS notifying them as to whether the amounts/numbers balanced correctly. | A. Selected a sample of 15 days during the testing period and obtained the Finance department's confirmation that the amount/number of checks sent to Emdeon/ABF reconciles. | A. No relevant exceptions noted. |
| 5. The Finance department reviews the capitation check dollar amounts (i.e., membership and rates to be paid) prior to printing to verify they are correct. The reconciliation is retained. | A. Selected a sample of one month during the testing period and obtained the capitation check reconciliation to ensure existence. | A. No relevant exceptions noted. |
| 6. Only one printer can print the capitation checks. The printer is located in a locked office and is not connected to the network. Access to the check printer is limited to the CFO/Treasurer, Bookkeeper/Senior Payroll Clerk, and Executive Management. A duplicate office key is located in a locked key box in a separate locked private office. | A. Observed the capitation check printer to ensure it was located in a locked office.<br>B. Obtained the list of individuals with access to the office containing the capitation check printer to ensure it was restricted according to the control description. | A. No relevant exceptions noted.<br>B. No relevant exceptions noted. |
| 7. Furthermore, the security paper for the capitation check printer is located in a locked cabinet in a locked private office. Access to the security paper is limited to the CFO/Treasurer and the Bookkeeper/Senior Payroll Clerk. | A. Observed the security paper to ensure it is located in a locked cabinet.<br>B. Obtained the list of individuals with access to the cabinet containing the security paper to ensure it was restricted according to the control description. | A. No relevant exceptions noted.<br>B. No relevant exceptions noted. |

| Controls Specified by Caidan | Testing Performed by Service Auditors | Results of Tests |
|---|---|---|
| 8. After printing the capitation checks, a member of Executive Management must sign off that they have reviewed and approved the checks that are issued. The review is done to ensure the appropriate number of checks were printed and issued. | A. Selected a sample of one month during the testing period and obtained the check verification sign-off sheet to ensure that a member of Executive Management approved the capitation checks issued. | A. No relevant exceptions noted. |

## 14. Claims Storage

**Control Objective** - Controls should provide reasonable assurance that claims data is stored and disposed of in a secure manner.

### Description of Controls

| Controls Specified by Caidan | Testing Performed by Service Auditors | Results of Tests |
|---|---|---|
| 1. Paper based claims are stored in the secure scanning room until the claim has been processed. Note: Access to the secure scanning room is tested in Objective 9.<br><br>After a claim has been processed, it is stored in a storage room within the locked CMC office suite. The storage room is secured via proximity badge access and is restricted to Executive Management, the Scanner Operator, a Vertexer, and the Member Services Administrative Coordinator (prior to May 1, 2009). Currently, access is restricted to the Scanner Operators, Manager of Claims, Director of Claims/VP, Vertexer, and the backup claims processor. The building management company also has access to the room in the event of an emergency and a confidentiality agreement with them is in place.<br><br>Access to the storage area is logged in the badge access system. The Executive Administrative Assistant reviews the logs on a weekly basis for any unusual access activity. | A. Attempted to access the claims storage room to ensure it was locked.<br><br>B. Obtained a list of individuals with access to the claims storage area to ensure it is restricted as stated in the control description. | A. No relevant exceptions noted.<br><br>B. No relevant exceptions noted. |
| 2. After three months, claims are shredded by a third party shredding vendor. A confidentiality agreement is in place with the vendor. | A. Obtained the confidentiality agreement with the vendor to ensure existence. | A. No relevant exceptions noted. |

## 15. Member, Provider, & Vendor Update

**Control Objective** – Controls should provide reasonable assurance that member (eligibility), provider, and vendor information can only be modified by authorized individuals. Controls should also provide reasonable assurance that eligibility information received is completely loaded into the system.

### Description of Controls

| Controls Specified by Caidan | Testing Performed by Service Auditors | Results of Tests |
|---|---|---|
| 1. On a monthly basis, the job scheduler pulls member "audit" files from the State websites. The audit files contain membership information for the next month. In addition, weekly change files are pulled from State websites. A monthly "pend" file is also pulled from the State of Michigan website that includes termination dates for members that were "pended" in the preceding audit file. The job scheduler imports each of these files into MCS. The scheduler compares the audit file entries to what was loaded into MCS on the Member Load - Audit File Reconciliation Report. The Documentation Specialist reviews the report monthly and investigates any discrepancies.<br><br>The eligibility tables are replicated from MCS into SunGard on a monthly basis so the system can verify member eligibility for each claim entered.<br><br>Only IS and the Member Services departments can update the member (i.e., eligibility) tables within MCS; Vertexers cannot update member information in MCS. | A. Selected a sample of three months during the testing period and obtained the Documentation Specialist's review of the Member Load - Audit File Reconciliation Report to ensure existence.<br><br>B. Obtained a system generated list of users with access to update member tables in MCS to ensure Vertexers cannot update member information. | A. No relevant exceptions noted.<br><br>B. No relevant exceptions noted. |
| 2. Only the Provider Services department can update the provider tables within MCS; Vertexers cannot update provider information. Provider information is entered/updated either when a Provider begins association with CMC or when claims from that Provider are received. | A. Obtained a system generated list of users with access to update Provider tables to ensure Vertexers cannot update Provider information. | A. No relevant exceptions noted. |

| Controls Specified by Caidan | Testing Performed by Service Auditors | Results of Tests |
|---|---|---|
| 3. A vendor is the entity being billed, i.e., a billing service that is billing for a group of Providers. Only the Finance department can update the vendor tables within MCS; Vertexers cannot update vendor information. Vendor information is entered/updated either when a Vendor begins association with CMC or when claims from that Vendor are received. | A. Obtained a system generated list of users with access to update Vendor tables to ensure Vertexers cannot update Vendor information. | A. No relevant exceptions noted. |

## 6.13 License, Certificates and Permits as Required

Meridian is committed to obtaining proper licensure as corporation authorized to do business in New Hampshire and as an HMO from the New Hampshire Insurance Department. Meridian submitted its HMO license application to the New Hampshire Insurance Department on December 7, 2011. Along with that application, Meridian submitted its Articles of Incorporation for approval by the Insurance Department as required by New Hampshire regulation. Meridian hereby provides assurance that it will secure an unrestricted license to operate as an HMO in the State of New Hampshire prior to an award of Contract.

Exceptions to Terms and Conditions

# APPENDIX B

## EXCEPTIONS TO TERMS AND CONDITIONS

A Responder shall be presumed to be in agreement with the terms and conditions of the RFP unless the Responder takes specific exception to one or more of the conditions on this form.

**RESPONDERS ARE CAUTIONED THAT BY TAKING ANY EXCEPTION THEY MAY BE MATERIALLY DEVIATING FROM THE RFP SPECIFICATIONS. IF A RESPONDER MATERIALLY DEVIATES FROM A RFP SPECIFICATION, ITS PROPOSAL MAY BE REJECTED.**

A material deviation is an exception to a specification which 1) affords the Responder taking the exception a competitive advantage over other Responders, or 2) gives the State something significantly different than the State requested.

**INSTRUCTIONS:** Responders must explicitly list all exceptions to State of NH minimum terms and conditions. Reference the actual number of the State's term and condition and Exhibit number for which an exception(s) is being taken. If no exceptions exist, state "NONE" specifically on the form below. Whether or not exceptions are taken, the Responder must sign and date this form and submit it as part of their Proposal. (*Add additional pages if necessary.*)

| **Responder Name:** | |
|---|---|
| **Term & Condition Number/Provision** | **Explanation of Exception** |
| | |

*By signing this form, I acknowledge that the above named Responder accepts, without qualification, all terms and conditions stated in this RFP Section 9- Mandatory Business Specifications, Contract Terms and Conditions except those clearly outlined as exceptions above.*

# MERIDIAN HEALTH PLAN

Provisions

## 8. Mandatory Business Specifications

Granite Care – Meridian has reviewed the contract terms, conditions and penalties set forth in Appendix C – Contract Minimum Requirements of the RFP # 12-DHHS-CM-01, including:

1. General Provisions;
2. Special Provisions;
3. Additional Special Provisions;
4. Certification Regarding Drug-Free Workplace Requirements;
5. Certification Regarding Lobbying;
6. Certification Regarding Debarment, Suspension and Other Responsibility Matters;
7. Certification Regarding The Americans with Disabilities Act Compliance;
8. Certification Regarding Environmental Tobacco Smoke;
9. Business Associate Agreement; and
10. Certification Regarding the Federal Funding Accountability and Transparency Act (FFATA) Compliance

Granite Care – Meridian agrees to these minimum requirements as set forth in Parts 8 and 9 of this RFP without exception.

David B. Cotton, M.D.
President and CEO
