State Identified Measurable Results (SiMR) FFY2020 - 2025:

The percent of infants and toddlers with IFSPs will demonstrate improved acquisition and use of knowledge and skills (including early language/communication) in Indicator 3B, SS2. This percent will increase from 2020 baseline of 48.44% to 48.64% in 2025.

SiMR Indicator 3 Outcome B (3B) Acquisition Use of Knowledge and Skills Summary Statement 2 (SS) Percentage of infants and toddlers who were Baseline Data = 2020						
FFY	2020	2021	2022	2023	2024	2025
Target	48.44	48.44	48.54	48.54	48.64	48.64
Data	48.44	53.05				

The measurement of progress is the Child Outcome Summary data disaggregated by race/ethnicity and gender. It is anticipated that the improvement strategies targeting boys and children included in the minority group, will result in improved outcomes for all children across NH. We will know that we have succeeded when the following have occurred:

a) SS1. The % of boys who enter the program below age expectations in Outcome B, substantially increased their rate of growth by the time they turn 3 years or exit the program increases from 2020 baseline of 60.22% to 60.42% in 2025.

b) SS2. The % of boys who are functioning within age expectations in Outcome B by the time they turn 3 years or exit the program increases from 2020 baseline of 46.27% to 47.27% in 2025.

c) SS2. The % of children in the minority group who are functioning within age expectations in Outcome B by the time they turn 3 years or exit the program increases from 2020 baseline of 35.56% to 38.06% in 2025.
