NH Balancing Incentive Program

Website

5.1 Identify or Develop URL

The State of NH has begun the process of identifying and developing a singular website to incorporate the content and resources applicable to community members looking for Long Term Services and Supports information. Taking into consideration the program needs for complexity, functionality, accessibility, and online presence of the website, the NH BIP has selected to host the website within the NH Department Of Health and Human Services domain (www.dhhs.nh.gov). The website will be the unique resource LTSS information and will integrate and link to information currently isolated within the dhhs.nh.gov site. The formal URL will be identified to promote consistent naming across the program and all advertising.
