

Putting the PH Planning Pieces Together

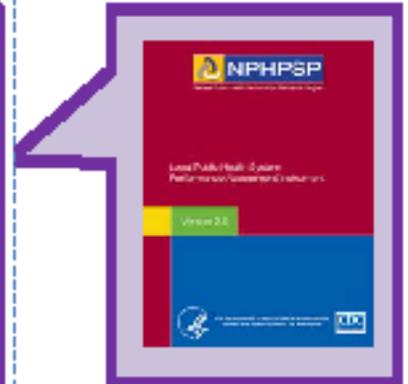

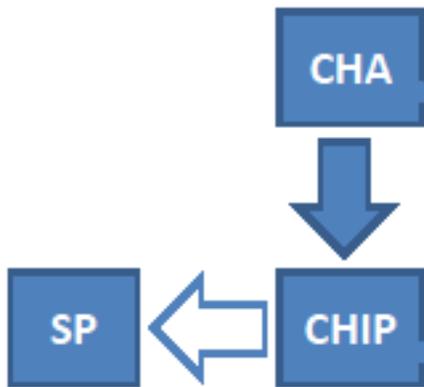

Presented to the Public Health Improvement Services Council
April 19, 2012

Joan Ascheim
NH Division of Public Health Services

Prerequisites

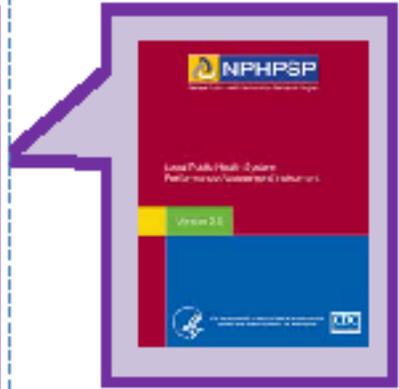

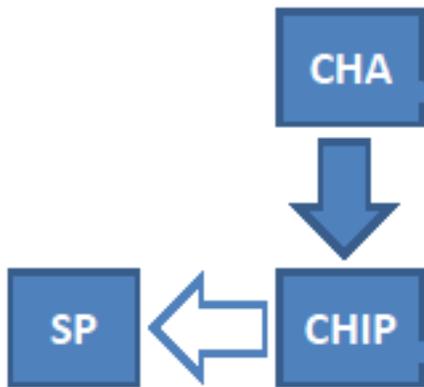

Domains
1, 2, 3, 4, 5, 6, 7, 8, 9, 10

Essential Service
1, 2, 3, 4, 5, 6, 7, 8, 9, 10

Essential service system performance measured using the NPHPSP instrument can inform health department PHAB domain performance. MAPP and NPHPSP can be deliberately designed to meet standards in domains 1, 3, 4, 5, 7, and 10.

Prerequisites

Domains
1, 2, 3, 4, 5, 6, 7, 8, 9, 10

Essential Service
1, 2, 3, 4, 5, 6, 7, 8, 9, 10

Essential service system performance measured using the NPHPSP instrument to inform health department PHAB domain performance. MAPP and NPHPSP can be deliberately designed to meet standards in domains 4, 5, 7, and 10.

2011 State Health Profile

2011 New Hampshire State Health Profile

*Improving Health,
Preventing Disease,
Reducing Costs for All*

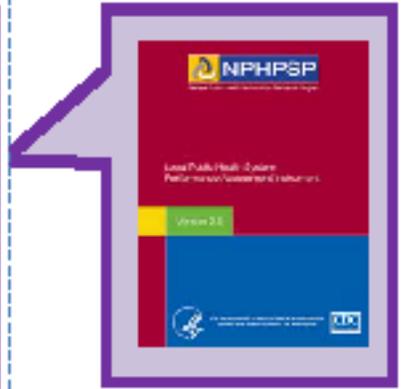

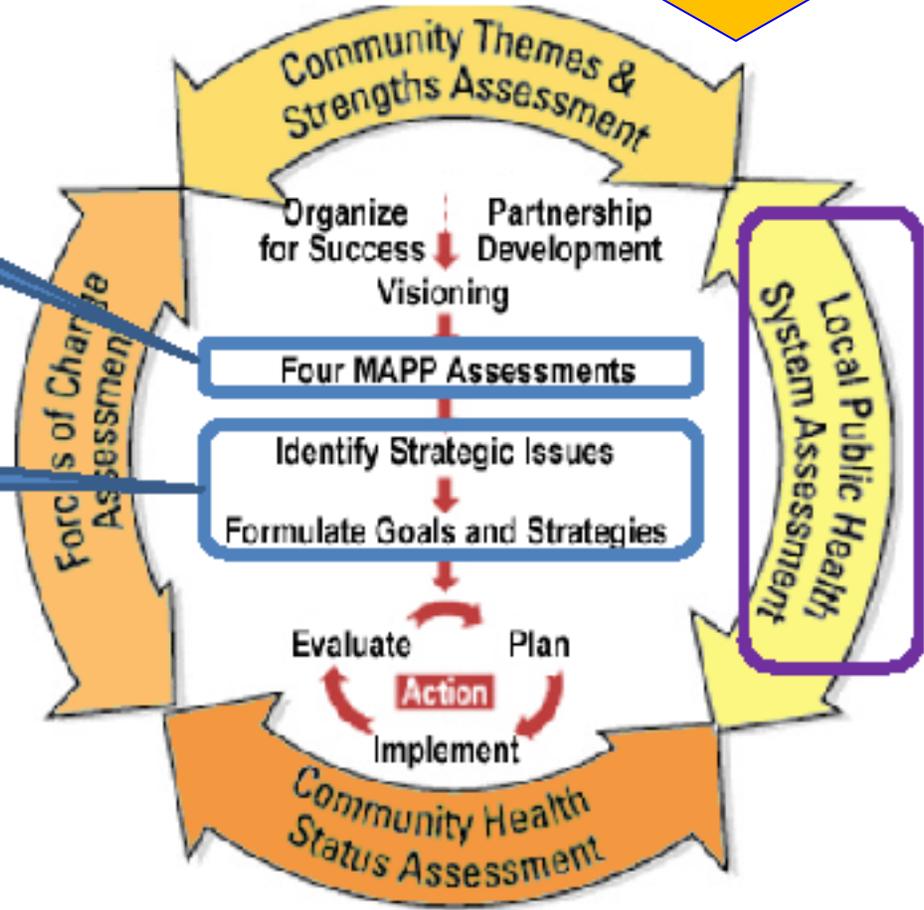

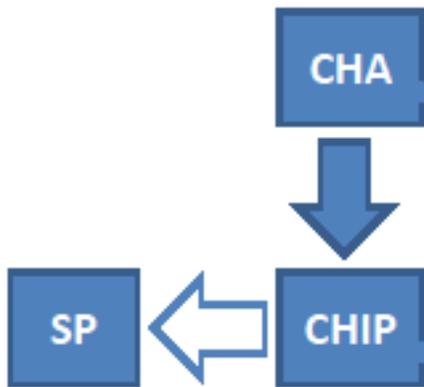

Use of data to develop priorities

- DPHS internal objectives set
- Stakeholder feedback from regional forums and survey
- Final priorities set
- Develop strategies for state public health improvement plan with stakeholders
- DPHS strategic plan – denotes DPHS's activities

Prerequisites

Domains
1, 2, 3, 4, 5, 6, 7, 8, 9, 10

Essential Service
1, 2, 3, 4, 5, 6, 7, 8, 9, 10

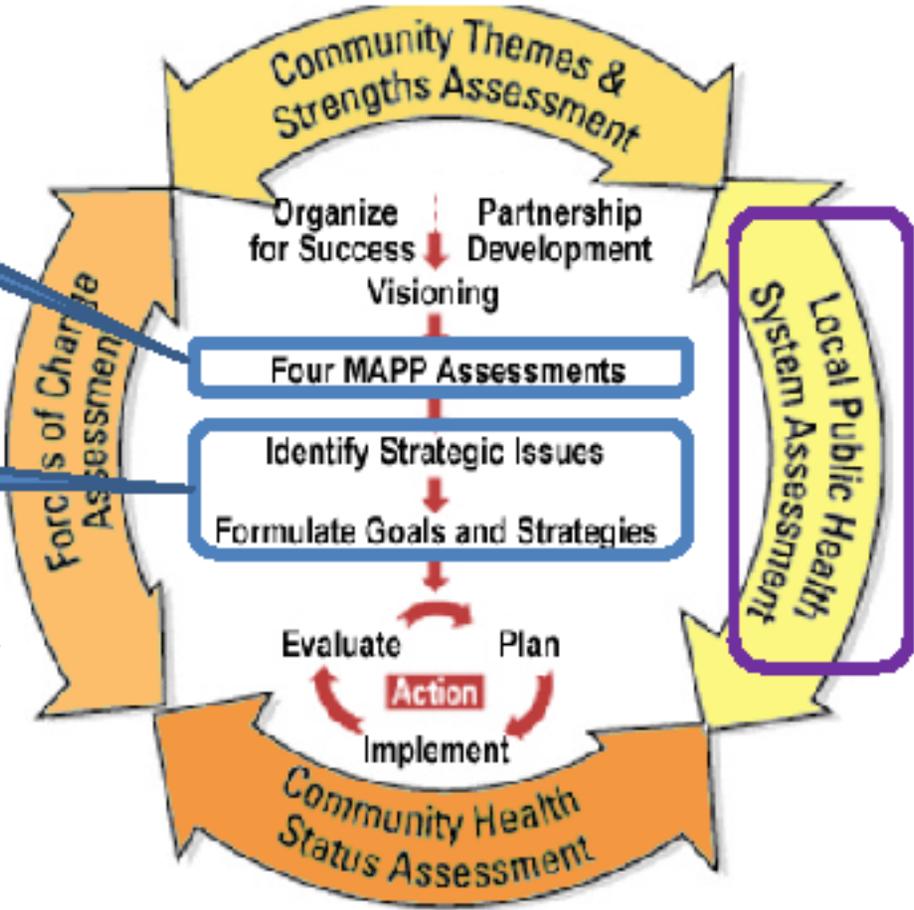

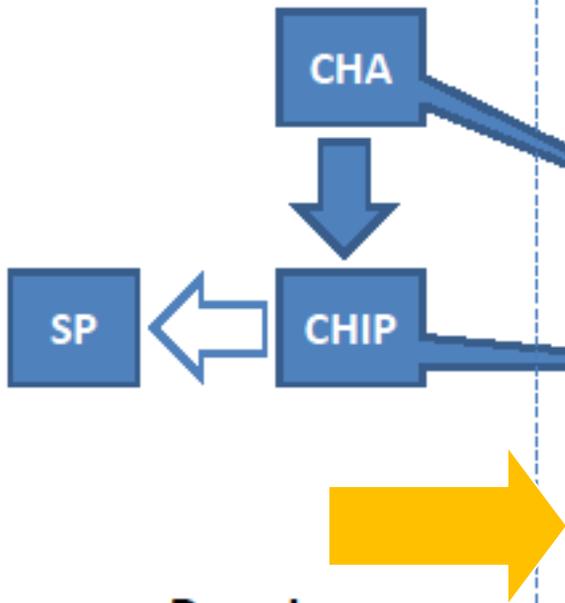

Essential service system performance measured using the NPHPSP instrument can inform health department PHAB domain performance. MAPP and NPHPSP can be deliberately designed to meet standards in domains 1, 3, 4, 5, 7, and 10.

Community Themes and Strengths Assessment

- What do you see as assets of our state that contribute to a strong public health system ?
- What are some issues or events that have brought communities together successfully to improve the health and quality of life in our state and that we can learn from?
- What are the 2-3 most important characteristics of a healthy state public health system?
- What are the 2-3 most important issues that must be addressed by the state public health system to improve the health and quality of life in our state?

Prerequisites

Domains
1, 2, 3, 4, 5, 6, 7, 8, 9, 10

Essential Service
1, 2, 3, 4, 5, 6, 7, 8, 9, 10

Essential service system performance measured using the NPHPSP instrument can inform health department PHAB domain performance. MAPP and NPHPSP can be deliberately designed to meet standards in domains 1, 3, 4, 5, 7, and 10.

FORCES OF CHANGE ANALYSIS

Challenges and Opportunities

- What is occurring or might occur in New Hampshire that affects the state public health system and our goal to undertake a public health improvement planning process?

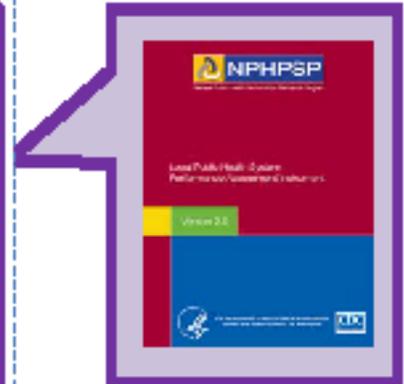

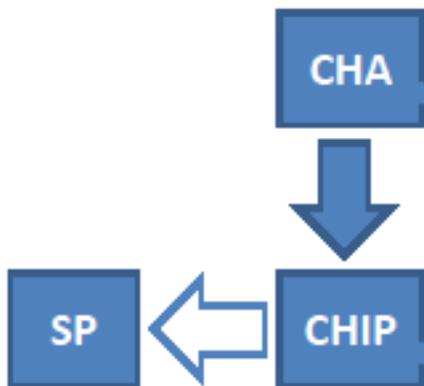

External Force and Trends	Challenges	Opportunities
<p>Example</p> <p>National attention on pandemic avian flu</p>	<p>Diverts attention and resources from existing and more probable public health threats</p>	<p>Opportunity to tighten up emergency response plans</p>

Forces of Change & Themes and Strengths

- These tell us what will help us and what may hinder us going forward with the plan

Prerequisites

Domains
1, 2, 3, 4, 5, 6, 7, 8, 9, 10

Essential Service
1, 2, 3, 4, 5, 6, 7, 8, 9, 10

Essential service system performance measured using the NPHPSP instrument can inform health department PHAB domain performance. MAPP and NPHPSP can be deliberately designed to meet standards in domains 1, 3, 4, 5, 7, and 10.

National Public Health Performance Standards Assessment

- 1 Inform, educate and empower people about health issues
- 2 Monitor health status to identify and solve community health problems
- 3 Mobilize community partnerships and actions to identify and solve health problems
- 4 Develop policies and plans that support individual and community health efforts
- 5 Develop a communication plan to convey the importance and value of public health
- 6 Develop a plan to assure a competent public health workforce

- The standards help us look at what capacity we need in the public health system to address the priorities

● Let's talk about order and who does what.

● Questions?
