Definitions:

- * A **Lead Inspector** can perform full lead inspections, preliminary inspections, and dust wipes. A lead inspector **cannot** issue certificates of compliance or lead safe.
- * A **Risk Assessor** can perform full lead inspections, preliminary inspections, clearance inspections and issue certificates of lead safe and certificates of compliance for abatement and interim controls. Risk Assessors can also write and approve Lead Hazard Reduction Work Plans.
- * An **Order of Lead Hazard Reduction** requires a full lead inspection of the interior, exterior, common areas, any out buildings and soil, a clearance inspection after the completion of work, and a certificate of compliance.
- * Some **insurance companies** require a certificate of lead safe for rental properties prior the issuance of insurance. This will require a full inspection of the interior of the property and any other areas that is required by the insurance company and dust wipes before the issuance of a certificate of lead safe.

Questions about licensing or who should hire can be directed to Vickie Carrier at 603-271-4719.
