

Zika Virus
New Hampshire Summary Report

January 11, 2016 – November 30, 2016

ZIKA VIRUS TESTING SUMMARY	
Number of people tested	382
Total # of pending results	2
Total # of negative results	507
Total # of positive results	15

Note: Number of testing results and number of people tested may not match because some people may have submitted more than one sample or more than one test may have been performed.

ZIKA VIRUS CASE SUMMARY	Female Pregnant	Female Not pregnant	Male	TOTAL
Number of Zika Virus Cases in NH	2	4	6	12

Note: Number of positive results and number of cases may not match because some people may have submitted more than one sample or may not be a NH resident and therefore not counted as a NH case.
