

Jeffrey A. Meyers  
Commissioner

Marcella Jordan Bobinsky  
Acting Director

STATE OF NEW HAMPSHIRE  
DEPARTMENT OF HEALTH AND HUMAN  
SERVICES

29 HAZEN DRIVE, CONCORD, NH 03301-6503  
603-271-4988 1-800-852-4988 Ext. 4612  
Fax: 603-271-7623 TDD Access: 1-800-735-2964

**Limited Use Hospital Discharge Data Set  
Application and Data Use Agreement**

Please send your completed and signed application materials to the following address:

NH UHFDDS  
Bureau of Public Health Statistics & Informatics  
Division of Public Health Services  
Department of Health and Human Services  
29 Hazen Drive  
Concord, NH 03301-3857  
HospitalData@dhhs.nh.gov

**This data application is in coordination with and under direction as required by He-C 1504.04. All attempts should first be made to utilize the NH HDD Public Use dataset per He-C 1504.02 as opposed to requesting Limited Use data.**

**Part I: Request for Data**

---

All information provided in these sections and in the separate data element forms is required. This information will serve as criteria for decisions regarding release of the data set. Access to Limited Use Data Sets will be approved only for the purposes of health related research, public health, or health care operations.

**Section A: Individual and Organization Requestor Information**

Contact Person's Name and Title (name of person conducting data analysis):
Organization:
Address:
Telephone Number:
Fax Number:
E-mail Address:
Overall Responsible Party's Name and Title:
Overall Responsible Party's Telephone Number:
Date:

**Data Retrieval Information**

NH DHHS has a secure FTP site that will be utilized, if applicable, for delivery of data if data size is within quota. You will be given login and password information for retrieval of your data if this method is plausible. Most data files are too big for upload, in which case a disk will be sent to you.

NH DHHS can no longer send materials out to other clients' UPS or FedEx accounts. If you want the disk sent to you by either UPS or FedEx, you will need to use your account information and send a call tag for 1 pound to Patty NH UHFDDS (see contact info on previous page). Otherwise, standard USPS mailing will be used.

**Section B: Summary of Research Study Protocol or Project Activities**

Please submit a copy of your research/study/project protocol. Use as much space as you need below to answer the questions. If you are not using this electronic document, attach a separate document with numbered answers.

1. **Overall title of study or project:**
  
2. **Benefit of study or project.** How will this study benefit New Hampshire residents and/or public health?
  
3. **Personnel.** Please describe qualifications, or attach a resume, of all staff who will have access to the limited use data files. These include personnel, subcontractors, and affiliated agencies.
  
4. **Qualifications and affiliation.** For all staff please describe qualifications or attach resumes.
  
5. **Study background and design.** If available, you may attach your research protocol and skip to Question 7. If this request is not part of a scientific research study, please provide an abstract describing the background and design of the project and the reason for requesting the data. **Access to Limited Use Data Sets will be approved only for the purposes of health related research, public health, or health care operations.** Please address the following points as fully as possible:
  - A summary of background and purposes of the planned use of the data sets;
  - A statement of the health-related problem or issue to be addressed by using the data;
  
  - The research design and methodology including either the topics of exploratory research or the specific research hypotheses to be tested;
  - The intended research completion date, if applicable. If no date is specified, annual updates to the application will be necessary.
  
6. **Data management.** Please describe the methods used to store the data and how confidentiality of the data will be maintained.
  
7. **Contact with subjects.** Requests for data for studies that involve contacting or identifying individuals must not be applied for using this form. Please state that the study or project activities will not involve contact with any persons who are the subject of the requested data records.

**Section C: Requestor Assurances**

---

The undersigned agrees to the following terms and conditions related to using Bureau of Public Health Statistics and Informatics managed health-related data:

<i>Requestor Initials</i>	
	A. The data shall not be used for any purpose other than that specified in this request.
	B. The requestor acknowledges that criminal liability under New Hampshire state statute RSA126:24-I, for vital records, hospital, and cancer registry data, including class B felony charges, may apply with respect to any disclosure of information in the file(s) that is inconsistent with the terms of the agreement. The requestor further acknowledges that criminal penalties under Federal privacy statutes may apply if it is determined that the requestor, or any individual employed or affiliated therewith, knowingly and willfully obtained the file(s) under false pretenses.
	C. If the requestor makes an unauthorized disclosure of these data, DHHS may impose any or all of the following measures: (1) request a formal response to an allegation of an unauthorized disclosure, (2) require submission of a corrective action plan to prevent future unauthorized disclosure; (3) require the return of the data; and/or (4) sanctions against further release of DHHS data to the organization/requestor in question.
	D. Data, statistics, or information derived from the data that directly or inferentially identifies any individual(s) (including cases, family members, or providers) shall not be published or released in any form. Derived tabular data, percentages, subtotals, totals, or statistics prepared for publication, or public presentation, or distribution of research/study results shall neither display cells with frequencies between one and four, nor information that allows the derivation of cells with frequencies between one and four when the unit of analysis is at the individual town level, or any grouping of towns smaller than a county level.
	E. The requestor has reviewed and agrees with all terms and conditions of He-C 504.04
	F. Neither the health data, nor copies of the health data shall be released, in whole or in part for any reason, to any other party without the written consent of the Bureau of Data & Systems Management. In addition, linking this data to other person level databases not approved by the Bureau of Data & Systems Management is prohibited. No attempt to match information with other databases containing identifying information shall be permitted. Commercial use, <i>i.e.</i> , sale or distribution for profit, of the requested health data is not permitted. Any attempt to identify individuals through any method including linkage is expressly prohibited and punishable under state law.
	G. The recipient shall establish appropriate administrative, technical, procedural, and physical safeguards to protect the confidentiality of the data and to prevent unauthorized access to the data.

	H. The parties mutually agree that the aforesaid file(s) (and/or any derivative file(s)) may be retained by the user for one year upon receipt or until the following retention date specified__. <b>(Date provided by DHHS)</b> If more than two years of retention is requested, the data use agreement must be updated and resigned annually. When the year has passed or the retention date expires, the data must be destroyed and the requestor shall so notify the Bureau of Data & Systems Management by letter stating the data has been destroyed.
	I. Any report using data or statistics derived from the health data that has been prepared for publication, public presentation, or distribution shall acknowledge the Department of Health and Human Services as the source of data in any and all reports, or publications, or presentations generated by the requestor from these data. The requestor also agrees to specify that the analyses, conclusions, interpretations, and recommendations drawn from such data are solely those of the requestor, and are not necessarily those of the Department of Health and Human Services.
	J. <b>PREVIEW CLAUSE.</b> Any reports or publications <b>must</b> be previewed by the Bureau of Public Health Statistics and Informatics to ensure the integrity of the data release policy. This review is intended only to verify the policy and will not examine content, conclusions, or grammar. The preview and response will be done in a timely manner. Responses will be in writing to ensure that this review does not create barriers to dissemination of findings. All requestors will be monitored during the course of their stewardship of the data through a site visit.

*I have reviewed the request form. All statements made in the request form are true, complete, and correct to the best of my knowledge, and I agree to abide by the aforementioned terms and conditions.*

*Note: Original signatures accepted only.*

Name of person conducting data analysis:	Name of overall responsible party:
Title:	Title:
Organization:	Organization:
Signature:	Signature:
Date:	Date:

Limited Use data requests will be thoroughly reviewed for accuracy, completeness, and need before approval, if applicable, is given. The review process takes approximately 6 weeks.

If your request is approved, it will be placed in a queue and completed by DHHS staff in order by date. Please allow 12 weeks from approval date, if applicable, for your request to be completed by our analyst.

**Part II: Specification of Request for Limited Use Data**

---

**Instructions for using the following checklists:**

1. Check (  ) dataset(s) requested.
2. Specify year(s) of data requested based on years of data available.
3. Indicate the software format in which you would like to receive dataset.
4. On the following pages, find the data element listings corresponding to the datasets available. On the form(s), indicate fields requested by placing a  in corresponding box. Please provide a justification for those fields indicated as potential indirect identifiers. *Please remove any checklists that are not applicable.*

**Please indicate the type of data and years requested by checking boxes below:**

NH Hospital Discharges		Prior Years (Please specify)	Years Requested						
<input type="checkbox"/>	Inpatient		<b>2008</b>	<b>2009</b>	<b>2010</b>	<b>2011</b>	<b>2012</b>	<b>2013</b>	<b>2014</b>
<input type="checkbox"/>	Outpatient		<input type="checkbox"/>						
<input type="checkbox"/>	Specialty		<input type="checkbox"/>						

**Important Note:** The latest data available as of January 2016 is for year 2011. Processing of 2012 and subsequent years of data will follow and become available upon completion. Requestors may apply for any range of years in their application, with agreement of acquiring the future years (upon application approval) as they become available.

A User Guide for the NH UHFDDS can be found on our website at:  
<http://www.dhhs.nh.gov/dphs/hsdm/hospital/documents/usermanual-codebook.pdf>

*Updated January 2016*

**Data will be provided on a disk or by upload to the NH FTP site.**

**Please indicate how you would like to receive the data:**

Comma-delimited

Other:

**Instructions**

Data element requests are separated below into two sections; the first part (page 8) is for variables available in the years 2004 – 2009 datasets, and the second part (page 14) is for variables available in 2010+ years of data.

**New Hampshire Discharge Data Set – Data Elements Available in 2004-2009**

Please check the variables you would like included in your dataset. Select only those elements needed for your analysis. Where indicated, provide a justification for need and specify any sub-selection of records or grouping of values you expect to use for each variable. *Please use as much space as you need.*

**Need:** We will only provide the minimum set of information with the minimum specificity that you need. Variables may be denied if your application does not justify your need explicitly when required.

**Sub-selection of Records (Filters):** We will only release the minimum set of records needed for your study. Please provide any selection criteria for the records you are specifically interested in. For instance, if you are specifically studying heart disease discharges, be sure to indicate you only require records where the diagnosis met your specified criteria for heart disease.

**Grouping of Values:** Where relevant, we will provide data elements pre-grouped. Please indicate any grouping that is needed for your study. For instance, if you only need to know the patient's county of residence, indicate that, and we will supply the county instead of the town of residence. Another common example is grouping the patient's age.

**New Hampshire Hospital Discharge Data Set - Data Elements Available in Years 2010+**

Please check the variables you would like included in your dataset. Select only those elements needed for your analysis. Where indicated, provide a justification for need and specify any sub-selection of records or grouping of values you expect to use for each variable. *Please use as much space as you need.*

**Need:** We will only provide the minimum set of information with the minimum specificity that you need. Variables may be denied if your application does not justify your need explicitly when required.

**Sub-selection of Records (Filters):** We will only release the minimum set of records needed for your study. Please provide any selection criteria for the records you are specifically interested in. For instance, if you are specifically studying a certain type of psychiatric discharges specified by DRG code, be sure to indicate you only require records where the DRG met your specified criteria.

**Grouping of Values:** Where relevant, we will provide data elements pre-grouped. Please indicate any grouping that is needed for your study. For instance, if you only are studying women, indicate that and we will supply records where the patient was female. Another common example is grouping the patient's age.

**Please note:** 2010 and 2011 data has been approved for release with quality concerns regarding accurate case counts. Inpatient data is higher quality than outpatient. We remain uncertain as to a quality method for defining ED discharges within the outpatient data and we aren't sure if inconsistencies in the case counts are due to an incorrect process or due to issues with incomplete submission of required records. 2010 data and on is not recommended for use in trend analysis with previous years of data.
