Subject:Hi Deb

Hi Deb,

I was sharing with Susan that initially I'm sure many of us are very concerned about these proposed changes.

Many of us who operate family-style homes for seniors, which are very needed, would not survive big, expensive changes and it would also alter the nature of what our residents like.

I surely hope there is some type plan in mind to accommodate all of us who often operate on very slim margins as it is, and would be out of business if required to make major changes !

Thanks, Steve Guyette
