NH Health Care Providers That Offer Vaccine to Eligible Adults
2023

The following practices, clinics, and college health centers offer NH Immunization Program (NHIP) vaccines to uninsured adults at low or no cost. For many of the practices, you must be an enrolled patient to be eligible for vaccines. In the case of colleges, you must be enrolled in that college. In some cases, however, you may be able to schedule an immunization only visit.

Always call ahead to check eligibility.
