1.5. Background

1.5.1. The most recent Youth Risk Behavior Survey (YRBS 2015) provides a snapshot of current sexual health behaviors among high school students in New Hampshire with significantly higher teenage birth rates within the city of Manchester and in Sullivan County.

1.5.2. City of Manchester. Sixty percent (60%) of high school students in 12th Grade are sexually active, yet only 36% of all students report using a condom at last intercourse (23% of those 12th grade students used a condom). Only 11.4% of all high school students combined rely on oral contraceptive pills to prevent pregnancy, but 24.5% of 12th graders do use contraceptive pills. Less than 2% of high school students use a long-acting contraceptive method. Fifteen percent (15%) of sexually active students used both a method of contraception and a condom to prevent STI infection. However, almost 13% of sexually active students reported using alcohol and/or drugs before the last sexual intercourse. One quarter of high school (HS) students report having come to school high on marijuana. Use of alcohol is on the rise, with a full 25% of students reporting they binge drink at least 1-5 days per month.
1.5.3. **Sullivan County.** YRBS 2015 results vary slightly from Manchester. Among HS 12th graders, 74% are sexually active, with 39% of them using a condom at last intercourse (more sexually active and more condom use than Manchester). Among girls in 12th grade, 35% use oral contraception, higher than the 24% using this form of contraception in Manchester.

1.5.4. **Contraceptive Use in NH:** The NH Title X Family Planning Program (FPP) offers free (or at reduced cost) and confidential reproductive health care for women and men of all ages, including teens. A recent Needs Assessment conducted by the NH Family Planning Program in November 2015 showed that most women and men in New Hampshire are aware of how to find and utilize contraception to limit or time pregnancy. Overall, 86% of FPP clients of all ages use some form of contraception, with only 13% not using any method (NH FPAR 2015). NH Family Planning offers the full range of FDA-approved contraceptive methods, including Long-Acting Reversible Contraception (LARC). Historically, use of oral contraceptives has been the most common method used, along with condoms, particularly among teens. While evidence on LARC methods has shown these highly effective contraceptives are popular among women of all ages, including teens, improvements in increasing access to and reducing the initial cost of the device is a priority.

1.5.5. More Information can be found in Appendix D – PREP Background.

### 1.6. Evidence-Based Program Models

1.6.1. The enabling federal legislation states that personal responsibility education programs are required to “replicate evidence-based effective programs or substantially incorporate elements of effective programs that have been proven on the basis of rigorous scientific research to change behavior, which means delaying sexual activity, increasing contraceptive use for sexually active youth, or reducing pregnancy among youth.” Several evidence-based curricula have been pre-selected for New Hampshire.

1.6.2. Sub-awardee applicants are required to implement 1-2 of the following four approved evidence-based programs.

- **Reducing the Risk** (high school setting)
- **Focus** (clinical or community based setting)
- **Be Proud! Be Responsible!** (school or community based setting)
- **Draw the Line/Respect the Line** (school and youth program settings)

1.6.3. Adult Preparation Subjects: In addition to replicating one (or two) of the above program models, sub-awardees are required to address adulthood preparation subjects. The State PREP plan includes three Adult Preparation Subjects (APS) which are:

- **Healthy Relationships** – positive self-esteem and relationship dynamics.
- **Adolescent Development** – healthy attitudes and values about adolescent growth, body image, and racial and ethnic diversity.
- **Healthy Life Skills** – goal setting, negotiation, decision making, communication, stress management, and interpersonal skills.
1.6.4. If the above adult preparation subjects are not addressed in the evidence-based program selected, additional components addressing these subjects will need to be added to the program model. These additions must be medically accurate, and fidelity to the original evidence-based program model is required.

1.6.5. Program Fidelity: When a full program model is being replicated with fidelity, adaptations to the program should be minimal, such as revising details in a role play, updating data/statistics, adjusting reading and comprehension levels, making activities more interactive or tailoring learning activities and instructional methods to youth culture or development level. In some cases, more significant adaptations may be needed, such as adding components to address the additional adult preparation components of PREP or ensuring that both abstinence and contraception for the prevention of pregnancy and sexually transmitted infections are adequately addressed in a program, as required. Sub-awardees also may choose to add on components related to pregnancy prevention and prevention of sexually transmitted infections. Any component that is added onto an evidence-based program must be well integrated into the program and should not alter the core components of the evidence-based program model. Model adaptations are subject to approval from the developer(s).

1.6.6. Medical Accuracy: Programs supported with these funds must also be medically accurate. Medical accuracy means that medical information must be verified or supported by the weight of research conducted in compliance with accepted scientific methods and published in peer-reviewed journals where applicable, or be comprised of information that leading professional organizations and agencies with relevant expertise in the field recognize as accurate, objective and complete. As a condition of receiving a grant under this announcement, an applicant must certify, “all education materials that are presented as factual will be grounded in scientific research.” Any additions or modifications to evidence-based curricula must be reviewed and approved by the developers of the curriculum, the New Hampshire Department of Health and Human Services, as well as the U.S. Department of Health and Human Services, Administration on Children, Youth and Families (ACYF), to assure medical accuracy and program fidelity prior to implementation.

1.7. Evaluation

1.7.1. NH PREP gives its assurance that it and/or the sub-awardees will participate, if selected, in a national evaluation. NH PREP also assures that along with the sub-awardees, there will be compliance with the requirements of Section 513 of PREP in the implementation of PREP. (SEC. 513. [42 U.S.C. 713] (a) ALLOTMENTS TO STATES). Key findings that will be incorporated that cross over all of the approved curricula include:

1. Increasing the understanding of the benefits of delaying sexual activity and/or the intention to remain abstinent.

2. Increasing the understanding of contraceptives and how to access contraception if their choice is to remain sexually active or to engage in sexual activity.

3. Increasing the understanding of how their values, beliefs and attitudes impact their sexual health, and their lives overall.
4. Increasing the understanding of skills to reduce sexual risk taking and improving communication with parents, sexual partners, and health care providers.

3.2.3. Applicants shall be presumed to be in agreement with the terms and conditions of the RFA and the sample contract in Appendix B, unless Applicant takes specific exception to one or more conditions through specifying these on Appendix A. For instructions see Appendix A.

3.3. Compliance

3.3.1. Applicants must be in compliance with applicable federal and state laws, rules and regulations, and applicable policies and procedures adopted by the Department of Health and Human Services currently in effect, and as they may be adopted or amended during the contract period.

3.3.2. Culturally and Linguistically Appropriate Standards

3.3.2.1. The New Hampshire Department of Health and Human Services (DHHS) is committed to reducing health disparities in New Hampshire. DHHS recognizes that culture and language can have a considerable impact on how individuals access and respond to health and human services. Culturally and linguistically diverse populations experience barriers in their efforts to access services. As a result, DHHS is strongly committed to providing culturally and linguistically competent programs and services for its clients, and as a means of ensuring access to quality care for all. As part of that commitment DHHS continuously strives to improve existing programs and services, and to bring them in line with current best practices.
3.3.2.2. DHHS requires all contractors and sub-recipients to provide culturally and linguistically appropriate programs and services in compliance with all applicable federal civil rights laws, which may include: Title VI of the Civil Rights Act of 1964, the Americans with Disabilities Act of 1990, the Age Discrimination Act of 1975, and the Rehabilitation Act of 1973. Collectively, these laws prohibit discrimination on the grounds of race, color, national origin, disability, age, sex, and religion.

3.3.2.3. There are numerous resources available to help recipients increase their ability to meet the needs of culturally, racially and linguistically diverse clients. Some of the main information sources are listed in the Bidder’s Reference Guide for Completing the Culturally and Linguistically Appropriate Services Section of the RFP, and, in the Vendor/RFP section of the DHHS website.

3.3.2.4. A key Title VI guidance is the National Standards for Culturally and Linguistically Appropriate Services in Health Care (CLAS Standards), developed by the U.S. Department of Health and Human Services in 2000. The CLAS Standards provide specific steps that organizations may take to make their services more culturally and linguistically appropriate. The enhanced CLAS standards, released in 2013, promote effective communication not only with persons with Limited English Proficiency, but also with persons who have other communication needs. The enhanced Standards provide a framework for organizations to best serve the nation’s increasingly diverse communities.

3.3.2.5. Applicants are expected to consider the need for language services for individuals with Limited English Proficiency as well as other communication needs, served or likely to be encountered in the eligible service population, both in developing their budgets and in conducting their programs and activities.

3.3.3. Successful Applicants will be:

3.3.3.1. Required to submit a detailed description of the language assistance services they will provide to LEP persons to ensure meaningful access to their programs and/or services, within 10 days of the date the contract is approved by Governor and Council; and

3.3.3.2. Monitored on their Federal civil rights compliance using the Federal Civil Rights Compliance Checklist, which can be found in the Vendor/RFP section of the DHHS website.

3.3.4. The guidance that accompanies Title VI of the Civil Rights Act of 1964 requires recipients to take reasonable steps to ensure meaningful access to their programs and services by persons with Limited English Proficiency (LEP persons). The extent of an organization’s obligation to provide LEP services is based on an individualized assessment involving the balancing of four factors:

3.3.4.1. The number or proportion of LEP persons served or likely to be encountered in the population that is eligible for the program or services (this includes minor children served by the program who have LEP parent(s) or guardian(s) in need of language assistance);
3.3.4.2. The frequency with which LEP individuals come in contact with the program, activity or service;

3.3.4.3. The importance or impact of the contact upon the lives of the person(s) served by the program, activity or service; and

3.3.4.4. The resources available to the organization to provide language assistance.

3.3.5. Applicants are required to complete the TWO (2) steps listed in the Appendix C to this RFA, as part of their Application. Completion of these two items is required not only because the provision of language and/or communication assistance is a longstanding requirement under the Federal civil rights laws, but also because consideration of all the required factors will help inform Applicants’ program design, which in turn, will allow Applicants to put forth the best possible Application.

3.3.6. For guidance on completing the two steps in Appendix C, please refer to Bidder’s Reference Guide for Completing the Culturally and Linguistically Appropriate Services Addendum of the RFA, which is posted on the DHHS website.

3.4. Non-Collusion

3.4.1. The Applicant’s required signature on the Transmittal Cover Letter for an Application submitted in response to this RFA guarantees that the prices, terms and conditions, and services have been established without collusion with other Applicants and without effort to preclude DHHS from obtaining the best possible Application.

3.5. Applicant Withdrawal

3.5.1. Prior to the Closing Date for receipt of Applications, an Application may be withdrawn by submitting a written request for its withdrawal to Procurement Coordinator identified in Section 2.4.2.

3.6. Public Disclosure

3.6.1. The content of each Application and addenda thereto will become public information once the Governor and Executive Council have approved a contract. In addition, in accordance with RSA 9-F:1, any contract entered into as a result of this RFA will be made accessible to the public online via the website Transparent NH (www.nh.gov/transparentnh/). Accordingly, business financial information and proprietary information such as trade secrets, business and financial models and forecasts, and proprietary formulas may be exempt from public disclosure under RSA 91-A:5, IV.
3.6.2. Insofar as an Applicant seeks to maintain the confidentiality of its confidential commercial, financial or personnel information, the Applicant must clearly identify in writing the information it claims to be confidential and explain the reasons such information should be considered confidential. This should be done by separate letter identifying by page number and Application section the specific information the Applicant claims to be exempt from public disclosure pursuant to RSA 91-A:5.

3.6.3. Each Applicant acknowledges that DHHS is subject to the Right-to-Know Law New Hampshire RSA Chapter 91-A. DHHS shall maintain the confidentiality of the identified confidential information insofar as it is consistent with applicable laws or regulations, including but not limited to New Hampshire RSA Chapter 91-A. In the event DHHS receives a request for the information identified by an Applicant as confidential, DHHS shall notify the Applicant and specify the date DHHS intends to release the requested information. Any effort to prohibit or enjoin the release of the information shall be the Applicant's responsibility and at the Applicant's sole expense. If the Applicant fails to obtain a court order enjoining the disclosure, DHHS may release the information on the date DHHS specified in its notice to the Applicant without incurring any liability to the Applicant.

3.7. Non-Commitment

3.7.1. Notwithstanding any other provision of this RFA, this RFA does not commit DHHS to award a Contract. DHHS reserves the right to reject any and all Applications or any portions thereof, at any time and to cancel this RFA and to solicit new Applications under a new Application process.

3.8. Liability

3.8.1. By submitting an Application in response to this RFA, an Applicant agrees that in no event shall the State be either responsible for or held liable for any costs incurred by an Applicant in the preparation or submittal of or otherwise in connection with an Application, or for work performed prior to the Effective Date of a resulting contract.

3.9. Request for Additional Information or Materials

3.9.1. During the period from date of Application submission to the date of Contractor selection, DHHS may request of any Applicant additional information or materials needed to clarify information presented in the Application. Key personnel shall be available for interviews.

3.10. Oral Presentations and Discussions

Contractor must complete all Services by the Completion Date specified in block 1.7.

4. CONDITIONAL NATURE OF AGREEMENT. Notwithstanding any provision of this Agreement to the contrary, all obligations of the State hereunder, including, without limitation, the continuance of payments hereunder, are contingent upon the availability and continued appropriation of funds, and in no event shall the State be liable for any payments hereunder in excess of such available appropriated funds. In the event of a reduction or termination of appropriated funds, the State shall have the right to withhold payment until such funds become available, if ever, and shall have the right to terminate this Agreement immediately upon giving the Contractor notice of such termination. The State shall not be required to transfer funds from any other account to the Account identified in block 1.6 in the event funds in that Account are reduced or unavailable.

5. CONTRACT PRICE/PRICE LIMITATION/PAYMENT. 5.1 The contract price, method of payment, and terms of payment are identified and more particularly described in EXHIBIT B which is incorporated herein by reference. 5.2 The payment by the State of the contract price shall be the only and the complete reimbursement to the Contractor for all expenses, of whatever nature incurred by the Contractor in the performance hereof, and shall be the only and the complete compensation to the Contractor for the Services. The State shall have no liability to the Contractor other than the contract price. 5.3 The State reserves the right to offset from any amounts otherwise payable to the Contractor under this Agreement those liquidated amounts required or permitted by N.H. RSA 80:7 through RSA 80:7-c or any other provision of law.

5.4 Notwithstanding any provision in this Agreement to the contrary, and notwithstanding unexpected circumstances, in no event shall the total of all payments authorized, or actually made hereunder, exceed the Price Limitation set forth in block 1.8.

7. PERSONNEL. 7.1 The Contractor shall at its own expense provide all personnel necessary to perform the Services. The Contractor warrants that all personnel engaged in the Services shall be qualified to perform the Services, and shall be properly licensed and otherwise authorized to do so under all applicable laws. 7.2 Unless otherwise authorized in writing, during the term of this Agreement, and for a period of six (6) months after the Completion Date in block 1.7, the Contractor shall not hire, and shall not permit any subcontractor or other person, firm or corporation with whom it is engaged in a combined effort to perform the Services to hire, any person who is a State employee or official, who is materially involved in the procurement, administration or performance of this Agreement. This provision shall survive termination of this Agreement. 7.3 The Contracting Officer specified in block 1.9, or his or her successor, shall be the State’s representative. In the event of any dispute concerning the interpretation of this Agreement, the Contracting Officer’s decision shall be final for the State.

Contractors Obligations: The Contractor covenants and agrees that all funds received by the Contractor under the Contract shall be used only as payment to the Contractor for services provided to eligible individuals and, in the furtherance of the aforesaid covenants, the Contractor hereby covenants and agrees as follows:

1. **Compliance with Federal and State Laws:** If the Contractor is permitted to determine the eligibility of individuals such eligibility determination shall be made in accordance with applicable federal and state laws, regulations, orders, guidelines, policies and procedures.

2. **Time and Manner of Determination:** Eligibility determinations shall be made on forms provided by the Department for that purpose and shall be made and remade at such times as are prescribed by the Department.

3. **Documentation:** In addition to the determination forms required by the Department, the Contractor shall maintain a data file on each recipient of services hereunder, which file shall include all information necessary to support an eligibility determination and such other information as the Department requests. The Contractor shall furnish the Department with all forms and documentation regarding eligibility determinations that the Department may request or require.

4. **Fair Hearings:** The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The Contractor hereby covenants and agrees that all applicants for services shall be permitted to fill out an application form and that each applicant or re-applicant shall be informed of his/her right to a fair hearing in accordance with Department regulations.

5. **Gratuities or Kickbacks:** The Contractor agrees that it is a breach of this Contract to accept or make a payment, gratuity or offer of employment on behalf of the Contractor, any Sub-Contractor or the State in order to influence the performance of the Scope of Work detailed in Exhibit A of this Contract. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.

6. **Retroactive Payments:** Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.

7. **Conditions of Purchase:** Notwithstanding anything to the contrary contained in the Contract, nothing herein contained shall be deemed to obligate or require the Department to purchase services hereunder at a rate which reimburses the Contractor in excess of the Contractors costs, at a rate which exceeds the amounts reasonable and necessary to assure the quality of such service, or at a rate which exceeds the rate charged by the Contractor to ineligible individuals or other third party funders for such service. If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party funders, the Department may elect to:
   7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;
   7.2. Deduct from any future payment to the Contractor the amount of any prior reimbursement in excess of costs;
7.3. Demand repayment of the excess payment by the Contractor in which event failure to make such repayment shall constitute an Event of Default hereunder. When the Contractor is permitted to determine the eligibility of individuals for services, the Contractor agrees to reimburse the Department for all funds paid by the Department to the Contractor for services provided to any individual who is found by the Department to be ineligible for such services at any time during the period of retention of records established herein.

8.2. Statistical Records: Statistical, enrollment, attendance or visit records for each recipient of services during the Contract Period, which records shall include all records of application and eligibility (including all forms required to determine eligibility for each such recipient), records regarding the provision of services and all invoices submitted to the Department to obtain payment for such services.

9.1. Audit and Review: During the term of this Contract and the period for retention hereunder, the Department, the United States Department of Health and Human Services, and any of their designated representatives shall have access to all reports and records maintained pursuant to the Contract for purposes of audit, examination, excerpts and transcripts.

9.2. Audit Liabilities: In addition to and not in any way in limitation of obligations of the Contract, it is understood and agreed by the Contractor that the Contractor shall be held liable for any state or federal audit exceptions and shall return to the Department, all payments made under the Contract to which exception has been taken or which have been disallowed because of such an exception.

10. Confidentiality of Records: All information, reports, and records maintained hereunder or collected in connection with the performance of the services and the Contract shall be confidential and shall not be disclosed by the Contractor, provided however, that pursuant to state laws and the regulations of the Department regarding the use and disclosure of such information, disclosure may be made to public officials requiring such information in connection with their official duties and for purposes directly connected to the administration of the services and the Contract; and provided further, that the use or disclosure by any party of any information concerning a recipient for any purpose not directly connected with the administration of the Department or the Contractor's responsibilities with respect to purchased services hereunder is prohibited except on written consent of the recipient, his attorney or guardian.
Notwithstanding anything to the contrary contained herein the covenants and conditions contained in
the Paragraph shall survive the termination of the Contract for any reason whatsoever.

11. Reports: Fiscal and Statistical: The Contractor agrees to submit the following reports at the following
times if requested by the Department.

11.1. Interim Financial Reports: Written interim financial reports containing a detailed description of
all costs and non-allowable expenses incurred by the Contractor to the date of the report and
containing such other information as shall be deemed satisfactory by the Department to
justify the rate of payment hereunder. Such Financial Reports shall be submitted on the form
designated by the Department or deemed satisfactory by the Department.

11.2. Final Report: A final report shall be submitted within thirty (30) days after the end of the term
of this Contract. The Final Report shall be in a form satisfactory to the Department and shall
contain a summary statement of progress toward goals and objectives stated in the Proposal
and other information required by the Department.

12. Completion of Services: Disallowance of Costs: Upon the purchase by the Department of the
maximum number of units provided for in the Contract and upon payment of the price limitation
hereunder, the Contract and all the obligations of the parties hereunder (except such obligations as,
by the terms of the Contract are to be performed after the end of the term of this Contract and/or
survive the termination of the Contract) shall terminate, provided however, that if, upon review of the
Final Expenditure Report the Department shall disallow any expenses claimed by the Contractor as
costs hereunder the Department shall retain the right, at its discretion, to deduct the amount of such
expenses as are disallowed or to recover such sums from the Contractor.

13. Credits: All documents, notices, press releases, research reports and other materials prepared
during or resulting from the performance of the services of the Contract shall include the following
statement:

13.1. The preparation of this (report, document etc.) was financed under a Contract with the State
of New Hampshire, Department of Health and Human Services, with funds provided in part
by the State of New Hampshire and/or such other funding sources as were available or
required, e.g., the United States Department of Health and Human Services.

14. Prior Approval and Copyright Ownership: All materials (written, video, audio) produced or
purchased under the contract shall have prior approval from DHHS before printing, production,
distribution or use. The DHHS will retain copyright ownership for any and all original materials
produced, including, but not limited to, brochures, resource directories, protocols or guidelines,
posters, or reports. Contractor shall not reproduce any materials produced under the contract without
prior written approval from DHHS.

15. Operation of Facilities: Compliance with Laws and Regulations: In the operation of any facilities
for providing services, the Contractor shall comply with all laws, orders and regulations of federal,
state, county and municipal authorities and with any direction of any Public Officer or officers
pursuant to laws which shall impose an order or duty upon the contractor with respect to the
operation of the facility or the provision of the services at such facility. If any governmental license or
permit shall be required for the operation of the said facility or the performance of the said services,
the Contractor will procure said license or permit, and will at all times comply with the terms and
conditions of each such license or permit. In connection with the foregoing requirements, the

INSTRUCTIONS FOR CERTIFICATION
1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services’ (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

Business Associate shall make available all of its internal policies and procedures, books and records relating to the use and disclosure of PHI received from, or created or received by the Business Associate on behalf of Covered Entity to the Secretary for purposes of determining Covered Entity’s compliance with HIPAA and the Privacy and Security Rule.

e. Business Associate shall require all of its business associates that receive, use or have access to PHI under the Agreement, to agree in writing to adhere to the same restrictions and conditions on the use and disclosure of PHI contained herein, including the duty to return or destroy the PHI as provided under Section 3 (l). The Covered Entity shall be considered a direct third party beneficiary of the Contractor’s business associate agreements with Contractor’s intended business associates, who will be receiving PHI.
pursuant to this Agreement, with rights of enforcement and indemnification from such business associates who shall be governed by standard Paragraph #13 of the standard contract provisions (P-37) of this Agreement for the purpose of use and disclosure of protected health information.

f. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate's compliance with the terms of the Agreement.

g. Within ten (10) business days of receiving a written request from Covered Entity, Business Associate shall provide access to PHI in a Designated Record Set to the Covered Entity, or as directed by Covered Entity, to an individual in order to meet the requirements under 45 CFR Section 164.524.

h. Within ten (10) business days of receiving a written request from Covered Entity for an amendment of PHI or a record about an individual contained in a Designated Record Set, the Business Associate shall make such PHI available to Covered Entity for amendment and incorporate any such amendment to enable Covered Entity to fulfill its obligations under 45 CFR Section 164.526.

i. Business Associate shall document such disclosures of PHI and information related to such disclosures as would be required for Covered Entity to respond to a request by an individual for an accounting of disclosures of PHI in accordance with 45 CFR Section 164.528.

j. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.

k. In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. Covered Entity shall have the responsibility of responding to forwarded requests. However, if forwarding the individual’s request to Covered Entity would cause Covered Entity or the Business Associate to violate HIPAA and the Privacy and Security Rule, the Business Associate shall instead respond to the individual’s request as required by such law and notify Covered Entity of such response as soon as practicable.

l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business
Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

(4) **Obligations of Covered Entity**

a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate’s use or disclosure of PHI.

b. Covered Entity shall promptly notify Business Associate of any changes in, or revocation of permission provided to Covered Entity by individuals whose PHI may be used or disclosed by Business Associate under this Agreement, pursuant to 45 CFR Section 164.506 or 45 CFR Section 164.508.

c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate’s use or disclosure of PHI.

(5) **Termination for Cause**

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity’s knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

(6) **Miscellaneous**

a. **Definitions and Regulatory References.** All terms used, but not otherwise defined herein, shall have the same meaning as those terms in the Privacy and Security Rule, amended from time to time. A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.

b. **Amendment.** Covered Entity and Business Associate agree to take such action as is necessary to amend the Agreement, from time to time as is necessary for Covered Entity to comply with the changes in the requirements of HIPAA, the Privacy and Security Rule, and applicable federal and state law.

c. **Data Ownership.** The Business Associate acknowledges that it has no ownership rights with respect to the PHI provided by or created on behalf of Covered Entity.

d. **Interpretation.** The parties agree that any ambiguity in the Agreement shall be resolved to permit Covered Entity to comply with HIPAA, the Privacy and Security Rule.
e. **Segregation.** If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.

f. **Survival.** Provisions in this Exhibit I regarding the use and disclosure of PHI, return or destruction of PHI, extensions of the protections of the Agreement in section (3) l, the defense and indemnification provisions of section (3) e and Paragraph 13 of the standard terms and conditions (P-37), shall survive the termination of the Agreement.

IN WITNESS WHEREOF, the parties hereto have duly executed this Exhibit I.

APPENDIX C

Addendum to CLAS Section of RFA for Purpose of Documenting Title VI Compliance

All DHHS applicants are required to complete the following two (2) steps as part of their application:

1. Perform an individualized organizational assessment, using the four-factor analysis, to determine the extent of language assistance to provide for programs, services and/or activities; and;
2. Taking into account the outcome of the four-factor analysis, respond to the questions below.

Background:

Title VI of the Civil Rights Act of 1964 and its implementing regulations provide that no person shall be subjected to discrimination on the basis of race, color, or national origin under any program that receives Federal financial assistance. The courts have held that national origin discrimination includes discrimination on the basis of limited English proficiency. Any organization or individual that receives Federal financial assistance, through either a grant, contract, or subcontract is a covered entity under Title VI. Examples of covered entities include the NH Department of Health and Human Services and its contractors.

Covered entities are required to take reasonable steps to ensure meaningful access by persons with limited English proficiency (LEP) to their programs and activities. LEP persons are those with a limited ability to speak, read, write or understand English.

The key to ensuring meaningful access by LEP persons is effective communication. An agency or provider can ensure effective communication by developing and implementing a language assistance program that includes policies and procedures for identifying and assessing the language needs of its LEP clients/applicants, and that provides for an array of language assistance options, notice to LEP persons of the right to receive language assistance free of charge, training of staff, periodic monitoring of the program, and translation of certain written materials.

The Office for Civil Rights (OCR) is the federal agency responsible for enforcing Title VI. OCR recognizes that covered entities vary in size, the number of LEP clients needing assistance, and the nature of the services provided. Accordingly, covered entities have some flexibility in how they address the needs of their LEP clients. (In other words, it is understood that one size language assistance program does not fit all covered entities.)

The starting point for covered entities to determine the extent of their obligation to provide LEP services is to apply a four-factor analysis to their organization. It is important to understand that the flexibility afforded in addressing the needs of LEP clients does not diminish the obligation covered entities have to address those needs.
Examples of practices that may violate Title VI include:

- Limiting participation in a program or activity due to a person’s limited English proficiency;
- Providing services to LEP persons that are more limited in scope or are lower in quality than those provided to other persons (such as then there is no qualified interpretation provided);
- Failing to inform LEP persons of the right to receive free interpreter services and/or requiring LEP persons to provide their own interpreter;
- Subjecting LEP persons to unreasonable delays in the delivery of services.

Applicant STEP #1 – Individualized Assessment Using Four-Factor Analysis

The four-factor analysis helps an organization determine the right mix of services to provide to their LEP clients. The right mix of services is based upon an individualized assessment, involving the balancing of the following four factors.

(1) The **number** or proportion of LEP persons served or likely to be encountered in the population that is eligible for the program;
(2) The **frequency** with which LEP individuals come in contact with the program, activity or service;
(3) The **importance** or impact of the contact upon the lives of the person(s) served by the program, activity or service;
(4) The **resources** available to the organization to provide effective language assistance.

This addendum was created to facilitate an applicant’s application of the four-factor analysis to the services they provide. At this stage, applicants are not required to submit their four-factor analysis as part of their application. **However, successful applicants will be required to submit a detailed description of the language assistance services they will provide to LEP persons to ensure meaningful access to their programs and/or services, within 10 days of the date the contract is approved by Governor and Council.** For further guidance, please see the Bidder’s Reference for Completing the Culturally and Linguistically Appropriate Services (CLAS) Section of the RFA, which is available in the Vendor/RFP Section of the DHHS website.
### Important Items to Consider When Evaluating the Four Factors.

#### Factor #1: The number or proportion of LEP persons served or encountered in the population that is eligible for the program.

**Considerations:**
- The eligible population is specific to the program, activity or service. It includes LEP persons serviced by the program, as well as those directly affected by the program, activity or service.
- Organizations are required *not only* to examine data on LEP persons served by their program, but also those in the community who are *eligible* for the program (but who are not currently served or participating in the program due to existing language barriers).
- Relevant data sources may include information collected by program staff, as well as external data, such as the latest Census Reports.
- Recipients are required to apply this analysis to each language in the service area. When considering the number or proportion of LEP individuals in a service area, recipients should consider whether the minor children their programs serve have LEP parent(s) or guardian(s) with whom the recipient may need to interact. It is also important to consider language minority populations that are eligible for the programs or services, but are not currently served or participating in the program, due to existing language barriers.
- An effective means of determining the number of LEP persons served is to record the preferred languages of people who have day-to-day contact with the program.
- It is important to remember that the *focus* of the analysis is on the *lack* of English proficiency, not the ability to speak more than one language.

#### Factor #2: The frequency with which LEP individuals come in contact with the program, activity or service.

- The more frequently a recipient entity has contact with individuals in a particular language group, the more likely that language assistance in that language is needed. For example, the steps that are reasonable for a recipient that serves an LEP person on a one-time basis will be very different from those that are expected from a recipient that serves LEP persons daily.
- Even recipients that serve people from a particular language group infrequently or on an unpredictable basis should use this four-factor analysis to determine what to do if an LEP person seeks services from their program.
- The resulting plan may be as simple as being prepared to use a telephone interpreter service.
- The key is to have a plan in place.
<table>
<thead>
<tr>
<th>Factor #3 The importance or impact of the contact upon the lives of the person(s) served by the program, activity or service.</th>
</tr>
</thead>
<tbody>
<tr>
<td>- The more important a recipient’s activity, program or service, or the greater the possible consequence of the contact to the LEP persons, the more likely language services are needed.</td>
</tr>
<tr>
<td>- When considering this factor, the recipient should determine both the importance, as well as the urgency of the service. For example, if the communication is both important and urgent (such as the need to communicate information about an emergency medical procedure), it is more likely that immediate language services are required. If the information to be communicated is important but not urgent (such as the need to communicate information about elective surgery, where delay will not have any adverse impact on the patient’s health), it is likely that language services are required, but that such services can be delayed for a reasonable length of time.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Factor #4 The resources available to the organization to provide effective language assistance.</th>
</tr>
</thead>
<tbody>
<tr>
<td>- A recipient’s level of resources and the costs of providing language assistance services is another factor to consider in the analysis.</td>
</tr>
<tr>
<td>- Remember, however, that cost is merely one factor in the analysis. Level of resources and costs do not diminish the requirement to address the need, however they may be considered in determining how the need is addressed;</td>
</tr>
<tr>
<td>- Resources and cost issues can often be reduced, for example, by sharing language assistance materials and services among recipients. Therefore, recipients should carefully explore the most cost-effective means of delivering quality language services prior to limiting services due to resource limitations.</td>
</tr>
</tbody>
</table>
**Applicant STEP #2 - Required Questions Relating to Language Assistance Measures**

Taking into account the four-factor analysis, please answer the following questions in the six areas of the table below. (Do not attempt to answer the questions until you have completed the four-factor analysis.) The Department understands that your responses will depend on the outcome of the four-factor analysis. The requirement to provide language assistance does not vary, but the measures taken to provide the assistance will necessarily differ from organization to organization.

In general, covered entities are required to provide two types of language assistance: (1) oral interpretation and (2) translation of written materials. Oral interpretation may be carried out by contracted in-person or remote interpreters, and/or bi-lingual staff. (Note: Depending on the outcome of the four-factor analysis, N/A (Not applicable) may be an acceptable response to this question.)

APPENDIX C for RFA
7/2014 rev. 10/2014
APPENDIX D

Personal Responsibility Education Program (PREP) Background

Rationale: Helping teens prevent unintended pregnancy, including subsequent pregnancies among those who have already become parents, provides teens a healthy foundation for adult life. Through strategies like evidence-based pregnancy prevention curricula, abstinence education, access to confidential reproductive health care and home visitation for pregnant and parenting teens, supports are available to help adolescents and young adults make healthy decisions around their sexual health. The challenge, however, remains in reaching even deeper into the communities where there are significant disparities: where the cycle of poverty and low educational attainment puts adolescents at heightened risk for teen pregnancy and teen birth. Strategies must also build on the assets within families, communities, peer groups and teens themselves. Attachments to family, school, or other institutions, are strongly implicated in teen pregnancy prevention because they provide structure, foster positive connections to adults, and protect teens from engaging in risky behaviors.

Teenage pregnancy and parenthood places an added burden on families and the community as it increases the odds that the children of teen mothers may have lower cognitive attainment and proficiency scores at kindergarten entry; exhibit behavior problems; have chronic medical conditions; rely more heavily on publicly funded health care services; be incarcerated at some time during adolescence until their early 30s; drop out of high school; give birth as a teenager; and be unemployed, or underemployed as a young adult. Adolescent or teen pregnancy increases the risk of serious health consequences to young women and their infants. Pregnant teens have higher rates of pregnancy complications including hypertension, pre-term birth, infection with sexually transmitted diseases, and inadequate weight gain. A result of these health consequences is a high economic burden, as half of all New Hampshire’s adolescent mothers rely on Medicaid for payment of prenatal care, delivery or both (Guttmacher, 2015).

Prevention of a second teen birth is equally important. Factors associated with repeat births typically include minority race and/or ethnicity; however New Hampshire’s low proportion of minority groups may account for the low rates of teen births and repeat teen births. In Manchester (2015 preliminary data, Vital Records), 17% of teen births were a second birth. In Sullivan County, second teen births reached almost 13%. In both Sullivan County and Manchester, 93% of all teen mothers are unwed (NH Vital Stats.).

Risky Adolescent behavior: The most recent Youth Risk Behavior Survey (YRBS 2015) provides a snapshot of current sexual health behaviors among high school students in New Hampshire with significantly higher teenage birth rates within the city of Manchester and in Sullivan County.

City of Manchester. Sixty percent (60%) of high school students in 12th Grade are sexually active, yet only 36% of all students report using a condom at last intercourse (23% of those 12th grade students used a condom). Only 11.4% of all high school students combined rely on oral contraceptive pills to prevent pregnancy, but 24.5% of 12th graders do use contraceptive pills. Less than 2% of high school students use a long-acting contraceptive method. Fifteen percent (15%) of sexually active students used both a method of contraception and a condom to prevent STI infection. However, almost 13% of sexually active students reported using alcohol and/or drugs before the last sexual intercourse. One quarter of high school (HS) students report having come to school high on marijuana. Use of alcohol is on the rise, with a full 25% of students reporting they binge drink at least 1-5 days per month.

Sullivan County. YRBS 2015 results vary slightly from Manchester. Among HS 12th graders, 74% are sexually active, with 39% of them using a condom at last intercourse (more sexually active and more condom use than Manchester). Among girls in 12th grade, 35% use oral contraception, higher than the 24% using this form of contraception in Manchester.
Contraceptive Use in NH: The NH Title X Family Planning Program (FPP) offers free (or at reduced cost) and confidential reproductive health care for women and men of all ages, including teens. A recent Needs Assessment conducted by the NH Family Planning Program in November 2015 showed that most women and men in New Hampshire are aware of how to find and utilize contraception to limit or time pregnancy. Overall, 86% of FPP clients of all ages use some form of contraception, with only 13% not using any method (NH FPAR 2015). NH Family Planning offers the full range of FDA-approved contraceptive methods, including Long-Acting Reversible Contraception (LARC). Historically, use of oral contraceptives has been the most common method used, along with condoms, particularly among teens. While evidence on LARC methods has shown these highly effective contraceptives are popular among women of all ages, including teens, improvements in increasing access to and reducing the initial cost of the device is a priority.

In Manchester, there are several FP providers, including the State FPP as well as Planned Parenthood of Northern New England. Sullivan County has a Planned Parenthood clinic as well, centrally located in the largest town, Claremont. Services provided through these and other clinics include: physical exams, breast and cervical cancer screening, contraception, STI testing and treatment, and other services, on a sliding fee scale, and offered with full confidentiality, and without barriers, to adolescents. Between 2010 and 2014 in Manchester, the proportion of births that were paid for by Medicaid varied between 37% and 41% (NH Vital Records).
Local Community Data – Implementation Sites

**Manchester:** The city of Manchester, located in Hillsborough County, with a 2014 population of 110,448 residents, is the most populated city in all three Northern New England states (Maine, Vermont, and New Hampshire). Of this population, 22% are under age 18. Manchester has a geographic area of 33 square miles, and has the highest population density in the state at 3,330 persons per square mile. The average per capita income is $28,000, with 14.3% of the overall population living below the poverty line (ACS, 2014). The city has a variety of alarming risk factors such as the highest teen birth rate in the state at 30 births per 1,000 (NH Vital Stats, 2/2015). The 2014 American Community Survey (ACS) reveals that 22% of children under age 18 in Manchester lived in families whose income was below 100% of the poverty level; overall 14.3% of the Manchester general population lives in poverty. Unemployment in Manchester is steadily increasing, and remains above the state average of 4.3%, at 5.6% contributing to the proportion of the population living in poverty. The city is also the most racially diverse in the state. Between 2000 and 2015 diversity increased in the area because minority populations grew, while the non-Hispanic White population declined. Immigration is also contributing to the increasing diversity of the region, with over 60 languages spoken in the school system, with 13.2% of the population being a foreign-born person. Mothers in Manchester are both more likely to be unmarried (42%) and less likely to have graduated from high school (86%). Among all births last year, 5.8% were to teen mothers. Among teen mothers in Manchester, last year 17% were having their second child. Further, among all births of all ages, 44.4% were to unwed mothers. Among new teen mothers, 93% are not married (Vital Stats. 2015 preliminary data).
**Sullivan County** (which includes the City of Claremont) is located on the western side of the state, bordering Vermont, with a 36-mile stretch of the Connecticut River and has a population of 43,103 residents (ACS 2014). Sullivan County includes one city, Claremont, and 14 towns, yet has only 40% of the population of Manchester. Sullivan County has a geographic area of 537 square miles. The population density in this area is 80 persons per square mile, one of the most rural areas of the state. Last year, among all births, 6.1% were to teen mothers. And among all births of all women, 42% were unwed mothers. In 2015, 12.5% of teen mothers had a second child. The county has also been identified as having multiple indicators of risk, such as one of the highest teen birth rates in the state at 20.5 births per 1,000 (NH, Vital Stats 2015), as well as 10.4% of the residents live below the Federal Poverty Level (FPL), which is much higher than the statewide rate of 8.7%.
