FOR

Family Planning Services

June 16, 2017
REQUEST FOR APPLICATIONS

1. Request for Services

1.1. Overview

The New Hampshire Department of Health and Human Services (“DHHS” or “Department”), Division of Public Health Services (DPHS), Bureau of Population Health and Community Services (BPHCS), Family Planning Program (FPP), is accepting applications from vendors to provide family planning clinical services and health education to low income and uninsured individuals. It is the intent of the Department to distribute family planning funds equitably to all eligible family planning providers in all regions of the state by utilizing a needs-based distribution formula based upon the criteria identified in Section 1.6.4. of this RFA. The Department intends to fund programs that: (1) will offer the full range of contraceptive methods; (2) will reach women at non-traditional hours (evenings and weekends); and (3) are culturally and linguistically able to reach minority and other underserved populations.

1.2. Purpose

The purpose of the family planning services are to reduce the health and economic disparities associated with lack of access to quality family planning services in both urban and rural areas of the state.

Women with lower levels of education and income, uninsured women, women of color, and other minority women are less likely to have access to quality family planning services than their more highly educated and financially stable counterparts. Young men are less likely to have access to and receive family planning services than women. Priority in allocating funds under this RFA will be given to vendors who submit applications that will provide services in the urban and/or rural areas of need to both promote women’s and men’s healthcare and to reduce economic disparities and financial instability that results from unintended pregnancy.

1.3. Background

The New Hampshire Department of Health and Human Services’ Family Planning Program is dedicated to assisting low income and uninsured individuals in determining the number and spacing of their children. This promotes positive birth outcomes and healthy families. The FPP, through community-based agreements, is designed to provide a set of reproductive health services including: services for contraception, pregnancy testing and counseling, achieving pregnancy, basic infertility services, preconception health and prevention testing, and treatment of sexually transmitted diseases (STD) for women and men of reproductive age. The education, counseling, and medical services available in the FPP clinic settings assist women and men in achieving their reproductive health and birth goals. Funds under this RFA may not be used for abortion services.

1. The amount of funds available;
2. The number of qualified Applicants;
3. Ensuring geographic access to services statewide;

4.2.3. Applicants shall be presumed to be in agreement with the terms and conditions of the RFA and the sample contract in Appendix B, unless Applicant takes specific exception to one or more conditions through specifying these on Appendix A. For instructions see Appendix A. The Department is not required to accept any exceptions identified by an Applicant and the Department may reject any exception at its sole discretion.
### 4.3. Compliance

4.3.1. Applicants must be in compliance with applicable federal and state laws, rules and regulations, and applicable policies and procedures adopted by the Department of Health and Human Services currently in effect, and as they may be adopted or amended during the contract period.

4.3.2. **Culturally and Linguistically Appropriate Standards**

4.3.2.1. DHHS is committed to reducing health disparities in New Hampshire. DHHS recognizes that culture and language can have a considerable impact on how individuals access and respond to health and human services. Culturally and linguistically diverse populations experience barriers in their efforts to access services. As a result, DHHS is strongly committed to providing culturally and linguistically competent programs and services for its clients, and as a means of ensuring access to quality care for all. As part of that commitment DHHS continuously strives to improve existing programs and services, and to bring them in line with current best practices.

4.3.2.2. DHHS requires all contractors and sub-recipients to provide culturally and linguistically appropriate programs and services in compliance with all applicable federal civil rights laws, which may include: Title VI of the Civil Rights Act of 1964, the Americans with Disabilities Act of 1990, the Age Discrimination Act of 1975, and the Rehabilitation Act of 1973. Collectively, these laws prohibit discrimination on the grounds of race, color, national origin, disability, age, sex, and religion.

4.3.2.3. There are numerous resources available to help recipients increase their ability to meet the needs of culturally, racially and linguistically diverse clients. Some of the main information sources are listed in the Bidder’s Reference Guide for Completing the Culturally and Linguistically Appropriate Services Section of the RFP, and, in the Vendor/RFP section of the DHHS website.

4.3.2.4. A key Title VI guidance is the National Standards for Culturally and Linguistically Appropriate Services in Health Care (CLAS Standards), developed by the U.S. Department of Health and Human Services in 2000. The CLAS Standards provide specific steps that organizations may take to make their services more culturally and linguistically appropriate. The enhanced CLAS standards, released in 2013, promote effective communication not only with persons with Limited English Proficiency, but also with persons who have other communication needs. The enhanced Standards provide a framework for organizations to best serve the nation’s increasingly diverse communities.

4.3.2.5. Applicants are expected to consider the need for language services for individuals with Limited English Proficiency as well as other communication needs, served or likely to be encountered in the eligible service population, both in developing their budgets and in conducting their programs and activities.
4.3.3. Successful Applicants will be:

4.3.3.1. Required to submit a detailed description of the language assistance services they will provide to LEP persons to ensure meaningful access to their programs and/or services, within 10 days of the date the contract is approved by Governor and Council; and

4.3.3.2. Monitored on their Federal civil rights compliance using the Federal Civil Rights Compliance Checklist, which can be found in the Vendor/RFP section of the DHHS website.

4.3.4. The guidance that accompanies Title VI of the Civil Rights Act of 1964 requires recipients to take reasonable steps to ensure meaningful access to their programs and services by persons with Limited English Proficiency (LEP persons). The extent of an organization’s obligation to provide LEP services is based on an individualized assessment involving the balancing of four factors:

4.3.4.1. The number or proportion of LEP persons served or likely to be encountered in the population that is eligible for the program or services (this includes minor children served by the program who have LEP parent(s) or guardian(s) in need of language assistance);

4.3.4.2. The frequency with which LEP individuals come in contact with the program, activity or service;

4.3.4.3. The importance or impact of the contact upon the lives of the person(s) served by the program, activity or service; and

4.3.4.4. The resources available to the organization to provide language assistance.

4.3.5. Applicants are required to complete the TWO (2) steps listed in the Appendix C to this RFA, as part of their Application. Completion of these two items is required not only because the provision of language and/or communication assistance is a longstanding requirement under the Federal civil rights laws, but also because consideration of all the required factors will help inform Applicants’ program design, which in turn, will allow Applicants to put forth the best possible Application.

4.3.6. For guidance on completing the two steps in Appendix C, please refer to Bidder’s Reference Guide for Completing the Culturally and Linguistically Appropriate Services Addendum of the RFA, which is posted on the DHHS website. [http://www.dhhs.nh.gov/business/forms.htm](http://www.dhhs.nh.gov/business/forms.htm).

4.4. Non-Collusion

4.4.1. The Applicant’s required signature on the Transmittal Cover Letter for an Application submitted in response to this RFA guarantees that the prices, terms and conditions, and services have been established without collusion with other Applicants and without effort to preclude DHHS from obtaining the best possible Application.

4.5. Applicant Withdrawal

4.5.1. Prior to the Closing Date for receipt of Applications, an Application may be withdrawn by submitting a written request for its withdrawal to Procurement Coordinator identified in Section 5.4.1.
4.6. Public Disclosure

4.6.1. The content of a bidder’s Application must remain confidential until the Governor and Executive Council have approved a contract as a result of this RFA. A Bidder’s disclosure or distribution of the contents of its Application, other than to the State, will be grounds for disqualification at the State’s sole discretion.

4.6.2. The content of each Application and addenda thereto will become public information once the Governor and Executive Council have approved a contract. Any information submitted as part of an Application in response to this RFA may be subject to public disclosure under RSA 91-A. In addition, in accordance with RSA 9-F:1, any contract entered into as a result of this RFA will be made accessible to the public online via the website Transparent NH (www.nh.gov/transparentnh/). Accordingly, business financial information and proprietary information such as trade secrets, business and financial models and forecasts, and proprietary formulas may be exempt from public disclosure under RSA 91-A:5, IV.

4.6.3. Insofar as an Applicant seeks to maintain the confidentiality of its confidential commercial, financial or personnel information, the Applicant must clearly identify in writing the information it claims to be confidential and explain the reasons such information should be considered confidential. This should be done by separate letter identifying by page number and Application section the specific information the Applicant claims to be exempt from public disclosure pursuant to RSA 91-A:5.

4.6.4. Each Applicant acknowledges that DHHS is subject to the Right-to-Know Law New Hampshire RSA Chapter 91-A. DHHS shall maintain the confidentiality of the identified confidential information insofar as it is consistent with applicable laws or regulations, including but not limited to New Hampshire RSA Chapter 91-A. In the event DHHS receives a request for the information identified by an Applicant as confidential, DHHS shall notify the Applicant and specify the date DHHS intends to release the requested information. Any effort to prohibit or enjoin the release of the information shall be the Applicant's responsibility and at the Applicant's sole expense. If the Applicant fails to obtain a court order, from a court of competent jurisdiction enjoining the disclosure, DHHS may release the information on the date DHHS specified in its notice to the Applicant without incurring any liability to the Applicant.

4.7. Non-Commitment

4.7.1. Notwithstanding any other provision of this RFA, this RFA does not commit DHHS to award a Contract. DHHS reserves the right to reject any and all Applications or any portions thereof, at any time and to cancel this RFA and to solicit new Applications under a new Application process.

4.8. Liability

4.8.1. By submitting an Application in response to this RFA, an Applicant agrees that in no event shall the State be either responsible for or held liable for any costs incurred by an Applicant in the preparation or submittal of or otherwise in connection with an Application, or for work performed prior to the Effective Date of a resulting contract.
4.9. Request for Additional Information or Materials

4.9.1. During the period from date of Application submission to the date of contractor selection, DHHS may request of any Applicant additional information or materials needed to clarify information presented in the Application. Key personnel shall be available for interviews.

4.10. Oral Presentations and Discussions

4.10.1. DHHS reserves the right to require some or all Applicants to make oral presentations of their Application. Any and all costs associated with an oral presentation shall be borne entirely by the Applicant.

4.11. Contract Negotiations and Unsuccessful Applicant Notice

4.11.1. If an Applicant(s) is selected, the State will notify the successful Applicant(s) in writing of their selection and the State’s desire to enter into contract negotiations. Until the State successfully completes negotiations with the selected Applicant(s), all submitted Applications remain eligible for selection by the State. In the event contract negotiations are unsuccessful with the selected Applicant(s), the evaluation team may recommend another Applicant(s).

4.11.2. In order to protect the integrity of the bidding process, notwithstanding RSA 91-A:4, no information shall be available to the public, or to the members of the general court or its staff, concerning specific responses to requests for bids (RFBs), requests for proposals (RFPs), requests for Applications (RFAs), or similar requests for submission for the purpose of procuring goods or services or awarding contracts from the time the request is made public until the closing date for responses except that information specifically allowed by RSA 21-G:37.

4.12. Scope of Award and Contract Award Notice

4.12.1. DHHS reserves the right to award a service, part of a service, group of services, or total services and to reject any and all Applications in whole or in part. A contract award is contingent on approval by the Governor and Executive Council.

4.12.2. If a contract is awarded, the Applicant must obtain written consent from the State before any public announcement or news release is issued pertaining to any contract award.

4.13. Site Visits

4.13.1. The Department may, at its sole discretion, at any time prior to contract award, conduct a site visit at the bidder’s location or at any other location deemed appropriate by the Department, in order to determine the bidder’s capacity to satisfy the terms of this RFP/RFB/RFA. The Department may also require the bidder to produce additional documents, records, or materials relevant to determining the bidder’s capacity to satisfy the terms of this RFP/RFB/RFA. Any and all costs associated with any site visit or requests for documents shall be borne entirely by the bidder.
4.14. Protest of Intended Award

The procedure set forth in RSA 21-G:37, IV, shall be the sole remedy available to challenge any award resulting from this RFA. In the event that any legal action is brought challenging this RFA and selection process, outside of the review process identified in RSA 21-G:37, IV, and in the event that the State of New Hampshire prevails, the challenger agrees to pay all expenses of such action, including, but not limited to, attorney's fees and costs at all stages of litigation.

SPECIAL PROVISIONS

Contractors Obligations: The Contractor covenants and agrees that all funds received by the Contractor under the Contract shall be used only as payment to the Contractor for services provided to eligible individuals and, in the furtherance of the aforesaid covenants, the Contractor hereby covenants and agrees as follows:

1. Compliance with Federal and State Laws: If the Contractor is permitted to determine the eligibility of individuals such eligibility determination shall be made in accordance with applicable federal and state laws, regulations, orders, guidelines, policies and procedures.

2. Time and Manner of Determination: Eligibility determinations shall be made on forms provided by the Department for that purpose and shall be made and remade at such times as are prescribed by the Department.

3. Documentation: In addition to the determination forms required by the Department, the Contractor shall maintain a data file on each recipient of services hereunder, which file shall include all information necessary to support an eligibility determination and such other information as the Department requests. The Contractor shall furnish the Department with all forms and documentation regarding eligibility determinations that the Department may request or require.

4. Fair Hearings: The Contractor understands that all applicants for services hereunder, as well as individuals declared ineligible have a right to a fair hearing regarding that determination. The Contractor hereby covenants and agrees that all applicants for services shall be permitted to fill out an application form and that each applicant or re-applicant shall be informed of his/her right to a fair hearing in accordance with Department regulations.

5. Gratuities or Kickbacks: The Contractor agrees that it is a breach of this Contract to accept or make a payment, gratuity or offer of employment on behalf of the Contractor, any Sub-Contractor or the State in order to influence the performance of the Scope of Work detailed in Exhibit A of this Contract. The State may terminate this Contract and any sub-contract or sub-agreement if it is determined that payments, gratuities or offers of employment of any kind were offered or received by any officials, officers, employees or agents of the Contractor or Sub-Contractor.

6. Retroactive Payments: Notwithstanding anything to the contrary contained in the Contract or in any other document, contract or understanding, it is expressly understood and agreed by the parties hereto, that no payments will be made hereunder to reimburse the Contractor for costs incurred for any purpose or for any services provided to any individual prior to the Effective Date of the Contract and no payments shall be made for expenses incurred by the Contractor for any services provided prior to the date on which the individual applies for services or (except as otherwise provided by the federal regulations) prior to a determination that the individual is eligible for such services.

7. Conditions of Purchase: Notwithstanding anything to the contrary contained in the Contract, nothing herein contained shall be deemed to obligate or require the Department to purchase services hereunder at a rate which reimburses the Contractor in excess of the Contractors costs, at a rate which exceeds the amounts reasonable and necessary to assure the quality of such service, or at a rate which exceeds the rate charged by the Contractor to ineligible individuals or other third party funders for such service. If at any time during the term of this Contract or after receipt of the Final Expenditure Report hereunder, the Department shall determine that the Contractor has used payments hereunder to reimburse items of expense other than such costs, or has received payment in excess of such costs or in excess of such rates charged by the Contractor to ineligible individuals or other third party funders, the Department may elect to:
   7.1. Renegotiate the rates for payment hereunder, in which event new rates shall be established;
   7.2. Deduct from any future payment to the Contractor the amount of any prior reimbursement in excess of costs;
7.3. Demand repayment of the excess payment by the Contractor in which event failure to make such repayment shall constitute an Event of Default hereunder. When the Contractor is permitted to determine the eligibility of individuals for services, the Contractor agrees to reimburse the Department for all funds paid by the Department to the Contractor for services provided to any individual who is found by the Department to be ineligible for such services at any time during the period of retention of records established herein.

9.1. **Audit and Review:** During the term of this Contract and the period for retention hereunder, the Department, the United States Department of Health and Human Services, and any of their designated representatives shall have access to all reports and records maintained pursuant to the Contract for purposes of audit, examination, excerpts and transcripts.

11. **Reports**: Fiscal and Statistical: The Contractor agrees to submit the following reports at the following times if requested by the Department.
   11.1. **Interim Financial Reports**: Written interim financial reports containing a detailed description of all costs and non-allowable expenses incurred by the Contractor to the date of the report and containing such other information as shall be deemed satisfactory by the Department to justify the rate of payment hereunder. Such Financial Reports shall be submitted on the form designated by the Department or deemed satisfactory by the Department.
   11.2. **Final Report**: A final report shall be submitted within thirty (30) days after the end of the term of this Contract. The Final Report shall be in a form satisfactory to the Department and shall contain a summary statement of progress toward goals and objectives stated in the Proposal and other information required by the Department.

12. **Completion of Services**: Disallowance of Costs: Upon the purchase by the Department of the maximum number of units provided for in the Contract and upon payment of the price limitation hereunder, the Contract and all the obligations of the parties hereunder (except such obligations as, by the terms of the Contract are to be performed after the end of the term of this Contract and/or survive the termination of the Contract) shall terminate, provided however, that if, upon review of the Final Expenditure Report the Department shall disallow any expenses claimed by the Contractor as costs hereunder the Department shall retain the right, at its discretion, to deduct the amount of such expenses as are disallowed or to recover such sums from the Contractor.

The Business Associate shall notify the Covered Entity’s Privacy Officer immediately after the Business Associate becomes aware of any use or disclosure of protected health information not provided for by the Agreement including breaches of unsecured protected health information and/or any security incident that may have an impact on the protected health information of the Covered Entity.

b. The Business Associate shall immediately perform a risk assessment when it becomes aware of any of the above situations. The risk assessment shall include, but not be limited to:

   o The nature and extent of the protected health information involved, including the types of identifiers and the likelihood of re-identification;
   o The unauthorized person used the protected health information or to whom the disclosure was made;
   o Whether the protected health information was actually acquired or viewed
   o The extent to which the risk to the protected health information has been mitigated.

The Business Associate shall complete the risk assessment within 48 hours of the breach and immediately report the findings of the risk assessment in writing to the Covered Entity.

c. The Business Associate shall comply with all sections of the Privacy, Security, and Breach Notification Rule.

d. Business Associate shall make available all of its internal policies and procedures, books and records relating to the use and disclosure of PHI received from, or created or received by the Business Associate on behalf of Covered Entity to the Secretary for purposes of determining Covered Entity’s compliance with HIPAA and the Privacy and Security Rule.

e. Business Associate shall require all of its business associates that receive, use or have access to PHI under the Agreement, to agree in writing to adhere to the same restrictions and conditions on the use and disclosure of PHI contained herein, including the duty to return or destroy the PHI as provided under Section 3 (l). The Covered Entity shall be considered a direct third party beneficiary of the Contractor’s business associate agreements with Contractor’s intended business associates, who will be receiving PHI
pursuant to this Agreement, with rights of enforcement and indemnification from such business associates who shall be governed by standard Paragraph #13 of the standard contract provisions (P-37) of this Agreement for the purpose of use and disclosure of protected health information.

f. Within five (5) business days of receipt of a written request from Covered Entity, Business Associate shall make available during normal business hours at its offices all records, books, agreements, policies and procedures relating to the use and disclosure of PHI to the Covered Entity, for purposes of enabling Covered Entity to determine Business Associate’s compliance with the terms of the Agreement.

g. Within ten (10) business days of receiving a written request from Covered Entity, Business Associate shall provide access to PHI in a Designated Record Set to the Covered Entity, or as directed by Covered Entity, to an individual in order to meet the requirements under 45 CFR Section 164.524.

h. Within ten (10) business days of receiving a written request from Covered Entity for an amendment of PHI or a record about an individual contained in a Designated Record Set, the Business Associate shall make such PHI available to Covered Entity for amendment and incorporate any such amendment to enable Covered Entity to fulfill its obligations under 45 CFR Section 164.526.

i. Business Associate shall document such disclosures of PHI and information related to such disclosures as would be required for Covered Entity to respond to a request by an individual for an accounting of disclosures of PHI in accordance with 45 CFR Section 164.528.

j. Within ten (10) business days of receiving a written request from Covered Entity for a request for an accounting of disclosures of PHI, Business Associate shall make available to Covered Entity such information as Covered Entity may require to fulfill its obligations to provide an accounting of disclosures with respect to PHI in accordance with 45 CFR Section 164.528.

k. In the event any individual requests access to, amendment of, or accounting of PHI directly from the Business Associate, the Business Associate shall within two (2) business days forward such request to Covered Entity. Covered Entity shall have the responsibility of responding to forwarded requests. However, if forwarding the individual’s request to Covered Entity would cause Covered Entity or the Business Associate to violate HIPAA and the Privacy and Security Rule, the Business Associate shall instead respond to the individual’s request as required by such law and notify Covered Entity of such response as soon as practicable.

l. Within ten (10) business days of termination of the Agreement, for any reason, the Business Associate shall return or destroy, as specified by Covered Entity, all PHI received from, or created or received by the Business Associate in connection with the Agreement, and shall not retain any copies or back-up tapes of such PHI. If return or destruction is not feasible, or the disposition of the PHI has been otherwise agreed to in the Agreement, Business Associate shall continue to extend the protections of the Agreement, to such PHI and limit further uses and disclosures of such PHI to those purposes that make the return or destruction infeasible, for so long as Business
Associate maintains such PHI. If Covered Entity, in its sole discretion, requires that the Business Associate destroy any or all PHI, the Business Associate shall certify to Covered Entity that the PHI has been destroyed.

(4) **Obligations of Covered Entity**

a. Covered Entity shall notify Business Associate of any changes or limitation(s) in its Notice of Privacy Practices provided to individuals in accordance with 45 CFR Section 164.520, to the extent that such change or limitation may affect Business Associate’s use or disclosure of PHI.

b. Covered Entity shall promptly notify Business Associate of any changes in, or revocation of permission provided to Covered Entity by individuals whose PHI may be used or disclosed by Business Associate under this Agreement, pursuant to 45 CFR Section 164.506 or 45 CFR Section 164.508.

c. Covered entity shall promptly notify Business Associate of any restrictions on the use or disclosure of PHI that Covered Entity has agreed to in accordance with 45 CFR 164.522, to the extent that such restriction may affect Business Associate’s use or disclosure of PHI.

(5) **Termination for Cause**

In addition to Paragraph 10 of the standard terms and conditions (P-37) of this Agreement the Covered Entity may immediately terminate the Agreement upon Covered Entity’s knowledge of a breach by Business Associate of the Business Associate Agreement set forth herein as Exhibit I. The Covered Entity may either immediately terminate the Agreement or provide an opportunity for Business Associate to cure the alleged breach within a timeframe specified by Covered Entity. If Covered Entity determines that neither termination nor cure is feasible, Covered Entity shall report the violation to the Secretary.

(6) **Miscellaneous**

a. **Definitions and Regulatory References.** All terms used, but not otherwise defined herein, shall have the same meaning as those terms in the Privacy and Security Rule, amended from time to time. A reference in the Agreement, as amended to include this Exhibit I, to a Section in the Privacy and Security Rule means the Section as in effect or as amended.

b. **Amendment.** Covered Entity and Business Associate agree to take such action as is necessary to amend the Agreement, from time to time as is necessary for Covered Entity to comply with the changes in the requirements of HIPAA, the Privacy and Security Rule, and applicable federal and state law.

c. **Data Ownership.** The Business Associate acknowledges that it has no ownership rights with respect to the PHI provided by or created on behalf of Covered Entity.

d. **Interpretation.** The parties agree that any ambiguity in the Agreement shall be resolved to permit Covered Entity to comply with HIPAA, the Privacy and Security Rule.
e. Segregation. If any term or condition of this Exhibit I or the application thereof to any person(s) or circumstance is held invalid, such invalidity shall not affect other terms or conditions which can be given effect without the invalid term or condition; to this end the terms and conditions of this Exhibit I are declared severable.

f. Survival. Provisions in this Exhibit I regarding the use and disclosure of PHI, return or destruction of PHI, extensions of the protections of the Agreement in section (3) l, the defense and indemnification provisions of section (3) e and Paragraph 13 of the standard terms and conditions (P-37), shall survive the termination of the Agreement.

IN WITNESS WHEREOF, the parties hereto have duly executed this Exhibit I.

DHHS INFORMATION SECURITY REQUIREMENTS

1. Confidential Information: In addition to Paragraph #9 of the General Provisions (P-37) for the purpose of this Contract, the Department’s Confidential information includes any and all information owned or managed by the State of NH - created, received from or on behalf of the Department of Health and Human Services (DHHS) or accessed in the course of performing contracted services - of which collection, disclosure, protection, and disposition is governed by state or federal law or regulation. This information includes, but is not limited to Personal Health Information (PHI), Personally Identifiable Information (PII), Federal Tax Information (FTI), Social Security Numbers (SSN), Payment Card Industry (PCI), and other sensitive and confidential information.

2. The vendor will maintain proper security controls to protect Department confidential information collected, processed, managed, and/or stored in the delivery of contracted services. Minimum expectations include:

   2.1. Maintain policies and procedures to protect Department confidential information throughout the information lifecycle, where applicable, (from creation, transformation, use, storage and secure destruction) regardless of the media used to store the data (i.e., tape, disk, paper, etc.).

   2.2. Maintain appropriate authentication and access controls to contractor systems that collect, transmit, or store Department confidential information where applicable.

   2.3. Encrypt, at a minimum, any Department confidential data stored on portable media, e.g., laptops, USB drives, as well as when transmitted over public networks like the Internet using current industry standards and best practices for strong encryption.

   2.4. Ensure proper security monitoring capabilities are in place to detect potential security events that can impact State of NH systems and/or Department confidential information for contractor provided systems.

   2.5. Provide security awareness and education for its employees, contractors and sub-contractors in support of protecting Department confidential information.

   2.6. Maintain a documented breach notification and incident response process. The vendor will contact the Department within twenty-four 24 hours to the Department’s contract manager, and additional email addresses provided in this section, of a confidential information breach, computer security incident, or suspected breach which affects or includes any State of New Hampshire systems that connect to the State of New Hampshire network.

   2.6.1. “Breach” shall have the same meaning as the term “Breach” in section 164.402 of Title 45, Code of Federal Regulations. “Computer Security Incident” shall have the same meaning “Computer Security Incident” in section two (2) of NIST Publication 800-61, Computer Security Incident Handling Guide, National Institute of Standards and Technology, U.S. Department of Commerce. Breach notifications will be sent to the following email addresses:

      2.6.1.1. DHHSChiefInformationOfficer@dhhs.nh.gov

      2.6.1.2. DHHSInformationSecurityOffice@dhhs.nh.gov

   2.7. If the vendor will maintain any Confidential Information on its systems (or its sub-contractor systems), the vendor will maintain a documented process for securely disposing of such data upon request or contract termination; and will obtain written certification for any State of New Hampshire data destroyed by the vendor or any subcontractors as a part of ongoing, emergency, and or disaster recovery operations. When no longer in use, electronic media containing State of New Hampshire data shall be rendered
unrecoverable via a secure wipe program in accordance with industry-accepted standards for secure deletion, or otherwise physically destroying the media (for example, degaussing). The vendor will document and certify in writing at time of the data destruction, and will provide written certification to the Department upon request. The written certification will include all details necessary to demonstrate data has been properly destroyed and validated. Where applicable, regulatory and professional standards for retention requirements will be jointly evaluated by the State and vendor prior to destruction.

2.8. If the vendor will be sub-contracting any core functions of the engagement supporting the services for State of New Hampshire, the vendor will maintain a program of an internal process or processes that defines specific security expectations, and monitoring compliance to security requirements that at a minimum match those for the vendor, including breach notification requirements.

3. The vendor will work with the Department to sign and comply with all applicable State of New Hampshire and Department system access and authorization policies and procedures, systems access forms, and computer use agreements as part of obtaining and maintaining access to any Department system(s). Agreements will be completed and signed by the vendor and any applicable sub-contractors prior to system access being authorized.

4. If the Department determines the vendor is a Business Associate pursuant to 45 CFR 160.103, the vendor will work with the Department to sign and execute a HIPAA Business Associate Agreement (BAA) with the Department and is responsible for maintaining compliance with the agreement.

5. The vendor will work with the Department at its request to complete a survey. The purpose of the survey is to enable the Department and vendor to monitor for any changes in risks, threats, and vulnerabilities that may occur over the life of the vendor engagement. The survey will be completed annually, or an alternate time frame at the Department’s discretion with agreement by the vendor, or the Department may request the survey be completed when the scope of the engagement between the Department and the vendor changes. The vendor will not store, knowingly or unknowingly, any State of New Hampshire or Department data offshore or outside the boundaries of the United States unless prior express written consent is obtained from the appropriate authorized data owner or leadership member within the Department.
APPENDIX C

Addendum to CLAS Section of RFA for
Purpose of Documenting Title VI Compliance

All DHHS applicants are required to complete the following two (2) steps as part of their application:

1. Perform an individualized organizational assessment, using the four-factor analysis, to determine the extent of language assistance to provide for programs, services and/or activities; and;
2. Taking into account the outcome of the four-factor analysis, respond to the questions below.

Background:

Title VI of the Civil Rights Act of 1964 and its implementing regulations provide that no person shall be subjected to discrimination on the basis of race, color, or national origin under any program that receives Federal financial assistance. The courts have held that national origin discrimination includes discrimination on the basis of limited English proficiency. Any organization or individual that receives Federal financial assistance, through either a grant, contract, or subcontract is a covered entity under Title VI. Examples of covered entities include the NH Department of Health and Human Services and its contractors.

Covered entities are required to take reasonable steps to ensure meaningful access by persons with limited English proficiency (LEP) to their programs and activities. LEP persons are those with a limited ability to speak, read, write or understand English.

The key to ensuring meaningful access by LEP persons is effective communication. An agency or provider can ensure effective communication by developing and implementing a language assistance program that includes policies and procedures for identifying and assessing the language needs of its LEP clients/applicants, and that provides for an array of language assistance options, notice to LEP persons of the right to receive language assistance free of charge, training of staff, periodic monitoring of the program, and translation of certain written materials.

The Office for Civil Rights (OCR) is the federal agency responsible for enforcing Title VI. OCR recognizes that covered entities vary in size, the number of LEP clients needing assistance, and the nature of the services provided. Accordingly, covered entities have some flexibility in how they address the needs of their LEP clients. (In other words, it is understood that one size language assistance program does not fit all covered entities.)

The starting point for covered entities to determine the extent of their obligation to provide LEP services is to apply a four-factor analysis to their organization. It is important to understand that the flexibility afforded in addressing the needs of LEP clients does not diminish the obligation covered entities have to address those needs.

APPENDIX C for RFA
7/2014 rev. 10/2014
Examples of practices that may violate Title VI include:

- Limiting participation in a program or activity due to a person’s limited English proficiency;
- Providing services to LEP persons that are more limited in scope or are lower in quality than those provided to other persons (such as then there is no qualified interpretation provided);
- Failing to inform LEP persons of the right to receive free interpreter services and/or requiring LEP persons to provide their own interpreter;
- Subjecting LEP persons to unreasonable delays in the delivery of services.

**Applicant STEP #1 – Individualized Assessment Using Four-Factor Analysis**

The four-factor analysis helps an organization determine the right mix of services to provide to their LEP clients. The right mix of services is based upon an individualized assessment, involving the balancing of the following four factors.

1. The **number** or proportion of LEP persons served or likely to be encountered in the population that is eligible for the program;
2. The **frequency** with which LEP individuals come in contact with the program, activity or service;
3. The **importance** or impact of the contact upon the lives of the person(s) served by the program, activity or service;
4. The **resources** available to the organization to provide effective language assistance.

This addendum was created to facilitate an applicant’s application of the four-factor analysis to the services they provide. At this stage, applicants are not required to submit their four-factor analysis as part of their application. However, successful applicants will be required to submit a detailed description of the language assistance services they will provide to LEP persons to ensure meaningful access to their programs and/or services, within 10 days of the date the contract is approved by Governor and Council. For further guidance, please see the Bidder’s Reference for Completing the Culturally and Linguistically Appropriate Services (CLAS) Section of the RFA, which is available in the Vendor/RFP Section of the DHHS website.
## Important Items to Consider When Evaluating the Four Factors

### Factor #1: The number or proportion of LEP persons served or encountered in the population that is eligible for the program.

**Considerations:**
- The eligible population is specific to the program, activity or service. It includes LEP persons serviced by the program, as well as those directly affected by the program, activity or service.
- Organizations are required **not only** to examine data on LEP persons served by their program, but also those in the community who are **eligible** for the program (but who are not currently served or participating in the program due to existing language barriers).
- Relevant data sources may include information collected by program staff, as well as external data, such as the latest Census Reports.
- Recipients are required to apply this analysis to each language in the service area. When considering the number or proportion of LEP individuals in a service area, recipients should consider whether the minor children their programs serve have LEP parent(s) or guardian(s) with whom the recipient may need to interact. It is also important to consider language minority populations that are eligible for the programs or services, but are not currently served or participating in the program, due to existing language barriers.
- An effective means of determining the number of LEP persons served is to record the preferred languages of people who have day-to-day contact with the program.
- It is important to remember that the **focus** of the analysis is on the **lack** of English proficiency, not the ability to speak more than one language.

### Factor #2: The frequency with which LEP individuals come in contact with the program, activity or service.

- The more frequently a recipient entity has contact with individuals in a particular language group, the more likely that language assistance in that language is needed. For example, the steps that are reasonable for a recipient that serves an LEP person on a one-time basis will be very different from those that are expected from a recipient that serves LEP persons daily.
- Even recipients that serve people from a particular language group infrequently or on an unpredictable basis should use this four-factor analysis to determine what to do if an LEP person seeks services from their program.
- The resulting plan may be as simple as being prepared to use a telephone interpreter service.
- The key is to have a plan in place.
Factor #3 The importance or impact of the contact upon the lives of the person(s) served by the program, activity or service.

- The more important a recipient’s activity, program or service, or the greater the possible consequence of the contact to the LEP persons, the more likely language services are needed.
- When considering this factor, the recipient should determine both the importance, as well as the urgency of the service. For example, if the communication is both important and urgent (such as the need to communicate information about an emergency medical procedure), it is more likely that immediate language services are required. If the information to be communicated is important but not urgent (such as the need to communicate information about elective surgery, where delay will not have any adverse impact on the patient’s health), it is likely that language services are required, but that such services can be delayed for a reasonable length of time.

Factor #4 The resources available to the organization to provide effective language assistance.

- A recipient’s level of resources and the costs of providing language assistance services is another factor to consider in the analysis.
- Remember, however, that cost is merely one factor in the analysis. Level of resources and costs do not diminish the requirement to address the need, however they may be considered in determining how the need is addressed;
- Resources and cost issues can often be reduced, for example, by sharing language assistance materials and services among recipients. Therefore, recipients should carefully explore the most cost-effective means of delivering quality language services prior to limiting services due to resource limitations.
**Applicant STEP #2 - Required Questions Relating to Language Assistance Measures**

Taking into account the four-factor analysis, please answer the following questions in the six areas of the table below. (Do not attempt to answer the questions until you have completed the four-factor analysis.) The Department understands that your responses will depend on the outcome of the four-factor analysis. The requirement to provide language assistance does not vary, but the measures taken to provide the assistance will necessarily differ from organization to organization.

Indirect As A Percent of Direct
Family Planning Clinical Services Guidelines
Effective July, 2017

These guidelines detail the minimum required clinical services for Family Planning delegate agencies. They are designed to meet the Title X regulations and Program Guidelines for Project Grants for Family Planning Services, U.S. Department of Health & Human Services.

Each delegate agency is expected to use these guidelines as minimum expectations for clinical services; the document does not preclude an agency from providing a broader scope of services. If an agency chooses to develop full medical protocols, these guidelines will form the foundation reference. Individual guidelines may be quite acceptable with an evidence base. An agency may have more or less detailed guidelines as long as the acceptable national evidentiary resource is cited. Title X agencies are expected to provide both contraceptive and preventative health services.

These guidelines must be signed by all MDs, APRNs, PAs, and nurses; anyone who is providing direct care and/or education to clients. The signatures indicate their agreement to follow these guidelines.

Family Planning Clinical Services Guidelines

I. Overview of Family Planning Clinical Guidelines:

A. Title X Priority Goals:
   1. To deliver quality family planning and related preventive health services, where evidence exists that those services should lead to improvement in the overall health of individuals.
   
   2. To provide access to a broad range of acceptable and effective family planning methods and related preventive health services. The broad range of services does not include abortion as a method of family planning.
   
   3. To assess client’s reproductive life plan as part of determining the need for family planning services, and providing preconception services as appropriate.

B. Delegate Requirements:
   1. Provide clinical medical services related to family planning and the effective usage of contraceptive methods and practices.
   
   2. Follow-up treatment for significant problems uncovered by the history or screening, physical or laboratory assessment or other required (or recommended) services for Title X family planning patients should be provided onsite or by appropriate referral per the following clinical practice guidelines:

The standard package of services includes:

- Comprehensive family planning services including: client education and counseling; health history; physical assessment; laboratory testing;
- Cervical and breast cancer screening;

- Provision and follow up of referrals as needed to address medical and social services needs.

4. Assurance of confidentiality must be included for all sessions where services are provided.

5. Each client will voluntarily review and sign a general consent form prior to receiving medical treatment or contraceptive methods(s).

II. Family Planning Clinical Services

Determining the need for services among female and male clients of reproductive age by assessing the reason for visit:

- Reason for visit is related to preventing or achieving pregnancy:
  - Contraceptive services
  - Pregnancy testing and counseling
• Achieving pregnancy
• Basic infertility services
• Preconception health
• Sexually transmitted disease services

• Initial reason for visit is not related to preventing or achieving pregnancy (acute care, chronic care management, preventive services) but assessment identifies the need for services to prevent or achieve pregnancy
• Assess the need for related preventive services such as breast and cervical cancer screening

The delivery of preconception, STD, and related preventive health services should not be a barrier to a client receiving services related to preventing or achieving pregnancy.

The following steps should help the client adopt, change, or maintain contraceptive use:
1. Ensure privacy and confidentiality
2. Obtain clinical and social information including:
   a) Medical history
      For women:
      • Menstrual history
      • Gynecologic and obstetric history
      • Contraceptive use including condom use
      • Allergies
      • Recent intercourse
      • Recent delivery, miscarriage, or termination
      • Any relevant infectious or chronic health conditions
      • Other characteristics and exposures that might affect medical criteria for contraceptive method
      For Men:
      • Use of condoms
      • Known allergy to condoms
      • Partner contraception
      • Recent intercourse
      • Whether partner is currently pregnant or has had a child, miscarriage, or termination
      • The presence of any infectious or chronic health condition

   b) Pregnancy intention or reproductive life plan. Ask questions such as:
      • Do you have any children now?
      • Do you want to have (more) children?
- How many (more) children would you like to have and when?

c) Contraceptive experiences and preferences

d) Sexual health assessment including:

- Sexual practices: types of sexual activity the client engages in.
- History of exchanging sex for drugs, shelter, money, etc. for client or partner(s)
- Pregnancy prevention: current, past, and future contraception options
- Partners: number, gender, concurrency of the client’s sex partners
- Protection from STD: condom use, monogamy, and abstinence
- Past STD history in client & partner (to the extent the client is aware)
- History of needle use (drugs, steroids, etc.) by client or partner(s)

3. Work with the client interactively to select the most effective and appropriate contraceptive method (Appendix A). Use a tiered approach, presenting information on the most effective methods first, before presenting information on less effective methods (do not eliminate information on a method solely because the method is not available at the service site).

   a) Ensure that the client understands:

- Method effectiveness
- Correct use of the method
- Non-contraceptive benefits
- Side effects
- Protection from STDs, including HIV

   b) Assist client to consider potential barriers that might influence the likelihood of correct and consistent use of the method under consideration including:

- Social-behavioral factors
- Intimate partner violence and sexual violence
- Mental health and substance use behaviors

4. Conduct a physical assessment related to contraceptive use, when warranted (Appendix B).

5. Provide the contraception method along with instructions about correct and consistent use, help the client develop a plan for using the selected method and for follow-up, and confirm client understanding. Document the client’s understanding of his or her chosen contraceptive method by using a:

   a) Checkbox, or;
   b) Written statement; or
   c) Method-specific consent form
   d) Teach-back method may be used to confirm client’s understanding about risks and benefits, method use, and follow-up.
6. Provide counseling for returning clients: ask if the client has any concerns with the contraception method and assess its use. Assess any changes in the client’s medical history that might affect safe use of the contraceptive method.

7. Counseling adolescent clients should include a discussion on:
   a) Sexual coercion: how to resist attempts to coerce minors into engaging in sexual activities
   b) Family involvement: encourage and promote communication between the adolescent and his/her parent(s) or guardian(s) about sexual and reproductive health
   c) Abstinence: is an effective way to prevent pregnancy and STDs

The visit should include a discussion about reproductive life plan and a medical history. The test results should be presented to the client, followed by a discussion of options and appropriate referrals.

1. Positive Pregnancy Test: include an estimation of gestational age so that appropriate counseling can be provided.
   a) Title X requires agencies to offer pregnant women the opportunity to be provided information and counseling regarding each of the following options:
      • Prenatal care and delivery
      • Infant care, foster care, or adoption
      • Pregnancy termination
   b) For clients who are considering or choose to continue the pregnancy, initial prenatal counseling should be provided in accordance with recommendations of professional medical organizations such as ACOG.

2. Negative Pregnancy Test and Not Seeking Pregnancy: evaluate reason for negative test. Offer same day contraceptive services (including emergency contraception) and discuss the value of making a reproductive life plan.

   a) If appropriate, offer Basic Infertility Services (Level I) on-site or through referral. Key education points include:
      • Peak days and signs of fertility
      • Vaginal intercourse soon after menstrual period ends can increase the likelihood of becoming pregnant
      • Methods or devices that determine or predict ovulation
      • Fertility rates are lower among women who are very thin or obese, and those who consume high levels of caffeine
Smoking, consuming alcohol, using recreational drugs, and using most commercially available vaginal lubricants might reduce fertility.

C. **Preconception Health Services (Providing Quality Family Planning Services – Recommendations of CDC and US OPA, 2014: pp 16-17):**

Preconception health services should be offered to women of reproductive age who are not pregnant but are at risk of becoming pregnant and to men who are at risk for impregnating their female partner. Services should be administered in accordance with CDC’s recommendations to improve preconception health and health care.

1. For women:
   a) Counsel on the need to take a daily supplement containing folic acid
   b) Discussion of reproductive life plan
   c) Sexual health assessment screening
   d) Other screening services that include:
      - Obtain medical history
      - Screen for intimate partner violence
      - Screen for tobacco, alcohol, and substance use
      - Screen for immunization status
      - Screen for depression when staff are in place to ensure an accurate diagnosis.
        At a minimum, provide referral to behavioral health services for those who have a positive screen
      - Screen for obesity by obtaining height, weight, & Body Mass Index (BMI)
      - Screen for hypertension by obtaining Blood Pressure (BP)
      - Screen for type 2 diabetes in asymptomatic adults with sustained BP > 135/80 mmHg (refer to PCP)

2. For Men:
   a) Discussion of reproductive life plan
   b) Sexual health assessment screening
   c) Other screening services that include:
      - Obtain medical history
      - Screen for tobacco, alcohol, and substance use
      - Screen for immunization status
      - Screen for depression when staff-assisted depression supports are in place to ensure accurate diagnosis, effective treatment, and follow-up
      - Screen for obesity by obtaining height, weight, & BMI
      - Screen for hypertension by obtaining BP
      - Screen for type 2 diabetes in asymptomatic adults with sustained BP > 135/80 mmHg

D. **Sexually Transmitted Disease Services (Providing Quality Family Planning Services – Recommendations of CDC and US OPA, 2014: pp 17-20):**
Provide STD services in accordance with CDC’s STD treatment and HIV testing guidelines.

1. Assess client:
   a) Discuss client’s reproductive life plan
   b) Obtain medical history
   c) Obtain sexual health assessment
   d) Check immunization status

2. Screen client for STDs
   a) Test sexually active women < 25 years of age and high-risk women > 25 years of age yearly for chlamydia and gonorrhea
   b) Provide additional STD testing as indicated
   c) Screen clients for HIV/AIDS in accordance with CDC HIV testing guidelines which include routinely screening all clients aged 13-64 years for HIV infection at least one time. Those likely to be high risk for HIV should be re-screened at least annually or per CDC Guidelines.

3. Treat client if positive for STD and his/her partner(s) in a timely fashion to prevent complications, re-infection, and further spread in accordance with CDC’s STD treatment guidelines. Re-test as indicated. Follow NH Bureau of Infectious Disease Control reporting regulations.

VI. Referrals

Agencies must establish formal arrangements with a referral agency for the provision of services required by Title X that are not available on site. Agencies must have written policies/procedures for follow-up on referrals made as a result of abnormal physical exam or laboratory test findings. These policies must be sensitive to client’s concerns for confidentiality and privacy.

If services are determined to be necessary, but beyond the scope of Title X or the state program clinical guidelines, agencies are responsible to provide pertinent client information to the referral provider (with the client’s consent) and to counsel the client on her/his responsibility to follow up with the referral and on the importance of the referral.

When making referrals for services that are not required under Title X or by the state program clinical guidelines, agencies must make efforts to assist the client in identifying payment sources, but agencies are not responsible for payment for these services.
VII. **Emergencies**

All agencies must have written protocols for the management of on-site medical emergencies. Protocols must also be in place for emergencies requiring transport, after-hours management of contraceptive emergencies and clinic emergencies. All staff must be familiar with emergency protocols.

Title X Family Planning Information and Education (I&E) Advisory and Community Participation Guidelines/Agreement

To assist delegates in meeting Title X I&E advisory committee and community participation requirements, these guidelines include the following sections:

- Review and Approval of Informational and Educational Materials - Title X Requirements
- I&E Advisory Committee Organization, Membership, Function & Meetings
- Community Participation

Review and Approval of Informational and Educational Materials – Title X Requirements

An advisory board of five to nine members (the size of the committee can differ from these limits with written documentation and approval from the Title X Regional Office) who are broadly representative of the community must review and approve all informational and educational (I&E) materials developed or made available under the project prior to their distribution to assure that the materials are suitable for the population and community for which they are intended and to assure their consistency with the purposes of Title X. Oversight responsibility for the I&E committee(s) rests with the grantee. The grantee may delegate the I&E operations for the review and approval of materials to delegate/contract agencies.

The I&E committee(s) must:
- Consider the educational and cultural backgrounds of the individuals to whom the materials are addressed;
- Consider the standards of the population or community to be served with respect to such materials;
- Review the content of the material to assure that the information is factually correct;
- Determine whether the material is suitable for the population or community for which it is to be made available; and
- Establish a written record of its determinations.

I&E Advisory Committee Organization, Membership, Function & Meetings

Suggestions for Committee Organization and Membership:
- A community participation committee may serve as your I&E advisory committee if it meets Title X requirements.
- Check to see if your health department staff or agency upper management if there is an existing committee that can serve as your I&E advisory committee.
- Identify other health department or agency program committees with broad based community representation that may serve as your advisory committee i.e. school-based health centers; public health advisory; alcohol and drug programs. In-house agency staff cannot serve as committee members.
- Identify community groups, organizations or individuals broadly representative of your community and client population.
- Select five to nine members, with more than five members, you will meet the Title X requirement without member recruitment when someone leaves the committee.
Suggestions for I&E Advisory Committee Communication (Note: I&E advisory committee meetings are recommended, but not required by Title X):

- Meet on an “ad hoc” basis to review materials, meet annually, provide orientation meetings for new committee members, or meet via conference calls.
- Communicate with committee members by e-mail, phone, fax or mail for each material review.

I&E Advisory Committee Membership Description (For committee member recruitment or orientation, you can use this description):

- Federally funded family planning agencies provide critical health services to low-income and uninsured individuals to prevent unintended pregnancies.
- The federal grant requires advisory committee review and approval of all educational materials and information before distribution.
- Advisory committees assist in evaluating and selecting materials appropriate for clients and the community.
- The family planning agency sends committee members materials, such as pamphlets, videos, posters, or teaching tools. Members complete an I&E review form or attend a meeting to give feedback regarding material appropriateness for the audience and community.

Community Participation

Title X grantees and delegate/contract agencies must provide an opportunity for participation in the development, implementation, and evaluation of the project (1) by persons broadly representative of all significant elements of the population to be served, and (2) by persons in the community knowledgeable about the community’s needs for family planning services. Projects must establish and implement planned activities to facilitate community awareness of and access to family planning services. Each family planning project must provide for community education programs. The community education program(s) should be based on an assessment of the needs of the community and should contain an implementation and evaluation strategy.

Community education should serve to enhance community understanding of the objectives of the project, make known the availability of services to potential clients, and encourage continued participation by persons to whom family planning may be beneficial. The I&E advisory committee may serve the community participation function if it meets the above requirements or a separate group may be identified. In either case, the grantee project plan must include a plan for community participation. The community participation committee must meet annually or more often as appropriate.

Suggestions for Community Participation:

- Every year, schedule a meeting with your community participation committee.
- To meet the Title X community participation requirement, your committee can:
  - Assist with problem solving, i.e. how to increase male services; solve a “no show” problem, or improve customer service.
  - Offer feedback about your family planning program strengths and suggest areas needing improvement.
Serve as family planning advocates to increase community awareness of the need for family planning services and the impact of services.

NH DHHS Requirements

On a yearly basis, sub-recipients will be required to submit a comprehensive master list with the date of review along with the educational and informational materials that are currently being distributed or are available to Title X clients. In addition sub-recipients will be required to provide written documentation explaining specifically how records will be maintained as well as how old materials will be expired.
