1.2. Request for Proposal Terminology

**Homeless** - an individual or family who lacks a fixed, regular, and adequate nighttime residence.

**Housing First** – a philosophy that homelessness can be most efficiently ended by providing someone with access to safe, decent and affordable housing. Although an individual experiencing homelessness may benefit from supportive services such as mental health or substance abuse counseling, participation in these services is not a prerequisite to access housing or a condition of maintaining it. In fact, the stability that a housing unit provides bolsters a tenant’s ability to participate in these services. The Housing First philosophy focuses on simplifying the process of accessing housing through streamlining the application process and removing unnecessary documentation or site visits. It also ensures that supportive housing tenants are not subject to conditions of tenancy exceeding that of a normal leaseholder, including participation in treatment or other services. Research has demonstrated that this approach is effective in promoting housing stability, particularly among people who have been homeless for long periods of time and have serious psychiatric disabilities, substance use disorders and/or other disabilities.

**Imminent Risk of Homelessness** - an individual or family who will imminently lose their primary nighttime residence.

**Invisible Homeless Youth** - youth experiencing homelessness who are couch surfing or living without shelter in hard to reach and remote places, who may avoid seeking services for a variety of reasons.

**Visible Homeless Youth** - youth experiencing homelessness who are living in known encampments, homeless shelters, or have accessed homeless services through their school or community.

1.3. Contract Period

The Contract(s) resulting from this RFP is anticipated be effective May 1, 2020 or upon Governor and Executive Council approval, whichever is later, through June 30, 2022. The Department may extend contracted services for up to four (4) additional years, contingent upon satisfactory Contractor performance, continued funding, and Governor and Executive Council approval.
2. BACKGROUND

2.1. New Hampshire Department of Health and Human Services, Division of Economic and Housing Stability.

The NH Department of Health and Human Services (DHHS) is the largest agency in the New Hampshire state government. DHHS is responsible for the health, safety, and well-being of the citizens of New Hampshire. DHHS provides services for individuals, children, families, and seniors, and administers programs and mental health, developmental disability, substance abuse, and public health services. These goals are accomplished through partnerships with families, community groups, private providers, other state and local entities, and New Hampshire citizens.

The New Hampshire Department of Health and Human Services (DHHS), Division of Economic and Housing Stability, Bureau of Housing Supports was created in June 2018 to promote a more holistic, multi-generational, and integrated approach for individuals, children, and families that may be in need of an array of supports and services, such as child care, housing, food, economic, and employment assistance. The Division includes:

- The Bureau of Family Assistance
- The Bureau of Child Support Services
- The Bureau of Housing Supports
- The Bureau of Child Development & Head Start Collaboration
- The Bureau of Employment Supports
- Comprehensive Family Support Services

2.2. Background

New Hampshire is currently experiencing a severe shortage of affordable housing. Housing is directly linked to health and well-being. Funding for these three (3) initiatives will help providers support New Hampshire’s most vulnerable citizens with housing navigation and service connection to ensure their safety and well-being needs are met. Individuals experiencing homelessness often face multiple barriers including, mental health conditions, Substance Use Disorder (SUD), criminal history, eviction history, poor credit, and lack of transportation. Youth experiencing homelessness often have experienced generational poverty and/or trauma and may not have the life skills necessary to obtain and maintain housing, which leads to the ongoing cycle of homelessness.

These housing navigation and supportive services will help the most vulnerable people obtain and maintain housing.

3.8.4.4. The selected Contractor(s) shall not reproduce any materials produced under the contract without prior written approval from the Department.

3.8.5. Culturally and Linguistically Appropriate Standards

3.8.5.1. The Department is committed to reducing health disparities in New Hampshire and recognizes that culture and language can have a considerable impact on how individuals access and respond to health and human services. Culturally and linguistically diverse populations experience barriers in their efforts to access services. As a result, Department is strongly committed to providing culturally and linguistically competent programs and services for its clients, and as a means of ensuring access to quality care for all. As part of that commitment, Department continuously strives to improve existing programs and services, and to bring them in line with current best practices.

3.8.5.2. The Department requires all Contractors and sub-recipients to provide culturally and linguistically appropriate programs and services in compliance with all applicable federal civil rights laws, which may include: Title VI of the Civil Rights Act of 1964, the Americans with Disabilities Act of 1990, the Age Discrimination Act of 1975, and the Rehabilitation Act of 1973. Collectively, these laws prohibit discrimination on the grounds of race, color, national origin, disability, age, sex, and religion.
3.8.5.3. There are numerous resources available to help recipients increase their ability to meet the needs of culturally, racially and linguistically diverse clients. Some of the main information sources are listed in the Bidder’s Reference Guide for Completing CLAS Section of the RFP, and, in the Vendor/RFP section of the Department’s website.

3.8.5.4. A key Title VI guidance is the National Standards for Culturally and Linguistically Appropriate Services in Health Care (CLAS Standards), developed by the U.S. Department of Health and Human Services in 2000. The CLAS Standards provide specific steps that organizations may take to make their services more culturally and linguistically appropriate. The enhanced CLAS standards, released in 2013, promote effective communication not only with persons with Limited English Proficiency, but also with persons who have other communication needs. The enhanced Standards provide a framework for organizations to best serve the nation’s increasingly diverse communities.

3.8.5.5. Contractors are expected to consider the need for language services for individuals with Limited English Proficiency as well as other communication needs, served or likely to be encountered in the eligible service population, both in developing their budgets and in conducting their programs and activities.

3.8.5.6. Successful Contractors will be:

3.8.5.6.1. Required to submit a detailed description of the language assistance services they will provide to LEP persons to ensure meaningful access to their programs and/or services, within 10 days of the date the contract is approved by Governor and Council; and

3.8.5.6.2. Monitored on their Federal civil rights compliance using the Federal Civil Rights Compliance Checklist, which can be found in the Vendor/RFP section of the Department’s website.

3.8.5.7. The guidance that accompanies Title VI of the Civil Rights Act of 1964 requires recipients to take reasonable steps to ensure meaningful access to their programs and services by persons with Limited English Proficiency (LEP persons). The extent of an organization’s obligation to provide LEP services is based on an individualized assessment involving the balancing of four factors:
3.8.5.7.1. The number or proportion of LEP persons served or likely to be encountered in the population that is eligible for the program or services (this includes minor children served by the program who have LEP parent(s) or guardian(s) in need of language assistance);

3.8.5.7.2. The frequency with which LEP individuals come in contact with the program, activity or service;

3.8.5.7.3. The importance or impact of the contact upon the lives of the person(s) served by the program, activity or service; and

3.8.5.7.4. The resources available to the organization to provide language assistance.

3.8.5.8. Contractors are required to complete the TWO (2) steps listed in the Appendix C to this RFA, as part of their Proposal. Completion of these two items is required not only because the provision of language and/or communication assistance is a longstanding requirement under the Federal civil rights laws, but also because consideration of all the required factors will help inform Vendors’ program design, which in turn, will allow Vendors to put forth the best possible Proposal.

3.8.5.9. For guidance on completing the two steps in Appendix C, please refer to Proposer’s Reference for Completing the CLAS Section of the RFP, which is posted on the Department’s website. http://www.dhhs.nh.gov/business/forms.htm.

3.8.6. Audit Requirements

3.8.6.1. The Contractor is required to submit an annual audit to the Department if any of the following conditions exist:

3.8.6.1.1. Condition A - The Contractor expended $750,000 or more in federal funds received as a subrecipient pursuant to 2 CFR Part 200, during the most recently completed fiscal year.

3.8.6.3. If Condition B or Condition C exists, the Contractor shall submit an annual **financial audit** performed by an independent CPA within 120 days after the close of the Contractor’s fiscal year.

3.8.6.4. Any Contractor that receives an amount equal to or greater than $250,000 from the Department during a single fiscal year, regardless of the funding source, may be required, at a minimum, to submit annual financial audits performed by an independent CPA if the Department’s risk assessment determination indicates the Contractor is high-risk.

3.8.6.5. In addition to, and not in any way in limitation of obligations of the Contract, it is understood and agreed by the Contractor that the Contractor shall be held liable for any state or federal audit exceptions and shall return to the Department all payments made under the Contract to which exception has been taken, or which have been disallowed because of such an exception.

3.9.1. All Contractors must complete Appendix B, Contract Monitoring Provisions

3.9.2. The Department will use Vendor responses to conduct a risk assessment to determine if enhanced contract monitoring is necessary if the Vendor is awarded a contract. The risk assessment will not be used to disqualify or score Proposals.

- 3.9.3.4. Recent personnel or system changes.
- 3.9.3.5. Financial solvency.

3.9.4. The Department may incorporate contract monitoring procedures and activities into the final contract to address identified risks, which may include but are not limited to:

3.9.4.1. Requiring the Contractor to provide fiscal reports and documentation behind reports to the Department for review.

3.9.4.2. Reviewing Contractor reporting processes and systems for data integrity.

3.9.4.3. Performing file reviews to ensure Contractor compliance with state and federal laws and rules in the administration of the contract.

3.9.4.4. Conducting site visits to assess Contractor compliance with applicable contract objectives and requirements.

3.9.4.5. Reviewing Contractor expenditure details to ensure all expenditures are allowable and in compliance with federal and state laws and other applicable policies or rules.

3.9.4.6. Providing targeted training or technical assistance to the Contractor.

3.9.4.7. Reviewing monthly financial data to assess Contractor financial solvency.

3.9.5. Statement of Vendor’s Financial Condition

3.9.5.1. The Proposer ability to demonstrate adequate financial resources for performance of the contract or the ability to obtain such resources as required during performance under this contract will be considered by the Department as part of the risk assessment to determine if enhanced contract monitoring is required if a contract is awarded.

3.9.5.2. Each Proposer must submit audited financial statements for the four (4) most recently completed fiscal years. Statements must include a report by an independent auditor that expresses an unqualified or qualified opinion as to whether the accompanying financial statements are presented fairly in accordance with generally accepted accounting principles.

3.9.5.3. Complete financial statements must include the following:

3.9.5.3.1. Opinion of Certified Public Accountant;

3.9.5.3.5. Statement of Stockholder’s Equity of Fund Balance;

3.9.5.3.7. Consolidating and Supplemental Financial Schedules.

3.9.5.4. A Proposer, which is part of a consolidated financial statement, may file the audited consolidated financial statements if it includes the consolidating schedules as supplemental information. A Proposer, which is part of a consolidated financial statement, but whose certified consolidated financial statements do not contain the consolidating schedules as supplemental information, shall, in addition to the audited consolidated financial statements, file unaudited financial statements for the Vendor alone accompanied by a certificate of authenticity signed by an officer of the corporation, partner, or owner under penalty of unsworn falsification which attests that the financial statements are correct in all material respects.

3.9.5.5. If a Proposer is not otherwise required by either state or federal statute to obtain a certification of audit of its financial statements, and thereby elects not to obtain such certification of audit, the Proposer shall submit the following as part of its proposal:

3.9.5.5.1. Uncertified financial statements; and

6.22. **Contingency**

Aspects of the award may be contingent upon changes to state or federal laws and regulations.

6.23. **Ethical Requirements**

AND OTHER RESPONSIBILITY MATTERS

The Vendor identified in Section 1.3 of the General Provisions agrees to comply with the provisions of Executive Office of the President, Executive Order 12549 and 45 CFR Part 76 regarding Debarment, Suspension, and Other Responsibility Matters, and further agrees to have the Contractor’s representative, as identified in Sections 1.11 and 1.12 of the General Provisions execute the following Certification:

INSTRUCTIONS FOR CERTIFICATION
1. By signing and submitting this proposal (contract), the prospective primary participant is providing the certification set out below.

2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. If necessary, the prospective participant shall submit an explanation of why it cannot provide the certification. The certification or explanation will be considered in connection with the NH Department of Health and Human Services’ (DHHS) determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.

3. The certification in this clause is a material representation of fact upon which reliance was placed when DHHS determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, DHHS may terminate this transaction for cause or default.

4. The prospective primary participant shall provide immediate written notice to the DHHS agency to whom this proposal (contract) is submitted if at any time the prospective primary participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

5. The terms “covered transaction,” “debarred,” “suspended,” “ineligible,” “lower tier covered transaction,” “participant,” “person,” “primary covered transaction,” “principal,” “proposal,” and “voluntarily excluded,” as used in this clause, have the meanings set out in the Definitions and Coverage sections of the rules implementing Executive Order 12549: 45 CFR Part 76. See the attached definitions.

6. The prospective primary participant agrees by submitting this proposal (contract) that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by DHHS.

7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled “Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion - Lower Tier Covered Transactions,” provided by DHHS, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not debarred, suspended, ineligible, or involuntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and
information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, DHHS may terminate this transaction for cause or default.

PRIMARY COVERED TRANSACTIONS
11. The prospective primary participant certifies to the best of its knowledge and belief, that it and its principals:
   11.1. are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;
   11.2. have not within a three-year period preceding this proposal (contract) been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or a contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
   11.3. are not presently indicted for otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (l)(b) of this certification; and
   11.4. have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State or local) terminated for cause or default.

12. Where the prospective primary participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal (contract).

LOWER TIER COVERED TRANSACTIONS
13. By signing and submitting this lower tier proposal (contract), the prospective lower tier participant, as defined in 45 CFR Part 76, certifies to the best of its knowledge and belief that it and its principals:

7. “Open Wireless Network” means any network or segment of a network that is not designated by the State of New Hampshire’s Department of Information Technology or delegate as a protected network (designed, tested, and approved, by means of the State, to transmit) will be considered an open network and not adequately secure for the transmission of unencrypted PI, PFI, PHI or confidential DHHS data.

8. “Personal Information” (or “PI”) means information which can be used to distinguish or trace an individual’s identity, such as their name, social security number, personal information as defined in New Hampshire RSA 359-C:19, biometric records, etc., alone, or when combined with other personal or identifying information which is linked or linkable to a specific individual, such as date and place of birth, mother’s maiden name, etc.

I. RESPONSIBILITIES OF DHHS AND THE CONTRACTOR

A. Business Use and Disclosure of Confidential Information.

1. The Contractor must not use, disclose, maintain or transmit Confidential Information except as reasonably necessary as outlined under this Contract. Further, Contractor, including but not limited to all its directors, officers, employees and agents, must not use, disclose, maintain or transmit PHI in any manner that would constitute a violation of the Privacy and Security Rule.

2. The Contractor must not disclose any Confidential Information in response to a
request for disclosure on the basis that it is required by law, in response to a subpoena, etc., without first notifying DHHS so that DHHS has an opportunity to consent or object to the disclosure.

3. If DHHS notifies the Contractor that DHHS has agreed to be bound by additional restrictions over and above those uses or disclosures or security safeguards of PHI pursuant to the Privacy and Security Rule, the Contractor must be bound by such additional restrictions and must not disclose PHI in violation of such additional restrictions and must abide by any additional security safeguards.

4. The Contractor agrees that DHHS Data or derivative there from disclosed to an End User must only be used pursuant to the terms of this Contract.

5. The Contractor agrees DHHS Data obtained under this Contract may not be used for any other purposes that are not indicated in this Contract.

6. The Contractor agrees to grant access to the data to the authorized representatives of DHHS for the purpose of inspecting to confirm compliance with the terms of this Contract.

II. METHODS OF SECURE TRANSMISSION OF DATA

1. Application Encryption. If End User is transmitting DHHS data containing Confidential Data between applications, the Contractor attests the applications have been evaluated by an expert knowledgeable in cyber security and that said application’s encryption capabilities ensure secure transmission via the internet.

2. Computer Disks and Portable Storage Devices. End User may not use computer disks or portable storage devices, such as a thumb drive, as a method of transmitting DHHS data.

3. Encrypted Email. End User may only employ email to transmit Confidential Data if email is encrypted and being sent to and being received by email addresses of persons authorized to receive such information.

4. Encrypted Web Site. If End User is employing the Web to transmit Confidential Data, the secure socket layers (SSL) must be used and the web site must be secure. SSL encrypts data transmitted via a Web site.

5. File Hosting Services, also known as File Sharing Sites. End User may not use file hosting services, such as Dropbox or Google Cloud Storage, to transmit Confidential Data.

6. Ground Mail Service. End User may only transmit Confidential Data via certified ground mail within the continental U.S. and when sent to a named individual.

7. Laptops and PDA. If End User is employing portable devices to transmit Confidential Data said devices must be encrypted and password-protected.

8. Open Wireless Networks. End User may not transmit Confidential Data via an open network.
wireless network. End User must employ a virtual private network (VPN) when remotely transmitting via an open wireless network.

9. Remote User Communication. If End User is employing remote communication to access or transmit Confidential Data, a virtual private network (VPN) must be installed on the End User’s mobile device(s) or laptop from which information will be transmitted or accessed.

10. SSH File Transfer Protocol (SFTP), also known as Secure File Transfer Protocol. If End User is employing an SFTP to transmit Confidential Data, End User will structure the Folder and access privileges to prevent inappropriate disclosure of information. SFTP folders and sub-folders used for transmitting Confidential Data will be coded for 24-hour auto-deletion cycle (i.e. Confidential Data will be deleted every 24 hours).

11. Wireless Devices. If End User is transmitting Confidential Data via wireless devices, all data must be encrypted to prevent inappropriate disclosure of information.

III. RETENTION AND DISPOSITION OF IDENTIFIABLE RECORDS

The Contractor will only retain the data and any derivative of the data for the duration of this Contract. After such time, the Contractor will have 30 days to destroy the data and any derivative in whatever form it may exist, unless, otherwise required by law or permitted under this Contract. To this end, the parties must:

A. Retention

1. The Contractor agrees it will not store, transfer or process data collected in connection with the services rendered under this Contract outside of the United States. This physical location requirement shall also apply in the implementation of cloud computing, cloud service or cloud storage capabilities, and includes backup data and Disaster Recovery locations.

2. The Contractor agrees to ensure proper security monitoring capabilities are in place to detect potential security events that can impact State of NH systems and/or Department confidential information for contractor provided systems.

3. The Contractor agrees to provide security awareness and education for its End Users in support of protecting Department confidential information.

4. The Contractor agrees to retain all electronic and hard copies of Confidential Data in a secure location and identified in section IV. A.2

All servers and devices must have currently-supported and hardened operating systems, the latest anti-viral, anti-hacker, anti-spam, anti-spyware, and anti-malware utilities. The environment, as a
whole, must have aggressive intrusion-detection and firewall protection.

6. The Contractor agrees to and ensures its complete cooperation with the State’s Chief Information Officer in the detection of any security vulnerability of the hosting infrastructure.

B. Disposition

1. If the Contractor will maintain any Confidential Information on its systems (or its sub-contractor systems), the Contractor will maintain a documented process for securely disposing of such data upon request or contract termination; and will obtain written certification for any State of New Hampshire data destroyed by the Contractor or any subcontractors as a part of ongoing, emergency, and/or disaster recovery operations. When no longer in use, electronic media containing State of New Hampshire data shall be rendered unrecoverable via a secure wipe program in accordance with industry-accepted standards for secure deletion and media sanitization, or otherwise physically destroying the media (for example, degaussing) as described in NIST Special Publication 800-88, Rev 1, Guidelines for Media Sanitization, National Institute of Standards and Technology, U. S. Department of Commerce. The Contractor will document and certify in writing at time of the data destruction, and will provide written certification to the Department upon request. The written certification will include all details necessary to demonstrate data has been properly destroyed and validated. Where applicable, regulatory and professional standards for retention requirements will be jointly evaluated by the State and Contractor prior to destruction.

2. Unless otherwise specified, within thirty (30) days of the termination of this Contract, Contractor agrees to destroy all hard copies of Confidential Data using a secure method such as shredding.

3. Unless otherwise specified, within thirty (30) days of the termination of this Contract, Contractor agrees to completely destroy all electronic Confidential Data by means of data erasure, also known as secure data wiping.

Addendum to CLAS Section of RFP for Purpose of Documenting Title VI Compliance

All DHHS applicants are required to complete the following two (2) steps as part of their application:

1. Perform an individualized organizational assessment, using the four-factor analysis, to determine the extent of language assistance to provide for programs, services and/or activities; and;
2. Taking into account the outcome of the four-factor analysis, respond to the questions below.

Background:

Title VI of the Civil Rights Act of 1964 and its implementing regulations provide that no person shall be subjected to discrimination on the basis of race, color, or national origin under any program that receives Federal financial assistance. The courts have held that national origin discrimination includes discrimination on the basis of limited English proficiency. Any organization or individual that receives Federal financial assistance, through either a grant, contract, or subcontract is a covered entity under Title VI. Examples of covered entities include the NH Department of Health and Human Services and its contractors.

Covered entities are required to take reasonable steps to ensure meaningful access by persons with limited English proficiency (LEP) to their programs and activities. LEP persons are those with a limited ability to speak, read, write or understand English.

The key to ensuring meaningful access by LEP persons is effective communication. An agency or provider can ensure effective communication by developing and implementing a language assistance program that includes policies and procedures for identifying and assessing the language needs of its LEP clients/applicants, and that provides for an array of language assistance options, notice to LEP persons of the right to receive language assistance free of charge, training of staff, periodic monitoring of the program, and translation of certain written materials.

The Office for Civil Rights (OCR) is the federal agency responsible for enforcing Title VI. OCR recognizes that covered entities vary in size, the number of LEP clients needing assistance, and the nature of the services provided. Accordingly, covered entities have some flexibility in how they address the needs of their LEP clients. (In other words, it is understood that one size language assistance program does not fit all covered entities.)

The starting point for covered entities to determine the extent of their obligation to provide LEP services is to apply a four-factor analysis to their organization. It is important to understand that the flexibility afforded in addressing the needs of LEP clients does not diminish the obligation covered entities have to address those needs.

APPENDIX C for RFP
7/2014 rev. 10/2014
APPENDIX C

Examples of practices that may violate Title VI include:

- Limiting participation in a program or activity due to a person’s limited English proficiency;
- Providing services to LEP persons that are more limited in scope or are lower in quality than those provided to other persons (such as then there is no qualified interpretation provided);
- Failing to inform LEP persons of the right to receive free interpreter services and/or requiring LEP persons to provide their own interpreter;
- Subjecting LEP persons to unreasonable delays in the delivery of services.

Applicant STEP #1 – Individualized Assessment Using Four-Factor Analysis

The four-factor analysis helps an organization determine the right mix of services to provide to their LEP clients. The right mix of services is based upon an individualized assessment, involving the balancing of the following four factors.

1. The number or proportion of LEP persons served or likely to be encountered in the population that is eligible for the program;
2. The frequency with which LEP individuals come in contact with the program, activity or service;
3. The importance or impact of the contact upon the lives of the person(s) served by the program, activity or service;
4. The resources available to the organization to provide effective language assistance.

This addendum was created to facilitate an applicant’s application of the four-factor analysis to the services they provide. At this stage, applicants are not required to submit their four-factor analysis as part of their application. However, successful applicants will be required to submit a detailed description of the language assistance services they will provide to LEP persons to ensure meaningful access to their programs and/or services, within 10 days of the date the contract is approved by Governor and Council. For further guidance, please see the Bidder’s Reference for Completing the Culturally and Linguistically Appropriate Services (CLAS) Section of the RFP, which is available in the Vendor/RFP Section of the DHHS website.
Important Items to Consider When Evaluating the Four Factors.

**Factor #1** The number or proportion of LEP persons served or encountered in the population that is eligible for the program.

**Considerations:**
- The eligible population is specific to the program, activity or service. It includes LEP persons serviced by the program, as well as those directly affected by the program, activity or service.
- Organizations are required **not only** to examine data on LEP persons served by their program, but also those in the community who are *eligible* for the program (but who are not currently served or participating in the program due to existing language barriers).
- Relevant data sources may include information collected by program staff, as well as external data, such as the latest Census Reports.
- Recipients are required to apply this analysis to each language in the service area. When considering the number or proportion of LEP individuals in a service area, recipients should consider whether the minor children their programs serve have LEP parent(s) or guardian(s) with whom the recipient may need to interact. It is also important to consider language minority populations that are eligible for the programs or services, but are not currently served or participating in the program, due to existing language barriers.
- An effective means of determining the number of LEP persons served is to record the preferred languages of people who have day-to-day contact with the program.
- It is important to remember that the *focus* of the analysis is on the lack of English proficiency, not the ability to speak more than one language.

**Factor #2:** The frequency with which LEP individuals come in contact with the program, activity or service.

- The more frequently a recipient entity has contact with individuals in a particular language group, the more likely that language assistance in that language is needed. For example, the steps that are reasonable for a recipient that serves an LEP person on a one-time basis will be very different from those that are expected from a recipient that serves LEP persons daily.
- Even recipients that serve people from a particular language group infrequently or on an unpredictable basis should use this four-factor analysis to determine what to do if an LEP person seeks services from their program.
- The resulting plan may be as simple as being prepared to use a telephone interpreter service.
- The key is to have a plan in place.
### Factor #3 The importance or impact of the contact upon the lives of the person(s) served by the program, activity or service.

- The more important a recipient’s activity, program or service, or the greater the possible consequence of the contact to the LEP persons, the more likely language services are needed.
- When considering this factor, the recipient should determine both the importance, as well as the urgency of the service. For example, if the communication is both important and urgent (such as the need to communicate information about an emergency medical procedure), it is more likely that immediate language services are required. If the information to be communicated is important but not urgent (such as the need to communicate information about elective surgery, where delay will not have any adverse impact on the patient’s health), it is likely that language services are required, but that such services can be delayed for a reasonable length of time.

### Factor #4 The resources available to the organization to provide effective language assistance.

- A recipient’s level of resources and the costs of providing language assistance services is another factor to consider in the analysis.
- Remember, however, that cost is merely one factor in the analysis. Level of resources and costs do not diminish the requirement to address the need, however they may be considered in determining how the need is addressed;
- Resources and cost issues can often be reduced, for example, by sharing language assistance materials and services among recipients. Therefore, recipients should carefully explore the most cost-effective means of delivering quality language services prior to limiting services due to resource limitations.
**APPENDIX C**

**Applicant STEP #2 - Required Questions Relating to Language Assistance Measures**

Taking into account the four-factor analysis, please answer the following questions in the six areas of the table below. *(Do not attempt to answer the questions until you have completed the four-factor analysis.)* The Department understands that your responses will depend on the outcome of the four-factor analysis. The requirement to provide language assistance does not vary, but the measures taken to provide the assistance will necessarily differ from organization to organization.

In general, covered entities are required to provide two types of language assistance: (1) oral interpretation and (2) translation of written materials. Oral interpretation may be carried out by contracted in-person or remote interpreters, and/or bi-lingual staff. (Examples of written materials you may need to translate include vital documents such as consent forms and statements of rights.)

5. ENSURING COMPETENCY OF INTERPRETERS USED IN PROGRAM AND THE ACCURACY OF TRANSLATED MATERIALS
   a. Do you make effort to assess the language fluency of all interpreters used in your program to determine their level of competence in their specific field of service? (Note: A way to fulfill this requirement is to use certified interpreters only.)
   b. As a general rule, does your organization avoid the use of family members, friends, and other untested individual to provide interpretation services?
   c. Does your organization have a policy and procedure in place to handle client requests to use a family member, friend, or other untested individual to provide interpretation services?
   d. Do you make an effort to verify the accuracy of any translated materials used in your program (or use only professionally certified translators)? (Note: Depending on the outcome of the four-factor analysis, N/A (Not applicable) may be an acceptable response to this question.)

6. MONITORING OF SERVICES PROVIDED
   Does you make an effort to periodically evaluate the effectiveness of any language assistance services provided, and make modifications, as needed?
   If there is a designated staff member who carries out the evaluation function?
