Concord, New Hampshire

Re: SOR proposal development

Dear Ms. Escalante,

New Hampshire has an unprecedented opportunity to change the face of the opioid epidemic via the SAMHSA 2018 State Opioid Response (SOR) Grants. AHP's nationally recognized expertise and proven effective services can help strengthen your grant application and your success in combatting this epidemic.

AHP can help:

- expand and evaluate community- and correctional-based **medication-assisted treatment**;
- inform decisions about expanding access to care through our **projective population modeling**;
- design and implement enhancements that strengthen a robust **recovery support system**;
- manage communications with expertly planned and managed virtual **stakeholder meetings**;
- **support systems** of care improvements and integrate efforts at the policy and practice level;
- reach and connect rural and hard to reach **special populations** to a full range of OUD services;
- respond to data collection requirements, **evaluate** impact, and offer rapid cycle assessment
- deploy **virtual solutions** to save time and money for communities of practice, conferences, and workforce training e-learning.

With SOR applications due in 7 weeks, we're ready to join your efforts combatting this crisis. Please contact any AHP staff member at your earliest convenience and they will put you in touch with our SOR senior development team.
