The New Hampshire Department of Health and Human Services (DHHS) is in the process of implementing an EVV system as required by federal regulations. EVV is a way to monitor personal care and home health services in home and community-based programs to ensure that individuals are receiving their services and to prevent Medicaid fraud, waste and abuse.

As part of this process, an Advisory Council of key stakeholders has been formed to provide input and feedback to DHHS as the State plans for EVV in New Hampshire.

All EVV Advisory Council meetings are open to the public. For more information, contact Mary St Jacques at Mary.StJacques@unh.edu.
