

Have you fallen behind in paying your rent, mortgage, or utilities? Are you facing eviction, foreclosure or your utilities being shut off? Have you found a place to live but can't get the money together for a security deposit, first month's rent, or utility deposit? If you are struggling with any of these situations, we may be able to help.

Emergency funds may be available if you are experiencing or threatened by any of the following:

- homelessness;
- utility shut-off; or
- no heat, hot water, or cooking fuel.

Emergency Assistance (EA) helps families get or keep their homes. EA helps pay for rent or utility security deposits, first month's rent, fuel deliveries, and back rent, mortgage, or utility debts.

CAN I GET EA?

To get EA help, you must be eligible for or already getting Financial Assistance to Needy Families (FANF) cash assistance. This means you must meet all FANF program requirements, including being an immediate relative of the children who live with you. However, you may be eligible for EA, even if you are not an immediate relative, if the children have lived with an immediate relative sometime within the 6 months before the month you apply.

HOW DO I GET EA?

To immediately print an application, go to <http://www.dhhs.nh.gov/dfa/tanf/document/s/emergencyapplication.pdf> or you can contact your local DHHS District Office for an application. You will have to fill out this application form, sign it, and give us proof of the emergency and the amount of money you need to fix it. Types of proof could be any of the following:

- a bill, rental agreement, or other document signed and dated by your landlord. It must tell us the amount of the security deposit;
- a bill, or signed and dated statement from the utility company. It must tell us the amount of the utility deposit;
- a termination notice, a bill, or statement from the utility company. It must tell us the amount of the utility debt you owe;
- an eviction notice, court order, notice to quit, or signed and dated written demand for rent for an actual or pending eviction. It must tell us the name of the landlord and the amount of the back rent you owe; or
- a notice of foreclosure, court order, or signed and dated written demand for mortgage principal and interest starting foreclosure proceedings. It must tell us the name of the mortgager and the amount of the back mortgage you owe.

Need help getting the proof you need? Let us know and we can help.

You will also need to give us:

- proof of your household income;

- information about the things you have to help you, such as cash on hand, checking and savings accounts, trust funds, certificates of deposits, stocks and bonds, federal, state, and local income tax refunds, fuel assistance grants, and earned income tax credits;
- proof that help from us will fix your emergency (for example, proof that you will be able to pay for your other monthly bills, once we help you with this emergency); and
- a signed and dated statement from your local Fuel Assistance Program. It must tell us why they are not able to help you, if you are asking for help with a utility deposit, outstanding utility debt, or to have home heating fuel delivered to your home.

HOW MUCH EA CAN I GET?

EA money is limited. Your personal resources must be used first to meet your emergency need. EA funds can be used to help meet the remaining amount not covered by your resources, but payments cannot be more than the following maximum amounts:

- \$700 for home heating fuel;
- the amount charged by the utility provider for utility deposits;
- \$650 for rental housing security deposits or first month's rent, or both if the total does not exceed \$650; and
- no more than 2 months' outstanding rent, mortgage, or utility debt.

WHAT IF THE EA IS NOT ENOUGH?

Sometimes the money you need to fix your emergency is more than the EA payment we can give you. If this happens, you must give us proof that the partial payment we give will fix the situation. You will need to give us:

- a signed and dated statement from an outside source, such as a friend, family member, or organization. They must tell us that they promise to pay the rest of what you owe; **or**
- a signed and dated statement from your landlord, mortgager, utility, or home heating fuel delivery company. They must tell us that you can use a payment plan to pay the rest of what you owe.

REMEMBER

You will have to use some, but not all, of your personal resources to help pay for your emergency. EA help is limited to a 12-month period which begins when the first EA payment is approved. Most EA payments can only be approved once in a 12-month period except for:

- home heating fuel deliveries which may be approved up to 6 times; and
- rental security deposits when the amount last approved in the 12-month period has been or will be returned by the former landlord.

Note: Rental security deposits **and** back rent or back mortgage cannot be approved within the same 30-day period.

If You Have Any Questions...Please contact 1-800-852-3345 ext. 9700 or your local DHHS District Office.
