

# NEW WATER LAB SAMPLE RECEIVING LOCATION

Starting Monday, November 30, 2020 water lab samples should be dropped off at the rear entrance to 29 Hazen Dr. A sample-receiving table will be placed inside the first set of doors with several phone numbers to call. When dropping off samples please call one of the phone numbers and someone from the lab will come out and retrieve your sample. Please do not leave until we are able to review your paperwork and condition of your sample. Please wear a face covering when dropping off samples.

Thank you for your continued support and patience.
