

NEW eWIC Vendor ID Numbers

All WIC authorized stores will receive a new eWIC vendor number.

The eWIC Vendor ID number is a unique identifier assigned by the New Hampshire WIC Program when a store becomes authorized to accept WIC. This eWIC Vendor ID number is how WIC Connect (Conduent) validates that a vendor is authorized to process a WIC transaction. Transaction data is also compiled by the eWIC Vendor ID number for payment processing to the TPP (Third Party Processor for integrated stores) or directly to stand beside vendors. In addition this eWIC Vendor ID number is also used as the user ID to access the vendor website with Conduent.
