

Review of DSRIP Performance/Outcome Measures

December 7, 2016

Agenda

- Introductions
- Opening Remarks
- DSRIP Measures Review
- Next Steps

Introductions

- Andrew Chalsma
 - Director of Data Analytics and Reporting
 - andrew.chalsma@dhhs.nh.gov
- Doris Lotz, MD, MPH
 - Chief Medical Officer
 - doris.lotz@dhhs.nh.gov
- SIGN IN PLEASE

Today's Goals

- Build familiarity with DSRIP measures
- Answer questions about the measures
- Discuss feedback that will impact specification of how to collect and calculate measures
 - Next steps are further specification and calculation of baselines.

Measurement Concerns

- Do we have to measure?
 - Yes, to support DSRIP oversight, health services and outcomes improvement
- Can we eliminate any measures?
 - No, the list of measures was part of CMS approved protocols and part of the IDN contracts
- Can we change the measures?
 - We can improve the validity and reliability of the measures

Measure Elements: Reporting Responsibility

- DHHS
 - 29 measures (claims based, survey, and summary measures)
- IDN
 - 4 measures (IDN provider specific clinical process measures)
- DHHS/IDN
 - 6 measures (Assessed population clinical quality measures)
- Note some measures have multiple parts
 - Composite measures
 - Subpopulations

Measure Elements: Populations

- All attributed IDN members (regardless of health service provider and behavioral health status)
- Attributed behavioral health population (all members with behavioral health diagnosis)
 - Mental health population
 - CMHC population
 - Any mental health diagnosis on claim
 - Medication history
 - SUD/misuse
 - Specific SUD treatments
 - SUD or substance misuse diagnosis on claim
 - Medication history
- Patients seen at IDN health service provider (for targeted DSRIP process performance measures)

Baselines and Goals

- DHHS will begin reporting baseline measures and set goals in early 2017
- First measures will be claims/encounter based
- Where possible baselines will be based on CY2015 data year
- Some baselines will not be calculated until after IDNs/DHHS begin reporting information (e.g., IDN reporting in 2018 on earlier data year)

Measure Elements: Reporting Timeframes

- 2017 Measurement Year
 - No measure reporting or performance incentives
- 2018 Measurement Year
 - Some measure reporting incentives for IDNs
 - Performance incentives begin
- 2019 and 2020 Measurement Years
 - All incentives tied to performance

DSRIP Measure Review

- Walk through DSRIP Measure spreadsheet
- Discussion of measures

Next Steps

- Further refinement of specifications
- Additional meetings to be scheduled to continue going over measures
- One on one meetings are available
- Written comments always appreciated
