JEFFREY A. MEYERS  
COMMISSIONER

February 15, 2017

The Honorable Neal M. Kurk, Chairman  
Fiscal Committee of the General Court  
State House  
Concord, NH 03301

***Re: INFORMATIONAL ITEM: Health and Human Services Dashboard***

## **Information**

The Department of Health and Human Services (DHHS) hereby submits as an information item the Department's monthly dashboard in order to inform the legislature and the public on the current status of the utilization of the Department's programs and services and the related implications for the Department's budget. Please note that financial position and caseload information contained herein is current as of January 31, 2017. (SFY 17).

## **Explanation**

### **Department's Financial Position as of January 31, 2017**

The Department is, at present, projecting a budget shortfall for the fiscal year ending on June 30, 2017 (SFY 2017) of \$65.1 million dollars. The deficit is structural and is the result of assumptions and projections of Medicaid costs that were not realized. The Department remains on track not only to meet but to exceed its lapse target. We currently are estimating a potential lapse that exceeds \$32 million by the end of SFY 2017.

On the following pages, we describe, in detail, each component of the projected deficit and whether and how it may be alleviated before the end of the fiscal year. The following pages also contain a detailed Financial Summary and Lapse Analysis.

**Detailed Financial Summary**

	A	B	C	D

## **Medicaid Budget Projected Shortfall**

### **A. MCO Rate Increases**

The SFY 16/17 budget is only the second State budget to include funding for the managed care program. Funding for managed care was first approved in March 2012, but the program was not implemented until December 1, 2013 (as part of the SFY 2014/2015 budget).

Because the federal government does not allow managed care rates to be established for more than a 12-month period, the managed care ratemaking process and the State budget process have never been aligned. As a result, the rates for the program for the second year of the biennium are not established until well after the budget has been adopted.

The average per member/per month rate for the program for SFY 2016 was \$343.00, which was a significant increase over SFY 2015 of \$331.00. The average per member/per month rate for SFY 2017 rose again – by a smaller amount – to \$349.00. This combined increase was not included in the current SFY 2016-2017 budget, which has resulted in a projected shortfall of \$24.6 million for the biennium.

The Department has now directed its actuary, Milliman, to complete the SFY 2018 draft rates no later than March 1, 2017, so that projected rates are available in the House phase of the budget. These projected rates will be updated in April during the Senate phase of the budget so that final rates will be available to the Governor, the House and the Senate before the budget leaves the Senate. The process of establishing rates is time consuming and detailed and is based, in part, on claims information from the prior calendar year that is not finalized until months after the close of the calendar year.

### **B. Medicaid Caseloads**

The SFY 2016-2017 budget projected that caseloads for the standard Medicaid population would decrease 2% in SFY 2016 and an additional 2% in SFY 2017. In fact, caseloads in SFY 2016 remained flat, while caseloads have dropped in SFY 2017 by 2.4%. That has helped offset the shortfall that may occur from the absence of caseload reductions in SFY 2016. We are still projecting that the failure of caseloads to fall as projected will result in a shortfall of \$9.7 million.

### **C. Medicaid Appropriation Reduction**

The Department's appropriation for Medicaid for SFY 2017 was reduced from that appropriated in SFY 2016 by \$7.1 million. The general fund portion of that difference is \$1.7 million. Because that amount is not offset by either rate or caseload reductions, the general fund shortage of \$1.7 million is carried as a shortfall.

### **D. Disproportionate Share Payment (Uncompensated Care)**

In SFY 2016, the State's uncompensated care payment to hospitals was \$15.9 million more in general funds than budgeted. This was the result of a preliminary injunction issued by the U.S. District Court for the District of New Hampshire that, in effect, allowed the inclusion of third party payments in the calculation of a hospital's uncompensated care. By allowing the inclusion of third party payments such as Medicare in the calculation of uncompensated care, the total amount of the State's hospitals' uncompensated care increased, which, in turn, increased the State disproportionate share (DSH) payment.

Because the federal injunction currently remains in place and based upon preliminary estimates of the hospitals Medicaid Enhancement Tax payments and uncompensated care for SFY 2017 provided by the New Hampshire Hospital Association to date, it is likely that the State's DSH payment obligation for SFY 2017 will be approximately \$15 million in general funds more than was budgeted.

#### **E. Federal Insurance Premium Tax Payment**

The federal government requires states to compensate their managed care plans for the federal insurance premium tax that is assessed on fully insured premiums intended to fund premium subsidies and Medicaid expansion. The tax is considered a reasonable business expense that must be factored into the capitated rate or paid retroactively after it is calculated. The payment is approximately \$9.0 million or \$4.5 million (general funds) each year. Prior DHHS management elected to have it paid retroactively, but it was not included in the current budget.

#### **F. Managed Care Reconciliation**

The federal government requires that every payer in the managed care delivery system to risk adjust in order that no payer bear a disproportionate burden for the costliest patients and to avoid creating financial incentives for MCOs adopting enrollee selection strategies.

New Hampshire's program has three payers: the two managed care organizations and the Department's fee-for-service program. The Department maintains a fee-for-service program because at the time managed care was implemented in 2013, the Department chose to allow beneficiaries up to 60 days to select a plan, while federal law requires that coverage begin on the date eligibility is determined.

Prior to the inclusion of the dual eligible population (e.g., those eligible for both Medicare and Medicaid), the State has benefited from the risk adjustment process because many of those persons opted out of managed care and were covered in the fee-for-service program. In February 2015, the dual eligible population was mandated into managed care. As a result, the costs of those persons, who tend to have higher health costs, were shifted to the managed care organizations and have impacted the risk adjustment calculations. For the risk adjustment period from January 2015 through March 2016, the State is obligated to reimburse the managed care companies a total of \$2.0 million.

#### **G. Medicare Parts A, B & D**

As mentioned, there are approximately 16,000 persons who are so-called "dual eligibles" – persons who are eligible for both Medicare (because they are 65 years old and older) and Medicaid (because they are low income). Under federal law, Medicaid is the payer of "last resort," which means that persons with other coverage must access that other coverage before accessing Medicaid benefits. When that other coverage is Medicare, the State must pay a percentage of the premiums for hospital and physician services and pharmaceutical costs.

The federal government sets the Medicare premiums every Fall, which does not align with the State's budget process. This year, the premium increases were significantly higher than anticipated and, as a result, the State is obligated to pay approximately \$7.5 million (general funds) more for those premiums.

**Developmental Disability (DD) Waitlist**

The Department remains on track to serve a total of 488 people in the current biennium, which are some 73 people more than planned in the SFY 2016-2017 budget. In SFY 2016, we served a total of 232 persons. In the current fiscal year, we anticipate serving 256 people.

As of January 30, 2017, there are 194 persons on the Wait List. There was a net increase of 22 persons in December and 26 persons in January to the Wait List. Of the 48 new persons coming onto the Wait List between the end of November and the end of January, some 25 of those persons were already receiving some services but requested additional services. Of the 194 persons currently on the Wait List, a total of 94 persons are receiving some services. Attached to this letter is a chart that tracks the DD Wait List since July 2016 by category of recipient.

The increased number of newly eligible people and those requiring new services is significant. At the time the SFY 2016-17 budget was initially passed, it assumed that 112 then-waiting for services plus 150 additional people would be served in SFY 2016, or 262 persons. In fact, 383 people sought DD Wait List services in SFY 2016. Thus far in SFY 2017, more than 250 people have required services. This number is 100 more people than anticipated thus far.

At the start of SFY 16, the DD system was faced with two significant challenges, programmatically and fiscally, and both impacted the Wait List. The first was the change in the Federal Fair Labor Standards Act. There was a change in law that removed the exemption for companionship services. Prior to this change, staff who were considered companions were exempt from overtime and minimum wage rules. In the DD system, companions were used to provide live-in care. The second challenge was the closure of Lakeview. All of those people served at Lakeview from New Hampshire had to be relocated. All were at significantly higher cost to what was budgeted and paid to Lakeview. Those served at Lakeview were very high-need people and, to this day, the area agencies have struggled to fill the gaps in service for people with complex needs that were created with the close of Lakeview. There is a need to increase capacity in New Hampshire at the community level for the treatment of such people.

Additionally, while the projected average cost for DD services that was assumed in the current budget was approximately \$44,000 per person annually, the actual average cost for services in SFY 2016 was \$50,303. For SFY 2017, the average cost is projected at \$50,197.

A separate report on the DD Wait List Status is being submitted to the Fiscal Committee and the Health & Human Services Oversight Committee.

The Governor's proposed SFY 18/19 budget had increased funding for DD services significantly, and it is anticipated that these additional funds will, in turn, allow for a significant reduction in the WL beginning in July 2017.

Respectfully submitted,  
  
Jeffrey A. Meyers  
Commissioner

25	Total	(6,082)	2,641	1,463	1,091	1,622	1,482	1,438	984	1,783	1,995	948	1,630	871	
29	<p>Figures by category versus figures by coverage are taken from two points in time. Medicaid Care Management's first of the month and the some people drop off during the month and go into Fee-For-Service. FFS is end of the month and builds during the month to include the spend down clients excluded from MCM. The early data points are switched because the MCM data includes retroactive FFS enrollment for those earlier months.</p>
