Key Performance Indicator Report
Metrics in the Key Indicators Report include:

- Access & Use of Care
- Customer Experience of Care
- Provider Service Experience
- Utilization Management
- Grievance & Appeals
- Preventative Care
- Chronic Medical Care
- Behavioral Health Care
- Substance Use Disorder Care
- General
Notable Results Summary 1

• Provider clean claims are being processed close to MCM contract standards for timeliness. A slight downward trend from September can be attributed to recent staff turnover at one MCO. In addition to replacing staff, the MCO is supporting providers in the transition from paper to electronic billing, as paper claims have longer processing timeframes. (Figure 3-1)
  o Well Sense was the MCO identified above
  o November data shows this measure within contract standards.

• Provider calls are being handled quickly when compared to contract standards for member call centers. There is a slight upward trend in abandoned provider calls. The Department will monitor this trend. (Figure 3-5 and 3-6)

• Data Notes:
  o One MCO has incorrectly reported provider call center data from their transportation vendor. After this data has been corrected, transportation call center data will be added back to this measure. (Figure 3-5 and 3-6)
Notable Results Summary 2

- Urgent, routine and pharmacy service authorizations are being processed very close to MCM contract standards for timeliness. The Department will continue to monitor this indicator. (Figures 4-1, 4-2 and 4-3)

- The service authorization denial rate has remained consistent in 2014 Q3 with Q2, while the quarterly member enrollment has increased. In addition, requests in Q3 have shown significant increases for the following services: out-of-network inpatient admissions, wheel-chair van, medical supplies, and imaging services. The Department will be monitoring and discussing the increase in requests with the MCOs. (Figure 4-4)

- Generic drug substitution rate continues to be very high and could contribute to program cost containment. (Figure 4-5)

Omits services with < 100 requests in the most recent quarter (Psychology, License Nurse Attendant, Vision, Podiatry, Audiology, Transplant)

Note: Data has changed due to resubmitted data.
The number of grievances has decreased. (Figure 5-1)

The total number of appeals has decreased, primarily due to a decrease in pharmacy appeals. There has been an increase in the number of physician services appeals. The Department will monitor this trend. (Figure 5-2)

Grievances and appeals (standard and expedited) are being resolved within MCM contract standards. (Figures 5-3 through 5-5)

There were no Fair Hearings for 2014 Q3. (Figure 5-6)
Notable Results

Summary 4

• Maintenance medication gaps are falling indicating a smaller number of prescriptions with long gaps between refills. Taking medications regularly by ensuring their availability should contribute to better chronic disease management. (Figure 6-2)
Step 2 Update

Concepts
Timeline
Key Changes

• Phase I and Phase II, Mandatory Enrollment and the integration of Choices for Independence Waiver and Nursing Facility services into Medicaid Care Management, have been combined.

• Step 2 will still be phased in.

• Design considerations of managed long term services and supports, including provider contracting and payment, will evolve over time.
Revised Step 2 Timeline

• Earlier Timeline
  – Phase 1 Mandatory Populations by January 1, 2015
  – Phase 2 Choices For Independence (CFI) and Nursing Facility Services (NF) by April 1, 2015
  – Phase 3 Developmental Disabilities, Acquired Brain Disorder and In Home Support waivers will be implemented at a date to be determined.

• New Timeline
  – Phase 1 and Phase 2 combined
    • Enrollment begins July 1, 2015
    • Services begin September 1, 2015
• **Stakeholder Input Process: July to December 2014**
  – Initial Stakeholder Engagement and Input completed in October 2014
  – Additional forums were held to elicit stakeholder feedback on the Step 2 Design Considerations in November and December of 2014

• **Step 2 Phase 1:**
  – On **July 1, 2015**, require all populations to enroll with a health plan for their medical services, Choices for Independence Waiver and Nursing Facility services
  – On **September 1, 2015**, coverage with the health plan begins for medical services, Choices for Independence Waiver and Nursing Facility services
