

Step 2 Update

Medicaid Care Management - Step 2, Phase 1 Timeline Announced

Medicaid recipients who were able to opt out of Medicaid Care Management (MCM) are now required to enroll in one of the two Care Management health plans: New Hampshire Healthy Families or the Well Sense Health Plan. Enrollment for those who opted out will begin on November 1, 2015, and continue through December 31, 2015. Individuals who do not self-select a health plan by December 31, 2015, will be assigned to a health plan on January 4, 2016. Coverage for medical services (non-waiver services) under a health plan will begin for this group on February 1, 2016.

Medicaid recipients who previously opted out of MCM received a letter from the New Hampshire Department of Health and Human Service announcing this timeline. At the beginning of November recipients in this group will receive their enrollment packets. To review the information sent to recipients, please visit the Medicaid Care Management section of the DHHS website at <http://www.dhhs.nh.gov/ombp/caremgmt/index.htm>.

Thank you.
