			3/12/2018	Peer-to-Peer	Wellsense	I'm wondering if someone can call me regarding a patient. I called about Friday to schedule a peer to peer? I don't believe I was able to successfully schedule the review and was told someone would either call me back Friday afternoon, or the peer to peer COULD just happen to take place during one of the time slots I provided. Nothing had been confirmed though, and I did not receive any calls. I'm trying to find out what exactly is going to happen, if anything at all. The patient's initials are X, DOB is X. Her Well Sense ID is X. Also, I'd like to note that the total time I spent on the phone and on hold for this call on X was about 35-40 minutes. I called the plan just now and was transferred to the plan's prior authorization department (not EnvisionRx Options), but the phone rang several times and I was not able to leave any type of voicemail.	The Plan outreached to X to resolve the peer to peer issue. On the call, X provided additional clinical information which was provided to a Pharmacist to re-review. The re-review resulted in an approved request. The approval notice was sent to X. The peer-to-peer request was cancelled.	3/12/2018
			3/20/2018	Pharmacy PA	Wellsense	Hello, I am wondering if you have the responses to a couple of prior authorizations that I had submitted a last week. I would also like to file a formal complaint because this seems to be a recurring problem for a few weeks now that has yet to be resolved. The 2 most recent cases are for client X, DOB X, Well Sense ID X, for her Trintellix. The other is client X, DOB X, Well Sense ID X for her Trintellix (which I found out through the pharmacy it was approved). We have not had any problems receiving faxes from anyone else, and every time I have emailed about this I was able to get the response after with no problem, but for some reason it is not being sent over initially. It should not be a problem of not verifying the fax, as we have been doing this for quite some time now and the fax has been verified for each provider. I have also never received any phone calls from anyone trying to verify the fax number, and my direct phone number is listed on each PA request that is sent.	Upon review of the PA cases, it was confirmed that the fax numbers used for the notifications were previously verified and that the fax notices were sent. We could not determine root cause as to why the notices were not received. The Plan provided the feedback to the PBM and will continue to monitor cases. The plan refaxed the approval letters to X in addition to providing the decision on the email response.	3/20/2018

			3/27/2018	Pharmacy PA	Well Sense	I am hoping you can help me regarding our patient X, DOB X, Well Sense ID X, and his Latuda 120mg and 40mg prescriptions. Well Sense is not paying for the copay because it is saying it needs prior authorization. It was also rejecting saying that two 30 day fills need to be made at a retail pharmacy before a 90 day fill can be sent through mail order, however it is a retail pharmacy that is trying to process these for 30 day supplies. I have spent almost 2 hours on the phone with EnvisionRx Options trying to figure this out. They are saying that they are his primary over his Medicare. They said that they see his Medicare as being only part A and B. They said they cannot see that it had already been sent to his Cigna Healthspring and said his Cigna terminated in January 2017. He does have a new Cigna plan that became effective in January 2018, and it is Medicare plan, as confirmed by the Cigna staff. I am not sure how to get this resolved. The last thing they said at Envision was to try to call Cigna about it, and Cigna said there was nothing they could do because it looked fine on their end and they could see the claim. I 3-way called the pharmacy with Envision on the phone so they could confirm that it was going through Cigna even though the Envision rep could not see it. She just kept insisting they were primary and that was that. This is a very sensitive patient who has become very upset over this and cannot pay his Cigna copay even though it is a seemingly small amount to us.	Member is Medicare Part D eligible. Therefore, in accordance with Medicaid requirements, Well Sense does not provide coverage for Part D drugs. The Provider was informed of these requirements.	3/27/2018
			4/16/2018	Pharmacy PA	Well Sense	<p>04/16/2018: I submitted a PA request Thursday (04/12/2018) for patient X, DOB X, and his X I have yet to receive a response from Envision which is grounds for an automatic approval since it has been more than 24 hours. Could you please help with this?</p> <p>04/17/2018: Thank you. Our office has not received a fax and we also did not get any voicemail. I also left my direct phone line to be contacted on for this reason, and nobody had called me. I checked with the front desk staff at both of our locations as well. Could you please confirm the fax number the denial was sent to and the phone number that was called?</p> <p>This has happened several times and the last time I mentioned this I was told the issue would be looked into. This was a few weeks ago, and I have yet to receive any follow-up information.</p>	<p>Response to 04/16: Member's PA request was received by Envision on 04/12/18 and was reviewed and denied on 04/13/2018. The providers office was also outreached to and a voicemail was left to verify fax number to send out notification. As the fax number couldn't be verified for PHI reasons, the notification letter was set to be mailed out.</p> <p>Response to 04/17/2018: Envision had left notes on the PA that a call was made to xxx-xxx-xxxx and a VM was left for the provider to call back. Envision was also provided with the feedback that the provider's office had no VM on their answering machine. As a solution, X was asked to provide a list of all providers and verified fax numbers to these providers to load in the provider roster so the need for Envision to call for verification is minimized and the faxes can be sent out timely. Envision has confirmed the list was added to the PA system, and X at X was able to receive two test faxes. X also confirmed that she has seen minimal issues since this fix was implemented.</p>	4/16/2018
			5/8/2018	Pharmacy PA	Well Sense	<p>05/08/2018- I submitted a PA request this morning for our patient X, DOB X, and ID X for her Chantix. I wanted to check and see if you can see the denial on your end? I received a response back from Envision stating that the quantity exceeds the limitation (which is why I was submitting this in the first place). It looks to me like they did not take into consideration any of the information I sent, and I did not receive a formal denial notice. This is a medication that was approved for her last year under the same circumstances after going through a couple different appeals, so I had sent in last year's responses from X to help them make their decision. If there is no formal denial, can a peer to peer or appeal still take place? I am not sure what to do from here. There is plenty of information that was provided explaining why this medication is necessary.</p> <p>05/15/2018-That's what I was afraid of. Could I scan and email it to you? If you prefer fax, where can I send it, and can I put it to your attention? I just don't want it to get lost in the shuffle.</p>	<p>05/08/2018- We will request Envision to provide details on the denial letter.</p> <p>5/11/2018- Envision has looked into this. There is no PA in the system that has been received for this member. Could you send us (fax is fine) the denial you received so that we may research further?</p> <p>05/17/2018- The request for Chantix was denied. A letter was faxed. Please let me know if you didn't get a copy of the letter. I had another pharmacist review the request again and she said she's unable to overturn the denial. The recommendation for Chantix is 24 weeks per lifetime. You may submit information for appeal to the Appeals Department at 617 897 0805.</p>	05/08/2018 and 05/11/2018
