Request Form for
NH Commercial Claims Public Use Data Set

The Commercial Claims Public Use Data Set is a subset of the data submitted by New Hampshire health insurance carriers under New Hampshire statute as part of the Comprehensive Health Care Information System (CHIS) project. The Public Use Data Set is composed of dental, medical, and pharmacy claims data files as well as reference provider, local code diagnosis, and local code CPT files. (Please note dental claims are available for service dates 2009 and forward only.) Written documentation is provided for the files and fields. Be advised that at present, support by the CHIS project team for use of the data is available only minimally and is directed towards improving documentation of the data. Neither the CHIS project team nor the New Hampshire Department of Health and Human Services is responsible for any adverse outcomes arising from the requestor’s use of the data.

Under New Hampshire statute, and administrative rule the data is available to the public without restriction. Please email Mary Fields (Mary.Fields@dhhs.state.nh.us) at the Department of Health and Human Services with any questions.
