## Premium Assistance & NHHPP – private public partnership

- ▶ Medicaid funds are used to purchase commercial insurance policies known as Qualified Health Plans (QHPs) certified for sale on the individual market.
- ▶ The commercial carriers in 2017 are Anthem, Harvard Pilgrim, Minuteman and Ambetter.
- ▶ Approximately 42,000 participants receive short-term medical services through these four carriers. The state, through fee-for-service, covers Medicaid required benefits not offered by the commercial plans, known as wrap benefits, such as limited dental and vision and transportation services.
- ▶ Another 6,000 members are medically frail and are excluded from the Premium Assistance Demonstration. They are served through the Medicaid managed care system. 3,000 more are in fee-for-service while they select.

# NHHPP - August 2017 Enrollment
