Address: 45 High St., Nashua, NH, 03060

Proposed IDN Region to be Served:

Greater Nashua

Preliminary, non-binding Partnering Providers List:

Harbor Homes had conversations with or reached out to representatives of most required IDN partner types, including both local hospitals whose subsidiaries include the majority of the region's primary care providers serving Medicaid beneficiaries, all FQHCs in the area (Lamprey Health Care Nashua and Harbor Homes), Greater Nashua Mental Health Center, numerous community-based service providers including those within the Greater Nashua Continuum of Care, peer support agencies (HEARTS), Greater Nashua Regional Public Health Network (City of Nashua), its sister-agency, Keystone Hall, who is also the region's primary SUD treatment provider, and many others.

We are using this Letter of Intent as a placeholder, in the event that another proposed IDN in the region fails to gain enough support to submit a qualifying proposal. Should the Nashua community wish for Harbor Homes to be the lead entity within its IDN, we are willing to do so, and at such time will include other required partners, such as the county facilities. If you have questions or concerns re: this letter of intent, please contact me directly at the information below, as Peter will be out of the state on business this week.

Thank you,

Vanessa Sarlo Talasazan
