Building Capacity for Transformation: New Hampshire’s DSRIP Waiver Program

May 2016
Agenda

► Overview

► Integrated Delivery Networks

► Pathways and Projects

► Financing

► Planning for Alternative Payment Models

► From Concept to Reality: A Provider Example

► Next Steps and Opportunities for Input
Key Challenges

Significant challenges remain in meeting the needs of individuals with mental health and substance use disorders (SUD). Expansion of Medicaid to newly-eligible adults and of SUD benefits is a significant opportunity, but also places new demands on already overtaxed providers, underscoring the need for transformation.

Delivery System Reform Incentive Program (DSRIP) Waivers: The Basics

Using a Medicaid 1115 waiver, States fund networks of providers who meet metrics demonstrating improved patient outcomes and promoting delivery system reform.

DSRIP waivers are a key way to approach Medicaid delivery reform, among many other reform initiatives.
Overview of New Hampshire’s DSRIP Waiver Program: Building Capacity For Transformation

The waiver represents an unprecedented opportunity for New Hampshire to strengthen community-based mental health services, combat the opiate crisis, and drive delivery system reform.

**Key Driver of Transformation**

**Integrated Delivery Networks**: Transformation will be driven by regionally-based networks of physical and behavioral health providers as well as social service organizations that can address social determinants of health.

**Three Pathways**

- Improve care transitions
- Promote integration of physical and behavioral health
- Build mental health and substance use disorder treatment capacity

**Funding Features**

- Menu of mandatory and optional community-driven projects
- $150 million in incentive payments over 5 years
- Support for transition to alternative payment models
- Funding for project planning and capacity building
- Performance-based funding distribution
Integrated Delivery Networks
Integrated Delivery Networks (IDNs)

- New, regionally-based networks of providers called Integrated Delivery Networks (‘IDNs’) will drive system transformation by designing and implementing projects in a geographic region.
- IDNs will be organized into 7 regions throughout the State.
- Multiple IDNs may apply. It is anticipated that there will likely be 1 IDN in many areas of the state, but multiple IDNs may emerge in more heavily populated regions.

**Key Elements**

**Participating Partners:** Includes community-based social service organizations, hospitals, county facilities, physical health providers, and behavioral health providers (mental health and substance use).

**Structure:** Administrative lead serves as coordinating entity for network of partners in planning and implementing projects.

**Responsibilities:** Design and implement projects to build behavioral health capacity; promote integration; facilitate smooth transitions in care; and prepare for alternative payment models.

Note: pending final approval by CMS and subject to change
IDNs Will be Organized into 7 Regions

<table>
<thead>
<tr>
<th>Illustrative IDN</th>

<td>25,440</td>
</tr>
</tbody>
</table>

Providers in each IDN region are encouraged to work together to form one IDN, particularly in less populated parts of the State.

Note: pending final approval by CMS and subject to change
Integrated Delivery Networks will be composed of an Administrative Lead and several partners.

Administrative Lead Responsibilities*

- Organize consortium partners in geographic region
- Act as single point of accountability for DHHS
- Submit single application on behalf of IDN
- Implement IDN governance structure in accordance with DHHS parameters
- Receive funds from DHHS and distribute funds to partners
- Compile required reporting
- Collaborate with partners in IDN leadership and oversight
- Collaborate with IDN partners to manage performance against goals and metrics

*Partners may lead implementation efforts for specific projects

Note: pending final approval by CMS and subject to change
**IDN Composition**

### General Principles
- IDNs must include a broad range of organizations that can participate in required and optional projects.
- IDNs must ensure they have a network of non-medical providers and medical providers that together represent the full spectrum of care that might be needed by an individual with a mental health or substance use disorder need.

### Specific Requirements
- **IDN partner networks must include:**
  - A substantial percentage of the **regional primary care practices** and facilities serving the Medicaid population.
  - A substantial percentage of the **regional SUD providers**, including recovery providers, serving the Medicaid population.
  - Representation from **Regional Public Health Networks**.
  - One or more Regional **Community Mental Health Centers**.
  - **Peer-based support** and/or **community health workers** from across the full spectrum of care.
  - One or more **hospitals**.
  - One or more **Federally Qualified Health Centers, Community Health Centers, or Rural Health Clinics**, if available.
  - Multiple **community-based organizations** that provide social and support services (transportation, housing, employment, community supports, legal assistance, etc.).
  - **County organizations** representing nursing facilities and correctional systems.

---

**Note:** pending final approval by CMS and subject to change.
Pathways and Projects
Three Pathways to Delivery System Reform

**IDNs will implement defined projects addressing the three pathways to delivery system reform:**

**Build mental health and SUD treatment capacity**

Projects will support mental health and substance use disorder treatment capacity and supplement existing workforce in all settings.

- Develop workforce initiatives and new treatment and intervention programs
- Implement alternative care delivery models (telemedicine, etc.)

**Integrate physical and behavioral healthcare**

Projects will promote provider integration and collaboration between primary care, behavioral health care and community services.

- Support physical and virtual integration in primary care and behavioral health settings
- Expand programs that foster collaboration among physical and behavioral health providers
- Promote integrated care delivery strategies that incorporate community-based social support providers

**Improve care transitions**

Projects will support beneficiaries transitioning from institutional settings to the community and within organizations in the community.

- Create incentives for IDNs to adopt evidence-based practices for the management of behavioral health patients during transitions
- Incentivize provider collaboration

*Note: pending final approval by CMS and subject to change*
Project Menu Structure

- **State-Wide Projects**
  - IDNs will participate in 2 State-wide projects:
    1. Strengthen mental health and SUD workforce
    2. Develop health information technology infrastructure to support integration
  - State-facilitated with coordination across IDNs

- **Community-Driven Projects**
  - IDNs will select 3 projects from a menu that reflects community priorities
  - One must be focused exclusively on SUD population
  - IDN-led based on how best to implement in their communities

- **IDN Core Competency Project**
  - IDNs will participate in a mandatory project focused on integrating behavioral health and primary care
  - IDN-led based on how best to implement in each IDN’s community

Note: pending final approval by CMS and subject to change
Each IDN will implement the Core Competency Project.

Integrated Healthcare

- Primary care providers, mental health and SUD providers, and social services organizations will partner to:
  - Prevent, diagnose, treat and follow-up on both behavioral health and physical conditions
  - Refer patients to community and social support services
  - Address health behaviors and healthcare utilization
- Standards will include:
  - Core standardized assessments for depression, substance use, and medical conditions
  - Integrated electronic medical records and patient tracking tools
  - Health promotion and self-management support
  - Care management services
- NCQA accreditation is not required

Note: pending final approval by CMS and subject to change
Community-Driven Project Menu

Each IDN will select three community-driven projects from a DHHS-defined menu.

Care Transitions:
Support beneficiaries with transitions from institutional settings to the community

• Care Transition Teams
• Community Reentry Program for Justice-Involved Adults and Youth with Substance Use Disorders or Significant Behavioral Healthy Issues
• Supportive Housing Projects

Capacity Building:
Supplement existing workforce with additional staff and training

• Medication Assisted Therapy of Substance Use Disorders
• Expansion of Peer Support Access, Capacity, and Utilization
• Expansion in intensive SUD Treatment Options, including partial hospital and residential care
• Multidisciplinary Nursing Home Behavioral Health Service Team

Integration:
Promote collaboration between primary care and behavioral health care

• Wellness Program to address chronic disease risk factors for SMI/SED population
• School-Based Screening and Intervention
• Substance Use Treatment and Recovery Program for Adolescents and Young Adults
• Integrated Treatment for Co-Occurring Disorders
• Enhanced Care Coordination for High–Need Populations

Note: pending final approval by CMS and subject to change
Community Reentry Program for Justice-Involved Adults and Youth with Substance Use Disorders or Significant Behavioral Healthy Issues

Research indicates that significant numbers of adults in correctional facilities and youth in juvenile justice residential facilities have diagnosed and undiagnosed mental illness and/or substance use disorders. Community re-entry is a time-limited program to assist those individuals with behavioral health conditions to safely transition back into community life. The program is initiated pre-discharge and continues for 12 months post discharge. The program’s objectives are to:

- **Support adults and youth leaving the state prison, county facilities or juvenile justice residential facilities who have behavioral health issues** (mental health and/or substance misuse or substance use disorders) in maintaining their health and recovery as they return to the community.

- **Prevent unnecessary hospitalizations and ED usage** among these individuals by connecting them with integrated primary and behavioral health services, care coordination and social and family supports.

Note: The objective of this project is to improve care and health outcomes for justice-involved individuals and youth transitioning back into the community, but the State also anticipates that improvements in care will improve public safety and result in a lower recidivism rate.
Core elements of the community re-entry program include:

**Screening for Behavioral Health Conditions:** Prior to departure, all persons in correctional facilities and juvenile justice facilities will be screened for behavioral health conditions. The facility participating in the initiative will select the screening tool in collaboration with participating IDN partners. It can rely on an existing tool if the tool serves to identify behavioral health conditions and individuals at particularly high risk for relapse.

**Discharge Assessment:** For individuals with behavioral health conditions, the IDN (or participating partners within the IDN) will work with the correctional facility or juvenile justice facility to begin assessments, case management and care coordination, treatment planning, family support services, and programming with identified individuals at least 30 days prior to release. This will include a documented core standardized assessment by the care team and a physical exam that becomes the basis for a post-release care plan appropriate for release and/or parole. This plan, described in more below, will be developed in collaboration with the correctional facility/detention center to ensure appropriate linkage of services and needs.

**Care management services:** The integrated care team will include a care manager who will be in regular contact with individual in person and by phone at decreasing levels of intensity/frequency during the 12 months following release. The care manager will assist in arranging and coordinating medical, behavioral health, family and social support services; assist the individual and, for youth, the family, in following the agreed-upon transition plan, including by assisting with adherence to treatment regimen and in securing needed services; and ensure the care plan remains useful and is updated regularly. For adults, the care manager will also serve as a link with parole officers and for children with juvenile justice services.
Transitional Care Plan

**Transitional care plan:** Working in collaboration with the correctional facility or juvenile justice facility, the IDN (or participating partners) will develop a goal-oriented transitional care plan with the individual. The care plan is designed to guide the individual and the care team through a successful transition that links the individual to needed community supports and, as appropriate, family supports. It will provide for:

- Clear identification of the person who is responsible for leading the effort to support the individual’s re-entry into the community and family life.

- Linkage with an integrated care team including primary and behavioral health service providers for treatment, medication management, recovery services and care management, as described in more detail below.

- Steps that will be taken to connect the individual to community-based social support services as necessary, including:
  - Assistance in securing housing (including supported housing or other housing options for hard-to-place individuals)
  - Training and supported employment aimed at assisting the individual to find employment despite a history of involvement in the justice system
  - Re-engagement and mediation with family members and other care givers
  - Linkages to and enrollment in entitlement programs and other social supports, including, as appropriate, parenting classes.
Transitional Care Plan (cont.) Care Management and Staffing

- Trained peer support specialists who can work directly with the justice involved person to provide peer mentoring, listening, transportation to services, and/or other forms of support.

- Completion of releases to allow for secure communication among team members

- For youth, linkages to family-based supports (including for foster families, as appropriate)

**Care management services:** The integrated care team will include a care manager who will be in regular contact with individual in person and by phone at decreasing levels of intensity/frequency during the 12 months following release. The care manager will assist in arranging and coordinating medical, behavioral health, family and social support services; assist the individual and, for youth, the family, in following the agreed-upon transition plan, including by assisting with adherence to treatment regimen and in securing needed services; and ensure the care plan remains useful and is updated regularly. For adults, the care manager will also serve as a link with parole officers and for children with juvenile justice services.

**Staffing:** The integrated care team will be multi-disciplinary and serve between 25-50 individuals, depending on severity. The staff should include:

- Care manager with Bachelor or Master’s degree in social work or human relations field with training/experience in serving the justice-involved population, including youth and veterans:

- Mental health professional (e.g., LCSW, Psychologist) who will support and supervise the care coordinator

- Consulting psychiatrist to design medication regimen and serve as an advisor to the team

- Primary care provider (PCP)

- For youth, family support specialists
Financing
Funding for the Transformation Waiver

Key Funding Features:

- The transformation waiver provides up to $150 million over 5 years.
  - State must meet statewide metrics in order to secure full funding beginning in 2018
  - State must keep per capita spending on Medicaid beneficiaries below projected levels over the five-year course of the waiver

- Up to 65% of Year 1 funding will be available for capacity building and planning.

- In Years 2-5, IDNs must earn payments by meeting metrics defined by DHHS and approved by CMS to secure full funding. Under the terms of New Hampshire’s agreement with the federal government, this is not a grant program.

- A share of the $150 million will be used for administration, learning collaboratives, and other State-wide initiatives.

State-wide and IDN-level Metrics

- Performance metrics at the state- and IDN-levels will be used to monitor progress toward achieving the overall waiver vision. Payments from CMS to the state and from the state to IDNs will be contingent on meeting these performance metrics.

- Accountability shifts from process metrics to performance metrics over the course of the 5-year program.

Implementation of Integrated Delivery Networks

- IDN applications are due May 31, 2016
- IDNs applications approved by June 30, 2016
- Detailed DSRIP project plans are due by September 1, 2016
- Distribution of project funds is targeted for Nov 1, 2016

**Target Implementation Timeline**

- **Jan-April 2016**: Potential IDNs submit non-binding letters of Intent
- **April 4, 2016**: State establishes IDN guidelines and a menu of IDN project options
- **May 31 2016**: IDNs submit Applications to State
- **July 1, 2016**: State issues decisions on approved IDNs and begins distribution of Project Design and Capacity Building Funding
- **Sept 1 2016**: IDNs submit Project Plan Applications to State
- **Nov 1 2016**: State issues decisions on IDN Project Plans and distributes initial project payments to IDNs
- **2017-2020**: State awards ongoing fiscal incentives to IDNs based on achievement of pre-determined metrics

*Note: pending final approval by CMS and subject to change*
Stakeholder input and engagement is critical to the success of the transformation waiver. It will be actively solicited at all stages of implementation.

Selected Upcoming Opportunities for Input Below. DHHS will review all materials in light of public input for any potential changes concurrent with CMS approval:

<table>
<thead>
<tr>
<th>Date</th>
<th>Opportunity Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>March</td>
<td>Opportunity to prepare and submit comments on the draft planning and funding protocols.</td>
</tr>
<tr>
<td>April 1-April 15</td>
<td>Opportunity to prepare and submit comments on the draft IDN application materials, including the application for selection to be an Administrative Lead and to apply for Project Design and Capacity Building Funds.</td>
</tr>
<tr>
<td>July 1-July 15</td>
<td>Opportunity to comment on the draft IDN Project Plan Template.</td>
</tr>
<tr>
<td>Summer and Fall of 2016</td>
<td>Opportunity to comment on the proposed project plans of individual IDNs.</td>
</tr>
</tbody>
</table>

In addition, DHHS will hold a series of stakeholder meetings through March and April of 2016 to generate discussion and input from stakeholders on the early design phases of the transformation waiver.

Comments and questions can be submitted at any time to 1115waiver@dhhs.state.nh.us
