New Hampshire Drug Monitoring Initiative

New Hampshire Information & Analysis Center

Phone: (603) 223.3859   NH.IAC@dos.nh.gov   Fax: (603) 271.0303

NHIAC Product #: 2020-   *2019 Overview Report*   *18 September 2020*

Purpose: *The NH Drug Monitoring Initiative (DMI) is a holistic strategy to provide awareness and combat drug distribution and abuse. In line with this approach the DMI will obtain data from various sources (to include, but not limited to, Public Health, Law Enforcement, and EMS) and provide monthly products for stakeholders as well as situational awareness releases as needed.*
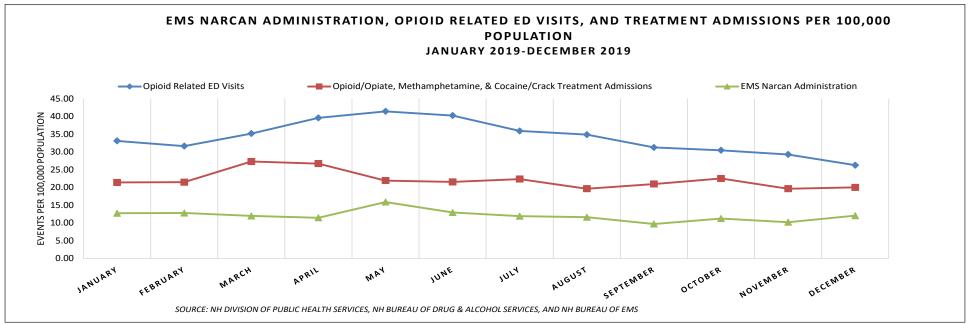

## 2019 Overview—Drug Environment Report—UNCLASSIFIED

Table of Contents:

*The monthly online DMI viewer can be found at: https://nhvieww.nh.gov/IAC/DMI/

⇒ Population data source: http://www.nh.gov/oep/data-center/population-estimates.htm
- Year/month overview charts are based on annual estimates from the above website.
- County charts are based on a 2018 estimated population of each county.

⇒ If your agency is looking for further breakdowns than what is in this document please contact the NHIAC.

Overview: Trends for EMS Narcan Incidents, Opioid Related ED Visits, Treatment Admissions, and Overdose Deaths:

EMS NARCAN ADMINISTRATION, OPIOID RELATED ED VISITS, AND TREATMENT ADMISSIONS PER 100,000 POPULATION
JANUARY 2019-DECEMBER 2019

Legend:
- Opioid Related ED Visits
- Opioid/Opiate, Methamphetamine, & Cocaine/Crack Treatment Admissions
- EMS Narcan Administration

Y-axis: EVENTS PER 100,000 POPULATION (0.00 to 45.00)

X-axis: JANUARY, FEBRUARY, MARCH, APRIL, MAY, JUNE, JULY, AUGUST, SEPTEMBER, OCTOBER, NOVEMBER, DECEMBER

SOURCE: NH DIVISION OF PUBLIC HEALTH SERVICES, NH BUREAU OF DRUG & ALCOHOL SERVICES, AND NH BUREAU OF EMS

Drug Overdose Deaths By Year

Y-axis: # of Drug Deahts per 100,000 population (0.00 to 40.00)

| Year	Value
2010	13.45
2011	15.25
2012	12.34
2013	14.51
2014	25.03
2015	33.00
2016	36.34
2017	36.35
2018	34.73
2019	30.53

Data Source: NH Medical Examiner's Office
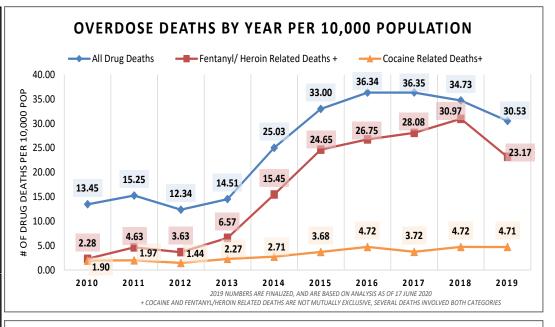

Drug Overdose Deaths (Continued):
*Data Source: NH Medical Examiner's Office*

Trends:
- There were 415 confirmed drug overdose deaths in 2019.
- Drug overdose deaths decreased from 471 to 415 from 2018-2019. This represents a 12% decrease.
- In 2019, Strafford County had the highest suspected drug use resulting in overdose deaths per capita at 4.11 deaths per 10,000 population, while Hillsborough County was second, with 3.70 deaths per 10,000 population.
- Grafton and Strafford Counties experienced an increase in overdose deaths with a 30% and 6% increase, respectively.
- Belknap and Cheshire County experienced a 28% and 34% decrease in their suspected drug overdose death rate per 10,000 population, respectively.
- In 2019 the age group with the largest number of drug overdose deaths was 30-39 year olds, at 32%.

*** IMPORTANT DATA NOTES***
- Drug overdose deaths for 2019 numbers are finalized and are based on analysis as of 17 June 2020.
- Analysis is based on county where the drug(s) is suspected to have been used.

OVERDOSE DEATHS BY YEAR PER 10,000 POPULATION

Legend: ◆ All Drug Deaths — ■ Fentanyl/ Heroin Related Deaths + — ▲ Cocaine Related Deaths+

All Drug Deaths: 2010: 13.45, 2011: 15.25, 2012: 12.34, 2013: 14.51, 2014: 25.03, 2015: 33.00, 2016: 36.34, 2017: 36.35, 2018: 34.73, 2019: 30.53

EMS Narcan Administration:

*Data Source: NH Bureau of Emergency Medical Services (EMS)*

Trends:

- EMS Narcan administration incidents decreased by 17% from 2018 to 2019.
- 2019 was the first year EMS Narcan administration was under 2,000 incidents since 2014.
- In 2019, Hillsborough County had the most EMS Narcan administration incidents per capita with 18.82 incidents per 10,000 population and had the greatest decrease in incidents from 2018 to 2019, with a 26% reduction.
- Strafford County had the largest increase in EMS Narcan Administration from 2018 to 2019 with a 76% increase from 10.24 to 17.85 incidents per 10,000 population.
- The age group with the largest number of EMS Narcan administration incidents was 30-39, which represented 31% of all incidents for 2019.

*** IMPORTANT DATA NOTES***

- Narcan data in this report involves the number of incidents where Narcan was administered, NOT the number of doses of Narcan during a certain time period. Multiple doses may be administered during an incident.
- Narcan may be given for a decrease in alertness or respirations due to an overdose or unknown cause. Therefore, it cannot be concluded that all reported Narcan incidents actually involved drugs.

Opioid Related Emergency Department Visits:
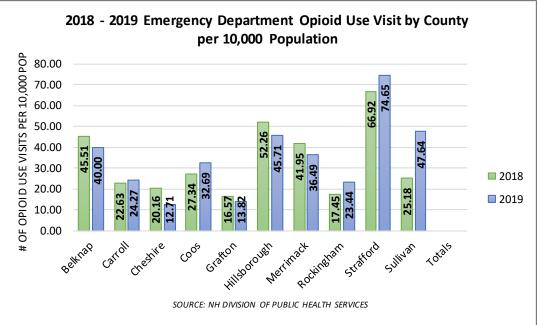

Data Source: NH Division of Public Health Services

Trends:

- Opioid related ED visits decreased by 1% from 2018 to 2019.
- For the fourth year in a row, residents from Strafford County had the most opioid related ED visits per capita with 74.65 visits per 10,000 population in 2019.
- Based on absolute numbers, residents from Hillsborough County had the most opioid related ED visits with 1,884 visits in 2019.
- In 2019, the age group with the largest number of opioid related ED visits was 30-39 which represented 37% of all opioid related ED visits for 2019, followed by 20-29 with 31%.

*** IMPORTANT DATA NOTES***

- County represents where the opioid use patient resides.
- These data represent any encounter with the term "heroin, opioid, opiate, or fentanyl" listed as chief complaint text. These data also represent any encounter with an ICD-10 code that was designated for heroin and opioids.
- These data include other opioid-related encounters such as poisonings, withdrawals, and detox.
