Join us for NHIP's quarterly conference calls where attendees will get the most up-to-date information on clinical and emerging topics related to all facets of immunizations.

Whether you are a new or experienced health care professional in the immunization world, the calls will offer a learning opportunity to enhance staff knowledge at all levels.

Agendas will include timely guest speakers, subject matter experts, an opportunity to ask questions, learn about upcoming trainings, and helpful and informative patient and health care provider resources.

One contact hour is available for RNs, LPNs, NPs, and MAs upon successful completion of the survey.

Watch for the Go to Webinar registration email prior to each call.

Your feedback is important to us. If you have topic suggestions or general feedback, please email [immunization@dhhs.nh.gov](mailto:immunization@dhhs.nh.gov) or call NHIP at 603-271-4482.
