TN No. 91-23

Attachment 3.1-B
Page 2
OMB No.: 0938-
1. **Inpatient Hospital Services**

Payment for inpatient hospital services is limited to medically necessary days only. Medically necessary days are days of stay approved by the State agency responsible for utilization review, or its designee, i.e., the Quality Improvement Organization (QIO), which evaluates the quality, necessity, and appropriateness of care and renders length of stay determinations.

All accommodations and ancillary services are paid for each approved, medically necessary day. The day(s) of discharge does not count toward the limit. No payment is made for days of stay beyond the determination of medical necessity.

Coverage of organ transplantation is limited as per Attachment 3.1-E.

Prior authorization is required for inpatient hospitalizations at out of state hospitals, excluding border facilities and emergency hospitalizations.

2. **Outpatient Hospital**

Payment for outpatient hospital services is limited to twelve (12) visits per recipient per state fiscal year. Limits may be exceeded if prior authorization is granted by the Department based on medical necessity. Visits to Urgent Care or the Emergency Department (ED) are not limited. The services associated with the outpatient hospital visit, and that may be performed by various practitioners, are also limited to twelve. This is a combination limit meaning that the services of physicians, ARNP’s, clinical psychologists and pastoral counselors count in combination toward a limit of 12 when provided in the outpatient hospital setting. This limit may be exceeded in conjunction with the outpatient hospital limit if prior authorization is granted by the Department based on medical necessity.

**b. Rural Health Clinic (RHC) Services – Hospital Based (HB) and Non-Hospital Based (NHB)** - are provided as defined in Section 1905(a)(2)(B) of the Social Security Act. RHC services include services provided by physicians (to include physician assistants under the supervision and direction of a physician in accordance with NH RSA 328-D:1), nurse practitioners, certified nurse midwives, clinical psychologists, clinical social workers, visiting nurses and other ambulatory services included in the NH Title XIX State Plan. RHC services also include services and supplies that are furnished incident to professional services furnished by a physician (to include a physician assistant under the supervision and direction of the physician), nurse practitioner, certified nurse midwife, and for visiting nurse care, medical supplies, other than drugs and biologicals. “Other ambulatory services” that are included in the NH Title XIX State Plan and covered as RHC services are covered according to the applicable descriptions, service limitations, and payment provisions described elsewhere in this Title XIX State Plan. Limits may be exceeded if prior authorization is granted by the Department based on medical necessity.
2. (continued)

c. Federally Qualified Health Center Services (FQHC's) and FQHC Look-A-Like (LAL) Services are provided as defined in Section 1905(a)(2)(C) of the Social Security Act. FQHC and FQHC-LAL services include services provided by physicians (to include physician assistants under the supervision and direction of a physician in accordance with NH RSA 328-D:1), nurse practitioners, certified nurse midwives, clinical psychologists, clinical social workers, visiting nurses and other ambulatory services included in the NH Title XIX State Plan. FQHC and FQHC-LAL services also include services and supplies that are furnished incident to professional services furnished by a physician (to include a physician assistant under the supervision and direction of the physician), nurse practitioner, certified nurse midwife, and for visiting nurse care, related medical supplies, other than drugs and biologicals. “Other ambulatory services” that are included in the NH Title XIX State Plan and covered as FQHC services are covered according to the applicable descriptions, service limitations, and payment provisions described elsewhere in this Title XIX State Plan. Limits may be exceeded if prior authorization is granted by the Department based on medical necessity.

3. Other Laboratory and X-Ray Services

Payment is limited to fifteen (15) diagnostic x-ray procedures per recipient per state fiscal year. This limit includes x-ray procedures when performed by a physician or an independent laboratory. Limits may be exceeded if prior authorization is granted by the Department based on medical necessity.

Prior authorization is required for the following diagnostic x-ray services unless they are performed as part of a hospital emergency department visit, as part of an inpatient hospitalization, or performed concurrent with, or on the same day as, an urgent care facility visit:

- computerized tomography (CT)
- magnetic resonance imaging (MRI)
- magnetic resonance angiography (MRA)
- positive emission tomography (PET)
- nuclear cardiology
4a. Nursing Facility Services

Payment for nursing facility care is available to both categorically and medically needy recipients in need of such care. Payment for nursing facility care must be prior authorized for a specified period of time based on the amount and length of care recommended by the recipient's physician. Payment is made for a non-private room. Determination of need for nursing facility care and authorization of payment for nursing facility care is made by the Office of Long Term Care.

Medicaid-only certified beds in which nursing facility services are provided shall be at or about 5,146 beds statewide. However, the Department of Health and Human Services does not intend to attain this number of beds unless there is a need for the beds to ensure access to services. Furthermore, the Commissioner or his/her designee shall approve certification of additional Medicaid-only nursing facility beds if needed to ensure access to nursing facility services.*

Nursing facility beds certified for both Medicare and Medicaid will be approved in accordance with He-Hea 904.

4b. Early and Periodic Screening and Diagnosis

Limited to federal requirements for the medically needy. Any limits to services provided in Attachment 3.1-B do not apply to individuals under EPSDT as long as medical necessity criteria as determined by the Medical Services Unit has been met.

4c. Family Planning Services

Payment for family planning services is subject to the limitations of each service category under which it falls. Family planning services provided by agencies under contract obligation with the Office of Community and Public Health shall include education and counseling services.

*The legislature has mandated that funding be made available for appropriate and effective alternatives to nursing facility services. This can be accomplished by providing funding only for the number of nursing facility beds that are necessary to achieve the purpose of providing nursing facility services. The number of beds available to Medicaid eligibles is currently significantly greater than the number of beds occupied.
State/Territory: New Hampshire

AMOUNT, DURATION AND SCOPE OF SERVICES PROVIDED MEDICALLY NEEDY GROUP(s):

4.d Tobacco Cessation Counseling Services for Pregnant Women.*
   Provided:  ___ No limitations  X With limitations*

5.a. Physicians’ services whether furnished in the office, the patient’s home, a hospital, a nursing facility or elsewhere.
   Provided:  ___ No limitations  X With limitations*

b. Medical and surgical services furnished by a dentist (in accordance with section 1905(a)(5)(B) of the Act).
   Provided:  ___ No limitations  X With limitations*

*Description provided on attachment.
4d. Tobacco Cessation Counseling Services for Pregnant Women

Face-to-Face Tobacco Cessation Counseling Services Provided:
(a) By or under the supervision of a physician; and
(b) By any other health care professional who is legally authorized to furnish such services under state law and who is authorized to provide Medicaid coverable services other than tobacco cessation services; or*
(c) By any other health care professional legally authorized to provide tobacco cessation services under state law and who is specifically designated by the Secretary in regulations. (None are designated at this time; this item is reserved for future use.)

*describe if there are any limits on who can provide these counseling services

*any benefit package that consists of less than four (4) counseling sessions per quit attempt should be explained below.

Please describe any limitations:

NH allows either (8) counseling sessions per each of two quit attempts. Limits may be exceeded if prior authorization is granted by the Department based on medical necessity.

5a. Physician Services

Coverage for physician services is unlimited except for those physician services affiliated with outpatient hospital visits, which are limited (in combination with ARNP, clinical psychologist, and pastoral counselor services — 6d) to 12 per recipient per state fiscal year, except for emergency department (ED) and urgent care visits, which are not limited. Limits may be exceeded if prior authorization is granted by the Department based on medical necessity. Laboratory tests and diagnostic x-rays are not counted against the outpatient physician visit limit.

Except for kidney and tissue transplants, to include corneas, bone grafts, and skin transplants, which are covered without prior authorization, prior authorization is required for the coverage of physician services for organ transplants which include bone marrow, liver, heart, lung, heart-lung, pancreas, and pancreas-kidney. (See Attachment 3.1-E for specific details.) Certain surgical procedures to include bariatric surgery, breast reduction, blepharoplasty, panniculectomy, septoplasty and rhinoplasty also require prior authorization.

Non-covered organ transplantation and procurement services include physician services for the surgery, inpatient hospital services for the surgical admission(s), and organ procurement related to the following types of transplants: any type of organ or tissue transplant not specified above (including hairplasty) or more than two transplants of the same type of organ per recipient per lifetime.

In accordance with federal law, coverage for induced abortions is provided when the physician certifies that the pregnancy was the result of rape or incest or the woman suffers from a physical disorder, physical injury, or physical illness including a life-endangering physical condition caused by, or arising from, the pregnancy itself that would place the woman in danger of death unless an abortion is performed.

Physician laboratory and diagnostic radiology services are subject to the limit described under the Other Laboratory and X-ray service heading.

Services provided by licensed psychiatrists and ophthalmologists are included in the physician limits. Payment for refraction is limited to one (1) per recipient per state fiscal year, whether the provider is an optometrist or ophthalmologist.

5b. Medical and Dental Services

Services provided by a doctor of dental surgery or dental medicine which would otherwise be physician services are treated in the same manner as physicians in accordance with 5a.
6. Medical care and any other type of remedial care recognized under State law, furnished by licensed practitioners within the scope of their practice as defined by State law.

   a. Podiatrists' Services
      \[X\] Provided: \(\) No limitations \(\) With limitations\(^*\)

   b. Optometrists' services.
      \[X\] Provided: \(\) No limitations \(\) With limitations\(^*\)

   c. Chiropractors' services
      \(\) Provided: \(\) No limitations \(\) With limitations\(^*\)

   d. Other practitioners' services
      \[X\] Provided: \(\) No limitations \(\) With limitations\(^*\)

7. Home health services.

   a. Intermittent or part-time nursing services provided by a home health agency or by a registered nurse when no home health agency exists in the area.
      \[X\] Provided: \(\) No limitations \(\) With limitations\(^*\)

   b. Home health aide services provided by a home health agency.
      \[X\] Provided: \(\) No limitations \(\) With limitations\(^*\)

   c. Medical supplies, equipment, and appliances suitable for use in the home.
      \[X\] Provided: \(\) No limitations \(\) With limitations\(^*\)

   d. Physical therapy, occupational therapy, or speech pathology and audiology services provided by a home health agency or medical rehabilitation facility.
      \[X\] Provided: \(\) No limitations \(\) With limitations\(^*\)

\(^*\)Description provided on attachment.
6a. **Podiatrists' Services**

Payment for the services of licensed podiatrists is limited to four (4) visits per recipient per state fiscal year. Limits may be exceeded if prior authorization is granted by the Department based on medical necessity.

Podiatrist services shall be covered for medical and surgical treatments of the foot and lower leg for pathological conditions of the foot due to localized illness, injury, or symptoms involving the foot. Prevention and reduction of corns, calluses, and warts are covered if by cutting or surgical means only. Other licensed podiatrist services include routine foot care and trimming and burring of nails, including mycotic nails, performed by a podiatrist provided that:

The recipient's primary health care provider has documented in the recipient's medical record the recipient's current medical condition justifies the need for such foot care to be performed by a podiatrist; and

The primary health care provider has written a referral to a podiatrist for such care, and the referral is maintained in the recipient's record.

6b. **Optometrists' Services**

Payment to state licensed optometrists or ophthalmologists for refraction is limited to one (1) per recipient per state fiscal year whether the provider is a licensed optometrist or ophthalmologist. The limit may be exceeded if prior authorization is granted by the Department based on medical necessity.

6c. **Chiropractors' Services**

Not provided

6d. **Other Practitioners' Services**

**Clinical Psychologist**

Treatment provided by a licensed clinical psychologist, who is not on the staff of a community mental health center, is unlimited except for psychotherapy treatment affiliated with outpatient hospital services. Clinical psychologist services (in combination with ARNP and pastoral counselor services in 6d, and physician services in 5a) that are affiliated with outpatient hospital visits are limited to 12 per recipient per state fiscal year, except for emergency department (ED) and urgent care visits, which are not limited. Limits may be exceeded if prior authorization is granted by the Department based on medical necessity.
6d. Other Practitioner's Services (cont)

Advanced Registered Nurse Practitioners
Section 6405 of P.L. 101-239 (OBRA 1989) is met by ARNP. Treatment provided by advanced registered nurse practitioners (known as advanced practice registered nurses-APRN's-in NH) who meet state licensure requirements is unlimited except for psychotherapy treatment affiliated with outpatient hospital services. ARNP psychotherapy services (in combination with clinical psychologist and pastoral counselor services in 6d, and physician services in 5a) that are affiliated with outpatient hospital visits are limited to 12 per recipient per state fiscal year, except for emergency department (ED) and urgent care visits which are not limited. Limits may be exceeded if prior authorization is granted by the Department based on medical necessity.

Certified Midwives
Midwife services comprised of the necessary supervision, care, and advice provided to women during the pregnancy, labor and postpartum period, and including care of the newborn, shall be provided pursuant to RSA 326-D and by individuals certified to practice midwifery in New Hampshire pursuant to RSA 326-D:6. For purposes of this Title XIX state plan service, certified midwives shall be considered the equivalent of licensed practitioners per CMS.

Pastoral Counselors
Psychotherapy services provided by a licensed pastoral counselor, who is not on the staff of a community mental health center, is unlimited except for psychotherapy treatment affiliated with outpatient hospital services. Pastoral counselor psychotherapy services (in combination with clinical psychologist and ARNP services in 6d, and physician services in 5a) that are affiliated with outpatient hospital visits are limited to 12 per recipient per state fiscal year, except for emergency department (ED) and urgent care visits, which are not limited. Limits may be exceeded if prior authorization is granted by the Department based on medical necessity.

Master Licensed Alcohol and Drug Counselors (MLADC) and Licensed Alcohol and Drug Counselors (LADC)
MLADC’s who are licensed by the NH Board of Licensing for Alcohol and other Drug Use Professionals and LADC’s who are permitted to engage in independent practice in accordance with Chapter Law 189:2, II, Laws of 2008, and Chapter Law 249:24, V, Laws of 2010, shall be permitted to provide only certain Substance Use Disorder (SUD) Treatment and Recovery Support Services as allowed by the Department.
7. **Home Health Services**

Home health services are provided in accordance with 42 CFR 440.70 and include nursing services, home health aide services, and the services specified in 7c- and 7d. Home health services are provided to a recipient on his or her physician's orders as part of a written plan of care that the physician reviews every 60 days, except as specified in 42 CFR 440.70(b)(3). A face to face encounter, in accordance with 42 CFR 440.70(f), is required. Medicaid recipients do not have to be homebound in order to receive home health services. Home health services can be provided in any non-institutional setting in which normal life activities take place. Medical supplies, equipment and appliances suitable for use in any setting in which normal life activities take place are provided in accordance with physician review and other requirements as specified in 42 CFR 440.70(b)(3).

Home health agencies must meet the Medicare conditions of participation in 42 CFR Part 484.

Services cannot be provided in a hospital, nursing facility, or ICF-MR, except as allowed at 42 CFR 470.70(c).

7c. **Medical Supplies, Equipment and Appliances**

Prior authorization is required for the purchase of most (prosthetics and orthotics which fall under DME in the department's rules, but under item #12 in the state plan, do not require prior authorization) durable medical equipment as detailed in the department's rules at He-W 571, as well as for modifications to manual or power wheelchairs. Repairs to power wheelchairs require prior authorization if the repairs total $800 or more.

Prior authorization is required for disposable diapers and related incontinence supplies for recipients 21 years of age and older. Other medical supplies do not require prior authorization.

7d. **Physical and Occupational Therapy, Speech Pathology and Audiology Services**

When provided by a home health agency, visiting nurse association or independent therapist, these services are limited to eighty (80), fifteen minute units per recipient per state fiscal year. The eighty (80) units may be used for one type of therapy or in any combination of therapies. Limits may be exceeded if prior authorization is granted by the Department based on medical necessity.

Physical, Occupational and Speech Pathology/Audiology Services are provided in accordance with the service and practitioner requirements of 42 CFR 440.110 and 42 CFR 440.70(b)(4).
8. Private duty nursing services.
   □/ Provided: □ No limitations □/ With limitations*

9. Clinic services.

Supersedes
TN No. 86-8
TN No. 86-2b

Approval Date 5/14/87 Effective Date 10/1/86

HCFA ID: 0140P/0102A
8. **Private Duty Nursing Services**

Private duty nursing services which are covered are those provided by a registered or licensed practical nurse under the order and general direction of the patient's physician to a patient only in his place of residence, not a long term care facility. Prior authorization is required every sixty (60) days from the Department.

9. **Clinic Services**

Out-of-state clinic services require prior authorization from the Department. Such payment authorization may be given only if substantiated by the attending physician's statement of medical necessity.

10. **Dental Services**

Treatment covered for recipients under 21 includes: (a) prophylaxis every 150 days, (b) restorative treatment, (c) periodic examinations, no more frequently than every one hundred fifty days, unless they are medically necessary to diagnose an illness or condition, (d) vital pulpotomy, (e) extractions of symptomatic teeth associated with diagnosed pathology as documented in the provider's treatment record, (f) extractions of asymptomatic teeth subject to prior authorization, with the exception of third molars for which the prior authorization requirement is suspended through May 31, 2015, (g) extractions of third molars associated with diagnosed pathology as documented in the provider's treatment record, and subject to prior authorization, except that the prior authorization requirement is suspended through May 31, 2015, (h) general anesthesia and nitrous oxide analgesia, (i) orthodontic therapy subject to prior authorization, (j) x-rays including complete or panoramic every 5 years, bitewings every 12 months if medically necessary, and all types regardless of limits if required to complete a differential diagnosis, (k) palliative treatment, (l) removable prosthesis replacement of permanent teeth, subject to prior authorization (m) topical fluoride treatment two times/year, (n) endodontia, including root canal therapy, (o) crowns, (p) periodontic treatment limited to prophylaxis, scaling, and root planing, (q) sealants for permanent and deciduous molars every 5 years, (r) surgical periodontal treatment subject to prior authorization, and (s) any other services that meet EPSDT medical necessity criteria as determined by the Department. Any limits to services do not apply to EPSDT recipients as long as medical necessity criteria as determined by the Department have been met.

Dental services covered for recipients 21 and over for the treatment for relief of acute pain or elimination of acute infection are: (a) palliative treatment, (b) extraction of the causative tooth or teeth, (c) treatment of severe trauma, (d) surgical procedures performed in a hospital, and (e) x-rays for areas described above.

Prior authorization from the Department is required for (a) orthodontic therapy considered under the EPSDT medical necessity provisions, and (b) services not listed but identified in an EPSDT screening. Prior authorization for orthodontic therapy is granted based upon substantiation of the meeting of conditions specified by the Department. Orthodontic therapy is covered only until the recipient reaches the age of 21.
11. Physical Therapy and Related Services

When provided by a home health agency, visiting nurse association, or independent therapist, these services are limited to eighty (80) 15-minute units per recipient per state fiscal year. The eighty (80) units may be used for one type of therapy or in any combination of therapies in an outpatient setting. Prior authorization from the Medicaid Administration Bureau is required when therapy services are prescribed over the service limit.

Services provided by a rehabilitation center are limited to twelve (12) visits per recipient per fiscal year for all types of services except therapies which are subject to the above limits.

12a. Prescribed Drugs

Co-payments for prescribed drugs are described in Section G, “Medicaid Premiums and Cost Sharing” of the state plan.

Maintenance medication, which is defined as legend or non-legend medication to be used for routine, continuous therapy for at least 120 days, shall be dispensed as follows:

- Solid oral drugs shall be dispensed as a minimum supply of 30 days and a maximum supply of 90 days with the exception of oral contraceptives as described below; and
- Solid oral contraceptive drugs shall be dispensed as a minimum supply of 28 days and a maximum supply of 12 months.

Prior authorization is required for certain drugs appearing on a list maintained by the New Hampshire Department of Health and Human Services and updated as necessary.

Per Section 1927(d)(5) of the Act, the prior authorization program provides a response by telephone or other telecommunication device within 24 hours of a request. In an emergency situation, the prior authorization program provides for the dispensing of at least a 72-hour supply of a covered drug.
12a. Prescribed Drugs (continued)

Preferred Drug Lists and Supplemental Rebate Agreements:

In accordance with Section 1927 of the Social Security Act, the state has established a preferred drug list.

Certain covered products, in accordance with Section 1927 of the Social Security Act, may not be among the baseline preferred drugs identified by the Drug Utilization Review (DUR) Board for various therapeutic classes. All Medicaid covered products remain available through the Medicaid program, but may require prior authorization. The state, or the state in consultation with a contractor, may negotiate supplemental rebate agreements that would reclassify any drug not designated as preferred in the baseline listing for as long as the agreement is in effect.

The prior authorization program provides a response by telephone or other telecommunication device within 24 hours of a request. In an emergency situation, the prior authorization program provides for the dispensing of at least a 72-hour supply of a covered drug.

The state is in compliance with Section 1927 of the Social Security Act. Based on the requirements for Section 1927 of the Act, the state has the following policies for the supplemental drug rebate program for the Medicaid population:

- Supplemental rebate agreements between the state and a pharmaceutical manufacturer will be separate from federal rebates and are in excess of those required under the national drug rebate agreement.

- Effective September 1, 2019, the Department will implement a single state-managed PDL for all Medicaid participating managed care organizations (MCO's) and for Medicaid fee for service. The NMPI supplemental rebate agreements will apply to the drug benefit, both fee for service and those paid by contracted MCO's, under prescribed conditions in Attachment A-2 of the NMPI Supplemental Rebate Agreement, effective September 1, 2019.

- CMS has authorized New Hampshire to enter into the Michigan multi-state pooling agreement, also referred to as the National Medicaid Pooling Initiative (NMPI) for drugs provided to Medicaid recipients. The NMPI Supplemental Rebate Agreement (SRA) and the Amendment to the SRA submitted to CMS on April 9, 2004, have been authorized by CMS for pharmaceutical manufacturers' existing agreements through their current expiration dates. An updated NMPI SRA was submitted to CMS on January 25, 2008, and again on June 25, 2013, and has been authorized for any renewal and new agreements with pharmaceutical manufacturers for drugs provided to Medicaid recipients.

- Supplemental rebates received by the state in excess of those required under the national drug rebate agreement will be shared with the federal government on the same percentage basis as applied under the national rebate agreement.

- All drugs covered by the program, irrespective of any prior authorization requirement, will comply with provisions of the national drug rebate agreement.

- Manufacturers with supplemental rebate agreements are allowed to audit utilization data.

- The unit rebate amount is confidential and cannot be disclosed in accordance with Section 1927(b)(3)(D) of the Social Security Act.

TN No: 19-0020
Supersedes Approval Date 09/30/2019 Effective Date: 9/1/2019
TN No: 13-010
12a. Prescribed Drugs (continued)

Effective January 1, 2006, the Medicaid agency will not cover any Part D drug for full-benefit dual eligible individuals who are entitled to receive Medicare benefits under Part A or Part B.

1927(d)(2) and 1935(d)(2) 1. The Medicaid agency provides coverage for the following excluded or otherwise restricted drugs or classes of drugs, or their medical uses to all Medicaid recipients, including full benefit dual eligible beneficiaries under the Medicare Prescription Drug Benefit—Part D.

☐ No excluded drugs are covered

☒ The following excluded drugs are covered:

☒ (a) agents when used for anorexia, weight loss, weight gain (see specific drug categories below)
☐ (b) agents when used to promote fertility (see specific drug categories below)
☐ (c) agents when used for cosmetic purposes or hair growth (see specific drug categories below)
☐ (d) agents when used for the symptomatic relief of cough and colds (see specific drug categories below)
☒ (e) prescription vitamins and mineral products, except prenatal vitamins and fluoride (all are covered)
☒ (f) nonprescription drugs (see specific drug categories below)
☐ (g) covered outpatient drugs which the manufacturer seeks to require as a condition of sale that associated tests or monitoring services be purchased exclusively from the manufacturer or its designee (see specific drug categories below)
12a. **Prescribed Drugs (continued)**

The Medicaid agency lists specific categories of drugs below:

(a) All anorexia and weight gain drugs are covered. All weight loss drugs are covered if prior authorization criteria are met.

(f) Some are covered — see below.

(f) (continued)

Non-Legend Drug List

Insulins are covered for recipients. NH's Preferred Drug List (PDL) lists insulins available without prior authorization. Items in this list are listed alphabetically by therapeutic class, then by the generic name of the drug or drug ingredients. Only the generic versions, singly or in combination, regardless of strength or dosage form, are covered. Combination products will not be covered if they contain active ingredients that are not covered.

14. Services for individuals age 65 or older in institutions for mental diseases.

a. Inpatient hospital services.
   [X] Provided: [ ] No limitations [X] With limitations*

b. Skilled nursing facility services. NOT PROVIDED
   [ ] Provided: [ ] No limitations [ ] With limitations*

*Description provided on attachment.
12c. **Prosthetic Devices**

Prior authorization is required for the purchase of hearing aids and ear molds. A written request, supported by a physician’s statement of medical necessity, must be submitted to the Medicaid Administration Bureau for hearing aids and ear molds.

12d. **Eyeglasses**

Payment for eyeglasses is limited to the following:

- one (1) pair of single vision glasses with lenses, provided that the refractive error is at least plus or minus .50 diopter according to the type of refractive error, in each eye.

- one (1) repair of glasses every 12 months, including replacement of the broken component(s) only.

- replacement of lenses or lenses and frames only when refractive error changes .50 diopter or more in both eyes.

- contact lenses, trifocal lenses, and ocular prostheses under certain conditions and with prior authorization.
12a. **Prescribed Drugs (continued)**

**Preferred Drug Lists and Supplemental Rebate Agreements:**

In accordance with Section 1927 of the Social Security Act, the state has established a preferred drug list. Certain covered products, in accordance with Section 1927 of the Social Security Act, may not be among the baseline preferred drugs identified by the Drug Utilization Review (DUR) Board for various therapeutic classes. All Medicaid covered products remain available through the Medicaid program, but may require prior authorization. The state, or the state in consultation with a contractor, may negotiate supplemental rebate agreements that would reclassify any drug not designated as preferred in the baseline listing for as long as the agreement is in effect.

The prior authorization program provides a response by telephone or other telecommunication device within 24 hours of a request. In an emergency situation, the prior authorization program provides for the dispensing of at least a 72-hour supply of a covered drug.

The state is in compliance with Section 1927 of the Social Security Act. Based on the requirements for Section 1927 of the Act, the state has the following policies for the supplemental drug rebate program for the Medicaid population:

- Supplemental rebate agreements between the state and a pharmaceutical manufacturer will be separate from federal rebates and are in excess of those required under the national drug rebate agreement.

- Effective September 1, 2019, the Department will implement a single state-managed PDL for all Medicaid participating managed care organizations (MCO's) and for Medicaid fee for service. The NMPI supplemental rebate agreements will apply to the drug benefit, both fee for service and those paid by contracted MCO's, under prescribed conditions in Attachment A-2 of the NMPI Supplemental Rebate Agreement, effective September 1, 2019.

- CMS has authorized New Hampshire to enter into the Michigan multi-state pooling agreement, also referred to as the National Medicaid Pooling Initiative (NMPI) for drugs provided to Medicaid recipients. The NMPI Supplemental Rebate Agreement (SRA) and the Amendment to the SRA submitted to CMS on April 9, 2004, have been authorized by CMS for pharmaceutical manufacturers' existing agreements through their current expiration dates. An updated NMPI SRA was submitted to CMS on January 25, 2008, and again on June 25, 2013, and has been authorized for any renewal and new agreements with pharmaceutical manufacturers for drugs provided to Medicaid recipients.

- Supplemental rebates received by the state in excess of those required under the national drug rebate agreement will be shared with the federal government on the same percentage basis as applied under the national rebate agreement.

- All drugs covered by the program, irrespective of any prior authorization requirement, will comply with provisions of the national drug rebate agreement.

- Manufacturers with supplemental rebate agreements are allowed to audit utilization data.

- The unit rebate amount is confidential and cannot be disclosed in accordance with Section 1927(b)(3)(D) of the Social Security Act.

**TN No:** 19-0020  
**Supersedes:**  
**TN No:** 13-010  
**Approval Date:** 09/30/2019  
**Effective Date:** 9/01/2019
13d. **Other Diagnostic, Screening, Preventive and Rehabilitative Services (continued)**

**Substance Use Disorder (SUD) Treatment and Recovery Support Services (continued)**

e. Medically monitored outpatient withdrawal management, consistent with Level 1-WM, ASAM Criteria 2013. Services shall be provided under an integrated or collaborative service model and, at this level, consist of outpatient withdrawal management without extended on-site monitoring. Services must be delivered by behavioral health personnel and other health care providers who provide a planned regimen of care in the outpatient setting. These providers shall be licensed psychotherapists, licensed MLADC’s, licensed physicians, or licensed APRN’s.

f. Crisis intervention when a recipient is facing a crisis or emergency situation and the crisis intervention is related to the recipient’s SUD. Crisis intervention is a response to a crisis or emergency situation experienced by an individual which is related to a recipient’s SUD. Services must be performed by licensed psychotherapy providers, licensed MLADC’s, LADC’s engaged in independent practice in accordance with NH statutes, licensed physicians, or licensed APRN’s.

g. Peer recovery support involving non-clinical services to help recipients and families identify and work toward strategies and goals around stabilizing and sustaining recovery and, as applicable, coordinating care by providing links to professional treatment and community supports. Peer recovery support services are recipient directed and delivered by peers who have lived experience with recovery and who are certified recovery support workers (CRSW) or licensed LADC’s or MLADC’s, all of whom must have at least 30 contact hours of recovery coach training approved by the NH Training Institute on Addictive Disorders, the NAADAC Association for Addiction Professionals, the New England Institute of Addiction Studies, the Addiction Technology Transfer Center, or the Connecticut Communities of Addiction Recovery Coach Academy. Supervision of the CRSW or LADC is carried out by an MLADC.

h. Non-peer recovery support including non-clinical group or individual services consistent with a recipient’s treatment plan that help to prevent relapse and promote recovery. Services must be provided by a CRSW or licensed LADC or MLADC. The CRSW and licensed LADC must be under the supervision of an MLADC.

i. Continuous recovery monitoring including recovery check-ups with recipients on a regular basis. Evaluations of the status of the recipient’s recovery, consideration of a broad array of recipient needs, and provision of active referral to community resources as applicable. Services must be provided by a CRSW or licensed LADC or MLADC. The CRSW and licensed LADC must be under the supervision of an MLADC.
13d. **Other Diagnostic, Screening, Preventive and Rehabilitative Services (continued)**

**Substance Use Disorder (SUD) Treatment and Recovery Support Services (continued)***

j. Evaluations to determine the existence and severity of the SUD and appropriate level of care for the recipient. This service must be provided by a licensed psychotherapist, a licensed MLADC, or a LADC engaged in independent practice in accordance with NH statutes.

k. Medically monitored residential withdrawal management consistent with Level 3.7-WM, ASAM Criteria 2013, meaning that such services are organized and delivered by behavioral health personnel and other health care providers who provide a planned regimen of care in a 24-hour live-in setting for the purpose of stabilizing situations of severe withdrawal. This residential setting is not an Institute for Mental Disease (IMD). Services must be delivered by licensed psychotherapists, licensed MLADC’s, licensed physicians, or licensed APRN’s.

l. Rehabilitative services, consistent with Level 3.1 and Level 3.5, ASAM Criteria 2013, as summarized at [https://www.medicaid.gov/state-resource-center/innovation-accelerator-program/iap-downloads/reducing-substance-use-disorders/asam-resource-guide.pdf](https://www.medicaid.gov/state-resource-center/innovation-accelerator-program/iap-downloads/reducing-substance-use-disorders/asam-resource-guide.pdf), or other services as described in a, h, and i above, in a facility licensed as a residential treatment and rehabilitation facility, or in a state-owned SUD residential treatment and rehabilitation facility which is exempt from licensure in accordance with RSA 151:2, II, i. This residential setting is not an Institute for Mental Disease (IMD). Recipients being treated at an ASAM 3.5 level of care must be present in the facility at least 22 hours per day. For recipients age 21 and over, this is a clinically managed, high-intensity residential service that includes a planned program of professionally directed evaluation, care and treatment for the restoration of functioning. For recipients under age 21, this service is a clinically managed, medium intensity, residential service that includes a planned program of professionally directed evaluation, care and treatment for the restoration of functioning.

Recipients treated at an ASAM 3.1 level of care receive a level of service that is a clinically managed, low intensity residential service that includes a planned program of professionally directed evaluation, care and treatment for the restoration of functioning. Services must be delivered by licensed psychotherapists, licensed MLADC’s, licensed physicians, or licensed APRN’s.

***Note: Additional coverage details regarding services a through l above are contained in the immediately following Supplement to this Page 5 Section related to SUD Treatment and Recovery Support Services***
13d. Other Diagnostic, Screening, Preventive and Rehabilitative Services

SUPPLEMENT TO: Substance Use Disorder (SUD) Treatment and Recovery Support Services

Additional Details and Descriptions of ASAM Levels Associated with SUD Services and/or More Detailed Service Descriptions (by service entry as described on pages 5-a 1 - 5-a 3)

a. Screenings: No additional description.

b. Individual, group, or family treatment consistent with Level 1, ASAM (Outpatient):

Support Systems

In Level 1 services, necessary support systems include:

- Continued treatment planning individualized to the patients’ needs
- Medical, psychiatric, psychological, laboratory, and toxicology services, which are available on-site or through consultation or referral. Medical and psychiatric consultation is available within 24 hours by telephone or, if in person, within a time frame appropriate to the severity and urgency of the consultation requested.
- Direct affiliation with (or close coordination through referral to) more intensive levels of care and medication management.
- Emergency services available by telephone 24 hours a day, 7 days a week.

Therapies

Therapies offered in Level 1 involve skilled treatment services, which may include evaluation, individual and group counseling, motivational enhancement, family therapy with patient present, psychoeducational groups, psychotherapy, addiction pharmacotherapy, or other skilled therapies. Skill restoration therapy which is defined as services intended to reduce or remove barriers to clients who are achieving and maintaining recovery is also included. Such services are provided in an amount, frequency, and intensity appropriate to the objectives of the treatment plan. Motivational enhancement and engagement strategies are used in preference to confrontational approaches. For patients with mental health conditions, the issues of psychotropic medication, mental health treatment, and their relationship to substance use and addictive disorders are addressed as the need arises. Therapies must be recommended by a physician or other licensed practitioner of the healing arts and furnished in accordance with page 5-a 1.
13d. Other Diagnostic, Screening, Preventive and Rehabilitative Services

SUPPLEMENT TO: Substance Use Disorder (SUD) Treatment and Recovery Support Services

Additional Details and Descriptions of ASAM Levels Associated with SUD Services and/or More Detailed Service Descriptions (by service entry as described on pages 5-a 1 - 5-a 3)

(Continued)

c. Intensive outpatient SUD services consistent with Level 2.1 ASAM:

Support Systems

In Level 2.1 programs, necessary support systems include:

- Continued treatment planning individualized to the patients’ needs
- Medical, psychological, psychiatric, laboratory, and toxicology services, which are available through consultation or referral. Psychiatric and other medical consultation is available within 24 hours by telephone and within 72 hours in person.
- Emergency services, which are available by telephone 24 hours a day, 7 days a week when the treatment program is not in session.
- Direct affiliation with (or close coordination through referral to) more and less intensive levels of care and supportive housing services.

Therapies

Therapies offered by Level 2.1 programs include:

- A minimum of 3 hours per day, 3 days per week for adults (age 21 and over) and 2 hours per day, 3 days per week for adolescents (under age 21) of skilled treatment services. Such services may include evaluation, individual and group counseling, medication management, family therapy with patient present, psychoeducational groups, and other skilled therapies. Skill restoration therapy which is defined as services intended to reduce or remove barriers to clients who are achieving and maintaining recovery is also included. Services are provided in amounts, frequencies, and intensities appropriate to the objectives of the treatment plan.
- In cases in which the patient is not yet fully stable to safely transfer to a Level 1 program that is not associated with the treatment agency, the patient’s treatment for Level 1 services may be continued within the current Level 2.1 program. Therapies must be recommended by a physician or other licensed practitioner of the healing arts and furnished in accordance with page 5-a 1.
- Family therapy for the family members, guardians, or significant others and which is for the direct benefit of the patient in accordance with the patient’s needs and treatment goals identified in the patient’s treatment plan, and for the purpose of assisting in the patient’s recovery.
- A planned format of therapies delivered on an individual and group basis and adapted to the patient’s developmental stage and comprehension level.
- Motivational interviewing, enhancement, and engagement strategies, which are used in preference to confrontational approaches.
13d. Other Diagnostic, Screening, Preventive and Rehabilitative Services

SUPPLEMENT TO: Substance Use Disorder (SUD) Treatment and Recovery Support Services

Additional Details and Descriptions of ASAM Levels Associated with SUD Services and/or More Detailed Service Descriptions (by service entry as described on pages 5-a 1 - 5-a 3)

(Continued)

d. Partial hospitalization consistent with Level 2.5 ASAM:

Support Systems

In Level 2.5 programs, necessary support systems include:

- Continued treatment planning individualized to the patients’ needs
- Medical, psychological, psychiatric, laboratory, and toxicology services, which are available through consultation or referral. Psychiatric and other medical consultation is available within 8 hours by telephone and within 48 hours in person.
- Emergency services, which are available by telephone 24 hours a day, 7 days a week when the treatment program is not in session.
- Direct affiliation with (or close coordination through referral to) more and less intensive levels of care and supportive housing services.

Therapies

Therapies offered by Level 2.5 programs include:

- A minimum of 20 hours per week of skilled treatment services. Services may include evaluation, individual and group counseling, medication management, family therapy with patient present, psychoeducational groups, and other skilled therapies. Skill restoration therapy which is defined as services intended to reduce or remove barriers to clients who are achieving and maintaining recovery is also included. These are provided in the amounts, frequencies, and intensities appropriate to the objectives of the treatment plan. Therapies must be recommended by a physician or other licensed practitioner of the healing arts and furnished in accordance with page 5-a 1.
- Family therapy for the family members, guardians, or significant others and which is for the direct benefit of the patient in accordance with the patient’s needs and treatment goals identified in the patient’s treatment plan, and for the purpose of assisting in the patient’s recovery.
- A planned format of therapies delivered on an individual and group basis and adapted to the patient’s developmental stage and comprehension level.
- Motivational enhancement and engagement strategies, which are preferred over confrontational approaches.
13d. Other Diagnostic, Screening, Preventive and Rehabilitative Services

SUPPLEMENT TO: Substance Use Disorder (SUD) Treatment and Recovery Support Services

(Continued)

e. Medically monitored outpatient withdrawal management consistent with Level 1-WM ASAM:

Support Systems

In Level 1-WM withdrawal management, support systems feature the following:

- Continued treatment planning individualized to the patients’ needs
- Availability of specialized psychological and psychiatric consultation and supervision for biomedical, emotional, behavioral, and cognitive problems as indicated.
- Ability to obtain a comprehensive medical history and physical examination of the patient at admission.
- Affiliation with other levels of care, including other levels of specialty addiction treatment, for additional problems identified through a comprehensive biophysical assessment.
- Ability to conduct and/or arrange for appropriate laboratory and toxicology tests, which can be point-of-care testing.
- 24-hour access to emergency medical consultation services should such services become indicated.
- Assist in accessing transportation services for patients who lack safe transportation.
- Coordinating discharge or transfer planning and referrals for counseling and community recovery support groups.

Therapies

Therapies offered by Level 1-WM withdrawal services, which must be recommended by a physician or other licensed practitioner of the healing arts and furnished in accordance with page 5-a 2, include individual assessment, medication or non-medication methods of withdrawal management, patient education, non-pharmacological clinical support, involvement of family members or significant others in the withdrawal management process with the patient present. Family involvement in the withdrawal management process is for the direct benefit of the patient in accordance with the patient’s needs and treatment goals identified in the patient’s treatment plan and for the purpose of assisting in the patient’s recovery.

Therapies also include physician and/or nurse monitoring, assessment and management of signs and symptoms of intoxication and withdrawal.

f. Crisis Intervention: No additional description

g. Peer Recovery Support: Services include:

- Alcohol and/or substance abuse services delivered by a peer with lived experience in recovery
- Preventive services to include individual skills development and restoration to prevent continuation or recurrence of substance misuse
- Psychoeducation interventions to support patients’ recovery
- Development (and periodic revision) of a specific recovery plan that is based on the information collected through the assessment that specifies the goals and actions to address the recovery goals and other services needed by the individual
- Ensuring the active participation of the patient, and working with the patient to develop and refine recovery goals
- Assuring the coordination of services and service planning within a provider agency, with other providers, and with other human service agencies and systems, such as local health and social services departments.
13d. Other Diagnostic, Screening, Preventive and Rehabilitative Services

SUPPLEMENT TO: Substance Use Disorder (SUD) Treatment and Recovery Support Services

k. Medically monitored residential withdrawal management consistent with Level 3.7-WM ASAM:

Support Systems

In Level 3.7-WM residential withdrawal management, support systems feature the following:

- Availability of specialized clinical consultation for biomedical, emotional, behavioral and cognitive problems for the purposes of care and treatment planning for the client
- Available of medical nursing care and observation, based on clinical judgement
- Direct affiliation with other levels of care
- Ability to conduct or arrange for appropriate laboratory or toxicology tests

Therapies

Therapies offered by Level 3.7-WM residential withdrawal management programs include daily clinical services to assess and address the needs of each patient. Such clinical services may include appropriate medical services, individual and group therapies, and withdrawal support. Hourly nurse monitoring of the patient’s progress and medication administration are available, if needed. The following therapies are provided as clinically necessary, depending on the patient’s progress through withdrawal management and the assessed needs in ASAM Dimensions 2 through 6:

- A range of cognitive, behavioral, medical, mental health and other skilled therapies are administered to the patient on an individual or group basis. These are designed to enhance the patient’s understanding of addiction, the completion of the withdrawal management process, and referral to an appropriate level of care for continuing treatment.
- Health education services.
- Services to families and significant others with the patient present and which is for the direct benefit of the patient in accordance with the patient’s needs and treatment goals identified in the patient’s treatment plan and for the purpose of assisting in the patient’s recovery.

1. Rehabilitative services in a residential treatment and rehabilitation facility consistent with Level 3.1 and Level 3.5 ASAM:

   Level 3.1: Clinically Managed Low-Intensity Residential Services (continued)

   Therapies

   Therapies offered by Level 3.1 programs include:

   - Daily clinical services to improve the patient’s ability to structure and organize the tasks of daily living and recovery to include preventive services to include individual skills development and restoration to prevent continuation or recurrence of substance misuse.
   - Planned clinical program activities (constituting at least 5 hours per week of professionally directed treatment) to stabilize and maintain the stability of the patient’s substance use disorder symptoms, and to help him or her develop and apply recovery skills. Activities may include relapse prevention, exploring interpersonal choices, and development of a social network supportive of recovery.
   - Addiction pharmacotherapy.
   - Random drug screening to monitor and reinforce treatment gains, as appropriate to the patient’s individual treatment plan.
   - Motivational enhancement and engagement strategies appropriate to the patient’s stage of readiness to change, which are used in preference to confrontational approaches.
   - Counseling and clinical monitoring to support successful initial involvement or reinvolvement in regular, productive daily activity (such as work or school) and, as indicated, successful reintegration into family living. Health education services are also provided.
   - Regular monitoring of the patient’s medication adherence.
   - Recovery support services.
   - Opportunities for the patient to be introduced to the potential benefits of addiction pharmacotherapies as a tool to manage his or her addictive disorder.

I. Rehabilitative services in a residential treatment and rehabilitation facility consistent with Level 3.1 and Level 3.5 ASAM (continued):

Level 3.5: Clinically Managed High-Intensity Residential Services (Adult Criteria)

Support Systems

In Level 3.5 programs, necessary support systems include:

- Continued treatment planning individualized to the patients’ needs
- Telephone or in-person consultation with a physician, or a physician assistant or nurse practitioner in states where they are licensed as physician extenders and may perform the duties designated her for a physician; emergency services, available 24 hours a day, 7 days a week.
- Assuring the coordination of services and service planning within a provider agency, with other providers, and with other human service agencies and systems, such as local health and social services departments.
- Stabilization of imminent risk as defined by ASAM.

Therapies

Therapies offered by Level 3.5 programs include:

- Daily clinical services to improve the patient’s ability to structure and organize the tasks of daily living and recovery to include preventive services to include individual skills development and restoration to prevent continuation or recurrence of substance misuse.
- Planned clinical program activities to stabilize and maintain stabilization of the patient’s addiction symptoms, and to help him or her develop and apply recovery skills. Activities may include relapse prevention, exploring interpersonal choices, and development of a social network supportive of recovery.
- Counseling and clinical monitoring to promote successful initial involvement or reinvolvement in regular, productive daily activity, such as work or school and, as indicated, successful reintegration into family living.

   Level 3.5: Clinically Managed High-Intensity Residential Services (Adult Criteria) (continued)
   Therapies (continued)

   Therapies offered by Level 3.5 programs include (continued from page 11):

   - Daily scheduled professional services, including interdisciplinary assessments and treatment, designed to develop and apply recovery skills. Such services may include relapse prevention, exploring interpersonal choices, and development of a social network supportive of recovery. Such services may also include medical services, nursing services, individual and group counseling, psychotherapy, family therapy with patient present, psychoeducational groups, and physical therapy as well as skill restoration therapy which is defined as services intended to reduce or remove barriers to clients who are achieving and maintaining recovery.
   - Planned community reinforcement designed to foster prosocial values and milieu or community living skills such as attending recovery support groups and engaging in pro-social activities.
   - Services for the patient’s family and significant others with the patient present which is for the direct benefit of the patient, in accordance with the patient’s needs and treatment goals identified in the patient’s treatment plan, and for the purpose of assisting in the patient’s recovery.
AMOUNT, DURATION AND SCOPE OF MEDICAL AND REMEDIAL CARE AND SERVICES PROVIDED

13 a, b, c, d. Other Diagnostic, Screening, Preventive and Rehabilitative Services

13c. Preventive Services – ACA Section 4106 Assurances

All of the preventive services assigned a grade of A or B by the United States Preventive Services Task Force (USPSTF), and all approved adult vaccines and their administration, recommended by the Advisory Committee on Immunization Practices (ACIP) are available to both categorically and medically needy recipients in need of such services. Such services are provided in accordance with Sections 1905(a)(13) and 1905(b) of the Social Security Act (SSA), as amended by Section 4106 of the Affordable Care Act (ACA). As stipulated by these federal regulations, the state does not impose any cost sharing on such services.

The state covers preventive services under the following benefit, as described in Attachment 3.1-A, Amount, Duration, and Scope of Medical and Remedial Care and Services Provided to the Categorically Needy, and 3.1-B, Amount, Duration, and Scope of Medical and Remedial Care and Services Provided Medically Needy Group, of the state plan:

- Outpatient Hospital Services/RHC/FQHC (2)
- Other Laboratory and X-Ray Services (3)
- Physician Services (5a)
- Medical Care and Other Types of Remedial Care (6)
- Home Health (7)
- Physical Therapy and Related Services (11)
- Nurse-midwife Services (17)

The payment methodology for each of the above noted benefits is described in Attachment 4.19-B, Methods and Standards for Establishing Payment Rates-Other Types of Care, of the state plan.

The state’s utilization review and approval procedures conforms to those specified by the USPSTF and ACIP periodicity or indications where specified.

The state has generated a crosswalk of appropriate codes and/or modifiers that are reflective of the USPSTF and ACIP recommendations. As changes are made to the USPSTF or ACIP recommendations, the state will update its coverage and billing codes to comply with those revisions.

The state has financial monitoring and documentation procedure in place to ensure proper claiming for the one percentage point increase in federal medical assistance percentage (FMAP) that apply to these expenditures, as permitted by Section 4106 of the ACA.
AMOUNT, DURATION AND SCOPE OF MEDICAL AND REMEDIAL CARE AND SERVICES PROVIDED

13 a. b. c. d. Other Diagnostic, Screening, Preventive and Rehabilitative Services

These services are generally covered under other types of services described elsewhere in this plan.

Additional Diagnostic, Screening, Preventive and Rehabilitative Services reimbursed by Medicaid include:

- those provided for eligible adults and children within screening programs such as Head Start, the Public School systems, and medical and dental screening programs conducted as part of approved and organized day care programs.

- those provided by agencies under current Bureau of Maternal and Child Health, Office of Community and Public Health, contract obligation.

Mental Health Services (Division of Behavioral Health) are covered as follows:

The limit for all community mental health services shall be $1,800 (Medicaid reimbursement) per recipient per state fiscal year. Medicaid recipients shall qualify to exceed the $1,800 limit if the community mental health program certifies that the recipient meets the criteria for one of the Division of Behavioral Health (DBH) eligibility categories. However, those individuals who meet the eligibility criteria as Adults with Severe or Severe and Persistent Mental Illness with Low Service Utilization shall not be allowed to exceed a $4,000 state fiscal year cap unless approved through a waiver request submitted to DBH.

Individual community mental health service limits shall also apply.

Any such services provided by an out-of-state provider require prior authorization for reimbursement.

Other Preventive and Rehabilitative Services covered include:

- those provided in a facility specifically designated for intensive inpatient rehabilitation services such as the Crotched Mountain Rehabilitation Center or one of such facilities in Massachusetts. Prior authorization is required.

- adult medical day care services provided in a licensed facility. Payment for adult medical day care services is made only when the recipient is determined to be medically frail and/or elderly by a physician and is not residing in an institution. Recipients must attend adult medical day care for a minimum of two days per week, five hours per day.

- early intervention services include client centered family training and counseling, developmental training, speech therapy, occupational therapy, and physical therapy. Specifically excluded from coverage are direct child day care, case management, and child transportation—the latter two being Medicaid covered services already.

TN No: 04-004
Supersedes
TN No: 01-003

Approval Date 6/25/2004 Effective Date: 01/01/2004
Preventive services provided by a registered nurse (RN) to a newborn and his/her mother at their home to include a physical assessment, preventive health education, and assistance with connecting with a primary health care provider and the State EPSDT program.

Medicaid services provided in a licensed supported residential health care facility (private non-medical institution) must have prior authorization by the Office of Medical Services.

A private non-medical institution for children is a residential child care facility. Covered services must be prior authorized by the Division for Children, Youth and Families.

Therapeutic foster care must be prior authorized by the Division for Children, Youth and Families. Covered services are client centered family mental health counseling, individual counseling, crisis intervention and stabilization and medical care coordination. Services are not subject to the 12 visit per recipient per state fiscal year limit for psychotherapy services.

Intensive Day Therapy is covered when prior authorized by the Division of Human Services. Intensive Day Therapy is a package of services which can include case management, occupational therapy, physical therapy, speech therapy and nursing services. Prior authorization is for a two (2) month period with a limit of six (6) months total. Recipient must generally receive a minimum of four (4) hours of service for five (5) days of each week.

Intensive Day Programming is covered when prior authorized by the Division for Children, Youth and Families. Based on a clinical assessment, each child receives an individually designed program of individual, group, and/or family system therapy and counseling. Services are not subject to the 12 visit per recipient per state fiscal year limit for psychotherapy services.

Crisis Intervention is covered when pre-approved by the Division for Children, Youth and Families. Covered services include therapeutic and intensive counseling, and are generally limited to a six week period. This service is available 24 hours per day, seven days per week. Services are not subject to the 12 visit per recipient per state fiscal year limit for psychotherapy services.

Child Health Support Services are covered when pre-approved by the Division for Children, Youth and Families. Covered services for foster children are provided by RN's and include a brief health screening at the time of the child's placement, referrals for comprehensive health and development assessments, health planning conferences, and follow-up care. Covered services for children in their own homes include an initial health assessment/health education, support counseling, and behavioral health management. Supervision of the services for children in their own homes is provided by a RN or licensed practical nurse (LPN). Supervision of the services for children in their own homes may be provided by a Master's level social worker, mental health worker or counselor when the services are support counseling and/or behavioral health management. Services provided to children in their own homes are usually limited to three (3) months.

Home Based Therapy Services are covered when pre-approved by the Division for Children, Youth and Families. Covered services include psychotherapy and mental health counseling and therapy. Services are not subject to the 12 visit per recipient per state fiscal year limit for psychotherapy services.
AMOUNT, DURATION AND SCOPE OF MEDICAL CARE AND SERVICES PROVIDED

Psychotherapy services provided by a clinical social worker, mental health counselor, marriage and family therapist, or other practitioner, who is certified by the NH Board of Examiners of Psychology and Mental Health Practice, and who is not on the staff of a community mental health center, are covered up to twelve (12) psychotherapy visits per recipient per state fiscal year-such visits to be counted toward the twelve (12) visit psychotherapy cap for all non-physician practitioners. The above providers must follow a treatment plan prescribed by a licensed practitioner who is licensed to provide psychotherapy services.

14a. Prior authorization is required before any payment is made for such services rendered out-of-state. No payment will be made for out-of-state care in an IMD if it is determined that the same care could have been provided in-state.
AMOUNT, DURATION AND SCOPE OF SERVICES PROVIDED
MEDICALLY NEEDY GROUP(S): ALL

15a. Intermediate care facility services (other than such services in an institution for mental diseases) for persons determined, in accordance with section 1902(a)(31)(a) of the Act, to be in need of such care.

X Provided: No limitations X With limitations*

b. Including such services in a public institution (or distinct part thereof) for the mentally retarded or persons with related conditions.

X Provided: No limitations X With limitations*

16. Inpatient psychiatric facility services for individuals under 22 years of age.

X Provided: No limitations X With limitations*

17. Nurse-midwife services.

X Provided: No limitations X With limitations*

18. Hospice care (in accordance with section 1905(o) of the Act and section 2302 of the Affordable Care Act which amends sections 1905(o)(1) and 2110(a)(23) of the Act to allow concurrent, curative care for children).

X Provided: X No limitations ___ With limitations*

___ Not provided

*Description provided on attachment.
AMOUNT, DURATION AND SCOPE OF MEDICAL AND REMEDIAL CARE SERVICES PROVIDED

14c. Payment for intermediate care services in institutions for mental disease is available to categorically and medically needy recipients in need of such care. Payment for intermediate care services in institutions for mental disease must be prior authorized for a specified period of time based on the amount and length of care recommended by the recipient's physician. Determination of need for, and authorization of payment for, intermediate care services in institutions for mental disease is made by the Office of Long Term Care.

15a. and 15b Intermediate Care Facilities

Payment for nursing facility care is available to both categorically and medically needy recipients in need of such care. Payment for nursing facility care must be prior authorized for a specified period of time based on the amount and length of care recommended by the recipient's physician. Payment is made for a non-private room. Determination of need for nursing facility care and authorization of payment for nursing facility care is made by the Office of Long Term Care.

Medicaid-only certified beds in which nursing facility services are provided shall be at or about 5,146 beds statewide. However, the Department of Health and Human Services does not intend to attain this number of beds unless there is a need for the beds to ensure access to services. Furthermore, the Commissioner or his/her designee shall approve certification of additional Medicaid-only nursing facility beds if needed to ensure access to nursing facility services. *

Nursing facility beds certified for both Medicare and Medicaid will be approved in accordance with He-Hea 904.

16. Inpatient Psychiatric Facility Services

Inpatient psychiatric facility services for individuals under 22 years of age are available to both categorically and medically needy recipients in need of such services. Providers must be designated by the director of the Division of Behavioral Health Services as a Designated Receiving Facility. A Designated Receiving Facility is any community mental health program or treatment facility which serves both voluntary and involuntary emergency hospitalization patients. Designated Receiving Facility services are:

1. In a physically separate area used exclusively for psychiatric patients;
2. Provided by staff with specialized training in mental illness and its treatment;
3. Provided by a facility with a discrete unit budget;
4. Provided by a facility accredited by JCAH under the psychiatric standards; and
5. Generally recognized as a discrete operating unit.

* The legislature has mandated that funding be made available for appropriate and effective alternatives to nursing facility services. This can be accomplished by providing funding only for the number of nursing facility beds that are necessary to achieve the purpose of providing nursing facility services. The number of beds available to Medicaid eligibles is currently significantly greater than the number of beds occupied.

17. **Nurse Midwife Services**

Nurse midwife services are provided to both the categorically and the medically needy under the categories of nurse midwife services, ARNP services, physician services, rural health clinic services and clinic services. They are subject to the limitations of the individual service categories described elsewhere in this plan. These services are performed by ARNPs (see Other Practitioner's Services).
18. **Hospice Services**

Hospice services are provided in accordance with Section 1905(o) of the Act. The state is following the same election periods established in Section 1812(d)(1). Additionally, the state's hospice program is in accordance with section 2302 of the Affordable Care Act which amends sections 1905(o)(1) and 2110(a)(23) of the Act, i.e., a voluntary election to have payment made for hospice care for a child shall not constitute a waiver of any rights of the child to be provided with, or have payment made under Title XIX for, services that are related to the treatment of the child's condition for which a diagnosis of terminal illness has been made. The state elects to define "child," as a recipient under 21 years of age.
19. Case management services and Tuberculosis related services
   a. Case management services as defined in, and to the group specified in, Supplement 1 to ATTACHMENT 1.1-A (in accordance with section 1905(a)(19) or section 1915(g) of the Act).
      X Provided: X With limitations*  
      Not provided.
   b. Special tuberculosis (TB) related services under section 1902(a)(19) of the Act.
      X Provided: X With limitations  
      Not provided.

20. Extended services for pregnant women.
   a. Pregnancy-related and postpartum services for a 60-day period after the pregnancy ends and for any remaining days in the month in which the 60th day falls.
      X Provided: X Additional coverage  
      Not provided.
   b. Services for any other medical conditions that may complicate pregnancy.
      X Provided: X Additional coverage  
      Not provided.

21. Certified pediatric or family nurse practitioners' services.

   X Provided: X With limitations  
   Not provided.

   + Attached is a list of major categories of services (e.g., inpatient hospital, physician, etc.) and limitations on them, if any, that are available as pregnancy-related services or services for any other medical condition that may complicate pregnancy.
   ++ Attached is a description of increases in covered services beyond limitations for all groups described in this attachment and/or any additional services provided to pregnant women only.

*Description provided on attachment.
20. **Extended Services to Pregnant Women**

a. Major categories of services covered are the same services covered under this state plan for all categorically and medically needy Medicaid recipients. However, pregnant women are exempt from the physician service limit.

Extended services provided by Office of Community and Public Health (OCPH) contracted prenatal programs are exempt from the service limits. OCPH contracted prenatal programs provide services such as coordination with the WIC Program and case management services. Services include sixty (60) days post partum.

b. Major categories of service covered are the same services covered under this state plan for all categorically and medically needy Medicaid recipients.

Services are subject to the limitations stated elsewhere under each specific service listed in Attachment 3.1-A and 3.1-B, except that pregnant women are exempt from the physician service limit.

c. Outpatient substance abuse treatment is available to pregnant and post partum women when provided by agencies under contract obligation with the Division of Alcohol and Drug Abuse Prevention and Recovery (DADAPR) to provide substance abuse services to pregnant and post partum women, and with the Office of Community and Public Health to provide prenatal and post partum services.

Substance abuse treatment services are also available to pregnant and post partum women who reside at residential treatment and rehabilitation facilities of fewer than 17 beds that are under contract obligation with the Division of Alcohol and Drug Abuse Prevention and Recovery (DADAPR) to provide substance abuse services to pregnant and post partum women, and that will allow the residents to bring their minor children of the women residents, and that sign a provider agreement addendum that stipulates reporting requirements.

Approval Date 5/28/2002 Effective Date: 01/01/2002
23a. Transportation

Transportation to obtain necessary medical care is provided to both the categorically needy and the medically needy. Emergency medical transportation is described below. Non-emergency medical transportation (NEMT) is provided via a broker and is described at the end of Attachment 3.1-A as Addendum 1.

Payment will not be made to a medical service provider transporting recipients to his/her location of service, unless otherwise noted herein.

Hospital-based ambulance service providers may be reimbursed as providers of ambulance services when the operating costs of the ambulance service are not incorporated into the reimbursement rates for the hospital.

Emergency Ambulance and Air Ambulance Transportation:
Emergency ambulance transportation is covered in the case of an emergency medical condition for transportation to the nearest acute care hospital with appropriate treatment facilities. Air ambulance for emergency medical conditions is covered if the recipient’s condition is such that s/he cannot be safely transported on a timely basis via an ALS ground transportation with appropriate staff and the recipient is at imminent risk of losing life or limb if the fastest means of transport is not utilized to move the recipient to the nearest facility capable of treating the recipient.
Transportation - Non-emergency

This addendum contains the narrative for 23a with the exception of air and emergency ambulance transport which is described following the 23a preprint page.

23. Any other medical care, and any other type of remedial care recognized under state law, specified by the Secretary in accordance with Section 1905(a)(28) of the Social Security Act and 42 CFR 440.170.

___ Non-emergency transportation is provided in accordance with 42 CFR 431.53 as an administrative service.

___ Without limitations ___ With limitations (describe limitations in a Supplement to 3.1B or in Attachment 3.1D)

*STOP HERE IF ANY OF THE ABOVE BOXES HAVE BEEN CHECKED*

___ Non-emergency transportation is provided without a broker in accordance with 42 CFR 440.170 as an optional medical service, excluding “school-based” transportation.

___ Without limitations ___ With limitations (describe limitations in a Supplement to 3.1B or in Attachment 3.1D)

(If non-emergency transportation is provided without a broker as an optional medical service or as an administrative service, the state should describe in Attachment 3.1D how the transportation program operates including types of transportation and transportation related service provided and any limitations. Describe emergency and non-emergency transportation services separately. Include any interagency or cooperative agreements with other agencies or programs.)

___ Non-emergency transportation is provided through a brokerage program as an optional medical service in accordance with 1902(a)(70) of the Social Security Act and 42 CFR 440.170(a)(4).

___ The State assures it has established a non-emergency medical transportation program in accordance with 1902(a)(70) of the Social Security Act in order to more cost effectively provide transportation and can document, upon request from CMS, that the transportation broker was procured in compliance with the requirements of 45 CFR 92.36(b)-(i).

TN No: 16-003
Supersedes
TN No: new page

Approval Date: 06/10/2016 Effective Date: 01/28/16
23. Transportation - Non-emergency (continued)

X (1) The State will operate the broker program without regard to the requirements of the following paragraphs of Section 1902(a):

   (1) State-wideness (Please indicate the areas of the State that are covered by the broker. If the State chooses to contract with more than one broker, the State must provide a separate preprint for each broker.)

X (10)(B) Comparability

X (23) Freedom of Choice

X (2) Transportation services provided will include:

X Wheelchair van
X Taxi
X Stretcher Car
___ Bus Passes
___ Tickets
X Secured Transportation
X Other Transportation (if checked, describe below other types of transportation provided)

Transportation is also provided for scheduled and routine non-emergency ambulance; rail (e.g. Amtrak), private auto, and bus (via post-trip reimbursement).

X (3) The State assures that transportation services will be provided under a contract with a broker who:

(i) is selected through a competitive bidding process based on the State's evaluation of the broker's experience, performance, references, resources, qualifications, and costs;

(ii) has oversight procedures to monitor beneficiary access and complaints and ensures that transportation is timely and that transport personnel are licensed, qualified, competent, and courteous;

(iii) is subject to regular auditing and oversight by the State in order to ensure the quality and timeliness of the transportation services provided and the adequacy of beneficiary access to medical care and services;

(iv) complies with such requirements related to prohibitions on referrals and conflict of interest as the Secretary shall establish (based on prohibitions on physical referrals under Section 1877 and such other prohibitions and requirements as the Secretary determined to be appropriate.)

X (4) The broker contract will provide transportation to the medically needy. See the eligibility sections of the NH Title XIX State Plan in order to find descriptions of the eligibility categories.
23. Transportation - Non-emergency (continued)

___X___(5) Payment Methodology

(A) Please describe the methodology used by the State to pay the broker:

The broker will be paid a per member per month risk capitated rate to include the cost of transportation and administration.

(B) Please describe how the transportation provider will be paid:

The commercial transportation providers will be paid based on the contracted rate agreed to between the transportation provider and the broker. Friends and family will be paid a mileage rate determined by the broker and/or for receipts submitted for bus and rail travel.

(C) What is the source of the non-Federal share of the transportation payments?
Describe below the source of the non-Federal share of the transportation payments proposed under the state plan amendment. If more than one source exists to fund the non-Federal share of the transportation payment, please separately identify each source of non-Federal share funding.

State general funds.

___X___(D) The State assures that no agreement (contractual or otherwise) exists between the State or any form of local government and the transportation broker to return or redirect any of the Medicaid payment to the State or form of local government (directly or indirectly). This assurance is not intended to interfere with the ability of a transportation broker to contract for transportation services at a lesser rate and credit any savings to the program.

___X___(E) The State assures that payments proposed under this State plan amendment will be made directly to transportation providers and that the transportation provider payments are fully retained by the transportation providers and no agreement (contractual or otherwise) exists between the State or local government and the transportation provider to return or redirect any of the Medicaid payment to the State or form of local government (directly or indirectly).

___(F) The State has included Federal Medicaid matching funds as State match when drawing down FTA SAFETEA-LU grants. (not applicable; law has expired)

___X___(6) The broker is a non-governmental entity:

___X___ The broker is not itself a provider of transportation nor does it refer to or subcontract with any entity with which it has a prohibited financial relationship as described at 42 CFR 440.170(4)(ii).

___ The broker is itself a provider of transportation or subcontracts with or refers to an entity with which it has a prohibited financial relationship and:

____ Transportation is provided in a rural area as defined at 42 CFR 412.62(f) and there is no other available Medicaid participating provider or other provider determined by the State to be qualified except the non-governmental broker.
23. Transportation - Non-emergency (continued)

Transportation is so specialized that there is no other available Medicaid participating provider or other provider determined by the State to be qualified except the non-governmental broker.

The availability of other non-governmental Medicaid participating providers or other providers determined by the State to be qualified is insufficient to meet the need for transportation.

(7) The broker is a governmental entity and provides transportation itself or refers to or subcontracts with another governmental entity for transportation. The governmental broker will:

- Maintain an accounting system such that all funds allocated to the Medicaid brokerage program and all costs charged to the Medicaid brokerage will be completely separate from any other program.
- Document that with respect to each individual beneficiary’s specific transportation needs, the government provider is the most appropriate and lowest cost alternative.
- Document that the Medicaid program is paying no more for fixed route public transportation than the rate charged to the general public and no more for public para-transit services than the amount charged to other human services agencies for the same service.

(8) Please provide a complete description of how the NEMT brokerage program operates. Include all services provided by the broker (call center, oversight of providers, etc.). If applicable, describe any transportation services that will not be provided by the broker and how these services will be provided.

Scheduling: Recipients call the broker’s call center to request a ride to Medicaid covered services. The call center follows a script to determine the most available, cost-effective, and medically appropriate transportation for the recipient. The medical appointment is confirmed via a call to the Medicaid provider. The recipient is given the approval for “friends and family” transportation or a commercial subcontractor is notified by the transportation broker of a pending appointment and given the opportunity to accept or reject the booking.

Oversight, Management, and Informing: The broker is responsible for following the CFR oversight requirements which will also be monitored by the Department’s Program Integrity Unit. The broker is also responsible for maintaining appropriate documentation to support services rendered or denied and for providing timely payment to providers. Broker is also responsible for maintaining a grievance and appeals process and informing recipients of such process.

Coordination with Department: Weekly calls are held between the Department’s Client Services Unit, Policy Unit, and the transportation broker to discuss any unresolved issues or questions and to work on policies and forms related to the day to day implementation of the program. Other communications occur as needed.

Services: The broker does not arrange emergency transportation; these are state plan services.

23d. **Skilled Nursing Services for Patients Under 21**

Payment for such services is covered for both the categorically needy and the medically needy with the prior authorization of Medicaid Administrative Services. A written request, including the medical and nursing care information required to establish medical necessity, is accompanied by a statement of the child’s social situation from the district office social worker. Authorization for such payments is issued for a specified period of time with a provision for extending such authorization on request of the facility and the patient’s attending physician with accompanying medical substantiation.

23e. **Emergency Hospital Services**

Emergency hospital services are provided without prior authorization and are subject to the same utilization review and evaluation procedures by the Medicaid fiscal agent as would be true of other inpatient hospital services. Such services, when necessary in an out-of-state hospital, are provided at the request of the patient and/or hospital if the emergency nature of the service can be, in fact, substantiated by the facts of the situation.

Emergency hospital services are subject to the inpatient and outpatient hospital limits described elsewhere in this plan. That is, the limits for hospital services include both routine and emergency services.

23f. **Personal Care Services**

Personal care services are available to chronically wheelchair mobile categorically and medically needy recipients.

Personal care services prescribed by a physician may be provided in the recipient’s home. Additionally, personal care services may be provided in any other location as long as they are services that would otherwise have been provided in the home. However, in accordance with federal regulations at 42 CFR 440.167, personal care services may not be provided to a recipient who is an inpatient or resident of a hospital, nursing facility, intermediate care facility for the mentally retarded, or institution for mental disease.
24. Pediatric or family nurse practitioners' services as defined in Section 1905(a)(21) of the Act (added by Section 6405 of OBRA'89):
