Introduction

Pursuant to RSA 126-X:10, the Commissioner of the Department of Health and Human Services shall report annually on the Therapeutic Cannabis Program established under RSA 126-X. The report shall be made to the NH Health and Human Services Oversight Committee established under RSA 126-A:13, the NH Board of Medicine, and the NH Board of Nursing.

The report shall allow for identification of patterns of certification by qualifying patient and designated caregiver, location, age, medical condition, symptom or side effect, and medical provider, and for analysis and research to inform future policy, educational, and clinical decisions.

The report shall contain, at a minimum, the following data:

- (a) The number of designated caregivers and the number of qualifying patients, by town or city and county.
- (b) The ages of the qualifying patients and the ages of the designated caregivers.
- (c) The qualifying medical conditions and the number of each qualifying medical condition.
- (d) The qualifying symptoms or side effects and the number of each symptom or side effect.
- (e) The number of physicians and the number of advanced practice registered nurses issuing written certifications.
- (f) The number of providers in each medical specialty issuing written certifications.
- (g) Any other issues related to the therapeutic use of cannabis permitted under this chapter that the health and human services oversight committee shall request.

In addition, the report shall contain a summary of the report submitted by each alternative treatment center as required under RSA 126-X:8, XII, and NH Administrative Rule He-C 402.10(q).

Therapeutic Cannabis Program Registry Data

The data presented in this section reflects data in the Therapeutic Cannabis Program Registry Database as of June 30, 2017. In order to protect the confidentiality of qualifying patients and designated caregivers, where fewer than five individuals are affected with regard to city or town the number of individuals has not been published.

Alternative Treatment Center (ATC) Annual Report Summary

The data presented in this section reflects ATC data between July 1, 2016 and June 30, 2017.

Qualifying Patient Satisfaction Survey Results

The data presented in this section reflects data gathered from qualifying patients between July 1, 2017 and August 15, 2017.

Recommendations for Program Improvement

ATC	Recommendations for Program Improvement
Prime	<ul style="list-style-type: none"> • Faster enrollment for patients or a temporary license that allows for faster access to the ATCs. • Removing the criminal background check and finger-printing process for caregivers
Sanctuary	<ul style="list-style-type: none"> • Allow the ATCs to make deliveries with one agent versus two. • Remove plant/usable weight limits. • Removing the 2oz per 10 day limit for people who require higher dosing. • Eliminate the non-profit requirement, which significantly constrains ATCs' cash flow, programmatic reinvestment and overall financial management.
Temescal	<ul style="list-style-type: none"> • Alternate process to photo on CD requirement- Allow ATCs to take photos and send to DHHS from retail locations. • One driver required for deliveries/lab drop off.
