

Query/Response Readiness Checklist

In order to pursue a **bidirectional** or **query-only** interface with NHIIS, you must meet all of the requirements below:

- Organization/facility operates within the State of New Hampshire.
- EHR/student management software supports **SOAP Web Services** using the CDC WSDL.
- EHR/student management software meets the requirements of the **CDC/AIRA HL7 Version 2.5.1 Implementation Guide for Immunization Messaging, Release 1.5, 10/1/2014, Updated October 2018** and the **NHIIS QBP Technical Specifications**.
- For bidirectional interfaces, the EHR/EMR software must also conform to the **NHIIS Local Delta Implementation Guide**.
 - Note: the VXU reporting component of a bidirectional interface can be completed prior to, or in conjunction with, QBP/RSP testing.
- Organization/facility and EHR/student management software vendor are ready and able to provide staff time and other resources necessary for the development, testing, configuration, and implementation of an interface with NHIIS.

In order to proceed with the **HL7 onboarding application process**, you must:

- Review relevant documentation on the NHIIS Onboarding website located at <https://www.dhhs.nh.gov/dphs/immunization/nhiis-hl7.htm>.
 - NHIIS HL7 Onboarding Process
 - NHIIS HL7 2.5.1 v1.5 technical Specification guide, QBP/RSP Technical Specification Guide
- Complete the required **NHIIS Onboarding Module** message conformance testing based on the type of interface being established.
- Complete the online **NHIIS HL7 Onboarding Registration Form**.
- Attend a project Kick-off Call with the NHIIS team.

CONTACT US

If needing assistance with preparing to onboard with NHIIS or have questions, please submit a helpdesk ticket by sending an email to nhiis.support@dhhs.nh.gov with the subject line of "NHIIS HL7 Issue." Include your complete name, organization/clinic name, email, and phone number with your details.
