

**Zika Virus
New Hampshire Summary Report
January 11, 2016 – August 1, 2017**

ZIKA VIRUS TESTING SUMMARY	
Number of people tested	713
Total # of pending results	11
Total # of negative results	794
Total # of positive results	16

Note: Number of testing results and number of people tested may not match because some people may have submitted more than one sample or more than one test may have been performed.

ZIKA VIRUS CASE SUMMARY	Female Pregnant	Female Not pregnant	Male	Congenital	TOTAL
Number of Zika Virus Cases in NH	3	4	6	1	14

Note: Number of positive results and number of cases may not match because some people may have submitted more than one sample or may not be a NH resident and therefore not counted as a NH case.
