# Community Mental Health Agreement Quarterly Data Report

New Hampshire Department of Health and Human Services

Publication Date: *December 11, 2023*

Reporting Period: 07/01/2023-09/30/2023

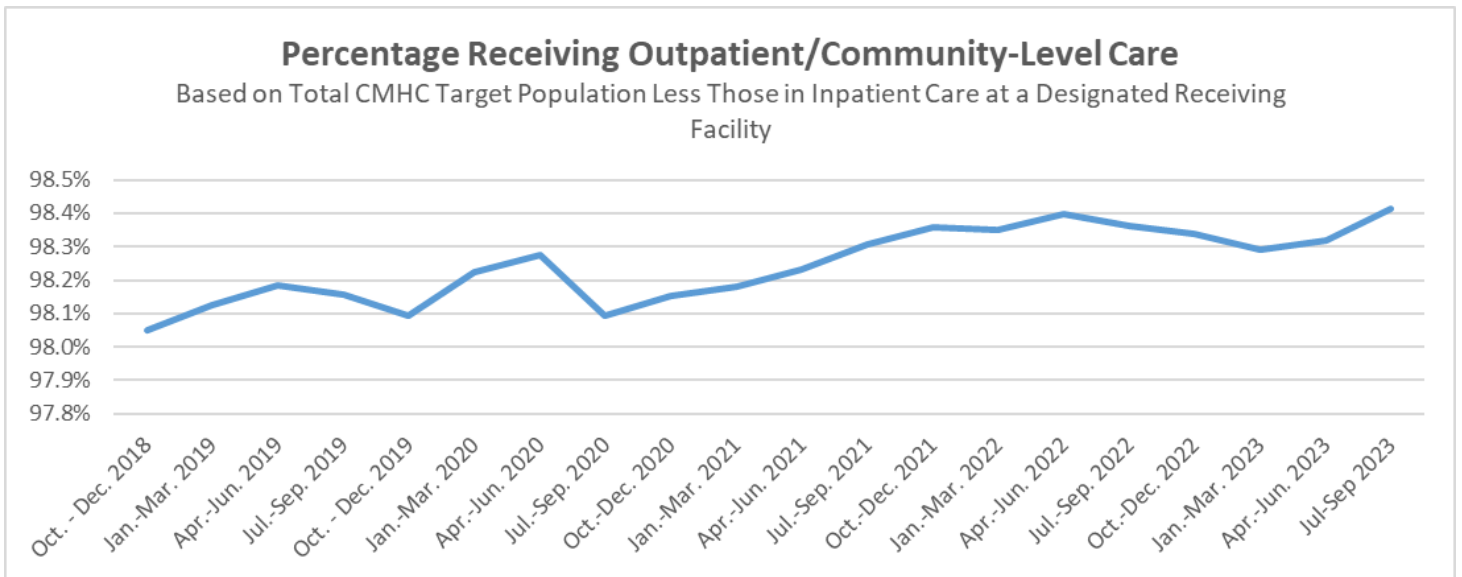

## Notes for Quarter

- Table 7. NH Mental Health Client Peer Support Agencies: Census Summary – Peer Support Agencies continue to operate a hybrid in-person and virtual model of services with on-site capacity developed during COVID-19. The Average Daily Visits reported includes the number of individuals participating in groups online and on-site.
- Table 11. NH DHHS BPQ is working extensively with the state RRAP contractor to improve, correct, and validate aggregate data provided. Because of this, data is not currently available for this quarterly report. When new data becomes available, the previous and current quarter will be analyzed and a new report will be issued.

Data Source: NH Phoenix 2. ACT screenings submitted through Phoenix capture ACT screenings provided to clients found eligible for state mental health services. Phoenix does not capture data for non-eligible clients.

Notes: Data extracted 10/26/2023. "Unique Clients Screened: Individuals Not Already on ACT" is defined as individuals who were not already on ACT at the time of screening that had a documented ACT screening during the identified reporting period. "Screening Deemed Appropriate for Further ACT Assessment: Individuals Not Already on ACT" is defined as screened individuals not already on ACT that resulted in referral for an ACT assessment. "New Clients Receiving ACT Services within 90 days of ACT Screening" are defined as individuals who were not already on ACT that received an ACT screening in the preceding quarter and then began receiving ACT services. Act screenings have decreased from previous quarter due to ISP Review requirement change to every 6 months instead of every quarter.

Data Source: New Hampshire Hospital.

Notes: Data compiled 11/08/2023. Numbers do not include those listed as “N/A on admission”, those representing moves outside of the catchment area, or those who were admitted from out-of-state and remained in-state.

Differences in total number of clients “On Act at Admission” and “Referred/Accepted to ACT at Discharge” may not align as clients could be discharged from ACT services if/when they are at NHH for a lengthy period of time. Clients are then re-referred to ACT upon discharge from NHH.

Data Source: Bureau of Mental Health CMHC ACT Staffing Census Based on CMHC self-report.

Notes: Data compiled 10/24/2023. For 2b: the Staff Competency values reflect the sum of FTEs trained to provide each service type. These numbers are not a reflection of the services delivered, but rather the quantity of staff available to provide each service. If staff are trained to provide multiple service types, their entire FTE value is credited to each service type.

\*Greater Nashua Mental Health is working with the State of New Hampshire to improve their data reporting of employment status, and data analytics continues to work with them to validate their numbers. This explains the variance in the counts of "Unemployed" and "Not In the Workforce" from the previous to current quarter.

Note 3b-c: Data extracted 10/24/2023. Updated Employment Status refers to CMHC-reported status and reflects the most recent update. Update is Current refers to employment status most recently updated within the past 105 days. Update is Overdue refers to employment status most recently updated in excess of 105 days. Actual client employment status may have changed since last updated by CMHC in Phoenix. Employed refers to clients employed in a competitive job that has these characteristics: exists in the open labor market, pays at least a minimum wage, anyone could have this job regardless of disability status, job is not set aside for people with disabilities, and wages (including benefits) are not less than for the same work performed by people who do not have a mental illness. Full time employment is 20 hours and above; part time is anything 19 hours and below. Unemployed refers to clients not employed but are seeking or interested in employment. Not in the Workforce are clients who are homemakers, students, retired, disabled, hospital patients or residents of other institutions, and includes clients who are in a sheltered/non-competitive employment

workshop, are otherwise not in the labor force, and those not employed and not seeking or interested in employment. Unknown refers to clients with an employment status of “unknown,” without a status reported, or with an erroneous status code in Phoenix.

Residents that met with In-Reach Liaison and others regarding community-based living and strategies**	1	1	6	9
<i>Community stakeholders and providers are better prepared to participate and collaborate in transition planning activities and to provide needed community-based services to residents seeking to return to community-based living as evidenced by:</i>				
Participated in resident-specific transition discussions with In-Reach Liaison**	11	15	6	7
Participated in meetings with resident, In-Reach Liaison, and others regarding opportunities for community-based living**	40	109	25	46

Revisions to Prior Period: None.

Data Source: BMHS.

Notes: Data compiled 10/27/2023; Counts of residents are unduplicated per each measure; a resident may be involved in more than one activity during the reporting period. Counts of activities are unduplicated.

\*\* Historically, there are additional conversations and activity when starting the initial transition plan for new residents. In-reach coordinator numbers vary depending on activities from quarter to quarter such as: The in-reach liaison increasing one to one conversation, varying interest with families, guardians or other providers, whether someone is actively in process of transitioning

to another placement, etc. There were more new admissions this quarter vs. the prior quarter, so there were more group meetings and discussions regarding initial transition planning. In reach coordinator does have frequent contact with residents and gives them the opportunity to have discussions, however those contacts may be brief and don't warrant documentation around a specific topic. There was an increase in in-reach activities this quarter due to new residential programs in development to support individuals in transitioning out of Glencliff Home into a lower level of care.

f. Percentage Housed Through Other Permanent Housing Voucher (e.g., HUD, Local Public Housing, Veterans Administration)	43	6.4%	0.4%	6.0%

Data Source: Bureau of Mental Health Services and Housing Bridge Providers.

Notes: Data Compiled 11/08/2023. Line 2.d. "Participants Linked" are Housing Bridge clients who received one or more mental health services within the previous 3 months, documented as a service or claim data found in Phoenix or the Medicaid Management Information System. Line 3.a. count is cumulative, increasing over time since inception within the CMHA Quarterly Data Report; it reflects participants who transitioned to permanent housing that is no longer funded by a Housing Bridge Subsidy. Line 3.b. is a count of CMHC clients who received a Section 8 Voucher during the reporting period but were not previously receiving a Housing Bridge Subsidy. Lines 3.c. and 3.d. counts are CMHC clients who received a PRA or Mainstream 811 funded unit with or without previously receiving a Housing Bridge Subsidy. Line 3.e. counts are criminal justice involved CMHC clients who received an Integrative Housing Subsidy from DHHS (a Bridge-like subsidy for individuals with an inability to currently qualify for a Section 8 voucher but are anticipated to be able to qualify after 5 or less years). Line 3.f. counts are CMHC clients who received a unit funded through other HUD or Public Housing sources with or without previously receiving a Housing Bridge Subsidy.

Data Source: Phoenix 2 & Rapid Response Access Point (RRAP).

Date Data Compiled 11/21/2023

Notes:

1. The data source of this data element is the Rapid Response Access Point (RRAP).
  2. Reported values, unless otherwise indicated, are not de-duplicated at the individual level. This means individuals can be counted multiple times for service use, hospital diversions, etc. This count does not include unique individuals served by the Access Point.
  3. "Referral Source to Access Point" counts include all referrals to the RRAP, regardless of if that contact was de-escalated and stabilized or if that contact resulted in a dispatch or deployment. This is a change/update from the last quarterly report. Therefore, counts for the prior quarter (April – June 2022) were updated with this methodology.
  4. CMHC Crisis Stabilization Services include "Peer Support," "Psychotherapy," and "Other" services delivered by the CMHC Rapid Response Team(s) (RRTs).
  5. Mental Health Provider counts include referrals made to the RRAP by a non-CMHC Mental Health Provider, as well as referrals made to the RRAP by the CMHC's Rapid Response Team (RRT) / CMHC Mental Health Provider.
  6. There continues to be reduced usage of Crisis Apartment beds. This is mainly attributable to staffing shortages and, as a result, adjustments were required for the apartments to operate. In some cases, the Community Mental Health Center needed to close some or all of their Crisis Apartments for a period of time (1 or 2 months) during the reporting period.
  7. Overall Data Note: The State of New Hampshire continues to work diligently with the RRAP and other crisis response partners to ensure data metrics are captured and reported out accurately and as completely as possible. As data discrepancies are uncovered and corrected, newly validated data will be reviewed internally and released if/when it becomes available.
- NA\*\*: NH DHHS BPQ is working extensively with the state RRAP contractor to improve, correct, and validate aggregate data provided. Because of this, data is not currently available for this quarterly report. When new data becomes available, the previous and current quarter will be analyzed and a new report will be issued.
