Data Source: Phoenix 2 & Rapid Response Access Point (RRAP)

Date Data Compiled 02/21/2023

Notes:

- 1. The data source of this data element is the Rapid Response Access Point (RRAP).
- 2. Reported values, unless otherwise indicated, are not de-duplicated at the individual level. This means individuals can be counted multiple times for service use, hospital diversions, etc. This count does not include unique individuals served by the Access Point.
- 3. CMHC Crisis Stabilization Services include "Peer Support", "Psychotherapy", and "Other" services delivered by the CMHC Rapid Response Team(s) (RRTs).
- 4. "Referral Source to Access Point: Law Enforcement" was reported as "0" by the RRAP from January 2022 to June 2022; however, this data point is now available for monthly and quarterly reporting starting July 2022.
- 5. Mental Health Provider counts include referrals made to the RRAP by a non-CMHC Mental Health Provider, as well as referrals made to the RRAP by the CMHC's Rapid Response Team (RRT) / CMHC Mental Health Provider.
- 6. During the months of October, November, December of 2022 there was reduced usage of Crisis Apartment beds. This is mainly attributable to staffing shortages and, as a result, adjustments were required for the apartments to operate. In some cases, the Community Mental Health Center needed to close some or all of their Crisis Apartments for a period of time (1 or 2 months) during the reporting period.
- 7. Overall Data Note: The State of New Hampshire continues to work diligently with the RRAP and other crisis response partners to ensure data metrics are captured and reported out accurately and as completely as possible. As data discrepancies are uncovered and corrected, newly validated data will be reviewed internally and released if/when it becomes available.
