WHEREAS, since December 1, 2019, there have been over 615 million people worldwide diagnosed with the novel coronavirus disease now known as coronavirus disease 2019 (COVID-19); and

WHEREAS, more than 348,000 people known to be infected with the virus that causes this disease have been identified in New Hampshire and more than 2,600 have died; and

WHEREAS, the Department administers programs and supports to the State's most vulnerable citizens and works collaboratively with community and health partners to meet the challenges posed by COVID-19; and

WHEREAS, despite the progress that is continuing to be made by the State, COVID-19 continues to be a public health risk. There is now a safe and effective vaccine available to prevent COVID-19 that must be administered to the New Hampshire public to reduce the occurrence of this virus; and

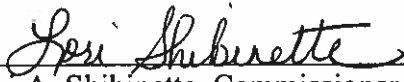

WHEREAS, in order to effectively continue vaccination efforts to eliminate this public health threat, the New Hampshire Department of Health and Human Services needs volunteers to assist in the ongoing efforts, including but not limited to the administration of vaccine in the community;

WHEREAS, the Department of Health and Human Services wishes to extend liability protections under RSA 21-P and other applicable State laws to volunteers who assist the Department in its ongoing efforts to respond to COVID-19;

The Department will take all permissible and necessary actions to address the COVID-19 pandemic throughout the State of New Hampshire. Further, in addition to my own
