

# Foster Care Health Program

The Registered Nurses in the Foster Care Health Program help children in out-of-home care get the important health care services they need to be their healthy best!

## Services Include:

- Consultation for parents, caregivers and DCYF staff
- Assistance with exam scheduling
- Coordination of health care and support services as needed
- Medication monitoring and oversight
- Coordination of consent process for surgeries and procedures
- Provide support for children with complex medical needs
- Collaboration with Medicaid Managed Care Organizations
