

NH National Guard and Manchester Health Department Oral Health Collaborative

Dentists of the New Hampshire Army National Guard are now providing dental care to students in partnership with the Manchester Health Department. The new partnership allows the Manchester Health Department to expand dental services to children who may have trouble accessing regular dental care. Services provided through this collaboration include fillings, extractions and preventive dental care and are offered at no cost to the city, schools or families. National Children's Dental Health Month Promotional Resources

The American Dental Association (ADA) has shared the following resources and tips for promoting National Children's Dental Health Month:

I. Go to www.ada.org/NCDHM to see the resources available (posters, postcards and activity sheets)

- Use the NCDHM Planning Guide (publicity resources, sample proclamation, NCDHM history, and easy-to-do activities)

II. Help promote NCDHM!

- Post on social media, tagging the ADA
- Use #NCDHM
- Send pictures and success stories to ncdhm@ada.org

III. Champion Oral Health For All!

- Join a Give Kids A Smile (GKAS) Event
Go to www.adafoundation.org/give-kids-a-smile
- Go to www.ada.org/healthequity to learn how you can use the ADA's Health Equity resources to take action
