B. Delivery Systems (1 of 3)

1. Delivery Systems. The State will be using the following systems to deliver services:

a. ☐ **MCO:** Risk-comprehensive contracts are fully-capitated and require that the contractor be an MCO or HIO. Comprehensive means that the contractor is at risk for inpatient hospital services and any other mandatory State plan service in section 1905(a), or any three or more mandatory services in that section.

References in this preprint to MCOs generally apply to these risk-comprehensive entities.

b. ☐ **PIHP:** Prepaid Inpatient Health Plan means an entity that: (1) provides medical services to enrollees under contract with the State agency, and on the basis of prepaid capitation payments or other payment arrangements that do not use State Plan payment rates; (2) provides, arranges for, or otherwise has responsibility for the provision of any inpatient hospital or institutional services for its enrollees; and (3) does not have a comprehensive risk contract. Note: this includes MCOs paid on a non-risk basis.

c. ☒ **PAHP:** Prepaid Ambulatory Health Plan means an entity that: (1) provides medical services to enrollees under contract with the State agency, and on the basis of prepaid capitation payments, or other payment arrangements that do not use State Plan payment rates; (2) does not provide or arrange for, and is not otherwise responsible for the provision of any inpatient hospital or institutional services for its enrollees; and (3) does not have a comprehensive risk contract. This includes capitated PCCMs.

- ◉ **The PAHP is paid on a risk basis**
- ○ **The PAHP is paid on a non-risk basis**

d. ☐ **PCCM:** A system under which a primary care case manager contracts with the State to furnish case management services. Reimbursement is on a fee-for-service basis. Note: a capitated PCCM is a PAHP.

e. ☐ **Fee-for-service (FFS) selective contracting:** State contracts with specified providers who are willing to meet certain reimbursement, quality, and utilization standards.

C. Choice of MCOs, PIHPs, PAHPs, and PCCMs (1 of 3)

1. Assurances.

☒ The State assures CMS that it complies with section 1932(a)(3) of the Act and 42 CFR 438.52, which require that a State that mandates Medicaid beneficiaries to enroll in an MCO, PIHP, PAHP, or PCCM must give those beneficiaries a choice of at least two entities.

☒ The State seeks a waiver of section 1932(a)(3) of the Act, which requires States to offer a choice of more than one PIHP or PAHP per 42 CFR 438.52. Please describe how the State will ensure this lack of choice of PIHP or PAHP is not detrimental to beneficiaries ability to access services.

New Hampshire will ensure that having one PAHP is not detrimental to beneficiaries ability to access services because the plan specializes in dental services serving adults, age 21 and older, with both routine and complex dental needs.

2. Details. The State will provide enrollees with the following choices (please replicate for each program in waiver):

Program: " **Medicaid Care Management Dental Services.** *"*

☐ **Two or more MCOs**

☐ **Two or more primary care providers within one PCCM system.**

3. Rural Exception.

☐ The State seeks an exception for rural area residents under section 1932(a)(3)(B) of the Act and 42 CFR 438.52(b), and assures CMS that it will meet the requirements in that regulation, including choice of physicians or case managers, and ability to go out of network in specified circumstances. The State will use the rural exception in the following areas ("rural area" must be defined as any area other than an "urban area" as defined in 42 CFR 412.62(f)(1)(ii)):

i. ☐ Potential enrollees will have ○ **day(s)** / ○ **month(s)** to choose a plan.

ii. ☐ There is an auto-assignment process or algorithm.

In the description please indicate the factors considered and whether or not the auto-assignment process assigns persons with special health care needs to an MCO/PIHP/PAHP/PCCM who is their current provider or who is capable of serving their particular needs:

☒ The State automatically enrolls beneficiaries.

☒ on a mandatory basis into a single MCO, PIHP, or PAHP in a rural area (please also check item A.I.C.3).

☐ on a mandatory basis into a single PIHP or PAHP for which it has requested a waiver of the requirement of choice of plans (please also check item A.I.C.1).

☐ on a voluntary basis into a single MCO, PIHP, or PAHP. The State must first offer the beneficiary a choice. If the beneficiary does not choose, the State may enroll the beneficiary as long as the beneficiary can opt out at any time without cause.

Please specify geographic areas where this occurs:

☐ The State provides **guaranteed eligibility** of months (maximum of 6 months permitted) for MCO/PCCM enrollees under the State plan.

☐ The State allows otherwise mandated beneficiaries to request **exemption** from enrollment in an MCO/PIHP/PAHP/PCCM.

Please describe the circumstances under which a beneficiary would be eligible for exemption from enrollment. In addition, please describe the exemption process:

☐ The State **automatically re-enrolls** a beneficiary with the same PCCM or MCO/PIHP/PAHP if there is a loss of Medicaid eligibility of 2 months or less.

C. Enrollment and Disenrollment (5 of 6)

2. Details (Continued)

d. Disenrollment

☐ The State allows enrollees to **disenroll** from/transfer between MCOs/PIHPs/PAHPs and PCCMs. Regardless of whether plan or State makes the determination, determination must be made no later than the first day of the second month following the month in which the enrollee or plan files the request. If determination is not made within this time frame, the request is deemed approved.

- **i.** ☐ Enrollee submits request to State.
- **ii.** ☐ Enrollee submits request to MCO/PIHP/PAHP/PCCM. The entity may approve the request, or refer it to the State. The entity may not disapprove the request.
- **iii.** ☐ Enrollee must seek redress through MCO/PIHP/PAHP/PCCM grievance procedure before determination will be made on disenrollment request.

☒ The State **does not permit disenrollment** from a single PIHP/PAHP (authority under 1902 (a)(4) authority must be requested), or from an MCO, PIHP, or PAHP in a rural area.

☐ The State has a **lock-in** period (i.e. requires continuous enrollment with MCO/PIHP/PAHP/PCCM) of ☐ months (up to 12 months permitted). If so, the State assures it meets the requirements of 42 CFR 438.56(c).

Please describe the good cause reasons for which an enrollee may request disenrollment during the lock-in period (in addition to required good cause reasons of poor quality of care, lack of access to covered services, and lack of access to providers experienced in dealing with enrollees health care needs):

☐ The State does not have a **lock-in**, and enrollees in MCOs/PIHPs/PAHPs and PCCMs are allowed to terminate or change their enrollment without cause at any time. The disenrollment/transfer is effective no later than the first day of the second month following the request.

☐ The State permits **MCOs/PIHPs/PAHPs and PCCMs to request disenrollment** of enrollees.

- **i.** ☐ MCO/PIHP/PAHP and PCCM can request reassignment of an enrollee.

  Please describe the reasons for which enrollees can request reassignment

- **ii.** ☐ The State reviews and approves all MCO/PIHP/PAHP/PCCM-initiated requests for enrollee transfers or disenrollments.
- **iii.** ☐ If the reassignment is approved, the State notifies the enrollee in a direct and timely manner of the desire of the MCO/PIHP/PAHP/PCCM to remove the enrollee from its membership or from the PCCMs caseload.

iv. ☐ The enrollee remains an enrollee of the MCO/PIHP/PAHP/PCCM until another MCO/PIHP/PAHP/PCCM is chosen or assigned.

   ☐ The State assures CMS that it complies with section 1932(b)(4) of the Act and 42 CFR 438 Subpart F Grievance System, in so far as these regulations are applicable.

   Please identify each regulatory requirement for which a waiver is requested, the managed care program(s) to which the waiver will apply, and what the State proposes as an alternative requirement, if any:

   ☐ The CMS Regional Office has reviewed and approved the MCO or PIHP contracts for compliance with the provisions of section 1932(b)(4) of the Act and 42 CFR 438 Subpart F Grievance System. E. Grievance System (4 of 5)

4. **Optional grievance systems for PCCM and PAHP programs**. States, at their option, may operate a PCCM and/or PAHP grievance procedure (distinct from the fair hearing process) administered by the State agency or the PCCM and/or PAHP that provides for prompt resolution of issues. These grievance procedures are strictly voluntary and may not interfere with a PCCM, or PAHP enrollees freedom to make a request for a fair hearing or a PCCM or PAHP enrollees direct access to a fair hearing in instances involving terminations, reductions, and suspensions of already authorized Medicaid covered services.

☒ The State has a grievance procedure for its ☐ PCCM and/or ☒ PAHP program characterized by the following (please check any of the following optional procedures that apply to the optional PCCM/PAHP grievance procedure): The grievance procedures are operated by:

- ☐ the State
- ☐ the States contractor.

  Please identify: ☐
- ☐ the PCCM
- ☒ the PAHP

☒ Requests for review can be made in the PCCM and/or PAHP grievance system (e.g. grievance, appeals):

Please describe:

☐ Has a committee or staff who review and resolve requests for review.

Please describe if the State has any specific committee or staff composition or if this is a fiscal agent, enrollment broker, or PCCM administrator function:

Section B: Monitoring Plan

Part II: Details of Monitoring Activities

Program Instance: Medicaid Care Management Dental Services

Please check each of the monitoring activities below used by the State. A number of common activities are listed below, but the State may identify any others it uses. If federal regulations require a given activity, this is indicated just after the name of the activity. If the State does not use a required activity, it must explain why.
For each activity, the state must provide the following information:

- Personnel responsible (e.g. state Medicaid, other state agency, delegated to plan, EQR, other contractor)
- Detailed description of activity
- Frequency of use
- How it yields information about the area(s) being monitored

a. ☐ **Accreditation for Non-duplication** (i.e. if the contractor is accredited by an organization to meet certain access, structure/operation, and/or quality improvement standards, and the state determines that the organizations standards are at least as stringent as the state-specific standards required in 42 CFR 438 Subpart D, the state deems the contractor to be in compliance with the state-specific standards)

c. ☒ **Consumer Self-Report data**

Activity Details:

New Hampshire collects consumer self-reported data from multiple sources. The PAHP is required to hire a licensed vendor to annually conduct the CAHPS. The state aggregates CAHPS data to monitor annual trends as well as comparing results with regional and national averages. The state reviews all CAHPS data at the dental plan level to identify outliers and potential performance issues that require follow-up with the plan.

d. ☒ **Data Analysis (non-claims)**

Activity Details:

The state Medicaid agency routinely analyzes regular reporting of grievances data. Results outside the norm or not within contract standards are investigated in depth with the PAHP and corrective action plans are developed as needed.

Activity Details:

The State Medicaid Agency, through the PAHP contract, meets the network adequacy assurance requirement through a robust set of time and distance standards determined at the county level. Section C: Monitoring Results

Initial Waiver Request

Section 1915(b) of the Act and 42 CFR 431.55 require that the State must document and maintain data regarding the effect of the waiver on the accessibility and quality of services as well as the anticipated impact of the project on the States Medicaid program. In Section B of this waiver preprint, the State describes how it will assure these requirements are met. For an initial waiver request, the State provides assurance in this Section C that it will report on the results of its monitoring plan when it submits its waiver renewal request. For a renewal request, the State provides evidence that waiver requirements were met for the most recent waiver period. Please use Section D to provide evidence of cost-effectiveness.

CMS uses a multi-pronged effort to monitor waiver programs, including rate and contract review, site visits, reviews of External Quality Review reports on MCOs/PIHPs, and reviews of Independent Assessments. CMS will use the results of these activities and reports along with this Section to evaluate whether the Program Impact, Access, and Quality requirements of the waiver were met.

This is an Initial waiver request.

☒ **The State assures that it will conduct the monitoring activities described in Section B, and will provide the results in Section C of its waiver renewal request.**

A. Assurances

a. [Required] Through the submission of this waiver, the State assures CMS:

- The fiscal staff in the Medicaid agency has reviewed these calculations for accuracy and attests to their correctness.
- The State assures CMS that the actual waiver costs will be less than or equal to or the States waiver cost projection.
- Capitated rates will be set following the requirements of 42 CFR 438.6(c) and will be submitted to the CMS Regional Office for approval.
- Capitated 1915(b)(3) services will be set in an actuarially sound manner based only on approved 1915(b)(3) services and their administration subject to CMS RO prior approval.
- The State will monitor, on a regular basis, the cost-effectiveness of the waiver (for example, the State may compare the PMPM Actual Waiver Cost from the CMS 64 to the approved Waiver Cost Projections). If changes are needed,

the State will submit a prospective amendment modifying the Waiver Cost Projections.

- The State will submit quarterly actual member month enrollment statistics by MEG in conjunction with the States submitted CMS-64 forms.

D. PCCM portion of the waiver only: Reimbursement of PCCM Providers

Under this waiver, providers are reimbursed on a fee-for-service basis. PCCMs are reimbursed for patient management in the following manner (please check and describe):

a. ☐ **Management fees are expected to be paid under this waiver.**
The management fees were calculated as follows.

1. ☐ **Year 1: $ [ ] per member per month fee.**
2. ☐ **Year 2: $ [ ] per member per month fee.**
3. ☐ **Year 3: $ [ ] per member per month fee.**
4. ☐ **Year 4: $ [ ] per member per month fee.**

b. ☐ **Enhanced fee for primary care services.**
Please explain which services will be affected by enhanced fees and how the amount of the enhancement was determined.

c. ☐ **Bonus payments from savings generated under the program are paid to case managers who control beneficiary utilization.** Under **D.I.H.d.**, please describe the criteria the State will use for awarding the incentive payments, the method for calculating incentives/bonuses, and the monitoring the State will have in place to ensure that total payments to the providers do not exceed the Waiver Cost Projections (Appendix D5). Bonus payments and incentives for reducing utilization are limited to savings of State Plan service costs under the waiver. Please also describe how the State will ensure that utilization is not adversely affected due to incentives inherent in the bonus payments. The costs associated with any bonus arrangements must be accounted for in Appendix D3. Actual Waiver Cost.

d. ☐ **Other reimbursement method/amount.**
$ [ ]
Please explain the State's rationale for determining this method or amount.

E. Member Months

Please mark all that apply.

a. ☒ Population in the base year data

1. ☒ Base year data is from the same population as to be included in the waiver.
2. ☐ Base year data is from a comparable population to the individuals to be included in the waiver. (Include a statement from an actuary or other explanation, which supports the conclusion that the populations are comparable.)

b. ☐ For an initial waiver, if the State estimates that not all eligible individuals will be enrolled in managed care (i.e., a percentage of individuals will not be enrolled because of changes in eligibility status and the length of the enrollment process) please note the adjustment here.

c. ☒ [Required] Explain the reason for any increase or decrease in member months projections from the base year or over time:

The cost effectiveness projections include an enrollment decrease beginning June 2023 for a period of 9 months following the expected end of the COVID-19 Public Health Emergency (PHE). DHHS expects that enrollment will return to March 2022 levels at the end of the unwind process.

Enrollment then slowly increases at an annual rate of 2% through the end of the waiver period

d. ☒ [Required] Explain any other variance in eligible member months from BY to P2:

The only variance in member months from R1 to P2 is the annual enrollment trend described above.

e. ☒ [Required] List the year(s) being used by the State as a base year:

04/2023 - 03/2024 and 04/2024 - 03/2025

If multiple years are being used, please explain:

Since the program is new, there is no actual base period data. For the purpose of the cost effectiveness calculations, BY and P1 are both April 2023 through March 2024 and P2 is April 2024 through March 2025.

f. ☒ [Required] Specify whether the base year is a State fiscal year (SFY), Federal fiscal year (FFY), or other period:

For the purpose of the cost effectiveness calculations,the base year is another period - April 2023 through March 2024.

g. ☒ [Required] Explain if any base year data is not derived directly from the State's MMIS fee-for-service claims data:

Since the program is new, there is no actual base period data.

F. Appendix D2.S - Services in Actual Waiver Cost

For Initial Waivers:

a. ☒ **[Required] Explain the exclusion of any services from the cost-effectiveness analysis.**
For States with multiple waivers serving a single beneficiary, please document how all costs for waiver covered individuals taken into account.

The same services are included in Appendix B3 and Appendix B5.
The cost effectiveness analysis only includes adult dental state plan services for the listed MEGs, and all state plan services are capitated by DHHS. We excluded all adult dental services covered by a separate 1915(c) waiver or 1115 waiver (i.e., dentures) for individuals that are eligible for those services. New Hampshire currently has several 1915(c) waivers covering home and community based services as follows:

Choices For Independence (CFI)
Developmentally Disabled (DD)
Acquired Brain Disorder (ABD)
In-Home Supports Services (IHS)

All adult dental state plan services are included in the cost effectiveness calculations.

G. Appendix D2.A - Administration in Actual Waiver Cost

[Required] The State allocated administrative costs between the Fee-for-service and managed care program depending upon the program structure. *Note: initial programs will enter only FFS costs in the BY. Renewal and Conversion waivers will enter all waiver and FFS administrative costs in the R1 and R2 or BY.*
For Initial Waivers:

a. For an initial waiver, please document the amount of savings that will be accrued in the State Plan services. Savings under the waiver must be great enough to pay for the waiver administration costs in addition to those costs in FFS. Please state the aggregate budgeted amount projected to be spent on each additional service in the upcoming waiver period in the chart below. Appendix D5 should reflect any savings to be accrued as well as any additional administration expected. The savings should at least offset the administration.

Additional Administrative Expense	Savings projected in State Plan Services	Inflation projected	Amount projected to be spent in Prospective Period
Dental services individuals 21 and over	0	0	
Total:			

The allocation method for either initial or renewal waivers is explained below:

a. ☐ **The State allocates the administrative costs to the managed care program based upon the number of waiver enrollees as a percentage of total Medicaid enrollees***Note: this is appropriate for MCO/PCCM programs.*

b. ☒ **The State allocates administrative costs based upon the program cost as a percentage of the total Medicaid budget. It would not be appropriate to allocate the administrative cost of a mental health program based upon the percentage of enrollees enrolled.***Note: this is appropriate for statewide PIHP/PAHP programs.*

H. Appendix D3 - Actual Waiver Cost

a. ☐ The State is requesting a 1915(b)(3) waiver in **Section A.I.A.1.c** and will be providing non-state plan medical services. The State will be spending a portion of its waiver savings for additional services under the waiver.

b. ☐ **The State is including voluntary populations in the waiver.**
Describe below how the issue of selection bias has been addressed in the Actual Waiver Cost calculations:

c. ☐ **Capitated portion of the waiver only -- Reinsurance or Stop/Loss Coverage:** Please note how the State will be providing or requiring reinsurance or stop/loss coverage as required under the regulation. States may require MCOs/PIHPs/PAHPs to purchase reinsurance. Similarly, States may provide stop-loss coverage to MCOs/PIHPs/PAHPs when MCOs/PIHPs/PAHPs exceed certain payment thresholds for individual enrollees. Stop loss provisions usually set limits on maximum days of coverage or number of services for which the MCO/PIHP/PAHP will be responsible. If the State plans to provide stop/loss coverage, a description is required. The State must document the probability of incurring costs in excess of the stop/loss level and the frequency of such occurrence based on FFS experience. The expenses per capita (also known as the stoploss premium amount) should be deducted from the capitation year projected costs. In the initial application, the effect should be neutral. In the renewal report, the actual reinsurance cost and claims cost should be reported in Actual Waiver Cost.
Basis and Method:

1. ☐ **The State does not provide stop/loss protection for MCOs/PIHPs/PAHPs, but requires MCOs/PIHPs/PAHPs to purchase reinsurance coverage privately. No adjustment was necessary.**
2. ☐ **The State provides stop/loss protection**
   Describe below how the issue of selection bias has been addressed in the Actual Waiver Cost calculations:

d. ☐ **Incentive/bonus/enhanced Payments for both Capitated and fee-for-service Programs:**

1. ☐ **[For the capitated portion of the waiver] the total payments under a capitated contract include any incentives the State provides in addition to capitated payments under the waiver program.** The costs associated with any bonus arrangements must be accounted for in the capitated costs (Column D of Appendix D3 Actual Waiver Cost). Regular State Plan service capitated adjustments would apply.

   Document

   i. **Document the criteria for awarding the incentive payments.**
   ii. **Document the method for calculating incentives/bonuses, and**
   iii. **Document the monitoring the State will have in place to ensure that total payments to the MCOs/PIHPs/PAHPs do not exceed the Waiver Cost Projection.**

2. ☐ **For the fee-for-service portion of the waiver, all fee-for-service must be accounted for in the fee-for-service incentive costs (Column G of Appendix D3 Actual Waiver Cost).**). For PCCM providers, the amount listed should match information provided in D.I.D Reimbursement of Providers. Any adjustments applied would need to meet the special criteria for fee-for-service incentives if the State elects to provide incentive payments in addition to management fees under the waiver program (See D.I.I.e and D.I.J.e)

   Document:

   i. **Document the criteria for awarding the incentive payments.**
   ii. **Document the method for calculating incentives/bonuses, and**
   iii. **Document the monitoring the State will have in place to ensure that total payments to the MCOs/PIHPs/PAHPs/PCCMs do not exceed the Waiver Cost Projection.**

I. Appendix D4 - Adjustments in the Projection OR Conversion Waiver for DOS within DOP (1 of 8)

Initial Waiver Cost Projection & Adjustments (If this is a Conversion or Renewal waiver for DOP, skip to J. Conversion or Renewal Waiver Cost Projection and Adjustments): States may need to make certain adjustments to the Base Year in order to accurately reflect the waiver program in P1 and P2. If the State has made an adjustment to its Base Year, the State should note the adjustment and its location in Appendix D4, and include information on the basis and method used in this section of the preprint. Where noted, certain adjustments should be mathematically accounted for in Appendix D5.

The following adjustments are appropriate for initial waivers. Any adjustments that are required are indicated as such.

a. State Plan Services Trend Adjustment the State must trend the data forward to reflect cost and utilization increases. The BY data already includes the actual Medicaid cost changes to date for the population enrolled in the program. This adjustment reflects the expected cost and utilization increases in the managed care program from BY to the end of the waiver (P2). Trend adjustments may be service-specific. The adjustments may be expressed as percentage factors. Some states calculate utilization and cost increases separately, while other states calculate a single trend rate encompassing both utilization and cost increases. The State must document the method used and how utilization and cost increases are not duplicative if they are calculated separately. **This adjustment must be mutually exclusive of programmatic/policy/pricing changes and CANNOT be taken twice. The State must document how it ensures there is no duplication with programmatic/policy/pricing changes.**

1. ☐ [Required, if the States BY is more than 3 months prior to the beginning of P1] The State is using actual State cost increases to trend past data to the current time period (i.e., trending from 1999 to present)
   The actual trend rate used is:

   Please document how that trend was calculated:

2. ☒ [Required, to trend BY to P1 and P2 in the future] When cost increases are unknown and in the future, the State is using a predictive trend of either State historical cost increases or national or regional factors that are predictive of future costs (same requirement as capitated ratesetting regulations) (i.e., trending

from present into the future)

i. ☐ State historical cost increases.
Please indicate the years on which the rates are based: base years

In addition, please indicate the mathematical method used (multiple regression, linear regression, chi-square, least squares, exponential smoothing, etc.). Finally, please note and explain if the States cost increase calculation includes more factors than a price increase such as changes in technology, practice patterns, and/or units of service PMPM.

ii. ☒ National or regional factors that are predictive of this waivers future costs.
Please indicate the services and indicators used.

We used a nationwide estimate of dental services cost and utilization changes.

Please indicate how this factor was determined to be predictive of this waivers future costs. Finally, please note and explain if the States cost increase calculation includes more factors than a price increase such as changes in technology, practice patterns, and/or units of service PMPM.

Trend is based on nationwide changes in dental costs and does not include any other factors.

3. ☐ The State estimated the PMPM cost changes in units of service, technology and/or practice patterns that would occur in the waiver separate from cost increase. Utilization adjustments made were service-specific and expressed as percentage factors. The State has documented how utilization and cost increases were not duplicated. This adjustment reflects the changes in utilization between the BY and the beginning of the P1 and between years P1 and P2.

i. Please indicate the years on which the utilization rate was based (if calculated separately only).

ii. Please document how the utilization did not duplicate separate cost increase trends.

Section D: Cost-Effectiveness

Part I: State Completion Section

I. Appendix D4 - Adjustments in the Projection OR Conversion Waiver for DOS within DOP (2 of 8)

b. State Plan Services Programmatic/Policy/Pricing Change Adjustment: This adjustment should account for any programmatic changes that are not cost neutral and that affect the Waiver Cost Projection. Adjustments to the BY data are typically for changes that occur after the BY (or after the collection of the BY data) and/or during P1 and P2 that affect the overall Medicaid program. For example, changes in rates, changes brought about by legal action, or changes brought about by legislation. For example, Federal mandates, changes in hospital payment from per diem rates to Diagnostic Related Group (DRG) rates or changes in the benefit coverage of the FFS program. **This adjustment must be mutually exclusive of trend and CANNOT be taken twice. The State must document how it ensures there is no duplication with trend.** If the State is changing one of the aspects noted above in the FFS State Plan then the State needs to estimate the impact of that adjustment. *Note: FFP on rates cannot be claimed until CMS approves the SPA per the 1/2/01 SMD letter. Prior approval of capitation rates is contingent upon approval of the SPA.*

Others:

- **Reductions in State Plan Services (-)**
- **Legislative or Court Mandated Changes to the Program Structure or fee**

1. ☒ The State has chosen not to make an adjustment because there were no programmatic or policy changes in the FFS program after the MMIS claims tape was created. In addition, the State anticipates no programmatic or policy changes during the waiver period.

2. ☐ An adjustment was necessary. The adjustment(s) is(are) listed and described below:

I. Appendix D4 - Adjustments in the Projection OR Conversion Waiver for DOS within DOP (3 of 8)

c. Administrative Cost Adjustment*: The administrative expense factor in the initial waiver is based on the administrative costs for the eligible population participating in the waiver for fee-for-service. Examples of these costs include per claim claims processing costs, per record PRO review costs, and Surveillance and Utilization Review System (SURS) costs. *Note: one-time administration costs should not be built into the cost-effectiveness test on a long-term basis. States should use all relevant Medicaid administration claiming rules for administration costs they attribute to the managed care program.* If the State is changing the administration in the fee-for-service program then the State needs to estimate the impact of that adjustment.

1. ☐ No adjustment was necessary and no change is anticipated.

2. ☒ An administrative adjustment was made.

i. ☐ FFS administrative functions will change in the period between the beginning of P1 and the end of P2.
Please describe

A. ☐ Determine administration adjustment based upon an approved contract or cost allocation plan amendment (CAP).

B. ☐ Determine administration adjustment based on pending contract or cost allocation plan amendment (CAP)

C. ☒ Other
Please describe

DHHS' administrative expenses are trended to P1 and P2 at the same annual trend rate as the state plan service costs.

iii. ☐ [Required, when State Plan services were purchased through a sole source procurement with a governmental entity. No other State administrative adjustment is allowed.] If cost increase trends are unknown and in the future, the State must use the lower of: Actual State administration costs trended forward at the State historical administration trend rate or Actual State administration costs trended forward at the State Plan services trend rate.
Please document both trend rates and indicate which trend rate was used.

A. Actual State Administration costs trended forward at the State historical administration trend rate.

Please indicate the years on which the rates are based: base years

In addition, please indicate the mathematical method used (multiple regression, linear regression, chi-square, least squares, exponential smoothing, etc.). Finally, please note and explain if the States cost increase calculation includes more factors than a price increase.

B. Actual State Administration costs trended forward at the State Plan Service Trend rate.
Please indicate the State Plan Service trend rate from Section D.I.I.a. above

* For Combination Capitated and PCCM Waivers: If the capitated rates are adjusted by the amount of administration payments, then the PCCM Actual Waiver Cost must be calculated less the administration amount. For additional information, please see Special Note at end of this section.

Section D: Cost-Effectiveness

Part I: State Completion Section

I. Appendix D4 - Adjustments in the Projection OR Conversion Waiver for DOS within DOP (4 of 8)

d. 1915(b)(3) Adjustment: The State must document the amount of State Plan Savings that will be used to provide additional 1915(b)(3) services in ***Section D.I.H.a*** above. The Base Year already includes the actual trend for the State Plan services in the program. This adjustment reflects the expected trend in the 1915(b)(3) services between the Base Year and P1 of the waiver and the trend between the beginning of the program (P1) and the end of the program (P2). Trend adjustments may be service-specific and expressed as percentage factors.

1. ☐ [Required, if the States BY is more than 3 months prior to the beginning of P1 to trend BY to P1] The State is using the actual State historical trend to project past data to the current time period (i.e., trending from 1999 to present).
The actual documented trend is:

Please provide documentation.

2. ☐ [Required, when the States BY is trended to P2. No other 1915(b)(3) adjustment is allowed] If trends are unknown and in the future (i.e., trending from present into the future), the State must use the States trend for State Plan Services.

i. State Plan Service trend

A. Please indicate the State Plan Service trend rate from Section D.I.I.a. above

e. Incentives (not in capitated payment) Trend Adjustment: If the State marked **Section D.I.H.d ,** then this adjustment reports trend for that factor. Trend is limited to the rate for State Plan services.

1. List the State Plan trend rate by MEG from Section D.I.I.a

2. List the Incentive trend rate by MEG if different from Section D.I.I.a

3. Explain any differences:

f. Graduate Medical Education (GME) Adjustment: 42 CFR 438.6(c)(5) specifies that States can include or exclude GME payments for managed care participant utilization in the capitation rates. However, GME payments on behalf of managed care waiver participants must be included in cost-effectiveness calculations.

1. ☐ We assure CMS that GME payments are included from base year data.
2. ☐ We assure CMS that GME payments are included from the base year data using an adjustment.
   Please describe adjustment.
3. ☐ Other
   Please describe

If GME rates or the GME payment method has changed since the Base Year data was completed, the Base Year data should be adjusted to reflect this change and the State needs to estimate the impact of that adjustment and account for it in **Appendix D5.**

1. ☐ GME adjustment was made.
   i. ☐ GME rates or payment method changed in the period between the end of the BY and the beginning of P1.
   Please describe

   ii. ☐ GME rates or payment method is projected to change in the period between the beginning of P1 and the end of P2.
   Please describe
2. ☐ No adjustment was necessary and no change is anticipated.

Method:

1. ☐ Determine GME adjustment based upon a newly approved State Plan Amendment (SPA).
2. ☐ Determine GME adjustment based on a pending SPA.

3. ☐ Determine GME adjustment based on currently approved GME SPA.
4. ☐ Other

g. ***Payments / Recoupments not Processed through MMIS Adjustment:*** Any payments or recoupments for covered Medicaid State Plan services included in the waiver but processed outside of the MMIS system should be included in the Waiver Cost Projection. Any adjustments that would appear on the CMS-64.9 Waiver form should be reported and adjusted here. Any adjustments that would appear on the CMS summary form (line 9) would not be put into the waiver cost-effectiveness (e.g., TPL, probate, fraud and abuse). Any payments or recoupments made should be accounted for in ***Appendix D5.***

1. ☐ Payments outside of the MMIS were made.
   Those payments include (please describe):
2. ☐ Recoupments outside of the MMIS were made.
   Those recoupments include (please describe):
3. ☐ The State had no recoupments/payments outside of the MMIS.

h. ***Copayments Adjustment:*** This adjustment accounts for any copayments that are collected under the FFS program but will not be collected in the waiver program. States must ensure that these copayments are included in the Waiver Cost Projection if not to be collected in the capitated program.

Basis and Method:

1. ☐ Claims data used for Waiver Cost Projection development already included copayments and no adjustment was necessary.
2. ☐ State added estimated amounts of copayments for these services in FFS that were not in the capitated program. Please account for this adjustment in Appendix D5.
3. ☐ The State has not to made an adjustment because the same copayments are collected in managed care and FFS.
4. ☐ Other
   Please describe

If the States FFS copayment structure has changed in the period between the end of the BY and the beginning of P1, the State needs to estimate the impact of this change adjustment.

1. ☐ No adjustment was necessary and no change is anticipated.
2. ☐ The copayment structure changed in the period between the end of the BY and the beginning of P1. Please account for this adjustment in Appendix D5.

***Method*:**

1. ☐ Determine copayment adjustment based upon a newly approved State Plan Amendment (SPA).
2. ☐ Determine copayment adjustment based on pending SPA.
3. ☐ Determine copayment adjustment based on currently approved copayment SPA.
4. ☐ Other
   Please describe

Section D: Cost-Effectiveness

Part I: State Completion Section

I. Appendix D4 - Adjustments in the Projection OR Conversion Waiver for DOS within DOP (6 of 8)

i. Third Party Liability (TPL) Adjustment: This adjustment should be used only if the State is converting from fee-for-service to capitated managed care, and will delegate the collection and retention of TPL payments for post-pay recoveries to the MCO/PIHP/PAHP. If the MCO/PIHP/PAHP will collect and keep TPL, then the Base Year costs should be reduced by the amount to be collected.

Basis and method:

1. ☐ No adjustment was necessary
2. ☐ Base Year costs were cut with post-pay recoveries already deducted from the database.
3. ☐ State collects TPL on behalf of MCO/PIHP/PAHP enrollees
4. ☐ The State made this adjustment:*
   - **i.** ☐ Post-pay recoveries were estimated and the base year costs were reduced by the amount of TPL to be collected by MCOs/PIHPs/PAHPs. Please account for this adjustment in Appendix D5.
   - **ii.** ☐ Other
     Please describe

j. Pharmacy Rebate Factor Adjustment: Rebates that States receive from drug manufacturers should be deducted from Base Year costs if pharmacy services are included in the fee-for-service or capitated base. If the base year costs are not reduced by the rebate factor, an inflated BY would result. Pharmacy rebates should also be deducted from FFS costs if pharmacy services are impacted by the waiver but not capitated.

***Basis and Method*:**

1. ☐ Determine the percentage of Medicaid pharmacy costs that the rebates represent and adjust the base year costs by this percentage. States may want to make separate adjustments for prescription versus over the counter drugs and for different rebate percentages by population. States may assume that the rebates for the targeted population occur in the same proportion as the rebates for the total Medicaid population which includes accounting for Part D dual eligibles. Please account for this adjustment in Appendix D5.
   Please describe

2. ☐ The State has not made this adjustment because pharmacy is not an included capitation service and the capitated contractors providers do not prescribe drugs that are paid for by the State in FFS or Part D for the dual eligibles.
3. ☒ Ohter
   Please describe

   No adjustment was made.

k. Disproportionate Share Hospital (DSH) Adjustment: Section 4721 of the BBA specifies that DSH payments must be made solely to hospitals and not to MCOs/PIHPs/PAHPs. Section 4721(c) permits an exemption to the direct DSH payment for a limited number of States. If this exemption applies to the State, please identify and describe under Other including the supporting documentation. Unless the exemption in Section 4721(c) applies or the State has a FFS-only waiver (e.g., selective contracting waiver for hospital services where DSH is specifically included), DSH payments are not to be included in cost-effectiveness calculations.

1. ☐ We assure CMS that DSH payments are excluded from base year data.
2. ☐ We assure CMS that DSH payments are excluded from the base year data using an adjustment.
3. ☐ Other
   Please describe

l. Population Biased Selection Adjustment (Required for programs with Voluntary Enrollment): Cost-effectiveness calculations for waiver programs with voluntary populations must include an analysis of the population that can be expected to enroll in the waiver. If the State finds that the population most likely to enroll in the waiver differs significantly from the population that will voluntarily remain in FFS, the Base Year costs must be adjusted to reflect this.

1. ☐ This adjustment is not necessary as there are no voluntary populations in the waiver program.
2. ☐ This adjustment was made:
   i. ☐ Potential Selection bias was measured.
      Please describe

   ii. ☐ The base year costs were adjusted.
      Please describe

m. FQHC and RHC Cost-Settlement Adjustment: Base Year costs should not include cost-settlement or supplemental payments made to FQHCs/RHCs. The Base Year costs should reflect fee-for-service payments for services provided at these sites, which will be built into the capitated rates.

1. ☐ We assure CMS that FQHC/RHC cost-settlement and supplemental payments are excluded from the Base Year costs.
   Payments for services provided at FQHCs/RHCs are reflected in the following manner:

2. ☐ We assure CMS that FQHC/RHC cost-settlement and supplemental payments are excluded from the base year data using an adjustment.
3. ☐ We assure CMS that Medicare Part D coverage has been accounted for in the FQHC/RHC adjustment.
4. ☐ Other
   Please describe

Section D: Cost-Effectiveness

Part I: State Completion Section

I. Appendix D4 - Adjustments in the Projection OR Conversion Waiver for DOS within DOP (7 of 8)

Special Note Section:

Waiver Cost Projection Reporting: Special note for new capitated programs:

The State is implementing the first year of a new capitated program (converting from fee-for-service reimbursement). The first year that the State implements a capitated program, the State will be making capitated payments for future services while it is reimbursing FFS claims from retrospective periods. This will cause State expenditures in the initial period to be much higher than usual. In order to adjust for this double payment, the State should not use the first quarter of costs (immediately following implementation) from the CMS-64 to calculate future Waiver Cost Projections, unless the State can distinguish and exclude dates of services prior to the implementation of the capitated program.

a. ☐ The State has excluded the first quarter of costs of the CMS-64 from the cost-effectiveness calculations and is basing the cost-effectiveness projections on the remaining quarters of data.

b. ☐ The State has included the first quarter of costs in the CMS-64 and excluded claims for dates of services prior to the implementation of the capitated program.

Special Note for initial combined waivers (Capitated and PCCM) only:

Adjustments Unique to the Combined Capitated and PCCM Cost-effectiveness Calculations -- Some adjustments to the Waiver Cost Projection are applicable only to the capitated program. When these adjustments are taken, there will need to be an offsetting adjustment to the PCCM Base year Costs in order to make the PCCM costs comparable to the Waiver Cost Projection. **In other words, because we are creating a single combined Waiver Cost Projection applicable to the PCCM and capitated waiver portions of the waiver, offsetting adjustments (positive and/or negative) need to be made to the PCCM Actual Waiver Cost for certain capitated-only adjustments.** When an offsetting adjustment is made, please note and include an explanation and your calculations. The most common offsetting adjustment is noted in the chart below and indicated with an asterisk (*) in the preprint.

I. Appendix D4 - Adjustments in the Projection OR Conversion Waiver for DOS within DOP (8 of 8)

n. ***Incomplete Data Adjustment (DOS within DOP only)*** The State must adjust base period data to account for incomplete data. When fee-for-service data is summarized by date of service (DOS), data for a particular period of time is usually incomplete until a year or more after the end of the period. In order to use recent DOS data, the State must calculate an estimate of the services ultimate value after all claims have been reported . Such incomplete data

adjustments are referred to in different ways, including lag factors, incurred but not reported (IBNR) factors, or incurring factors. If date of payment (DOP) data is used, completion factors are not needed, but projections are complicated by the fact that payments are related to services performed in various former periods.

Documentation of assumptions and estimates is required for this adjustment.:

1. ☐ Using the special DOS spreadsheets, the State is estimating DOS within DOP.
   Incomplete data adjustments are reflected in the following manner on Appendix D5 for services to be complete and on Appendix D7 to create a 12-month DOS within DOP projection:

2. ☐ The State is using Date of Payment only for cost-effectiveness no adjustment is necessary.
3. ☐ Other
   Please describe

o. ***PCCM Case Management Fees (Initial PCCM waivers only)*** The State must add the case management fees that will be claimed by the State under new PCCM waivers. There should be sufficient savings under the waiver to offset these fees. The new PCCM case management fees will be accounted for with an adjustment on ***Appendix D5.***

1. ☐ This adjustment is not necessary as this is not an initial PCCM waiver in the waiver program.
2. ☐ Other
   Please describe

p. ***Other adjustments:*** Federal law, regulation, or policy change: If the federal government changes policy affecting Medicaid reimbursement, the State must adjust P1 and P2 to reflect all changes.

- Once the States FFS institutional excess UPL is phased out, CMS will no longer match excess institutional UPL payments.
  - Excess payments addressed through transition periods should not be included in the 1915(b) cost effectiveness process. Any State with excess payments should exclude the excess amount and only include the supplemental amount under 100% of the institutional UPL in the cost effectiveness process.
  - For all other payments made under the UPL, including supplemental payments, the costs should be included in the cost effectiveness calculations. This would apply to PCCM enrollees and to PAHP, PIHP or MCO enrollees if the institutional services were provided as FFS wrap around. The recipient of the supplemental payment does not matter for the purposes of this analysis.

1. ☐ No adjustment was made.
2. ☐ This adjustment was made. This adjustment must be mathematically accounted for in Appendix D5.

M. Appendix D7 - Summary

a. Please explain any variance in the overall percentage change in spending from BY/R1 to P2.

1. Please explain caseload changes contributing to the overall annualized rate of change in Appendix D7 Column I. This response should be consistent with or the same as the answer given by the State in Section D.I.E.c & d:

The cost effectiveness projections include an enrollment decrease beginning June 2023 for a period of 9 months following the expected end of the PHE. DHHS expects that enrollment will return to March 2022 levels at the end of the unwind process.

Enrollment then slowly increases at an annual rate of 2% through the end of the waiver period.

2. Please explain unit cost changes contributing to the overall annualized rate of change in Appendix D7 Column I. This response should be consistent with or the same as the answer given by the State in the States explanation of cost increase given in Section D.I.I and D.I.J:

The trends from BY to P1 is 0.0% since these two time periods are the same.

We used a 5.0% PMPM trends for P1 to P2 since the dental capitation rates have not yet been calculated for July 2024 to March 2025.

3. Please explain utilization changes contributing to the overall annualized rate of change in Appendix D7 Column I. This response should be consistent with or the same as the answer given by the State in the States explanation of utilization given in Section D.I.I and D.I.J:

Please see our comment above.

b. Please note any other principal factors contributing to the overall annualized rate of change in Appendix D7 Column I.

All principal factors contributing to the overall annualized rate of change are described in the above sections.
