

## ADDENDUM #1

RFA-2022-DPHS-11-HEALT

### Health Workforce and Primary Care Access Data

(Changes are in ***bold, underlined and italicized text*** below to enable vendors to quickly recognize changes in paragraphs and/or wording.)

On February 4, 2022, the New Hampshire Department of Health and Human Services published a Request for Health Workforce and Primary Care Access Data, soliciting applications from qualified organizations that have the capacity and expertise to perform the following work required by the United States Department of Health and Human Services, Health Resource and Services Administration (HRSA), Bureau of Health Workforce, Division of Policy and Shortage Designation:

1. Identify areas of the State that meet the federal criteria for Health Professional Shortage Areas (HPSA), Mental Health Professional Shortage Areas (DHPSA), Medically Underserved Areas/Populations (MUA/P), and Governor's Exceptional Medically Underserved Population Areas (EMUP).
2. Develop a Statewide Rational Service Area (SRSA) Plan to identify and submit pockets of unmet need for designation.
3. Organize and prioritize new shortage area designation and re-designation requests; and prepare the Federal Shortage Designation applications for review and signature by program staff.
4. Aid in the development and review of provider surveys and analysis for the Health Professions Data Center (HPDC) – from which data will supplement shortage designation work.
5. Conduct an overall primary care needs assessment to identify and report on key barriers to access to health care for these communities.

The Department is publishing this addendum to:

1. **Delete and replace Section 1, Scope of Work, Subsection 1.3. Compensation & Contract Value, Paragraph 1.3.2. with the following:**

Funding is anticipated to be available for the resulting contract as follows:

State Fiscal Year <i>(July 1 through June 30)</i>	Funding
2023	\$31,880
<u>2024</u>	\$31,880
<b>Total</b>	<b>\$63,760</b>
