Legislative Commission on Primary Care Workforce Issues

February 22, 2018 2:00-4:00pm at the NH Medical Society Conference Room, Concord

Call in information:
866-939-8416
Participant Code: 1075916

Agenda

2:00 - 2:10  Introductions & Minutes

2:10 - 3:00  Practice Transformation – Jan Thomas RN, BS, Practice Transformation Project Director, Citizen’s Health Initiative

3:00 – 3:15  Integrated Delivery Network: Workforce Update (Education Initiatives) – Peter Mason, MD; Nancy Frank (invited)

3:15 – 3:50  Legislative Update:
HB 1506 – Assistant Physician Bill
SB 426 – Expanding the Membership of the LCPCWI
SB 590 – Making a Supplemental Payment to the State Loan Repayment Program

3:50 – 4:00  Updates and Next Steps

Next meeting: Thursday March 22, 2:00-4:00pm
Meeting Minutes

TO: Members of the Commission and Guests

FROM: Danielle Weiss

MEETING DATE: February 22, 2018

Members of the Commission:
Laurie Harding – Chair
Alisa Druzba, Administrator, Rural Health and Primary Care Section – Vice-Chair
Stephanie Pagliuca, Director, Bi-State Primary Care Association
Mike Auerbach, New Hampshire Dental Society
Mary Bidgood-Wilson, ARNP, NH Nurse Practitioner Association
Jeanne Ryer, NH Citizens Initiative
Mike Ferrara, Dean, UNH College of Health and Human Services
Bill Gunn, NH Mental Health Coalition

Guests:
Danielle Weiss, Program Manager, Rural Health and Primary Care Section
Paula Smith, SNH AHEC
Nancy Frank, Executive Director, NNH AHEC
Catrina Watson, NH Medical Society
Peter Mason, Geisel School of Medicine, IDN Region 1
Barbara Mahar, New London Hospital
Thomas Wold, Portsmouth Regional Hospital
Jan Thomas, RN, Practice Transformation Project Director, Citizens Health Initiative

Meeting Discussion:

2:00 – 2:10 Introductions & Minutes

2:10 – 3:00 Practice Transformation – Jan Thomas, RN, Practice Transformation Project Director, Citizen’s Health Initiative

Refer to the PowerPoint “Practice Transformation Network (PTN).”

3:00 – 3:15 Integrated Delivery Network: Workforce Update (Education Initiatives) – Peter Mason, MD; Nancy Frank (invited)

- 7 IDNs in state, required to do 6 projects and all have to do capacity development
  - Charge of taskforce was to design strategic plan and look at resources around state through subcommittees (4)
  - Charged with training requirements for primary care and other front-line staff
Looking at workforce development component
- Large goal is to ensure we have an adequate integrated primary care workforce around the state
  - Integrated with other initiatives to ensure efforts aren’t duplicated
  - What the subcommittee is looking at right now:
    - Programs, degrees, certificates available around state and where the gaps are to strategically address them
    - AHEC is talking to IDNs to revise health career catalog to build on behavioral health opportunities
    - Centralized training calendars
  - Sandy Blount’s involvement Antioch and UNH is now also involved
  - Planning second meeting in April
    - Invite employers to meeting so there’s a crosswalk of what providers are doing and what employers need them to do
    - To talk about current workforce needs and vacancies
    - Siloed way people are trained in mental health, especially with regard to substance use disorders and treatment options for those with co-morbidities

3:15 – 3:50  Legislative Update: (Jim Potter)
- HB 1506 – Assistant Physician bill – now named Graduate Physicians
  - Passed 12-7 in House
    - House didn’t think of impact so we need to involve those that would be heavily impacted
    - Marsh committed to senators that he would move it out of committee
    - Hoping Jim Potter can exert influence to go to ED&A instead of the floor
      - In HHS because of Jeb Bradley (sponsor)
  - Jim encourages everyone to call/write representatives and reach out to those affected so they can do the same
    - Send out email of commitment by next week with instructions on how to proceed with letters to flood in
  - Leading causes of concern
    - Medicare funding and reimbursement for this provider type
    - If the system isn’t buying in and no one’s interested in hiring them, they’ll be wasted
    - Excessive administrative burden on the Board of Medicine
      - Underestimated fiscal impact
  - Thomas Wold (PRH) to coordinate with Paula Minnehan to distribute information to members
- SB 426 – Expanding the Membership of the LCPCWI
  - Didn’t pass
  - Laurie to speak with members about next steps and possibly convening after the Commission expires

3:50 – 4:00  Updates and Next Steps
- First teleECHO session held today – Jeanne Ryer
  - Case-based learning format
    - Presents clinical case for discussion on how to better manage care
    - Today was continuity of care for a parent who suffered from perinatal substance use
- NH Physician Leadership module through NHMS
  - Facilitated through Fall Business School through UNH
  - Grant through Physicians Foundation
  - To build a set of skills to help with decision making and other qualities of leadership
  - September launch
  - Logistics
    - ½ day once a month
    - 10 modules, each about 4 hrs
    - Max 20 physicians per year
      - 2 active cohorts going on

Next meeting: Thursday March 22, 2:00-4:00pm
Practice Transformation Update

February 22nd, 2018
Janet Thomas BS, RN
NH Project Director
Northern New England Practice Transformation Network
NNE Practice Transformation Network

Partnership of NH Citizens Health Initiative
Maine Quality Counts
Vermont Program for Quality in Health Care

Funded by CMS, Transforming Clinical Practice Innovation (TCPi)

NH Partners: North Country Health Consortium, Health Information Organization, QIO, etc.
NNE Practice Transformation Network Goals

Improve health of patients
• Build better systems for providing high-quality, patient-centered care

Improve health of clinicians & practice team
• Get support for building stronger team-based care
• Access resources to strengthen individual and team resilience

Improve health of the practice
• Get help to avoid penalties & succeed in rapidly evolving value-based payment systems

WWW.CITIZENSHEALTHINITIATIVE.ORG   |  2 WHITE STREET CONCORD, NH 03301  |  TWITTER: @CITIZENSHEALTH
NNE-PTN is located in a very rural area of New England and includes Maine, New Hampshire and Vermont.

We work with 337 (93% small / rural) practices across the three states representing 2,346 providers.

NNE-Practice Transformation Network

Participation benefits

• PQRS & MIPS submission and technical assistance - No Cost
• Clinical and claims-based data reporting and support
• Customized on-site coaching & QI support
• PTN Learning Community (w/CME credits & MOC opportunities)
• Leadership and Inter-Professional training & education
• National framework & assessment tool to help measure progress towards future-state goals
• And more!

PTN: Progress through Transformation Phases
Moving Toward Value-Based Payment

NH Practice Phase Progression

95% or 174 NH practices completed Phase 1, 28 practices already in Phase 3!
CMS 5 phases of Practice Transformation

1. Set Aims
2. Use Data to Drive Care
3. Achieve Progress on Aims
4. Benchmark Status
5. Thrive as a Business via Pay for Value Approaches
MACRA is Part of a Broader Push Towards Value and Quality

In January 2015, the Department of Health and Human Services announced new goals for value-based payments and APMs in Medicare.

**Medicare Fee-for-Service**

**GOAL 1:**
Medicare payments are tied to quality or value through alternative payment models (categories 3-4) by the end of 2016, and 50% by the end of 2018

**GOAL 2:**
Medicare fee-for-service payments are tied to quality or value (categories 2-4) by the end of 2016, and 90% by the end of 2018

Source NRHI SAN
Quality Payment Program

2017 MIPS Performance

- Quality (50%)
- Advancing Care Information (25%)
- Improvement Activities (15%)

What's the Merit-based Incentive Payment System (MIPS)?

If you decide to participate in MIPS, you will earn a performance-based payment adjustment to your Medicare payment.

How Does MIPS Work?

You earn a payment adjustment based on evidence-based and practice-specific quality data. You show you provided high-quality, efficient care supported by technology by sending in information in the following categories.

<table>
<thead>
<tr>
<th>Quality</th>
<th>Improvement Activities</th>
<th>Advancing Care Information</th>
<th>Cost</th>
</tr>
</thead>
<tbody>
<tr>
<td>Replaces PQRS.</td>
<td>New Category.</td>
<td>Replaces the Medicare EHR Incentive Program also known as Meaningful Use.</td>
<td>Replaces the Value-Based Modifier.</td>
</tr>
</tbody>
</table>
Transforming Clinical Practice Innovation

**TCPI Goals**

- Support > 140,000 clinicians in their practice transformation work
- Improve health outcomes for millions of Medicare, Medicaid and CHIP beneficiaries and other patients
- Reduce unnecessary hospitalizations for 5 million patients
- Generate $1 to $4 billion in savings to the federal government and commercial payers
- Sustain efficient care delivery by reducing unnecessary testing & procedures
- Build the evidence base on practice transformation so that effective solutions can be scaled

Using Clinical Measures to Improve Care Outcomes

PTN: The percentage of patients 18 to 85 years of age who had a diagnosis of hypertension (HTN) and whose blood pressure (BP) was adequately controlled (<140/90) during the measurement year.

F = 22.8%

64.4%
NNE-PTN Performance Measure: Hypertension

Size & Scale:

125 clinicians across 33 practices care for 16,027 hypertensive patients out of a total of 90,591 patients. Hypertensive patients must meet two criteria to be considered in-control:

1. Patient diagnosed with hypertension within last year
2. 6 month follow-up and BP is <140/90

Key Interventions to Produce Result:

Key tactics used to spread success story across NNE-PTN (highlighted at TCPI’s National Expert Panel Event in June):

1. Saco Medical Group’s provider champion created on-demand, online module focused on best practice examples that enabled their success
2. Two part online module, Steps for Improving Hypertension Care, focuses on teaching the tools used to achieve success
3. NNE-PTN Practice Facilitators (QIAs) then follow-up/coach sites using the Million Hearts Campaign Best Practice Guide for Controlling Hypertension
4. Success of the spread plan is being monitored over time by NNE-PTN through quarterly reporting of Controlling High Blood Pressure (NQF 0018) measure by enrolled practices
NH BHI LEARNING COLLABORATIVE

**TIMELINE:** OCT 2017 – SEPT 2018

**Purpose:** The Learning Collaborative focuses on the bidirectional integration between behavioral health and primary care with a focus on depression, anxiety, and substance use disorder.

More than 90% of practices are submitting data!

NNE PRACTICE TRANSFORMATION NETWORK

**TIMELINE:** 2017 – 2018

**Purpose:** To prepare healthcare practices to transition from volume-based payments to value-based payments.

Data submitted by PTN & BHI Practices to the ACLN are reaching more than 521,000 patients!
PTN: Adult Depression Screening & Follow Up

Based on NQF 0418

YEAR-QUARTER

PERCENT OF PATIENTS WHO RECEIVED FOLLOW UP IF POSITIVE FOR DEPRESSION

AF = 17.1%

Median = 10.0%
PTN: Adolescent Depression Screening & Follow Up

Based on NQF 0418

PERCENT OF PATIENTS WHO RECEIVED FOLLOW UP IF POSITIVE FOR DEPRESSION

YEAR-QUARTER

2017 Q3 Median = 8.6%

AS = 2.9%
Our Product: 
First High Performing Practice Group

Primary Care practice

Goal:

**AIM 2:** Increase number of hypertensive patients with in-control BP from baseline of 64.7% by 3% Y1 & 15% at end of Y4

Performance To Date:

**AIM 2:** Q1 2017 Saco achieved 12% of their goal, translating to an additional 227 patients with in-control blood pressure
AIM 5 – Unnecessary Tests & Procedures
Performance Display

Size & Scale:
This data covers 141 clinicians in 26 practices between 2015 Q4-2016 Q4 and 186 clinician and 39 practices between 2017 Q1-Q3.

Based on New Hampshire all-payer baseline performance rate of 77.4%, these practices had 1035 fewer imaging studies over these 8 quarters.

Key Intervention to Produce Result:
NNE-PTN delivers Choosing Wisely tools, scripting & patient resources to enrolled practices.

NOTE: $913,095 saved to date
AIM 3 – Unnecessary Hospitalization Performance Display

**Size & Scale:**
1309 clinicians across 135 practices care for a total of 92,809 Medicaid and Medicare patients

**Key Interventions to Produce Result:**
PTN practices use of State HIE event notifications and chronic care management (CCM) protocols to risk stratify patients, providing better care, reducing inpatient admissions, improving patient outcomes, leading to reductions in cost of care.

Readmissions accounts for a decrease of 55 additional encounters
Goal:

**AIM 3**: Decrease unnecessary hospital encounters by 25 visits at the end of Y1 & 126 visits at end of Y4.

Performance To Date:

**AIM 3**: Through June 2016, there are 124 fewer inpatient encounters for 1009 Medicaid patients. Practice has achieved 98% of their Y4 goal.
AIM 5 – Unnecessary Tests & Procedures Performance Display

Size & Scale:
This data covers 141 clinicians in 26 practices between 2015 Q4-2016 Q4 and 186 clinician and 39 practices between 2017 Q1-Q3.

Based on New Hampshire all-payer baseline performance rate of 77.4%, these practices had 1035 fewer imaging studies over these 8 quarters.

Key Intervention to Produce Result:
NNE-PTN delivers Choosing Wisely tools, scripting & patient resources to enrolled practices.

NOTE: $913,095 saved to date
