

2023 Youth Risk Behavior Survey Central NH Region Results

New Hampshire High School Survey

Introduction

The 2023 Youth Risk Behavior Survey (YRBS) report presents data on health-risk behaviors of New Hampshire high school students by demographic characteristics. We hope this report is useful in understanding regional student behaviors and assists you in developing educational programs, curriculum and communication tools to encourage and support healthy behaviors among students in your communities.

State and Regional Estimates

State and regional estimates are calculated from a random sample developed using scientific survey methods¹. These methods use weighting to account for student, classroom, school, and regional factors in order to ensure the respondents are representative of students in the region and in the state. Surveys that have a sample selected according to CDC's randomization protocol, appropriate documentation of school and classroom selection, and an overall response rate of $\geq 60\%$ ² are weighted.

Help and Assistance

Questions on this report:
Health Statistics and Data Management
NH Division of Public Health Services
NH.YouthRiskBehaviorSurvey@dhhs.nh.gov

This report is produced in a partnership with the NH Department of Education and the NH Department of Health and Human Services.

Footnotes

¹For more details on the YRBS methodology see "Overview and Methods for the Youth Risk Behavior Surveillance System — United States, 2021" available at <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC10156160/>

²Overall response rate is computed as (number of participating schools/number of eligible sampled schools) X (number of usable questionnaires/number of eligible students sampled in participating schools), rounded to the nearest integer

Categories

- Drug Use - Behaviors
- Drug Use - Perceptions
- Alcohol Use - Behaviors
- Alcohol Use - Perceptions
- Sexual and Dating Violence
- Sexual Risk - Behaviors
- Suicide, Sadness and Helplessness
- Tobacco Use - Behaviors
- Vehicle and Bicycle Safety
- Physical Inactivity and Unhealthy Dietary Behaviors
- Bullying, Electronic Bullying and Fighting
- Other Health Risks
- Other life experience

Category: Drug Use - Behaviors

- Percent of students who tried marijuana for the first time before age 13 years (page 3)
- Percent of students who currently used marijuana (one or more times) during the past 30 days (page 4)
- Percent of students who ever took prescription pain medicine without a doctor's prescription or differently than how a doctor told them to use it (page 5)
- Percent of students who used cocaine (any form of cocaine, such as powder, crack, or freebase) one or more times during the past 30 days (page 6)
- Percent of students who ever used inhalants (sniffed glue, breathed the contents of aerosol spray cans, or inhaled any paints or sprays to get high) one or more times during their life (page 7)
- Percent of students who ever used heroin (also called smack, junk, or China White) one or more times during their life (page 8)
- Percent of students who ever used methamphetamines (also called speed, crystal meth, crank, ice, or meth) one or more times during their life (page 9)
- Percent of students who ever used ecstasy (also called "MDMA" or "Molly," one or more times during their life) (page 10)
- Percent of students who ever used synthetic marijuana (also called Spice, fake weed, K2, or Black Mamba) one or more times during their life (page 11)
- Percent of students who currently took a prescription drug without a doctor's prescription (such as OxyContin, Percocet, Vicodin, codeine, Adderall, Ritalin, or Xanax, one or more times) during the past 30 days (page 12)
- Percent of students who were offered, sold, or given an illegal drug on school property during the past 12 months (page 13)

Drug Use - Behaviors: Percent of students who tried marijuana for the first time before age 13 years

Heterosexual	11.3	(8.0 - 15.2)	11.5	(10.5 - 12.6)
Other/questioning ²	-	-	9.8	(7.8 - 12.2)

- Suppressed following the National Center for Health Statistics Data Presentation Standards for Proportions.

¹ Hispanic/Latino includes all races. All other race groups are non-Hispanic only.

² Includes students who responded 'I describe my sexual identity some other way' or 'I am not sure about my sexual identity (questioning)'.

Notes:

How the question was actually asked: During the past 30 days, on how many days did you have 4 or more drinks of alcohol in a row, that is, within a couple of hours (if you are female) or 5 or more drinks of alcohol in a row, that is, within a couple of hours (if you are male)?

Response values: a: 0 days; b: 1 day; c: 2 days; d: 3 to 5 days; e: 6 to 9 days; f: 10 to 19 days; g: 20 or more days

Definition: Numerator: bcdefg; denominator: abcdefg

Question number: 2023Q49; 2021Q47; 2019Q42. Note: These are the New Hampshire question numbers, they may differ from the CDC standard question numbers.

Question type: CDC standard question.

Alcohol Use - Behaviors: Percent of students who usually got the alcohol they drank by someone giving it to them (among students who currently drank alcohol) during the past 30 days

	Central NH		State

- Suppressed following the National Center for Health Statistics Data Presentation Standards for Proportions.

¹ Hispanic/Latino includes all races. All other race groups are non-Hispanic only.

² Includes students who responded 'I describe my sexual identity some other way' or 'I am not sure about my sexual identity (questioning)'.

Notes:

How the question was actually asked: The last time you and your partner had sexual intercourse and used a condom, what was the main reason that you used a condom? (Select only one response.)

Response values: a: I have never had sexual intercourse; b: I have had sexual intercourse, but my partner and I did not use a condom the last time; c: To prevent pregnancy; d: To prevent sexually transmitted diseases like herpes, chlamydia, or HIV; e: To prevent both pregnancy and sexually transmitted diseases; f: For some other reason

Definition: Numerator: e; denominator: bcdef

Question number: 2023Q68. Note: These are the New Hampshire question numbers, they may differ from the CDC standard question numbers.

Question type: NH state-added question.

Sexual Risk - Behaviors: Percent of students who used or whose partner used emergency contraception or the morning after pill (also called Plan B One-Step, Next Choice, or Ella, during the 12 months before the survey, among students who had sexual intercourse)
