1. INTRODUCTION

1.1. Purpose and Overview

This Request for Proposals (RFP) is published to solicit proposals from qualified vendors to provide evidence-based opioid prescribing education, training, and technical assistance to healthcare organizations regarding opioid prescribing guidelines and non-opioid or non-pharmaceutical treatment for pain management.

Opioid prescribing education, training, and technical assistance includes offering guidance on alternative forms of treatment for pain management, in order to decrease non-prescribed pain management via opioid use, and distributing new research related to non-opioid medication or non-pharmacologic treatment for pain management.

The New Hampshire Department of Health and Human Services (Department) anticipates awarding one (1) contract for the services in this RFP.

1.2. Contract Period

The Contract resulting from this RFP is anticipated to be effective upon Governor and Executive Council approval through November 30, 2023.

The Department may extend contracted services for up to (3) three additional years, contingent upon satisfactory vendor performance, continued funding, agreement of the parties, and Governor and Executive Council approval.

2. BACKGROUND

2.1. New Hampshire Department of Health and Human Services, Bureau of Infectious Disease

- 2.1.1. The Department's mission is to join communities and families in providing opportunities for citizens to achieve health and independence. The Bureau of Infectious Disease Control contributes to this mission, in part, by working to protect the health of New Hampshire residents by investigating and tracking reports of diseases that threaten the health of the public, developing and implementing public health interventions to minimize further transmission of disease, and educating individuals, communities, health care providers, the media, and policy makers to enhance disease prevention and control efforts.
- 2.1.2. The State of New Hampshire submitted an application for funding through the Centers for Disease Control and Prevention (CDC) for the Overdose Data to Action (NU17CE924984) Grant.
- 2.1.3. New Hampshire's application proposes to use evidence-based methods to provide education, training, and technical assistance to healthcare

organizations on alternative forms of treatment for pain management in order to decrease non-prescribed pain management via opioid use.

2.2. Background

2.2.1. The State of New Hampshire is in the midst of an opioid overdose epidemic. From 2012-2016, New Hampshire became one of six (6) states with the highest drug-related overdose death rate. The New Hampshire Information and Analysis Center's, Drug Monitoring Initiative Monthly Report shows overdose deaths in New Hampshire sharply increased between 2013 and 2016. Although the counts declined slightly in recent years, the annual death cases are still respectively 411 (2019) and 402 (2020). While the balance of opioid-related morbidity and mortality has undergone a general, but not uniform shift from prescription to illicit opioids, the importance of ensuring that healthcare organizations are equipped to contribute to prevention and response solutions remains a priority. Therefore, it is important to equip healthcare organizations with knowledge that will help them to make evidence-based prescribing decisions, have timely and complete information regarding non-opioid medications and non-pharmacologic treatments, and identify individuals at risk for overdose or opioid use disorder in order to offer or connect the individual with appropriate care.

3.5.5. Culturally and Linguistically Appropriate Services

- 3.5.5.1. The Department is committed to reducing health disparities in New Hampshire and recognizes that culture and language can have a considerable impact on how individuals access and respond to health and human services. Culturally and linguistically diverse populations experience barriers in their efforts to access services. As a result, Department is strongly committed to providing culturally and linguistically

competent programs and services for its clients, and as a means of ensuring access to quality care for all. As part of that commitment, Department continuously strives to improve existing programs and services, and to bring them in line with current best practices.

- 3.5.5.2. The Department requires all Contractors and sub-recipients to provide culturally and linguistically appropriate programs and services in compliance with all applicable federal civil rights laws, which may include: Title VI of the Civil Rights Act of 1964, the Americans with Disabilities Act of 1990, the Age Discrimination Act of 1975, and the Rehabilitation Act of 1973. Collectively, these laws prohibit discrimination on the grounds of race, color, national origin, disability, age, sex, and religion.
- 3.5.5.3. There are numerous resources available to help recipients increase their ability to meet the needs of culturally, racially and linguistically diverse clients. Some of the main information sources are listed in the Bidder's Reference Guide for Completing CLAS Section of the RFP, and, in the Vendor/RFP section of the Department's website.
- 3.5.5.4. A key Title VI guidance is the National Standards for Culturally and Linguistically Appropriate Services in Health Care (CLAS Standards), developed by the U.S. Department of Health and Human Services in 2000. The CLAS Standards provide specific steps that organizations may take to make their services more culturally and linguistically appropriate. The enhanced CLAS standards, released in 2013, promote effective communication not only with persons with Limited English Proficiency, but also with persons who have other communication needs. The enhanced Standards provide a framework for organizations to best serve the nation's increasingly diverse communities.
- 3.5.5.5. Vendors are expected to consider the need for language services for individuals with Limited English Proficiency as well as other communication needs, served or likely to be encountered in the eligible service population, both in developing their budgets and in conducting their programs and activities.
- 3.5.5.6. Successful Vendors will be:
 - 3.5.5.6.1. Required to submit a detailed description of the language assistance services they will provide to LEP persons to ensure meaningful access to their programs and/or services, within ten (10)

- days of the date the contract is approved by Governor and Council; and
- 3.5.5.6.2. Monitored on their Federal civil rights compliance using the Federal Civil Rights Compliance Checklist, which can be found in the Vendor/RFP section of the Department's website.
 - 3.5.5.7. The guidance that accompanies Title VI of the Civil Rights Act of 1964 requires recipients to take reasonable steps to ensure meaningful access to their programs and services by persons with Limited English Proficiency (LEP persons). The extent of an organization's obligation to provide LEP services is based on an individualized assessment involving the balancing of four factors:
 - 3.5.5.7.1. The number or proportion of LEP persons served or likely to be encountered in the population that is eligible for the program or services (this includes minor children served by the program who have LEP parent(s) or guardian(s) in need of language assistance);
 - 3.5.5.7.2. The frequency with which LEP individuals come in contact with the program, activity or service;
 - 3.5.5.7.3. The importance or impact of the contact upon the lives of the person(s) served by the program, activity or service; and
 - 3.5.5.7.4. The resources available to the organization to provide language assistance.
 - 3.5.5.8. **Vendors are required to complete the TWO (2) steps listed in the Appendix C to this RFP, as part of their Proposal.** Completion of these two items is required not only because the provision of language and/or communication assistance is a longstanding requirement under the Federal civil rights laws, but also because consideration of all the required factors will help inform vendors' program design, which in turn, will allow vendors to put forth the best possible Proposal.
 - 3.5.5.9. For guidance on completing the two steps in Appendix C, please refer to Proposer's Reference for Completing the CLAS Section of the RFP, which is posted on the Department's website.
<http://www.dhhs.nh.gov/business/forms.htm>.

- 3.5.6.5. In addition to, and not in any way in limitation of obligations of the Contract, it is understood and agreed by the selected Vendor that the selected Vendor must be held liable for any state or federal audit exceptions and must return to the Department all payments made under the Contract to which exception has been taken, or which have been disallowed because of such an exception.

A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Nonprocurement List (of excluded parties).

APPENDIX C

Addendum to CLAS Section of RFP for Purpose of Documenting Title VI Compliance

All DHHS applicants are required to complete the following two (2) steps as part of their application:

- (1) Perform an individualized organizational assessment, using the four-factor analysis, to determine the extent of language assistance to provide for programs, services and/or activities; and;
- (2) Taking into account the outcome of the four-factor analysis, respond to the questions below.

Background:

Title VI of the Civil Rights Act of 1964 and its implementing regulations provide that no person shall be subjected to discrimination on the basis of race, color, or national origin under any program that receives Federal financial assistance. The courts have held that national origin discrimination includes discrimination on the basis of limited English proficiency. Any organization or individual that receives Federal financial assistance, through either a grant, contract, or subcontract is a covered entity under Title VI. Examples of covered entities include the NH Department of Health and Human Services and its contractors.

Covered entities are required to take reasonable steps to ensure **meaningful access** by persons with limited English proficiency (LEP) to their programs and activities. LEP persons are those with a limited ability to speak, read, write or understand English.

The **key** to ensuring meaningful access by LEP persons is effective communication. An agency or provider can ensure effective communication by developing and implementing a language assistance program that includes policies and procedures for identifying and assessing the language needs of its LEP clients/applicants, and that provides for an array of language assistance options, notice to LEP persons of the right to receive language assistance free of charge, training of staff, periodic monitoring of the program, and translation of certain written materials.

The Office for Civil Rights (OCR) is the federal agency responsible for enforcing Title VI. OCR recognizes that covered entities vary in size, the number of LEP clients needing assistance, and the nature of the services provided. Accordingly, covered entities have some flexibility in how they address the needs of their LEP clients. (In other words, it is understood that one size language assistance program does not fit all covered entities.)

The **starting point** for covered entities to determine the extent of their obligation to provide LEP services is to apply a four-factor analysis to their organization. It is important to understand that the flexibility afforded in addressing the needs of LEP clients **does not diminish** the obligation covered entities have to address those needs.

APPENDIX C

Examples of practices that may violate Title VI include:

- Limiting participation in a program or activity due to a person's limited English proficiency;
- Providing services to LEP persons that are more limited in scope or are lower in quality than those provided to other persons (such as when there is no qualified interpretation provided);
- Failing to inform LEP persons of the right to receive free interpreter services and/or requiring LEP persons to provide their own interpreter;
- Subjecting LEP persons to unreasonable delays in the delivery of services.

Applicant STEP #1 – Individualized Assessment Using Four-Factor Analysis

The four-factor analysis helps an organization determine the right mix of services to provide to their LEP clients. The right mix of services is based upon an individualized assessment, involving the balancing of the following four factors.

- (1) The **number** or proportion of LEP persons served or likely to be encountered in the population that is eligible for the program;
- (2) The **frequency** with which LEP individuals come in contact with the program, activity or service;
- (3) The **importance** or impact of the contact upon the lives of the person(s) served by the program, activity or service;
- (4) The **resources** available to the organization to provide effective language assistance.

This addendum was created to facilitate an applicant's application of the four-factor analysis to the services they provide. At this stage, applicants are not required to submit their four-factor analysis as part of their application. **However, successful applicants will be required to submit a detailed description of the language assistance services they will provide to LEP persons to ensure meaningful access to their programs and/or services, within 10 days of the date the contract is approved by Governor and Council.** For further guidance, please see the Bidder's Reference for Completing the Culturally and Linguistically Appropriate Services (CLAS) Section of the RFP, which is available in the Vendor/RFP Section of the DHHS website.

APPENDIX C

Important Items to Consider When Evaluating the Four Factors.

Factor #1 The number or proportion of LEP persons served or encountered in the population that is eligible for the program.

Considerations:

- The eligible population is specific to the program, activity or service. It includes LEP persons serviced by the program, as well as those directly affected by the program, activity or service.
- Organizations are required not only to examine data on LEP persons served by their program, but also those in the community who are **eligible** for the program (but who are not currently served or participating in the program due to existing language barriers).
- Relevant data sources may include information collected by program staff, as well as external data, such as the latest Census Reports.
- Recipients are required to apply this analysis to each language in the service area. When considering the number or proportion of LEP individuals in a service area, recipients should consider whether the minor children their programs serve have LEP parent(s) or guardian(s) with whom the recipient may need to interact. It is also important to consider language minority populations that are eligible for the programs or services, but are not currently served or participating in the program, due to existing language barriers.
- An effective means of determining the number of LEP persons served is to record the preferred languages of people who have day-to-day contact with the program.
- It is important to remember that the **focus** of the analysis is on the lack of English proficiency, not the ability to speak more than one language.

Factor #2: The frequency with which LEP individuals come in contact with the program, activity or service.

- The more frequently a recipient entity has contact with individuals in a particular language group, the more likely that language assistance in that language is needed. For example, the steps that are reasonable for a recipient that serves an LEP person on a one-time basis will be very different from those that are expected from a recipient that serves LEP persons daily.
- Even recipients that serve people from a particular language group infrequently or on an unpredictable basis should use this four-factor analysis to determine what to do if an LEP person seeks services from their program.
- The resulting plan may be as simple as being prepared to use a telephone interpreter service.
- The key is to have a plan in place.

APPENDIX C

Factor #3 The importance or impact of the contact upon the lives of the person(s) served by the program, activity or service.
--

- | |
|---|
| <ul style="list-style-type: none">• The more important a recipient's activity, program or service, or the greater the possible consequence of the contact to the LEP persons, the more likely language services are needed.• When considering this factor, the recipient should determine both the importance, as well as the urgency of the service. For example, if the communication is both important and urgent (such as the need to communicate information about an emergency medical procedure), it is more likely that immediate language services are required. If the information to be communicated is important but not urgent (such as the need to communicate information about elective surgery, where delay will not have any adverse impact on the patient's health), it is likely that language services are required, but that such services can be delayed for a reasonable length of time. |
|---|

Factor #4 The resources available to the organization to provide effective language assistance.
--

- | |
|---|
| <ul style="list-style-type: none">• A recipient's level of resources and the costs of providing language assistance services is another factor to consider in the analysis.• Remember, however, that cost is merely one factor in the analysis. Level of resources and costs do not diminish the requirement to address the need, however they may be considered in determining how the need is addressed;• Resources and cost issues can often be reduced, for example, by sharing language assistance materials and services among recipients. Therefore, recipients should carefully explore the most cost-effective means of delivering quality language services prior to limiting services due to resource limitations. |
|---|

APPENDIX C

Applicant STEP #2 - Required Questions Relating to Language Assistance Measures

Taking into account the four-factor analysis, please answer the following questions in the six areas of the table below. (**Do not** attempt to answer the questions until you have completed the four-factor analysis.) The Department understands that your responses will depend on the outcome of the four-factor analysis. The requirement to provide language assistance does not vary, but the measures taken to provide the assistance will necessarily differ from organization to organization.

1. IDENTIFICATION OF LEP PERSONS SERVED OR LIKELY TO BE ENCOUNTERED IN YOUR PROGRAM		
a. Do you make an effort to identify LEP persons served in your program? (One way to identify LEP persons served in your program is to collect data on ethnicity, race, and/or preferred language.)	Yes	No

5. ENSURING COMPETENCY OF INTERPRETERS USED IN PROGRAM AND THE ACCURACY OF TRANSLATED MATERIALS			
a. Do you make effort to assess the language fluency of all interpreters used in your program to determine their level of competence in their specific field of service? (Note: A way to fulfill this requirement is to use certified interpreters only.)	Yes	No	
b. As a general rule, does your organization avoid the use of family members, friends, and other untested individual to provide interpretation services?	Yes	No
