1.4. Background

1.4.1. New Hampshire Department of Health and Human Services, Division for Long Term Supports and Services, Bureau of Developmental Services

The Department is responsible for promoting the health, safety, and well-being of the citizens of New Hampshire. To achieve that goal, the Department provides services for children, families, individuals, and seniors in areas such as mental health, developmental disabilities, substance abuse, and public health. The Department does this work through partnerships with families, community groups, providers, other state and local entities, and NH citizens.

The Bureau of Developmental Services (BDS) is committed to joining communities and families in providing opportunities for citizens to achieve health and independence. In partnership with consumers, families, and community based service networks, BDS affirms the vision that all citizens should participate in the life of their community while receiving the supports they need to be productive and valued community members.

1.4.2. Objective

Clubhouse Model services are integral to the population of people with acquired brain disorder (ABD) and traumatic brain injury (TBI), because this model offers opportunities for socialization, resources for pathways to employment, and recreational opportunities.

The Department seeks to meet the needs of the target population by developing more centralized options for Clubhouse Model supports. Accessibility to these services is critical, as only one organization currently offers these services in New Hampshire.

1.4.3. Covered Populations

New Hampshire Department of Health and Human Services
