1.4. Background

1.4.1. New Hampshire Department of Health and Human Services, Division of Long Term Supports and Services, Bureau of Developmental Services

The Department is responsible for promoting the health, safety, and well-being of the citizens of New Hampshire. To achieve that goal, the Department provides services for children, families, individuals, and people who are aging in areas such as mental health, developmental disabilities, substance abuse, guidance support and choice regarding service options and public health. The Department does this work through partnerships with families, community groups, providers, other state and local entities, and NH citizens.

The Division of Long Term Supports and Services joins with local communities to support individuals of all ages with developmental disabilities or acquired brain disorders and their families to experience as much freedom, choice, control and responsibility over the services and supports they receive as desired.

The Bureau of Developmental Services (BDS) is committed to joining communities and families in providing opportunities for citizens to achieve health and independence. In partnership with consumers, families, and community based service networks, BDS affirms the vision that all citizens should participate in the life of their community while receiving the supports they need to be productive and valued community members.

The Bureau of Elderly and Adult Services (BEAS) provides a variety of social and long-term supports to adults age 60 and older and to adults between the ages of 18 and 60 who have a chronic illness or disability. Services and supports can be accessed through contracted aging network vendors, enrolled Medicaid providers, ServiceLink and New Hampshire DHHS/BEAS District Offices. Services and supports are intended to assist people to live as independently as possible.

1.4.2. Objective

The Department seeks to ensure the needs of individuals with disabilities throughout the state are met, by providing measurable, systematic and beneficial training to case managers who serve this population. This training will ensure competence and a standardized approach to providing and updating training regarding case management services.

1.4.3. Covered Populations

The population to be served through the resulting contract is case management professionals, the Bureau of Developmental Services Area Agencies (AAs) and/or Independent Case Management Agencies who provide targeted case management and/or Service Coordination services in New Hampshire to Home and Community Based Care Services (HCBS) Waiver participants.
