## **1. INTRODUCTION**

### **1.1. Purpose and Overview**

This Request for Proposals (RFP) is published to solicit proposals for the provision of a consulting firm to conduct a comprehensive evaluation of the Department's Medicaid Care Management (MCM) model and other complementary health and human services within the Department. The goals of the resulting contract include evaluating the performance of the current MCM model in meeting the physical, behavioral, and human service needs of the population and identifying additional models that may optimize the delivery of services and improve outcomes for those served.

The New Hampshire Department of Health and Human Services (Department) anticipates awarding one (1) contract for the services in this RFP.

The selected Vendor is prohibited from providing consultative services to organizations applying to the Department's future competitive Medicaid Care Management (MCM) Services procurement. This prohibition only applies to the subsequent confidential work performed from this resulting contract and the Department's future MCM services procurement. Once the Department enters into a contract(s), as approved by Governor and Executive Council, for the MCM services, the selected Vendor can provide consultative services to the MCM providers.

### **1.2. Contract Period**

The Contract resulting from this RFP is anticipated to be effective August 2022, or upon Governor and Executive Council approval, whichever is later through June 30, 2023.

The Department may extend contracted services for up to one (1) additional year, contingent upon satisfactory Contractor performance, continued funding, and Governor and Executive Council approval.

## **2. BACKGROUND**

### **2.1. New Hampshire Department of Health and Human Services, Division of Medicaid Services, Medicaid Care Management (MCM) Program**

The Division of Medicaid Services (DMS) has functional responsibility for New Hampshire's Medical Assistance Program (Medicaid) as well as health planning, reporting, data and research. DMS is dedicated to the identification of NH's health care needs through assessment of health care and social services delivery systems.

DMS is responsible for the administration of Medicaid for New Hampshire adults and children who are categorically eligible. DMS's development and facilitation of program policy and financial management for Medicaid services assists other Department program areas manage specialized Medicaid programs for children, seniors, individuals who are blind or have a disability, including those with mental illness, developmental disability, physical disability, substance use disorder or perinatal addition, and those residing in long-term care facilities.

The MCM Program, or managed care, delivers New Hampshire Medicaid health benefits and additional services through contracts between the Department and managed care organizations (MCOs) or Medicaid Health Plans. Most New Hampshire Medicaid recipients receive their care from one (1) of the three (3) existing Health Plans:

- AmeriHealth Caritas New Hampshire
- NH Healthy Families
- WellSense Health Plan

The three (3) Health Plans cover the same NH Medicaid state plan services but may have different provider networks and prior authorization requirements. For example, AmeriHealth Caritas New Hampshire offers a limited dental benefit under a value add option.

## **2.2. Background**

In 2011, New Hampshire state legislature passed Senate Bill 147 to move from a fee-for-service Medicaid model to the current MCM model. The intent of this transition and model was to improve the value of care by enhancing coordination and quality while reducing costs and generating savings to the state. Services managed within the model included mandatory Medicaid covered services as well as care coordination, utilization management, disease management, pharmacy benefit management, provider network management, and quality management. New Hampshire also designed its unique MCM model to include wraparound services and care coordination within the behavioral health and chronic health conditions, offerings to incorporate case management, job training and housing assistance. As stated in the original legislation, the selected managed care organizations were intended to emphasize person-centered and value-based care and include enhanced care management of high-risk and vulnerable populations as identified by the Department.

During State Fiscal Year 2020, New Hampshire launched the second iteration of the managed care contract under the Medicaid Care Management model through a competitive RFP process that included revisions to scope and expectations based on a careful evaluation of the first five (5) years. This second phase included a significantly increased focus on care management, specifically locally provided, for an increased percent of the highest risk beneficiaries, wraparound services for pregnant women and mothers with substance use disorders, housing stabilization services as well as the following:

- MCO contract provisions include provider alignment incentives to leverage the combined efforts of the parties to achieve the purposes of the incentives.
- Preferential auto-assignment of newly eligible members, shared incentive pools, and differential capitation rates were among the options for incentives employed to achieve improved performance.

- Initial areas to improve care quality and utilization and to lower the total cost of care included, but were not limited to:
  - Appropriate use of emergency departments relative to low acuity non-emergent visits.
  - Reduction in preventable admissions and 30-day hospital readmission for all causes.
  - Timeliness of prenatal care and reductions in neonatal abstinence births.
  - Timeliness of follow-up after a mental health or substance use disorder admission.
  - Reduction of polypharmacy resulting in drug interaction harm.
- Actuarially appropriate remedies provisions for failure of MCOs to implement contractually agreed upon incentive measures.
- A minimum medical loss ratio that is actuarially sound and encourages cost efficiency in the delivery of care to the entire Medicaid population.

The MCO contract is the single largest contract for the State of New Hampshire. Over the term of the re-procured contract covering the period September 1, 2019 through August 31, 2024, the estimated expenditures will likely exceed \$6.0 billion.

It is incumbent on the State to ensure its Medicaid beneficiaries are receiving the highest quality, value-driven care to meet all of their physical, behavioral and human service needs; among the major components of the MCM program is the Medicaid Managed Care contract

As the State of New Hampshire continues to face the short- and long-term systemic challenges from the COVID-19 pandemic, particularly for the health and well-being of NH's most vulnerable individuals and families, coupled with the limited availability of community-based psychiatric beds, ongoing and increased substance use, lack of affordable housing, food insecurity, workforce challenges due to low unemployment a clear need and responsibility exists to evaluate the effectiveness, success and recommended changes to the current MCM model and the integration with other services in the Department.

## **2.1. Goals**

The goal of this RFP is to identify how to increase the beneficial program impacts for beneficiaries while improving quality and bending the future cost trends of the Department's programs. The selected Vendor will assess and identify opportunities within the current service delivery model, including both the MCM program and other program areas. The current model could be characterized as more of a needs-based eligibility approach that begins services once a person meets eligibility. The Department is seeking to evolve to a more preventative focused model that is more value-based with increased

long-run cost-effectiveness with enhanced delivery of services for the citizens of NH while improving quality and program spending growth trends. The Department is seeking a vendor that is able to demonstrate their assigned staff's experience, capacity, and approach to perform a comprehensive evaluation of the Department's MCM program. The goal of this consulting engagement is to answer the following strategic questions:

- a. *What are other models to organize and finance the delivery of Medicaid and Health and Human Services benefits and services that have proven effective in other states to focus on prevention, value, cost-effectiveness and enhanced delivery of services for beneficiaries?*
- b. *Given the models studied in other states as well other relevant best practices, please provide three (3) potential models to best organize and finance the delivery of Medicaid benefits and services for individuals and families in New Hampshire (accounting for NH's population size, geography, etc.)?*
- c. *Provide 10 major strengths and weaknesses of New Hampshire's current Medicaid Care Management model.*
- d. *Describe how the organizing and financing of Medicaid benefits and services for NH beneficiaries could be better aligned with other health and human services benefits including economic assistance, nutrition assistance, housing assistance, employment and family supports?*
- e. *Additionally, what options exist to better align New Hampshire's Medicaid services with other health and human services from a programmatic and geographic perspective?*

#### **3.4.5. Culturally and Linguistically Appropriate Services**

- 3.4.5.1. The Department is committed to reducing health disparities in New Hampshire and recognizes that culture and language can have a considerable impact on how individuals access

and respond to health and human services. Culturally and linguistically diverse populations experience barriers in their efforts to access services. As a result, the Department is strongly committed to providing culturally and linguistically competent programs and services for its clients, and as a means of ensuring access to quality care for all. As part of that commitment, the Department continuously strives to improve existing programs and services, and to bring them in line with current best practices.

- 3.4.5.2. The Department requires all Contractors and sub-recipients to provide culturally and linguistically appropriate programs and services in compliance with all applicable federal civil rights laws, which may include: Title VI of the Civil Rights Act of 1964, the Americans with Disabilities Act of 1990, the Age Discrimination Act of 1975, and the Rehabilitation Act of 1973. Collectively, these laws prohibit discrimination on the grounds of race, color, national origin, disability, age, sex, and religion.
- 3.4.5.3. There are numerous resources available to help recipients increase their ability to meet the needs of culturally, racially and linguistically diverse clients. Some of the main information sources are listed in the Bidder's Reference Guide for Completing CLAS Section of the RFP, and, in the Vendor/RFP section of the Department's website.
- 3.4.5.4. A key Title VI guidance is the National Standards for Culturally and Linguistically Appropriate Services in Health Care (CLAS Standards), developed by the U.S. Department of Health and Human Services in 2000. The CLAS Standards provide specific steps that organizations may take to make their services more culturally and linguistically appropriate. The enhanced CLAS standards, released in 2013, promote effective communication not only with persons with Limited English Proficiency, but also with persons who have other communication needs. The enhanced Standards provide a framework for organizations to best serve the nation's increasingly diverse communities.
- 3.4.5.5. Contractors are expected to consider the need for language services for individuals with Limited English Proficiency as well as other communication needs, served or likely to be encountered in the eligible service population, both in developing their budgets and in conducting their programs and activities.
- 3.4.5.6. Successful Contractors will be:

- 3.4.5.6.1. Required to submit a detailed description of the language assistance services they will provide to LEP persons to ensure meaningful access to their programs and/or services, within ten (10) days of the date the contract is approved by Governor and Council; and
- 3.4.5.6.2. Monitored on their Federal civil rights compliance using the Federal Civil Rights Compliance Checklist, which can be found in the Vendor/RFP section of the Department's website.
- 3.4.5.7. The guidance that accompanies Title VI of the Civil Rights Act of 1964 requires recipients to take reasonable steps to ensure meaningful access to their programs and services by persons with Limited English Proficiency (LEP persons). The extent of an organization's obligation to provide LEP services is based on an individualized assessment involving the balancing of four factors:
  - 3.4.5.7.1. The number or proportion of LEP persons served or likely to be encountered in the population that is eligible for the program or services (this includes minor children served by the program who have LEP parent(s) or guardian(s) in need of language assistance);
  - 3.4.5.7.2. The frequency with which LEP individuals come in contact with the program, activity or service;
  - 3.4.5.7.3. The importance or impact of the contact upon the lives of the person(s) served by the program, activity or service; and
  - 3.4.5.7.4. The resources available to the organization to provide language assistance.
- 3.4.5.8. **Contractors are required to complete the TWO (2) steps listed in the Appendix B to this RFP, as part of their Proposal.** Completion of these two items is required not only because the provision of language and/or communication assistance is a longstanding requirement under the Federal civil rights laws, but also because consideration of all the required factors will help inform Vendors' program design, which in turn, will allow Vendors to put forth the best possible Proposal.

- 3.4.5.9. For guidance on completing the two steps in Appendix B, please refer to Proposer's Reference for Completing the CLAS Section of the RFP, which is posted on the Department's website.  
<http://www.dhhs.nh.gov/business/forms.htm>.

- 3.4.6.3. If Condition B or Condition C exists, the Contractor shall submit an annual **financial audit** performed by an independent CPA within 120 days after the close of the Contractor's fiscal year.

- 3.4.6.4. Any Contractor that receives an amount equal to or greater than \$250,000 from the Department during a single fiscal year, regardless of the funding source, may be required, at a minimum, to submit annual financial audits performed by an independent CPA if the Department's risk assessment determination indicates the Contractor is high-risk.

- 3.4.6.5. In addition to, and not in any way in limitation of obligations of the Contract, it is understood and agreed by the Contractor that the Contractor shall be held liable for any state or federal

audit exceptions and shall return to the Department all payments made under the Contract to which exception has been taken, or which have been disallowed because of such an exception.

## APPENDIX B

### Addendum to CLAS Section of RFP for Purpose of Documenting Title VI Compliance

**All DHHS applicants are required to complete the following two (2) steps as part of their application:**

- (1) Perform an individualized organizational assessment, using the four-factor analysis, to determine the extent of language assistance to provide for programs, services and/or activities; and;
- (2) Taking into account the outcome of the four-factor analysis, respond to the questions below.

#### **Background:**

Title VI of the Civil Rights Act of 1964 and its implementing regulations provide that no person shall be subjected to discrimination on the basis of race, color, or national origin under any program that receives Federal financial assistance. The courts have held that national origin discrimination includes discrimination on the basis of limited English proficiency. Any organization or individual that receives Federal financial assistance, through either a grant, contract, or subcontract is a covered entity under Title VI. Examples of covered entities include the NH Department of Health and Human Services and its contractors.

Covered entities are required to take reasonable steps to ensure **meaningful access** by persons with limited English proficiency (LEP) to their programs and activities. LEP persons are those with a limited ability to speak, read, write or understand English.

The **key** to ensuring meaningful access by LEP persons is effective communication. An agency or provider can ensure effective communication by developing and implementing a language assistance program that includes policies and procedures for identifying and assessing the language needs of its LEP clients/applicants, and that provides for an array of language assistance options, notice to LEP persons of the right to receive language assistance free of charge, training of staff, periodic monitoring of the program, and translation of certain written materials.

The Office for Civil Rights (OCR) is the federal agency responsible for enforcing Title VI. OCR recognizes that covered entities vary in size, the number of LEP clients needing assistance, and the nature of the services provided. Accordingly, covered entities have some flexibility in how they address the needs of their LEP clients. (In other words, it is understood that one size language assistance program does not fit all covered entities.)

The **starting point** for covered entities to determine the extent of their obligation to provide LEP services is to apply a four-factor analysis to their organization. It is important to understand that the flexibility afforded in addressing the needs of LEP clients **does not diminish** the obligation covered entities have to address those needs.

## APPENDIX B

Examples of practices that may violate Title VI include:

- Limiting participation in a program or activity due to a person's limited English proficiency;
- Providing services to LEP persons that are more limited in scope or are lower in quality than those provided to other persons (such as when there is no qualified interpretation provided);
- Failing to inform LEP persons of the right to receive free interpreter services and/or requiring LEP persons to provide their own interpreter;
- Subjecting LEP persons to unreasonable delays in the delivery of services.

### **Applicant STEP #1 – Individualized Assessment Using Four-Factor Analysis**

The four-factor analysis helps an organization determine the right mix of services to provide to their LEP clients. The right mix of services is based upon an individualized assessment, involving the balancing of the following four factors.

- (1) The **number** or proportion of LEP persons served or likely to be encountered in the population that is eligible for the program;
- (2) The **frequency** with which LEP individuals come in contact with the program, activity or service;
- (3) The **importance** or impact of the contact upon the lives of the person(s) served by the program, activity or service;
- (4) The **resources** available to the organization to provide effective language assistance.

This addendum was created to facilitate an applicant's application of the four-factor analysis to the services they provide. At this stage, applicants are not required to submit their four-factor analysis as part of their application. **However, successful applicants will be required to submit a detailed description of the language assistance services they will provide to LEP persons to ensure meaningful access to their programs and/or services, within 10 days of the date the contract is approved by Governor and Council.** For further guidance, please see the Bidder's Reference for Completing the Culturally and Linguistically Appropriate Services (CLAS) Section of the RFP, which is available in the Vendor/RFP Section of the DHHS website.

## APPENDIX B

### Important Items to Consider When Evaluating the Four Factors.

#### **Factor #1 The number or proportion of LEP persons served or encountered in the population that is eligible for the program.**

##### Considerations:

- The eligible population is specific to the program, activity or service. It includes LEP persons serviced by the program, as well as those directly affected by the program, activity or service.
- Organizations are required not only to examine data on LEP persons served by their program, but also those in the community who are **eligible** for the program (but who are not currently served or participating in the program due to existing language barriers).
- Relevant data sources may include information collected by program staff, as well as external data, such as the latest Census Reports.
- Recipients are required to apply this analysis to each language in the service area. When considering the number or proportion of LEP individuals in a service area, recipients should consider whether the minor children their programs serve have LEP parent(s) or guardian(s) with whom the recipient may need to interact. It is also important to consider language minority populations that are eligible for the programs or services, but are not currently served or participating in the program, due to existing language barriers.
- An effective means of determining the number of LEP persons served is to record the preferred languages of people who have day-to-day contact with the program.
- It is important to remember that the **focus** of the analysis is on the lack of English proficiency, not the ability to speak more than one language.

#### **Factor #2: The frequency with which LEP individuals come in contact with the program, activity or service.**

- The more frequently a recipient entity has contact with individuals in a particular language group, the more likely that language assistance in that language is needed. For example, the steps that are reasonable for a recipient that serves an LEP person on a one-time basis will be very different from those that are expected from a recipient that serves LEP persons daily.
- Even recipients that serve people from a particular language group infrequently or on an unpredictable basis should use this four-factor analysis to determine what to do if an LEP person seeks services from their program.
- The resulting plan may be as simple as being prepared to use a telephone interpreter service.
- The key is to have a plan in place.

## APPENDIX B

<b>Factor #3 The importance or impact of the contact upon the lives of the person(s) served by the program, activity or service.</b>
--

- |   |
|---|
| <ul style="list-style-type: none"><li>• The more important a recipient's activity, program or service, or the greater the possible consequence of the contact to the LEP persons, the more likely language services are needed.</li><li>• When considering this factor, the recipient should determine both the importance, as well as the urgency of the service. For example, if the communication is both important and urgent (such as the need to communicate information about an emergency medical procedure), it is more likely that immediate language services are required. If the information to be communicated is important but not urgent (such as the need to communicate information about elective surgery, where delay will not have any adverse impact on the patient's health), it is likely that language services are required, but that such services can be delayed for a reasonable length of time.</li></ul> |
|---|

<b>Factor #4 The resources available to the organization to provide effective language assistance.</b>
--

- |   |
|---|
| <ul style="list-style-type: none"><li>• A recipient's level of resources and the costs of providing language assistance services is another factor to consider in the analysis.</li><li>• Remember, however, that cost is merely one factor in the analysis. Level of resources and costs do not diminish the requirement to address the need, however they may be considered in determining how the need is addressed;</li><li>• Resources and cost issues can often be reduced, for example, by sharing language assistance materials and services among recipients. Therefore, recipients should carefully explore the most cost-effective means of delivering quality language services prior to limiting services due to resource limitations.</li></ul> |
|---|

## APPENDIX B

### **Applicant STEP #2 - Required Questions Relating to Language Assistance Measures**

Taking into account the four-factor analysis, please answer the following questions in the six areas of the table below. (**Do not** attempt to answer the questions until you have completed the four-factor analysis.) The Department understands that your responses will depend on the outcome of the four-factor analysis. The requirement to provide language assistance does not vary, but the measures taken to provide the assistance will necessarily differ from organization to organization.

<b>5. ENSURING COMPETENCY OF INTERPRETERS USED IN PROGRAM AND THE ACCURACY OF TRANSLATED MATERIALS</b>			
<b>a. Do you make effort to assess the language fluency of all interpreters used in your program to determine their level of competence in their specific field of service?</b> (Note: A way to fulfill this requirement is to use certified interpreters only.)	Yes	No
