1. INTRODUCTION

1.1. Purpose and Overview

This Request for Proposals (RFP) is published to solicit proposals from Vendors to conduct audits of New Hampshire's contracted Medicaid Managed Care Organizations' (MCOs) reported Medical Loss Ratio (MLR) under federal guidance.

The Department of Health and Human Services – Division of Medicaid Services (Department) is seeking one (1) Vendor to provide the following services, in consultation with the Department:

- Annual audits of MLR of the Department's contracted MCOs;
- Technical assistance to the Department in the application of federal MLR regulations for MCO contracts and reporting requirements;
- Technical assistance to Department staff in the creation of reports, presentations, and other documents for state or federal policymakers on topics related to MLR audits, including impacts of any proposed changes in federal requirements; and
- Education and training for Department staff as needed on federal MLR policy and national comparisons to other states and the impact to New Hampshire as requested.

1.2. Contract Period

The Contract resulting from this RFP will be effective January 1, 2023, upon Governor & Executive Council approval, whichever is later, through December 31, 2025.

The Department may extend contracted services for up to four (4) additional years, contingent upon satisfactory vendor performance, continued funding, and Governor and Executive Council approval.

2. BACKGROUND

2.1. New Hampshire Department of Health and Human Services, Division of Medicaid Services (DMS)

The Department utilizes a managed care delivery system to deliver New Hampshire Medicaid health benefits as well as additional services, and will utilize a managed care delivery system for dental benefits starting in April 2023. The Department's current health benefit contracts with managed care organizations, to cover State Plan services, are valued at approximately \$3.5 billion combined, for the three (3) most recent years.

2.2. Background

The Medical Loss Ratio is an expression of the amount an insurer, in this case the Department's managed care organizations (MCO or "plan") expends on medical care through claims or expenses that improve health quality compared to revenue from premiums.

Federal regulations at 42 CFR 438.8 establish MLR reporting standards for State Medicaid managed care program. The Department and its contracted actuary regularly receive MCO financial information, encounter data, and medical loss ratio reports. States are obligated to ensure that MCO-reported MLR data is used by the actuary to set future payment rates for managed care so that the MCO plans will “reasonably achieve” an MLR of at least 85%.

Pursuant to 42 CFR 438.602 (e), the Department is required to ensure an independent audit is conducted at least every three years of the accuracy, truthfulness, and completeness of encounter and financial data submitted by each MCO.
