

ADDENDUM #1

RFP-2023-DPHS-03-PERSO

(Changes are in **bold, underlined and italicized text** below to enable vendors to quickly recognize changes in paragraphs and/or wording.)

On April 25, 2022, the New Hampshire Department of Health and Human Services published a Request for Proposals, soliciting proposals from vendors for the provision of Personal Responsibility Education Programs (PREP) to provide adolescents with evidence-based sexual health education on abstinence and contraception and adult preparation subjects, in the city of Nashua, city of Manchester and the Claremont/Greater Sullivan County area for the prevention of adolescent pregnancy and sexually transmitted infections (STIs).

The three (3) service areas identified above have been pre-selected as PREP implementation sites due to the significantly higher teenage birth rates in these New Hampshire communities.

The Department is publishing this addendum to:

1. Modify Section 1. Introduction, Subsection 1.1. Purpose and Overview, 2nd Paragraph, to read:

The three (3) service areas identified above have been pre-selected as PREP implementation sites due to the significantly higher teenage birth rates in these New Hampshire communities. **Vendors may propose PREP programming in one (1) or more of the three (3) service areas above by submitting a separate proposal for each proposed service area. Therefore, each proposal submitted must specify PREP programming in only one (1) of the three (3) service areas above.** Proposers must be located in New Hampshire.
